This key information document is accurate as at 15.11.2023.

WHAT IS THIS PRODUCT?

TYPE

This Fund is a UCITS according to European Directive 2009/65/EC.

TERM

The Fund has been set-up for an indefinite period of time. In accordance with the Fund's rules, the assets belonging to the Fund are owned jointly by the Fund's unitholders. The Management Company may terminate the Fund's management according to the Fund's rules. In this case, the Management Company / the Fund's appointed depository will either entrust its management to another management company or the depository will liquidate the Fund and distribute the proceeds to the Fund's unitholders.

OBJECTIVES

The Fund is a standard variable net asset value money market fund (VNAV money market fund).

The fund aims to maintain capital and to generate a market-oriented return in US dollar terms, largely independent of currency fluctuations in US dollars.

We invest in money market instruments which we assess as belonging to the two highest categories for short-term ratings with regard to their credit quality, based on the appraisal by recognised rating agencies and our internal rating assessment. If the money market instruments are issued or guaranteed by a state, a federal state, an administrative district or comparable German or foreign central, regional or local authority, an internal assessment representing an "investment grade" rating is also sufficient. We may also acquire bank deposits and derivatives for hedging purposes. With regard to other money market funds which are permitted as such under the EU Regulation, up to 10% of the fund assets may be acquired. The weighted average fixed-interest period of all acquired assets held in the fund may not exceed 6 months, while the weighted average residual term to

maturity of all assets held in the fund may not exceed 12 months. No emerging-market assets are acquired by us. There is no significant currency risk against the US Dollar.

We follow an active management approach with the aim to outperform the Benchmark. In selecting and weighting the Fund's assets we do not replicate or reproduce the Benchmark. Fund assets therefore deviate significantly from the Benchmark.

Benchmark: SOFR (in USD).

You may redeem shares of the Fund usually on each business day. We reinvest the income into the Fund. Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

SFDR Category – Article 8 (a financial product which promotes, amongst other characteristics, environmental or social characteristics, provided that the companies in which the investments are made follow good governance practices)

Depository: State Street Bank International GmbH – Luxembourg Branch

INTENDED RETAIL INVESTOR

The Fund is aimed at retail investors with basic knowledge and/or experience of financial products. Prospective investors should be capable of bearing a financial loss and should not attach any importance to capital protection.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the Fund for 1 month. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this Fund as 2 out of 7, which is a low risk class on the basis of the PRIIPs regulation. This rates the potential losses from future performance at low level, and poor market conditions are very

unlikely impact our capacity to pay you. The categorisation of the Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI: Unusual market conditions or large unpredictable events can amplify this Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

PERFORMANCE SCENARIOS

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and/or suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between 5/2023 and 6/2023. The moderate scenario occurred for an investment between 9/2016 and 10/2016. The favourable scenario occurred for an investment between 8/2023 and 9/2023.

Recommended holding period: 1 MONTH

WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

The Fund assets are strictly kept separate from other funds' assets and the management company's own assets.

The Fund is neither liable for other funds' assets nor liable for liabilities of the management company, this applies also to liabilities of the management company arising from legal transactions which it concludes for the collective account of the Fund's investors.

Therefore, neither an insolvency of the management company nor of the Fund's appointed depository will result in an investor losing money in the Fund.

In case of insolvency of the management company, the Fund's depository will either liquidate the Fund and distribute the proceeds to Fund's investors or entrust its management to another management company.

WHAT ARE THE COSTS?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information

about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10,000 USD is invested

	If you exit after 1 month
Total costs	3 USD
Annual cost impact (*)	0.0 %

(*) This illustrates how costs reduce your return over the holding period. For example, it shows that if you exit at the recommended holding period your average return is projected to be 0.1 % before costs and 0.0 % after costs. We may share part of the costs with the person selling you the Fund to cover the services they provide to you. They will inform you of the amount.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 1 month

Due to its investment strategy, the Fund's value may vary considerably over the short time. You should therefore stay invested for at least 1 month to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The

Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Fund you will pay the exit fees only. The detailed procedure to redeem from the Fund is described in the Prospectus.

HOW CAN I COMPLAIN?
