Additional information on valuations

The valuation is carried out by the investment management company (IMC).

Equities, subscription rights, exchange-traded funds (ETFs), participation certificates, bonds and exchange-traded derivatives are valued at their market price, provided that a market price is available.

Bonds for which no market price is available are valued at validated broker prices or with the help of regularly reviewed models and on the basis of relevant market information.

Participation certificates for which no market prices are available are valued at the mean of the bid-ask-spread.

Derivatives and subscription rights which are not traded on the market are valued with the help of regularly reviewed models and on the basis of relevant market information.

Investment fund units are valued at the redemption price published by the relevant investment company.

Bank deposits and other assets are valued at their nominal value, term deposits at their current value and liabilities at the repayment value.

Unlisted equities and shareholdings are valued at the current value, which is carefully determined with the help of suitable valuation models, taking account of the current market situation.

The methods used to value the Fund factor in the market effects resulting from the COVID-19 pandemic and the Russian-Ukraine war. No further adjustments were necessary at the time of preparation of the semi-annual report.

The investments reported in this semi-annual report, amounting to 98.81% of fund assets, are valued at stock market trading prices or market prices and 0.00% at imputed current market values and/or verified brokers' quotations. The remaining 1.19% of fund assets consists of other assets, other liabilities and cash.

Exchange rate(s) and/or conversion factor(s) (indirect quotation) as at 31/05/2023

Norway, Krone	(NOK)	1 Euro = NOK	12.02225
Sweden, Krona	(SEK)	1 Euro = SEK	11.67450

Annex

Unit classes

Different unit classes within the meaning of section 16 sub-section 2 of the “General Terms and Conditions” may be created for the fund. These unit classes may differ in terms of profit allocation, front-end load, redemption fee, the currency of the unit value including the use of currency hedging transactions, the all-in fee, minimum investment amount, or any combination of the features mentioned. Unit classes may be created at any time at the discretion of the Company.

During the reporting period, the unit class(es) listed in the following table was/were created.

Unit class	Currency	All-in fee in % p.a.		Front-end load in %		Redemption fee in %	Minimum investment	Allocation of income
		maximum	current	maximum	current			
A	EUR	1.80	1.80	5.00	5.00	--	--	distributing
A20	EUR	1.80	1.80	5.00	5.00	--	--	distributing
IT2	EUR	0.95	0.95	--	--	--	EUR 1,000,000	accumulating
IT20	EUR	0.95	0.95	--	--	--	EUR 1,000,000	accumulating

In addition, the Company may charge the fund a performance fee for managing the fund, as stipulated in the prospectus.

Annex according to Regulation (EU) 2015/2365 with regard to Securities Financing Transactions and Total Return Swaps

This Fund was not invested in any securities financing transactions pursuant to Regulation (EU) 2015/2365 during the reporting period, therefore the following contains no information on this type of transaction.

Information on the performance fee

A performance fee is levied by the Management Company based on the procedures defined in the Prospectus. The reporting period for a performance fee may differ from the financial year of the Fund. The Management Company receives a performance fee for the reporting period in question only if the amount calculated from a positive benchmark deviation exceeds the negative amount from the previous reporting period at the end of the reporting period. In this case, the Management Company's claim to a fee consists of the difference between the two amounts. The scope of the performance-based management fee for the current reporting period is regularly determined during the course of the financial year – including at the end of the financial year – and is defined in the Fund as a liability.

The performance fee amount calculated for the financial year thus consists of two periods:

1. The difference between the scope at the end of the previous year's financial year and the end of the reporting period.
2. The scope for the current reporting period as at the end of the financial year.

Accordingly, the reported performance fee calculated may be negative, as is the case in this financial year. At the end of the last financial year, liabilities were defined in the Fund that at the end of this financial year were suspended either entirely (no performance fee was paid at the end of the reporting period) or partially (a performance fee was paid at the end of the reporting period).

The performance fee reported here may deviate from the amounts reported in the statement of operations due to income equalisation.
