## Allianz Strategy 50 - PT - USD / LU1250163752 / A14VR7 / Allianz GI.Investors

### Investment strategy

We invest directly or using derivatives in equities and equivalent securities as well as in bonds of good credit quality, money markets instruments and cash. The issuers of these securities must mostly have their registered offices in a developed country. We may invest in bonds with a duration of max. 1 year (cash bonds) which have to fulfill certain environmental, social and corporate governance criteria. The fund has an average duration (residual maturity) between zero and nine years. The currency risk for the fund's assets which are not related to equities is limited to a maximum of 5% from an Euro perspective. This Sub-Fund is not managed by us in reference to a Benchmark. We follow an active management approach.

### Investment goal

In pursuing a quantitative approach the fund aims to generate capital growth in the long term comparable to a portfolio consisting of 50% global equity markets and 50% medium-term Euro Bond markets.
