### Investment strategy

At least 70% of the Fund is invested in higher yielding debt securities (also known as bonds), either directly or indirectly through derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment). Bonds may be issued or guaranteed by governments or companies located anywhere in the world including emerging markets. Bonds may be investment grade or sub-investment grade or unrated, may have any maturity including long term, short term or may have no set maturity, may have fixed, variable, or floating rates of interest and may be denominated in any currency. The Fund may also invest up to 30% in other transferable securities including shares and liquid assets.

## Investment goal

The Fund's objective is to achieve a high income with the prospect of capital growth by investing in a portfolio of global fixed interest securities
