### Investment strategy

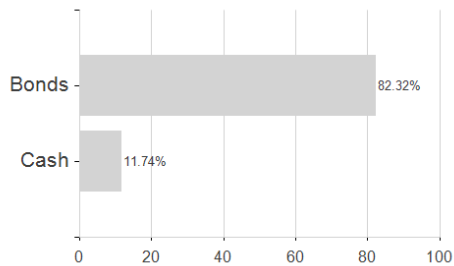

The fund is actively managed and invests mainly in a portfolio of bonds of all types from issuers around the world, including emerging markets. Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics ("E & S") is achieved through the fund's commitment to maintain at least 50% of the value of its portfolio invested in issuers and/or securities rated as 'Green' by the T. Rowe Price proprietary Responsible Investor Indicator Model (RIIM).

### Investment goal

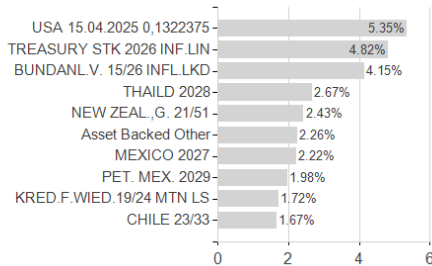

To generate income while offering some protection against rising interest rates and a low correlation with equity markets.
