

Allianz Money Market US \$

Fonds commun de placement (FCP)
RCSK: K749

Audited Annual Report
31 December 2022

Allianz Global Investors GmbH

General Information

The Fund is authorised as a “Fonds Commun de Placement” whose prospectus and management regulations fall within the scope of Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended (UCITS as defined in Directive 2014/91/EU of 23 July 2014). The Fund was established on 23 March 1995.

The information that is included in this report refers to the period under review from 1 January 2022 to 31 December 2022. This should not be taken as an indication of the future development of the Fund.

This report does not constitute an offer or an invitation to purchase units of the Fund. Subscriptions are only valid if made on the basis of the current prospectus, the Key Investor Information and the management regulations, supplemented by the latest available audited annual report. If the latest annual report was published more than eight months ago, then the semi-annual report must also be made available.

The prospectus, the management regulations, the Key Investor Information, as well as the respective annual and semi-annual reports, can be obtained without charge from the Management Company, the Depositary or from any Paying and Information Agent.

Email: info-lux@allianzgi.com

Important Notice to our Unitholders

The Russian invasion of Ukraine caused considerable volatility and uncertainty on the international capital markets in 2022. As a result of this situation, it is only possible to make extremely limited general forecasts about capital market trends and future effects. At the current time, as the annual report is being prepared, it is therefore not possible to definitively assess the direct impact of the Russian invasion on the Fund.

The Economic Sanctions issued against the Russian Federation, the separatist regions of Donetsk People's Republic and Luhansk People's Republic, and Belarus are constantly evolving. AllianzGI is complying with all relevant current and intends to comply with all relevant future sanctions including but not limited to those imposed by the EU, Japan, Singapore, South Korea, Switzerland, UK, and US. All trades that AllianzGI sends to its counterparties comply with AllianzGI's obligations under the relevant sanctions. AllianzGI has a globally coordinated economic sanctions team from the Legal, Compliance, and Risk functions that monitors economic sanctions and coordinates their implementation. This team is actively monitoring the current situation and has been working with impacted departments, including portfolio management, trading, and operations, to take relevant action and ensure timely implementation. In particular, the team is coordinating the implementation of the multi-jurisdictional sanctions against the Russian Federation, the separatist regions of Donetsk People's Republic and Luhansk People's Republic, and Belarus.

As of 31 December 2022, the fund has no direct investments in Russia, Ukraine or Belarus. The statements included herein are as of the date provided and are subject to change.

AllianzGI has policies, procedures and systems in place to screen new and existing investors against applicable sanctions lists. In relation to Article 5f of Regulation (EU) No 833/2014 and Article 1y of Regulation (EC) No 765/2006, AllianzGI has decided to stop selling any fund units/shares or securities to Russian and Belarussian nationals after 12 April 2022. In this regard, AllianzGI has instructed its distribution partners, fund platforms and service providers such as transfer agents to stop distributing fund units/shares to Russian and Belarussian nationals. Where Russian or Belarussian nationals hold units/shares in funds before 12 April 2022, AllianzGI has instructed their service providers to block the investor's account for subscriptions and other transactions which would constitute a sale of fund units/shares.

Investment Policy and Fund Assets

The Fund has positions in money market instruments with the two highest short-term ratings, as well as in bank deposits. Government money market instruments may be acquired if they have an investment grade rating. Investments in emerging economies are not permitted. Individual instruments may have a remaining term to maturity of no more than two years and a maximum interest adjustment period of 397 days. The duration (average capital commitment period) of the Fund may not exceed six months. Foreign currency positions must be hedged against the US dollar. The investment objectives are capital retention and a return in USD relating to the USD money market.

In the year under review, the general rate of inflation in the United States remained well above the target of the Federal Reserve, which responded with a series of interest rate hikes. It raised the range of its key interest rate from between 0.00% and 0.25% to between 4.25% and 4.50% at last count. In this environment, USD money market investments were yielding significant positive returns for the first time in years.

USD money market instruments issued by international companies continued to dominate in the Fund, but their share declined slightly. Almost exclusively securities from the financial sector continued to be held within this segment. The weighting of government and supranational securities increased slightly, with the focus still on AAA-rated US instruments. On average, the credit rating of securities investments in the portfolio remained at AA in most recent figures. The duration (average capital commitment period) of the portfolio rose to just under four months. The liquidity ratio remained at a significantly higher level as at the reporting date.

Taking ongoing costs into consideration, the Fund's investment structure resulted in a slight increase in value.

The exact performance in the period under review is reported in the table "Performance of the Fund" at the end of the financial statements.

Please refer to the Key Investor Information Document and Prospectus for additional information on the Fund.

	(13/12/2016-31/12/2022)	-	-	6.40

¹⁾ The calculation is based on the net asset value per unit (excluding sales charge), assuming distributions, if any, were reinvested. The performance is calculated according to the method recommended by the German BVI (Bundesverband Investment und Asset Management e.V.).

²⁾ The calculation is based on the net asset value per unit (excluding sales charge). The performance is calculated according to the method recommended by the German BVI (Bundesverband Investment und Asset Management e.V.).

³⁾ Class A (USD) (distributing): Launch date: 03 April 1995. Initial NAV per unit: USD 100.00.

Class AT (USD) (accumulating): Launch date: 15 March 2019. Initial NAV per unit: USD 10.00.

Class WT (USD) (accumulating): Launch date: 13 December 2016. Initial NAV per unit: USD 1,000.00.

Historical performance is not an indicator of current or future performance.

Performance data ignores the commission and expenses incurred in issuing and redeeming the units.

Notes to the Financial Statements

Accounting Policies

Basis of Accounting

The financial statements are prepared in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment.

The base currency of the Allianz Money Market US \$ is the US-Dollar (USD).

Valuation of Assets

Assets that are officially listed on a stock exchange are valued at the latest available price paid.

Assets that are not officially listed on a stock exchange, but are traded on a regulated market or on other organised markets, are also valued at the latest available price paid, provided that, at the time of valuation, the Management Company considers that price to be the best possible price at which the assets can be sold.

Assets whose trade prices are not fair market prices, as well as all other assets, are valued at the probable realisation value. At its discretion, the Management Company may authorise other valuation methods if, in its consideration, such other methods better represent the fair value of the assets.

Financial futures transactions relating to currencies, securities, financial indices, interest rates and other permissible financial instruments and options thereon and corresponding warrants are, if they are listed on a stock exchange, valued at the most recent prices on the stock exchange in question. If there is no stock market listing, in particular for all OTC transactions, the valuation shall be made based on the likely realisable value.

Interest-rate swaps are valued at their market value in relation to the applicable interest rate curve. Swaps tied to indices and to financial instruments are valued at their market value, which is determined by reference to the index concerned or the financial instrument concerned.

Units in UCITS or UCIs are valued at the latest determined and obtainable redemption price.

Cash and time deposits are valued at their nominal value plus accrued interest.

Assets not denominated in the base currency of the Fund (hereinafter called the "base currency of the Fund") are converted into the base currency of the Fund at the most current middle-market rate of exchange.

Security Prices

The calculation of the Net Asset Value will be in accordance with the provisions of the Prospectus based on the last known security prices on the Valuation Date.

The Financial Statements of the Annual Report have been prepared on the basis of the securities' prices of the most recently calculated and published Net Asset Value of the reporting period.

Foreign Currencies

Assets and liabilities in foreign currencies have been converted at the exchange rates stated below:

Danish Krone	(DKK)	1 USD = DKK	6.978650
Euro	(EUR)	1 USD = EUR	0.938438

Taxation

The Fund is subject to a "Taxe d'Abonnement" in the Grand Duchy of Luxembourg, calculated and payable on the total net assets of the Fund at the end of each quarter unless the assets are invested in Luxembourg funds which are themselves subject to a "Taxe d'Abonnement". The income of the Fund is not taxable in Luxembourg.

Distribution and accumulation of income on units are currently not subject to withholding tax in Luxembourg.

All-in Fee

All costs to be borne by the Fund are paid from the Fund's assets:

The Fund pays the Management Company a fee ("all-in fee") from the assets of the Fund, unless this fee is charged directly to the unitholders within the framework of a specific unit class.

The fees of the investment managers appointed by the Management Company are paid by the Management Company out of its all-in fee and, if applicable, out of its performance fee.

The all-in fee is paid monthly in arrears and calculated pro rata based on the average daily net asset value of the relevant unit class, unless this fee is charged directly to the unitholders within the framework of a specific unit class.

In return for payment of the all-in fee, the Management Company grants the Fund exemption from the following list of fees and charges:

- Management and central administration agent fee;
- Distribution fees;
- Custodian fee;
- Registrar and Transfer Agent fee;
- Costs of preparing (including translation) and distributing the complete sales prospectus, key investor information, articles of incorporation, annual, semi-annual and, if applicable, interim reports and any other reports and communications to unitholders;
- Costs of publishing the sales prospectus, key investor information, articles of incorporation, annual, semi-annual and, if applicable, interim reports and any other reports and communications to unitholders, tax information, issue and redemption prices, as well as official notices to unitholders;
- Costs charged by the external auditor for auditing the Fund;
- Costs of registering the units for public distribution and/or maintaining such registration;
- Costs of issuing unit certificates and, where applicable, coupons and coupon renewals;
- Fees levied by the Paying and Information Agent;
- Costs of assessing the Fund by nationally and internationally recognised rating agencies;
- Costs related to the use of index names, in particular licence fees;
- Costs and expenses incurred by the Fund and third parties authorised by the Management Company of the Fund in connection with the acquisition, use and maintenance of internal or external IT systems used by the fund managers and investment advisers;
- Costs associated with acquiring and maintaining a status entitling the Management Company to invest directly in assets in a country or to act directly as a contracting partner on markets in a country;
- Costs and expenses associated with monitoring investment limits and restrictions incurred by the Fund, the custodian and any third parties acting on their behalf;
- Costs for calculating the risk and performance figures and for calculating a performance fee for the Management Company by third parties appointed to do so;
- Costs associated with obtaining information about general shareholders' meetings of companies or about other meetings of the owners of assets, and costs related to direct participation or participation through authorised third parties in such meetings;
- Postage, telephone, fax and telex costs.

Fee Structure

	All-in Fee	Taxe d'Abonnement
	in % p.a.	in % p.a.
Allianz Money Market US \$		
- Class A (USD) (distributing)	0.70	0.01
- Class AT (USD) (accumulating)	0.70	0.01
- Class WT (USD) (accumulating)	0.29	0.01

Transaction costs

Transaction costs take into account all the costs that were reported or charged separately in the period from 1 January 2022 to 31 December 2022 for the account of the Fund and which are directly related to the purchase or sale of certain assets.

For fixed-interest investments, forward foreign exchange contracts and other derivative contracts, the transaction costs are included in the purchase and sale price of the investment. These transaction costs cannot be identified separately but are included in the performance of the Fund.

No transaction costs were incurred in the period under review.

Subsequent Events

There were no significant subsequent events after the end of the financial year until the signing date of the financial statements.

Ongoing Charges

The Ongoing Charges are costs incurred by the Fund (or the respective Unit Classes) during the preceding financial year (excluding transaction costs) and are expressed as a ratio of the average volume of the Fund (or of the average volume of the respective Unit Classes) ("Ongoing Charges"). In addition to the All-in-Fee as well as the Taxe d'Abonnement, all other costs are considered except for the incurred transaction costs and any performance-related fees. Costs incurred will not be subject to cost compensation.

If a Fund invests more than 20% of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Fund ("synthetic Ongoing Charges"); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other UCITS or UCI into consideration when calculating Ongoing Charges. If a Fund does not invest more than 20% of its assets in other UCITS or UCI, any costs that may be incurred at the level of these UCITS or UCI are not taken into consideration.

Audit report

**To the Unitholders of
Allianz Money Market US \$**

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Allianz Money Market US \$ (the "Fund") as at 31 December 2022, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the investment portfolio as at 31 December 2022;
- the statement of operations for the year then ended;
- the statement of net assets as at 31 December 2022;
- the statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2018 on the audit profession (Law of 23 July 2018) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2018 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the Réviseur d'entreprises agréé for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company;

- **conclude on the appropriateness of the Board of Directors of the Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;**
- **evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**PricewaterhouseCoopers, Société coopérative

Determining the market risk and leverage effect

As part of the risk-management procedure the market risk of the Fund is measured and limited either using the commitment or Value-at-Risk (VaR) approach (relative or absolute VaR). When determining the market risk of the Fund, the commitment approach takes into account the additional risk that is generated through the use of derivative financial

instruments. The VaR approach represents a statistical method for calculating the potential loss arising from value changes in the whole Fund. The VaR calculation is generally based on the "Delta Normal" method (confidence level of 99%, an assumed holding period of 10 days, data history of 260 days), otherwise the alternative calculation method is shown in the following table.

At the end of the reporting period, the following approach applied to the Fund for calculating the market risk:

Name of the Fund	Approach	absolute VaR limit
Allianz Money Market US \$	absolute VaR	2.00

The minimum, maximum and average risk budget utilisation (RBU) of the Fund in the period under review can be seen in the following table. For funds using the relative value-at-risk (VaR) approach, the utilisation is reported in relation to the limit stipulated by the regulatory authorities (i.e. 2 times the VaR of the defined benchmark). For funds using the absolute

VaR approach, it is reported in relation to the absolute VaR limit indicated in the table above. The table also shows the average leverage effect of the Fund in the period under review. The average leverage effect is calculated as the average sum of notionals of derivatives.

	Average leverage effect in %	Minimum RBU in %	Maximum RBU in %	Average RBU in %
Allianz Money Market US \$	0.00	8.15	12.43	10.82

Disclosures relating to employee remuneration (all figures in EUR) of Allianz Global Investors GmbH for the financial year from 01/01/2022 to 31/12/2022

The following table shows that total amount of remuneration actually paid to the employees of Allianz Global Investors GmbH ("Management Company" or also called "AllianzGI") in the past financial year divided into fixed and variable components. It is also broken down by members of

management, risk takers, employees in controlling positions and employees whose total remuneration puts them in the same remuneration category as members of management and risk takers.

Number of employees 1,710

		thereof Risk Taker	thereof Board Member	thereof Other Risk Taker	thereof Employees with Control Function	thereof Employees with Comparable Compensation
Fixed remuneration	174,302,493	7,269,792	985,960	2,207,677	390,480	3,685,675
Variable remuneration	121,033,472	16,763,831	1,483,410	4,459,440	377,612	10,443,368
Total remuneration	295,335,965	24,033,623	2,469,370	6,667,117	768,092	14,129,043

Setting the remuneration

Allianz Global Investors GmbH ("Management Company") is subject to the supervisory requirements applicable to investment management companies with regard to structuring the remuneration system. The management of Allianz Global Investors GmbH ("Management Company") is usually responsible for decision-making about determination of employee remuneration. Decisions about the remuneration of the management itself are taken by the Shareholder.

The "Management Company" has set up a remuneration committee to perform the duties required by law. This committee consists of two members of the Fund's Supervisory Board, each of whom is appointed by the Supervisory Board, where one member should be an employee representative.

Working in close cooperation with the Risk Management and Legal & Compliance departments as well as with external advisers and in conjunction with the management, the Human Resources department has developed the Management Company's remuneration policy under the requirements of the UCITS and AIFM Directives. This remuneration policy applies to the Management Company domiciled in Germany and to its branches.

Remuneration structure

The primary components of monetary remuneration are the basic salary, which typically reflects the scope, responsibilities and experience required in a particular role, and an annual variable remuneration.

The total amount of the variable remuneration payable throughout the Management Company depends on the performance of the business and on the Management Company's risk position and will therefore vary every year. In this respect, the allocation of specific amounts to particular employees will depend on the performance of the employee and their departments during the period under review.

Variable remuneration includes an annual bonus paid in cash following the end of the financial year. In the case of employees whose variable remuneration exceeds a certain threshold, a substantial portion of the annual variable remuneration is deferred for a period of three years.

The deferred portions increase in line with the level of the variable remuneration. Half of the deferred amount is linked to the performance of the Management Company, and the other half is invested in the funds managed by AllianzGI. The amounts ultimately distributed depend on the Management

Further unaudited information

Company's business performance or the performance of units in certain investment funds over several years.

In addition, the deferred remuneration elements may be withheld under the terms of the plan.

Performance evaluation

The level of pay awarded to employees is linked to both quantitative and qualitative performance indicators.

For Investment managers, whose decisions make a real difference in achieving our clients' investment goals, quantitative indicators are geared towards sustainable investment performance. For portfolio managers in particular, the quantitative element is aligned with the Benchmark of the client portfolios they manage or with the client's expected return, measured over a period of one year and three years.

For client-facing employees, goals also include client satisfaction, which is measured independently.

The remuneration of employees in controlling functions is not directly linked to the business performance of individual departments monitored by the controlling function.

Risk takers

The following groups of employees were qualified as risk carriers: Members of management, risk takers and employees in controlling positions (as identified in current organisational charts and job profiles and as assessed in terms of the

influence on the risk profile) as well as all employees whose total remuneration puts them in the same remuneration category as members of management and risk takers and whose activities have a significant effect on the risk profiles of the Fund and the investment funds managed by it.

Risk avoidance

AllianzGI has comprehensive risk reporting in place, which covers both current and future risks of our business activities. Risks which exceed the organisation's risk appetite are presented to our Global Remuneration Committee, which will decide, if necessary, on the adjustments to the total remuneration pool.

Individual variable compensation may also be reduced or withheld in full if employees violate our compliance policies or take excessive risks on behalf of the Management Company.

Annual review and material changes to the remuneration system

The Remuneration Committee did not find any irregularities during the annual review of the remuneration system, including a review of the existing remuneration structures as well as implementation of the regulatory requirements and compliance with them. In the course of this centralised and independent review, it was also found that the remuneration policy had been implemented in accordance with the remuneration regulations stipulated by the Supervisory Board. Furthermore, no material changes were made to the remuneration policy in the past financial year.

Techniques for efficient portfolio management

Sections 35 (a)-(c), 40 (a)-(c) and 48 (a), (b) of the European Securities and Markets Authority's (ESMA's) guideline (ESMA/2014/937) on exchange-traded funds (ETFs) and other UCITS issues require disclosures in the funds' annual report on the exposure obtained through efficient portfolio management techniques (securities lending, repos/reverse repos) and/or derivatives, disclosure of the identity of the counterparties to these transactions, statements as to the type and amount of collateral received in this regard and statements as to the issuer's identity in connection with the OTC derivatives and collateral in the form of securities issued by a Member State.

The following table shows the minimum, maximum and average exposure in the period under review, broken down by technique. The exposure figures for the fund's minimum or maximum exposure are shown in relation to the fund's assets on the respective day with the minimum or maximum exposure for the period under review. The average exposure is derived from the simple average of the fund's daily exposure in relation to the fund's assets on the respective day. The exposure (counterparty) resulting from techniques for efficient portfolio management or derivatives was considered separately for exchange-traded derivatives, OTC derivatives (including total return swaps), repurchase agreements (repos/reverse repos) and securities lending.

		Minimum exposure in %	Maximum exposure in %	Average exposure in %
Allianz Money Market US \$	exchange-traded derivatives ¹⁾	-	-	-
	OTC derivatives	-	-	-
	Repurchase agreements (repos/ reverse-repos) ²⁾	-	-	-
	Securities lending ³⁾	-	-	-

¹⁾ During the period under review, the fund had no positions in exchange-traded derivatives.

²⁾ During the period under review, the fund did not enter into any repurchase agreements.

³⁾ During the period under review, the fund did not enter into any agreements in the form of securities loans.

The following table shows the minimum, maximum and average amount of collateral received to reduce the fund's counterparty risk. The fund's minimum and maximum collateral is shown as a percentage of the fund assets on the respective day of the period under review. The average amount of collateral is calculated as the simple average of the daily amount of collateral as a percentage of fund assets each day.

	Collateral (minimum in %)	Collateral (maximum in %)	Collateral (average in %)
Allianz Money Market US \$ ⁴⁾	0.00	0.00	0.00

⁴⁾ During the period under review, no collateral was deposited.

Further unaudited information

There was no issuer whose collateral received exceeded 20% of the fund's net asset value at the reporting date.

At the reporting date the fund was not completely collateralised by securities issued or guaranteed by a Member State.

The following table shows expenses and revenues according to section 35 (d) of the guideline 2014/937 for the period under review from techniques for efficient portfolio management, including direct and indirect operational costs and fees incurred.

	Revenue	Expenses
Allianz Money Market US \$	0.00	0.00

Annex according to Regulation (EU) 2015/2365 with regards to Securities Financing Transactions and Total Return Swaps

This Fund was not invested in any securities financing transactions pursuant to Regulation (EU) 2015/2365 during the reporting year, therefore the following contains no information on this type of transaction.

Taxonomy Regulation in connection with the Sustainability-related Disclosure Regulation

The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Note for Investors in the Federal Republic of Germany (unaudited)

All payments to unitholders (proceeds from redemptions, any distributions and other payments) can be made through the German Paying Agent listed in the "Directory". Redemption orders may be submitted through the German Paying Agent.

With respect to the distribution in the Federal Republic of Germany, the issue and redemption prices are published on the internet on the website <https://de.allianzgi.com>. Any notices to the investors are published on the webpage <https://de.allianzgi.com>. For selected unit classes (e.g. unit classes exclusively for institutional investors or unit classes whose bases of taxation are not published in the Federal Republic of Germany) publication can be performed on one of the websites <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>.

Under Section 298 (2) of the German Capital Investment Code (KAGB), investors in the Federal Republic of Germany are also informed in the following cases by means of permanent data carrier as defined in Section 167 KAGB:

- Suspension of redemption of units in the Fund,
- Notice of termination of Fund management or liquidation of the Fund by the Management Company,
- Amendments to the Management Regulations that are not compatible with the existing investment principles, that affect key investor rights or involve fees and reimbursement of charges that can be withdrawn from the Fund, including the background to the amendments and the rights of the investors,
- In the event of a merger of the Fund with another fund, the merger information required under Art. 43 of Directive 2009/65/EC,
- In the event of conversion of the Fund into a feeder fund or the changes to a master fund in the form of information that must be prepared pursuant to Art. 64 of Directive 2009/65/EC.

The Prospectus, the Management Regulations for the Fund, the current annual and semi-annual reports, the key investor information as well as the issue and redemption prices may be obtained as hard copy without charge at the Information Agent listed in the "Directory" and without charge on the website <https://de.allianzgi.com>. For selected unit classes (e.g. unit classes exclusively for institutional investors or unit classes whose bases of taxation are not published in the Federal Republic of Germany) publication can be performed on one of the websites <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>.

The custodian agreement is available for inspection without charge at the offices of the Information Agent.

Neither the Management Company, the Depositary, the Registrar and Transfer Agent, the Distributor nor the Paying and Information Agents are liable for errors or omissions in the published prices.
