

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ALMA US CONVERTIBLE FUND

Share Class: S (ISIN: LU0744648741), (Currency: EUR)

a sub-fund of Alma Capital Investment Funds. The Fund is managed by Alma Capital Investment Management.

OBJECTIVES & INVESTMENT POLICY

This Fund is actively managed and aims to maximise capital growth. The Fund invests mainly in **US convertible bonds**. A convertible bond can be converted, at the holder's option, into common stock of the issuing company, at an agreed-upon price.

Therefore, convertible bonds are "hybrid" securities that possess both fixed income and common stock characteristics. The Fund can invest in all types of convertible bonds but primarily invests in convertible bonds of US corporate issuers with debt rated below investment grade (below Baa3 by Moody's or below BBB- by S&P or Fitch), commonly referred to as "high yield".

The Fund promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics in compliance with Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR") and the related sustainability risks.

As part of its investment process, the Investment Manager seeks to consider all meaningful risks, including those related to Environmental, Social or Governance (ESG), that may have an impact on a company's prospects, operating performance or valuation.

The Fund is actively managed which means that the Investment Manager is actively making investment decisions for the Fund.

The Fund is not managed in reference to a benchmark.

Shenkman Capital Management, Inc. manages the portfolio of this Fund. All income in the Fund is reinvested.

Shares are reserved for subscription and may exclusively be held by Alma Capital Investment Management.

RISK AND REWARD PROFILE

The above indicator (Synthetic Risk and Reward Indicator) reflects the historical level of risk and reward of this share class over the last 5 years. As it is based on its historical behaviour, **it does not necessarily reflect future risk, nor reward.**

This share class is classified as above since convertible bonds tend to be subject to higher price fluctuations and credit risk.

This classification is solely valid as of the date of this document; it can change in the future.

Investors investing in a fund in the category "1" above may sustain a loss. A fund in this category is not risk free at all times.

The Fund does not provide investors with any guarantee of performance nor of the value of investments in it. The latter may consequently go up, as well as down.

The indicator captures the impacts on the Fund of movements in financial markets and currencies, **under normal market conditions.**

Risks materially relevant to the Fund which are not captured by the indicator:

Convertible bonds risk: convertible bonds generally tend to be of lower credit quality and are likely to experience greater rises and falls in value. These securities may produce a higher level of income than investment grade bonds but at a higher risk to your capital.

Credit risk: the Fund invests in convertible bonds. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer.

High-yield risk: the Fund will primarily invest in bonds of lower credit quality. These bonds may produce a higher level of income than investment grade bonds but at a higher risk to your capital.

Interest rate risk: an increase in interest rates may cause the value of securities held by the Fund to decline. Bonds prices and interest rates have an inverse relationship, when the interest rates rise, the price of existing bonds falls.

Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact portfolio valuation.

Selection risk: the Investment Manager's judgment about the attractiveness, value and potential appreciation of a particular company's security could be incorrect.

More details on the risks investors may be exposed to when investing in this Fund are described in the "Risk Factors" section and the relevant Special Section of the Prospectus.

CHARGES FOR THIS FUND

The charges paid/you paid are used to finance the costs of running the Fund, including the costs of distribution. These charges reduce the potential growth of investments.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST:	
Entry charge	2%
Exit charge	0.5%
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
CHARGES TAKEN FROM THE FUND OVER A YEAR	
Ongoing charges	0.02%
CHARGES TAKEN FROM THE FUND UNDER SPECIFIC CONDITIONS	
Performance Fee	Not applicable

The **entry** and **exit charges** shown are maximum figures. In some cases investors may pay less—more details can be obtained from investment advisers or distributors.

The **ongoing charges** figure is based on expenses for the twelve month period ending 31 December 2021. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

A charge of up to 1% may be levied if shares in this share class are converted into shares of other Funds or classes, as further described in the prospectus.

For more information about charges, please refer to the "Fees, Compensation and Expenses" section of the Prospectus, which is available at www.fundsquare.net.

PAST PERFORMANCE

Past performance provides no indication of future returns.

All fees and expenses, as included in the price of the Fund, are reflected in the performance shown left, which is calculated in Euros. This performance does not take into account the above mentioned maximum entry and exit charges.

The Fund was launched on 18 November 2011 and the share class was launched on 20 April 2012.
