Investment strategy

The Product seeks to achieve returns that are higher than the Euro money market over a medium-term investment horizon of around 36 months by using an enhanced bond strategy aims to generate positive returns by utilizing a global, diverse opportunity set of fixed income and money market instruments (and derivatives related to these instruments), while maintaining a very liquid portfolio with low interest rate sensitivity. Most importantly, the Product is guided by the philosophy that no single investment sector, strategy, allocation or theme should dominate over time. It is based on active management based on a systematic and disciplined approach to securities selection, combining extra-financial research, financial research and quantitative analysis.

Investment goal

The Product is actively managed. The benchmark €STR Capitalized is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark.
