AXA World Funds - Framlington Europe Real Estate Securities

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Framlington Europe Real Estate Securities A Capitalisation EUR (ISIN : LU0216734045)

This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund seeks to achieve long term capital growth measured in Euros by investing mainly in listed equity issued by companies engaged in the real estate sector, domiciled or exercising the main part of their activities in Europe.

Investment Policy

The Sub-Fund is actively managed in order to capture opportunities in the Regulated European real estate markets, by mainly investing in equities of companies that are part of the FTSE EPRA/NAREIT Developed Europe Capped 10% Total Return benchmark index ("the Benchmark") universe. As part of the investment process, the Investment Manager has broad discretion over the composition of the Sub-Fund's portfolio and can take, based on its investment convictions, large overweight or underweight positions on the countries or companies compared to the Benchmark's composition and/or take exposure to companies, countries or sectors not included in the Benchmark, even though the Benchmark constituents are generally representative of the Sub-Fund's portfolio. Thus, the deviation from the Benchmark is likely to be significant.

Investment decisions are based on a combination of macroeconomic and industry analysis and share selection. The share selection process relies mainly on a rigorous analysis of the companies' business model, the quality of the management, growth prospects, the nature of the underlying assets and the overall risk return.

The Sub-Fund invests permanently at least two thirds in transferable securities issued by companies engaged in the real estate industry, domiciled or which exercise the predominant part of their economical activities in Europe.

The Sub-Fund may invest in equity securities of any market capitalisation (including small and micro-sized companies).

Within the limit of 200% of the Sub-Fund net assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may also be used for hedging purposes.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.
