Objectives and investment policy

To achieve a combination of income and growth by investing mostly in worldwide companies that are active in the extraction, production, processing and trading of chemicals, building materials, metals and other raw materials, timber and paper products, containers and packaging as well as companies in the energy resources sector. The Fund may also invest in companies which obtain the majority of their revenues by financing these activities.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy and sell shares in the Fund on any working day in Luxembourg, by 13:00 hours CET.

Income from investments in the Fund will be rolled up into the value of your shares.

Further information on the Fund's investment objective and policy can be found in the Fund's Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- This Fund is ranked at 7 because funds of this type have experienced very high rises and falls in value in the past.
- Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases. The indicator does not take into account the following risks of investing in this Fund:
 - Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
 - This Fund invests in a specialist sector and it will not perform in line with funds that have a broader investment policy.
 - Currency hedged share classes aim to provide you with a return that is as close as possible to the base currency performance of a fund, by reducing the effect of exchange rate movements between the base currency and the hedged currency. However, hedging techniques may not be fully effective in completely removing the exchange rate risk. It is also important to note that these hedging techniques have transaction costs which will reduce your overall return. These costs tend to be low but may be higher if significant shareholder purchases or sales force a hedged share class to increase its level of forward currency trades – this is when two parties buy or sell currency at a specified future time but at a price agreed today.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	6.38%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	2.16%

Charges taken from the Fund under specific conditions	
Performance fee	Nil

- Switching charge (for switching into the Fund from another fund) 1.00%.

The ongoing charges figure is based on the last year's expenses for the year ending 2011 and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

In respect of the Switching Charge and Exit Charge, these are the maximum amounts you will be charged, however you may be charged less. Regarding the Exit charge, this will depend on when you sell your shares. You should speak to your financial adviser about these charges. For more information about charges, please refer to the Fund's Prospectus. The ongoing charge figure is as at 31st March 2012.

Past Performance

- You should be aware that past performance is not a guide to future performance.
- The Fund was launched on 26/07/2010.
- The share/unit class was launched on 26/07/2010.
- Performance is calculated in EUR.
- Performance is based on the Fund's net asset value at the end of each year, net of annual charges except for any initial charge.
