What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Fund is an index-tracking UCITS passively managed.

The Fund seeks to track both the upward and the downward evolution of the LevDAX® (the "Benchmark Index") while minimising the volatility of the difference between the return of the Sub-Fund and the return of the Index (the Tracking Error).

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

Additional information about the Benchmark Index can be found at <http://www.dax-indices.com>

The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "FDI").

The Fund may also invest in a diversified portfolio of international equities, whose performance will be exchanged against the performance of the Benchmark Index via the FDI.

Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

The Fund is eligible to the French Equity Saving Scheme (PEA), and as consequence, a minimum of 75% of the Fund assets are invested in diversified equities issued in the European Union.
