Investment strategy

The Index is a Net Total Return Index: dividends net of tax paid by the index constituents are included in the Index return. The index is a market cap weighted index designed to represent the performance of securities from the STOXX Europe 600 Index (the "Initial Universe") that belong to the telecommunications industry as defined by the Industry Classification Benchmark ("ICB"). The Initial Universe provides exposure to the performance of the 600 most liquid large, mid and small caps stocks covering developed markets in Europe.

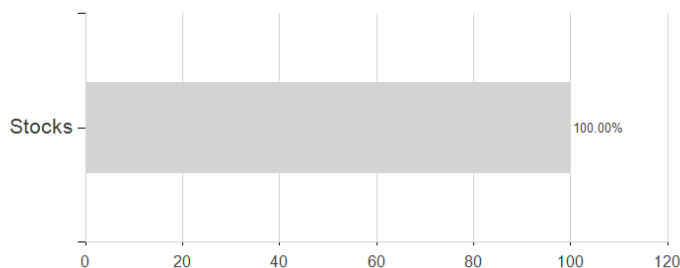

Investment goal

This Sub-Fund is passively managed. The objective of this Sub-Fund is to track the performance of STOXX Europe 600 Telecommunications Index (the "Index"), and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The anticipated level of the tracking error, under normal market conditions is indicated in the prospectus of the Sub-Fund.
