## Amundi MSCI World Swap II UCITS ETF EUR Hedged Acc / FR0014003N93 / LYX9ZA / Amundi AM (FR)

### Investment strategy

The Fund aims to achieve its objective by means of indirect replication, namely by entering into one or more OTC swaps (forward financial instruments, "FFIs"). The Fund may invest in a diversified portfolio of international shares whose performance will be exchanged against that of the Benchmark through FFIs. The updated composition of the portfolio of securities held by the Fund is mentioned on the website [amundiETF.com](http://amundiETF.com). In addition, the indicative net asset value appears on the Fund's Reuters and Bloomberg pages and may also be mentioned on the Fund's stockexchange websites.

### Investment goal

The Fund's objective is to replicate, both upwards and downwards, the performance of the MSCI World Net Total Return Index (net dividends reinvested) (the "Benchmark"), denominated in US dollars (USD) and representative of the performance of large- and mid-cap companies in all developed countries, while minimising the tracking error between the Fund's performance and that of the Benchmark.
