## Algebris IG Financial Credit Fd.R EUR / IE00BK1KHL82 / A2P0XN / Algebris Inv. (IE)

### Investment goal

"The Fund aims to achieve a high level of income and modest growth of your investment. The Fund intends to invest in the financial sector globally, primarily in debt securities with fixed and variable interest rates, which may be rated investment or below investment grade. The Fund may also invest in convertible securities (bonds that can be converted into shares), hybrid securities (instruments that combine the characteristics of bonds and shares), preference shares, contingent convertible instruments (CoCo Bonds) (bonds that can be converted into shares or its principal amount may be written down if a pre-specified trigger event occurs), subordinated debt (including Tier 1 and upper and lower Tier 2 securities) and exchange traded funds (ETFs) (securities that track an index, a commodity or a basket of assets like an index fund, but trades like a stock on an exchange). During times of high levels of market movements (volatility) the Fund may invest substantially in deposits. The Fund does not intend to invest directly in ordinary shares, however may acquire and hold ordinary shares where such ordinary shares are acquired by way of conversion from another security held by the Fund. The Fund may also enter into financial derivative instruments (FDI) for hedging and efficient portfolio management purposes. These FDI will include swaps, options, futures and forwards contracts. The Fund will take both long and short positions synthetically through the use of each of these FDIs as well as long positions through its direct investments. Certain financial instruments such as convertible securities and CoCo-Bonds may have embedded leverage or embed a derivative component. The Fund may invest in these securities for speculative or investment purposes. The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). Investment in the Fund may be suitable for investors with a medium to long term investment horizon. For full investment objectives and policy details, please refer to the section entitled "Investment Objectives and Policy" in the Fund Supplement."
