CPR Invest-Climate Bonds Euro A EUR / LU1902444584 / A2N8M9 / CPR Asset Management

Investment strategy

The investment strategy of the Compartment aims to select bonds denominated in Euro issued by companies of any sectors around the world. Each sectors is analyzed, and securities are selected based on the fund manager's investment convictions. The final portfolio consists of companies offering the best financial and non-financial prospects. Companies in the investment universe are analysed from a climate perspective so as to select those that are most virtuous according the CDP's assessment standards. The investment universe is made up a least 90% of companies with a CDP score. At least 90% of portfolio securities are rated by the CDP and have an ESG score.

Investment goal

The Compartment's sustainable investment is focused on tackling climate change and aims to obtain a lower carbon intensity than its reference index or Investment universe by selecting investments as described below. The Compartment's objective is to outperform the BLOOMBERG BARCLAYS EURO-AGG CORPORATE Total Return in Euro over a long term period (minimum of three years) by investing in companies committed to limit the impact of climate change, while integrating Environmental, Social and Governance (E, S and G - or, when taken together, ESG) criteria in the investment process.
