What is this product?

Type: Shares of Amundi Multi Manager Best Select, an undertaking for collective investment in transferable securities (UCITS), established as an investment fund.

This is a UCITS investment fund established in Germany. The Amundi Multi Manager Best Select investment fund is a collective investment undertaking which collects capital from a number of investors in order to invest it in accordance with a defined investment strategy for the benefit of these investors.

Term: The term of the Fund is open-ended. The Management Company may terminate the Fund by dissolution or merger with another fund, in accordance with the legal provisions.

Objectives: The aim of the Fund Management is to achieve an attractive increase in value with a growth-oriented or limited risk-taking investment policy. At least 51% of the value of the UCITS Fund is invested in eligible funds (target funds). All permitted types of shares in other domestic funds and investment stock companies with variable capital, as well as shares in foreign open funds that are not EU UCITS, may be acquired. The Fund is classified in accordance with Article 6 of the Disclosure Regulation. In compliance with the legal investment limits, up to 100% of the value of the Fund may be invested in target funds which may invest in particular in the following asset classes or in combinations thereof, according to their respective investment conditions: equities, bonds, money market instruments, bank balances, derivatives, commodities. These asset classes may only be represented in the target fund by the respective legally permissible investment instruments in accordance with the UCITS Directive.

The selection of target funds shall also take into account those specialised in investing in a particular economic or geographical area. In addition, when selecting a target fund, the respective fund management is a decisive criterion in addition to the investment policy. The Fund may use derivative transactions for hedging, speculative purposes and for efficient portfolio management. In addition, the Fund may invest in accordance with the "General and Special Conditions of Investment".

The Fund does not track a securities index, nor does the company base itself on a fixed benchmark for the Fund. At its own discretion, the Fund Management actively decides on the selection of assets, taking into account analyses and valuations of issuers of securities as well as economic and political developments. It aims to achieve positive performance.

Intended retail investors: This product is intended for investors with a basic knowledge and with no or limited experience of investing in funds, seeking to increase the value of their investment over the recommended holding period and who are able absorb losses up to the investment amount.

Redemption and dealing: The shares in the Fund can generally be redeemed on valuation days.

Distribution policy: The Fund income remains in the Fund and increases the value of the shares.

More information: You can obtain further information about the Fund, including the prospectus, investor information document and financial report, free of charge on request from:

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for four years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. The risk of potential losses from future performance is therefore classified as low. In very unfavourable market conditions, it is extremely unlikely that the ability to execute your redemption requests will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Product's performance. Further information can be found in the prospectus or the investor information document of Amundi Multi Manager Best Select.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you keep the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example investment EUR 10,000

Scenarios	If you exit after	
	1 year	4 years*
Total costs	€758	€1,281
Annual Cost Impact**	7.7%	3.3%

* Recommended holding period.

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is projected to be 3.00% before costs and -0.25% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (6.00% of amount invested/EUR 600). This person will inform you of the actual distribution fee.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.
