This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Ashmore SICAV Emerging Markets Debt Fund: Z GBP (Inc)

A sub-fund of Ashmore SICAV

ISIN: LU0861576162

Management Company: Ashmore Investment Management (Ireland) Limited

Objectives and Investment Policy

The Fund's objective is to seek capital appreciation by investing in a range of diversified transferable securities and/or other liquid financial assets. The Fund is actively managed by Ashmore Investment Management Limited and references JP Morgan Emerging Market Bond Index Global Diversified (the "Benchmark") as part of its investment process for the purpose of comparing its performance against that of the Benchmark. The Investment Manager has full discretion over the composition of the portfolio of the Fund.

The Fund aims to be mainly invested in bonds and similar instruments issued by Emerging Market sovereigns, sovereign guaranteed and corporate entities, denominated in US dollars, Euros, Swiss Francs and other major currencies as well as Emerging Market local currencies. The Fund may also be invested in financial instruments whose value derives from the value and characteristics of one or more underlying assets (derivatives) and engage in certain techniques for hedging purposes and efficient management of assets.

The Fund may not grant loans or guarantees in favour of a third party. The Fund primarily uses an active, macro top-down approach to investment management.

The reference currency of the Fund is USD.

Transaction costs may have a material impact on performance, depending on factors such as market liquidity.

Any income gains on your shares will be distributed on a monthly basis, unless you request otherwise in writing.

You can buy or sell shares in this Fund on any bank business day in both Luxembourg and London (excluding Saturdays and Sundays), or such other days as the board of directors shall determine from time to time by submitting an application form to the Administrator before the dealing deadline.

For full investment objectives and policy details, please refer to section 2 of the Fund's prospectus available at www.ashmoregroup.com.

Risk and Reward Profile

Lower risk ← → Higher risk
Potentially lower reward ← → Potentially higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The above risk and reward indicator is calculated using the guidelines set out by the CESR (Committee of European Securities Regulators). Other risks which are not part of the calculation include the following:

Credit risk: The issuer of a financial asset held within the Fund or a counterparty may not pay income or capital to the Fund when due.

Liquidity risk: If there are insufficient buyers or sellers of the underlying instruments, it could affect the ability to value and trade the assets.

Counterparty risk: The risk that parties with whom the Fund contracts for the purpose of making investments (the "counterparty") and, where relevant, the entity in the Emerging Market with whom the counterparty has made arrangements to ensure an on-shore presence in the Emerging Market may not meet their contractual obligations.

Operational risk: The risk of loss resulting from inadequate or failed procedures, systems or policies.

Custody risk: The transaction and custody risk of dealing in Emerging Market investments due to the less developed nature of some emerging markets.

Interest rate risk: Changes in interest rates can result in positive or negative fluctuations in the value of the assets held by the Fund.

Currency risk: The Fund invests in different currencies. Changes in exchange rates will affect the value of the Fund.

Derivatives: The Fund may also invest in derivatives whose value derives from the value and characteristics of one or more underlying asset. These derivatives may be used for hedging (against currency risk, for example) or as investments. Their use may increase the risk of losses as well as enhance potential gains compared to funds that do not use derivatives.

Emerging Markets carry risks as well as rewards. The Fund invests in Emerging Markets, which may be more volatile than more mature markets and the operational risks of investing are higher than in developed markets. The value of your investment could go down as well as up. In extreme circumstances this could result in a total loss of your investment.

Because of the risks involved, investment in the Fund is only suitable for investors who have experience of volatile products, understand the risks involved and are able to bear the loss of a substantial portion or even all of the money they invest in the Fund. As a result of these risks investors are strongly advised to seek independent professional advice on the implications of investing in the Fund.

Further information on risks may be found under the "Risk Factors" section of the Fund's prospectus.
