## What is this product?

**Type:** Units of AMUNDI BAVARIAN EQUITY FUND, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

**Term:** The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

**AMF classification:** European Union equities

**Objectives:** The objective of managing the fund is to replicate as faithfully as possible the performance of the BAIX (Net Return) - Bayerischer Aktienindex strategy index (the "Strategy Index"), less ongoing charges, regardless of whether it experiences a positive or negative development.

The maximum tracking error objective, calculated based on a rolling twelve months, between the growth of the net asset value of the Fund and that of the Strategy Index is 2%.

The Strategy Index, net dividends reinvested, denominated in euro and developed, calculated and published by UniCredit Bank AG, provides exposure to shares belonging to the HDAX index, listed on the XETRA stock exchange and whose issuers have their registered office in the Free State of Bavaria. The weightings applied to shares forming part of the Strategy Index (the "Index Components") are determined by applying a quantitative model that aims to weigh the Index Components according to their floating capital while ensuring a maximum weighting of 19%.

In order to gain exposure to the Strategy Index, the fund exchanges the performance of the assets held by the Fund for that of the Strategy Index by entering into futures contracts or total return swaps (synthetic replication).

**Intended retail investors:** This product is intended for investors with a basic knowledge and no or limited experience of investing in funds, who are seeking to increase the value of their investment over the recommended holding period and who are able to bear a loss of up to the full amount invested. The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website [www.amundi.fr](http://www.amundi.fr) and/or in the prospectus).

**Redemption and transaction:** Units may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the AMUNDI BAVARIAN EQUITY FUND prospectus.

**More information:** Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The Net Asset Value of the Fund is available on [www.amundi.fr](http://www.amundi.fr).

**Depositary:** CACEIS Bank.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the AMUNDI BAVARIAN EQUITY FUND prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

### What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.
