	Risk and reward profile						
te n p d fi	The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.						
	Typie						vards,
	1	2	3	4	5	6	7
	<ul> <li>This Fund is ranked at 4 because funds of this type have experienced average rises and falls in value in the past.</li> <li>Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases . The indicator does not take into account the following risks of investing in this Fund:</li> </ul>						enced
е	• Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.						
	• Bonds are affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may not be able to pay the bond income as promised or could fail to repay the capital amount used to purchase the bond.					r level of not be able	
	• The Fund can use derivatives in order to meet its investment objectives or to protect from price and currency movements. This may result in gains or losses that are greater than the original amount invested.						
	• Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. This may me your money is at greater risk.

### Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

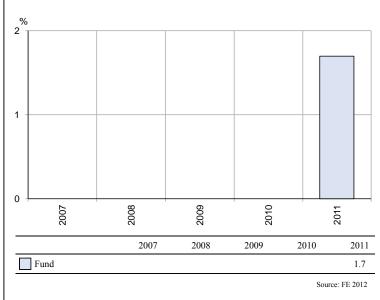

One-off charges taken before or after you invest				
Entry charge	6.38%			
Exit charge	0.00%			

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year				
Ongoing charges	1.51%			

Charges taken from the Fund under specific conditions				
Performance fee	Nil			

### Past Performance

• Switching charge (for switching into the Fund from another fund) 1.00%.

The ongoing charges figure is based on the last year's expenses for the year ending 2011 and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

In respect of the Switching Charge, this is the current maximum charge that may be applied under the terms of the Prospectus. In some cases, you may pay less; you should speak to your financial adviser about this. For more information about charges, please refer to the Fund's Prospectus. The ongoing charge figure is as at 31st March 2012.

- You should be aware that past performance is not a guide to future performance.
- The Fund was launched on 27/09/2010.
- The share/unit class was launched on 27/09/2010.
- Performance is calculated in USD.
- Performance is based on the Fund's net asset value at the end of each year, net of annual charges except for any initial charge.
