

# Key Investor Information

This document provides key information for investors in this Sub-fund. It is not marketing material. The information it contains is required by law to help you understand the features of the Sub-fund along with the risks and other related information, should you decide to invest. You are advised to read it so that you can make an informed decision about whether to invest.

## AZ Bond - High Income FoF (the “Sub-fund”) is a sub-fund of AZ Fund 1 (the “Fund”)

A-AZ FUND EUR-Hedged (ACC) class - ISIN LU0677516717

A-AZ FUND EUR-Hedged (DIS) class - ISIN LU0677517103

The Fund is managed by Azimut Investments S.A. (the **Management Company**).

## OBJECTIVES AND INVESTMENT POLICY

### Objectives

The Sub-fund’s investment objective is medium- and long-term capital growth.

### Investment policy

The Sub-fund seeks to achieve its investment objective by actively managing a diversified portfolio of units of UCITS and/or other UCIs that invest in debt securities, with a preference for funds with a concentration on high-yield debt securities, such as debt securities of companies rated as investment-grade or sub-investment grade, emerging-country debt and funds with an active management strategy that focuses on the above securities.

Although the Sub-fund will normally be primarily, if not completely, invested in units of UCITS and/or other UCIs that invest in debt securities and money market instruments rated as sub-investment grade and/or issued by issuers in emerging countries, the Management Company has the option of reducing this component to 30% of the Sub-fund’s net assets during periods when, in the opinion of the Management Company, these securities offer insufficient opportunities to invest at attractive rates of return, as the spreads are too narrow and/or in the event of adverse macroeconomic developments.

The Sub-fund may also invest up to 50% of its net assets in units of UCITS and/or other UCIs with investment strategies that are not restricted to debt securities. For example, on a non-exhaustive basis, “high income”, “income”, “unconstrained”, “fixed income macro bond”, “credit opportunities”, “enhanced yield” bond funds.

The Sub-fund may also indirectly invest up to 20% of its net assets, by investing in units of UCITS and/or other UCIs whose objective is to invest in CoCo bonds.

The Sub-fund uses the main financial derivatives for investment purposes and/or to hedge against risks. Leverage calculated based on the sum of notionals method: maximum 250%. The EUR class is hedged against the US dollar.

The Sub-fund is actively managed and is not managed in relation to a benchmark index. For the purpose of calculating the performance fee, the following benchmark is used: 50% Bloomberg Global Aggregate - Corporate TR EUR-Hedged Index + 50% Bloomberg Global High Yield EUR-Hedged Index + USD/EUR 3M Hedging Costs (FXHCUSEU).

### Specific information on units

You may request the sale of your units on a daily basis, except in certain circumstances (see the prospectus).

The Sub-fund will distribute potential dividends to unitholders of the A-AZ FUND EUR-Hedged (DIS) class and reinvest potential dividends for unitholders of the A-AZ FUND EUR-Hedged (ACC) class.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within five years.

### Definitions

**Actively managed Sub-fund:** a Sub-fund for which the manager has the flexibility to select the securities that make up the portfolio, in line with the objectives and investment policy laid out.

## RISK AND REWARD PROFILE

### Definition of the risk and reward indicator

The aim of the risk indicator is to provide you with an evaluation of changes in unit prices. Risk category 4 means that the unit price fluctuates averagely. As a result, the risk of loss and the expected return may also be average. However, even the lowest category does not mean that the investment is “risk free”.

Historical data may not provide reliable information about the future. The displayed risk indicator is not guaranteed and is likely to change over time. There is no capital guarantee and the value of the Sub-fund is not protected.

### Reason why the Sub-fund is classified in this risk category

This Sub-fund’s risk level primarily reflects the investment positions in bonds according to the volatility of the market within the scope of the predefined margin.

### Particular risks for the Sub-fund not included in the indicator:

**Emerging market risk:** risk associated with investing in emerging markets. Due to their political instability, the volatility of the exchange rate of their currencies and the limited number of investment opportunities, the risk of these markets is greater than in countries considered as developed.

**Credit risk:** issuers of debt securities, even those with a very high rating, may not be able to make payments to investors, or the fear associated with this risk may result in a decrease in the value of their debt securities.

**Currency risk:** the Fund invests in other currencies. Fluctuations in exchange rates will therefore have an impact on the value of the investment.

**Management risk:** portfolio management techniques that have generated good results under normal market conditions may prove ineffective or detrimental under abnormal conditions.

Other investment risks are specified in the risks section of the prospectus.

## CHARGES

The charges you pay are used to cover the costs of running the Sub-fund, including marketing and distribution costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
<b>Entry charge</b>	3.00% of the amount invested for subscriptions made through multi-year investment plans. 2.00% of the amount invested for subscriptions made in single solution.
<b>Exit charge</b>	None
The percentage indicated is the maximum that may be taken out of your capital before it is invested and/or before the proceeds of your investment are paid out. Please contact your financial advisor or distributor for the actual charges.	
Charges deducted from the Sub-fund over a year:	
<b>Ongoing charges</b>	3.59%
Charges deducted from the Sub-fund under specific conditions:	
<b>Performance fee</b>	The management fee is increased or reduced on a straight-line basis by a variable management fee, up to a maximum of 20% of the amount of the management fee, based on the difference between the performance of the class and the performance of the 50% Bloomberg Global Aggregate - Corporate TR EUR-Hedged Index + 50% Bloomberg Global High Yield EUR-Hedged Index + USD/EUR 3M Hedging Costs (FXHCUSEU) benchmark index over the same performance period (so-called "fulcrum" variable management fee). The actual amount of fees charged to the Sub-fund during the last financial year was 0.01%. This amount was calculated using a calculation method that is no longer in force. Since 01/04/2022, a "fulcrum fee model" has been applied. <b>In some cases, a performance fee may be levied even when the performance of the Sub-fund is negative.</b>

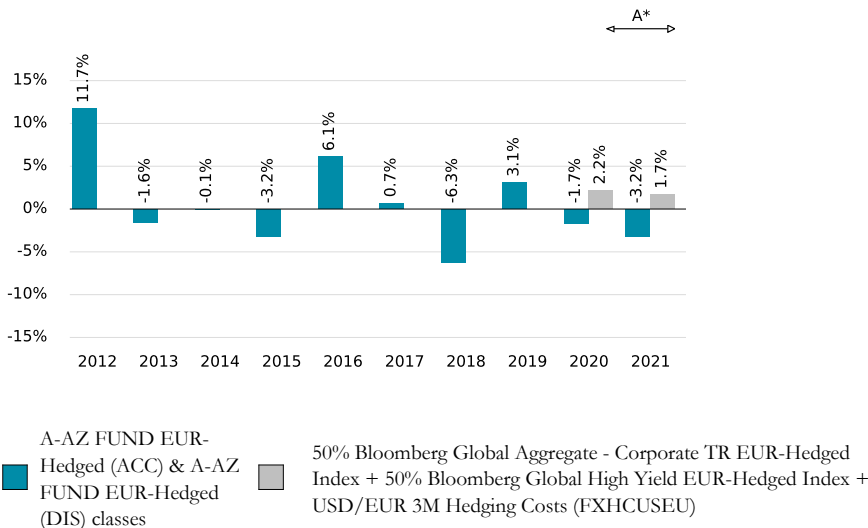

The amount of ongoing charges indicated is an estimate because there has been a change in the charges. This amount may change from year to year.

Ongoing charges do not take into account the following:

- performance fees and
- costs of portfolio transactions, unless the Sub-fund pays entry or exit charges when it buys or sells units in another undertaking for collective investment.

To find out more about the charges, please refer to the prospectus available at [www.azimutinvestments.com](http://www.azimutinvestments.com).

## PAST PERFORMANCE

- The graph shown is not a reliable indication of future performance.
- The annual performance is calculated after deducting the fees charged to the Sub-fund.
- The Sub-fund was created in 2011.
- The A-AZ FUND EUR-Hedged (ACC) class was launched in 2011.
- The A-AZ FUND EUR-Hedged (DIS) class was launched in 2011.
- Past performance is calculated in EUR.
- The performance of the Sub-fund is not linked to that of the benchmark index. The latter is intended to be used to calculate the performance fee (fulcrum).

A\*: The investment policy of the Sub-fund changed on 13 November 2020. The performances before this date were achieved under circumstances that are no longer applicable.

B\*: Since 01/04/2022, a "fulcrum fee model" has been applied. Benchmark index up to 01/04/2022: 3M Euribor (EUR003M) + 1.5% + USD/EUR 3M Hedging Costs (FXHCUSEU).

## PRACTICAL INFORMATION

- **Management Company:** Azimut Investments S.A.
- **Depositary:** BNP Paribas Securities Services, succursale de Luxembourg.
- **Documentation:** additional information on the Sub-fund, including the prospectus, the latest financial statements and unit prices, is available free of charge at [www.azimutinvestments.com](http://www.azimutinvestments.com) or from the Management Company's registered office: Azimut Investments S.A., 2A Rue Eugène Ruppert, L-2453 Luxembourg, Luxembourg.
- **Remuneration policy:** details of the remuneration policy are available on the Management Company's website at [www.azimutinvestments.com](http://www.azimutinvestments.com). This policy includes, in particular, a description (i) of the calculation of remuneration and allowances paid to staff and (ii) details of the persons responsible for their allocation. A paper version of the remuneration policy statement is available free of charge upon request.
- **Taxation:** your tax system could have an impact on your investment, depending on your citizenship, place of residence or nationality. For further information, please consult your financial advisor before investing.
- **Responsibility:** the Management Company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
- **Separation of Sub-funds:** the Fund offers several Sub-funds whose assets and liabilities are legally separate. The prospectus and financial statements are established for the entire Fund.
- **Exchanging units:** any unitholder may request that all or part of their units in a Sub-fund are converted into units of the same class in another Sub-fund, unless the factsheet of the Sub-fund in the fund's prospectus expressly excludes this option.
