AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

2. General Information (continued)

Investment Objectives and Policies of the Funds

Aegon Euro Credits Fund

The investment objective of the Fund is to provide long term capital growth by investing directly in fixed and floating investment grade corporate bonds and notes, which are either denominated in Euro or denominated in another currency with the currency risk hedged back to Euro or by investing indirectly in collective investment schemes. Such bonds and notes may include bonds issued by issuers that are majority or wholly owned by governmental or municipal bodies, which have not guaranteed such bonds.

Aegon European ABS Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 70% of its net assets in asset-backed securities. Asset-backed securities are a type of debt securities such as bonds or notes whose value and income payments are derived from an underlying pool of assets held by the issuer. The underlying pool of assets is referred to as 'collateral'. The Fund may hold bonds and notes with various types of collateral, but some examples include residential mortgages, commercial mortgages, consumer loans, car loans, credit card loans, student loans and corporate loans, such bonds will not embed any leverage.

Aegon Emerging Markets Debt Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 67% of its net assets directly or indirectly, in fixed income securities in US Dollars issued by governments, institutions or companies in emerging countries which may be fixed and floating rate.

Aegon European High Yield Bond Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 67% of its net assets directly in high yield corporate bonds and notes, which may be at a fixed or floating rate and are rated by rating's agencies as set out below. High yield corporate bonds are defined as meeting one or more of the following rating criteria: Ba1 or lower by Moody's and BB+ or lower by Standard & Poor's and Fitch Ratings.

Aegon US High Yield Bond Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 67% of its net assets directly in high yield corporate bonds and notes, which may be at a fixed or floating rate. The Investment Manager's strategy is to seek to achieve high returns for the Fund while maintaining the high yield bonds risk profile of the Fund at a moderate level.

Aegon European Government Bond Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 67% of its net assets directly or indirectly, in government bonds and government related bonds such as municipalities, supra-national organisations of countries belonging to the European Union and in countries in the process of negotiating accession to the European Union. The Investment Manager aims to add value by active selection of the weighted average life of bonds (average length of time until repayment of the principle invested) and specific bonds in the portfolio as well as active selection of issuers, issues, countries, sectors, ratings and maturity buckets (the date on which the relevant instrument will mature).

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

2. General Information (continued)

Investment Objectives and Policies of the Funds (continued)

Aegon US Short Duration High Yield Bond Fund

The investment objective of the Fund is to provide exposure to a diversified portfolio of shorter duration high yield bonds by investing at least 67% of its net assets directly in high yield corporate bonds, which may be at a fixed or floating rate and are rated by ratings agencies as set out below, with a focus on high yield corporate bonds whose credit rating is rated below investment grade and whose expected duration is relatively short compared to the overall fixed income market. The Investment Sub-Adviser's strategy is to seek to achieve high returns for the Fund while maintaining the high yield bonds risk profile of the Fund at a moderate level and the portfolio's weighted average duration of 36 months or less. The bonds held by the Fund will be primarily denominated in USD, although some bonds may be denominated in EUR or in the currency of another European country, which is not a member of the Euro and are issued by US companies or institutions.

Aegon US High Yield Select Bond Fund*

The investment objective of the Fund was to provide exposure to a portfolio of high yield bonds by investing at least 67% of its net assets directly in high yield corporate bonds, which might be at a fixed or floating rate and were rated by rating's agencies as set out below. The Investment Manager's strategy was sought to achieve high returns for the Fund while maintaining the high yield bonds risk profile of the Fund at a moderate to high level. The Investment Manager would focus on security selection through high conviction investment ideas resulting in the Fund having exposure to a more concentrated portfolio of investments in the Fund with a limited number of issuers, while complying with the requirements for risk spreading and investment restrictions as set out in the Regulations. This means that the Investment Manager, when selecting investments for the Fund, would focus more on certain issuers over others. The bonds held by the Fund would be primarily denominated in USD, although some portfolio securities may be denominated in EUR or in the currency of another European country, which was not a member of the Euro and were issued by US companies or institutions.

Aegon Global Multi Assets Credit Fund

The investment objective of the Fund is to provide long term capital growth by investing at least 67% of its net assets in asset backed securities, fixed and floating rate bonds and loans and other fixed income securities issued by governments, government agencies, supra-nationals and companies worldwide. The Investment Manager's strategy is to seek to achieve high (risk-adjusted) returns for the Fund while maintaining the risk of investing in fixed or floating rate bonds at a moderate risk profile by investing in a diversified portfolio of different types of bonds and other fixed income securities from different types of issuers, including investment grade, high yield, emerging markets debt, secured debt, asset backed securities leveraged loans which qualify as money market instruments and other fixed or floating rate bonds. The bonds held in the Fund will be primarily denominated in USD, Euro and British pound sterling, although some portfolio securities may be denominated in other currencies.

Aegon Alternative Risk Premia Fund

The investment objective of the Fund is to achieve capital appreciation over the medium to long term. The Fund is actively managed and is a multi-strategy, multi-asset alternative risk premia fund. The Investment Manager seeks to achieve the Fund's investment objective.

* Aegon US High Yield Select Bond Fund closed on 16 July 2020.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

3. Directors' Report

The Directors present their annual report and audited financial statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021.

Statement of Directors' Responsibilities in respect of the Financial Statements

The Directors are responsible for preparing the annual report and audited financial statements of the Funds of Aegon Asset Management Europe ICAV in accordance with applicable law and regulations.

The Irish Collective Asset-management Vehicles Act 2015 requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of each of the Funds at the end of the financial year and of the profit or loss of each of the Funds for the financial year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Funds will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records, which correctly explain and record the transactions of the Funds, enable at any time the assets, liabilities, financial position and profit or loss of the Funds to be determined with reasonable accuracy, enable them to ensure that financial statements and Directors' report comply with the requirements of the ICAV Act and the Central Bank UCITS Regulations, and enable the financial statements to be audited.

The measures taken by the Directors to secure compliance with the Funds obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records of the Funds are kept at Citibank Europe Plc, 1 North Wall Quay, Dublin 1, Ireland.

Under the Central Bank UCITS Regulations, the Directors are required to entrust the assets of the ICAV to a Depositary for safekeeping. In carrying out this duty, the ICAV has delegated custody of the ICAV's assets to Citi Depositary Services Ireland DAC.

The Directors, with the support of the Investment Manager, are also responsible for the maintenance and integrity of these financial statements as electronically published on the Investment Manager's website:

<https://www.aegonam.com/en/documents/>

Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

3. Directors' Report (continued)

Principal Activities

A summary of the Funds principal activities are set out in the General Information pages.

Review of the Development of the Business and Future Developments

The Directors believe that the Funds have adequate resources to continue in operational existence for the foreseeable future. For this reason, they have adopted the going concern basis in preparing the financial statements. The Directors have entrusted the management of the Funds to the Investment Manager. The investment management activities and the details of the development of the Funds over the last financial year are reviewed in detail in the Investment Manager's Report.

Risk Management Objectives and Policies

A detailed review of the principal risks and the management of those risks are included in Note 3 to the financial statements. The prospectus of the Funds sets out a comprehensive disclosure of the risk inherent in investing in the Funds. See 'Events during the Financial Year' and 'Events after the Statement of Financial Position Date' notes on pages 10 and 11 for a detailed review of the other risks and uncertainties facing the ICAV.

Results

The financial position and results for the financial year are set out in the Statement of Financial Position and the Statement of Comprehensive Income respectively.

Distribution

Detailed distributions are disclosed in Note 10 of the notes to the financial statements.

Statement on Relevant Audit Information

The Directors confirm as far as they are aware that there is no relevant audit information of which the Funds' statutory auditors are unaware. The Directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Funds' statutory auditors are aware of that information.

Corporate Governance Code

The ICAV has adopted the "Corporate Governance Code for Irish Domiciled Investment Funds" issued by the Irish Funds Industry Association (the "IF Code") which can be obtained from the IF's website at <http://www.irishfunds.ie>. The ICAV is also subject to corporate governance practices imposed by:

- (i) The ICAV Act which can be obtained from the Irish Statute book website at www.irishstatutebook.ie; and
- (ii) The Central Bank of Ireland ("Central Bank") in their UCITS Regulations which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx> and are available for inspection at the registered office of the ICAV.
- (iii) The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV.

Connected Persons

Regulation 43(1) of the Central Bank UCITS Regulations states that a "responsible person shall ensure that any transaction between a UCITS and a connected person is conducted (a) at arm's length; and (b) in the best interest of the unit-holders of the UCITS".

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

3. Directors' Report (continued)

Connected Persons (continued)

As required under Central Bank UCITS Regulations 78(4), the Directors as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected parties that were entered into during the financial year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Directors

The Directors of the ICAV during the financial year were:

Mr. Mike Kirby
Ms. Bronwyn Wright
Mr. Stuart Donald

Directors' and Secretary Interests

None of the Directors and Secretary held any interests in the ICAV as at 31 December 2021 or at any point during the financial year.

Mike Kirby is a Director and is the Managing Principal of KB Associates, which provide UCITS consulting and anti-money laundering services to the ICAV.

Transactions to Directors' respective entities and Directors' remuneration during the financial year are detailed in Note 7 and Note 9 to the financial statements.

Events during the Financial Year

The following share classes were launched:

Date	Fund	Share Class
25 January 2021	Aegon Alternative Risk Premia	Class A EUR
25 January 2021	Aegon Alternative Risk Premia	Class I EUR
3 March 2021	Aegon European ABS	Class Z GBP (hedged)
9 June 2021	Aegon European ABS	Class I AUD Income (hedged)
9 July 2021	Aegon Emerging Markets Debt Fund	Class K EUR Income (hedged)
15 September 2021	Aegon European ABS	Class I USD Income (hedged)
13 October 2021	Aegon Global Sustainable Sovereign Bond Fund	Class I EUR
25 October 2021	Aegon Global Sustainable Sovereign Bond Fund	Class I GBP (hedged)

On 9 March 2021, an addendum to the Prospectus was issued to reflect the Sustainable Finance Disclosures Regulation ("SFDR") requirements.

On 13 October 2021, Aegon Global Sustainable Sovereign Bond Fund launched.

Since the start of the COVID-19 pandemic in January 2020, there have been approximately 220 million cases worldwide, as of December 2021. There is still a great amount of uncertainty surrounding the virus, with record number of cases being recorded in numerous regions. Additionally, the emergence of COVID-19 variants have had far reaching consequences, with announcements of further lockdowns and travel restrictions to curb their spread. While the final fiscal ramifications of the pandemic are still unknown, there have been many advances made to curb and control outbreaks, which has meant that many jurisdictions are able to proceed with their "phased returns" to ease lockdowns and reopen their economies.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

3. Directors' Report (continued)

Events during the Financial Year (continued)

Thanks to vaccination efforts the global economic outlook is much more optimistic than this time last year, with the IMF predicting global growth of 4.9% for 2022. There remains ongoing uncertainty to the challenges posed by COVID and the risk of new variants materialising with the potential for further shutdowns impacting specific sectors, geographies and undermining the broader global economic outlook. The recent Omicron variant's rapid spread and high infections rates have been managed with less restrictions with vaccinations reducing the overall health and economic effects. This offers hope that the world can adapt to new variants with less overall impact than the initial waves.

The United Kingdom ("UK") officially left the European Union ("EU") on 31 January 2020 but remained subject to EU regulations during an agreed transitional phase until 31 December 2020. Although a free trade agreement was ratified by both the EU and the UK in December 2020 and the transitional phase has ended, there remains a number of uncertainties in connection with the UK's relationship with the EU in regards to potential regulatory alignment or equivalence. Until the terms of the regulations are clearer, it is not possible to determine the full impact that the UK's departure and/or any related matters may have on the ICAV and its investments. From 1 January 2021, a memorandum of understanding is in place between the UK's Financial Conduct Authority, the European Securities and Markets Authority and the EU which permits the continued delegation of investment management.

The Board of Directors continue to monitor the impact of these risks on the Funds.

There have been no other significant events affecting the Funds during the financial year ended 31 December 2021.

Events after the Statement of Financial Position Date

On 24 February 2022, Russia began a large-scale military invasion of Ukraine. The impact of the conflict has seen short-term volatility in the markets, with notable shocks to commodity and energy markets. We now face a more uncertain future outlook with the potential for further shocks to markets and future growth rates.

On 4 March 2022 Aegon Asset Management Europe ICAV appointed Aegon Investment Management B.V. as its Management Company. The Prospectus and Supplements were updated to reflect this restructure. On 4 March 2022, the Prospectus and Supplements were updated to reflect the Taxonomy Regulation.

There have been no other significant events affecting the ICAV since 31 December 2021 to the date the financial statements were approved.

Auditors

The auditors, PricewaterhouseCoopers, Chartered Accountants, will continue in office in accordance with Section 125 of the ICAV Act 2015.

On behalf of the Board

Director: Bronwyn Wright

A handwritten signature in black ink, appearing to be "B. Wright".

Director: Mike Kirby

A handwritten signature in black ink, appearing to be "M. Kirby".

Date: 20 April 2022

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report

Aegon Euro Credits Fund

The Aegon Euro Credits Fund had a gross return of -0.64% in 2021, outperforming the benchmark index, which ended the year at -0.97%.

Market sentiment was positive throughout the first half of the year, as the vaccine roll-out fired up expectations of a strong recovery of the European economies. Even though the recovery was held back by a third wave of infections, which kept most of Europe in a lockdown situation until May, spreads grinded tighter, especially in the second quarter, to below pre-Covid levels.

At the same time inflation expectations caused underlying government bond yields to move higher, thus leading to negative total returns for the asset class. The interest rate volatility also temporarily spilled over into spread markets, but they regained strength after the ECB confirmed that the asset buying programs would remain in place.

The market remained in this very low volatile environment over the summer period. By then inflation pressures had become too strong to consider them transitory, which put pressure on central banks to move to a less accommodative stance. Interest rate volatility picked up and spreads started to move higher. When Covid-19 infections started to increase in the fourth quarter, and the new, more contagious, omicron variant was found, spreads suddenly moved higher. The market relaxed again towards the end of the year when this new variant appeared to be less burdensome to the health systems. In the meantime the market had also digested the fact that the central banks had shifted to a tighter monetary policy stance: the Fed made clear they were ready to increase rates in 2022, and the ECB announced a tapering of the bond purchasing programs.

The fund had a small overweight risk position until the end of the summer period, in the traditional high spread sectors of subordinated paper from financial institutions, but also in companies and sectors that we expected to benefit from the reopening of the economy (e.g. transportation). This position helped achieve a modest outperformance against the backdrop of the gradual spread tightening. We shifted to a more neutral stance by taking profit on some of the transportation positions, and in general by reducing higher risk exposures.

We think the outlook for 2022 is definitely more challenging for credits. On the one hand the fundamental economic outlook remains positive, but on the other hand the technical support from the ECB asset buying programs will fade. We also expect the markets to become more volatile as inflation pressures will lead to an environment of higher interest rates.

The Fund is not sensitive to currency risk, as all investments are denominated in euro. Market risk is limited, as investments are well diversified across regions, countries and individual issuers. An important element of market risk is credit risk, ie the risk of price movements as a result of changes in creditworthiness of issuing entities. The Fund invests in fixed income instruments with a higher risk profile than sovereign bonds, and is therefore sensitive to credit risk. Diversification of investments is an important tool to limit credit risk. We use bond futures to keep the interest rate risk of the Fund equal to the interest rate risk of the benchmark. The Fund therefore is sensitive to changes in underlying rates of (German) sovereigns to the same extent as the benchmark index.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon European ABS Fund

The Aegon European ABS Fund achieved a gross return of 1.49% for FY 2021 (figures based on the Z-share). That figure was 1.03% higher than the combined benchmark: the Barclays Capital Asset Backed Securities Fixed Rate Euro Index and the Barclays Capital Asset Backed Securities Floating Rate Euro Index. This benchmark achieved a return of 0.46%.

The outperformance is attributable to several factors. The first is the higher exposure to non-consumer sectors like CLOs compared with the benchmark. Furthermore, our exposure to ECB ineligible sectors like UK RMBS or US Student Loan ABS were a second attributor. Our overweight in non-senior bonds and the high carry of European ABS also contributed positively.

The principal risks for the ABS market in 2021 were similar to those in other sectors, i.e. the pace of Covid-19 infections and vaccination campaigns and central bank policy setting (or their missteps). The latter is mainly a result of the expansionary monetary policy over several years, which have, coupled with supply chain disruptions, resulted in higher inflation. Risk-on sentiment and the amount of liquidity in the market, coupled with the search for yield amidst inflationary pressures, have resulted in spread tightening. Inflationary pressures resulted in expectations of rising interest rates, which impacted other fixed income markets. European ABS benefits from floating rate coupons, and were therefore not affected by interest rate movements to the same extent.

It remains to be seen how irreversible some of the damage done by measures taken to contain the pandemic will be. Stimulus and liquidity packages that were introduced by central banks and governments are overshadowing underlying fundamentals, but these extraordinary measures will end relatively soon. It might be that markets will be trending on a similar tone as the second half of 2021, or that we will see a further correction. ABS nonetheless remains attractive from a valuation, technical as well as a fundamental perspective. Any surge in volatility may in fact create attractive investment opportunities.

Some ABS issuers have access to cheaper funding alternatives compared to ABS like TLTRO or central bank repo facilities. The European ABS market continues to witness negative net supply; issuance is lower compared to amortizations and the outstanding universe is shrinking. In addition, the unique features of European ABS being floating rate, has created higher demand for investors seeking a natural hedge against rising rates; demand is outpacing supply. This favorable technical is unlikely to change any time soon and the scarcity value of outstanding European ABS therefore will add to the already very favorable technical for European ABS spreads. European ABS is still an in-demand investment category, owing to the relatively high returns accompanied by limited credit risks, as our stress tests have shown.

The fund is not exposed to currency risks, since all investments denominated in British pound are hedged to euros. Interest rate risks are likewise very limited, as European ABS are almost always floating-rate notes and interest is adjusted every three months. Moreover, the fund does not have active positions that anticipate interest rate movements. Our stress tests show that credit risk is also limited; while the underlying collateral for ABS can generate losses, ABS bonds have a substantial buffer for absorbing such losses.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon Emerging Markets Debt Fund

2021 was a challenging year for emerging market fixed income, with mixed returns across sovereigns, corporates, and local markets. Emerging Markets (EM) hard currency sovereign debt, as measured by the JPMorgan EMBI Global Diversified Index, returned -1.80% in 2021. EM hard currency corporate debt, as measured by the JPMorgan CEMBI Broad Diversified, returned 0.91% in 2021. EM local markets, as measured by the JPMorgan GBI-EM Global Diversified, declined -8.75%, as EM local returns generated -2.93%, with additional -6.00% from depreciating currencies. The MSCI Emerging Markets Equity Index declined -2.46%.

When looking at the JPMorgan EMBI Global Diversified Index, Latin America was the worst performing region compared with the best region Middle East. Amongst hard currency sovereigns, Zambia, Ecuador and Suriname were the top-3 performing sovereigns during the quarter. Idiosyncratic developments in El Salvador, Ethiopia and Lebanon led them to be the worst performing sovereigns. Within EM sovereign credit, investment-grade underperformed high-yield segments. EM sovereign spread widened 17 bps, closed at 369 bps, and remains wider than pre-pandemic lows of 261 bps. The worst performing sovereign segments were B-rated and 10+ years maturity. The issues surrounding Turkey's monetary policy weighed on the Lira. Turkey and Dominican Republic were amongst the worst and best performing local currency markets (USD unhedged), respectively. Spreading Omicron variant and renewed fear of rising mobility restrictions led real estate to be the worst performing corporate sector. Infrastructure delivered the best corporate sector annual performance. EM high-yield corporate credit outperformed investment-grade.

Capital inflows this year from dedicated EM debt funds totaled US\$29.12 billion. It has also been a strong year with US\$735.9 billion USD-equivalent of primary market supply. Primary supply was largely corporate issuance of US\$552.4 billion, while sovereign issuers priced US\$183.5 billion. Regionally, Asia priced US\$393.8 billion, which exceeded the combined issuance from CEEMEA at US\$209.7 billion, and Latin America with US\$132.4 billion.

Annual performance was driven by spread change and carry. Yield curve change and off-benchmark allocation to local currency modestly detracted from performance. Relative performance at the issuer level was led by Huarong (China) and external debt of Ecuador and Angola while Ukraine GDP warrants, external debt of Colombia, and Unifin Financiera Sab (Mexico) detracted. At the EM country level, the three largest active overweight exposures were in Mexico, Indonesia, and Colombia. The three largest active underweight sovereign exposures were in Bahrain, Malaysia, and Panama.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon European High Yield Bond Fund

The Aegon European High Yield Bond Fund achieved a return of 3.67% after costs in 2021. That figure was higher than the benchmark, the Bloomberg Barclays Pan European HY ex Financials (3% issuer cap). This benchmark achieved a return of 3.48%.

The second half of 2021 was soft for the high-yield bond market and for the Fund. The recovery of many economies continued and resulted in strong recoveries of sales and profits for many companies. Additionally, monetary easing of the European Central Bank (ECB) and the US central bank (the Fed) continued, but the flip side of the tailwinds resulted in more inflation, which eventually resulted in more discussions on monetary tapering. The fear for withdrawal of liquidity, plus strong supply of new bonds resulted in the softer performance for HY bonds. Differences versus the index were attributable to individual corporate performance. Our holdings in Vallourec and Ford caused the greatest outperformance, also not holding Softbank helped our performance. Our holdings in Adler Group caused the largest reduction in performance, followed by Boparan and Ontex.

This Fund is exposed to virtually no currency risk, as a portion of the investments are denominated in pound sterling and are hedged into euros. In addition, market risk is limited by spreading the investments across various regions, countries and individual issuers. Credit risk is a significant component of market risk. This risk involves fluctuations in value due to changing creditworthiness of the issuer. The Fund invests in fixed-income financial instruments with an increased risk profile and is therefore exposed to credit risk. This credit risk is limited as much as possible by diversification across issuers. There have been periods in the past 12 months in which many high yield bonds decreased because of deteriorating conditions in their sector. Many consumer cyclical businesses witnessed a sharp fall of their bonds at certain phases, although not as bad as in 2020. Furthermore, there are always specific bankruptcies, but only a few in 2021 and none were held in the Fund.

The Fund is sensitive to interest rate changes of the underlying German or US government bonds. While the Fund seeks to match the interest rate risk with that of the benchmark, it does not pursue an active interest rate policy to achieve this aim. Owing to the limited term of the investment category (around 3 years), the impact of interest rate changes is limited as a rule. In addition, the risk premiums are such that interest rate changes are absorbed in the risk premium and entail hardly any price changes at all. Although US interest rates were volatile in the past 12 months, the difference compared with the start of the year was ultimately limited. As a result, so was the impact on the portfolio.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon US High Yield Bond Fund

The high yield rally persisted in 2021 amid the ongoing economic recovery and quest for yield. Although the pandemic and emergence of Covid-19 variants left investors grappling with many unknowns, improving vaccination rates combined with monetary and fiscal policy actions helped fuel the risk-on tone. Company fundamentals improved significantly as many high yield issuers reported strong quarterly earnings. Against this backdrop, default activity plummeted.

Despite the positive developments and relentless high yield rally, increasing macro risks and concerns about inflationary pressures prompted bouts of volatility. Amid these elevated inflationary pressures, the Fed signaled a major policy shift to accelerate its tapering plans and clear the way for rate hikes in 2022. Globally, investors assessed the potential severity and ripple effects of China's crackdowns and stressed property market. Despite the intensifying risks, high yield continued to demonstrate resilience as the market remained firm and outperformed most fixed income assets during 2021.

For the year, the Bloomberg US Corporate High Yield Index was up 5.28%. By rating categories, the relentless rally in CCCs and below continued with a year-to-date return of 8.59%. Bs and BBs returned 4.85% and 4.61%, respectively. The option-adjusted spread ended the year at 283 basis points and the yield to worst landed at 4.21%.

Technicals were generally supportive during most of 2021. The primary market remained active and wide open to issuers refinancing debt or bringing first-time deals. Total new issuance this year landed at \$484 billion, above 2020's record high volume of \$450 billion. Demand for new paper continued to outpace supply with many new deals multiple times oversubscribed. Flows were mixed during the year as sentiment swayed between risk-on and risk-off. To end the year, US high yield funds reported net outflows of approximately \$13.6 billion.

During the year, the US High Yield portfolio outperformed the Bloomberg US Corporate High Yield 2% Issuer Capped index on a net-of-fees basis. Strong security selection and advantageous allocation decisions contributed to outperformance in 2021. By rating categories, the exposure to CCCs and below contributed the most given favorable selection and positioning versus the benchmark. BBs also bolstered performance results as did the modest off-index allocation to investment grade credit. Meanwhile, B-rated holdings moderately detracted. By sub-sector, the largest contributors included energy, transportation and REITs, mainly due to strong security selection. The largest detractors by sub-sector included banking, basic industry and technology.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon European Government Bond Fund

The AEGON European Government Bond Fund achieved a return of -0.49% in the second half year of 2021. This represents an underperformance of 0.07% versus the benchmark – the ICE BofAML European Union Government Index 100% hedged to EUR – which recorded a return of -0.42% over this period.

The market sentiment was mainly influenced by the developments regarding COVID-19 variants Delta (July) and Omicron (November), and the expectations regarding central banks tapering as a reaction. Not only were the possible lockdowns and economic impact important for the central banks decisions, also the rapidly increasing inflation numbers worried global markets. As inflation numbers kept on increasing from already highly elevated figures, it became less and less plausible that these were just transitory and would revert back to normal anytime soon. With 2.6% for core inflation and 5.0% for standard inflation, both year on year, these are 1.6% and 3% higher, respectively.

Together with an energy crisis, elevated oil prices and increased prices for materials, transport and personnel, central banks decided to already announce their action plans for 2022 in December. The Fed announced to stop their purchasing program in March 2022, while the ECB confirmed that PEPP won't be extended and will also end in March 2022. There will be a transition period in the second and third quarter of 2022, where the European non-pandemic APP purchases will be increased temporarily. Hike paths differ between the US and Europe, as for the US there are currently between 4 and 5 rate hikes of 25 basis points expected in 2022, while the ECB is expected to hike between 0 and 1 time in 2022.

During the second half of the year the fund was positioned for higher rates via a slightly underweight duration position. Also curve steepening in the long end was expected. While the outright short position contributed positively, the curve position affected the performance negatively this period. The peripheral position was kept overweight, as these countries benefit the most from all the EU/ECB measures to stimulate economies and help the recovery after COVID-19 impact.

Interest rates exhibited high volatility due to sentiment around COVID-19 developments. The German 10 year interest rate increased on balance by 3 basis points from -0.21% to -0.18%, while we saw -0.50% after the delta variant hit the market in July. Over the period, the interest rate for two-year bonds also increased from -0.66% to -0.62%. The interest rate for 30-year bonds dropped by 9 basis points to 0.20%. Therefore the full German yield curve flattened considerably.

The fund is not facing currency risks, as all non-euro investments are hedged to the euro. Since there is enough liquidity in the market to absorb deposits and withdrawals, the liquidity risk is also limited. The fund's main risk is the interest rate risk, since fluctuations in interest rates affect bond prices. The interest rate risk increases with maturity. The fund actively anticipates interest rate changes and changes in the interest rate term structure, but the interest rate risk remains significant. The fund is also exposed to market risk, because there is an active secondary market for government bonds which affects bond prices. In addition, there is a concentration risk: only a handful of governments cover large portion of the benchmark, and thus the portfolio as well.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon US Short Duration High Yield Bond Fund

The high yield rally persisted in 2021 amid the ongoing economic recovery and quest for yield. Although the pandemic and emergence of Covid-19 variants left investors grappling with many unknowns, improving vaccination rates combined with monetary and fiscal policy actions helped fuel the risk-on tone. Company fundamentals improved significantly as many high yield issuers reported strong quarterly earnings. Against this backdrop, default activity plummeted.

Despite the positive developments and relentless high yield rally, increasing macro risks and concerns about inflationary pressures prompted bouts of volatility. Amid these elevated inflationary pressures, the Fed signaled a major policy shift to accelerate their tapering plans and clear the way for rate hikes in 2022. Globally, investors assessed the potential severity and ripple effects of China's crackdowns and stressed property market. Despite the intensifying risks, high yield continued to demonstrate resilience as the market remained firm and outperformed most fixed income assets during 2021. For the year, the ICE BofA High Yield US Corporate Cash Pay BB/B 1-5 Year Constrained index returned 4.88%. The option-adjusted spread landed at 270 basis points and the yield to worst ended the year at 3.52%.

Technicals were generally supportive during most of 2021. The primary market remained active and wide open to issuers refinancing debt or bringing first-time deals. Total new issuance this year landed at \$484 billion, above 2020's record high volume of \$450 billion. Demand for new paper continued to outpace supply with many new deals multiple times oversubscribed. Flows were mixed during the year as sentiment swayed between risk-on and risk-off. To end the year, US high yield funds reported net outflows of approximately \$13.6 billion.

During the year, the US Short Duration High Yield portfolio outperformed the ICE BofA Cash Pay High yield 1-5 year BB/B Constrained index net of fees. By ratings, CCCs and below contributed the most to outperformance given the off-benchmark position and strong security selection. BB-rated bonds also contributed to excess returns as a result of favorable selection and allocation decisions. Meanwhile, the exposure to Bs and modest allocation to investment grade credit detracted from performance. By sub-sector, the largest contributors included energy, services and transportation, mainly due to strong security selection. The largest detractors included US banking, automotive and media.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon Global Multi Asset Credit Fund

The EUR share class of the Aegon GMAC Fund had a gross return of 4.46% in 2021, thereby comfortably outperforming the target of 3month Libor + 400 basis points (3.49%).

Market sentiment was positive throughout the first half of the year, as the vaccine roll-out fired up expectations of a strong recovery of the European economies. Even though the recovery was held back by a third wave of infections, which kept most of Europe in a lockdown situation until May, spreads generally grinded tighter, especially in the second quarter, to below pre-Covid levels.

At the same time inflation expectations caused underlying government bond yields to move higher. The resulting interest rate volatility also temporarily spilled over into spread markets, but did not disrupt the overall positive spread sentiment. It did however impact the total returns in the global IG market and the USD-denominated EMD market. The global HY market, with its generally lower duration, fared much better.

The market remained in this very low volatile environment over the summer period. By then inflation pressures had become too strong to consider them transitory, which put pressure on central banks to move to a less accommodative stance. Interest rate volatility picked up and spreads started to inch higher. When Covid-19 infections picked up in the fourth quarter, and the new, more contagious, omicron variant was found, spreads suddenly moved higher. The market relaxed again towards the end of the year when this new variant appeared to be less burdensome to the health systems. In the meantime the market had also digested the fact that the central banks had shifted to a tighter monetary policy stance: the Fed made clear they were ready to increase rates in 2022, and the ECB announced a tapering of the bond purchasing programs.

As the economic activity improved the oil price was able to make a substantial recovery from the lows of 2020. The WTI front contract steadily rose from USD48 at the beginning of the year to USD75 at the end of year. This move led to a steady recovery of energy-related stocks, which were still trading at distressed levels at the beginning of the year.

The strong total return outcome of the fund was mainly a result of its exposure to the global high yield market (at the end of June ca 62% of the fund was invested in HY and HY-equivalents). Within that category especially the energy-related positions saw especially strong performance.

We think the outlook for 2022 is more challenging for the global credit markets. On the one hand the fundamental economic outlook remains positive, but on the other hand the technical support from the central banks' asset buying programs will fade. We also expect the markets to become more volatile as inflation pressures persist, and central banks' rate hikes lead to higher interest rates. In this environment we think that spreads levels could be protected by the positive economic fundamentals and low expected defaults, and that interest rate sensitivity would best be kept at modest levels.

The Fund is not sensitive to currency risk, as all investments are either denominated in or hedged to the base currency (apart from LC EMD). The Fund carries market risk, as the investments generally take place in the riskier parts of the fixed income markets. An important element of this market risk consists of credit risk, ie the risk of price movements as a result of changes in creditworthiness of issuing entities. Diversification of investments is an important tool to limit this risk.

Aegon Asset Management
February 2022

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon Alternative Risk Premia Fund

The AEGON Alternative Risk Premia Fund achieved a gross return of 0.24%.

Economies started reopening in the first half of year and the vaccine rollouts gained pace. Despite the emergence of the Omicron variant, these factors had a positive impact on economic data and on investor sentiment. Risk asset classes rallied throughout the year with global equities and commodities performing 27.50% and 36.70% respectively (in EUR). Interest rates were volatile with the general direction being an increase globally with the 10-year interest rate in the US reaching a maximum of about 1.75% before trending down again. The US Dollar increased in value as well with the DXY index gaining 6.30% by year-end.

Equity strategies were an important driver of the fund's performance. With global equities rallying our Equity Trend Following strategy had a positive impact on performance. Implied volatility curves steepened significantly especially in the US resulting in significant implied volatility premiums. Our Equity Volatility strategy added approximately 0.50% to the fund's performance.

Commodity related strategies also positively contributed to the fund's return on an aggregate level. The main contributor was our Commodity Trend strategy which had long positions in all commodities in the first half of the year while some of the positions were reverted in the second half with short positions in Natural Gas and Gold. The commodity carry strategy which harvests a premium based on the shape of commodity futures' curve also contributed positively to the fund thanks to attractive returns in the energy space.

Overall, currency-related strategies had a neutral impact on the fund. The Currency Trend strategy successfully captured the uptrend in the US Dollar throughout the year. On the Carry side a long position in the Turkish Lira negatively impacted the fund's performance as the currency depreciated by around 44%.

Fixed Income strategies were a drag on the overall performance of the fund. During Q4 short-term interest rates across the globe increased significantly due to inflationary pressures resulting in an underperformance of our Fixed Income Carry strategy which harvests short term forward rates bias. Our Fixed Income Trend strategy which entered the year being long bond futures across on different maturities experienced losses as well. These two strategies offset the gains from other asset strategies and classes.

Aegon Asset Management
February 2022

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

4. Investment Manager's Report (continued)

Aegon Global Sustainable Sovereign Bond Fund*

The AEGON Global Sustainable Sovereign Bond Fund was launched on 13 October and reported performance only for the full months of November and December in 2021. From inception, the fund returned -0.37% while its benchmark – the ICE BofA Global Government Index 100% hedged to EUR – recorded a return of 0.11% over this period.

In the last two months of the year, market sentiment was driven by rising inflation that pushed global central banks into a tightening mood. At the December FOMC meeting, Fed officials decided to taper the \$120bn asset purchase program more quickly than expected. More importantly, the committee signalled significantly more tightening over the next two years than what the September 2021 projections showed. The Bank of England (BoE) raised the key rate by 15bp to 0.25% and finished the asset purchase program at the end of December while maintaining the accumulated assets on its balance sheet (totaling GBP 895bln). Members of the Monetary Policy Committee (MPC) also agreed that there will be more tapering in the coming 3 years, referring to the above-target inflation and closed output gap. The European Central Bank (ECB) has confirmed that its Pandemic Emergency Purchase Programme (PEPP) purchases will be lowered in quarter-one 2022 and cease completely in March. To avoid a sharp cliff in purchases, they decided to increase monthly purchases under the Asset Purchase Programme (APP) to 40bln in quarter-two and to 30bln in quarter-three before scaling back to the current pace of 20bln. The inflation projections were revised up sharply for 2022 to 3.2% (from 1.7%), although they still forecast inflation to ease below the target after that.

The duration and curve position of the fund is close to the benchmark duration. The portfolio has the largest part in developed markets sovereigns with an overweigh in issuers with high credit rating. The portfolio does not run active currency risk, as all non-euro investments are hedged to the euro. Since the fund invests in government bonds only, the liquidity of the holdings is relatively high, so the liquidity risk is limited. The fund's main risk is the interest rate risk, since fluctuations in interest rates affect bond prices. The interest rate risk increases with maturity.

*Aegon Global Sustainable Sovereign Bond Fund launched on 13 October 2021.

Aegon Asset Management Europe ICAV

Report of the Depositary to the Shareholders

We have enquired into the conduct of Aegon Asset Management Europe ICAV (the 'ICAV') for the year ended 31 December 2021, in our capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the shareholders of the ICAV as a body, in accordance with the UCITS Regulations, as amended, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in the UCITS Regulations, as amended. One of those duties is to enquire into the conduct of the ICAV in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that period in accordance with the provisions of the ICAV's Instruments of Incorporation and the UCITS Regulations, as amended. It is the overall responsibility of the ICAV to comply with these provisions. If the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations, as amended, and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instruments of Incorporation and by the UCITS Regulations, as amended; and

(ii) otherwise in accordance with the provisions of the Instruments of Incorporation and the UCITS Regulations, as amended.

Independent auditors' report to the shareholders of the Funds of Aegon Asset Management Europe ICAV

Report on the audit of the financial statements

Opinion

In our opinion, Aegon Asset Management Europe ICAV's financial statements:

- give a true and fair view of the Funds' assets, liabilities and financial position as at 31 December 2021 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2021;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Statement of Changes in Equity for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2021; and
- the notes to the financial statements for each of the Funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which describes the reasons why the financial statements of Aegon US High Yield Select Bond Fund have been prepared on a basis other than going concern.

Conclusions relating to going concern

With the exception of Aegon US High Yield Select Bond Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Aegon US High Yield Select Bond Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Irish Collective Asset-management Vehicles Act 2015 requires us to also report the opinion as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2021 is consistent with the financial statements.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in respect of the Financial Statements set out on page 8, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the shareholders of each of the Funds as a body in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Irish Collective Asset-management Vehicles Act 2015 exception reporting

Directors' remuneration

Under the Irish Collective Asset-management Vehicles Act 2015 we are required to report to you if, in our opinion, the disclosures of directors' remuneration specified by section 117 of that Act have not been made. We have no exceptions to report arising from this responsibility.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021

1. Significant Accounting Policies

Aegon Asset Management Europe ICAV (the "ICAV") is structured as an umbrella type open-ended Irish collective asset-management vehicle with variable capital and segregated liability between Funds registered in Ireland on 18 March 2016 with registration number C153036 pursuant to the Irish Collective Asset-management Vehicles Act 2015 ("the ICAV Act"). The ICAV is authorised by the Central Bank of Ireland (the "Central Bank") under the UCITS Regulations and the Central Bank UCITS Regulations.

The financial statements of the Funds of the ICAV have been prepared in accordance with Financial Reporting Standard 102; the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS102"), Irish statute comprising the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations. These financial statements were prepared in accordance with the same accounting policies set out in the audited financial statements for the financial year ended 31 December 2020.

The ICAV has availed of the exemption available to open-ended investment Funds under FRS 102 (Section 7.1A(c)) not to present a cash flow statement and is not presenting a cash flow statement.

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating shares unless otherwise stated.

2. Basis of Accounting and Presentation of Financial Statements

The financial statements are prepared on a fair value basis for the financial assets and financial liabilities through profit or loss. The financial statements have been prepared on the going concern basis for all Funds except Aegon US High Yield Select Bond Fund as management closed the Fund on 16 July 2020. For all other Funds the Directors are of the view that the Funds can continue in operational existence for twelve months from the date of approval of these financial statements. The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Funds' liabilities as they fall due.

In preparation of financial statements in conformity with FRS 102 the ICAV is required to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. Critical accounting estimates are those which involve the most complex or subjective judgements or assessments. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

a. Foreign Currency Translation

Functional and Presentation Currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Funds operate (the "functional currency"). In accordance with FRS 102, Section 30 "Foreign Currency Translation", the functional currencies of the Funds have been evaluated by the Directors in the current financial year. The functional currency and presentation currency of the Funds is EUR and USD.

Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the financial year.

b. Financial Instruments

(i) Classification

The ICAV designates all its investments into financial assets and liabilities at fair value through profit or loss in accordance with FRS 102 and IAS 39 Financial Instruments: Recognition and Measurement. The category of financial assets and liabilities at fair value through profit or loss comprises:

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

2. Basis of Accounting and Presentation of Financial Statements (continued)

b. Financial Instruments (continued)

(i) Classification (continued)

Financial instruments held for trading: These include all financial instruments, including forwards, futures, swaps, bonds, options and term loans.

Financial instruments designated at fair value through profit or loss upon initial recognition: These include financial assets that are not held for trading purposes and which may be sold.

These financial instruments are designated on the basis that their fair value can be reliably measured and their performance has been evaluated on a fair value basis in accordance with the risk management and/or investment strategy as set out in the ICAV's Prospectus.

Gains and losses arising from changes in the fair value of the financial assets and liabilities at fair value through profit or loss category are included in the Statement of Comprehensive Income in the financial year in which they arise.

(ii) Recognition and Derecognition

All regular way purchases and sales of financial instruments are recognised on the trade date, which is the date that the Fund commits to purchase or sell an asset. Regular way purchases or sales are purchases or sales of financial instruments that require delivery of assets within the financial year generally established by regulation or convention in the market place. Realised gains and losses on disposals of financial instruments, with the exception of futures, are calculated using the average cost method. Realised gains and losses on disposals of futures are calculated using the First In First Out (FIFO) method.

The Funds derecognise a financial asset when the contractual rights to the cash flows from the financial asset expire or a financial asset is transferred and the transfer qualifies for derecognition in accordance with FRS 102.

The Funds derecognise a financial liability when the obligation specified in the contract is discharged, cancelled or expires.

(iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in fair value recognised in the Statement of Comprehensive Income.

Financial liabilities arising from redeemable shares issued by the Funds are carried at redemption amount representing the investors' right to a residual interest in the Funds' assets.

(iv) Fair value measurement principles

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The fair value of financial instruments is based on their quoted market prices on a recognised exchange or sourced from reputable brokers/counterparties or independent market data providers, in the case of non-exchange traded instruments, at the Statement of Financial Position date without any deduction for estimated future selling costs.

For all other financial instruments not traded in an active market or where no broker/counterparty quotes can be obtained, the fair value is determined by using appropriate valuation techniques, which include using arm's length transactions; reference to the current market value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible. Please see Fair Value Measurement & Hierarchy in Note 3 which discloses all level 3 positions held as at 31 December 2021.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

2. Basis of Accounting and Presentation of Financial Statements (continued)

b. Financial Instruments (continued)

(iv) Fair value measurement principles (continued)

Subsequent changes in the fair value of financial assets and liabilities at fair value through profit or loss are recognised in the Statement of Comprehensive Income. Gains and losses arising from changes in their fair value are included in the Statement of Comprehensive Income in the financial period in which they arise.

c. Forward Currency Contracts

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to a forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward contracts is calculated as the difference between the contract rate and this forward price and is taken to the Statement of Comprehensive Income.

d. Futures Contracts

A futures contract is an agreement between two parties to buy and sell a security, index or currency at a specific price or rate at a future date. Upon entering into a futures contract, the Funds are required to deposit with a broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as 'initial cash margin'. Subsequent payments ('variation margin') are made or received by the Funds each day, depending upon the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealised gains or losses and the Funds recognise a realised gain or loss when the contract is closed. Unrealised and realised gains and losses on futures contracts are recognised in the Statement of Comprehensive Income.

e. Swap Contracts

A standard swap is an agreement between two counterparties in which the cash flows from two assets are exchanged as they are received for a fixed time period, with the terms initially set so that the present value of the swap is zero. Interest rate swaps involve the exchange by a Fund with another party of their respective commitments to make or receive interest payments (e.g. an exchange of fixed rate payments for floating rate payments). On each payment date under an interest rate swap, the net payments owed by each party, and only the net amount, is paid by one party to the other. Swaps valuations is based on vendor prices provided by the Investment Manager.

Credit default swaps are transactions under which the parties' obligations depend on whether a credit event has occurred in relation to the reference asset. The credit events are specified in the contract and are intended to identify the occurrence of a significant deterioration in the creditworthiness of the reference asset. On settlement, credit default products may be cash settled or involve the physical delivery of an obligation of the reference entity following a default. The buyer in a credit default swap contract is obligated to pay the seller a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference asset has occurred. If a credit event occurs, the seller must pay the buyer the full notional value of the reference asset that may have little or no value. Credit default swaps valuations is based on vendor prices provided by the Investment Manager.

Total return swaps involve an exchange by two parties in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains over the payment financial year. The Funds' maximum risk of loss for total return swaps from counterparty risk or credit risk is the discounted value of the payments to be received from/paid to the counterparty over the contract's remaining life, to the extent that the amount is positive. Total return swaps valuations is based on vendor prices provided by the Investment Manager.

Unrealised and realised gains and losses on swap contracts are recognised in the Statement of Comprehensive Income.

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

2. Basis of Accounting and Presentation of Financial Statements (continued)

f. Options

Options, held at fair value through profit or loss, are fair valued daily based upon the quotation provided by the counterparty on the principal exchange on which the option is traded. Realised and unrealised gains and losses arising from option contracts are included in the Statement of Comprehensive Income in the financial year in which they arise. Options held in Aegon European Government Bond Fund as disclosed the Schedule of Investments are covered.

g. Term Loans

The ICAV invests in direct debt instruments which are interests in amounts owed to lenders or lending syndicates by corporate, governmental, or other borrowers. A Fund's investment in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in a term loan, a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan agreement and only upon receipt of payments by the lender from the borrower. Term loans are valued at fair value based on valuations provided by independent pricing vendors. Fees earned or paid and the receipt of payments of principal are recorded as a component of net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

h. Redeemable Participating Shares

All Redeemable Participating Shares issued by the Funds provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Funds' net assets at the redemption date. In accordance with FRS 102 such instruments give rise to a financial liability for the present value of the redemption amount. The redemption price for each redeemable share is equal to the Net Asset Value per redeemable shares on the dealing day. The Net Asset Value per redeemable share is determined on each valuation day in accordance with the provisions set out in the Prospectus. Financial assets at fair value through profit or loss are reflected at mid-market prices. The shares of Aegon US Short Duration High Yield Bond Fund are classified as equity in line with FRS 102 22.4, given there is only one share class representing the residual interest in the net assets of the Fund.

i. Income and Expenses

Interest income and interest expense is recognised in the Statement of Comprehensive Income using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability. Bank interest income is accounted for on an accruals basis.

Interest income on fixed income securities is recognised in the Statement of Comprehensive Income in Net Gain/(Losses) on financial assets/liabilities at fair value through profit or loss.

Dividend income is recognised in the Statement of Comprehensive Income on the date on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding tax, which is disclosed separately in the Statement of Comprehensive Income.

Interest receivable is shown in the Statement of Financial Position and represent interest receivable that has been accrued for but not yet paid or received on the Statement of Financial Position date.

The net income generated from stock lending activity entered into by the ICAV in respect of a Fund will be credited to the relevant Fund and has been included in the Statement of Comprehensive Income.

Other income in the Statement of Comprehensive Income includes interest income on deposits, interest income on cash accounts, interest income on collaterals and any other interest income on derivative instruments where applicable.

Operating expenses of the Funds are expensed in the financial year to which they relate on an accruals basis and include collateral charges and the service fee.

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

2. Basis of Accounting and Presentation of Financial Statements (continued)

j. Distributions

Distributions to holders of Redeemable Participating Shares are recorded in the Statements of Comprehensive Income as finance costs.

k. Cash and Cash equivalents, Bank overdrafts, Collateral cash, Margin cash, Collateral receivable from/payable to broker and Financial assets at fair value through profit or loss pledged as collateral

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less.

Broker cash received as collateral is recorded as an asset on the Statement of Financial Position within 'Collateral cash' and is held in the Depository cash account. A related liability to repay the collateral is disclosed within current liabilities as 'Collateral payable to broker'.

Collateral receivable from broker is cash pledged as collateral for financial derivative instrument transactions. It is not included as a component of cash and cash equivalents in the Statement of Financial Position and is not available to the Funds on demand.

Bank overdrafts are shown in current liabilities in the Statement of Financial Position.

Margin cash represents cash deposits with brokers, transferred as collateral against open exchange traded futures contracts.

Collateral pledged to counterparties other than cash is disclosed in the Statement of Financial Position as Financial assets at fair value through profit or loss pledged as collateral. Stock collateral of EUR 2,000,000 (31 December 2020: EUR 2,000,000) was held by JP Morgan on the European Government Bond Fund at the financial year end, details of which can be found on the Statement of Financial Position pages and Schedule of Investments pages.

l. Directed Brokerage Transactions and Soft Commission Arrangements

The Funds have not entered into any directed brokerage transactions or soft commission arrangements during the financial year ended 31 December 2021 (31 December 2020: none).

m. Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on the purchase and sale of bonds are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed. Transaction costs on purchases and sales of equities and futures are shown in the Statement of Comprehensive Income for each Fund.

n. Anti-Dilution Adjustment

A Fund may suffer dilution which is a reduction in the value of the assets as a result of the costs incurred in dealing in its underlying investments and of any spread between the buying and the selling prices of such investments which is not reflected in the issue or redemption price paid by or to shareholders. With a view to countering this (which, if it is significant, disadvantages existing or continuing shareholders), the Directors may make an adjustment to the share price on a daily or quarterly basis at the discretion of the Directors and in accordance with the Prospectus.

The dilution adjustment may apply to redemptions or to subscriptions and if charged, the value of the dilution adjustment will be paid into the Fund and will become part of the property attributed to the relevant Fund.

Net Asset Values Per Share, including and excluding Dilution adjustments, are disclosed in Note 4 to the financial statements.

2. Basis of Accounting and Presentation of Financial Statements (continued)

o. Fund Asset Cash Balances, Fund Asset Receivables, Fund Asset Payables, Outstanding Fund Asset Balances

Fund asset cash balances, including an appropriate equal and opposing liability, are reflected at a Fund level on the Statement of Financial Position. They represent umbrella cash collection account balances attributable to the individual Funds of the ICAV. These amounts relate to subscription and redemption monies, including dividend money, that are due to an individual Fund, as Fund assets, and which are held in an umbrella cash collection account in the name of the ICAV.

p. Balances Due to/ from Broker

Balances "Due from broker" and "Due to broker" represent sales and purchases transactions awaiting settlement, including spot foreign exchange transactions.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

q. Balances Due to/from Shareholders

Amounts due to or from shareholders represent redemptions or subscriptions where the Shares have been redeemed or subscribed by the shareholder, but as at Statement of Financial Position date the cash has not been paid or received.

r. Equalisation

All Funds operating an income or distributing share class intend to operate income equalisation. Income equalisation prevents the dilution of current shareholders' earnings by applying a portion of the proceeds from Redeemable Participating Shares issued or redeemed to undistributed income. When Redeemable Participating Shares are purchased or redeemed the price may include an element of income. Equalisation is this element of income paid out to shareholders who have purchased or redeemed during this financial year and it is disclosed in the Statement of Comprehensive Income.

s. Other Receivables

Other receivables on the Statement of Financial Position include rebates receivable and miscellaneous receivables.

t. Other Payables

Other payables on the Statement of Financial Position include payable amounts for operational expenses and miscellaneous payables.

3. Financial Instruments and Associated Risks

Risk is inherent in the activities of each Fund but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The Funds are exposed to market risk (which includes market price risk, foreign currency risk and interest rate risk), liquidity risk and credit/counterparty risk arising from the financial instruments they hold.

The main risks arising from financial instruments and the policies for managing these risks are stated below. These policies have been applied throughout the period under review.

Market Price Risk

Market price risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in market price caused by factors other than interest rate or foreign currency movements. Market price risk arises mainly from uncertainty about future prices of financial instruments that the Funds might hold. It represents the potential loss the Funds might suffer through holding market positions in the face of price movements. The Funds' investment portfolios are exposed to market price fluctuations, which are monitored by the Investment Manager in pursuance of the stated investment objectives, and policies as set out in the Prospectus.

The following tables detail the market price exposure per industry for the relevant Funds.

Assessment and Monitoring of Risk

The day-to-day monitoring of the Funds is performed by the Portfolio Risk Management (PRM) & Portfolio Risk Controls (PRC) teams. These teams identify and monitor all risks associated with the Funds, to the extent required under the UCITS Regulations. The PRM and PRC teams report to all stakeholders through weekly, monthly and quarterly reporting. Monitoring of all Fund restrictions is part of the day-to-day activities. Due to the continuous monitoring, any issues or risks that may arise are quickly identified and resolved in cooperation with the Portfolio Manager.

The risk management process is well integrated with the investments process. The PRM team continuously monitors risk on a stand-alone basis as well as versus the benchmarks. Members on the PRM team meet monthly with the portfolio managers to highlight the risk and positioning of the portfolios. Risk Control Committee meetings, chaired by the CIO and attended by the Head of the PRM and/or a senior delegate, are held on a monthly basis.

As a result of the Ukraine conflict, the Investment Manager carried out a review of the assets held by each of the Funds of the ICAV. As at 31 December 2021, Aegon Emerging Market Debt Fund and Aegon Global Multi Asset Credit Fund had exposure to Ukraine and/or the Russian Federation. 6.07% of Aegon Emerging Market Debt was held in Ukraine and/or the Russian Federation, and 1.84% of Aegon Global Multi Asset Credit Fund was held in Ukraine and/or the Russian Federation. These assets were fair valued at year end and have since been fair valued to take account of the ongoing situation.

Global Derivative Exposure

Derivatives Use Policies

For each financial derivative instrument (FDI) traded within the Funds, a Derivative Use Policy is in place (DUP). This DUP describes for each FDI the intended use, risks, responsibilities and controls. As such, the DUPs provide an elaborate outlay of the use of FDIs within the Funds. The DUPs are monitored on an ongoing basis in the day-to-day control monitoring framework.

3. Financial Instruments and Associated Risks (continued)

Global Derivative Exposure (continued)

Global Exposure

The Investment Manager monitors global exposure on a daily basis by utilising the commitment approach when financial derivative instruments are held.

Foreign Currency Risk

Foreign currency risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in foreign currency exchange rates.

Where an element of the investment portfolio is denominated in currencies other than the base currency of the Fund, the Statement of Financial Position can be affected by movements in exchange rates. The Investment Manager may seek to manage exposure to currency movements by using forward foreign currency contracts or by hedging the currency value of investments that are priced in other currencies. Income received in other currencies is converted to Fund currency on or near the date of receipt.

The following tables detail the foreign currency exposure for the relevant Funds.

Interest Rate Risk

Interest rate risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in interest rates.

All Funds invest in fixed interest securities. The income from these Funds may be affected by changes to interest rates relevant to particular securities or as a result of the Investment Manager being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed interest securities may be affected by such movements in the future. Interest receivable on bank deposits and payable on bank overdrafts will be affected by fluctuations in interest rates, as will Floating Rate Bonds. All other assets and liabilities of the Funds are non-interest bearing.

The interest rate profile for the relevant Funds is as follows:

Aegon Euro Credits Fund					
As at 31 December 2021					
		Floating Rate Financial Assets	Fixed Rate Financial Assets	Derivatives Exposed to interest rate risk	Total
	Currency	EUR	EUR	EUR	EUR

Liquidity Risk

Liquidity risk is defined as the risk that the Funds may not be able to settle or meet their obligations on time or at a reasonable price. The Funds are exposed to daily cash redemptions of Redeemable Participating Shares. Redeemable Participating Shares are redeemed on demand at the holder's option based on the Fund's net assets value per share at the time of redemption. The Redeemable Participating Shares are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the Redeemable Participating Shares back to the Fund.

Liquidity risk management is an integral part of the investment process, effective liquidity risk management is critical during times of market stress. The risk is mitigated by the Funds primarily investing in readily realisable securities listed or traded on recognised markets. Assets from a Fund may need to be sold if insufficient cash is available to finance cancellations. The ability to sell on demand ensures that the Investment Manager can efficiently alter the investment strategy as required. The ability to sell also permits the financing of any unexpected withdrawals from a portfolio. It is important that these assets can be traded readily and the Investment Manager will ensure that assets are only held where an efficient market is operating.

If significant redemptions of shares in a Fund are requested or if the Net Asset Value is suspended, it may not be possible to liquidate a Fund's investments at the time such redemptions are requested or a Fund may be able to do so only at prices which the Fund believes does not reflect the true value of such investments, resulting in an adverse effect on the return to investors. Where significant redemptions of Shares are requested, a Fund may limit the number of Shares that are redeemed on any dealing day in the interest of the remaining Participants.

The Directors may at any time temporarily suspend the calculation of the Net Asset Value of any Fund and the issue, repurchase and exchange of Shares and the payment of repurchase proceeds.

AEGON ASSET MANAGEMENT EUROPE ICAV

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

3. Financial Instruments and Associated Risks (continued)

Liquidity Risk (continued)

The circumstances under which this may occur are:

- i) where a market, where a substantial proportion of investments for the relevant Fund, is closed other than for holidays.
- ii) where as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of a substantial portion of the investments of the relevant Fund is not reasonably practicable without this being seriously detrimental to the interests of Shareholders of the relevant Fund or if, in the opinion of the Directors, the Net Asset Value of the Fund cannot be fairly calculated.
- iii) any breakdown in the means of communication normally employed in determining the price of a substantial portion of the investments of the relevant Fund, or when, for any other reason the current prices on any Market of any of the investments of the relevant Fund cannot be promptly and accurately ascertained
- iv) any period during which any transfer of funds involved in the realisation or acquisition of investments of the relevant Fund cannot, in the opinion of the Directors, be effected at normal prices or rates of exchange; or
- v) any period when the Directors are unable to repatriate funds required for the purpose of making payments due on the repurchase of Shares in the relevant Fund; or
- vi) any period when the Directors consider it to be in the best interest of the relevant Fund; or
- vii) Following the circulation to Shareholders of a notice of a general meeting at which a resolution proposing to wind up the ICAV or terminate the relevant Fund is to be considered.

The Funds may borrow on a temporary basis up to 10% of the Net Asset Value of each Fund. In accordance with the Fund's policies, the Investment Manager monitors the Funds' liquidity risk on a daily basis. If there are material issues the Board of Directors is notified by the Investment Manager.

As part of the ongoing risk management process, the Portfolio Manager manages the Liquidity Risk of the Fund as part of the investment process. The PRMC team provides oversight and challenge on an ongoing basis, as well as in the monthly Risk Control Committees.

The table below analyses each of the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not deemed significant.

Credit/Counterparty Risk

The Funds may be exposed to credit risk which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk also arises on transactions with brokers where transactions are awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used. The Funds monitor the credit rating as well as assets, liabilities and the financial position of the brokers used to further mitigate this risk.

As part of our controls, and in advance of selecting a new Broker, a dealer or fund manager are required to submit a proposal to their head of desk.

There will be four items required for this proposal:

1. New brokers should comply with the Order Execution Policy to guarantee the best possible execution of orders.
2. A business case for the inclusion of the counterparty should be provided along with the service it is providing.
3. The counterparty will be allocated to a tier, based on the intended service.
4. Where applicable, measures of financial strength should be included as dictated by the framework and commensurate with the type of counterparty.

The head(s) of desk, if accepted, will sponsor the nomination through the relevant control meeting. All counterparties, either Fixed income (or Equity where applicable) and Derivatives, will be tabled at the Investment Management Portfolio Risk & Control Committee (IMPRCC). When subsequently approved at the control meeting, the head of desk who made the nomination will initiate financial strength analysis via the Global Research Team (GRT). At this point, Central Dealing (CD) will request the appropriate agreed information from the proposed counterparty, notably terms of business and any static supplementary questionnaires required by ERM and Compliance or by Operations.

All of the financial assets of the Funds' are held by Citi Depositary Services Ireland DAC (the "Depositary"), except Financial Derivative Instruments and term loans as appropriate and 0.00% (31 December 2020: 0.00%) of Aegon US High Yield Bond Fund and 0.00% (31 December 2020: 0.00%) of Aegon US High Yield Select Bond Fund which are held with a private company. All cash and cash equivalent as disclosed in the Statement of Financial Position are held by the Depositary. Collateral cash is held with several Brokers as outlined in Note 14. Bankruptcy or insolvency of the Depositary may cause a Fund's rights with respect to securities held by the Depositary to be delayed or limited. The ICAV will be treated as a general creditor in respect of cash held. The Depositary is under a duty to take into depositary and to hold the property of each Fund of the ICAV on behalf of its shareholders. The Central Bank requires the Depositary to hold legally separately the non-cash assets of each Fund and to maintain sufficient records to clearly identify the nature and amount of all assets that it holds, the ownership of each asset and where the documents of title to such assets are physically located. The long term credit rating of the parent company of the Depositary, Citibank N.A. is A+.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

3. Financial Instruments and Associated Risks (continued)

Credit/Counterparty Risk (continued)

Each Fund will be exposed to credit risk on the counterparties with which it trades in relation to derivatives that are not traded on a recognised exchange. Each Fund will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with which the Fund trades such instruments, which could result in substantial losses to the Fund.

All Funds are exposed to counterparty risk, which is managed through the use of approved counterparties, diversification of instruments and a counterparty limit framework. Credit spreads and credit ratings of all counterparties are regularly reviewed.

The long term credit ratings, from Standard & Poor's ("S&P"), of counterparties are:

Counterparty	Credit Rating (S&P)
Barclays Bank Plc	A+
BNP Paribas	A+
Citibank	A+
JPMorgan	A+
Merrill Lynch International	A+

Fair Value Measurement & Hierarchy

Under FRS 102 the ICAV is required to classify its investments using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

For financial instruments held at fair value in the Statement of Financial Position, the Funds are required to disclose for each class of financial instrument, an analysis of the level in the following fair value hierarchy into which the fair value measurements are categorised. A fair value measurement is categorised in its entirety on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes “observable” requires significant judgement by the Investment Manager. The Investment Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

There were no transfers between levels during the financial year ended 31 December 2021 (31 December 2020: none).

The following tables present the fair value hierarchy of each Fund’s financial assets and financial liabilities measured at 31 December 2021:

4. Share Capital

The share capital of the ICAV is 1,000,000,000,000 unclassified participating shares of no par value. The minimum issued share capital of the ICAV is 2 shares of no par value. The maximum share capital of the ICAV is 1,000,000,000,000 unclassified shares of no par value. The Directors have the power to allot shares in the capital of the ICAV on such terms and in such manner as they may think fit.

Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Redeemable Participating Shares, on a show of hands every holder who is present in person or by proxy shall have one vote and the holder(s) of subscriber shares present in person or by proxy shall have one vote in respect of all the subscriber shares in issue and on a poll, every holder present in person or by proxy shall have one vote for every Redeemable Participating Share of which he is the holder and every holder of a subscriber share present in person or by proxy shall have one vote in respect of his holding of subscriber shares. Holders who hold a fraction of a Redeemable Participating Share may not exercise any voting rights, whether on a show of hands or on a poll, in respect of such fraction of a Redeemable Participating Share.

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

4. Share Capital (continued)

Redeemable Participating Shares

The net assets attributable to holders of Redeemable Participating Shares are at all times equal to the Net Asset Value of the Funds. The participating shares which comprise the equity capital of the Funds are in substance a liability of the Funds to shareholders under the terms of FRS 102 as they can be redeemed at the option of the shareholder. In relation to the Aegon US Short Duration High Yield Bond Fund, the shares are classified as equity in line with FRS 102 22.4, given there is only one share class representing the residual interest in the net assets of the Fund.

Participating shares may be redeemed on each dealing date or such other date or dates as the Board of Directors shall from time to time determine (Valuation Day) at the Net Asset Value per share.

The shares issued and redeemed in each Fund's share class during the financial year ended 31 December 2021 are detailed in below table:

Anti-dilution Levy

Shares are issued and redeemed on the basis of the net asset value ("NAV") per share. However, the actual costs of purchasing or selling assets and investments for a Fund may deviate from the latest available prices, as appropriate, in calculating the net asset value per share. This deviation can be caused by duties and charges and spread from buying and selling prices of the underlying investments (spreads). These costs have an adverse effect on the value of a Fund and its underlying share classes and are known as dilution. To mitigate the effects of dilution, the Directors may, at their discretion, make a dilution adjustment to the net asset value per share. The Directors will retain the discretion in relation to the circumstances under which to make such a dilution adjustment.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

4. Share Capital (continued)

Anti-dilution Levy (continued)

The NAV of the share classes (inclusive and exclusive of the dilution adjustment) as at 31 December 2021 are disclosed below:

Anti-dilution levy				
As at 31 December 2021	Currency	Class of Shares	NAV including Anti-dilution levy (dirty NAV/official NAV)	NAV excluding Anti-dilution levy (clean NAV)

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

5. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended, (the “Taxes Consolidation Act”). On that basis, it is generally not chargeable to Irish tax on its relevant income and gains so long as the ICAV continues to be authorised by the Central Bank of Ireland. However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares on any deemed disposal arising on and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax arises on the ICAV in respect of chargeable events in respect of:

- a Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, are held by the ICAV; and
- certain exempted Irish tax resident Shareholders who have provided the ICAV with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investments income/gains are received and such taxes may not be recoverable by the ICAV and its Shareholders. Withholding tax and reclaims incurred on dividends are recorded on ex-date. Dividends receivable are shown net of withholding taxes payable, if any, in the Statement of Financial Position.

The ICAV may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the ICAV invests. The foreign tax expense, if any, is recorded on a receipt basis and is included in “Capital gains taxes” on the accompanying Statement of Comprehensive Income. The amount of foreign tax owed, if any, is included in “Capital gains tax payable” on the accompanying Statement of Financial Position. There is no capital gains tax as at year end 31 December 2021 (31 December 2020: none).

6. Efficient Portfolio Management

Utilisation of Financial Derivative Instruments (FDI)

Subject to the Regulations and the Central Bank UCITS Regulations and within the limits prescribed by, the Central Bank, each Fund may utilise Financial Derivative Instruments dealt on a regulated market and/or OTC derivatives for investment purposes, details of which shall be set out in the Supplement of the relevant Fund, where applicable.

All the financial derivative instruments held by the Funds were entered into for the purpose of Efficient Portfolio Management in order to hedge currency and market exposure as well as increase capital and income returns. These financial derivatives are Forward Currency Contracts, Futures Contracts, Swaps Contracts and Options all of which are listed, with their counterparty, in the Schedule of Investments. Any gains or losses arising from efficient portfolio management techniques and investments are recognised in the Statement of Comprehensive Income. Please refer to Note 14 Derivative Exposure for details of exposure related to efficient portfolio management techniques.

Securities Financing Transactions: Stock lending

Subject to the investment policies and restrictions for a Fund set out in the Supplement in respect of a Fund, a Fund may enter into stock lending transactions (Securities Financing Transactions) in respect of any Fund for Efficient Portfolio Management purposes and this fact will be set out in the relevant Supplement, where applicable. The use of such transactions or agreements is subject to the conditions and limits set out in the Central Bank UCITS Regulations.

Under the Global Stock Lending Agency Agreement entered into between the ICAV, the Depositary and Citibank N.A., the ICAV pays Citibank N.A. 18% of fees received from the borrower with respect to each loan of securities to that borrower.

If a Fund chooses to engage in Securities Financing Transactions, this will be detailed in the relevant Supplement. Unless otherwise specified in the Supplement for a Fund, the proportion of assets under management subject to Securities Financing Transactions is expected to vary between 0% and 30% of the Net Asset Value of the relevant Fund and will be subject to a maximum of 100% of the Net Asset Value of the relevant Fund. Such variations may be dependent on, but are not limited to, factors such as total Fund size, borrower demand to borrow stocks from the underlying market and seasonal trends in the underlying markets.

7. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions or if one party is a member of the key management personnel of the other party or if one party or any member of a group of which it is a part, provides key management personnel services to the other party.

The following are related parties under FRS 102:

- * Directors of the ICAV as listed in the Directory.
- * The Investment Manager, Distributor & Promoter, Aegon Investment Management B.V.
- * Partially delegated Investment Manager, Aegon Asset Management UK plc.
- * Stuart Donald, a senior employee of the Investment Manager.
- * Mike Kirby, a Director and majority shareholder of KB Associates, a firm which provides consultancy, VAT reporting and money laundering reporting officer services to the ICAV.
- * Aegon Asset Management UK PLC has the same ultimate parent in the Aegon group. The Investment Manager is under common control with both entities, and both have invested in one or more of the Funds.

Aegon Investment Management B.V. (the Investment Manager) is a member of the same corporate group as Aegon Asset Management UK plc which provides key management personnel services to the ICAV.

Investment Manager Fees for the financial year were €11,029,962 (31 December 2020: €7,106,653). Fees payable as 31 December 2021 are €2,548,973 (31 December 2020: €631,125).

AEGON ASSET MANAGEMENT EUROPE ICAV

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

9. Fees and Expenses

The Funds may pay out of the assets of each Fund the fees and expenses payable to the Investment Manager, the Depositary, the Administrator and the fees and expenses of the Directors, any fees in respect of circulating details of the Net Asset Value, stamp duties, all taxes and VAT, ICAV secretarial fees, any costs incurred in respect of meetings of Shareholders, marketing and distribution costs, investment transaction charges, costs incurred in respect of the distribution of income to Shareholders, the fees and expenses of any distributor, data vendor or paying agent or representative appointed in compliance with the requirements of another jurisdiction (in each case at normal commercial rates), any amount payable under indemnity provisions contained in the Instrument of Incorporation or any agreement with any appointee of the ICAV, all sums payable in respect of directors' and officers' liability insurance cover, brokerage or other expenses of acquiring and disposing of investments, the fees and expenses of the auditors, tax and legal advisers and registering the ICAV for sale in other jurisdictions.

Investment Manager Fees

The fee payable to the Investment Manager will be no more than 1.5% per annum of the Net Asset Value of each Fund (plus VAT, if any).

Such fee shall be accrued daily and payable monthly in arrears. The Investment Manager shall also be entitled to be reimbursed out of the assets of each Fund for reasonable out of pocket expenses incurred by the Investment Manager in the performance of its duties.

The Investment Manager Fees incurred and payable are presented in the Statement of Comprehensive Income and Statement of Financial Position, respectively.

Distribution Fee

In addition to the preliminary charge that may be paid to the Distributor, the fee payable to the Distributor for its services in the distribution of Shares of the Fund shall not exceed 1% per annum of the Net Asset Value attributable to the Class A Shares. The Distributor may, at its sole discretion and in accordance with applicable laws and regulations, (i) pay commission to financial intermediaries including but not limited to sub-distributors, intermediaries and advisers who refer and/or advise prospective investors out of the Distributor's fee as set out above and/or (ii) rebate the Distribution Fee for certain prospective investors based on factors deemed appropriate by the Distributor. Where taken, this fee shall be accrued daily and payable monthly in arrears. The fee is included within the Investment Manager fees.

Service Fee

The Funds will also incur an annual service fee of the Net Asset Value of the Funds which reflects all remaining expenses as follows:

(a) Administration and Transfer Agency Fee

The fee payable to the Administrator for the administration services provided to the Fund shall not exceed 0.2% per annum (plus VAT, if any) of the net asset value of the Fund. In addition, the fee payable to the Administrator for its role as registrar and transfer agent to the Fund will not exceed 0.1% per annum (plus VAT, if any) of the net asset value of the Fund. These fees are paid directly by the Investment Manager to the Administrator, Citibank Europe Plc.

The Investment Manager is invoiced directly and pays these fees out of the Service Fee.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

9. Fees and Expenses (continued)

Service Fee (continued)

(b) Depositary Fee

The fee payable to the Depositary, for custodial services provided to the ICAV, will not exceed 0.1% per annum (plus VAT, if any) of the net asset value of the Fund.

The Depositary will also be entitled to any out-of-pocket expenses incurred (including any transaction charges or Delegate or Sub-Delegate fees at normal commercial rates).

The Investment Manager pays Depositary fees on behalf of the Funds. These fees are paid directly by the Investment Manager to Citi Depositary Services Ireland DAC. The Investment Manager is invoiced directly and pays these fees out of the Service Fee.

The Depositary fee for the year ended 31 December 2021 was €1,019,286 (31 December 2020: €930,343).

(c) Other fees and expenses, including:

Directors' Fees

Only Directors who are not employees of the Aegon group of companies will be entitled to remuneration for their services as director provided however that the annual aggregate emoluments of each Director shall not exceed €50,000 or such other amount as may be approved by a resolution of the Directors or the Shareholders in general meeting. The Director's Fees are paid by the Investment Manager.

All of the Directors will be entitled to be reimbursed out of the assets of each Fund for their reasonable out of pocket expenses incurred in discharging their duties as directors.

10. Distribution Policy

The Directors decide the dividend policy and arrangements relating to each Fund and details are set out where applicable in the relevant Supplement.

Under the Instrument of Incorporation, the Directors are entitled to declare dividends out of the relevant Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less any applicable expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund. The ICAV will be obliged and entitled to deduct an amount in respect of Irish taxation from any dividend payable to a Shareholder in any Fund who is or is deemed to be a Taxable Irish Person and pay such sum to the Irish tax authorities.

During the financial year to 31 December 2021 dividends declared were as follows:

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

12. Events During the Financial Year (continued)

On 9 March 2021, an addendum to the Prospectus was issued to reflect the Sustainable Finance Disclosures Regulation ("SFDR") requirements.

On 13 October 2021 Aegon Global Sustainable Sovereign Bond Fund launched.

Since the start of the COVID-19 pandemic in January 2020, there have been approximately 220 million cases worldwide, as of December 2021. There is still a great amount of uncertainty surrounding the virus, with record number of cases being recorded in numerous regions. Additionally, the emergence of COVID-19 variants have had far reaching consequences, with announcements of further lockdowns and travel restrictions to curb their spread. While the final fiscal ramifications of the pandemic are still unknown, there have been many advances made to curb and control outbreaks, which has meant that many jurisdictions are able to proceed with their "phased returns" to ease lockdowns and reopen their economies. Thanks to vaccination efforts the global economic outlook is much more optimistic than this time last year, with the IMF predicting global growth of 4.9% for 2022.

There remains ongoing uncertainty to the challenges posed by COVID and the risk of new variants materialising with the potential for further shutdowns impacting specific sectors, geographies and undermining the broader global economic outlook. The recent Omicron variant's rapid spread and high infections rates have been managed with less restrictions with vaccinations reducing the overall health and economic effects. This offers hope that the world can adapt to new variants with less overall impact than the initial waves.

The United Kingdom ("UK") officially left the European Union ("EU") on 31 January 2020 but remained subject to EU regulations during an agreed transitional phase until 31 December 2020. Although a free trade agreement was ratified by both the EU and the UK in December 2020 and the transitional phase has ended, there remains a number of uncertainties in connection with the UK's relationship with the EU in regards to potential regulatory alignment or equivalence. Until the terms of the regulations are clearer, it is not possible to determine the full impact that the UK's departure and/or any related matters may have on the Company and its investments. From 1 January 2021, a memorandum of understanding is in place between the UK's Financial Conduct Authority, the European Securities and Markets Authority and the EU which permits the continued delegation of investment management.

There have been no other significant events affecting the Funds during the financial year ended 31 December 2021.

13. Events After the Statement of Financial Position Date

On 24 February 2022, Russia began a large-scale military invasion of Ukraine. The impact of the conflict has seen short-term volatility in the markets, with notable shocks to commodity and energy markets. We now face a more uncertain future outlook with the potential for further shocks to markets and future growth rates.

On 4 March 2022 Aegon Asset Management Europe ICAV appointed Aegon Investment Management B.V. as its Management Company. The Prospectus and Supplements were updated to reflect this restructure. On 4 March 2022, the Prospectus and Supplements were updated to reflect the Taxonomy Regulation.

There have been no other significant events affecting the ICAV since 31 December 2021 to the date the financial statements were approved.

15. Global Exposure

The Investment Manager has assessed the risk profiles of the Funds on the basis of the Investment policy, strategy and the use of Financial Instruments. Based on the risk profile, the Investment Manager has determined that the method for the calculation of the global exposure to financial derivative instruments for all Funds will be the Value-at-Risk ("VaR") approach.

Value at Risk (VaR), as a figure, is the maximum loss not exceeded with a given probability defined as the confidence level, over a given period of time. VaR is widely applied in finance for quantitative risk management for many types of risk. As the VaR analysis is presented in the 2021 financial statements sensitivity analysis on interest rate risk, market price risk and currency risk is not required.

The Investment Manager reviews the levels of investment risk on a no less than monthly basis, with particular emphasis on VaR and leverage, where the latter exists. All Funds use the absolute VaR approach.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

8.5 Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

15. Global Exposure (continued)

The Funds apply a back-testing methodology to regularly assess the performance of the VaR model. During the year, periods of exceptional market volatility resulted in a higher than normal number of model exceptions. The Investment Manager believes the VaR model remains a reasonable basis for assessing market risk within the Funds but they will continue to assess its performance and make adjustments when necessary.

VaR has three parameters:

- The time horizon (period) of the VaR. The maximum loss is considered over this period. Typical periods using VaR are 1 day, 10 days, or 1 month.
- The confidence level is the interval estimate in which the VaR would not be expected to exceed the maximum loss. Commonly used confidence levels are 99% and 95%. (Confidence levels are not indications of probabilities.) Here a 95% confidence interval is used.
- Calculation methods used are parametrical (variance-covariance approach), historical or Monte Carlo. In this case the Investment Manager has utilised the historical approach.

Limitations

Whilst VaR is a good general risk measure it is acknowledged it does have certain limitations, including:

- The measure is a point-in-time calculation, reflecting positions as recorded at that date, which do not necessarily reflect the risk positions held at any other time.
- VaR is a statistical estimation and therefore it is possible that there could be, in any period, a greater number of days in which losses could exceed the calculated VaR than implied by the confidence level.
- Although losses are not expected to exceed the calculated VaR on 95% of occasions, on the other 5% of occasions losses will be greater and might be substantially greater than the calculated VaR.
- The period over which positions are expected to be held may differ and so will the modelled losses incurred.
- A look back period of 5 financial year means that any return that has not been evidenced in this time period will not be present in the distribution.

31 December 2021	VaR Level	Confidence Interval	VaR	VaR Amount
Aegon Euro Credits Fund	3.03%	95%	0.20%	1,794,434,784.91
Aegon European ABS Fund	3.01%	95%	1.48%	5,544,153,492.26

Supplementary Information (continued)

Remuneration Policy (Unaudited)

The Directors have in place remuneration policies, procedures and practices as required pursuant to UCITS V (the Remuneration Policy). The Remuneration Policy is consistent with and promotes sound and effective risk management. It is designed to discourage risk-taking which is inconsistent with the risk profile of the Funds. The Remuneration Policy applies to staff whose professional activities have a material impact on the risk profile of the ICAV or the Funds, and ensures that no individual will be involved in determining or approving their own remuneration. The Remuneration Policy will be reviewed annually by the Directors.

Details of the up-to-date Remuneration Policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, are available at www.aegonassetmanagement.com/nl. A hard copy version of the Remuneration Policy will be made available free of charge upon request.

The total amount of remuneration paid by the ICAV for the financial year relates to fixed remuneration only. No variable remuneration was paid during the financial year.

Fixed remuneration paid by the ICAV to identified staff comprises Directors' fees only, paid solely to Ms. Bronwyn Wright and Mike Kirby in their capacity as non-executive Directors not affiliated with the ICAV's Investment Manager (Directors who are also employees within the Investment Manager or its affiliated entities, namely Mr. Stuart Donald, do not receive any remuneration from the ICAV). Details of the Directors' fees paid is included in Note 9 of the financial statements.

The remuneration policy has been subject to internal review and no changes have been made to the policy.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

Supplementary Information (continued)

Securities Financing Transactions Regulation Disclosures (Unaudited)

The following disclosure follows the requirements of EU Securities Financing Transactions Regulation ("SFTR") which came into effect on 12 January 2016.

A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the SFTR as:

- A repurchase transaction;
- Securities or commodities lending and securities or commodities borrowing;
- A buy-sell back transaction or sell-buy back transaction; or
- A margin lending transaction.

Seven Funds were engaged in securities lending transactions as at 31 December 2021.

All disclosures below relate to these Funds alone.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

Sustainable Finance Disclosure Regulation & Taxonomy Regulation (Unaudited)

Article 6

Sustainable Finance Disclosure Regulation

This Fund integrates sustainability risks but does not promote ESG characteristics or have a sustainable investment objective according to the Sustainable Finance Disclosure Regulation (SFDR).

EU Taxonomy

The EU Taxonomy Regulation establishes criteria for determining whether an economic activity qualifies as environmentally sustainable in the context of particular environmental objectives. As at the date hereof, the only such objectives are climate change mitigation and adaptation (the "Climate Objectives").

The EU Taxonomy Regulation also requires disclosure regarding how and to what extent the investments of each Fund are in economic activities that qualify as environmentally sustainable pursuant to those criteria. Investors should note with respect to Funds that do not promote ESG characteristics or have a sustainable investment objective, the investments underlying the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Article 8

Sustainable Finance Disclosure Regulation

This Fund promotes ESG characteristics as stated in the Sustainable Finance Disclosure Regulation (SFDR). The Fund Manager can confirm that the environmental and social characteristics as stated in the fund documentation have been implemented and have been complied with.

EU Taxonomy Regulation

The EU Taxonomy Regulation establishes criteria for determining whether an economic activity qualifies as environmentally sustainable in the context of particular environmental objectives. As at the date hereof, the only such objectives are climate change mitigation and adaptation (the "Climate Objectives").

The EU Taxonomy Regulation also requires disclosure regarding how and to what extent the investments of each Fund are in economic activities that qualify as environmentally sustainable pursuant to those criteria.

For each Fund that promotes ESG characteristics, the investment policy, as set out in the relevant Supplement and/or fund specifications, describes how the relevant Fund promotes ESG characteristics through, amongst other things, consideration of a wide range of environmental characteristics, including the Climate Objectives.

In order for an investment to qualify as environmentally sustainable as at the date hereof, it must meet a number of different criteria, including that it contributes substantially to a Climate Objective, as measured according to the technical screening criteria set out in the EU Taxonomy Regulation, and that it must not significantly harm any of the other environmental objectives set out in the EU Taxonomy Regulation.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

Sustainable Finance Disclosure Regulation & Taxonomy Regulation (Unaudited) (continued)

The technical screening criteria are very detailed and require the availability of multiple, specific data points regarding each investment. As at the date hereof, there is insufficient data available to be able to assess investments using the technical screening criteria. As such, the Fund is not in a position to describe: (a) the extent to which the investments of the Fund are in economic activities that qualify as environmentally sustainable pursuant to the technical screening criteria; (b) the proportion, as a percentage of the portfolio as a whole, of investments in environmentally sustainable economic activities; or (c) the proportion, as a percentage of the portfolio as a whole, of enabling and transitional activities (as such are described in the EU Taxonomy Regulation). Therefore, the Fund Manager considers that the most prudent course of action, at present, is to disclose that 0% of such Funds' investments are in environmentally sustainable economic activities for the purposes of the EU Taxonomy Regulation.

The "do no significant harm" principle referred to above applies only to those investments underlying the relevant Fund that take into account the EU criteria for environmentally sustainable economic activities; investors should note that at present none of the relevant Funds take into account the EU criteria for environmentally sustainable economic activities.

The Fund Manager is keeping this situation under active review and where sufficient reliable, timely and verifiable data on the investment becomes available, it will re-evaluate its approach to the EU Taxonomy Regulation and relevant documentation will be updated.

AEGON ASSET MANAGEMENT EUROPE ICAV

Annual Report and Audited Financial Statements of the Funds of Aegon Asset Management Europe ICAV for the financial year ended 31 December 2021

Cyber Security Risk (Unaudited)

Cyber security breaches may occur allowing an unauthorized party to gain access to assets of the Funds, Shareholder data, or proprietary information, or may cause the Platform, the Investment Manager, the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality. The Funds may be affected by intentional cyber security breaches which include unauthorized access to systems, networks, or devices (such as through “hacking” activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws).

A cyber security breach could result in the loss or theft of Shareholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the ICAV, the Investment Manager, the Distributor, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund’s investments to lose value, as a result of which investors, including the relevant Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

CRS Data Protection Information Notice (Unaudited)

The Fund hereby provides the following data protection information notice to all Shareholders in the Fund either as at 31 December 2015 or at any point of time since this date. For the avoidance of doubt, this notice applies equally to any Shareholders that have ceased to hold shares in the Fund since January 1, 2016. Furthermore, it should be noted that this notice may be applicable to Controlling Persons of certain Shareholders. The Fund hereby confirms that it intends to take such steps as may be required to satisfy any obligations imposed by (i) the OECD’s Standard for Automatic Exchange of Financial Account Information in Tax Matters (“the Standard”), which therein contains the Common Reporting Standard (“CRS”), as applied in Ireland by means of the relevant international legal framework and Irish tax legislation and (ii) EU Council Directive 2014/107/EU, amending Directive 2011/16/EU as regards mandatory automatic exchange information in the field of taxation (“DAC2”), as applied in Ireland by means of the relevant Irish tax legislation, so as to ensure compliance or deemed compliance (as the case may be) with the Standard/CRS and the DAC2 from 1 January 2016.

In this regard, the Fund is obliged under Section 891F and Section 891G of the Irish Taxes Consolidation Act, 1997 (as amended) and regulations made pursuant to those sections to collect certain information about each Shareholder’s tax arrangements (and also collect information in relation to relevant Controlling Persons of specific Shareholders). In certain circumstances, the Fund may be legally obliged to share this information and other financial information with respect to a Shareholder’s interests in the Fund with the Irish Revenue Commissioners (and, in particular situations, also share information in relation to relevant Controlling Persons of specific Shareholders). In turn, and to the extent the account has been identified as a Reportable Account, the Irish Revenue Commissioners will exchange this information with the country of residence of the Reportable Person(s) in respect of that Reportable Account. In particular, information that may be reported in respect of a Shareholder (and relevant Controlling Persons, if applicable) includes name, address, date of birth, place of birth, account number, account balance or value at year end (or, if the account was closed during such year, the balance or value at the date of closure of the account), any payments (including redemption and dividend/interest payments) made with respect to the account during the calendar year, tax residency(ies) and tax identification number(s).
