The Autorité des Marchés Financiers (AMF) is responsible for supervising AXA INVESTMENT MANAGERS PARIS S.A. in relation to this Key Information Document.

This Product is authorised in Luxembourg and in accordance with the UCITS Directive.

Date of Production of the KID: 26/03/2024

What is this product?

Type

The Product is a share class of the Sub-Fund "AXA World Funds - Defensive Optimal Income" (the Sub-Fund) which is part of the SICAV "AXA World Funds" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

Objectives

Investment Objective

The Sub-Fund seeks to achieve medium term capital growth by investing in a diversified portfolio of broad asset classes, through a defensive approach.

Investment Policy

The Sub-Fund is actively managed without reference to any benchmark.

The Sub-Fund aims at not exceeding a 5% annual volatility and is actively and discretionarily managed in order to capture opportunities across a wide array of asset classes, with an investment strategy that uses:

- Tactical asset allocation (based on medium term macroeconomic views and the identification of short term market opportunities)
- Portfolio construction in order to manage risks in accordance with market environment and fund objective

The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in/exposing the Sub-Fund to a set of equities (up to 35% of the net assets of the Sub-Fund) and/or investing in or being exposed up to 100% of its net assets in one or more of the following asset classes: transferable debt securities issued by any governments, investment grade corporate securities and/or money market instruments. The Investment manager may invest up to 40% of its assets in securities from emerging markets.

Within the above 35% limit, the Sub-Fund may invest up to 20% of its assets in small capitalization companies.

The Sub-Fund may also invest in or be exposed to callable bonds up to 50% of its net assets.

The Sub-Fund invests/ is exposed to no more than 20% of its net assets in transferable debt securities rated sub investment grade and up to 15% in securities traded on the CIBM through Bond Connect.

The Sub-Fund may, up to 10%, hold distressed and defaulted securities as a result of their rating downgrade, if they are considered to be consistent with the Sub-Fund's objective. These securities are expected to be sold within 6 months unless specific events prevent the Investment Manager from sourcing their liquidity.

Investment and sub-investment grade ratings are based on the average linear ratings of Standard & Poor's, Moody's and Fitch ratings (i.e. agencies ratings are converted into numerical values which, after being averaged, provide a value that is converted back into the nearest usual rating) or, if unrated, deemed equivalent by the Investment Manager.

The Sub-Fund may, up to 15% of its net assets, invest in or be exposed to commodities through eligible assets (e.g. commodity indices).

The selection of credit instruments is not exclusively and mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell assets is also based on other analysis criteria

of the Investment Manager.

If in the opinion of the Investment Manager, there is a risk of a significant adverse market move the Sub-Fund may have all its assets in cash, cash equivalent and/or Money Market Instruments.

The Investment Manager monitors the market risk below a VaR limit of 7% of the Sub-Fund's NAV, under normal market conditions. The VaR used by the investment manager will have a 5 Business Days horizon and 95% confidence level parameters. This means that there is a probability of 5% that the Sub-Fund's NAV may lose more than 7% of its value within a 5 Business Days horizon. Such VaR corresponds to a 1% probability, under normal market conditions, that the Sub-Fund's NAV may lose more than 20% of its value within a 20 Business Days.

The Investment Manager expects that the level of leverage of the Sub-Fund based on the sum of the notional approach will be between 0 and 3. However, the attention of any investor in the Sub-Fund is drawn to the fact that the effective level of leverage of the Sub-Fund may be higher than the expected level of leverage set forth above from time to time due to market conditions. The investment strategy may be achieved by direct investments and/or through derivatives including by entering into Credit Default Swaps and Total Return Swaps. Derivatives may also be used for hedging purposes.

The Sub-Fund will be managed with an interest rate sensitivity ranging from -2 to 8. The sensitivity is an indicator measuring the impact of a variation of 1% of the market interest rate on the value of the Sub-Fund.

The Sub-Fund may invest up to 5% of net assets in contingent convertible bonds (CoCos).

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Distribution share classes (Dis), the dividend is distributed.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 3 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to the following Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Intended retail Investor

The sub-fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the sub-fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of and income from capital. Potential investors should have an investment horizon of at least 3 years.

Depository

State Street Bank International GmbH (Luxembourg Branch)

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

We have classified this product as 2 out of 7 which is the a low risk class. This rates the potential losses from future performance at a low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the Summary risk indicator can be materially relevant, such as derivatives risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor . The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		€10 000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment		
Stress	What you might get back after costs	€7 050	€7 320
	Average return each year	-29.50%	-9.88%
Unfavourable	What you might get back after costs	€8 620	€8 600
	Average return each year	-13.80%	-4.90%
Moderate	What you might get back after costs	€9 450	€9 590
	Average return each year	-5.50%	-1.39%
Favourable	What you might get back after costs	€10 460	€10 710
	Average return each year	4.60%	2.31%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between 10 2020 and 10 2023.

Moderate Scenario : This type of scenario occurred for an investment between 06 2018 and 06 2021.

Favourable Scenario : This type of scenario occurred for an investment between 09 2015 and 09 2018.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if AXA INVESTMENT MANAGERS PARIS S.A. is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Paris S.A. In case of default of AXA Investment Managers Paris S.A., the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	€681	€953
Annual cost impact (*)	6.9%	3.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.88 % before costs and -1.39 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.50 % of the amount that you pay when you enter the investment. This includes distribution costs of 5.50 % of the amount invested. This is the maximum amount you will pay. The person who sold you the product will inform you of the actual costs.	Up to €550
Exit costs	We do not charge an exit fee for this Product.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.30% of the value of your investment per year. This percentage is based on actual costs over the last year.	€123
Transaction costs	0.09 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€8
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this Product.	€0

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This Product has no minimum required holding period, the 3 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Please refer to the "What is this product" section for the redemption procedure.

How can I complain?

Complaints shall be addressed to the Complaint Handling Officer with the complainant' details (name, role, contact details, involved account numbers and any other relevant document) to the following address AXA World Funds 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg or to compliancelux2@axa-im.com.
