Xtrackers II ESG Global Aggregate Bond UCITS ETF 1D / LU0942970103 / DBX0NV / DWS Investment SA

Investment strategy

To achieve the aim, the fund will i) attempt to replicate the index, before fees and expenses, by buying a portfolio of securities that may comprise the constituents of the index or other unrelated investments or other eligible assets (including to-be-announced (TBA) securities and mortgage-backed securities (MBS)) as determined by DWS entities and ii) enter into financial contracts (derivatives) which attempt to reduce the effect of exchange rate fluctuations between the currency of the assets of the fund and the currency of your shares. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives.

Investment goal

The fund is passively managed. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. The aim is for your investment to reflect the performance of the Bloomberg MSCI Global Aggregate Sustainable and SRI Currency Neutral Index (index) while seeking to minimise foreign currency fluctuations at share class level. The index reflects the performance of a broad-based measure of the global investment grade fixed-rate debt markets.
