This Fund is licensed in Germany.

BaFin is responsible for supervising Amundi Deutschland GmbH in relation to this Key Information Document.

For more information, please refer to <https://www.amundi.de/> or call +49 89 99 22 6 0.

This document was published on 18/05/2024.

What is this product?

Type: Shares of Amundi CPR Dynamisch, an undertaking for collective investment in transferable securities (UCITS), established as an investment fund.

This is a UCITS investment fund established in Germany. The Amundi CPR Dynamisch investment fund is a collective investment undertaking which collects capital from a number of investors in order to invest it in accordance with a defined investment strategy for the benefit of these investors.

Term: The term of the Fund is open-ended. The Management Company may terminate the Fund by dissolution or merger with another fund, in accordance with the legal provisions.

Objectives: The Fund (Feeder Fund) invests at least 85% of its value in shares of share class T of the (French) Master Fund, the CPR Croissance Dynamique. Up to 15% of the value of the Fund can be invested in bank balances and/or derivatives. Derivatives may be used for hedging purposes only. In addition, the Fund may invest in accordance with the "General and Special Conditions of Investment".

The aim of the Fund Management is to use the Fund to reflect the performance of the T share class of the Master Fund as much as possible. However, the performance of the Master Fund cannot be replicated in a completely consistent manner, which is due in particular to the costs incurred separately in the Fund.

The Fund does not track a securities index. However, due to its investment focus, the Fund serves as a benchmark for the investment objective of the T share class of the Master Fund, the composite index 80% MSCI World and 20% JPMorgan GBI Global (EUR hedged). The aim is to outperform this with an expected volatility of 20% or less.

The Master Fund is a diversified global portfolio that combines multiple asset classes: equities, interest rates, debt instruments (including speculative grade securities up to 50%), money market instruments, foreign exchange, alternative strategies, commodities (excluding agricultural commodities). The Master Fund is mainly invested in collective investment undertakings (CIUs). The share of investments in bond and money market instruments (including through CIUs) will range from 0% to 50% of its value.

The Master Fund and thus also the Fund are classified in accordance with Article 8 of the Disclosure Regulation, i.e. both pursue an investment policy aligned with ESG criteria, the Master Fund directly and the Fund indirectly through its investment in the Master Fund.

Intended retail investors: This product is intended for investors with a basic knowledge and with no or limited experience of investing in funds, seeking to increase the value of their investment over the recommended holding period and who are able absorb losses up to the investment amount.

Redemption and dealing: The shares in the Fund can generally be redeemed on valuation days.

Distribution policy: The Fund income is ordinarily distributed.

More information: You can obtain further information about the Fund, including the prospectus, investor information document and financial report, free of charge on request from:

Amundi Deutschland GmbH, Arnulfstr. 124-126, D-80636 Munich.

The net asset value of the Fund is available on <https://www.amundi.de/>.

Depository: CACEIS BANK S.A., Germany branch.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for six years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. The risk of potential losses from future performance is therefore classified as medium. In very unfavourable market conditions, it is possible that the ability to execute your redemption requests will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Product's performance. Further information can be found in the prospectus or the investor information document of Amundi CPR Dynamisch.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 11 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: 6 years Example investment EUR 10,000			
Scenarios		If you exit after	
		1 year	6 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	€2,380	€2,070
	Average return each year	-76.2%	-23.1%
Unfavourable scenario	What you might get back after costs	€8,130	€9,670
	Average return each year	-18.7%	-0.6%
Moderate scenario	What you might get back after costs	€10,060	€13,010
	Average return each year	0.6%	4.5%
Favourable scenario	What you might get back after costs	€12,790	€14,850
	Average return each year	27.9%	6.8%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor/and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

If there is an insufficient fund history for the scenario calculation, a suitable benchmark (proxy) is used.

Favourable scenario: The favourable scenario occurred for an investment between 29/01/2016 and 31/01/2022.

Moderate scenario: The moderate scenario occurred for an investment between 28/02/2014 and 28/02/2020.

Unfavourable scenario: The unfavourable scenario occurred for an investment between 30/12/2021 and 24/04/2024.

What happens if Amundi Deutschland GmbH is unable to pay out?

If Amundi Deutschland GmbH defaults, this will have no direct impact on its payouts, as the statutory provisions specify that in the event of Amundi Deutschland GmbH's bankruptcy, the Fund's assets will remain separate and will not be included in the bankruptcy estate.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you keep the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example investment EUR 10,000

Scenarios	If you exit after	
	1 year	6 years*
Total costs	€668	€1,944
Annual Cost Impact**	6.8%	2.8%

* Recommended holding period.

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is projected to be 7.25% before costs and 4.48% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (5.00% of amount invested/EUR 500). This person will inform you of the actual distribution fee.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.

COMPOSITION OF COSTS

	One-off costs upon entry or exit	If you cash in after one year
Entry costs	This includes distributions costs of 5.00% of the invested amount. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0.00 EUR
	Running costs deducted each year	
Management fees and other administrative or operating costs	1.77% of the value of your investment per year. This percentage is based on the actual costs of the last year.	168.15 EUR
Transaction costs	We do not charge transaction fees for this product	0.00 EUR
	Incidental costs taken under specific conditions	
Performance fees	There is no performance fee for this product.	0.00 EUR

How long should I hold it and can I take money out early?

Recommended holding period: Six years is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is intended for long-term investments. You should be willing to remain invested for at least six years. You can redeem your investment at any time, or hold the investment longer.

Order acceptance deadline: Orders to redeem shares must be received by 9.00 am (German time) on the valuation day. Further details regarding redemptions can be found in the Amundi CPR Dynamisch prospectus.

How can I complain?
