WHAT IS THIS PRODUCT?

TYPE

This Sub-Fund is a UCITS according to European Directive 2009/65/EC.

TERM

The Sub-Fund has been set-up for an indefinite period of time. In accordance with the Sub-Fund's rules, the assets belonging to the Sub-Fund are owned jointly by the Sub-Fund's shareholders. A general meeting of the Sub-Fund's shareholders may terminate the Sub-Fund's management according to the Sub-Fund's rules. In this case, the Sub-Fund's appointed depository will either entrust the Sub-Fund's management to another management company or the Sub-Fund's appointed depository will liquidate the Sub-Fund and distribute the proceeds to the Sub-Fund's shareholders.

OBJECTIVES

The Sub-Fund aims to capture income from a global universe of floating-rate notes. The Sub-Fund seeks potential for long-term capital growth in accordance with the Sustainable and Responsible Investment Strategy (SRI Strategy).

The Sub-Fund follows the SRI Strategy and promotes investments that take into consideration environmental, social and corporate governance criteria with simultaneous application of certain minimum exclusion criteria for direct investments.

Min. 51% of Sub-Fund assets are invested in global floating-rate notes as described in the investment objective in accordance with the SRI Strategy. Max. 49% of Sub-Fund assets may be invested in bonds other than described in the investment objective in accordance with the SRI Strategy. Max. 30% of Sub-Fund assets may be invested in bonds which at the time of acquisition have a rating of BB+ or below (Standard & Poor's and Fitch) or, if unrated, as determined by the Investment Manager to be of comparable quality. Max. 5% of Sub-Fund assets may be invested in Debt Securities which do not have a rating by one or more Rating Agencies. We may invest up to 25% of Sub-Fund assets in ABS and/or MBS. Max. 30% of Sub-Fund assets may be invested in Emerging Markets. Max. 10% of Sub-Fund assets may be invested in contingent convertible bonds. Max. 10% of Sub-Fund assets may be invested in UCITS and/or UCI. Sub-Fund assets may be invested in derivatives for both, efficient portfolio management and hedging purposes. The gross exposure (long positions plus short positions) resulting from the use of derivatives

(excluding the use of FX Forward Transactions) may be max. 100% of Sub-Fund's Net Asset Value (NAV). Duration of Sub-Fund assets invested in bonds as well as in deposits and in money-market instruments should be between zero and 12 months. We follow an active management approach with the aim to outperform the Benchmark. In selecting and weighting the Sub-Fund's assets we do not replicate or reproduce the Benchmark. Sub-Fund assets therefore deviate significantly from the Benchmark.

Benchmark: SOFR (hedged into DKK).

Min. 80% of Sub-Fund's portfolio shall be evaluated by an SRI Rating. Portfolio in this respect does not comprise derivatives and instruments that are non-evaluated by nature (e.g., cash and Deposits). Min. 5.00% of Sub-Fund assets will be invested in Sustainable Investments. The minimum percentage of investments that are aligned with the EU Taxonomy is 0.01%.

You may redeem shares of the Sub-Fund usually on each business day. We reinvest the income into the Sub-Fund. Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

SFDR Category – Article 8 (a financial product which promotes, amongst other characteristics, environmental or social characteristics, provided that the companies in which the investments are made follow good governance practices)

Depository: State Street Bank International GmbH - Luxembourg Branch

WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

The Sub-Fund assets are strictly kept separate from other funds' assets and the management company's own assets.

The Sub-Fund is neither liable for other funds' assets nor liable for liabilities of the management company, this applies also to liabilities of the management company arising from legal transactions which it concludes for the collective account of the Sub-Fund's investors.

Therefore, neither an insolvency of the management company nor of the Sub-Fund's appointed depository will result in an investor losing money in the Sub-Fund.

In case of insolvency of the management company, the Sub-Fund's depository will either liquidate the Sub-Fund and distribute the proceeds to Sub-Fund's investors or entrust its management to another management company.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 12 months

Due to its investment strategy, the Sub-Fund's value may vary considerably over the short time. You should therefore stay invested for at least 12 months to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The

Sub-Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Sub-Fund you will pay the exit fees only. The detailed procedure to redeem from the Sub-Fund is described in the Prospectus.
