What is the product?

Type: This product is a Société d'Investissement à Capital Variable (SICAV).

Term: The fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the fund, subject to approval by the Board of Directors.

Objectives: The fund seeks long-term capital appreciation by investing, under normal market conditions, at least two-thirds of its total assets in equity securities of U.S. large-capitalization companies (currently considered to be those within the market capitalization range of the Russell 1000® Index at the time of purchase), and up to 25% of its total assets in equity securities of non-U.S. issuers through ADRs, CDRs, EDRs, GDRs, IDRs and similar depository receipts as well as U.S. dollar-denominated equity securities of non-U.S. issuers. U.S. equity securities are securities issued by companies with their principal office in the United States or exercising a predominant part of their economic activities in the United States. The fund invests principally in the equity securities of approximately 30 to 40 large-capitalisation companies that it believes offer the potential for capital growth. The fund may invest in any sector, and at times it may emphasize one or more particular sectors. The fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes. Price objectives are determined based on industry-specific valuations methodologies and in addition to meeting with management, the fund takes a surround-the-company approach to obtain multiple perspectives that help it make better investment decisions. The fund is actively managed but uses the Russell 1000® Index as a reference for selecting investments and the Russell 1000® Growth Index for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmarks. This share class does not distribute dividends. Income is reinvested in the fund.

Intended Investor:

This product is intended for institutional investors of all knowledge and/or experience levels who are seeking long-term growth potential offered through investment in equities, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Further Information: This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com).

Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the fund's local agent in certain countries and at the registered office of the fund.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

< Lower risk Higher risk >> The risk indicator assumes you keep the product for a minimum of 5 years.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 Years

Investment: 10 000 EUR

Scenarios		1 Year	5 Years
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		(recommended holding period)	
Stress scenario	What you might get back after costs	1 350 EUR	2 110 EUR
	Average return each year	- 86.45 %	- 26.73 %
Unfavourable scenario	What you might get back after costs	7 530 EUR	7 460 EUR
	Average return each year	- 24.71%	- 5.68%

	Average return each year	43.85%	24.8%

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 12/2022.

Moderate: This type of scenario occurred for an investment between 10/2014 and 09/2019.

Favourable: This type of scenario occurred for an investment between 11/2016 and 10/2021.

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 Year	If you exit after 5 Years
Total Costs	92 EUR	1040 EUR
Annual Cost Impact	0.92 %	1.08 %

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 18.32% before costs and 17.24% after costs.
