Investment strategy

The Sub-Fund"s securities will generally be similar to those of the Benchmark but the security weightings are expected to differ materially. The Investment Manager may also select securities not included in the Benchmark in order to take advantage of investment opportunities. The Sub-Fund aims to generate capital growth over the long term with a level of income expected to be low. It mainly invests in shares issued by companies worldwide that will provide or benefit from technological advances and improvements in relation to products, processes or services. Even if a large part of the underlying shares will be incorparated in North America or Europe, the Investment Manager keep his freedom to invest outside these countries, like in Asia and in other Emerging Markets.
