# Principal Characteristics of Aberdeen Global

## STRUCTURE

Aberdeen Global was incorporated on 25 February 1988 as a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as an open-ended *société d'investissement à capital variable* (a "SICAV") with UCITS status. Aberdeen Global is authorised as an undertaking for collective investment in transferable securities under Part I of the Law.

## INVESTMENT OBJECTIVE

Aberdeen Global aims to provide investors with a broad international range of diversified actively-managed Funds which, through their specific investment objectives and individual portfolios, offer investors the opportunity of exposure to selected areas or to conveniently build a diversified global stock and bond portfolio to meet their individual investment goals.

Distinct investment objectives have been established for each Fund and these can be found in the "Fund Information" section together with details of each Fund's investment policy, where applicable and Base Currency, Investment Adviser(s), Investor Profile, risk factors and launch date.

## FUNDS & BASE CURRENCIES

The Funds are denominated either in US Dollars, or, in a different currency, if that is more appropriate for the market and the type of investments of the Fund concerned. The Base Currency of each Fund is noted under "Fund Information" and can also be found at [www.aberdeen-asset.com](http://www.aberdeen-asset.com).

## TYPES OF SHARES

The Shares relating to each Fund are issued in eight main Classes:

Share class	Currency
Class A	Base Currency of the Fund
Class C	Base Currency of the Fund
Class D	Sterling
Class E	Euro
Class S	Base Currency of the Fund

As noted under the "Summary" section, this Simplified Prospectus refers only to investment in Class A Shares, Class B Shares, Class C Shares, Class D Shares, Class E Shares or Class S Shares and the hedged versions of Class A, Class C, Class D and Class S Shares.

Investors who wish to purchase Class I Shares, Class N Shares, Class Z Shares or the hedged versions thereof which are only available to Institutional Investors who enter into a suitable agreement with the Investment Manager or one of its Associates (and additionally Class N Shares, and the hedged versions thereof, may only be acquired by fund of funds type undertakings for collective investment in the form of unit trusts or corporate type funds, which are distributed primarily in Japan), should refer to the Prospectus.

Not all Funds will issue all Classes of Shares. Investors should refer to [www.aberdeen-asset.com](http://www.aberdeen-asset.com) for current details of which Classes of Shares are in issue for each Fund.

All Classes of Shares of all the Funds that are in issue are listed on the Luxembourg Stock Exchange.

## CLASS A, CLASS C, CLASS D, CLASS E AND CLASS S SHARES

Class A, Class C, Class D, Class E and Class S Shares are further divided as follows:

Share Class	Income Shares	Accumulation Shares
Class A	Class A-1 Shares	Class A-2 Shares
Class C	Class C-1 Shares	Class C-2 Shares
Class D	Class D-1 Shares	Class D-2 Shares
Class E	Class E-1 Shares	Class E-2 Shares
Class S	Class S-1 Shares	Class S-2 Shares

Class A, Class C and Class S Shares will be issued in the Base Currency of the relevant Fund. Class D Shares are Sterling denominated whilst Class E Shares are Euro denominated.

Class A, Class C, Class D and Class S Shares may also be made available in Euro (€), Japanese Yen (¥), Sterling (£), Swiss Franc (CHF) or US Dollar (US\$) hedged versions or such other currencies as the Directors of Aberdeen Global may determine from time to time. Where a hedged version is available (using Euro, Japanese Yen, Sterling, Swiss Franc and US Dollar hedged versions of Class A-1 Shares as an example) it will be expressed as, Class A (€) - 1, Class A (¥) - 1, Class A (£) - 1, Class A (CHF) - 1 and Class A (\$) - 1 etcetera.

Class A, Class D, Class E Shares and the hedged versions of Class A and Class D Shares are available to all investors. Class C and Class S Shares and the hedged versions thereof are only available to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates. Shares in the Aberdeen Global – Frontier Markets Equity Fund are only available to Investors who enter into an Aberdeen Global – Frontier Markets Equity Fund Share Purchase Agreement with the Investment Manager or one of its Associates.

Class A, Class C, Class D and Class E Shares of each Fund are offered at a price based on their Net Asset Value plus, if applicable, an initial charge. Class C Shares and the hedged versions of Class C Shares of each Fund bear an annual distribution fee and are normally subject to a contingent deferred sales charge if redeemed within one year of issue. The hedged versions of Class A, Class C and Class D Shares will similarly be offered at a price based on their Net Asset Value plus, if applicable, an initial charge.

Class S Shares will be offered for an initial offer period and at an initial offer price to be determined by the Board of Directors at their entire discretion. Following the initial offer period, Class S Shares of each Fund will be offered at a price based on their Net Asset Value adjusted to reflect any applicable dealing charges plus, if applicable, an initial charge. The hedged versions of Class S Shares will be similarly offered.

## CLASS B SHARES

Class B Shares which are similarly further divided into Class B-1 and B-2 Shares, were closed to new subscriptions with effect from 1 March 2006. Class B Shares for certain Funds were issued until 28 February 2006. Existing Class B Shareholders may retain their existing shareholding but will not be able to purchase any further new Class B Shares although they will be able to switch to Class B Shares in other Funds which have Class B Shares in issue.

---

All Classes of Shares are quoted and dealt in the relevant Share Class' designated currency denomination and in other currencies, including (without limitation) US Dollars, Sterling and Euro. For the purposes of being eligible for central clearing systems such as Clearstream or Euroclear and the National Securities Clearing Corporation (NSCC), which may require stock identification numbers or codes (which include a reference to the quoted and dealing currency of the Share in this code or number), these dealing currencies represent individual Share Classes in these systems

Shares quoted and dealt in currencies other than the relevant Share Class' designated currency denomination are not additional Shares Classes in Aberdeen Global and must not be viewed as such. They are the Share Classes quoted and dealt in other currencies with the associated foreign exchange risk.

### SHARE PRICE CALCULATION

For details of how Share prices are calculated, please refer to the "Share Price" section.

### CURRENCY HEDGED SHARE CLASSES

The Funds offer currency hedged Share Classes. Two different types of hedged Share Classes may be offered: (A) Base Currency Hedged Classes, and (B) Portfolio or "look through" Hedged Classes.

The intention of Base Currency Hedged Classes is to mitigate against fluctuations in the exchange rate of the hedged currency of the Share Class (the currency of the Share Class a Shareholder invests in) relative to the particular Base Currency of the relevant Fund.

In comparison, the intention of Portfolio Hedged Classes is to mitigate against fluctuations in the exchange rate of the hedged currency of the Share Class (the currency of the Share Class a Shareholder invests in) relative to the currency exposure of certain (but not necessarily all) investment currencies of the portfolio of assets held by the relevant Fund. This type of hedging may be understood as having a "look through" to the underlying currency exposure of the Fund.

Shareholders should be aware of the following information:

#### A) Base Currency Hedged Classes

To effect Base Currency hedging, subscriptions into a hedged Share Class will be converted into the Base Currency of the Fund and that Base Currency exposure will then be hedged at the current forward foreign exchange rate (with this hedging transaction rolled over periodically thereafter).

Shareholders should bear in mind that they are electing to gain exposure to the currency of the hedged Share Class. This currency will strengthen or weaken against other currencies in the future, including currencies in which the relevant Fund holds investments. This is particularly important in respect of Funds where a material proportion of underlying assets is held in different currencies to the Base Currency of the Fund. Where this is the case, Base Currency Share Class hedging will operate to transpose Shareholders' currency risk from their currency of investment to the Fund Base Currency relative to the currency of the underlying assets, and currency gains and losses and corresponding returns may be more volatile than the unhedged Share Classes in the same Fund. By contrast, where a material proportion of underlying assets is held in the same currency as the Base Currency of the Fund, Base Currency Share Class hedging will operate to mitigate Shareholders' currency risk. It should be noted that the alignment between the currency exposure of the underlying assets and the Base Currency of the Fund will vary over time.

Accordingly, Shareholders must bear in mind that Base Currency hedging strategies will impact their investment if the hedged Share Class currency rises or falls against the Base Currency, and also if the hedged Share Class currency rises or falls against the currency in which some or all of the investments of the relevant Funds are denominated.

#### B) Portfolio ("Look Through") Hedged Share Classes

The intended outcome of portfolio Share Class hedging is to reduce the impact of currency movements on a Fund's portfolio assets not priced in the relevant hedged Share Class currency.

If more than one type of hedged Share Class is offered, they will be differentiated by the addition of the suffix 'BCH' at the end of the name of the relevant Share Class for Base Currency Hedged Share Classes, and by the addition of the suffix 'PCH' at the end of the name of the relevant Share Class for Portfolio Hedged Share Classes.

### GENERAL INFORMATION REGARDING HEDGED SHARE CLASSES

The Investment Advisers will utilise various techniques (see Appendix A "Investment Techniques and Instruments and Use of Financial Derivative Instruments" of the Prospectus) to hedge the currency exposures as described herein, including financial swaps, futures, forward currency exchange contracts, options and other similar derivative transactions deemed appropriate in its discretion but which are within the limits laid down by the CSSF.

Hedged share class transactions (including transaction costs relating to the instruments and contracts used to implement the hedge) will be attributed to a specific Class and will be reflected in the Net Asset Value of that Class. Investors are reminded that there is no segregation of liability between Share Classes, so there is a remote risk that under certain circumstances, unhedged share class holders of the same Fund will be exposed to liabilities arising from currency hedging transactions undertaken for a hedged Share Class which negatively impacts the Net Asset Value of the unhedged Share Class. Hedging involves additional risks which are set out in this Simplified Prospectus under the 'General Risk Factors' heading.

Currency Hedges will be set and fixed at the beginning and end of each month or at any other time that the Investment Advisor may deem appropriate, and any profit or loss on the currency position will be rolled at that point. It is not possible to hedge fully or perfectly against market fluctuations and there is no assurance or guarantee that such hedging will be effective. No intentional leveraging should result from the hedged share class currency transactions of a Class, however hedging may for short periods result in a currency exposure in excess of the value of the hedged Share Class (following a significant redemption for example).

Investors should also note that the hedging of Share Classes by the Investment Advisers is distinct from the strategies and techniques that may be adopted at the level of the portfolio of securities held within each Fund.

Investors should refer to [www.aberdeen-asset.com](http://www.aberdeen-asset.com) for further details before investing in a currency hedged Share Class.

### MINIMUM INVESTMENT

For details of the minimum Investment Amount for any initial or subsequent investment and minimum holdings for Class A, Class B, Class C, Class D, Class E and Class S Shares, please refer to the section "Minimum Investment" under "Dealing in Shares of Aberdeen Global".

## **DIVIDENDS**

Details of the dividend policy for Class A, Class B, Class C, Class D, Class E and Class S Shares are set out in the section "Distribution/Dividend Policy".

## **SWITCHING BETWEEN FUNDS**

For details of how to exchange or switch Shares, please refer to the section "Exchange (or Switching) of Shares" under "Dealing in Shares of Aberdeen Global".

## **TAXATION**

The taxation of investors will depend on the tax law of the jurisdiction in which they are resident or domiciled and on their citizenship and personal tax circumstances and is subject to change. It is important that investors establish their own tax circumstances by consulting a professional adviser before investing.

Further information on the taxation of Aberdeen Global and its Shareholders can be found under the section "Taxation".

# Fund Information

The overall strategy of Aberdeen Global and the separate Funds is to seek diversification through investment primarily in Transferable Securities. All Funds may hold liquid assets on an ancillary basis.

Aberdeen Global has, through the Investment Manager, established a network of Investment Advisers through which it obtains active investment advisory and management services. Our overriding investment philosophy is that we believe that superior investment returns will only be obtained in the long run through a well-defined and disciplined investment process which is consistently applied. The Funds benefit from the depth and interaction of this global investment advisory network and enjoy the advantages of having specialist personnel who have local expertise and timely access to the very latest local market information. The detailed investment powers and restrictions are set out in Appendix A of the Prospectus.

The following applies to all Funds, unless the more detailed investment objectives set out below impose further restrictions on a particular Fund. In such circumstances these additional restrictions shall take precedence over this paragraph.

The following Funds, namely:

Aberdeen Global - American Equity Fund  
Aberdeen Global - American Smaller Companies Fund

Aberdeen Global - World Bond Fund (as of 1 December 2011: Aberdeen Global - Select Global Credit Bond Fund)

no more than 10% of their Net Asset Value may be invested in equities or equity related securities.

For the following Funds, namely:

Aberdeen Global - American Smaller Companies Fund  
Aberdeen Global - Asian Smaller Companies Fund  
Aberdeen Global - Emerging Markets Smaller Companies Fund  
Aberdeen Global - Japanese Smaller Companies Fund  
Aberdeen Global - World Smaller Companies Fund\*

investors should note that the Investment Manager is under no obligation to sell a holding in a company which no longer qualifies as a Smaller Company (as defined in the relevant Fund's objective) after the date of investment.

\* These Funds will be launched at a future date to be confirmed by the Directors of Aberdeen Global.

## INVESTMENT OBJECTIVES

The investment objective for each Fund, together with their investment policy, where applicable, and Base Currency, Investment Adviser(s), Investor Profile, specific risk factors and launch dates are detailed below.

Details of general risk factors affecting the Funds are detailed in the "General Risk Factors" section under "Investment Information".

## ABERDEEN GLOBAL - AMERICAN EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in the United States of America; and/or, of companies which have the preponderance of their business activities in the United States of America; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in the United States of America.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Inc
<b>Launch Date:</b>	1 April 1988
<b>Investor Profile:</b>	This Fund gives access to US stocks and may be suitable for investors seeking capital appreciation opportunities through equity investments. The investor may use this Fund as a complement to a diversified portfolio or as a stand-alone core equity portfolio. Due to the traditionally volatile nature of share prices and the individual economic and political risks associated with single-country investing, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of certain Fund specific risks:

- The Fund's exposure to a single country market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - AMERICAN SMALLER COMPANIES FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of Smaller Companies with their registered office in the United States of America; and/or, of Smaller Companies which have the preponderance of their business activities in the United States of America; and/or, of holding companies that have the preponderance of their assets in Smaller Companies with their registered office in the United States of America.

For the purpose of this Fund, Smaller Companies are defined as companies with a market capitalisation in the Base Currency of the Fund, as at the date of investment, of under US\$5 billion.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Inc
<b>Launch Date:</b>	17 January 2011
<b>Investor Profile:</b>	This Fund gives access to stocks of small capitalisation companies in the US and may be suitable for investors seeking capital appreciation opportunities through equity investments. Although small capitalisation companies have often been associated with high returns, they also carry higher risks than blue-chip companies. Due to this additional volatility, the investor is likely to hold this portfolio as a complement to an existing core portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of certain Fund specific risks:

- The Fund invests in Smaller Companies where share price volatility may be experienced and above average price movements may be expected.
- The Fund's exposure to a single country market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - ASIA PACIFIC EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Asia Pacific countries (excluding Japan); and/or, of companies which have the preponderance of their business activities in Asia Pacific countries (excluding Japan); and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Asia Pacific countries (excluding Japan).

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Asia Limited
<b>Launch Date:</b>	1 April 1988
<b>Investor Profile:</b>	This Fund provides exposure to stocks across the Asia Pacific region and may be suitable for investors seeking capital appreciation opportunities through equity investments. Since the Fund is diversified across a number of markets, it may be suitable for investors who are looking for a stand-alone regional equity investment. Due to the traditionally volatile nature of share prices and the additional country and currency risks, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

## ABERDEEN GLOBAL - ASIAN LOCAL CURRENCY SHORT DURATION BOND FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in short duration local Asian currency denominated Debt and Debt Related Securities issued by governments, supranational institutions or government-related bodies that are domiciled in Asian countries; and/or, Debt and Debt-Related Securities issued by companies that have their registered office in an Asian country; and/or, issued by companies which have the preponderance of their business activities in an Asian country; and/or, issued by holding companies that have the preponderance of their assets in companies with their registered office in an Asian country. For the purpose of this Fund, short duration shall mean maturity of three years or less.

The Fund may also invest in Debt and Debt-Related Securities of corporations or supra-national institutions which Debt and Debt-Related Securities are denominated in Asian currencies and other Transferable Securities issued by governments or government-related bodies that are domiciled in Asian countries. Such securities may include, but are not limited to convertibles, floating rate securities, asset-backed securities, perpetual securities, preferred stocks and warrants up to an absolute maximum of 25% of the Fund.

The Fund may utilise techniques and instruments for hedging and/or investment purposes, efficient portfolio management and/or to manage foreign exchange risks, subject to the conditions and within the limits laid down by the CSSF. In general, these techniques and instruments include, but are not limited to, securities lending and reverse repurchase transactions (as described in Appendix A) and forward foreign currency contracts.

Without limiting the generality of the foregoing, the Investment Adviser may alter the currency exposure of the Fund, solely through the use of derivative contracts (without buying or selling underlying Transferable Securities or currencies). Performance may be strongly influenced by movements in currency rates because the Fund may have exposure to a particular currency that is different to the value of the securities denominated in that currency held by the Fund. Furthermore, the Fund's portfolio may be fully or partially hedged back to the Base Currency if, in the opinion of the Investment Adviser, this is believed to be appropriate.

Regulations in the markets in which the Fund invests may require or limit hedging or other use of financial derivative instruments, either explicitly or as a result of the Investment Adviser managing resultant risk.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Asia Limited
<b>Launch Date:</b>	28 April 1988
<b>Investor Profile:</b>	This Fund gives access to short dated local currency Asian government bonds and may be suitable for investors seeking moderate levels of risk, aiming for income consistent with capital preservation. Investors may consider this Fund as a core portfolio investment and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

- In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:
- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long term interest rates rise, the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund may utilise financial derivative instruments for investment purposes in pursuing its investment objective (in addition to use for efficient portfolio management or hedging purposes). Use of derivatives other than for hedging may result in leverage and may increase volatility in the Net Asset Value of the Fund.
- Potential investors should note the "Investing in China" section of the "General Risk Factors" and the "Taxation of Chinese Equity and Bonds" section under "Taxation".
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

### ABERDEEN GLOBAL - ASIAN PROPERTY SHARE FUND

#### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of property companies with their registered office in an Asian country; and/or, of property companies which have the preponderance of their business activities in an Asian country; and/or, of holding companies which have the preponderance of their assets in property companies with their registered office in an Asian country.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Asia Limited
<b>Launch Date:</b>	17 May 2010
<b>Investor Profile:</b>	This Fund provides an indirect exposure to the Asian property market through equity investments in property companies and may be suitable for investors seeking capital appreciation opportunities through equity investments. The investor is likely to hold this portfolio as a complement to an existing core portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund invests in a specialist market sector and as such is likely to be more volatile than a more diversified fund.
- The Fund may invest in REITs which themselves invest directly in real estate – under adverse market or economic conditions such assets may become illiquid or experience a drop in value, which are more fully described under "General Risk Factors".
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - ASIAN SMALLER COMPANIES FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of Smaller Companies with their registered office in an Asia Pacific (excluding Japan) country; and/or, of Smaller Companies which have the preponderance of their business activities in an Asia Pacific country (excluding Japan); and/or, of holding companies that have the preponderance of their assets in Smaller Companies with their registered office in an Asia Pacific country (excluding Japan).

For the purpose of this Fund, Smaller Companies are defined as companies with a market capitalisation in the Base Currency of the Fund, as at the date of investment, of under US\$2.5 billion.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Asia Limited
<b>Launch Date:</b>	24 March 2006
<b>Investor Profile:</b>	This Fund gives access to stocks of small capitalisation companies in Asia and may be suitable for investors seeking capital appreciation opportunities through equity investments. Investors should be comfortable with the risks associated with small capitalisation companies and the country and currency risks that an investment in this portfolio may encounter. Due to this additional volatility, the investor is likely to hold this portfolio as a complement to an existing core portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund invests in smaller companies where share price volatility may be experienced and above average price movements may be expected.
- The Fund's exposure to a single regional market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances,

the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

## ABERDEEN GLOBAL - AUSTRALASIAN EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Australia or New Zealand; and/or, of companies which have the preponderance of their business activities in Australian or New Zealand; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Australia or New Zealand.

<b>Base Currency:</b>	Australian Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Management Asia Limited
<b>Launch Date:</b>	26 April 1988
<b>Investor Profile:</b>	This Fund provides broad market exposure to stock markets across Australasia and may be suitable for investors seeking capital appreciation opportunities through equity investments. Because the Fund is diversified across more than one market, it may be suitable for investors who are looking for a stand-alone regional equity investment. Due to the additional country and currency risks that may be associated with the region, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund's exposure to a single country market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL – BRAZIL BOND FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in Debt and Debt-Related Securities which are issued by government and related bodies domiciled in Brazil and/or corporations (or holding companies of such corporations) with their registered office or principal place of business in Brazil, and/or by corporations (or holding companies of such corporations) which carry out the preponderance of their business activities in Brazil; and/or in Debt and Debt-Related Securities issued by non-Brazilian domiciled corporations or governments which are either denominated in Brazilian Real or provide underlying exposure to Brazil-domiciled corporations or the Brazilian Real.

The Fund may utilise techniques and instruments for hedging and/or investment purposes, efficient portfolio management and/or to manage foreign exchange risks, subject to the conditions and within the limits laid down by the Luxembourg laws and regulations. In general, these techniques and instruments include, but are not limited to, securities lending and reverse repurchase transactions (as described in Appendix A) and forward foreign currency contracts.

Without limiting the generality of the foregoing, the Investment Adviser may alter the currency exposure of the Fund, solely through the use of derivative contracts (without buying or selling underlying Transferable Securities or currencies). Performance may be strongly influenced by movements in currency rates because the Fund may have exposure to a particular currency that is different to the value of the securities denominated in that currency held by the Fund. Furthermore, the Fund's portfolio may be fully or partially hedged back to the Base Currency if, in the opinion of the Investment Adviser, this is believed to be appropriate.

Regulations in the markets in which the Fund invests may require or limit hedging or other use of financial derivative instruments, either explicitly or as a result of the Investment Adviser managing resultant risk.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	This fund will be launched at a future date to be confirmed by the Directors of Aberdeen Global.
<b>Investor Profile:</b>	<p>This Fund gives access to Debt and Debt-related securities of issuers located in Brazil and may be suitable for investors willing to accept a high level of risk within the fixed income investment spectrum. Investors are likely to use this fund to complement an existing core bond portfolio and are likely to have an investment horizon of at least five years.</p> <p>Investors should be aware of the particular valuation and switching arrangements applicable to Aberdeen Global – Brazil Bond Fund which are referred to in this Simplified Prospectus.</p>

## ABERDEEN GLOBAL – DIVIDEND EUROPE FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – EUROPEAN EQUITY INCOME FUND)

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Europe; and/or, of companies which have the preponderance of their business activities in Europe; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Europe, and which produce or are expected to produce a high dividend yield. Companies are selected regardless of their market capitalisation (micro, small, mid, large caps), sector or geographical location within Europe. Liquid assets held by the Fund in the form of sight and time deposits, together with debt instruments which generate interest income within the meaning of the European Savings Tax Directive, may not exceed 15% of the Net Asset Value of the Fund.

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	26 July 2010.
<b>Investor Profile:</b>	This Fund gives access to the European equity market and may be suitable for investors seeking capital appreciation opportunities combined with the prospect of high dividend income. Because the Fund is diversified across a number of European markets, investors may use this Fund as a stand-alone equity investment or as part of a core equity investment. Due to the traditionally volatile nature of share prices, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund invests in a specific regional market which can increase potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Eastern Europe; and/or, of companies which have the preponderance of their business activities in Eastern Europe; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Eastern Europe.

The Fund may also invest directly in securities listed on the Russian Trading System (RTS) or The Moscow Interbank Currency Exchange (MICEX) issued by companies meeting the above criteria. The Fund may invest directly in securities on non-Regulated Markets in Russia and the CIS, but such investments will be limited to 10% of the Fund's Net Asset Value. The Fund may also gain indirect equity exposure through investment in depositary receipts.

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	26 July 2010
<b>Investor Profile:</b>	This Fund gives access to the Eastern European stock market and may be suitable for investors seeking capital appreciation opportunities through equity investments. Despite of potentially higher long term returns offered by investments in Eastern European markets, investors need to be comfortable with the additional political and economic risks associated with investments in Eastern European markets. Investors are likely to hold this Fund as a complement to a diversified portfolio and should have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund may invest in regulated and non-regulated markets in Russia or the Commonwealth of Independent States' (CIS) which are subject to increased risk with regard to ownership and custody of securities. Potential investors should note the "Investing in Russia and CIS" risks in this section of the "General Risk Factors".
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. <b>Investment Adviser:</b>	Aberdeen Asset Managers Limited (excluding Asian assets) Aberdeen Asset Management Asia Limited (Asian assets only)
<b>Launch Date:</b>	23 March 2007
<b>Investor Profile:</b>	This Fund gives access to equity securities of emerging market small capitalisation companies and may be suitable for investors seeking capital appreciation opportunities through equity investments. Although such companies have often been associated with higher returns, they also carry higher risks than developed market blue-chip companies. Due to this additional volatility the investor is likely to hold this portfolio as a complement to an existing portfolio and is likely to have an investment horizon of at least five years.

#### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund invests in smaller companies where share price volatility may be experienced and above average price movements may be expected.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

## ABERDEEN GLOBAL – ETHICAL WORLD EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return by investing at least two-thirds of the Fund's assets in equities and equity related securities of companies worldwide. Selection of such equities and equity related securities will be undertaken on the basis of thorough fundamental company analysis and ethical and socially responsible criteria. These criteria address a broad variety of areas including corporate exposure to certain products, environmental, and social issues. Where an investee company's practices are considered to be lacking or deficient with regard to these criteria, the Investment Adviser may encourage the company to adopt more responsible practices. The Fund will strive to avoid those companies whose activities are considered unacceptable with regard to these criteria.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	30 December 2010
<b>Investor Profile:</b>	This Fund gives access to a global range of stocks of socially responsible companies and may be suitable for investors looking to invest in companies that meet ethical standards in their strategies. Due to the traditionally volatile nature of share prices, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - EURO HIGH YIELD BOND FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – SELECT EURO HIGH YIELD BOND FUND)

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in fixed interest securities which are Sub-Investment Grade and denominated in Euro and issued by corporations or government related bodies.

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	23 October 2000
<b>Investor Profile:</b>	This Fund gives access to Euro-denominated high yield securities and may be suitable for investors willing to accept a high level of risk in their fixed income investment. Due to the high risks associated with non-investment grade bonds, investors are likely to use this fund to complement an existing core bond portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long-term interest rates rise, the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund's portfolio may have a significant position in Sub-Investment Grade bonds and/or high-yielding bonds, which means that there may be more risk to investor's capital and income than from a fund investing in government or Investment Grade bonds.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - EUROPEAN EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Europe; and/or, of companies which have the preponderance of their business activities in Europe; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Europe.

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	12 February 1999
<b>Investor Profile:</b>	This Fund gives access to European stocks and may be suitable for investors seeking capital appreciation opportunities through equity investments. Because the Fund is diversified across a number of markets, investors may use this portfolio as a stand-alone equity investment or as part of a core equity investment. Due to the traditionally volatile nature of share prices, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - EUROPEAN EQUITY (EX UK) FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Europe (excluding the United Kingdom); and/or, of companies which have the preponderance of their business activities in Europe (excluding the United Kingdom); and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Europe (excluding the United Kingdom).

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	24 March 2006
<b>Investor Profile:</b>	This Fund gives access to European (ex-UK) stocks and may be suitable for investors seeking capital appreciation opportunities through equity investments. Because the Fund is diversified across a number of markets, it may be suitable for investors who are looking for a stand alone equity investment in the European region or as part of a core equity investment. Due to the traditionally volatile nature of share prices, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

### ABERDEEN GLOBAL – FRONTIER MARKETS EQUITY FUND

#### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office or principal place of business in a Frontier Market country; and/or, of companies which have the preponderance of their business activities in a Frontier Market country and/or, of holding companies that have the preponderance of their assets invested in companies with a) their registered office or principal place of business in a Frontier Market, and/or b) companies which have the preponderance of their business activities in a Frontier Market country; and/or c) of companies for whom expansion into a Frontier Market country is a major part of its future strategy.

## ABERDEEN GLOBAL - RESPONSIBLE WORLD EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return by investing at least two-thirds of the Fund's assets in equities and equity-related securities. Selection of such equities and equity-related securities will be undertaken on the basis of thorough fundamental company analysis and in addition, environmental, social and governance criteria will also be taken into account. Where an investee company's practices are considered to be lacking or deficient with regard to these criteria, the Investment Manager will encourage the company to adopt more responsible practices.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	17 October 2007
<b>Investor Profile:</b>	This Fund gives access to stocks of a universe of socially responsible companies throughout the world and may be suitable for investors looking to invest in companies whose strategies meet ethical standards. Due to the traditionally volatile nature of share prices, the investor is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

### ABERDEEN GLOBAL - RUSSIAN EQUITY FUND

#### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Russia; and/or, of companies which have the preponderance of their business activities in Russia; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Russia.

The Fund may invest directly in securities listed on the Russian Trading System (RTS) or The Moscow Interbank Currency Exchange (MICEX) issued by companies meeting the above criteria. The Fund may also invest directly in securities on non-Regulated Markets in Russia and the CIS, but such investments will be limited to 10% of the Fund's Net Asset Value. The Fund may also gain indirect equity exposure through investment in depositary receipts.

Furthermore, one third of the Fund's assets may be invested, in accordance with Article 41 of the Law, in the CIS and Eastern Europe or in companies which conduct a large majority of their business activities there.

<b>Base Currency:</b>	Euro
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	26 July 2010
<b>Investor Profile:</b>	This Fund gives access to Russian equity securities and may be suitable for investors seeking capital appreciation opportunities through equity investments. The investor may use this single country equity fund as a complement to a diversified portfolio or as a stand-alone core equity portfolio. Due to the additional individual risks associated with investments in Russia, the investor should have an investment horizon of at least five years.

#### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- Exposure to a single country market increases potential volatility.
- The Fund may invest in regulated and non-regulated markets in Russia which are subject to increased risk with regard to ownership and custody of securities. Potential investors should note the "Investing in Russia and CIS" risks section under "General Risk Factors".

### ABERDEEN GLOBAL - STERLING FINANCIALS BOND FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – SELECT STERLING FINANCIALS BOND FUND)

#### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in short-dated (i.e. maturity of five years or less) fixed income securities and debt instruments denominated in Sterling and issued by banks, financial institutions (including insurance companies, governmental and supranational organisations) and building societies and rated at least "A-" by Standard & Poor's Corporation ("S&P") or an equivalent rating from another rating agency.

<b>Base Currency:</b>	Sterling
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	24 March 2006

Investors are likely to use this fund as part of a core portfolio investment and is likely to have an investment horizon of at least five years.

#### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risks:

- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long term interest rates rise the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund has a significant exposure to one currency, increasing its potential price volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - TECHNOLOGY FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – TECHNOLOGY EQUITY FUND)

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies involved in high technology industries; and/or, of companies which have the preponderance of their business activities in high technology industries; and/or, of holding companies that have the preponderance of their assets in companies involved in high technology industries.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	15 February 2000
<b>Investor Profile:</b>	This Fund gives access to equity investments in the high technology industry and may be suitable for investors who are prepared to experience higher levels of volatility in pursuit of higher returns. The investor may use this equity fund as a complement to a diversified portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund invests in a specialist market sector and as such is likely to be more volatile than a more widely invested fund.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## ABERDEEN GLOBAL - UK EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in the United Kingdom; and/or, of companies which have the preponderance of their business activities in the United Kingdom; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in the United Kingdom.

<b>Base Currency:</b>	Sterling
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	25 April 1988
<b>Investor Profile:</b>	This Fund gives access to UK equity securities and may be suitable for investors seeking capital appreciation opportunities through equity investments. The investor may use this single country equity fund as a complement to a diversified portfolio or as a stand-alone core equity portfolio. Due to the traditionally volatile nature of share prices, the investor is likely to have a long-term investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund's exposure to a single country market increases potential volatility.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

## **ABERDEEN GLOBAL - WORLD BOND FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – SELECT GLOBAL CREDIT BOND FUND)**

### **Investment Objective and Policy**

Until 30 November 2011:

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in Debt and Debt-Related Securities issued by corporations or multilateral development banks or governments or government-related bodies.

The Fund may also invest in other Transferable Securities issued by corporations or government-related bodies. Such securities may include convertibles, up to an absolute maximum of 25% of the Fund, and also include floating rate securities, asset-backed securities, perpetual securities, preferred stocks and warrants.

The Fund may invest up to 50% in Sub-Investment Grade Debt and Debt-Related Securities. Any asset which is downgraded after purchase to Sub-Investment Grade will not be sold unless, in the opinion of the Investment Adviser, it is in the best interests of Shareholders to do so.

The Fund may utilise techniques and instruments for hedging and/or investment purposes, efficient portfolio management and/or to manage foreign exchange risks, subject to the conditions and within the limits laid down by the Luxembourg laws and regulations. In general, these techniques and instruments include, but are not limited to, securities lending and reverse repurchase transactions (as described in Appendix A) and forward foreign currency contracts.

Without limiting the generality of the foregoing, the Investment Adviser may alter the currency exposure of the Fund, solely through the use of derivative contracts (without buying or selling underlying Transferable Securities or currencies). Performance may be strongly influenced by movements in currency rates because the Fund may have exposure to a particular currency that is different to the value of the securities denominated in that currency held by the Fund. Furthermore, the Fund's portfolio may be fully or partially hedged back to the Base Currency if, in the opinion of the Investment Adviser, this is believed to be appropriate.

Regulations in the markets in which the Fund invests may require or limit hedging or other use of financial derivative instruments, either explicitly or as a result of the Investment Adviser managing resultant risk.

<b>Base Currency:</b>	Sterling
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	24 March 2006
<b>Investor Profile:</b>	This Fund gives access to a global range of debt securities and may be suitable for investors willing to accept a higher level of risk within the fixed income investment spectrum. Investors are likely to use this Fund to complement an existing core bond portfolio and is likely to have an investment horizon of at least five years.

### **Specific risks affecting this Fund**

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long term interest rates rise the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund's portfolio may have a significant position in Sub-Investment Grade bonds, which means that there may be more risk to investor's capital and income than from a fund investing in government or Investment Grade bonds.
- The Fund may utilise financial derivative instruments for investment purposes in pursuing its investment objective (in addition to use for efficient portfolio management or hedging purposes). Use of derivatives other than for hedging may result in leverage and may increase volatility in the Net Asset Value of the Fund.

## ABERDEEN GLOBAL - WORLD EQUITY FUND

### Investment Objective and Policy

The Fund's investment objective is long term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity related securities.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	12 February 1999
<b>Investor Profile:</b>	This Fund provides a broad exposure to international stock markets. Through diversification across a range of markets, the fund may be used as a global core equity investment or a stand alone equity investment. Due to the traditionally volatile nature of share prices, the investor should have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
- The Fund invests in emerging markets which tend to be more volatile than mature markets and the value of your investment could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise, putting the value of your investment at risk.

## ABERDEEN GLOBAL – WORLD EQUITY INCOME FUND

### Investment Objective and Policy

The Fund's investment objective is to achieve income combined with capital growth by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies worldwide.

## ABERDEEN GLOBAL – WORLD RESOURCES FUND (AS OF 1 DECEMBER 2011: ABERDEEN GLOBAL – WORLD RESOURCES EQUITY FUND)

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in worldwide companies active in the extraction, production, processing and trading of the following products: chemicals, building materials, metals and other raw materials, timber and paper products, containers and packaging as well as companies in the energy resources sector. Furthermore, the Fund may invest in companies which obtain the majority of their revenues by financing the above activities.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited
<b>Launch Date:</b>	26 July 2010
<b>Investor Profile:</b>	This Fund provides an international exposure to stocks in companies operating in the resource sector and may be suitable for investors who are prepared to experience higher levels of volatility in pursuit of higher returns. The investor may use this equity fund as a complement to a diversified portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund invests in a specialist market sector and as such is likely to be more volatile than a more widely invested fund.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. ## ABERDEEN GLOBAL – WORLD SMALLER COMPANIES FUND

### Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of worldwide Smaller Companies and/or of worldwide holding companies that have the preponderance of their assets in Smaller Companies.

For the purpose of this Fund, Smaller Companies are defined as companies with a market capitalisation in the Base Currency of the Fund, as at the date of investment, of under US\$5 billion.

The Fund is a global fund insofar as its investments are not confined to or concentrated in any particular geographic region or market.

<b>Base Currency:</b>	US Dollars
<b>Investment Adviser:</b>	Aberdeen Asset Managers Limited (excluding Asian assets) Aberdeen Asset Management Asia Limited (Asian assets only)
<b>Launch Date:</b>	This fund will be launched at a future date to be confirmed by the Directors of Aberdeen Global.
<b>Investor Profile:</b>	This Fund gives access to stocks of worldwide Smaller Companies and may be suitable for investors seeking capital appreciation opportunities through equity investments. Although small capitalisation companies have often been associated with high returns, they also carry higher risks than blue-chip companies. Due to this additional volatility, the investor is likely to hold this portfolio as a complement to an existing core portfolio and is likely to have an investment horizon of at least five years.

### Specific risks affecting this Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of the following specific risk:

- The Fund invests in smaller companies where share price volatility may be experienced and above average price movements may be expected.
- The Fund may utilise derivatives for the purpose of hedging or efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

# General Risk Factors

---

## GENERAL

Investors should remember that the price of Shares of any of the Funds and any income from them may fall as well as rise and that investors may not get back the full amount invested. Past performance is not a guide to future performance and the Fund(s) should be regarded as medium to long-term investment(s).

A number of the risk warnings below have been included because the Funds may invest in other collective investment schemes to which these apply. The following statements are intended to summarise some of the risks, but are not exhaustive, nor do they offer advice on the suitability of investments.

## CURRENCY RISK

Where the currency of the relevant Fund varies from the currency invested, or where the currency of the relevant Fund varies from the currencies of the markets in which the Fund invests, there is the prospect of additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment.

A Fund may invest in securities denominated in a number of different currencies other than the Base Currency in which the Fund is denominated. Changes in foreign currency exchange rates may adversely affect the value of a Fund's investments and the income thereon.

## REGULATORY RISK

The Funds are domiciled in Luxembourg and investors should note that all the regulatory protections provided by local regulatory authorities may not apply. Investors should consult their financial advisors for further information in this area.

## REGULATORY RISK IN NON-EU JURISDICTIONS

A Fund may be registered in jurisdictions outside of the EU. As a result of such registrations, such Fund may be subject, without any notice to the shareholders in the Fund concerned, to more restrictive regulatory regimes. In such cases such Fund will abide by these more restrictive requirements. This may prevent such Fund from making the fullest possible use of the investment limits.

## LIQUIDITY RISK

A Fund may invest in certain securities that subsequently become difficult to sell because of reduced liquidity which would have an adverse impact on market price. Reduced liquidity for such securities may be driven by a specific economic or market event, such as the deterioration in the creditworthiness of an issuer.

## COUNTERPARTY RISK

Each Fund may enter into Repurchase Transactions and other contracts that entail a credit exposure to certain counterparties. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, a loss of income and possible additional costs associated with asserting its rights.

## SPECIFIC RISKS RELATED TO OTC TRANSACTIONS

In general, there is less governmental regulation and supervision of transactions in the OTC markets (in which currencies, forwards and certain options on currencies are generally traded) than of transactions entered into on organised exchanges. In addition, many of the protections afforded to participants on some organised exchanges, such as the performance guarantee of an exchange clearinghouse, may not be available in connection with OTC transactions. Therefore, any Fund entering into OTC transactions will be subject to the risk that its direct counterparty will not

perform its obligations under the transactions and that the Fund will incur losses. A Fund will only enter into transactions with counterparties which it believes to be creditworthy, and may reduce the exposure incurred in connection with such transactions through the receipt of letters of credit or collateral from certain counterparties. Regardless of the measures the Fund may seek to implement to reduce counterparty credit risk, however, there can be no assurance that a counterparty will not default or that the Fund will not sustain losses as a result.

## INFLATION/DEFLATION RISK

Inflation risk refers to the possibility of a reduction in the value of the income or assets as inflation decreases the value of money. The real value of a Fund's portfolio could decline as a result of increasing inflation. Deflation risk refers to the possibility of a decline in the prices throughout the economy over time. Deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of a Fund's portfolio.

## INCREASED VOLATILITY

The value of some Funds may be susceptible to increased volatility as a consequence of the composition of the portfolio or the investment techniques used (e.g. where a Fund has more concentrated portfolio or where a Fund makes more extensive use of Financial Derivative Instruments for investment purposes).

## LEVERAGE RISK

Due to the low margin deposits normally required in trading derivative instruments, an extremely high degree of leverage is typical for trading in derivatives instruments. As a result, a relatively small price movement in a derivative contract may result in substantial losses to the investor. Investment in derivative transactions may result in losses in excess of the amount invested.

## SUSPENSION OF SHARE CLASS DEALING

Investors are reminded that in certain circumstances their right to redeem from or switch Funds may be suspended (See Appendix C, section 10. "Suspension".)

## WARRANTS

When a Fund invests in warrants, the Price per share of the Fund may fluctuate more than if the Fund was invested in the underlying security(ies) because of the greater volatility of the warrant price.

## FUTURES AND OPTIONS

As detailed in the section "Investment Techniques and Instruments and Use of Financial Derivative Instruments" in the Prospectus, Aberdeen Global may use, under certain conditions, options and futures on indices and interest rates, for the purposes of efficient portfolio management. Also, the Funds may hedge market and currency risks using futures, options and forward exchange contracts within the limits described in the section "Investment Techniques and Instruments and Use of Financial Derivative Instruments" of the Prospectus.

Transactions in futures carry a high degree of risk. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions make it impossible to execute such orders.

## General Risk Factors *continued*

Transactions in options also carry a high degree of risk. Selling ("writing") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged either to settle the option in cash or acquire or deliver the underlying interest. If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future on another option, the risk may be reduced.

### SHARE CLASS HEDGING

Certain Classes of Shares may be made available in currencies other than the Base Currency of the relevant Fund. The Investment Manager may hedge the Shares of such Classes in relation to the Base Currency of the relevant Fund or to the investment currencies of the portfolio of assets held by the relevant Fund. Where such hedging is undertaken it may substantially protect investors against a decrease in the value of the Base Currency of the Fund or the currencies of the assets in the Fund's portfolio relative to the hedged currency but may also preclude investors from benefiting from an increase in the value of the Base Currency of the Fund or the currencies of the assets in its portfolio.

With hedged share classes, the risk of an overall depreciation of a Fund's Base Currency against the alternate currency of the Share Class is reduced significantly by hedging the Net Asset Value of the respective Class - calculated in the Fund's Base Currency - against the respective alternate currency by means of the financial derivative instruments mentioned under the sections "Currency Hedged Share Classes" and "General Information regarding hedged Share Classes". Consequently, it is the currency of the hedged Share Classes that is hedged against the Base Currency rather than the investment currencies of the Fund's portfolio. This may result in the hedged Share Class being over or under-hedged at any one time against the investment currencies of the Fund's portfolio. Costs incurred in the Share Class hedging process are borne solely by the hedged Share Class concerned.

### HOLDING SECURITIES OVERSEAS

Securities held with a local correspondent or clearing / settlement system or securities correspondent ("Securities System") may not be as well protected as those held within Luxembourg. In particular, losses may be incurred as a consequence of the insolvency of the local correspondent or Securities System. In some markets, the segregation or separate identification of a beneficial owner's securities may not be possible or the practices of segregation or separate identification may differ from practices in more developed markets.

### RESTRICTED SECURITIES

Aberdeen Global may invest in securities which may only be offered to qualified institutional investors (such as but not limited to QIBS as defined in the US Securities Act of 1933) or other securities that contain restrictions of their negotiability and/or issue. Such investments may be less liquid, making it difficult to acquire or to dispose of such investments which may lead to the Funds experiencing adverse price movements upon any such disposal. Such restricted securities may be but are not limited to securities known as «Rule 144A Securities».

### RULE 144A SECURITIES

A Fund may invest in Rule 144A securities, which are privately offered securities that can be resold only to certain qualified institutional buyers. As such securities are traded among a limited

number of investors, certain Rule 144A securities may be illiquid and involve the risk that a Fund may not be able to dispose of these securities quickly or in adverse market conditions. Should any Rule 144A securities acquired by any Fund fail to be registered under Section 5 of the U.S. Securities Act of 1933, as amended, within one (1) year from the date of their acquisition by the Fund, the relevant securities shall be considered as transferable securities not traded on a Regulated Market, falling into the 10% limit as set out in "Appendix A – Investment Powers and Restrictions" paragraph I.(f) of the Prospectus.

### POTENTIAL CONFLICTS OF INTEREST

The Management Company and the Investment Manager/ Adviser and other companies in the Aberdeen Group may effect transactions in which they have, directly or indirectly, an interest which may involve a potential conflict with the Management Company's duty to the Fund. Neither the Management Company nor the Investment Manager/ Adviser nor other companies in the Aberdeen Group shall be liable to account to the Fund for any profit, commission or remuneration made or received from or by reason of such transactions or any connected transactions nor will the Investment Manager/ Adviser's fees, unless otherwise provided, be abated. The Management Company and the Investment Manager/ Adviser will ensure that such transactions are effected on terms which are not less favourable to the Fund than if the potential conflict had not existed. Such potential conflicting interests or duties may arise because the Investment Manager/ Adviser or other members in the Aberdeen Group may have invested directly or indirectly in the Funds. More specifically, the Investment Manager/ Adviser, under the rules of conduct applicable to it, must try to avoid conflicts of interests and, where they cannot be avoided, ensure that its clients (including the Fund) are fairly treated.

The Management Company will adopt and implement policies for the prevention of conflict of interests as foreseen by applicable rules and regulations in Luxembourg.

### SPECIFIC RISKS LINKED TO SECURITIES LENDING AND REPURCHASE TRANSACTIONS

Whilst value of the collateral of Repurchase/Reverse Repurchase or Securities Lending Agreements will be maintained to at least equal to the value of the securities transferred, in the event of a sudden market movement there is a risk that the value of such collateral may fall below the value of the securities transferred. Aberdeen Global will seek to mitigate this risk by requiring any securities lending agent to indemnify the relevant Funds against such a fall in the value of collateral (save where such collateral has been re-invested at the instructions of the Fund).

In relation to Repurchase Transactions, investors must notably be aware that (A) in the event of the failure of the counterparty with which cash of a Fund has been placed there is the risk that collateral received may yield less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Fund to meet redemption requests, security purchases or, more generally, reinvestment; and that (C) Repurchase Transactions will, as the case may be, further expose a Fund to risks similar to those associated with optional or forward derivative financial instruments, which risks are further described in other sections of the Prospectus.

---

Securities lending involves counterparty risk, including the risk that the loaned securities may not be returned or returned in a timely manner and/or at a loss of rights in the collateral if the borrower or the lending agent defaults or fails financially. This risk is increased when a Fund's loans are concentrated with a single or limited number of borrowers. Investors must notably be aware that (A) if the borrower of securities lent by a Fund fail to return these, there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) in case of reinvestment of cash collateral such reinvestment may (i) create leverage with corresponding risks and risk of losses and volatility, (ii) introduce market exposures inconsistent with the objectives of the Fund, or (iii) yield a sum less than the amount of collateral to be returned; and that (C) delays in the return of securities on loans may restrict the ability of a Fund to meet delivery obligations under security sales.

### **ASSET BACKED SECURITIES AND MORTGAGE BACKED SECURITIES**

Some Funds may invest their assets in Asset Backed Securities (ABS) including Mortgage Backed Securities (MBS), which are debt securities based on a pool of assets or collateralised by the cash flows from a specific pool of underlying assets. ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility. Unless otherwise specifically stated for a Fund, ABS and/or MBS will not represent more than 20% of the Net Asset Value of a Fund.

### **INVESTING IN HIGH YIELD BONDS**

High yield bonds are regarded as being predominately speculative as to the issuer's ability to make payments of principal and interest. Investment in such securities involves substantial risk. Issuers of high yield debt securities may be highly leveraged and may not have available to them more traditional methods of financing. An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, Aberdeen Global may experience losses and incur costs.

### **INVESTING IN REAL ESTATE**

Investing in the securities of companies principally engaged in the real estate industry will entail risks normally associated with owning real estate directly. These risks include, but are not limited to: the cyclical nature of real estate values; risks related to general and local economic conditions; overbuilding; low tenancy occupation rates and increased competition; the level of property taxes and operating expenses, demographic trends; changes in zoning laws; casualty or condemnation losses; environmental risks; related party risks; increases in interest rates. An increase in interest rates will generally lead to an increase in the costs of financing, which could directly and indirectly reduce the value of a fund's investments.

### **INVESTING IN INVESTMENT FUNDS**

A Fund incurs costs of its own management and administration comprising the fees paid to the Management Company and other service providers. It should be noted that, in addition, such a Fund incurs similar costs in its capacity as an investor in UCITS or Other UCI's (together referred to as "Investment Funds") which in turn pay similar fees to their manager and other service providers.

Furthermore, the investment strategies and techniques employed by certain Investment Funds may involve frequent changes in positions and a consequent portfolio turnover. This may result in brokerage commission expenses which exceed significantly those of other Investment Funds of comparable size. Investment Funds may be required to pay performance fees to their manager. Under these arrangements the managers will benefit from the appreciation, including unrealised appreciation of the investments of such Investment Funds, but they may not be similarly penalised for realised or unrealised losses. As a consequence, the direct and indirect costs borne by a Fund investing in Investment Funds are likely to represent a higher percentage of the Net Asset Value than would typically be the case for a Fund which invests directly in the relevant underlying investments (and not through other Investment Funds).

### **INVESTING IN RUSSIA AND CIS**

Investments in Russia and CIS either through the Russian Trading System (RTS) and Moscow Interbank Currency Exchange (MICEX) or on other non-Regulated Markets are subject to increased risk with regard to ownership and custody of securities.

There are significant risks inherent in investing in Russia and the CIS including: (a) delays in settling transactions and the risk of loss arising out of the systems of securities registration and custody; (b) the lack of corporate governance provisions or general rules or regulations relating to investor protection; (c) pervasiveness of corruption, insider trading, and crime in the Russian and CIS economic systems; (d) difficulties associated in obtaining accurate market valuations of many Russian and CIS securities, based partly on the limited amount of publicly available information; (e) tax regulations are ambiguous and unclear and there is a risk of imposition of arbitrary or onerous taxes; (f) the general financial condition of Russian and CIS companies, which may involve particularly large amounts of inter-company debt; (g) banks and other financial systems are not well developed or regulated and as a result tend to be untested and have low credit ratings and (h) the risk that the governments of Russia and CIS member states or other executive or legislative bodies may decide not to continue to support the economic reform programs implemented since the dissolution of the Soviet Union.

The concept of fiduciary duty on the part of a company's management is generally non-existent. Local laws and regulations may not prohibit or restrict a company's management from materially changing the company's structure without shareholder consent. Foreign investors cannot be guaranteed redress in a court of law for breach of local laws, regulations or contracts. Regulations governing securities investment may not exist or may be applied in an arbitrary and inconsistent manner.

Evidence of legal title in many cases will be maintained in 'book-entry' form and a Fund could lose its registration and ownership of securities through fraud, negligence or even oversight. Securities in Russia and in the CIS are issued only in book entry form and ownership records are maintained by registrars who are under contract with the issuers. The registrars are neither agents of, nor responsible to, Aberdeen Global, the Custodian or their local agents in Russia or in the CIS. Transferees of securities have no proprietary rights in respect of securities until their name appears in the register of holders of the securities of the issuer. The law and practice relating to registration of holders of securities are not well developed in Russia and in the CIS and registration delays and failures to register securities can occur. Although Russian and CIS sub-custodians will maintain copies of the registrar's records ("Records") on its premises, such Records may not, however, be legally sufficient to establish ownership of securities. Further a quantity of forged or otherwise fraudulent securities, Records or

## General Risk Factors continued

other documents are in circulation in the Russian and CIS markets and there is therefore a risk that a Fund's purchases may be settled with such forged or fraudulent securities. In common with other emerging markets, Russia and the CIS have no central source for the issuance or publication of corporate actions information. The Custodian therefore cannot guarantee the completeness or timeliness of the distribution of corporate actions notifications.

Although exposure to these equity markets is substantially hedged through the use of ADRs and GDRs, Funds may, in accordance with their investment policy, invest in securities which require the use of local depository or custodial services.

### INVESTING IN CHINA

Investments in China are currently subject to certain additional risks. Part of the assets of certain of the Funds may be invested in local Chinese securities through the use of a Qualified Foreign Institutional investor ("QFII") licence. Although the laws of China permit setting up nominee accounts for clients of investment managers who are QFIIs, the Chinese regulators required that the QFII name be used to set up the securities and other accounts on behalf of the relevant Funds. It has been clarified with the Chinese regulators that the assets belong to the relevant Fund and not the QFII licence-holder. However, there is a risk that creditors of the QFII may attempt to assert that the securities and other assets in the accounts are owned by the QFII and not the relevant Fund. If a court upholds such an assertion, creditors of the QFII could seek payment from the assets of the relevant Fund.

### EMERGING MARKETS AND FRONTIER MARKETS

In emerging markets and Frontier Markets, in which some of the Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Frontier Markets are differentiated from emerging markets in that Frontier Markets are considered to be somewhat less economically developed than emerging markets. Some markets carry significant risks for investors who should therefore ensure that, before investing, they understand the relevant risks and are satisfied that an investment is suitable.

The following statements are intended to summarise some of the risk in emerging markets and Frontier Markets countries, but are not exhaustive, nor do they offer advice on the suitability of investments.

### POLITICAL AND ECONOMIC RISKS

- Economic and/or political instability could lead to legal, fiscal and regulatory changes or the reversal of legal/fiscal/regulatory/market reforms. Assets could be compulsorily acquired without adequate compensation.
- A country's external debt position could lead to the sudden imposition of taxes or exchange controls.
- High inflation can mean that businesses have difficulty obtaining working capital.
- Local management are often inexperienced in operating companies in free market conditions.
- A country may be heavily dependent on its commodity and actual resource exports and therefore be vulnerable to weaknesses in world prices for these products.

### LEGAL ENVIRONMENT

- The interpretation and application of decrees and legislative acts can be often contradictory and uncertain particularly in respect of matters relating to taxation.
- Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be made aware of.

- Judicial independence and political neutrality cannot be guaranteed.
- State bodies and judges may not adhere to the requirements of the law and the relevant contract.
- There is no certainty that investors will be compensated in full or in part for any damage incurred or loss suffered as a result of legislation imposed or decisions of state bodies or judges.

### ACCOUNTING PRACTICES

- The accounting and audit systems may not accord with international standards.
- Even when reports have been brought into line with international standards, they may not always contain correct information.
- Obligations of companies to publish financial information may also be limited.

### SHAREHOLDER RISK

- Existing legislation may not yet be adequately developed to protect the rights of minority shareholders.
- There is generally no concept of fiduciary duty to shareholders on the part of management.
- There may be limited recourse for violation of such shareholders' rights as pertain.

### MARKET AND SETTLEMENT RISKS

- The securities markets of some countries lack the liquidity, efficiency, regulatory and supervisory controls of more developed markets.
- Lack of liquidity may adversely affect the value or ease of disposal of assets.
- The share register may not be properly maintained and the ownership interests may not be, or remain, fully protected.
- Registration of securities may be subject to delay and during the period of delay it may be difficult to prove beneficial ownership of the securities.
- The provision for custody of assets may be less developed than in other more mature markets and thus provides an additional level of risk for the Funds.

### PRICE MOVEMENT AND PERFORMANCE

- Factors affecting the value of securities in some markets cannot easily be determined.
- Investment in securities in some markets carries a high degree of risk and the value of such investments may decline or be reduced to zero.

### CURRENCY RISK

- Conversion into foreign currency or transfer from some markets of proceeds received from the sale of securities cannot be guaranteed.
- The value of the currency in some markets, in relation to other currencies, may decline such that the value of the investment is adversely affected.
- Exchange rate fluctuations may also occur between the trade date for a transaction and the date on which the currency is acquired to meet settlement obligations.

### EXECUTION AND COUNTERPARTY RISK

- In some markets there may be no secure method of delivery against payment which would avoid exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

---

## TAXATION

Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends or other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. Tax law and practice in certain countries into which a Fund invests or may invest in the future (in particular Russia and other emerging markets) is not clearly established. Tax law and practice may equally be subject to change in developed countries, where governments implement fiscal reforms. It is possible therefore that the current interpretation of the law or understanding of practice might change, or that the law might be changed with retrospective effect. It is therefore possible that Aberdeen Global could become subject to additional taxation in such countries that is not anticipated either at the date of the Prospectus or when investments are made, valued or disposed of.

In relation to Brazil, investors should be aware that the Brazilian Presidential Decree no. 6.306/10, as amended from time to time, details the current IOF tax rate (Tax on Financial Operations), that applies to foreign exchange inflows and outflows. Funds investing in Brazil, where IOF tax is not offset by dilution levy charges may see the Net Asset Value per Share reduced as a consequence.

## EXCHANGE RATES

The Funds may invest in securities denominated in a number of different currencies other than the Base Currency in which the Funds are denominated. Changes in foreign currency exchange rates may adversely affect the value of a Fund's investments and the income thereon.

## CREDIT RISK

Credit risk, a fundamental risk relating to all debt or debt related securities as well as money market instruments, is the chance that an issuer will fail to make principal and interest payments when due.

Issuers with higher credit risk typically offer higher yields for this added risk. Conversely, issuers with lower credit risk typically offer lower yields. Generally, government securities are considered to be the safest in terms of credit risk, while corporate debt, especially those with poorer credit ratings, have the highest credit risk. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or changes in economic and political conditions specific to an issuer, are all factors that may have an adverse impact on a issuer's credit quality and security values.

## INTEREST RATE RISK

Funds that invest in debt securities or Money Market Instruments are subject to interest rate risk. The value of a debt or debt related security will generally increase when interest rates fall and decrease in value when interest rates rise. Interest rate risk is the chance that such movements in interest rates will negatively affect the value of a security or, in a Fund's case, its Net Asset Value. Securities with greater interest rate sensitivity and longer maturities tend to produce higher yields, but are subject to greater fluctuations in value. As a result, securities with a longer maturity tend to offer higher yields for this added risk. While changes in interest rates may affect a Fund's interest income, such changes may positively or negatively affect the Net Asset Value of a Fund's Shares on a daily basis.

## PRE-PAYMENT RISK

Certain debt or debt related securities, such as mortgage-backed and asset-backed securities, give an issuer the right to call its securities before their maturity date. The possibility of such prepayment risk may force the Fund to reinvest the proceeds of such investments in securities offering lower yields.

## INVESTING IN HIGH YIELDS BONDS

High yield bonds are regarded as being predominately speculative as to the issuer's ability to make payments of principal and interest. Investment in such securities involves substantial risk. Issuers of high yield debt securities may be highly leveraged and may not have available to them more traditional methods of financing. An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, Aberdeen Global may experience losses and incur costs.

## SUB-INVESTMENT GRADE

Some Funds are permitted to invest in Sub-Investment Grade securities. Investment in such securities involves greater price volatility and risk of loss of principal and income than investment in securities of a higher investment grade quality.

## SOVEREIGN DEBT RISK

Certain developed and developing countries are especially large debtors to commercial banks and foreign governments. Investment in debt obligations ("Sovereign Debt") issued or guaranteed by such governments or their agencies and instrumentalities ("governmental entities") involves a higher degree of risk. The governmental entity that controls the repayment of Sovereign Debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt. A governmental entity's willingness or ability to repay principal and interest due in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy towards the International Monetary Fund and the political constraints to which a governmental entity may be subject. Governmental entities may also be dependent on expected disbursements from foreign governments, multilateral agencies and others abroad to reduce principal and interest arrearage on their debt.

The commitment on the part of these governments, agencies and others to make such disbursements may be conditioned on a governmental entity's implementation of economic or fiscal reforms and/or economic performance and the timely service of such debtor's obligations. Failure to implement such reforms, achieve such levels of economic performance or repay principal or interest when due may result in the cancellation of such third parties' commitments to lend funds to the governmental entity, which may further impair such debtor's ability or willingness to service its debt on a timely basis. Consequently, governmental entities may default on their Sovereign Debt. Holders of Sovereign Debt, including a Fund, may be requested to participate in the rescheduling of such debt and to extend further loans to governmental entities. There is no bankruptcy proceeding by which Sovereign Debt on which a governmental entity has defaulted may be collected in whole or in part.

# Dealing in Shares of Aberdeen Global

## MARKET TIMING AND LATE TRADING

Aberdeen Global is intended as a long-term investment vehicle. The Investment Manager applies a number of policies and procedures designed to protect the Funds from being adversely impacted by the trading strategies of investors including application of a dilution adjustment. Further information about the application of any dilution adjustment can be found in the "Dilution Adjustment" section below.

Where the Investment Manager allows a reduced front-end charge on institutional or other similar trades, the trading strategies of the registered holders are closely monitored to ensure that in the event of short-term trading policies becoming apparent, the terms of business are reviewed.

The Investment Manager believes that these policies provide significant protection to the Funds from short term trading.

Late trading is illegal as it violates the provisions of the Prospectus. The Board of Directors will use its reasonable endeavours to ensure that late trading cannot take place. The effectiveness of these procedures is closely monitored.

## SUSPENSION OF DEALINGS

The Board of Directors of Aberdeen Global may suspend dealing in the event that a reliable price cannot be established as at the valuation point. Investors are reminded that, in certain circumstances, the issue, redemption and switching of Shares may be suspended (see Appendix C, section 10 "Suspension" in the Prospectus).

The Aberdeen Global – Emerging Markets Equity Fund and the Aberdeen Global - Frontier Markets Equity Fund may without prior notice to Shareholders be closed to new subscriptions or switches into that Fund (but not to redemptions) if, in the opinion of the Board of Directors, this is necessary to protect the interests of existing Shareholders of that Fund and of the Fund. One such circumstance would be where the Fund has reached a size such that the capacity of the market and/or the capacity of the relevant Investment Adviser has been reached, and where to permit further inflows would be detrimental to the performance of the Fund.

## DILUTION ADJUSTMENT

The Board of Directors current policy is normally to impose a dilution adjustment to the Net Asset Value of each Class of Shares in the following circumstances:

- in respect of Shares redeemed on a particular Dealing Day, where the net redemptions of Shares linked to the Fund in which the redemption is instructed exceed 5% of the Net Asset Value or any other threshold determined by the Board of Directors (having considered prevailing market conditions) of the issued Shares linked to that Fund; or
- in respect of Shares purchased on a particular Dealing Day, where the net purchases of Shares linked to the Fund in which the purchase is instructed exceed the same percentage or any other threshold determined by the Board of Directors (having considered prevailing market conditions).

The dilution adjustment may also be charged:

- (a) where a Fund is in continual decline;
- (b) on a Fund experiencing large levels of net sales relative to its size;

- (c) in any other case where the Board of Directors is of the opinion that the interests of Shareholders require imposition of a dilution adjustment.

If charged the dilution adjustment will be paid into the relevant Fund and become part of the relevant Fund.

## PREVENTION OF MONEY LAUNDERING AND FINANCING OF TERRORISM

Pursuant to international rules and Luxembourg laws and regulations comprising, but not limited to, the law of 12 November 2004 on the fight against money laundering and financing of terrorism, as amended, and circulars of the Luxembourg supervising authority (CSSF), obligations have been imposed on all professionals of the financial sector to prevent the use of undertakings for collective investment for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg undertaking for collective investment must in principle ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. The registrar agent may require subscribers to provide any document it deems necessary to effect such identification.

In case of delay or failure by an applicant to provide the documents required, the application for subscription (or, if applicable, for redemption) will not be accepted. Neither the undertakings for collective investment nor the registrar agent have any liability for delays or failure to process deals as a result of the applicant providing no or only incomplete documentation.

Shareholders may be requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations.

The right is reserved by Aberdeen Global to reject any application for subscription of Shares in whole or in part. If an application is rejected, the application monies or balance thereof will be returned, once sufficient evidence of identification has been produced, at the risk of the applicant and without interest as soon as reasonably practicable at the cost of the applicant, by bank transfer.

## DEALING TIMES

Applications for subscription and instructions for redemptions or switches must be made to the Transfer Agent and delivered to the Transfer Agent's office between 09:00 and 17:00 hours (Luxembourg time) on any Dealing Day for the Fund or Funds concerned.

## SUBSCRIPTION FOR SHARES

### Eligibility

Class A, Class D and Class E Shares are available to all investors. Class C and Class S Shares are only available to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates. Shares in the Aberdeen Global – Frontier Markets Equity Fund are only available to Investors who enter into an Aberdeen Global – Frontier Markets Equity Fund Share Purchase Agreement with the Investment Manager or one of its Associates.

Eligibility for the hedged Share Classes is the same as that for the underlying Class of Share.

## Application for Shares

The Funds are valued at 13:00 hours Luxembourg time on each Dealing Day, with the exception of Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund and Aberdeen Global – Infrastructure Fund (as of 1 December 2011: Aberdeen Global - Emerging Markets Infrastructure Equity Fund) which are valued at 23:59 hours Luxembourg time on each Dealing Day.

Investors may apply for either a specific number of Shares or Shares of a specified value on any Dealing Day. Applications received by the Global Distributor, UK Distributor or the Transfer Agent up to 13:00 hours Luxembourg time on any Dealing Day will be executed at the relevant Share Price(s) calculated on that Dealing Day for the Fund or Funds concerned. If received after 13:00 hours Luxembourg time, the application will be treated as having been received on the next following Dealing Day and will be executed at the Share Price(s) calculated on such following Dealing Day.

Investors should note that the Dealing Days in respect of the Aberdeen Global – Frontier Markets Equity Fund shall be on the Business Day which falls on the first and third Wednesday of each calendar month other than days during a period of suspension of dealing in Shares in that Fund. If the first or third Wednesday of each calendar month are not a Business Day in Luxembourg, the Dealing Day will be the Business Day immediately following the first or third Wednesday of each calendar month.

The following information is for your guidance in submitting applications and remitting payment for Shares. If you are in any doubt about what to do, please contact the Global Distributor, the UK Distributor or the Transfer Agent at the following addresses:

Applications to subscribe for Shares should be made either directly to the Global Distributor, the UK Distributor or the Transfer Agent in Luxembourg or through one of Aberdeen Global's paying agents to be forwarded to Aberdeen Global.

Subscriptions should be made by using Aberdeen Global's Application Form or, in the case of subsequent subscriptions, at the discretion of Aberdeen Global, by letter, fax or such other means as agreed, containing all the information detailed below. Failure to include all requisite information will cause delay in acceptance and allotment of Shares.

Completed applications should be sent to the Global Distributor, the UK Distributor or the Transfer Agent together with the relevant

documents required to verify the identity of the investor.

Please note that the UK Distributor retains the following investor enquiry e-mail address for all investors:

**aberdeen.global@aberdeen-asset.com**

Applications for subsequent subscriptions which are not made on the Application Form MUST include the following:-

1. The full name(s) and address of the applicant(s), the address for correspondence (if different) and details of the agent/ authorised financial intermediary (if any). Please note that initials are not acceptable as confirmation of applicants' names;
2. Full registration details of all applicants including family name, forename(s), date of birth, address, nationality, occupation and telephone number, country of tax residence and tax identification number for no more than four joint applicants;
3. The full name of the Fund and the Class of Shares being applied for;
4. The currency amount to be invested or the number of Shares applied for;
5. How and, in which currency and, for what value date payment will be made;
6. Acknowledgement of receipt of this Simplified Prospectus and that the application is made on the basis of the information contained in the Prospectus and the Articles of Incorporation of Aberdeen Global and agreement to abide by the terms and conditions therein;
7. Declaration that the Shares are not being acquired either directly or indirectly by or on behalf of any U.S. Person (as defined in the Prospectus) or by any other person restricted by the law of any relevant jurisdiction from acquiring the Shares and that the applicant will not sell, transfer or otherwise dispose of any such Shares, directly or indirectly, to or for the account of any U.S. Person or in the United States;
8. If the applicant does not wish for dividends to be reinvested, that fact and bank details and currency requirements if the applicant wishes for dividend payments to be made, at the expense of the applicant, by electronic transfer and/or in a currency other than the Base Currency of the relevant Fund;
9. The applicant must provide the Transfer Agent with all necessary information which the Transfer Agent may reasonably require to verify the identity of the applicant. Failure to do so may result in Aberdeen Global refusing to accept the subscription for Shares in the Fund. Applicants must indicate whether they invest on their own account or on behalf of a third party. Except for companies who are regulated professionals of the financial sector, bound in their country by rules on the prevention of money laundering and terrorism financing equivalent to those applicable in Luxembourg, any applicant applying is obliged to submit to the Transfer Agent in Luxembourg all necessary information required under the applicable money-laundering regulations which the Transfer Agent may reasonably require to verify the identity of the applicant and in the case of it acting on behalf a third party, of the beneficial owner(s). Furthermore any such applicant hereby undertakes that it will notify the Transfer Agent prior to the occurrence of any change in the identity of any such beneficial owner.

Aberdeen Global reserves the right to direct the Global Distributor, the UK Distributor or the Transfer Agent to reject any application

for subscription of Shares in whole or in part, for any reason. If an application is rejected, the Transfer Agent will, at the applicant's risk, once sufficient evidence of identification has been produced, normally return the Investment Amount or the balance thereof within five Business Days of rejection by bank transfer at cost to the applicant.

Due to the settlement period of four Business Days, Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of the subscription, whichever is later.

### DISCLOSURE OF INFORMATION

Shareholders are informed that their personal data or the information given in the subscription documents or otherwise in connection with an application to subscribe for shares, as well as details of their shareholding, will be stored in digital form and processed in compliance with the provisions of the Luxembourg law of 2 August 2002 on data protection as amended.

Investors should be aware that personal information may be disclosed (i) to Aberdeen International Fund Managers Limited or any other company within the Aberdeen Group (as well as International Financial Data Services (UK) Ltd., International Financial Data Services Ltd., State Street Bank Luxembourg S.A. and other agents e.g. processing, paying or mailing agents) which may be based in countries where privacy laws do not exist or provide less protection than the laws in the EU; or (ii) when required by applicable law and regulation. By investing in Shares, each investor appoints Aberdeen International Fund Managers Limited, and any other company within the Aberdeen Group (as well as International Financial Data Services (UK) Ltd. and other relevant agents) as attorney-in-fact to collect from Aberdeen Global Services S.A., in its capacity as Registrar and Transfer Agent, all necessary information pertaining to investments in Aberdeen Global for the purpose of Shareholder servicing and/or the effective management of Aberdeen Global.

Investors may request access to or the rectification of any data provided.

Investors should also refer to the "Data Protection" section of the Application Form.

**Minimum Investment:** For Class A, Class C, Class D, Class E and Class S Shares, the minimum Investment Amount for any initial or subsequent investment in a Fund is US\$1,500 or currency equivalent. The minima may be waived at Aberdeen Global's discretion.

The minimum holding for Class A, Class C, Class D, Class E and Class S Shares is US\$500.

**Allotment:** Shares are provisionally allotted at the Share Price calculated on the date an application is accepted. Cleared monies should be received by the Transfer Agent no later than four Business Days after the application is accepted and Shares are allotted. The relevant Shares will be issued upon receipt of cleared monies.

**Non-receipt of Cleared Monies:** If monies are not received as described above, then Aberdeen Global reserves the right to cancel any allotment of the relevant Shares without prejudice to the right of Aberdeen Global to obtain compensation for any loss directly or indirectly resulting from the failure of an applicant to effect settlement, including in respect of overdraft charges and interest incurred.

If an allotment is cancelled and cleared monies are subsequently received, Aberdeen Global may issue Shares on the date cleared

monies are received, at that day's Share Price but subject to any applicable charges.

**Methods of Payment:** Payment of the total amount due should be made in the currency of denomination of the relevant Fund. Payment for Shares can be made in Australian Dollars, Euro, Hong Kong Dollars, Japanese Yen, Sterling, Swiss Franc or US Dollars. However, if the currency of investment is different to the currency denomination of the relevant Share Class the necessary foreign exchange transaction will be arranged on behalf of, and at the expense of, the applicant. Normal banking charges will be included in the foreign exchange rate given and will be charged to the investor. Applicants must state on their Application Form if they wish to make payment in a currency other than the currency of denomination of the relevant Fund. Certain intermediaries may offer their own foreign exchange services. In these cases, the services will be described in the application forms used by those intermediaries.

Investors are reminded that if they make payment to anyone other than Aberdeen Global, they should satisfy themselves that such persons are authorised to receive such payments. Certain intermediaries may have specific arrangements with Aberdeen Global for the payment of investment monies. In these cases the arrangements will be described in the Application Forms used by those intermediaries. In the absence of such arrangements, no payments should be made to the intermediary. Any queries should be addressed to the Global Distributor, the UK Distributor or the Transfer Agent. The Transfer Agent and Aberdeen Global cannot accept liability for any payments made to unauthorised persons. In the absence of such arrangements no investment monies should be paid to an intermediary.

Payment should be made by bank transfer net of all bank charges (i.e. at the investors' expense) from a bank account in the name(s) of the investor(s). A copy of the bank transfer form (stamped by the bank) should be attached to the Application Form in order to avoid delays. Cash, cheques or traveller's cheques will not be accepted.

All such remittances should be made payable to Aberdeen Global.

Due to the settlement period of four Business Days, Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of the subscription or switch, whichever is later.

**Shares held in Euroclear or Clearstream:** Any transaction in Shares held by an investor in an account with Euroclear or Clearstream must be notified immediately to the Registrar and Transfer Agent. The Transfer Agent has the right to refuse any such transaction where the investor does not hold sufficient Shares in their account with Clearstream or Euroclear.

### REDEMPTION OF SHARES

Investors may redeem either a specific number of Shares or Shares of a specified value on any Dealing Day. Any redemption requests received by the Global Distributor, the UK Distributor or the Transfer Agent before 13:00 hours Luxembourg time on a Dealing Day will be redeemed at the Share Price for the relevant Fund calculated on that Dealing Day, subject to any applicable charges. Any redemption requests received at or after 13:00 hours Luxembourg time will be redeemed on the next Dealing Day for that Fund.

Investors should note that the Dealing Days in respect of the Aberdeen Global – Frontier Markets Equity Fund shall be on the

Business Day which falls on the first and third Wednesday of each calendar month other than days during a period of suspension of dealing in Shares in that Fund. If the first or third Wednesday of each calendar month are not a Business Day in Luxembourg, the Dealing Day will be the Business Day immediately following the first or third Wednesday of each calendar month.

If a redemption request would result in a Shareholder's investment in any one Fund being less than US\$500 or currency equivalent, Aberdeen Global reserves the right to redeem the full Shareholding in that Fund (or Class) and pay the proceeds to the Shareholder. Shares are cancelled when redeemed.

The price at which Shares are redeemed may be higher or lower than the price at which Shares were purchased, depending on the value of the underlying assets.

Redemption requests may only be withdrawn during a period for which redemption rights have been suspended or deferred by Aberdeen Global.

Redemption requests can be made by letter, fax or such other means as agreed. Redemption requests must state the full name(s) and address of the Shareholders, the name of the Fund, the Class, the number or value of Shares in each Fund to be redeemed and full settlement instructions. Such requests must be signed by all Shareholders. The Global Distributor, the UK Distributor and the Transfer Agent reserve the right to require the Shareholder's signature on a redemption request to be verified in a manner acceptable to the Global Distributor, the UK Distributor or Transfer Agent.

Confirmation of the redemption will be mailed to the Shareholder on completion of the transaction.

Due to the settlement period of four Business Days, Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of the subscription or switch, whichever is later.

**Redemption Proceeds:** Payments to Shareholders are normally made to the bank account in the name of the Shareholders in Australian Dollars, Euro, Hong Kong Dollars, Japanese Yen, Sterling, Swiss Francs or US Dollars (as indicated at the time of the original application) or, if no indication was given, in the currency of denomination of the relevant Share Class of the Fund(s) concerned at the expense and risk of the Shareholder. No third party payments can be made. Redemption proceeds, less any applicable charges which may include normal banking charges included in any foreign exchange rate given, will be paid in accordance with the Shareholder's instructions given on application for the relevant Shares unless otherwise amended or requested in writing.

Proceeds of redemption will normally be paid at Shareholders' expense by bank transfer into the Shareholders' nominated bank account on the fourth Business Days following the date on which the applicable Share Price was determined. If, in exceptional circumstances, the liquidity of the relevant Fund is insufficient to enable redemption proceeds to be paid within that period, or if there are other reasons, such as exchange controls or other regulations which delay payment, payment will be made as soon as reasonably practicable thereafter, but without interest. Payments by telegraphic transfer will normally be made at the expense of the Shareholder. All payments are made at the Shareholder's risk.

## EXCHANGE (OR SWITCHING) OF SHARES

The following information applies to all Funds, except if an

**exchange (or switch) request involves exchanging within, into or out of Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund, Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global - Emerging Markets Infrastructure Equity Fund) or Aberdeen Global - Frontier Markets Equity Fund:**

- Shares in one Fund may be exchanged into Shares of the same or a different Class in another Fund or of a different Class in the same Fund, subject to the qualifications for investment being met, on any Dealing Day for the relevant Funds.
- Shares in the same Class may be exchanged between accumulation and income Shares within the same Class.
- Investors may exchange either a specific number of Shares or Shares of a specified value. Any requests for an exchange that are received by the Global Distributor, UK Distributor or the Transfer Agent before 13:00 hours Luxembourg time on a Dealing Day will be redeemed at the Share Price for the relevant Fund calculated on that Dealing Day, subject to any applicable charges (and subject to those shares being available to exchange as is explained below). Any requests for an exchange received after 13:00 hours Luxembourg time will be redeemed on the next Dealing Day. Class A, Class D and Class E Shareholders may exchange between those Classes in the same Fund or another Fund. Class A, Class D and Class E Shareholders may only exchange into Class C, Class I, Class N, Class S or Class Z Shares of the same Fund or another Fund with the prior consent of the Global Distributor and provided (where appropriate) they have a suitable agreement in place with the Investment Manager or one of its Associates and/or they qualify as Institutional Investors and they comply with the minimum investment requirements (and additionally Class N Shares may only be acquired by fund of funds type undertakings for collective investment in the form of unit trusts or corporate type funds, which are distributed primarily in Japan).
- However, existing Class B Shareholders may only exchange into Class B Shares in a Fund which have Class B Shares in issue. Other Shareholders may not exchange into Class B Shares of the same Fund or another Fund.
- Class C Shareholders may only exchange into Class C Shares in another Fund.
- Class S Shareholders may exchange into the same Class of Share in another Fund or Class A, Class D or Class E Shares of the same or another Fund. Class S Shareholders may also exchange into any other Class of Share in the same or another Fund with the prior consent of the Global Distributor provided (where appropriate) they have a suitable agreement in place with the Investment Manager or one of its Associates and/or they qualify as Institutional Investors and they comply with the minimum investment requirements.

**Information applicable if an exchange request involves exchanging within, into or out of Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund or Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global - Emerging Markets Infrastructure Equity Fund):**

- In the case of Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund and Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global - Emerging Markets Infrastructure Equity Fund), investors (with the exception of holders of Class C Shares), may exchange their Shares for another Class of Share in the same Fund with the prior consent

of the Global Distributor and provided (where appropriate) they have a suitable agreement in place with the Investment Manager or one of its Associates and/or they qualify as an Institutional Investor and comply with the minimum investment requirements (and additionally in respect of Class N these Shares may only be acquired by fund of funds type undertakings for collective investment in the form of unit trusts or corporate type funds, which are distributed primarily in Japan).

- Holders of Class C Shares of Aberdeen Global – Brazil Bond Fund, Aberdeen Global – Brazil Equity Fund or Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global – Emerging Markets Infrastructure Equity Fund) may not exchange their Shares for Shares of another Class of Shares within the same Fund.
- Shares in the same Class may be exchanged between accumulation and income Shares within the same Class of Share of Aberdeen Global – Brazil Bond Fund, Aberdeen Global – Brazil Equity Fund or Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global – Emerging Markets Infrastructure Equity Fund).
- Investors in Aberdeen Global – Brazil Bond Fund, Aberdeen Global – Brazil Equity Fund or Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global – Emerging Markets Infrastructure Equity Fund) may not exchange their Shares for Shares of the same or another Class in any other Fund.
- Similarly, Shareholders of any other Fund may not exchange their Shares for any Class of Share in Aberdeen Global – Brazil Bond Fund, Aberdeen Global – Brazil Equity Fund or Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global – Emerging Markets Infrastructure Equity Fund).
- Exchange requests received that are not in accordance with this paragraph will be returned to the investor.

### **Information applicable if an exchange request involves exchanging within, into or out of Aberdeen Global - Frontier Markets Equity Fund:**

- In the case of Aberdeen Global - Frontier Markets Equity Fund, investors, may exchange their Shares for another Class of Share in Aberdeen Global - Frontier Markets Equity Fund with the prior consent of the Global Distributor and provided they enter into an Aberdeen Global - Frontier Markets Equity Fund Share Purchase Agreement with the Investment Manager or one of its Associates.
- Shares in the same Class may be switched between accumulation and income Shares within the same Class of Share of Aberdeen Global - Frontier Markets Equity Fund.
- Investors in Aberdeen Global - Frontier Markets Equity Fund may not exchange their Shares for Shares of the same or another Class in any other Fund.
- Similarly, Shareholders of any other Fund may not exchange their Shares for any Class of Share in Aberdeen Global - Frontier Markets Equity Fund.
- Exchange requests received that are not in accordance with this paragraph will be returned to the investor.

If a request to exchange Shares would result in a Shareholder owning less than the minimum holding in any one Fund or

Class, Aberdeen Global reserves the right to exchange the full shareholding in that Fund (or Class).

Exchanging constitutes a redemption of the Shares of one Fund by Aberdeen Global and the issuance of new Shares of another Fund in their place, based upon the formula described in section 3 of Appendix B of the Prospectus, and subject to applicable exchanging charges.

Instructions to exchange may be given by fax, letter or such other means as agreed.

Exchanging instructions should include full details of registration, and the number or value and Class of Shares in each Fund to be exchanged.

Due to the settlement period of four Business Days, Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of subscription or switch, whichever is later.

Confirmation of the exchange will be sent to the Shareholder on completion of the transaction.

# Charges and Expenses

## SALES CHARGE STRUCTURE

### Initial Sales Charges

#### CLASS A, CLASS D, CLASS E AND CLASS S SHARES

Class A, Class D, Class E and Class S Shares of all Funds are offered at the applicable Net Asset Value per Share plus an initial charge of up to 6.38% of the Net Asset Value which is due to the Global Distributor (this operates to up to 6% of the aggregate Investment Amount). The current initial charges applied are set out in Appendix E of the Prospectus. The Global Distributor may rebate all or part of the initial charge by way of a commission or discount to recognised financial intermediaries and/or may waive all or part of the initial charge to individuals or groups of investors. Commission will normally be paid to a maximum of 3%.

The hedged versions of Class A and Class S Shares bear the same initial sales charge as Class A Shares and Class S Shares respectively.

Class A, Class D, Class E and Class S Shares of all Funds will have no exit charge on redemption.

Class S Shares and the hedged versions thereof are only available to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates.

#### CLASS B SHARES

Class B Shares were closed to new subscriptions with effect from 1 March 2006.

#### CLASS C SHARES

Class C Shares and the hedged versions of Class C Shares of all Funds will have no initial charge.

Class C Shares and the hedged versions thereof are only available to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates.

#### Contingent Deferred Sales Charge

A contingent deferred sales charge only applies in respect of Class C Shares.

Class S Shares and the hedged versions thereof will be subject to a contingent deferred sales charge of 1.00% of the Share Price of the Shares being redeemed, if the Shareholder redeems his Shares within one year of purchase.

The contingent deferred sales charge will be calculated as a percentage of the lesser of the relevant Share Price of the Shares on the date of redemption or the date of issue, exclusive of reinvestments.

In determining whether a contingent deferred sales charge is applicable to the proceeds of a redemption, the calculation will be made in the manner which results in the lowest possible charge. Thus, it will be assumed that the Class C Shares (or the hedged

versions of Class C Shares) first being redeemed are those Shares held by the Shareholder which are not subject to a contingent deferred sales charge then, after that, those which have been held by the Shareholder for the longest period of time.

Investors should note that in the case of Class C Shares and the hedged versions of Class C Shares, a distribution fee of 1.00% per annum of the Net Asset Value of the relevant Class is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears.

The Global Distributor reserves the right, at its discretion, to reallocate the Distributor's fees, in whole or in part to certain recognised financial intermediaries or institutions.

## REDEMPTION CHARGE STRUCTURE

In addition to other charges and adjustments referred to in the Prospectus, the following redemption charges apply in respect of the Aberdeen Global - Frontier Markets Equity Fund. The proceeds of any redemption of Shares in the Aberdeen Global - Frontier Markets Equity Fund by a Shareholder during the first full three years after purchase will be reduced in accordance with the following percentage scale. This represents a reducing redemption charge liability for Shareholders in the Aberdeen Global - Frontier Markets Equity Fund and will be calculated in the manner which results in the lowest possible charge on the assumption that the first shares acquired by the Shareholder are the first shares sold by that Shareholder. The scale is as follows:

Year of Redemption	Redemption Charge as a Percentage of Relevant Share Price
Within 1 full year of purchase	5.0%
After 1 full year but within 2 full years of purchase	3.0%
After 2 full years but within 3 full years of purchase	1.0%
After 3 full years of purchase	None

## ANNUAL CHARGES STRUCTURE

**Note:**

- <sup>1</sup> The hedged versions of Class A and Class D Shares will bear the same management charge as the underlying Class A or Class D Share for the relevant Fund.
- <sup>2</sup> Class B Shares were closed to new subscription with effect from 1 March 2006.
- <sup>3</sup> Class C and Class S Shares are only accessible to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates. The hedged versions of Class C and Class S Shares will bear the same management charge as the underlying Class C or Class S Share for the relevant Fund.

These fees are accrued daily and are paid monthly in arrears to the Investment Manager. The Investment Manager pays the fees of the Investment Advisers. The Investment Manager reserves the right, at its discretion, to reallocate any Investment Management fee it receives to certain recognised financial intermediaries or institutions.

The Investment Manager will also receive a fee for the management of, and additional administrative work involved in, entering into and monitoring securities lending transactions for the relevant Funds. This fee will not exceed 40% of the gross income generated by the securities lending transactions for the relevant Fund.

The Investment Manager may make payment of this fee to the Investment Adviser. The Investment Manager or Investment Adviser will make payment of any transaction expenses and agent's fees in connection with any securities lending transaction out of their fee.

**Distributor's Fees**

In the case of Class B Shares, a distributor's fee of 1.00% per annum of the Net Asset Value of the relevant Class is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears. The Global Distributor reserves the right, at its discretion to reallocate the Global Distributor's fees, in whole or in part, to certain recognised financial intermediaries or institutions.

Investors should note that in the case of Class C Shares and the hedged versions thereof, a distributor's fee of 1.00% per annum of the Net Asset Value of the relevant Class is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears. The Global Distributor reserves the right, at its discretion, to reallocate the Distributor's fees, in whole or in part, to certain recognized financial intermediaries or institutions.

**Management Company's Fees**

Aberdeen Global will pay the Management Company a fee which will not exceed 0.01% per annum of the net assets of each Fund.

**OTHER CHARGES & EXPENSES****Switching**

A charge, payable to the Global Distributor of up to 1% of the Net Asset Value of the Shares being switched, may be levied.

For full details of switching of Class A, Class B, Class D, Class E and Class S Shares please refer to the section 'Dealing in Shares of Aberdeen Global'.

**General**

The Global Distributor and the Investment Manager may share the whole or any part of the charges or fees outlined herein with the Transfer Agent or with any sub-distributor or intermediary. The Transfer Agent may act as the collecting or processing agent for such charges or fees.

**OPERATIONAL EXPENSES**

Aberdeen Global will pay the expenses of its incorporation and operation. This includes remuneration of the Custodian, Aberdeen Global's legal advisers and auditors, and payment of certain expenses, as agreed from time to time, of the Administrator and the Global Distributor. Aberdeen Global will pay other expenses incurred in its operation including the cost of printing and distributing the Annual and Interim Reports, the Prospectus, this and any subsequent Simplified Prospectus, all brokerage, taxes and governmental duties and charges payable by Aberdeen Global, any fees and expenses involved in obtaining or maintaining any registration or authorisation of Aberdeen Global with any governmental agency or stock exchange, the cost of publication of Share Prices and all other operating expenses of Aberdeen Global determined to be reasonable and customary by the Board of Directors. In addition to the fees paid to service providers, advisers or agents of Aberdeen Global, Aberdeen Global may also pay certain out-of-pocket expenses of such entities determined to be reasonable and customary by the Board of Directors.

**Custodian Fees and Expenses**

The Custodian's fee will not exceed 2% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month.

In addition to the Custodian fees charged in accordance with the agreement with BNP Paribas Securities Services, Luxembourg Branch the Custodian is entitled to be reimbursed by Aberdeen Global for its reasonable out-of-pocket expenses and disbursements and for the transaction charges of any correspondent banks. The amount paid to the Custodian will be shown in the Annual Report of Aberdeen Global.

**Domiciliary Agent, Registrar & Transfer Agent and Listing Agent's Fees and Expenses**

For its services as Domiciliary Agent, Aberdeen Global will pay Aberdeen Global Services S.A. fees not exceeding 0.01% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month. The amount paid to the Domiciliary Agent will be shown in the Annual Report of Aberdeen Global.

For its services as Registrar and Transfer Agent, Aberdeen Global Services S.A. will be entitled to receive a fee calculated in accordance with normal banking practice in Luxembourg and payable out of the assets of the Funds. The fees will not exceed 0.1% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month. The amount paid to the Registrar and Transfer Agent will be shown in the Annual Report of Aberdeen Global.

The Listing Agent (BNP Paribas Securities Services SA, Luxembourg Branch until 20 October 2011 and with effect from 20 October 2011 Aberdeen Global Services S.A.) is entitled to receive a fee calculated in accordance with normal banking practice in Luxembourg and payable out of the assets of the Funds. The Listing Agent's fee will not exceed 0.01% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month. The amount paid to the Listing Agent will be shown in the Annual Report of Aberdeen Global.

## Charges and Expenses continued

---

### **Paying Agent's Fees and Expenses**

Aberdeen Global will pay the Paying Agent fees not exceeding 0.01% per annum of the net assets of Aberdeen Global as determined on the last Dealing Day of the month. The amount paid to the Paying Agent will be shown in the Annual Report of Aberdeen Global.

### **Global Distributor's Fees and Expenses**

The Global Distributor's fees will not exceed 0.45% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month. The amount paid to the Global Distributor will be shown in the Annual Report of Aberdeen Global.

### **Administrator's Fees and Expenses**

Under the Administration Agency Agreement, Aberdeen Global will pay the Administrator's fees not exceeding 0.05% per annum (plus VAT, if any) of the net assets of Aberdeen Global as determined on the last Dealing Day of the month subject to a minimum of £32,500 per annum. The Administrator is entitled to be reimbursed by Aberdeen Global for any reasonable out-of-pocket expenses properly incurred in carrying out its duties. The amount paid to the Administrator will be shown in the Annual Report of Aberdeen Global.

### **Directors' Fees and Expenses**

Any Director of Aberdeen Global will be entitled to a fee in remuneration for their services as a Director or in their capacity as a member of any committee of the Board at the rate determined by Aberdeen Global in the Annual General Meeting. In addition, all Directors may be paid reasonable travelling, hotel and other incidental expenses for attending meetings of the Board of Directors (or any committee thereof) or of Shareholders of Aberdeen Global.

### **Allocation of Charges and Expenses**

Each Class of Shares of each Fund is charged with all costs and expenses attributable to it. Costs and expenses not attributable to a particular Class or Fund are allocated between all the Classes of Shares pro rata to their respective Net Asset Values. Charges and expenses are normally charged first against investment income and then against net realised capital gains and thereafter may be taken against capital.

Aberdeen Global is a single legal entity. Pursuant to Article 181 of the Law, the rights of investors and of creditors concerning a Fund or which have arisen in connection with the creation, operation or liquidation of a Fund are limited to the assets of that Fund.

The assets of a Fund are exclusively available to satisfy the rights of investors in relation to that Fund and the rights of creditors whose claims have arisen in connection with the creation, the operation or the liquidation of that Fund.

For the purpose of the relations as between investors, each Fund will be deemed to be a separate entity.

# Distribution/Dividend Policy

## CLASS A, CLASS B, CLASS C, CLASS D, CLASS E AND CLASS S SHARES

The dividend policy of Class A, Class B, Class C, Class D, Class E and Class S Shares is detailed below:

### Class A-1, Class B-1, Class C-1, Class E-1 and Class S-1 Shares

Dividends will be declared and distributed on these Classes of Shares.

### Class A-2, Class B-2, Class C-2, Class E-2 and Class S-2 Shares

The Board of Directors does not intend to declare any dividends in respect of these Classes of Shares. Accordingly, the investment income attributable to these Classes of Shares will be accumulated in the respective Net Asset Value of the Shares.

### Class B Shares

Class B Shares, divided into Class B-1 and Class B-2 Shares, have been closed to new business since 1 March 2006.

### Class D-1 Shares

Dividends will be declared and distributed on this Class of Shares. Reinvestment of income to purchase additional Shares is also available.

### Class D-2 Shares

Dividends will be declared and accumulated within the Share Price on this Class of Shares. This will be accumulated on an annual basis. As of 1 October 2012, the Board of Directors does not intend to declare any dividends in respect of these Classes of Shares. Accordingly, the investment income attributable to these Classes of shares will be accumulated in their respective Net Asset Values.

The dividend policy of the hedged Share Classes is the same as that of the underlying Shares.

For those Shares in issue, subject to income being available for distribution, the Board of Directors intends to declare dividends for the following Classes of Shares, namely Class A-1, Class B-1, Class C-1, Class D-1, Class D-2, Class E-1 and Class S-1 Shares. However, the Board of Directors reserves the right to increase or decrease the frequency of dividend payments, if any, at their discretion. Dividends may be paid out of investment income, capital gains or capital at the discretion of the Board of Directors.

The dividends for the following Funds will be declared annually as at 1 October with the appropriate distributions or allocations made within two months of this date:

\*These Funds will be launched at a future date to be confirmed by the Board of Directors of Aberdeen Global.

If a Shareholder redeems or switches all of his Shares, the dividends declared since the last reinvestment or payment date will be paid out in cash or switched to the other respective Fund, as the case may be, at the next dividend pay date. Holders of registered Shares of the above mentioned Funds at the dividend Record Date will be eligible for dividends notwithstanding a transfer, switch or redemption of those Shares prior to the corresponding dividend payment date. If any date for declaration of a dividend is not a Business Day, then such entitlement will be taken into the declaration of the preceding Business Day.

### UK Reporting Fund Regime

All Class D Shares have been granted reporting fund status by the UK taxation authorities. The Board of Directors, at its discretion, may apply for reporting fund status in respect of other Share Classes. Once granted reporting fund status, the Share Class may rely on that status going forward subject to continued compliance with the requirements of the reporting funds rules. Details of reporting fund status having been granted will be highlighted in the Aberdeen Global Annual Report and Accounts, within the section "Notes to the Financial Statements, Share Class Information". Additionally, the UK Reporting Fund Regime Report in respect of

all Share Classes granted reporting fund status will be published on [www.aberdeen-asset.co.uk/globalUKAnnualReportableIncome](http://www.aberdeen-asset.co.uk/globalUKAnnualReportableIncome) within six months of the relevant accounting period, and can be requested in writing by contacting Aberdeen Global Services S.A. at the Shareholder Services centre as detailed in the "Management and Administration" section of the Prospectus.

### CALCULATION OF NET INVESTMENT INCOME

The net investment income in relation to a Fund is determined in accordance with the laws and regulations applicable to Aberdeen Global. Broadly, it comprises all sums deemed by the Board of Directors of Aberdeen Global, to be in the nature of income received or receivable for the account of Aberdeen Global and attributable to each Fund in respect of the accounting period concerned, after deducting net charges and expenses paid or payable out of such income and after making such adjustments as the Administrator considers appropriate, following consultation with the Auditors in accordance with the laws and regulations applicable to Aberdeen Global in relation to taxation and other matters.

Each allocation of net investment income made in respect of any Fund at a time when more than one Class of Shares is in issue in respect of that Fund, shall be effected by reference to the relevant investor's proportionate interest in the property of the Fund in question. This will be ascertained for each Share class as follows:

1. A notional account will be maintained for each Class of Shares. Each account will be referred to as an Entitlement Account.
2. There will be credited to this Entitlement Account:
  - the capital amount of the price paid for the Shares of that Class (i.e., excluding any initial charges or dilution adjustment);
  - that Class' proportion of the capital appreciation attributable to the Fund;
  - that Class' proportion of the Fund's income received and receivable;
  - in the case of accumulation Shares, income previously allocated and so accumulated to Shares in respect of previous accounting periods.
3. There will be debited to the Entitlement Account:
  - any redemption payment made for the cancellation of Shares of the relevant Class;
  - that Class' proportion of any capital depreciation attributable to the Fund;
  - all distributions of income (including equalisation) made to Shareholders of that Class;
  - all costs, charges and expenses incurred solely in respect of that Class;
  - that Class' share of the costs, charges and expenses incurred in respect of that Class and one or more other Classes in the Fund, but not in respect of the Fund as a whole;
  - that Class' proportion of the costs, charges and expenses incurred in respect of or attributable to the Fund as a whole.

4. In each case, the Administrator will make such adjustments for taxation matters as the Administrator considers appropriate after consultation with the Auditors such that no particular Class of Share suffers material prejudice as opposed to another Class of Share.
5. Where a Class of Share is denominated in a currency which is not the Base Currency of the relevant Fund, the balance on the Entitlement Account shall be converted into the Base Currency of the Fund in order to ascertain the proportion of all Classes of Share. Conversions between currencies shall be at a rate of exchange decided by the administrator as being a rate that is not likely to result in any material prejudice to the interests of investors or potential investors.

### PAYMENT OF DIVIDENDS

#### Dividends for Reinvestment

Dividends in respect of the A-1, B-1, C-1, D-1, E-1 and S-1 Classes of Shares and the hedged versions of Class A-1, Class C-1 and Class S-1 Shares will automatically be reinvested in additional Shares of the same Class (except for Class B Shares) in the relevant Fund unless the Shareholder has specifically elected on the Application Form or otherwise subsequently in writing to receive such dividends in cash. The new Shares are issued at the Share Price on the relevant dividend payment date and are free of any sales charge. Dividends declared in respect of Class B Shares will be received in cash. Reinvested dividends are likely to be treated as income received by the Shareholder for tax purposes in most jurisdictions.

#### Dividends for Payment by Bank Transfer

Dividends are declared in the currency in which the Share Class giving rise to the dividend is denominated. They can, upon request, be paid, at the expense and risk of the Shareholder, in the preferred currency of the Shareholder, provided that currency is on the list of currencies offered, which list is available at the registered office of Aberdeen Global, (usually the currency of original investment), by bank transfer. Shareholders should bear in mind that bank clearing or collection charges may seriously erode the value of small dividend amounts. Dividend amounts of less than US\$25 (or its equivalent in another currency) will, at the discretion of the Board of Directors of Aberdeen Global, not be paid out in cash but will be automatically reinvested in order to avoid disproportionate costs, notwithstanding a Shareholders request to pay out dividends.

#### Unclaimed Dividends

Any dividend unclaimed after five years from the date when it first became payable shall be forfeited automatically and made use of for the benefit of the relevant Fund without the necessity for any declaration or other action by the Fund.

# Share Prices

Subject to any applicable charges, the price of Shares of any Class in any Fund on a particular Dealing Day shall be the "Share Price" for that Class, being equal to the Net Asset Value of that Class on that day, adjusted when required to reflect any dealing charges (which shall include any commission and/or other costs) and/or any bid/offer spread that the Board of Directors believes are appropriate to take into account in respect of that Class, divided by the number of Shares of that Class then in issue or deemed to be in issue. Such dealing charges will reflect costs and liabilities not included in the calculation of the Net Asset Value of the relevant Class. The dealing charges shall not exceed 1.5% of the Net Asset Value of the relevant Class whilst the bid/offer spread will represent the underlying spread in the securities that the Fund is invested into on the Dealing Day in question.

The Share Price may be rounded to up to four decimal places in the currency of denomination. In all cases, transaction values may be rounded to up to the second decimal place in the currency of denomination.

The Net Asset Value of Class A, Class C, Class D and Class S Shares and the hedged versions of those Shares in the same Fund may differ as a result of the differing charging structures and hedging policy applicable to each Class.

Potential investors should also note that a dilution adjustment may be applied and should refer to the section "Dilution Adjustment" for further information.

## Calculation of Exchange (or Switching Price)

Shareholders in a Fund are entitled to exchange some or all of their shareholdings into Shares of a different Class in the same or another Fund or Shares of the same Class in another Fund provided they meet the qualifications for investment in the different Class, by giving notice to the Transfer Agent, in accordance with the requirements and procedure detailed in the section "Exchange (or Switching) of Shares" above. Holders of Class B or Class C Shares may only switch into Class B and Class C Shares, respectively, in another Fund which issues these Classes of Share. Investor's attention is specifically drawn to the particular switching arrangements applicable to Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund and Aberdeen Global - Infrastructure Fund (as of 1 December 2011: Aberdeen Global - Emerging Markets Infrastructure Equity Fund).

The basis of the switch is related to the respective Share Prices of the two Funds or Share Classes concerned. The number of Shares into which Shareholders may switch their existing Shares will be calculated by the Transfer Agent on behalf of Aberdeen Global, in accordance with the following formula:

$$A = \frac{B \times (C-D) \times E}{F}$$

where

A is the number of Shares in the new Fund or Share Class to which the Shareholder shall become entitled;

B is the number of Shares in the original Fund or Share Class which the Shareholder has requested to be switched;

C is the Share Price of a Share in the original Fund or Share Class;

D is the switching charge (if any) payable per Share;

E when the original Fund or Share Class and the new Fund or Share Class are not designated in the same currency, is the currency exchange rate on the relevant Dealing Day, deemed appropriate by the Investment Manager, used to convert Funds or Share Classes denominated in different base currencies against each other and, in any other case, is 1; and

F is the Share Price of a Share in the new Fund or Share Class.

Shares rounded up to four decimal places, if appropriate, will be issued on switching.

## Calculation of Net Asset Value

- (1) The Net Asset Value of each Class of Shares will be determined on each Dealing Day for the relevant Fund.
- (2) The Net Asset Value of each Class of Shares (expressed in its currency of denomination) will be determined by aggregating the value of the assets, and deducting the liabilities, of the Fund allocated to such Class. For this purpose the assets of Aberdeen Global shall be deemed to include:
  - (i) all cash in hand or on, or instructed to be placed on, deposit, including any interest accrued or to be accrued thereon;
  - (ii) all bills and demand notes and accounts receivable (including proceeds of securities sold but not yet delivered);
  - (iii) all bonds, time notes, shares, stock, debenture stocks, units/shares in undertakings for collective investment, subscription rights, warrants, options and other investments and securities owned or contracted for by Aberdeen Global;
  - (iv) all stock, stock dividends, cash dividends and cash distributions receivable by Aberdeen Global to the extent information thereon is reasonably available to Aberdeen Global (provided that Aberdeen Global may make adjustments with regard to fluctuations in the market value of securities caused by trading ex-dividend or ex-rights or by similar practices);
  - (v) all interest accrued on any interest-bearing securities owned by Aberdeen Global, except to the extent that such interest is included or reflected in the principal amount of such security; and
  - (vi) all other assets of every kind and nature, including prepaid expenses.

Likewise, the liabilities of Aberdeen Global shall be deemed to include:

- (i) all loans, bills and accounts payable;
- (ii) all accrued or payable administrative expenses (including management, custodian's and corporate agent's fees and other fees payable to representatives and agents of Aberdeen Global);
- (iii) all known liabilities, present and future, including all matured contractual obligations for payments of money or property, including the amount of any unpaid dividends declared by Aberdeen Global where the date of the valuation falls subsequent to the record date for determination of the persons entitled thereto;
- (iv) an appropriate provision for future taxes based on capital and income as at the date of the valuation and any other reserves authorised and approved by the Board of Directors; and
- (v) all other liabilities of Aberdeen Global of whatever kind and nature, actual or contingent, except liabilities represented by Shares in the relevant Class towards third parties.

The value of such assets shall be determined as follows:

- (1) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as Aberdeen Global may consider appropriate in such case to reflect the true value thereof;

## Share Prices continued

---

- (2) the value of securities and/or financial derivative instruments which are listed on any official stock exchange or traded on any other organised market at the last available stock price. Where such securities or other assets are quoted or dealt in or on more than one stock exchange or other organised markets, the directors shall select the principal of such stock exchanges or markets for such purposes;
- (3) in the event that any of the securities held in Aberdeen Global's portfolio on the relevant day are not listed on any stock exchange or traded on any organised market or if with respect to securities listed on any stock exchange or traded on any other organised market, the price as determined pursuant to sub-paragraph (2) is not, in the opinion of the Board of Directors, representative of the fair market value of the relevant securities, the value of such securities will be determined prudently and in good faith based on the reasonably foreseeable sales price or any other appropriate valuation principles;
- (4) the financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by Aberdeen Global;
- (5) units or shares in underlying open-ended investment funds shall be valued at their last available net asset value reduced by any applicable charges;
- (6) liquid assets and Money Market Instruments may be valued at market value plus any accrued interest or on an amortised cost basis as determined by the Board of Directors. All other assets, where practice allows, may be valued in the same manner. If the method of valuation on an amortised cost basis is used, the portfolio holding will be reviewed from time to time under the direction of the Board of Directors to determine whether a deviation exists between the Net Asset Value calculated using the market quotation and that calculated on an amortised cost basis. If a deviation exists which may result in a material dilution or other unfair result to investors or existing shareholders, appropriate corrective action will be taken including, if necessary, the calculation of the Net Asset Value by using available market quotations; and
- (7) in the event that the above mentioned calculation methods are inappropriate or misleading, the Board of Directors may adjust the value of any investment or permit some other method of valuation to be used for the assets of Aberdeen Global if it considers that the circumstances justify that such adjustment or other method of valuation should be adopted to reflect more fairly the value of such investments.

The value of financial derivative instruments used to hedge currency exposure on the hedged Share Classes will be allocated to the appropriate hedged Share Class. Depending on performance, the value may be either an asset or a liability and will be included in the calculation of Net Asset Value accordingly.

For the purposes of valuing its assets, no account shall be taken of monies held by the Global Distributor on behalf of Aberdeen Global for payment of dividends to Shareholders and for the purposes of establishing its liabilities, Aberdeen Global may take into account all administrative and other expenses with a regular or periodical character by calculating them for the entire year or any other period and by dividing the amount concerned proportionately for the relevant fractions of such period.

### Publication of Share Prices

The Share Prices of each Class of Shares of each Fund are made public at the registered office of Aberdeen Global and are available on the internet site [www.aberdeen-asset.com](http://www.aberdeen-asset.com). Share Prices (but not necessarily for every Class) are also currently published daily in a number of local publications and are available from Reuters, Bloomberg, Allfunds Bank, Financial Express, FT Interactive Data, Lipper, MoneyMate, and Telekurs. Aberdeen Global and its agents cannot accept responsibility for any errors or delays in the publication or non-publication of prices and reserve the right to discontinue or change publication in publication without notice. Such prices are published for information only. It is not an invitation to subscribe for, redeem or switch.

# Taxation

## TAXATION OF ABERDEEN GLOBAL

Aberdeen Global is not liable to any Luxembourg tax on profits or income.

Aberdeen Global is liable in Luxembourg to a tax at a rate of 0.05% per annum of the Net Asset Value of each Class A, Class B, Class C, Class D, Class E and Class S Shares, such tax being payable quarterly on the basis of the value of the net assets of Aberdeen Global at the end of the relevant calendar quarter.

No stamp duty or other tax is payable in Luxembourg on the issue or redemption of Shares except for a capital duty of 1,239.47 Euro paid by Aberdeen Global on its incorporation.

No Luxembourg tax is payable on the realised capital gains or unrealised capital appreciation of the assets of Aberdeen Global.

Dividends and interest received by Aberdeen Global on its investments may be subject to irrecoverable withholding taxes at source.

## TAXATION OF SHAREHOLDERS

### EU Tax Considerations for individuals resident in the EU or in certain third countries or dependent or associated territories

The Council of the EU has adopted on 3 June 2003 Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (the "Directive"). Under the European Savings Tax Directive (the "EUSD"), Member States of the EU will be required to provide the tax authorities of another EU Member State with information on payments of interest or other similar income paid by a paying agent (as defined by the EUSD) within its jurisdiction to an individual resident in that other EU Member State. Austria, Belgium and Luxembourg have opted instead for a tax withholding system for a transitional period in relation to such payments. Switzerland, Monaco, Liechtenstein, Andorra and San Marino and the Channel Islands, the Isle of Man and the dependent or associated territories in the Caribbean, have also introduced measures equivalent to information reporting or, during the above transitional period, withholding tax.

The EUSD has been implemented in Luxembourg by a law dated 21 June 2005 (the "2005 Law").

Dividends distributed by a Fund will be subject to the Directive and the 2005 Law if more than 15% of such Fund's assets are invested in debt claims (as defined in the 2005 Law) and proceeds realised by Shareholders on the redemption or sale of Shares in a Fund will be subject to the EUSD and the 2005 Law if more than 25% of such Fund's assets are invested in debt claims (such Funds, hereafter "Affected Funds").

The applicable withholding tax is at a rate of 35%.

Consequently, if in relation to an Affected Fund a Luxembourg paying agent makes a payment of dividends or redemption proceeds directly to a Shareholder who is an individual resident or deemed resident for tax purposes in another EU Member State or certain of the above mentioned dependent or associated territories, such payment will, subject to the next paragraph below, be subject to withholding tax at the rate indicated above.

No withholding tax will be withheld by the Luxembourg paying agent if the relevant individual either (i) has expressly authorised the paying agent to report information to the tax authorities in accordance with the provisions of the 2005 Law or (ii) has provided the paying agent with a certificate drawn up in the format required by the 2005 Law by the competent authorities of his State of residence for tax purposes.

Aberdeen Global reserves the right to reject any application for Shares if the information provided by any prospective investor does not meet the standards required by the 2005 Law as a result of the Directive.

**The foregoing is only a summary of the implications of the Directive and the 2005 Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice and investors should therefore seek advice from their financial or tax adviser on the full implications for themselves of the Directive and the 2005 Law.**

### Luxembourg

Subject to the provisions of the 2005 Law, Shareholders are not subject to any capital gains, income, withholding, gift, estate, inheritance or other tax in Luxembourg (except for Shareholders domiciled, resident or having a permanent establishment in Luxembourg).

### General

Prospective investors should note that levels and bases of taxation may change and should ascertain from their professional advisers the potential consequences to them of acquiring, holding, redeeming, transferring, selling or switching any of Aberdeen Global's Shares or receiving dividends therefrom under the relevant laws of each jurisdiction to which they are subject, including the tax consequences and any foreign exchange control requirements. These consequences will vary with the law and practice of a Shareholder's country of citizenship, residence, domicile or incorporation and personal circumstances.

Investors should also consult Appendix G of the Prospectus for information on taxation in these jurisdictions therein listed.

The foregoing statements on taxation are given on the basis of Aberdeen Global's understanding of present legislation and practice in force at the date of this document and is subject to change.

## TAXATION OF CHINESE EQUITY AND BONDS

The Management Company reserves the right to provide for capital gains tax on Funds investing in Chinese assets, including China A or B Shares. The tax rules applied by the People's Republic of China ("PRC") taxation authorities in this area are unclear. As the provision made by the Management Company is based on current market practice and the Management Company's understanding of the tax rules, any changes to market practice or interpretation of PRC tax rules may impact this provision and may result in this provision being higher or lower than required.

\* These Funds either have been launched after 30 September 2010 or will be launched at a future date to be confirmed by the Directors of Aberdeen Global. As and when launched further information on PTRs and TERs will be made available.

Notes:

(1) The Portfolio Turnover Rate (PTR) is a measure of the annual turnover in a Fund's assets which is over and above that required to invest new money in the stock market or to raise money from the stock market to meet the redemption of shares. Our equity Funds are run with an emphasis on traditional buy-and-hold, with top slicing / topping up preferred to outright trades. Turnover, in terms of the addition of new holdings to a portfolio or the complete sales of holdings from a portfolio, would be significantly lower.

The formula employed in calculating the PTR is as follows:

Turnover =  $[(\text{Total1} - \text{Total2}) / \text{M}] * 100$  with Total1: Total of securities transactions during the relevant period = X+Y where X = purchases of securities and Y = sale of securities. Total2: total of transactions in shares of the Fund during the relevant period = S+T where S = subscriptions of shares of the Fund and T = redemptions of shares of the Fund. M = average monthly assets of the Fund.

(2) The high turnover figure is a function of the manner in which a bond Fund is managed to accommodate short term positions under constant review in relation to the interest rate cycle.

(3) The Total Expense Ratio (TER) is the ratio of the gross amount of expenses of the Fund to its average net assets (excluding transactions costs). TERs and PTRs from previous years may be obtained from the UK Distributor on request.

## FUND PERFORMANCE

This section provides investors with information on the past performance of the Aberdeen Global Range.

Please note that all performance information is as at 31 December 2010. For more up to date performance information please call Shareholder Services at the contact address given under Further Information or visit our website at [www.aberdeen-asset.com](http://www.aberdeen-asset.com).

The past performance for each Fund is displayed in two ways:

### 1) Annual Returns - bar chart

The bar chart displays annual returns for each Fund available. Annual returns are shown for each of the last 10 full consecutive years, i.e. from 1 January to 31 December for each year up to 31 December 2010. If the Fund has been running for less than 10 years, but more than 1 year, the annual returns are shown for as many years as are available. If a Fund has been running for less than a year, no performance information is provided.

### 2) Cumulative Returns - line graph

The line graph displays cumulative returns for each Fund. Cumulative returns are shown for the last 10 years to 31 December 2010. Again, if the Fund has been running for less than 10 years, but at least 1 year, the cumulative returns are shown for as many years as are available although if the Fund has been running for less than 1 year, no cumulative returns are shown.

The past performance for the charts is calculated net of tax and charges.

**Please remember that the value of shares and the income from them is not guaranteed and can fall as well as rise due to stock market and currency movements. Past performance is not a guide to future performance and when you sell your investment you may get back less than you originally invested. These performance charts and graphs do not include the effect of subscription and redemption fees.**
