STRATEGY

IDENTIFICATION

CLASSIFICATION: Eurozone equities

The Fund's minimum exposure to equity markets is 90% of its net assets.

MANAGEMENT OBJECTIVE:

The Fund's management objective is to outperform or to match the performance of the "EMIX Smaller Euroland EUR net dividends reinvested" index over a minimum investment horizon of five years while integrating criteria of good governance and sustainable development.

BENCHMARK INDEX:

The benchmark index is the EMIX Smaller Euroland EUR with net dividends reinvested. It is representative of "small-cap" companies within the countries of the eurozone. It is denominated in euro and calculated on the basis of the closing prices of the stocks it comprises, with net dividends reinvested.

INVESTMENT STRATEGY:

1. STRATEGY USED TO ACHIEVE THE MANAGEMENT OBJECTIVE:

BNP PARIBAS ASSET MANAGEMENT France considers that there are many investment opportunities in small and medium-sized capitalisations with favourable short- and medium-term profit prospects, and which are not reflected in stock prices. Indeed, the slightest coverage by the external research of this market segment, the underestimation of growth rates by the market of certain values lead to significant valuation differences.

The individual selection of values, based on a systematic and disciplined approach, combining fundamental research and quantitative analysis, is best able to exploit these inefficiencies and identify future leaders.

The Fund follows a socially responsible investment (SRI) strategy. It carries the SRI label. The non-financial analysis is taken into account at every stage of the investment process. It involves incorporating an SRI approach that is applied to all selected companies.

The management team takes into account qualitative criteria by examining, in particular, corporate governance and the environment.

In order to be included in the portfolio, the selected companies must meet the following environmental, social and governance (ESG) standards:

- Compliance with sectoral policies on controversial activities (application of the BNP PARIBAS ASSET MANAGEMENT Responsible Investment Policy available online);
- Exclusion of companies that contravene any of the Ten Principles of the UN Global Compact (human rights, labour rights, the environment and anti-corruption) and/or the OECD Guidelines for Multinational Enterprises.

The Fund follows a significant engagement approach in regard to integrating ESG criteria into management.

The Fund invests at least 90% of its net assets in securities that have been evaluated from an ESG perspective by the Management Company's team of expert analysts. The above-mentioned percentage is calculated excluding the cash held by the Fund.

Following this analysis, the Fund applies the rating improvement approach, whereby the average ESG rating of the portfolio is higher than that of the EMIX Smaller Euroland EUR index, after eliminating at least 20% of the lowest rated securities from this index. The management team may select securities outside its benchmark index. However, it ensures that the benchmark index is a relevant comparison for the Fund's ESG rating.

In regard to the analysis of the companies' ESG practices, securities are selected by a team of specialised ESG analysts, as defined internally, on the basis of the following criteria (non-exhaustive list):

- Environmental: global warming and combating greenhouse gas emissions, energy efficiency, preserving natural resources, CO₂ emission levels and energy intensity;
- Social: management of employment and restructuring, workplace accidents, training policy, remuneration, staff turnover rate and the PISA (Programme for International Student Assessment) result:
- Corporate governance: independence of the Board of Directors with respect to general management, rights of minority shareholders, separation of management and supervisory functions, anti-corruption policy and respect for the freedom of the press.

Lastly, the ESG analysis is backed up by an active and strategic policy of engaging in responsible practices with companies (individual and collective engagement with companies, voting policy at general meetings).

The main methodological limitations are outlined in the "Risk Profile" section of the Fund prospectus. It should be noted that the proprietary methodologies used to take into account non-financial criteria may be revised in the event of regulatory changes or updates that may lead, in compliance with applicable regulations, to an increase or decrease in product classifications, the indicators used or the minimum investment commitment levels set.

Some companies appearing in the portfolio may have ESG practices that can be improved and/or may be exposed to certain sectors in which environmental, social or governance issues remain significant.

Information relating to the SFDR and the EU Taxonomy Regulation:

The Fund promotes environmental and/or social and governance characteristics in accordance with Article 8 of the European Regulation of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR). It partially invests in sustainable investments and holds a minimum proportion of its assets in sustainable investments within the meaning of this regulation.

As part of its non-financial approach, the Management Company incorporates the risks associated with sustainable investment in its investment decisions. The extent and manner in which sustainable investment issues and risks are incorporated into its strategy will vary according to a number of factors such as asset class, geographical area and the financial instruments used.

Pre-contractual information on the environmental or social characteristics promoted by the Fund is available in the appendix to the Prospectus in accordance with the Delegated Regulation (EU) of 6 April 2022 supplementing the SFDR.

2. MAIN ASSET CLASSES USED (EXCLUDING EMBEDDED DERIVATIVES):

The Fund's portfolio is made up of the following asset classes and financial instruments:

Equities

The Fund invests in small-cap (minimum 70% of net assets) and mid-cap (maximum 30% of net assets) securities from companies in all sectors, listed on the markets of one or more eurozone countries, including warrants and bonds convertible into shares.

The market capitalisation of small-cap securities is less than the highest capitalisation of the EMIX Smaller Euroland EUR or MSCI Europe Small Cap indices. Information on these indices is available online at www.euromoneyindices.com and www.msci.com

The market capitalisation of mid-cap securities is between the maximum capitalisation of a small-cap security as defined above and 130% of the highest capitalisation of the MSCI EMU Mid Cap index. Information on this index is available at www.msci.com

The Fund is eligible for the PEA (Plan d'Epargne en Actions – French equity savings plan) and must therefore ensure that at least 75% of its assets are comprised of securities eligible for the PEA.

The Fund's minimum exposure to equity markets is 90% of its net assets.

Money market instruments

For cash management purposes, the Fund may invest up to a maximum of 10% of its net assets in low-sensitivity money market instruments denominated in euro (negotiable debt securities and/or through money market UCITS).

Units or shares of UCIs

The Fund may invest up to 10% of its net assets in units or shares of French or European UCITS and AIFs of any classification.

Within this limit, it may also invest in units or shares of French or foreign-law UCITS and AIFs, or foreign-law investment funds that meet the four conditions stipulated in Article R. 214-13 of the French Monetary and Financial Code.

3. DERIVATIVES:

The Fund may trade on French and/or foreign regulated or over-the-counter futures markets that are authorised by the Order of 6 September 1989 and its later amendments (for financial instrument contracts only).

The Fund may invest in the following products on these markets:

- forward contracts, stock indices, stock futures contracts (for hedging purposes and/or exposure),
- forward foreign exchange contracts (hedging),
- options on stock indices,
- interest rate options (for hedging purposes and/or exposure),

The manager has the opportunity to take positions to cover the portfolio against equity risks and/or to increase its exposure to the market in order to achieve their management objective and/or in the context of arbitration operations.

The maximum investment across all of these markets is 100% of the Fund's net assets.

The Fund will not use total return swaps.

As these financial instruments may be entered into with counterparties selected by the Management Company, these counterparties may be companies affiliated to the BNP Paribas Group.

The eligible counterparties have no influence over the composition or management of the Fund's portfolio.

4. INSTRUMENTS WITH EMBEDDED DERIVATIVES:

Any warrants or rights obtained following transactions affecting the securities in the portfolio are authorised; however, the Fund does not intend to directly acquire this type of asset.

5. DEPOSITS:

None

6. CASH BORROWINGS:

In the normal course of operations, the Fund may have a temporary current account deficit and therefore need to borrow cash, subject to a limit of 10% of its net assets.

7. SECURITIES FINANCING TRANSACTIONS:

For cash management purposes, the Fund may, up to a limit of 10% of its net assets and in accordance with the French Monetary and Financial Code, enter into reverse repurchase agreements.

In order to optimise its income, the Fund may, within a limit of 100% of its net assets and in accordance with the French Monetary and Financial Code, enter into securities lending.

These transactions will be entered into with counterparties selected by the Management Company from among those institutions whose registered office is located in an OECD or European Union member state referred to in Article R. 214-19 of the French Monetary and Financial Code. They may be conducted with companies affiliated to the BNP Paribas Group. The counterparties must have a good credit rating (equivalent to investment grade).

Further information about temporary purchases and sales of securities is provided in the "Charges and fees" section of the prospectus.

8. INFORMATION RELATING TO THE UCITS' COLLATERAL:

To guard against counterparty default, temporary purchases and sales of securities and transactions on over-the-counter derivative instruments may involve the pledging of securities and/or cash as collateral, and the Depositary will hold these securities and/or this cash in segregated accounts.

The eligibility of securities received as collateral is determined in accordance with investment constraints and in line with a discount procedure determined by the management company's risk department. Securities received as collateral must be liquid and capable of being transferred quickly on the market. The securities received from a single issuer may not exceed 20% of the Fund's net assets (with the exception of securities issued or guaranteed by an eligible OECD member state, in which case this limit may be increased to 100%, provided that this 100% is distributed among six issues, none of which represents more than 30% of the Fund's net assets). They must be issued by an entity that is independent of the counterparty.

Assets

Cash (EUR, USD and GBP)

Interest rate instruments

Securities issued or guaranteed by an eligible OECD member state

The Fund may receive securities issued or guaranteed by an eligible OECD member state as collateral, for over 20% of its net assets. The Fund may thus be fully guaranteed by securities issued or guaranteed by a single eligible OECD member state.

Supranational securities and securities issued by government agencies

Securities issued or guaranteed by a government of another eligible country

Debt securities and bonds issued by a company whose registered office is located in an eligible OECD member country

Convertible bonds issued by a company whose registered office is located in an eligible OECD member country

Units or shares of money market UCITS (1)

MMI (money market instruments) issued by companies whose registered office is located in an eligible OECD member country or in another eligible country.

(1) UCITS managed by companies belonging to the BNP PARIBAS ASSET MANAGEMENT Holding Group only.

Eligible indices and related shares

Securitisations(2)

(2) Subject to the approval of the BNP PARIBAS ASSET MANAGEMENT France Risk Department.

Collateral other than in cash must not be sold, reinvested or pledged as security and is held by the depositary in a segregated account.

Collateral received in cash may be reinvested in accordance with AMF Position No. 2013-06. Cash received may therefore be held on deposit, invested in high-quality government bonds, used in reverse repurchase transactions or invested in short-term money market UCITS.

COLLATERAL:

In addition to the guarantees referred to in paragraph 8, the Management Company provides collateral on the Fund's assets (financial securities and cash) for the depositary in respect of its financial obligations to the depositary.

TOTAL RISK

The method used by the Management Company to calculate the total risk of the UCI it manages is the commitment method.

RISK PROFILE:

Your money will be invested primarily in financial instruments selected by the Management Company. These instruments will be subject to financial market trends and risks.

The Fund, classified as a "Eurozone equities" fund, mainly carries risks associated with its investments in the equity markets in the eurozone and, to a much lesser extent, with its investments in money markets.

As a result, it presents the following risks:

- equity market risk, associated with the volatility of shares in the eurozone due to changes in the valuation:
 - of the share investment universe. At any time, exposure to the equity market is between 90% and 100% of the net assets.
 - of a particular market segment (economic sector, geographic area etc.).

Equity risk is also linked to the risk of small-cap and mid-cap companies. The volume of securities listed on small-cap and mid-cap markets is relatively low. In the event of liquidity issues, these markets may experience more significant and more rapid downturns than large-cap markets. If these markets suffer a downturn, the Fund's net asset value may fall faster or more significantly.

- risk of capital loss: investors are advised that the Fund's performance may not be in line with its objectives and that the capital invested (after deduction of subscription fees) may not be recovered in full.
- risk of a potential conflict of interest: this risk is associated with the conclusion of temporary purchases or sales of securities in which the Fund's counterparty and/or financial intermediary is an entity linked to the group to which the Fund's Management Company belongs.
- counterparty risk: this risk is associated with the conclusion of contracts involving forward financial instruments (see the section on "Derivatives" above) or temporary purchases and sales of securities (see the section on "Temporary purchases and sales of securities" above), should a counterparty with whom a contract has been concluded fail to honour its commitments (for example, payment or repayment), which may lead to a fall in the net asset value of the Fund.
- risk of the specific management orientation of the Fund within its category: BNP Paribas Smallcap Euroland is a fund specialising in small- and mid-cap equities within the "Eurozone country equities" classification. This specialisation implies a particular exposure, specifically to sector risk, liquidity risk and the risk associated with subscriptions/redemptions.
- currency risk: this risk relates to a drop in the exchange rate of the listing currencies of the financial instruments in the Fund, which may result in a drop in the net asset value. Currency risk is hedged, however this hedging can never be perfect, and a residual risk (of up to 2%) may arise.
- sustainability risk: Unmanaged or unmitigated sustainability risks can impact returns on financial products. For example, if an
 environmental, social or governance event or situation occurred, it could have an actual or potential negative impact on the value of an
 investment. The occurrence of such an event or situation may also lead to a modification of the Fund's investment strategy, including
 the exclusion of the securities of certain issuers.

More specifically, the negative effects of sustainability risk may affect issuers by means of a series of mechanisms, including: 1) a decrease in revenues; 2) higher costs; 3) damages or depreciation of asset value; 4) higher cost of capital; and 5) regulatory fines or risks. Owing to the nature of sustainability risks and specific issues such as climate change, the likelihood that sustainability risks will have an impact on returns on financial products is likely to increase in the longer term.

- Risk related to the incorporation of non-financial criteria: A non-financial approach may be implemented in different ways by financial managers, in particular due to the lack of common or harmonised labels at European level. This means that it can be difficult to compare strategies that incorporate non-financial criteria. The selection and weighting applied to certain investments can be based on indicators that share the same name but have different meanings. When evaluating a security on the basis of non-financial criteria, financial managers may use data sources provided by external providers. Given the evolving nature of the non-financial criteria, these data sources may currently be incomplete, inaccurate or unavailable. The application of responsible business conduct standards and non-financial criteria in the investment process may lead to the exclusion of the securities of certain issuers. Therefore, the performance of the Fund may sometimes be better or worse than the performance of similar funds that do not apply these criteria. Furthermore, the proprietary methodologies used to take into account non-financial criteria may be revised in the event of regulatory changes or updates that may lead, in compliance with applicable regulations, to an increase or decrease in product classifications, the indicators used or the minimum investment commitment levels set.
- risks associated with securities financing transactions and collateral management: Unitholders may be exposed to a legal risk (in conjunction with legal documentation, the enforcement of contracts and the limits thereof) and to the risk associated with the reuse of cash received as collateral, as the net asset value of the Fund may change in line with fluctuations in the value of the securities acquired by investing the cash collateral received. In exceptional market circumstances, unitholders may also be exposed to liquidity risk, which may, for example, make it difficult to trade certain securities.
- contagion risk: The Fund includes a hedged unit class. The use of futures contracts specific to this unit may incur a contagion risk for certain operational risks and a counterparty risk to other unit classes of the Fund, even if they have not used this type of derivative instrument. The management company ensures that this risk is adequately monitored and moderated.
- ancillary risk associated with convertible bonds: There is a risk that the Fund's valuation may fluctuate due to its exposure to convertible bond markets. These instruments are indirectly linked to equity markets and interest rate markets (term and credit) and, as such, in periods of decline in the equity and interest rate markets, the Fund's net asset value may fall.

RECOMMENDED MINIMUM INVESTMENT PERIOD: Five years

MANAGEMENT REPORT

STATUTORY AUDITOR

PricewaterhouseCoopers

INVESTMENT POLICY

Market review - Year March 2022 - March 2023

- Events between Russia and Ukraine at the beginning of 2022 sparked a rapid increase in the prices of commodities and agricultural
 materials (caused by geopolitical uncertainties), and penalised cyclical sectors and companies struggling to pass the rising costs on to
 their customers.
- As a result, the financial markets shrank in Q2 and Q3 2022 due, firstly, to concerns about the impact of inflation on growth prospects
 and, secondly, the global central banks' stronger-than-expected tightening of key rates.
 - Sectors composed mainly of so-called growth companies (health, technology, communications) and the real estate sector were penalised by the continued pressure on long-term bond yields.
 - Cyclical sectors (industrial and consumer goods) also suffered due to the impact of inflation on consumer demand (non-discretionary consumer goods, construction etc.) and the now increasing risk of recession.
- In Q4 2022, the first signs of moderate inflation lead investors to anticipate less aggressive monetary policies from the Fed and the ECB, thereby favouring risky assets.
- In Q1 2023, European equity markets continued to improve despite inflationary concerns, the upward revision of expectations regarding
 key rate hikes by the major central banks, the turmoil that rocked US regional banks and Crédit Suisse's takeover orchestrated by the
 Swiss authorities.
 - The financial sector underwent a significant trend change in March 2023. After recording growth in January and February, regional bank turmoil in the US and the crisis at Crédit Suisse penalised the sector. Investors were concerned about the banks' ability to use additional tier 1 (AT1) hybrid bank debt as capital and the impact that the collapse of regional banks would have on the US economy. This had the potential to trigger the central banks to reconsider their policies on key rate hikes.

Over the period in question, the MSCI EMU was up by +8.14%, while the eurozone small-cap index (EMIX Smaller Euroland) and MSCI eurozone mid-cap index fell by -5.54%.

Portfolio performance

The performance of the Fund from the end of March 2022 to the end of March 2023 was -3.51%, i.e. +2.03% compared to the benchmark.

Over the year as a whole, the Fund's performance was mainly impacted by uncertainties regarding the growth prospects of certain companies:

- Grand City and LEG (Germany) in the real estate sector,
- Amplifon (Italy) in the health sector,
- Fluidra (Spain) in the industrial sector.
- Cancom (Germany) and Reply (Italy) in the technology sector.

The Fund was also penalised by the poor performance of **Teleperformance** (**France**, industrial sector) following the publication of articles that called into question the group's social responsibility practices, particularly in Colombia.

These disappointments have been offset (in relative performance) by exposure to companies that revised their growth prospects upwards:

- Brunello Cucinelli and Brembo (Italy) in the consumer goods sector,
- Aixtron (Germany), Sopra and Edenred (France) in the technology sector,
- Spie and Rexel (France), and MetsoOutotec (Finland) in the industrial sector,
- Gerresheimer (Germany) in the health sector,
- Telefonica Deutschland (Germany) in the telecommunications sector.

Activity within the portfolio

The main purchase transactions concerned the following companies:

- Interpump (Italy, industrial sector): a company specialising in the manufacture of high-pressure pumps for washing and hydraulic systems. This company is regularly increasing its market share and benefits from strong cash flow generation, enabling it to regularly consolidate its sector through acquisitions.
- Viscofan (Spain, non-discretionary consumer goods sector): the company specialises in producing casings for manufacturing sausages.
 This company has seen steady growth thanks to rising demand in emerging countries and the diversification of its range to include products that have strong consumer appeal (such as vegetarian or flavoured casings). Furthermore, the company has a solid balance sheet and strong cash flow generation.
- Elis (France, industrial sector): a company specialising in laundry management, workwear and the supply of hygiene products. This company is increasing its market share and benefits from strong cash flow generation, enabling it to consolidate its sector through acquisitions.
- Andritz (Austria, industrial sector): this company supplies plants, equipment and services for several industries, such as the paper, metalworking, hydro-electric and chemical industries. Andritz should benefit from the energy transition as well as the accelerated penetration of their services. As such, we expect an annual profit growth of around 10%, with improved margins thanks to a superior mix (more services) and operating leverage (with the order book securing short-term volumes).
- Verallia (France, materials sector): this company specialises in the production and marketing of bottles and glass containers for the food sector. In a market where demand is higher than supply, Verallia should continue to benefit from steady growth in volumes and its production capacity, as well as their ongoing discipline of increasing prices in the context of rising inflation costs. As such, profits are expected to grow by around 10% per year over the next three years.

Main divestitures:

- **LEG** (**Germany**, real estate sector), as a result of the deterioration of refinancing conditions against the backdrop of rising interest rates. The debt of both companies appears to be too high for the current climate, and we therefore believe that they will have to reduce their dividends or make capital increases if the sector environment does not stabilise.
- NN (Netherlands, financial sector) given the uncertainties surrounding changes in interest rates, but also in order to reduce the "ESG" risk profile. We have become aware of a significant legal risk that could arise at the end of the second half of 2023 (proceedings regarding a former commercial dispute involving all of the insurance companies in the Netherlands) and, as a result, have sold the exposure in case a judgement is made against the insurers.
- Fluidra (Spain, industrial sector): the company, a leader in the field of engineering equipment, is entering a transitional period. Following profit growth driven by the sharp increase in swimming pool construction (in 2021), we are concerned that there is a risk of a fall in demand for new swimming pools as well as inadequate revenue from after-sales services until 2024 (we expect there to be a period of approximately three years before the company benefits from the positive impacts of equipment replacements for swimming pools constructed during the COVID-19 pandemic). As a result, we are concerned about the company's ability to maintain its margins in this transitional period.
- **Stroeer (Germany,** communications sector): profit growth was revised downwards due to the slowdown in advertising expenditure in Germany. We also believe that the company will find it difficult to manage wage inflation in 2023.

Finally, we sold **Teleperformance** (**France**) because we believe that challenges to this company's reputation will negatively impact the Group's medium-term prospects.

Outlook & strategy

The interviews we conduct with company executives have led us to the conclusion that the growth outlook should remain positive despite an uncertain macroeconomic environment. For example:

- In the industrial sector, companies benefited in terms of energy savings from the relocation of the production chain and continued investments.
- In the consumer goods sector, the outlook remains positive in the luxury, discount market and tourism segments.
- In the financial sector, brokerage companies benefited from a recovery in volumes as well as from the positive impact of the rise
 in interest rates on the deposits owned.
- In the property sector, companies with exposure to offices in large cities should benefit from the increase in rent in a market that is experiencing rental offer scarcity.

Despite 2022 being a difficult year for the main large-cap indices, we continue to remain positive on the small- and medium-sized European companies segment thanks to the diversification potential offered by their sheer number, along with the diversity of business models in the segment (cyclical, "resilient", international, domestic etc.).

Changes during the financial year

12/08/2022: Update of the prospectus to take into account the provisions of the Taxonomy Regulation on the establishment of a framework to facilitate sustainable investment and amending the SFDR.

01/10/2022: Change in custodian from BNP Paribas Securities Services to BNP PARIBAS SA.

01/01/2023: Update to the SFDR in terms of level 2 and Taxonomy.

Performance

Annual performance stood at -3.51% for the Classic C unit Annual performance stood at -3.51% for the Classic D unit Annual performance stood at -3.04% for the I C unit Annual performance stood at -3.04% for the I D unit Annual performance stood at -2.81% for the Privilege C unit Annual performance stood at -2.81% for the Privilege D unit Annual performance stood at -1.98% for the R C unit

Past performance is not indicative of the future performance of the UCI.

ABERDEEN paragraph

Tax claims in relation to the Aberdeen/Fokus Bank project.

In several EU member states, Community law gives undertakings for collective investment (UCIs) the option of filing claims in order to recover taxes that have been unduly levied. In effect, the fact that a member state imposes heavier taxation on a foreign UCI than a resident UCI constitutes discrimination in the light of Community law.

This principle was endorsed by the judgement of the Court of Justice of the European Union (CJEU) in the Aberdeen case (18 June 2009). This judgement recognises that a non-resident UCI may be subject to discriminatory taxation, which constitutes an obstacle to the freedom of establishment and/or the free movement of capital. Other rulings made by the CJEU have confirmed this jurisprudence. These are the rulings made in the Santander case (10 May 2010) and the Emerging Markets case (10 April 2014) concerning French and Polish tax legislation respectively.

On the basis of that jurisprudence, and in order to safeguard the rights of the UCIs to benefit from a tax reimbursement, the Management Company has decided to file claims with the tax authorities in several member states that have discriminatory legislation that is not compliant with Community law. These procedures are examined in advance, to determine the viability of the claims, i.e. for which funds, in which member states and for which period to apply for reimbursement.

To date, there is no European legislation that provides a uniform procedure for this type of claim. For this reason, the reimbursement period and complexity of the procedure vary according to the member state concerned, making it necessary to continuously review developments on this issue.

* * *

PEAs

The Fund complies with the ratio of 75% of the assets in securities or rights eligible for PEAs. This ratio can be provided by the Management Company on request.

* *

Securities financing transactions pursuant to the SFTR

The UCI was not affected by SFTR instruments during the financial year.

* * *

Allowance

Pursuant to the provisions laid down in Article 158 of the French General Tax Code relating to information on the portion of income eligible for the 40% allowance and the portion not eligible for the allowance, the income to be distributed is broken down as follows:

Classic D unit distribution: €3.93

- Of which portion eligible for the 40% allowance: €3.93

- Portion not eligible for the allowance: €0.00

I D unit distribution: €17.86

- Of which portion eligible for the 40% allowance: €17.86

- Portion not eligible for the allowance: €0.00

Privilege D unit distribution: €7.12

- Of which portion eligible for the 40% allowance: €7.12

- Portion not eligible for the allowance: €0.00

INFORMATION ON THE MANAGEMENT COMPANY'S REMUNERATION POLICY

Qualitative aspects of remuneration

Information regarding the remuneration policy applicable to the 2022 financial year is available on request from the Management Company: BNP PARIBAS ASSET MANAGEMENT France – TSA 47000 – 75318 Paris Cedex 09, France. In addition, detailed information regarding the Management Company's remuneration policy is also available online at: https://www.bnpparibas-am.com/en/footer/remuneration-policy/.

Quantitative aspects of remuneration

Quantitative information regarding remuneration is outlined below, as required by Article 22 of the AIFM directive (Directive 2011/61/EU of 8 June 2011) and by Article 69-3 of the UCITS V directive (Directive 2014/91/EU of 23 July 2014), in a format that complies with the recommendations of the AFG (Association Française de Gestion – French asset management association)¹.

Aggregated remuneration of employees of BNP PARIBAS ASSET MANAGEMENT France ("BNPP AM France") (Article 22-2-e of the AIFM Directive and Article 69-3 (a) of the UCITS V Directive):

	Number of employees	Total remuneration (€k) (fixed + variable)	Of which total variable remuneration (€k)
All employees of BNPP AM France ²	978	133,825	50,406

Aggregated remuneration of employees of BNPP AM France whose activity has a significant impact on the risk profile and who are therefore "Identified Staff"³ (Article 22-2-f of the AIFM Directive and Article 69-3 (b) of the UCITS V Directive):

Business sector	Number of employees	Total remuneration (€k)
Identified Staff employed by BNPP AM France:	176	42,857
including Alternative Investment Fund managers/UCITS managers/managers of European discretionary funds	154	34,914

Annual report as at 31 March 2023

¹ Note: The above remuneration amounts cannot be reconciled directly with the accounting data for the year because they reflect the sums awarded based on the number of employees at the end of the annual variable remuneration campaign, in May 2021. Therefore, for example, these amounts include all the variable remuneration awarded during this campaign, regardless of whether or not it was deferred, and regardless of whether or not the employees ultimately remained at the company.

² In addition to these employees and the corresponding amounts, the following should be noted:

^{- 5} employees of the Austrian branch, one of whom has the status of "*Identified Staff*" and whose total fixed remuneration and total variable remuneration in 2021 amounted to €916k and €370k, respectively;

^{- 23} employees of the German branch, one of whom has the status of "Identified Staff" and whose total remuneration and total variable remuneration in 2021 amounted to €5026k and €1867k respectively.

^{- 53} employees of the Italian branch, two of whom have the status of "*Identified Staff*" and whose total remuneration and total variable remuneration in 2021 amounted to €6171k and €1910k respectively.

^{- 74} employees of the Dutch branch, 10 of whom have the status of "*Identified Staff*" and whose total fixed remuneration and total variable remuneration in 2021 amounted to €10,668k and €2,902k, respectively.

³ The list of Identified Staff is determined in light of the review conducted at year end.

Other information:

Number of AIFs and UCITS managed by BNPP AM France:

	Number of funds (31/12/2022)	Assets under management (€ billion) as at 31/12/2022
UCITS	188	79
Alternative Investment Funds	315	45

- In 2022, carried interest of €6.6k was paid to BNPP AM France staff employed as at 31 December 2022.
- An independent central audit of the overall BNP Paribas Asset Management remuneration policy and its implementation in 2021 was conducted between June and September 2022, under the supervision of the remuneration committee of BNP Paribas Asset Management Holding Group and its Board of Directors. Following this audit, which covered BNP Paribas Asset Management entities holding an AIFM and/or UCITS licence, the policy was awarded a "Satisfactory" grade (the best out of four possible grades) in recognition of the robustness of the current system, particularly in its key stages: identification of Identified Staff, consistency of the performance—remuneration link, application of mandatory deferral rules, and implementation of indexation and deferral mechanisms. A recommendation (not a warning) was issued in 2022, as the documentation and selection procedures of indexation baskets for members of management teams who do not directly manage portfolios themselves needed to be improved in some cases.
- Additional information on the way in which variable remuneration is determined and on deferred remuneration instruments can be found in the remuneration policy, which has been published on the company's website.

STATUTORY AUDITOR'S REPORT ON THE ANNUAL FINANCIAL STATEMENTS Financial year ended 31 March 2023

This is a free translation into English of the statutory auditors' report on the financial statements of the fund issued in French and it is provided solely for the convenience of English speaking users.

The statutory auditors' report includes information required by European regulation and French law, such as information about the appointment of the statutory auditors or verification of the management report.

This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

STATUTORY AUDITOR'S REPORT ON THE ANNUAL FINANCIAL STATEMENTS Financial year ended 31 March 2023

BNP PARIBAS SMALLCAP EUROLAND ISR

UCITS ESTABLISHED IN THE FORM OF A MUTUAL FUND Governed by the French Monetary and Financial Code

Management Company BNP PARIBAS ASSET MANAGEMENT France 1 boulevard Haussmann 75009 Paris, France

Opinion

In performing the task entrusted to us by the Management Company, we carried out the audit of the annual financial statements of the UCITS established as the BNP PARIBAS SMALLCAP EU ROLAND ISR mutual fund for the financial year ended 31 March 2023, as attached to this report.

We certify that the annual financial statements are, in accordance with French accounting rules and principles, accurate and consistent and give a true and fair view of the performance of the past financial year, as well as the financial position and the assets and liabilities of the UCITS established as a mutual fund, at the end of this financial year.

Basis of opinion

Audit terms of reference

We have conducted our audit in accordance with the standards of professional practice applicable in France. We believe that the evidence gathered is sufficient and appropriate to justify our opinion. Our responsibilities pursuant to these standards are set out in the "Statutory Auditor's responsibilities regarding the audit of the annual financial statements" section of this report.

Independence

We carried out our audit in accordance with the rules of independence laid down in the French Commercial Code and the Code of Ethics for Statutory Auditors, for the period from 1 April 2022, to the date of issue of our report.

PricewaterhouseCoopers Audit, 63, rue de Villiers, 92208 Neuilly-sur-Seine Cedex, France Tel.: +33 (0)1 56 57 58 59, Fax: +33 (0)1 56 57 58 60, www.pwc.fr

Accounting firm registered with the Paris Ile-de-France *Tableau de l'Ordre* (institute of accountants). Auditing firm and member of the *Compagnie Régionale de Versailles* (Versailles regional association of statutory auditors). Société par actions simplifiée (simplified joint-stock company) with capital of €2,510,460. Registered office: 63 rue de Villiers, 92200 Neuilly-sur-Seine, France. Nanterre Trade and Companies Register no. 672 006 483. VAT No. FR 76 672 006 483. SIRET no. 672 006 483 00362. APE [trade sector] code 6920 Z. Offices: Bordeaux, Grenoble, Lille, Lyon, Marseille, Metz, Nantes, Nice, Paris, Poitiers, Rennes, Rouen, Strasbourg, Toulouse.

Justification of assessments

In accordance with the provisions of Articles L. 823-9 and R. 823-7 of the French Commercial Code relating to the justification of our assessments, we bring to your attention the following assessments which, in our professional opinion, were the most significant for the audit of the financial year's annual financial statements. These related to the appropriateness of the accounting principles adopted, the reasonableness of the significant estimates used and the overall presentation of the financial statements.

The assessments were made as part of our audit of the annual financial statements, taken as a whole, and therefore contributed to the formation of the opinion expressed in the first part of this report. We have no comment to make on any individual aspect of these annual financial statements.

Specific verifications

In accordance with the standards of professional practice applicable in France, we have also conducted the specific verifications required by the legal and regulatory provisions.

We have no observations to make concerning the fairness and the consistency with the annual financial statements of the data provided in the Management Company's management report.

PricewaterhouseCoopers Audit, 63, rue de Villiers, 92208 Neuilly-sur-Seine Cedex, France Tel.: +33 (0)1 56 57 58 59, Fax: +33 (0)1 56 57 58 60, www.pwc.fr

Responsibilities of the Management Company relating to the annual financial statements

It is the management company's responsibility to prepare annual financial statements that give a true and fair view, in accordance with French accounting rules and principles, and to implement the internal controls it deems necessary for the preparation of annual financial statements that do not include any material misstatement, whether due to fraud or error.

When preparing the annual financial statements, it is the Management Company's responsibility to assess the Fund's ability to continue as a going concern, to present in said financial statements, where applicable, the necessary information relating to its viability as a going concern and to apply the going concern accounting policy, unless it intends to wind up the Fund or to cease trading.

The annual financial statements have been prepared by the Management Company.

Statutory Auditor's responsibilities regarding the audit of the annual financial statements

Audit objective and methodology

It is our responsibility to draw up a report on the annual financial statements. Our aim is to obtain reasonable assurance that the annual financial statements, taken as a whole, are free of material misstatement. Reasonable assurance corresponds to a high level of assurance, but does not guarantee that an audit performed in accordance with the standards of professional practice can systematically detect any material misstatement. Misstatements may arise from fraud or error and are considered material where it can reasonably be expected that, taken individually or together, they may influence the economic decisions made by users of the annual financial statements that are based upon such misstatements.

As specified in Article L. 823-10-1 of the French Commercial Code, our task is to certify the financial statements and not to guarantee the viability or quality of management of the funds.

As part of an audit performed in accordance with the standards of professional practice applicable in France, the Statutory Auditor exercises its professional judgement throughout this audit. In addition:

• it identifies and assesses the risks that the annual financial statements may contain material misstatements, whether due to fraud or error, sets out and implements the audit procedures intended to counter these risks, and collates the items that it deems sufficient and appropriate to justify its opinion. The risk of non-detection of a material misstatement due to fraud is higher than that of non-detection of a material misstatement due to an error, since fraud may involve collusion, forgery, deliberate omissions, misrepresentation or the circumvention of internal control processes;

PricewaterhouseCoopers Audit, 63, rue de Villiers, 92208 Neuilly-sur-Seine Cedex, France Tel.: +33 (0)1 56 57 58 59, Fax: +33 (0)1 56 57 58 60, www.pwc.fr

- it takes note of the internal control processes relevant to the audit so as to set out audit procedures that are appropriate to the circumstances, and not to express an opinion on the effectiveness of the internal control processes;
- it assesses the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management Company, as well as the information provided in their regard in the annual financial statements;
- it assesses the appropriateness of the application by the Management Company of the going concern accounting policy and, based on the evidence gathered, whether or not there is significant uncertainty relating to events or circumstances that may affect the Fund's ability to continue as a going concern. This assessment is based on the evidence gathered up to the date of its report, on the understanding that subsequent events or circumstances may affect its viability as a going concern. If it concludes that there is significant uncertainty, it draws the attention of readers of the report to the information provided in the annual financial statements about this uncertainty or, if this information is not provided or is not relevant, it issues certification with reservations or a refusal to certify;
- it appraises the overall presentation of the annual financial statements and assesses whether said statements reflect the underlying transactions and events such that they provide a true and fair view thereof.

In accordance with the law, we would like to inform you that we were unable to issue this report within the regulatory deadlines due to the delayed receipt of certain documents necessary for the completion of our work.

Accounting principles and policies

The annual financial statements are presented in the form provided for by ANC Regulation No. 2014-01 of 14 January 2014, as amended.

The accounting currency is the euro.

All transferable securities held in the portfolio are recognised at historical cost, excluding charges.

Securities, futures and options held in the portfolio denominated in a foreign currency are converted into the accounting currency based on the exchange rates in Paris on the valuation day.

The portfolio's value is appraised whenever the net asset value is calculated and at the end of the accounting period using the following methods:

Transferable securities

Listed securities: at stock market value, including accrued coupons (at the day's closing price).

However, transferable securities for which the price is not established on the valuation day or which are quoted by contributors and for which the price has been adjusted, and securities that are not traded on a regulated market, are valued under the responsibility of the Management Company (or the Board of Directors for an open-ended investment company (société d'investissement à capital variable – SICAV)), at their likely trading value. Prices are adjusted by the Management Company based on its knowledge of the issuers and/or markets.

UCIs: at their last known net asset value or, if unavailable, at their last estimated value. The net asset values of the securities of foreign undertakings for collective investment valued on a monthly basis are confirmed by the fund administrators. Valuations are updated weekly based on the estimates issued by the administrators of these UCIs and validated by the fund manager.

Negotiable debt securities and equivalent securities that are not traded in high volumes are valued using an actuarial method at a rate applicable to issues of equivalent securities, to which a variance representative of the intrinsic features of the issuer is assigned, if appropriate. In the absence of sensitivity, securities with a residual term of three months are valued at the most recent rate until maturity; for those acquired for periods of less than three months, the interest is calculated on a straight-line basis.

Temporary purchases and sales of securities:

- Securities lending: the receivable representing the securities lent is valued at the securities' market value.
- Securities borrowing: the borrowed securities and the corresponding debt are valued at the securities' market value.
- Collateral: With regard to securities received as collateral when lending securities, the UCI has chosen to include these securities in the balance sheet using the value of the debt corresponding to the obligation to return these securities.
- Repurchase agreements with a residual term of three months or less: individualisation of the receivable based on the contract price. In this case, the remuneration is calculated on a straight-line basis.
- Long-term repurchase agreements: These are recorded and valued at their nominal amount, even if their maturity date extends beyond three months. Any associated accrued interest is added to this amount. However, some contracts provide special terms in the event of requests for early repayment in order to take into account the impact of the increase in the counterparty's financing curve. Accrued interest may then be reduced by this impact, with no applicable floor. The impact is in proportion to the residual maturity of the agreement and the difference between the contractual margin and the market margin for the same maturity date.
- Repurchase agreements with a residual maturity of three months or less: stock market value. The debt valued on the basis of the contractual value is recorded as a balance sheet liability. In this case, the remuneration is calculated on a straight-line basis.

Adjusted net asset value or swing pricing mechanism:

The adjusted net asset value or swing pricing mechanism protects the Fund's unitholders in the event of significant fluctuations in the subscriptions and redemptions of units, which bring about costs in adjusting the Fund's portfolio. The Fund's net asset value is adjusted up or down to protect the Fund's remaining unitholders from the impact of performance dilution generated by portfolio adjustment costs.

In certain market conditions, the Management Company may decide – in the interest of the Fund's unitholders – to calculate an adjusted net asset value when the net amount of centralised subscriptions or redemptions exceeds a predetermined threshold set by the Management Company on any given day of net asset value calculation.

The net asset value supporting these subscription or redemption orders will then be adjusted up in the case of net subscriptions or down in the case of net redemptions in order to offset the costs incurred by adjusting the Fund's portfolio.

The triggering threshold and the swing factor are subject to a swing pricing policy set by the Management Company.

Forward financial instruments and options

Futures: at the day's settlement price.

The off-balance sheet valuation is calculated on the basis of the nominal value, its settlement price and, where appropriate, the exchange rate.

Options: the day's closing price or, failing this, the last known price.

Over-the-counter options: These options are valued at their market value, based on prices reported by the counterparties. These valuations are subject to controls by the Management Company.

The off-balance sheet valuation is calculated as an underlying equivalent based on the delta and the price of the underlying asset and, where appropriate, the exchange rate.

Forward exchange contracts: revaluation of foreign currency commitments at the daily rate with the premium/discount calculated according to the term of the contract.

Financial management fees and administrative fees external to the Management Company

- Maximum 1.50% incl. tax for the Classic C unit
- Maximum 1.50% incl. tax for the Classic D unit
- Maximum 1% incl. tax for I C units
- Maximum 1% incl. tax for I D units
- Maximum 0.20% incl. tax for the R unit class
- Maximum 0.75% incl. tax for the Privilege C unit class
- Maximum 0.75% incl. tax for the Privilege D unit class

The fees are calculated on the basis of the net assets, after deduction of the UCIs held in the portfolio. These fees, not including transaction fees, will be charged directly to the Fund's profit and loss account.

These fees cover all of the costs invoiced directly to the UCI, except for transaction fees. Transaction costs include intermediary fees (brokerage, stock market taxes etc.) as well as transaction fees, if any, which may be charged, in particular by the depositary and the Management Company.

ABERDEEN paragraph

Tax claims in relation to the Aberdeen/Fokus Bank project.

In several EU member states, Community law gives undertakings for collective investment (UCIs) the option of filing claims in order to recover taxes that have been unduly levied. In effect, the fact that a member state imposes heavier taxation on a foreign UCI than a resident UCI constitutes discrimination in the light of Community law.

This principle was endorsed by the judgement of the Court of Justice of the European Union (CJEU) in the Aberdeen case (18 June 2009). This judgement recognises that a non-resident UCI may be subject to discriminatory taxation, which constitutes an obstacle to the freedom of establishment and/or the free movement of capital. Other rulings made by the CJEU have confirmed this jurisprudence. These are the rulings made in the Santander case (10 May 2010) and the Emerging Markets case (10 April 2014) concerning French and Polish tax legislation respectively.

On the basis of that jurisprudence, and in order to safeguard the rights of the UCIs to benefit from a tax reimbursement, the Management Company has decided to file claims with the tax authorities in several member states that have discriminatory legislation that is not compliant with Community law. These procedures are examined in advance, to determine the viability of the claims, i.e. for which funds, in which member states and for which period to apply for reimbursement.

To date, there is no European legislation that provides a uniform procedure for this type of claim. For this reason, the reimbursement period and complexity of the procedure vary according to the member state concerned, making it necessary to continuously review developments on this issue.

ADDITIONAL INFORMATION FOR INVESTORS IN THE FEDERAL REPUBLIC OF GERMANY

Facilities in the Federal Republic of Germany according to section 306a (1) of the Investment Code

Applications for the redemptions and conversion of shares may be sent to BNP Paribas S.A. Grands Moulins de Pantin – 9, rue du Débarcadère – 93500 Pantin.

All payments to investors, including redemption proceeds and potential distributions may, upon request, be paid through BNP Paribas S.A. Grands Moulins de Pantin – 9, rue du Débarcadère – 93500 Pantin.

The issue, redemption and conversion prices, the net asset value as well as any notices to investors are also available from BNP Paribas S.A. Grands Moulins de Pantin – 9, rue du Débarcadère – 93500 Pantin.

Information and access to procedures and arrangements referred to in Article 15 of Directive 2009/65/EC relating to investors' exercise of their rights can be obtained from BNP Paribas Asset Management France, 8, rue du Port, 92000 NANTERRE.

The prospectus, the key information documents, the mutual fund regulations and the annual and semi-annual reports may be obtained, free of charge, in hardcopy form at BNP Paribas Asset Management France, 8, rue du Port, 92000 NANTERRE, during normal opening hours.

In addition, the issue and redemption prices are published on www.bnpparibas-am.de.

No units of EU UCITS will be issued as printed individual certificates.

In addition, communications to investors in the Federal Republic of Germany will be made available by means of a durable medium (section 167 of the Investment Code) in the following cases:

- suspension of the redemption of the units,
- termination of the management of the fund or its liquidation,
- any amendments to the company rules which are inconstant with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool,
- merger of the fund with one or more other funds and
- the change of the fund into a feeder fund or the modification of a master fund.
