

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## ABS OPPORTUNITIES, a subfund of the SICAV BNP PARIBAS FLEXI I

Class "Classic Capitalisation" - ISIN code LU1815417503

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

## Objectives and investment policy

The Fund seeks to increase the value of its assets over the medium term by investing primarily into European Structured Debt Securities such as Residential Mortgage Backed Securities (RMBS), Asset-Backed Securities (ABS) and Collateralised Loan Obligations (CLO). The Fund may also invest into any other type of international fixed income securities, money market instruments and derivatives. With respect to rated assets, the Fund shall invest at least 30% of its net assets in instruments with a credit rating of Baa3, BBB Low or BBB- or higher by at least one of the four major Rating Agencies (Moody's, Fitch, Standard & Poor's or DBRS), or whose credit quality is deemed equivalent by the manager on their respective purchase date. To this regard, the Fund may be exposed to non-investment grade and non-rated securities, such as junior and equity tranches of Structured Debt Securities. The Fund may use derivatives for hedging purpose or to achieve its investment objective. The Fund will invest in securities denominated in a currency of member countries of the OECD. After hedging, the Fund may have currency risk (other than EUR) of maximum 5% and investments in other funds will be limited to 10%. The Fund's overall credit spread sensitivity is between 0 and 30 years and its interest rate sensitivity range is between -1 and 10 years. The Fund is actively managed without reference to an index.

The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the investment process of the Fund. An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager. Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making. Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

## Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?  
The risk category is justified by the investment mainly in Interest Rate instruments. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments and more generally fixed income instruments.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Credit Risk:** This risk relates to the ability of an issuer to honour its commitments: downgrades of an issue or issuer rating may lead to a drop in the value of associated bonds.
- **Liquidity Risk:** This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.
- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

## Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charges	None
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	1.01% (*)
Charges taken from the fund under specific conditions	
Performance fee	15% a year of achieved outperformance above the benchmark (3 Months EURIBOR + 350 bps). Performance fees can be charged in case of negative absolute performance.

The **entry charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

(\*) The **ongoing charges** figure is based on past expenses determined as of 31 October 2021.

This figure may vary from year to year. It excludes:

- Performance fees.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. In case of conversion, the investors may be charged a maximum fee of 1.5%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

## Past performance

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence in 2019.
- Past performance has been calculated in EUR.
- Performance returns are based on the net asset value with distributable income reinvested.
