# China Net Zero Solutions Portfolio

a sub-fund of AB SICAV I  
Class A Shares (LU2463027826)

This Fund is managed by AllianceBernstein (Luxembourg) S.à.r.l., part of the AB Group

## OBJECTIVES AND INVESTMENT POLICY

### Investment objective

The Fund seeks to increase the value of your investment over time through capital growth.

### Investment policy

Under normal market conditions, the Fund typically invests at least 80% of its assets in equity securities that the Investment Manager believes are China Net Zero Solutions. The issuers of China Net Zero Solutions are organised or have substantial business activities in China and may be of any market capitalisation and industry.

The Investment Manager invests in equity securities that it believes align with and are positively exposed to China's policies to transition towards a net zero carbon economy, these equity securities being "China Net Zero Solutions".

The Investment Manager uses fundamental research to build a comparatively concentrated, high conviction portfolio of securities of issuers (typically 30-50 companies) that the Investment Manager believes are of high quality and have superior long-term growth characteristics.

The Fund may invest in all markets on which these equity securities are traded, such as China Connect Scheme markets for China A-shares and offshore markets for H-shares, as well as other offshore equity markets.

The Fund may also invest in China through any Renminbi Qualified Foreign Institutional Investor (RQFII) programs that may be held by the Management Company or an affiliate.

The Fund may be exposed to any currency.

The Fund uses derivatives for hedging (reducing risks), efficient portfolio management and other investment purposes.

### Responsible Investing

The Fund is classified as Article 8 under SFDR. For more information, please refer to sustainability-related disclosures in the prospectus.

### Benchmark

MSCI China All Shares Index used for performance comparison.

The Fund is actively managed and the Investment Manager is not constrained by its benchmark. Please see the Fund's prospectus for more information.

### Fund currency

The reference currency of the Fund is USD.

### Share class currency

The reference currency of the share class is EUR.

### Distribution policy

This share class is a non-distributing share class. Income and capital gains derived from the Fund are reinvested.

### Redemption

Shares may be redeemed on any day on which banks in Luxembourg, Hong Kong, Shanghai and Shenzhen are open for business.

### Terms to understand

**China A-share equity markets:** Comprised currently of portions of both Shanghai Stock Exchange and the Shenzhen Stock Exchanges. A-shares are shares of mainland China-based companies.

**China Connect Scheme:** A trading-linked program for Chinese securities developed by, among others, the Hong Kong, Shanghai, and Shenzhen stock exchanges.

**China H-share equity markets:** Exchanges or markets outside of Mainland China where H-shares of Chinese companies are traded.

**Derivatives:** Financial instruments whose value is linked to one or more rates, indices, share prices or other values.

**Equities:** Securities that represent an ownership stake in a company.

**Offshore equity markets:** Exchanges or markets located in the U.S., Hong Kong, the United Kingdom, Singapore, Korea, and Taiwan.

**Other investment purposes:** In line with the Fund's investment objective and policy, means to gain exposure.

**SFDR:** Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

## RISK AND REWARD PROFILE

### What does this risk indicator mean?

This synthetic risk and reward indicator (SRR) scale rating indicates how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

The above rating is an estimate, not a guarantee. It is calculated using industry-standard methods and is based on medium-term volatility (how sharply the Fund's actual or estimated share price has gone up and down over five years).

Historical data may not be a reliable indication of the future risk profile of this Fund. The risk and reward category for this Fund is not guaranteed to remain unchanged and may shift over time.

### Why is this Fund in this category?

The Fund is not guaranteed in capital. The Fund is invested in equity securities that can face sharp variations up or down and that can generate significant gains or losses.

### Risks materially relevant to the Fund but not adequately captured by the SRR:

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

**China Equities risk:** The Fund invests in equity markets through the China Connect Scheme and is subject to the custody, execution, infrastructure, and liquidity risks of investing in securities via this newly established market program. The Fund may invest in China through a RQFII quota and so is subject to the liquidity risks associated with investment under a state-supervised quota system.

**China Market risk:** The Fund will primarily invest in domestic securities of issuers located in China and so will be directly affected by volatility in securities markets in China and changes in the economic and political climate in China generally. The legal and regulatory framework for capital markets in China may not be as well developed as those of developed countries and entails additional risks.

**Counterparty risk:** If an entity with which the Fund does business becomes insolvent, payments owed to the Fund could be delayed, reduced, or eliminated.

**Focus risk:** The Fund may have significant exposure to a single industry sector or country, and could be more sensitive to events impacting that sector or country.

**Liquidity risk:** Certain securities could become hard to buy or to sell at a desired time or price.

## CHARGES

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested/ before the proceeds of your investment are paid out.

----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor.

The ongoing charges figure is an estimate. This figure may vary from year to year. It excludes:

- ▶ Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in an other collective investment undertaking.

For more information about charges, please refer to the Fund's prospectus which is available at [www.alliancebernstein.com](http://www.alliancebernstein.com).

## PAST PERFORMANCE

There are insufficient data to provide a useful indication of past performance.

Please be aware that past performance is not a reliable indicator of future results.

The past performance is shown after deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Fund was launched on 18/03/2022.  
The share class is not yet launched.

Performance is shown only where full calendar-year performance history is available.

Past performance has been calculated in EUR and is expressed as a percentage change of the Fund's net asset value at each year end.

The benchmark performance is in a different currency than the share class which may impact the performance comparison.
