What is the product?

Type: This product is a Société d'Investissement à Capital Variable (SICAV).

Term: The fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the fund, subject to approval by the Board of Directors.

Objectives: The fund seeks a high level of current income and long-term capital appreciation by investing primarily in equity securities broadly diversified among major economic sectors and global geographic regions and may invest in stocks of any market capitalisation and style (e.g., value or growth) issued by issuers in any industry or sector. Under normal market conditions, the fund invests at least 90% of its total assets in dividend-paying equity securities of global companies. Securities will be chosen using a proprietary fundamental investment process by which the Sub-Advisor seeks to identify quality companies around the world with a proven track record of delivering consistent or rising dividends and companies likely to raise their dividends meaningfully and/or to pay a significant special dividend. Under normal market conditions, the fund invests in equity securities of issuers located in at least five different countries, including the U.S., and expects to maintain an allocation to U.S. securities within 10% of the fund's benchmark allocation in U.S. securities. The fund will also employ a strategy of writing (selling) call options on a variety of U.S. and non-U.S.-based eligible securities indices, on exchange-traded funds (qualifying as UCITS or UCIs) providing returns based on certain indices, countries, or market sectors, and, to a lesser extent, on futures contracts and individual securities. The fund will use this strategy in an attempt to generate premium income from written call options and may write call options with an aggregate net notional amount of up to 100% of the fund's total assets. The fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The Sub-Investment Manager may enter into currency exchange transactions with respect to the fund's equity investments, in order to hedge against changes in the U.S. dollar value of dividend income the fund expects to receive in the future and that is denominated in currencies other than the U.S. dollar, or in the U.S. dollar values of securities held by the fund denominated in currencies other than the U.S. dollar. The fund is actively managed but uses the MSCI All Country World Index as a reference for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmark. You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day"). This share class intends to distribute gross dividends, if any. Shareholders should note that paying dividends gross of expenses may result in the shareholder receiving a higher dividend than they would have otherwise received and therefore may suffer a higher income tax liability as a result. Shareholders should seek their own professional tax advice in this regard.

Intended Investor:

This product is intended for investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Further Information: This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com).

Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the fund's local agent in certain countries and at the registered office of the fund.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

< Lower risk Higher risk >> The risk indicator assumes you keep the product for a minimum of 5 years.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 Years

Investment: 10 000 USD

Scenarios		1 Year	5 Years
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		(recommended holding period)

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment: 10 000 USD	If you exit after 1 Year	If you exit after 5 Years
Total Costs	42 USD	316 USD
Annual Cost Impact	0.42 %	0.45 %

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.96% before costs and 8.51% after costs.
