Schroder International Selection Fund Global Inflation Linked Bond A Distribution EUR QV / LU0671502010 / A1JHN0

Investment strategy

The fund is actively managed and invests at least two-thirds of its assets in inflation-linked bonds with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) issued by governments, government agencies, supra-nationals and companies worldwide. Inflation-linked bonds provide protection against the effects of rising prices as generally both the value of the original amount borrowed and the interest payments move in line with consumer prices.

Investment goal

The fund aims to provide capital growth and income in excess of the ICE BofA Global Governments Inflation-Linked EUR Hedged Index after fees have been deducted over a three to five year period by investing in inflation-linked bonds.
