Investment strategy

The sub-fund invests mainly in international equity markets. The fund can invest up to 10% of the net assets in bonds with a rating below investment grade. The fund manager seeks to invest thematically in companies that provide products or services that are addressing climate change mitigation, such as companies providing low carbon solutions, enabling emissions reductions, or undertaking activities that contribute to a transition to net zero emissions by 2050 (including companies involved in the more efficient extraction of commodities).

Investment goal

The sub-fund aims to outperform its reference indicator, the MSCI AC WORLD NR (USD) index (Bloomberg code: NDUEACWF), calculated with net dividends reinvested, then converted into euro for EUR Shares, and into the relevant reference currency for unhedged Shares. over a recommended investment period of five years. The sub-fund seeks to invest sustainably for long-term growth and pursues a thematic approach for a positive environmental contribution.
