WHAT IS THIS PRODUCT?

Type: Algebris Global Credit Opportunities Fund (the "**Fund**") is a sub-fund of Algebris UCITS Funds PLC (the "**UCITS**"), a public limited company incorporated with limited liability in Ireland with registered number 509801 and established as an umbrella fund with segregated liability between sub-funds and as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The Investment Manager of the Fund is Algebris (UK) Limited (the "**Investment Manager**"). Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by Irish law. The prospectus and periodic reports are prepared for Algebris UCITS Funds plc at umbrella level. You may switch your shares in the Fund to shares in other sub-funds in which you are eligible to invest. Further information is available from BNP Paribas Fund Administration Services (Ireland) Limited.

Objectives: The Fund aims to achieve a high level of income diversifying across global bond and credit markets. The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies. The Fund intends to invest primarily in the following asset classes: debt securities to include corporate or government bonds with fixed or variable interest, investment or below investment grade, mortgage-backed and other asset-backed securities, senior and subordinated financial debt, convertible securities (bonds that can be converted into shares), contingent convertible instruments (e.g. **CoCo-Bonds**) (bonds that can be converted into shares or their principal amount may be written down if a pre-specified trigger event occurs), hybrid securities (a security which combines both debt and equity characteristics), Tier 1 and upper and lower Tier 2 securities (which are forms of bank capital), and trust preferred securities (a type of hybrid security). Although the Fund will primarily invest in the asset classes listed above, it may also invest in certain other asset classes including equity and equity-related securities, exchange traded funds and ancillary liquid assets in order to increase portfolio diversification and improve liquidity. The Fund may also enter into financial derivative instruments (**FDI**) and invest in securities which may embed leverage or embed a derivative component for investment, efficient portfolio management and hedging. Such FDI include swaps (an instrument that swaps the performance of one asset for another), contracts for difference (**CFDs**) (a security that returns the difference between the value of an asset at the beginning and the end of the contract), options (securities that give the right to buy or sell another asset), futures (contracts to exchange a predetermined quantity of another asset at a certain price on a certain future date) and forwards (contracts to exchange foreign currencies/debt securities at an agreed date in the future). Commodity exposure may be achieved solely via investment in UCITS eligible structures including, but not limited to, exchange traded notes (**ETNs**), exchange traded certificates (**ETCs**), ETFs and FDI based on UCITS eligible commodity indices which meet the requirements of and have, where necessary, been cleared by the Central Bank of Ireland. The Fund may invest substantially all of its assets in deposits with credit institutions (or other ancillary liquid assets) during periods of high levels of market movement (volatility).

The Fund aims to promote environmental and/or social characteristics by closely monitoring the ESG performance of issuers in the portfolio, and aiming to achieve a good ESG average rating for the portfolio including in particular in connection with: the governance practices of issuers, predatory lending practices, social factors and control of corruption, pollution prevention and control. You can buy or sell shares daily (but not on weekends or bank holidays in the UK or Ireland). Orders to buy and sell can be made by submitting a request by 12.00p.m. (Irish time), one business day in advance, to the administrator, BNP Paribas Fund Administration Services (Ireland) Limited. Any income that may arise in the Fund will be reinvested in the Fund.

Hedging: The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful.

Intended Retail Investors: The Fund is suitable for all investors seeking to achieve a high level of income and modest capital growth and who are prepared to accept a moderate level of volatility with a medium to long-term investment horizon. The investors must be able to bear the economic risk of the loss of their investment.

Term: The Fund has no maturity date at which the Fund will automatically terminate. The Investment Manager is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated. More details on the circumstances whereby the Fund may terminate are detailed in the prospectus of the UCITS (the "**Prospectus**") under the heading "Termination".

Depository of the Fund: BNP Paribas, Dublin Branch.
