What is this product?

Type

Aegon Investment Grade Global Bond Fund is a sub-fund of Aegon Asset Management Investment Company (Ireland) plc.

Term

The term of the Fund is unlimited and therefore there is no maturity date. The Fund Manager / Manufacturer may decide to terminate the Fund unilaterally as set out in the Prospectus of the Funds. Situations that give rise to an automatic termination are not foreseen in the Funds Prospectus, but may be foreseen by laws and regulations applicable to the Fund.

Objective: to maximise total return (income plus capital).

Policy: invests primarily in investment grade (lower risk) bonds issued by companies and governments worldwide. The Fund may also invest in:

- Cash, deposits and money market instruments (a form of debt security).
- Up to 20% in high yield (higher risk) bonds issued by companies and governments.

Within the limits set out above, the Fund has discretion in its choice of investments and is not restricted by market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index.

The Fund is actively managed.

The Fund may use investment techniques to manage risks and costs. These techniques include 'hedging' (using derivatives to reduce the risk associated with:

- (i) making investments in other currencies; or (ii) interest rates changing). Up to 20% of the Fund may not be 'hedged' i.e. the Fund is exposed to the risks of investing in another currency for this portion.

The fund promotes E/S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR).

Other information: You can buy, sell or exchange the Fund's shares on any business day (see 'Key Information for Buying and Selling' in the Fund Supplement to the Prospectus for more information).

Target benchmark: The Investment Manager expects that the fund will return performance exceeding Bloomberg Barclays Capital Global Aggregate Corporate Index (USD Hedged) (the "Target Benchmark") on an annualised basis over a rolling period 36 month period, net of fees. Although the Fund expects to reach this level of performance, there is no guarantee that this will be achieved. The Fund's capital is at risk meaning that the Fund could suffer a decrease in value at any time. The duration of the Fund's portfolio is limited to no greater than plus or minus three years relative to the duration of the Target Benchmark. This notwithstanding, there will be deviation between the Fund's portfolio holdings and those of the Target Benchmark and this deviation may be significant. For currency hedged share classes, the benchmark is shown in the share currency.

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

Intended retail investor

The Fund is designed for retail and institutional investors seeking pooled exposure to the investment grade global bond market and who are comfortable with a medium level of investment risk. Share prices will fluctuate and may fall significantly in value. It is important to understand that the fund should be viewed as a medium to long term investment. The Fund may not be appropriate for investors who plan to invest in the short term.

The Depository of the Fund is Citibank Depository Services Ireland Limited.

Investors can subscribe and redeem daily. The Company may levy an initial charge of up to 5% of the Net Asset Value per Share in connection with the subscription of Class A, D, G and X Shares of the Fund. This fee will be retained for the benefit of the Global Distributor. There can also be a Repurchase Charge of up to 3% of the redemption amount on Classes A, D, G and X Shares classes. The Fund may suffer dilution (reduction in the value of the assets as a result of the costs incurred in dealing in its underlying investments and of any spread between the buying and the selling prices of such investments which is not reflected in the issue or redemption price paid by or to Shareholders). With a view to countering this (which, if it is significant, disadvantages existing or continuing Shareholders), the Manager may make an adjustment (Dilution Adjustment) to the Share price on a daily and quarterly basis.
