The Commission de Surveillance du Secteur Financier ("CSSF") in Luxembourg is responsible for supervising Alma Capital Investment Management in relation to this Key Information Document.

(the "Sub-Fund") is authorised in Luxembourg and regulated by the CSSF.

This product is managed by Alma Capital Investment Management, which is authorised in Luxembourg and supervised by the CSSF.

Accurate as of: 18 April 2024

What is this product?

Type

- This product is a class of share of the Sub-Fund and denominated in EUR. The Fund Alma Capital Investment Funds is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective

- The investment objective of the Sub-Fund is to provide long-term returns similar to global equities with substantially lower volatility by investing primarily in convertible securities of global corporate issuers. Convertible securities are "hybrid" securities that possess both fixed income and equity characteristics. A properly selected convertible security offers the ability to participate in a substantial portion of the underlying common stock's advances while being sheltered from a significant portion of its decline. In addition, a convertible security often provides a current yield in excess of the dividend yield on the underlying common stock. Convertible securities also tend to exhibit a much lower degree of interest rate sensitivity than traditional fixed income securities and have a different set of performance drivers.

Investment policy

- In seeking to achieve the Sub-Fund's investment objective, the Investment Manager employs a "bottom up" investment approach that seeks attractive risk/return ratios from theoretically-cheap positively asymmetric balanced convertible securities. The Investment Manager conducts analysis related to an investment's structure such as yield, delta, maturity, put characteristics, callability, value of the equity conversion option, and scenario return analysis. Credit analysis is used to determine the value of the straight debt component or "bond floor", as well as the prospects for principal repayment at put or maturity. The Investment Manager evaluates an investment's credit prospects using the company's financial statements, cash flow, leverage ratios, business prospects, and financing options. The Investment Manager also conducts equity analysis to assess the capability of an investment's underlying equity to contribute to an investment's return potential. This may include appraisal of an investment's earnings and cash flow production, relative and absolute market valuation, industry information and competitive prospects, and financing needs. In order to assess upside potential, each company is analysed from a fundamental perspective, using company financial statements, industry data, and meeting, speaking or conversing with management, where possible. Underlying equity fundamentals are examined to identify company and/or industry dynamics that could act as catalysts for favourable performance. These include, for example, accelerating earnings

momentum, changing industry dynamics, new product announcements, or corporate developments like a restructuring.

- The focus in portfolio construction is identifying structurally attractive convertibles with an emphasis on balanced profiles. Such convertibles exhibit return properties that are projected to capture a substantial portion of any rise in the underlying common stock while providing meaningful downside protection should the underlying stock decline. The Investment Manager believes in maintaining a well-diversified portfolio by issuer, sector/industry and geography consistent with the universe of global convertible securities. In addition, the compositional and structural characteristics of the global convertible market can vary significantly by region. Accordingly, the Investment Manager uses its portfolio management, trading, risk management and fundamental research abilities to pinpointing the best opportunities in optimizing the Sub-Fund's overall risk/return profile.
- A maximum of 10% of the Sub-Fund's net assets may be invested in units or shares of UCITS or other UCIs.
- In exceptional market situations, the Sub-Fund may temporarily hold up to 100% of its assets in cash.
- The Sub-Fund is actively managed with no reference to a benchmark.
- The Sub-Fund promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics in compliance with Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR").
- Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: This product is valued on each full day (other than a Saturday or a Sunday) on which banks are open for business in Luxembourg and New York ("Business Day"). Shares may be subscribed or redeemed on each Business Day no later than 12:00 p.m. CET one (1) Business Day before the relevant valuation day.

Distribution Policy: This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

Intended investor

This Sub-Fund may be suitable for investors who are looking for long-term capital appreciation of their investment and who are willing to accept fluctuations (sometimes significant) in the net asset value per share of the Sub-Fund during the short term. The Sub-Fund may not be appropriate for investors who plan to sell their shares within 5 years. Investment in the Sub-Fund should be regarded as a long-term investment. Shareholders should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that they will recover their initial investment.

The class S EUR C is dedicated to the management company.

The minimum investment is EUR 250,000.

Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. Only the board of directors of the Fund or a general meeting of shareholders may decide to terminate this product.

Practical information

Depositary: BNP Paribas, Luxembourg branch, 60, Avenue J.-F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/class of the fund, as more described in the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, from Alma Capital Investment Management or at www.fundsquare.net.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because it is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 30 November 2021 and 28 March 2024.

Moderate: this type of scenario occurred for an investment between 28 June 2014 and 28 June 2019.

Favourable: this type of scenario occurred for an investment between 31 March 2016 and 31 March 2021.

Recommended holding period		5 years	
Example Investment		€ 10,000	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	€ 3,534 -64.7%	€ 2,666 -23.2%
Unfavourable	What you might get back after costs Average return each year	€ 8,860 -11.4%	€ 10,134 0.3%
Moderate	What you might get back after costs Average return each year	€ 10,841 8.4%	€ 15,397 9.0%
Favourable	What you might get back after costs Average return each year	€ 14,178 41.8%	€ 18,114 12.6%

What happens if Alma Capital Investment Management S.A. is unable to pay out?

You are exposed to the risk that Alma Capital Investment Management S.A. might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. They are based on the following regulatory assumptions: (i) in the first year, you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 79	€ 611
Annual cost impact*	0.8%	0.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.9% before costs and 9.0% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% . In case of conversion into another class or another sub-fund, a maximum of 1% conversion fee is charged.	up to € 0
Exit costs	0.00% .	up to € 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.44% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 44
Transaction costs	0.35% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 35
Incidental costs taken under specific conditions		
Performance fees	0.00% . There is no performance fee for this product.	€ 0

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 12:00 p.m. CET one (1) Business Day before the relevant valuation day, which is each Business Day. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.almacapital.com/documentation/. You can also send your complaint at the registered office of the management company and/or directly to local distributors and/or paying agents of the relevant country of distribution or by e-mail to: compliance@almacapital.com. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
