This fund is managed by abrdn Investments Luxembourg S.A., a firm authorised and regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.

Document published: 09/10/2023

What is this product?

Type

Emerging Markets SDG Corporate Bond Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of income and growth by investing in Emerging Market corporate bonds (loans to companies), which follow the Investment Manager's "Emerging Markets SDG Corporate Bond Approach" (the "Investment Approach").

The Fund aims to outperform the JP Morgan ESG CEMBI Broad Diversified Index (USD) before charges.

Portfolio Securities

- The Fund invests at least 90% in bonds.
- The Fund invests at least 70% in Emerging Market corporate bonds.
- The Fund may invest up to 15% in contingent convertible securities.
- The Fund may invest up to 10% in Frontier Market government bonds.
- Non-US Dollar denominated issues will typically be hedged back to US Dollars.
- Up to 100% of the Fund may be invested in Sub-Investment Grade bonds.
- Investment in bonds will follow the Investment Approach, which is published at www.abrdn.com under "Fund Centre".
- The Fund will invest in companies with a minimum of 20% of their revenue, profit, capital, operating expenditure or research and development linked to the UN SDGs. For companies classified in the benchmark as "Financials", alternative measures of materiality are used based on loans and customer base.
- The Fund will also invest up to 20% in SDG leaders. These are companies considered to be integral to the supply chain for progressing towards the UN SDGs, but may not currently meet the 20% materiality requirement.
- The Fund may invest in Green bonds, Social bonds or Sustainable bonds. Up to 10% may be invested in such bonds issued by companies that do not meet the materiality thresholds or are not regarded as SDG leaders, as defined above.
- In addition, we apply a set of company exclusions, which are related to Normative Screening (UN Global Compact, ILO & OECD), State-Owned Enterprises, Tobacco, Thermal Coal, Oil & Gas, Electricity Generation, Gambling, Alcohol, Adult Entertainment and Weapons.
- Financial derivative instruments, money market instruments and cash may not adhere to this approach.

Management Process

- The Fund is actively managed.
- The Investment Approach excludes companies with a 'High' ESG Risk Rating and identifies: Companies aligned to the UN SDGs, which are designed to address the world's major long-term challenges. These include climate change, growing social inequality, and unsustainable production and consumption. OR Countries which meet our criteria on Environmental, Social, Governance and Political factors.
- Through the application of this approach, the Fund has an expected minimum of 75% in Sustainable Investments. It also targets a lower carbon intensity than the benchmark.
- This approach is expected to reduce the investment universe by a minimum of 20%.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies to inform portfolio construction.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints. In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The Fund's investments may deviate significantly from the components and their weightings in the benchmark. Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Derivatives and Techniques

- The Fund may use investment techniques (including Derivatives) to seek to protect and enhance the value of the Fund and to manage the Fund's risks. Derivatives, such as futures, options and swaps, are linked to the rise and fall of other assets. In other words, they 'derive' their price from another asset. They can generate returns when share prices and/or indices fall.

This fund is subject to Article 9 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting an income and some growth over the longer term (5 years or more). Investors with a specific need around a sustainability-related outcome. The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depository is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian. For further information about abrdn SICAV I, including the latest share prices, please visit www.abrdn.com.

What are the risks and what could I get in return?

Risk Indicator

Lower risk Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€3,700	€3,740
	Average return each year	-63.00%	-17.90%
Unfavourable	What you might get back after costs	€8,260	€8,490
	Average return each year	-17.40%	-3.20%
Moderate	What you might get back after costs	€10,240	€12,260
	Average return each year	2.40%	4.20%
Favourable	What you might get back after costs	€12,120	€13,960
	Average return each year	21.20%	6.90%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between August 2021 and December 2022. The moderate scenario occurred for an investment in the benchmark between June 2013 and June 2018. The favourable scenario occurred for an investment in the benchmark between January 2016 and January 2021.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€53	€329
Annual cost impact (*)	0.5%	0.6% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,8% before costs and 4,2% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	€0
Exit costs	We do not charge an exit fee for this product.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.37% of the value of your investment per year. This is an estimate based on actual costs over the last year and includes any known future changes.	€37
Transaction costs	0.16% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€16
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but you should have an investment time horizon of at least 5 years. You may buy or sell shares in the product, without penalty, on any normal business day as set out in the prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the purchase or sale of the shares.
