AMUNDI FUNDS PIONEER INCOME OPPORTUNITIES - G EUR PHgd QTI A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (D) LU1894681482

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

Seeks to provide income and as a secondary objective capital appreciation over the recommended holding period.

The Sub-Fund has the flexibility to invest in a broad range of income-producing securities from around the world, including in emerging markets. This may include equities, government and corporate bonds and money market securities. The Sub-Fund's bond investments may be of any quality (investment grade or below) including up to 20% in asset-backed and mortgage-related securities, and up to 20% in convertible securities. The Sub-Fund may invest up to 10% in contingent convertible bonds and may also seek exposure to real estate.

The Sub-Fund may invest without limit in debt and equity securities of non-U.S. issuers. Emerging markets may represent up to 30% of the total assets, including up to 5% in Chinese bonds denominated in any currency and dealt in China (directly on CIBM or indirectly via Bond connect) or in other markets.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange).

Benchmark : The Sub-Fund is actively managed and uses the USD Libor Index a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. The Sub-Fund has not designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment manager pursues a flexible allocation strategy which seeks to identify attractive opportunities for income and capital appreciation. In addition to constructing a portfolio of securities based on that strategy, the investment manager uses tactical asset allocation and hedging strategies in an effort to eliminate unintended risks and reduce volatility. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the investment universe.

The distribution share pays dividends quarterly.

The minimum recommended holding term is 4 Years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in international equities and debt securities, namely asset backed securities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.

- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Hedging risk : The currency hedging may be imperfect and generate a difference between the performance of the Sub-Fund and the share-class you are invested in.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the year ending June 30, 2021. This figure may vary from year to year. It excludes:

- Performance fees,
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The calculation of the performance fee applies on each Net Asset Value calculation date in accordance with the terms and conditions described in the prospectus.

The comparison of the Net Asset Value of the share class and the Reference Asset (as defined in the prospectus) is carried out over an observation period of maximum five years. The performance fee represents 15% the adjacent percentage of the difference between the net assets of the share Class (before deduction of the performance fee) and the Reference Asset if the difference is positive, and if the relative performance of the share class compared to the Reference Asset is positive or nil, since the beginning of the performance observation period. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.

The anniversary date corresponds to the day of calculation of the last Net Asset Value of the month of June. Performance fee accruals will be paid to the Management Company on an anniversary date and a new observation period starts.

The performance fee is not paid to the Management Company if the performance of the share class over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: www.amundi.com.
