The Autorité des Marchés Financiers (AMF) is responsible for supervising AXA INVESTMENT MANAGERS PARIS S.A. in relation to this Key Information Document.

This Product is authorised in Luxembourg and in accordance with the UCITS Directive.

Date of Production of the KID: 24/04/2023

You are about to purchase a Product that is not simple and may be difficult to understand

What is this product?

Type

The Product is a share class of the Sub-Fund "AXA World Funds - Euro Inflation Plus" (the Sub-Fund) which is part of the SICAV "AXA World Funds" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

Objectives

Investment Objective

To seek to outperform, in EUR, on a yearly basis the Harmonised Indices of Consumer Prices Excluding Tobacco (Benchmark), net of ongoing charges. This annualized target outperformance is an objective and is not guaranteed.

Investment Policy

The Sub-Fund is actively managed and references the Benchmark by seeking to outperform it. As the Benchmark is a rate used by European Central Bank for assessing price stability for monetary policy purposes and the Sub-Fund's investment allocation or holdings' composition is not constituted in relation to it, the deviation from the Benchmark is likely to be significant. The methodology for Euro area inflation calculation can be found on the European Commission website. The Benchmark is produced and published using a methodology like the one existing for inflation linked bonds following the standard model such as French, German, Italian and US sovereign inflation linked securities. Inflation-linked bonds notably apply appropriate lags for determining their coupon and redemption based on a daily linear interpolated inflation rate as price indices are not immediately available at the end of each month.

The Investment Manager actively manages inflation breakevens by using inflation swaps (long or short position depending on its anticipation of the inflation perspectives), inflation-linked bonds and/ or futures. The Sub-Fund may invest up to 100% of net assets in debt securities and up to 100% in inflation-linked bonds, both issued by governments, public institutions and companies in OECD countries only (including emerging). The Sub-Fund does not invest more than 20% in corporate bonds. Exposure of the assets denominated in non-EUR currency will be hedged against EUR.

The Sub-Fund invests only in Investment Grade debt securities. Ratings are based on the lower of 2 ratings or the 2nd highest of 3 ratings depending on how many are available. If securities are unrated, they must be judged equivalent by the investment manager. In case of a credit downgrade, securities will be sold within 6 months. The selection of debt securities is not exclusively and

mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell securities is also based on other analysis criteria of the investment manager.

The Sub-Fund is managed with an inflation duration ranging from -10 to 10 years and an interest rates duration from 0 to 3 years.

The Sub-Fund may invest in or be exposed to callable bonds up to 20% of its net asset.

The Sub-Fund may invest in 144A securities in a substantial way depending on the opportunity and up to 1/3 in money market instruments.

Derivatives, including credit default swaps, may be used for efficient portfolio management, hedging and investment purposes.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Minimum initial investment: 10,000,000 euros or the equivalent in the relevant currency of the relevant Share class.

Intended retail investor

The fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Depository

State Street Bank International GmbH (Luxembourg Branch)

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

We have classified this product as 2 out of 7 which is the a low risk class. This rates the potential losses from future performance at a low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the Summary risk indicator can be materially relevant, such as counterparty risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Recommended holding period: | | 5 years | |
|-----------------------------|--|--------------------------|---------------------------|
| Example Investment: | | €10 000 | |
| | | If you exit after 1 year | If you exit after 5 years |
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment | | |
| Stress | What you might get back after costs | €8 110 | €7 770 |
| | Average return each year | -18.90% | -4.92% |
| Unfavourable | What you might get back after costs | €9 260 | €8 510 |
| | Average return each year | -7.40% | -3.18% |
| Moderate | What you might get back after costs | €9 860 | €9 210 |
| | Average return each year | -1.40% | -1.63% |
| Favourable | What you might get back after costs | €11 090 | €10 660 |
| | Average return each year | 10.90% | 1.29% |

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario : This type of scenario occurred for an investment between 03 2015 and 03 2020.

Moderate Scenario : This type of scenario occurred for an investment between 11 2015 and 11 2020.

Favourable Scenario : This type of scenario occurred for an investment between 03 2017 and 03 2022.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if AXA INVESTMENT MANAGERS PARIS S.A. is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Paris S.A. In case of default of AXA Investment Managers Paris S.A., the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested

| | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs | €34 | €155 |
| Annual cost impact (*) | 0.3% | 0.3% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -1.3 % before costs and -1.6 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | We do not charge an entry fee. | €0 |
| Exit costs | We do not charge an exit fee for this Product. | €0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.2% of the value of your investment per year. This percentage is based on actual costs over the last year. | €16 |
| Transaction costs | 0.2 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | €18 |
| Incidental costs taken under specific conditions | | |
| Performance fees (and carried interest) | There is no performance fee for this Product. | €0 |

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product has no minimum required holding period, the 5 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Please refer to the "What is this product" section for the redemption procedure.

How can I complain?

Complaints shall be addressed to the Complaint Handling Officer with the complainant' details (name, role, contact details, involved account numbers and any other relevant document) to the following address AXA World Funds 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg or to compliancelux2@axa-im.com.
