Schroder International Selection Fund Global Equity A Accumulation USD / LU0215105999 / A0ERHV / Schroder IM

Investment strategy

The fund is actively managed and invests at least two-thirds of its assets in equities of companies worldwide. The investment manager seeks to identify companies that it believes will deliver future earnings growth above the level expected by the market typically on a three to five year horizon (we refer to this as 'a positive growth gap'). The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus). The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

Investment goal

The fund aims to provide capital growth in excess of the MSCI All Country (AC) World (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of companies worldwide.
