

23 January 2023

EXTRACT PROSPECTUS FOR SWITZERLAND

**BROOKFIELD INVESTMENT FUNDS (UCITS) PUBLIC LIMITED COMPANY AN
UMBRELLA FUND WITH SEGREGATED LIABILITY
BETWEEN SUB-FUNDS**

An open-ended investment company with variable capital authorised by the Central Bank as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended by the European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016

McCann FitzGerald
Solicitors
Riverside One
Sir John Rogerson's Quay
Dublin 2

THIS PROSPECTUS IS AN EXTRACT OF THE PROSPECTUS OF THE COMPANY DATED 06 DECEMBER 2021, THE SUPPLEMENTS FOR BROOKFIELD GLOBAL LISTED REAL ESTATE UCITS FUND DATED 06 DECEMBER 2021, BROOKFIELD REAL ASSETS SECURITIES UCITS FUND DATED 06 DECEMBER 2021, BROOKFIELD GLOBAL RENEWABLES AND SUSTAINABLE INFRASTRUCTURE UCITS FUND DATED 30 NOVEMBER 2022, BROOKFIELD GLOBAL LISTED CORE INFRASTRUCTURE UCITS FUND DATED 30 NOVEMBER 2022 AND THE "ADDITIONAL INFORMATION FOR INVESTORS IN SWITZERLAND" DATED 23 JANUARY 2023. THERE ARE OTHER SUB-FUNDS AVAILABLE IN THE COMPANY WHICH ARE APPROVED BY THE CENTRAL BANK OF IRELAND BUT ARE NOT CURRENTLY OFFERED FOR SALE IN SWITZERLAND. THIS PROSPECTUS ONLY CONTAINS INFORMATION RELATING TO THE SUB-FUNDS OF THE COMPANY (BROOKFIELD GLOBAL LISTED REAL ESTATE UCITS FUND, BROOKFIELD REAL ASSETS SECURITIES UCITS FUND, BROOKFIELD GLOBAL RENEWABLES AND SUSTAINABLE INFRASTRUCTURE UCITS FUND, BROOKFIELD GLOBAL LISTED CORE INFRASTRUCTURE UCITS FUND) WHICH ARE APPROVED FOR DISTRIBUTION TO NON-QUALIFIED INVESTORS IN OR FROM SWITZERLAND AND ACCORDINGLY, THE SUPPLEMENT(S) FOR NON-REGISTERED SUB-FUNDS OF THE COMPANY HAVE BEEN OMITTED FROM THIS PROSPECTUS. THIS PROSPECTUS IS SOLELY USED FOR THE OFFER AND DISTRIBUTION OF SHARES OF THE COMPANY IN OR FROM SWITZERLAND AND IT DOES NOT CONSTITUTE A PROSPECTUS FOR THE PURPOSES OF IRISH APPLICABLE LAW.

In this Extract Prospectus, the term "Prospectus" refers to the Extract Prospectus.

The date of this Prospectus is 23 January 2023.

IMPORTANT NOTICE

The Directors of the Company whose names appear under “**Management and Administration**” herein, accept responsibility for the information contained in this Prospectus. To the best of the knowledge and belief of such Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document is at its date in accordance with the facts and does not omit anything likely to affect the import of such information.

Statements made in this Prospectus (the “**Prospectus**”) are based on the law and practice currently in force in Ireland and are subject to changes therein.

After publication of an annual or half yearly report this Prospectus should be accompanied by, and read in conjunction with, the latest annual report and accounts and any subsequent half yearly report.

This Prospectus may be translated into other languages provided that any such translation shall only contain the same information and shall have the same meaning as this Prospectus.

The authorisation of this Company by the Central Bank is not an endorsement or guarantee of the Company by the Central Bank nor is the Central Bank responsible for the contents of this Prospectus. The authorisation of this Company by the Central Bank does not constitute a warranty as to the performance of the Company and the Central Bank will not be liable for the performance or default of the Company.

The Company has been authorised by the Central Bank as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended by the European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016.

Investors should note that since transferable securities may depreciate as well as appreciate in value, no assurance can be given by the Company or the Directors or any of the persons referred to in this Prospectus that the Company will attain its objectives. The price of Shares, in addition to the income therefrom, may decrease as well as increase. Accordingly, an investment should only be made where the investor is or would be in a position to sustain any loss on his or her investment. In addition investors should note that some Funds in the Company may invest in emerging markets, below Investment Grade securities and equity warrants and that, therefore, an investment in the Fund or Funds in question should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. The difference at any one time between the sale and repurchase price of the Shares of any Fund means that the investment should be regarded as medium to long term.

Subject to the requirements of the Central Bank some of the Funds may use financial derivative instruments for investment purposes. While the prudent use of such derivatives can be beneficial, derivatives also involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments. Structured derivative transactions are complex and may involve a high degree of loss. The returns which are derived from a structured derivative or a swap transaction may be more volatile than returns which are derived from the asset underlying the structured derivative or the swap transaction.

Potential investors should consult, and must rely on, their own professional tax, legal and investment advisers as to matters concerning the Company and their investment in the Company.

Prospective investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters. Prospective investors should inform themselves as to: (a) the legal requirements within their own jurisdictions for the purchase, holding or disposal of Shares; (b) any applicable foreign exchange restrictions; and (c) any income and other taxes which may apply to their purchase, holding or disposal of Shares or payments in respect of Shares.

Prospective investors should be aware that investment in the Company carries an above-average degree of risk and the price of Shares may go down as well as up. The Company is only suitable for investment by investors who are aware of and understand the risks involved and are in a position to take such risks.

Investors' attention is drawn to the Section of the Prospectus entitled "Risk Factors".

If you are in any doubt regarding the action you should take, please consult your stockbroker, bank manager, solicitor, accountant or other professional adviser.

This Prospectus is issued as an invitation to investors to subscribe for Participating Shares in the Company. Unless defined elsewhere in the Prospectus, all capitalised letters used in this Prospectus shall have the meanings assigned to them in the section entitled "Definitions" beginning on page (Error! Bookmark not defined.).

Participating Shares are offered solely on the basis of the information and representations contained in this Prospectus. No person is authorised to give any information or make any representation other than those contained in this Prospectus and if given or made such information or representation may not be relied upon as having been authorised by the Company or its Directors.

This Prospectus does not constitute an offer or solicitation to anyone in any jurisdiction in which such an offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation. No person may treat this Prospectus as constituting an invitation to him unless in the relevant territory such an invitation could lawfully be made to him without compliance with any registration or other legal requirements. It is the responsibility of any person outside Ireland wishing to make an application hereunder to satisfy himself as to full observance of the laws of the relevant territory in connection therewith, including the obtaining of any governmental or other consents which may be required or other formalities needing to be observed or transfer or other taxes requiring to be paid in such territory.

Shareholders should note that management fees and expenses will be charged to the capital of the UCITS. Thus, on redemptions of holdings shareholders may not receive back the full amount invested. Shareholders should further note that dividends may be payable to Shareholders in Distribution Share Classes out of the capital of the relevant Fund. Any such distribution would be achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital. Details of the distribution policy for each Fund are contained in the relevant Supplement.

SELLING RESTRICTIONS

United Kingdom

The Company is a recognised collective investment scheme for the purposes of Section 264 of the Financial Services and Markets Act, 2000 of the United Kingdom.

United States

THE SHARES HAVE NOT BEEN REGISTERED WITH OR APPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES AGENCY OR REGULATORY AUTHORITY AND ARE BEING OFFERED PURSUANT TO EXEMPTIONS FROM REGISTRATION REQUIREMENTS. NEITHER THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION, THE UNITED STATES COMMODITY FUTURES TRADING COMMISSION, NOR ANY REGULATORY AUTHORITY OF ANY STATE, COUNTRY, OR OTHER JURISDICTION HAS PASSED ON THE VALUE OF THE SHARES, MADE ANY RECOMMENDATIONS AS TO THEIR PURCHASE, APPROVED OR DISAPPROVED THIS OFFERING, MADE A DETERMINATION THAT THE SHARES OFFERED HEREBY ARE EXEMPT FROM REGISTRATION OR PASSED ON THE ADEQUACY OR ACCURACY OF THIS CONFIDENTIAL OFFERING MEMORANDUM. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

CFTC NOTICE

Because the Funds may invest in commodity interests, the Investment Manager may be subject to regulation as a Commodity Pool Operator under the U.S. Commodity Exchange Act (the “**Commodity Act**”) and the rules of the U.S. Commodity Futures Trading Commission (the “**CFTC**”). Pursuant to CFTC Rule 4.13(a)(3), the Investment Manager of the Funds is exempt from registration as a “commodity pool operator” with respect to the Fund because each of the Funds engages in only limited commodity interest trading and, accordingly, is not subject to certain regulatory requirements with respect to the Fund that are applicable to persons that are so registered. Unlike a registered commodity pool operator, the Investment Manager is not required to deliver a disclosure document or a certified annual report to investors.

DEFINITIONS

In this Prospectus the following words and phrases shall have the meanings indicated below:

"Administration Agreement"	means the agreement dated 6 December 2021 between the Company, the Manager and the Administrator as may be amended or restated from time to time;
"Administrator"	means RBC Investor Services Ireland Limited or any successor or replacement Administrator appointed to the Company in accordance with the requirements of the Central Bank;
"Articles"	means the articles of association of the Company;
"Base Currency"	means the base currency of a Fund as set out in the applicable Supplement;
"Business Day"	means any day (except Saturdays, Sundays and public holidays in Dublin and New York) on which retail banks in Dublin and New York are open for business or such other day or days as may be determined by the Directors;
"Cash Deposits"	means deposits (i) that are repayable on demand; or have the right to be withdrawn; and (ii) which have a maturity date of no more than twelve months;
"Central Bank"	means the Central Bank of Ireland or any successor regulator thereto;
"Central Bank Regulations"	means the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as may be amended, supplemented or modified from time to time and any other statutory instrument, regulations, rules, conditions, notices, requirements or guidance of the Central Bank issued from time to time applicable to the Company pursuant to the UCITS Regulations and the Delegated Regulations or either of them as the case may be;
"CFTC"	means the United States Commodity Futures Trading Commission;
"Class"	means the different classes of Participating Shares that may be issued within a Fund by the Directors in accordance with the requirements of the Central Bank. Details of the different characteristics applicable to each Class of Participating Share may be set out in the relevant Supplement;
"Closing Date"	means the closing date of the Initial Offer in respect of a Fund as set out in the applicable Supplement;

"Collective Investment Schemes"	means UCITS and/or AIFs in which the Funds may invest pursuant to the Central Bank Regulations;
"Company"	means Brookfield Investment Funds (UCITS) p.l.c. an umbrella open-ended investment company with segregated liability between Funds which has been authorised by the Central Bank pursuant to the UCITS Regulations;
"Data Protection Law"	means Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, as may be amended or supplemented and any guidance, directions, determinations, codes of practice, circulars, orders, notices or demands issued by any supervisory authority and any applicable national, international, regional, municipal or other data privacy authority or other data protection laws or regulations in any other territory in which the services are provided or received or which are otherwise applicable;
"Dealing Day"	means any Subscription Date and/or Redemption Date;
"Depositary"	means RBC Investor Services Bank S.A., Dublin Branch or any successor or replacement depositary appointed to the Company in accordance with the requirements of the Central Bank;
"Depositary Agreement"	means the depositary agreement between the Company and the Depositary as may be amended or restated from time to time;
"Delegated Regulation"	means the Commission Delegated Regulation supplementing Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014, once it has entered into force and is directly effective in Ireland;
"Directive"	means the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities as amended by Directive 2014/911/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards depositary functions, remuneration policies and sanctions and as may be further amended from time to time;
"Directors"	means the directors of the Company for the time being and any duly constituted committee thereof;

“Eastern Time”	means the standard time in a zone including the eastern states of the United States;
"EEA"	means the European Economic Area, whose member states currently include the member states of the EU, Iceland, Liechtenstein and Norway;
“ESMA”	means the European Securities and Markets Authority;
"EU"	means the European Union;
"Euro" or "€"	means the currency referred to in the second sentence of Article 2 of the Council Regulation (EC) No. 974/98 of 3 May 1998 and as adopted as the single currency of the participating European Union Member States;
"Exempt Irish Resident"	means: <ul style="list-style-type: none"> (i) a pension scheme which is an exempt approved scheme within the meaning of section 774 of the Taxes Act, or a retirement annuity contract or a trust scheme to which section 784 or 785 of the Taxes Act applies which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; (ii) a company carrying on a life business, within the meaning of section 706 of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; (iii) an Investment Undertaking which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; (iv) a special investment scheme within the meaning of section 737 of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; (v) a unit trust, to which section 731(5)(a) of the Taxes Act applies which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; (vi) a charity being a person referred to in section 739(D)(6)(f)(i) of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;

- (vii) a qualifying management company within the meaning of section 734 (1) of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (viii) a specified company within the meaning of section 734 (1) of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (ix) a person exempt from income tax and capital gains tax by virtue of section 784A(2) of the Taxes Act, where the shares held are assets of an approved retirement fund or an approved minimum retirement fund and the “qualifying fund manager” (within the meaning of section 784A of the Taxes Act) has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (x) a person exempt from income tax and capital gains tax by virtue of section 848E of the Taxes Act where the shares held are assets of a special savings incentive account and the “qualifying savings manager” (within the meaning of section 848B of the Taxes Act) has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (xi) a person exempt from income tax and capital gains tax by virtue of section 787I of the Taxes Act where the shares held are assets of a Personal Retirement Savings Account (within the meaning of Chapter 2A of Part 30 of the Taxes Act) and the PRSA Administrator (within the meaning of Chapter 2A) has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (xii) a credit union within the meaning of section 2 of the Credit Union Act 1997 which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event;
- (xiii) a company in respect of its investment in a money market fund within the meaning of Regulation (EC) No 2423/2001 of the European Central Bank of 22/11/2001, where such company is within the charge to corporation tax and has made a declaration to that effect to the Company and has

supplied details of its corporation tax reference number to the Company;

- (xiv) a Qualifying Company which has made a declaration to that effect to the Company and has provided the Company with the company's tax reference number prior to the occurrence of a chargeable event;
- (xv) an investment limited partnership within the meaning of section 739J of the Taxes Act which has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event.
- (xvi) the National Treasury Management Agency or a fund investment vehicle (within the meaning of section 37 of the National Treasury Management Agency (Amendment) Act 2014) of which the Minister for Finance is the sole beneficial owner, or the State acting through the National Treasury Management Agency, and the National Treasury Management Agency has made a declaration to that effect to the Company;
- (xvii) the National Asset Management Agency which has made a declaration to that effect to the Company;
- (xviii) The Motor Insurers' Bureau of Ireland in respect of an investment made by it of moneys paid to the Motor Insurers' Insolvency Compensation Fund under the Insurance Act 1964 (amended by the Insurance (Amendment) Act 2018), and the Motor Insurers' Bureau of Ireland has made a declaration to that effect to the Company;
- (xix) an Intermediary acting on behalf of persons who are neither Irish Resident nor Ordinarily Resident in Ireland for tax purposes or an Intermediary acting on behalf of Irish Resident persons listed above which, where necessary, has made a Relevant Declaration which is in the possession of the Company prior to the occurrence of a chargeable event; and
- (xx) any other Irish Resident or person Ordinarily Resident in Ireland who may be permitted to own Shares under taxation legislation or by written practice or concession of the Revenue Commissioners without giving rise to a charge to tax in the Fund or jeopardising tax exemptions associated with the Company giving rise to a charge to tax in the Company provided that, where necessary, they have completed the

appropriate statutory declaration under Schedule 2B of the Taxes Act;

"Exempt Non-Resident"

means any person that is neither Resident in Ireland nor Ordinarily Resident in Ireland at the time of the chargeable event provided either:

- (a) the Company is in possession of a Relevant Declaration and is not in possession of any information that would reasonably suggest that the information contained therein is no longer materially correct; or
- (b) the Company is in possession of a written notice of approval from the Revenue Commissioners pursuant to the provisions of section 739D (7B) of the Taxes Act to the effect that section 739D(7) or section 739D (9) of the Taxes Act is deemed to have been complied with in respect of the Shareholder and that approval has not been withdrawn;

"Fund"

means any separate sub-fund of the Company from time to time established by the Company with the prior approval of the Central Bank;

"Initial Offer"

means the initial offer of Participating Shares in a Fund as set out in the applicable Supplement;

"Intermediary"

means a person who: (i) carries on a business which consists of, or includes, the receipt of payments from an investment undertaking on behalf of other persons; or (ii) holds Participating Shares in an investment undertaking on behalf of other persons;

"Investment Grade"

means a Credit Rating of no lower than "BBB" as determined by S&P, or equivalent credit rating as determined by another Rating Agency;

"Investment Manager"

means Brookfield Public Securities Group LLC or such other person or persons from time to time appointed by the Company and the Manager as the investment manager of the Company (or a Fund as set out in the relevant Supplement) in accordance with the requirements of the Central Bank;

"Investment Undertaking"

means an investment undertaking within the meaning of section 739B of the Taxes Act;

"Irish Resident"

means any person Resident in Ireland or Ordinarily resident in Ireland for tax purposes;

"Manager"

means KBA Consulting Management Limited or such other person or persons from time to time appointed by the Company as the UCITS management company of the

Company in accordance with the requirements of the Central Bank. The Manager is the responsible person for the purposes of the Central Bank Regulations;

“Management Agreement”	means the agreement dated 6 December 2021 entered into between the Company and the Manager.
“Member State”	means a country which, for the time being, is a member state of the European Union;
“Memorandum”	means the memorandum of association of the Company;
“Minimum Holding”	means such amount as may be determined by the Directors in their absolute discretion in relation to any Fund or Class within a Fund and set out in the applicable Supplement for that Fund;
“Minimum Initial Subscription”	means such greater or lesser amount as may be determined by the Directors in their absolute discretion in relation to any Fund or Class within a Fund and set out in the applicable Supplement for that Fund;
“Minimum Subsequent Subscription”	means such amount as may be determined by the Directors in their absolute discretion in relation to any Fund or Class within a Fund and set out in the applicable Supplement for that Fund;
“Money Market Instruments”	means instruments normally dealt in on the money market which: <ul style="list-style-type: none">(i) are liquid, i.e. capable of being converted to cash within seven Business Days at a price closely approximating their current value; and(ii) have a value which can be accurately determined at any time;
“Net Asset Value”	means the net asset value of the Company, or of a Fund, or the net asset value attributable to a Class of Participating Share, as more fully described in the section entitled “Valuation Principles” in Schedule 1 of this Prospectus;
“OECD”	means the Organisation for Economic Co-operation and Development;
“Ordinarily Resident in Ireland”	an individual who has been Resident in Ireland for three consecutive tax years becomes Ordinarily Resident in Ireland with effect from the commencement of the fourth tax year. An individual who has been Ordinarily Resident in Ireland is no longer Ordinarily Resident in Ireland with effect from the commencement of the fourth consecutive tax year in which he/she is not Resident in Ireland;

"Participating Share" or "Share"	means the Participating Shares of no par value in the Company;
"Qualifying Company"	means a qualifying company within the meaning of section 110 of the Taxes Act;
"Rating Agency"	means S&P or an internationally recognised securities rating agency which shall be substituted for S&P;
"Recognised Clearing System"	<p>includes any of the following clearing systems;</p> <ul style="list-style-type: none"> ▪ BNY Mellon Central Securities Depository SA/NV (BNY Mellon CSD); ▪ Central Moneymarkets Office; ▪ Clearstream Banking SA; ▪ Clearstream Banking AG; ▪ CREST; ▪ Depository Trust Company of New York; ▪ Deutsche Bank AG, Depository and Clearing System; ▪ Euroclear; ▪ Monte Titoli SPA; ▪ Netherlands Centraal Instituut voor Giraal Effectenverkeer BV; ▪ National Securities Clearing Corporation; ▪ Japan Securities Depository Center (JASDEC); ▪ Sicovam SA; ▪ SIS Sega Intersettle AG; ▪ The Canadian Depository for Securities Ltd; ▪ VPC AB (Sweden) ▪ Hong Kong Securities Clearing Company Limited; and ▪ any other system for clearing securities which is designated by the Revenue Commissioners as a recognised clearing system;
"Recognised Market"	means a market which is regulated, recognised, operating regularly and open to the public which is provided for in the Articles, relevant details of which are set out in Schedule 3 of this Prospectus;
"Redemption Date"	means such Business Day(s) as the Directors may in their absolute discretion determine in respect of any Fund and as set out in the applicable Supplement for that Fund;
"Relevant Declaration"	means the declaration relevant to the Shareholder as set out in Schedule 2B of the Taxes Act;

"Relevant Period"

means, in relation to a Share in the Company, a period of eight years beginning with the acquisition of a Share by a Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period for as long as the Shareholder holds that Share;

"Resident in Ireland"

means any person who is resident in Ireland for the purposes of Irish tax. The following is a summary of how different categories of persons or entities may be treated as Resident in Ireland for this purpose.

Individual

An individual will be regarded as Resident in Ireland for the purposes of Irish tax for a particular tax year if he or she:

- is present in Ireland for 183 days or more in Ireland in that tax year; or
- is present in Ireland for 280 days or more in Ireland, taking into account the number of days spent in Ireland in that tax year together with the number of days spent in Ireland in the preceding tax year. Presence in a tax year by an individual of not more than 30 days in Ireland will not be reckoned for the purpose of applying the two year test.

In determining the number of days present in Ireland, an individual is deemed to be present in Ireland if he/she is in the country at any time during the day.

Company

A company will be Resident in Ireland if its central management and control is exercised in Ireland irrespective of where it is incorporated. For Ireland to be treated as the location for central management and control this typically means that Ireland is the location where all fundamental policy decisions of the company are made.

A company incorporated in Ireland after 1 January 2015 will be regarded for all purposes of Irish tax legislation as being Resident in Ireland unless it is regarded for the purposes of a double tax treaty in effect with Ireland as being resident in that other tax treaty territory and not in Ireland.

A company incorporated in Ireland prior to 1 January 2015 will be similarly treated for the purposes of ascertaining tax residency after 1 January 2020 or if earlier, from the date of a major change of ownership of the company where there is a major change in the nature or conduct of the business of the company within the relevant period. Relevant period for this purpose means a period of 5 years

from 1 January 2015 or the date of change of ownership, whichever is later. Otherwise, a company incorporated in Ireland prior to 1 January 2015 will be regarded as being Resident in Ireland unless it is a 'relevant company' and it either carries on a trade in Ireland or it is related to a company that carries on a trade in Ireland or, if pursuant to the terms of a double taxation treaty between Ireland and another territory, the company is regarded as resident in a territory other than Ireland and as not Resident in Ireland. A relevant company is a company:

that is under the "control", directly or indirectly, of a person or persons who is or are:

- (a) resident for the purposes of tax, in either an EU member state or in a territory with which Ireland has a double taxation treaty (a "treaty territory") (together a "relevant territory") under the law of that relevant territory, and
- (b) not under the control, directly or indirectly, of a person who is, or persons who are, not so resident; or

that is, or is related to, a company the principal class of shares of which is substantially and regularly traded on one or more recognised stock exchanges in a relevant territory or territories.

However, the determination of a company's residence for tax purposes can be complex in certain cases and declarants are referred to the specific legislative provisions which are contained in section 23A of the Taxes Act.

Trust

A trust will be Resident in Ireland and Ordinarily Resident in Ireland for the purposes of Irish tax unless the general administration of the trust is ordinarily carried on outside Ireland and the trustees (being a single and continuing body of persons) or a majority of them for the time being are not Resident in Ireland or Ordinarily Resident in Ireland as the case may be;

"Revenue Commissioners"

means the Revenue Commissioners of Ireland;

"SEC"

means the United States Securities and Exchange Commission;

"Shareholder"

means a holder of Participating Shares;

"Sterling" or "£"

means pounds sterling, the lawful currency of the United Kingdom;

"Sub-Investment Manager"

means such person, firm or company as may from time to time be appointed to provide discretionary investment

management services to a Fund in accordance with the requirements of the Central Bank as provided for in the applicable Supplement;

“Sub-Investment Management

Agreement”

means the agreement entered into between the Investment Manager and the Sub-Investment Manager in respect of a specific Fund;

"Subscriber Shares"

means a subscriber share in the capital of the Company issued in accordance with the Articles;

“Subscription Date”

means such Business Day(s) as the Directors may in their absolute discretion determine in respect of any Fund and as set out in the applicable Supplement for that Fund;

"Supplement"

means any supplemental prospectus issued by the Company from time to time containing information relating to a particular Fund;

“Taxable Corporate Shareholder”

means a corporate Shareholder who is not an Exempt Irish Investor and who is Resident in Ireland;

"Taxes Act"

means the Taxes Consolidation Act 1997, of Ireland, as amended;

"Transferable Securities"

means shares in companies and other securities equivalent to shares in companies, bonds and other forms of securitised debt, and any other negotiable securities which carry the right to acquire any such Transferable Securities by subscription or exchange other than techniques and instruments utilised for efficient portfolio management;

"UCITS"

means an undertaking the sole object of which is the collective investment in Transferable Securities and/or other liquid financial assets permitted under the UCITS Regulations of capital raised from the public and which operates on the principle of risk-spreading and the units/shares of which are at request of the holders repurchased or redeemed directly or indirectly out of those undertakings' assets. Action taken by a UCITS to ensure that the stock exchange value of its units/shares does not vary significantly from their net asset value shall be regarded as equivalent to such repurchase or redemption. Other liquid financial assets include cash deposits, financial derivative instruments, other Collective Investment Schemes and Money Market Instruments;

"UCITS Regulations"

means the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended by the European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, as may be modified, amended, supplemented, consolidated or re-enacted from time to time;

"United Kingdom" or "UK"	means the United Kingdom of Great Britain and Northern Ireland;
"Unprocessed Monies"	means any unprocessed subscription monies received from investors, redemptions monies payable to investors and/or dividends due to investors;
"US"	means the United States of America, its territories, possessions and all other areas subject to its jurisdiction;
"US\$" or "US Dollars"	means US Dollars, the lawful currency of the US;
"US Person"	means, unless otherwise determined by the Directors, (i) a citizen or resident of the US; (ii) a partnership organised or existing in or under the laws of the US; (iii) a corporation organised under the laws of the US; (iv) any estate or trust which is subject to US federal income tax on its income regardless of its source;
"Valuation Date"	means the relevant Business Day by reference to which the Net Asset Value of a Fund is calculated and is the same Business Day on which each Subscription Date and Redemption Date occurs. For the avoidance of doubt, there will be a valuation date in respect of each Subscription Date and Redemption Date;
"Valuation Point"	means 4 p.m. (Eastern Time) on the Valuation Date using the closing market prices in the relevant market available as at the Valuation Date;
"VAT"	means any tax imposed by EC Directive 2006/112/EU on the common system of value added tax and any national legislation implementing that directive together with legislation supplemental thereto and all penalties, costs and interest relating to any of them; and

THE COMPANY

Introduction

The Company is an open-ended investment company with variable capital organised under the laws of Ireland as a public limited company authorised in Ireland by the Central Bank as a UCITS pursuant to the UCITS Regulations. It was incorporated on 1 September 2011 with registration number 503109.

The sole object of the Company is the collective investment in transferable securities and/or in other liquid financial assets as permitted by the UCITS Regulations of capital raised from the public, operating on the principle of risk spreading.

The Company is structured as an umbrella fund with segregated liability between sub-funds. The Articles provide that the Company may offer separate classes of Participating Shares, representing interests in a Fund comprising a distinct portfolio of investments. The assets of each Fund shall belong exclusively to that Fund, shall be recorded in the books and records maintained for the Fund as being held for that Fund and separately from the assets of other Funds and shall not be used to discharge directly or indirectly the liabilities of or claims against any other Fund and shall not be available for any such purpose.

With the prior approval of the Central Bank, the Company, in consultation with the Manager, may from time to time create such additional Funds as the Directors may deem appropriate. The Funds of the Company are the Brookfield Global Listed Real Estate UCITS Fund, the Brookfield Global Listed Infrastructure Long Short UCITS Fund, the Brookfield Real Assets Securities UCITS Fund, the Brookfield Real Assets Debt UCITS Fund, the Brookfield Global Renewables and Sustainable Infrastructure UCITS Fund and the Brookfield Global Listed Core Infrastructure UCITS Fund.

In addition, the Participating Shares in each Fund may be further divided into a number of different Classes. The Directors may differentiate between the different characteristics of Shares within a Fund including, without limitation, as regards the fees, dividend policy, commission charges, currency, entry and exit prices or other characteristics. Details of any such Class or Classes or Shares shall be as set out in the applicable Supplement for the relevant Fund in accordance with the requirements of the Central Bank. The Central Bank shall be notified of and will clear in advance, the creation of such different Classes. A separate pool of assets is not maintained for each Class.

The Company is denominated in US Dollars.

Investment Objective and Policies

The assets of each Fund will be invested in accordance with the investment objectives and policies of that Fund as set out in the applicable Supplement. The Company and its Directors, in consultation with the Manager, Investment Manager and the relevant Sub-Investment Manager, if applicable, are responsible for the formulation of the investment objectives and policies of each Fund and any subsequent change to these objectives and policies and for compliance with the investment and borrowing restrictions contained in the UCITS Regulations and Central Bank Regulations as set out in Schedule 2, to which each Fund is subject. Additional restrictions (if any) relevant to each Fund will be as set out in the applicable Supplement.

A Fund may invest in other Collective Investments Schemes, including other Funds of the Company. Such investment in other Funds of the Company is known as “cross-investment”. A Fund may not, however, cross invest in another Fund which itself holds Shares in other Funds of the Company.

Where a Fund invests in another Collective Investment Scheme managed by the Investment Manager or cross invests in another Fund, the Directors will waive any preliminary or redemption charge which would normally be charged. Where a commission is received by the Investment Manager by virtue of a Fund’s

investment in another Collective Investment Scheme or another Fund, this commission must be paid into the property of the Fund. Where a Fund cross invests in another Fund, the Investment Manager will waive the portion of its investment management fee and performance fee relating to that Fund's cross-investment in the other Fund.

Any change to the investment objective or material change to the investment policy of a Fund will be made only with the prior approval of Shareholders by way of a simple majority of votes cast at a general meeting or with the prior written approval of all of the Shareholders of the Fund or Company, as appropriate. In the event of a change in the investment objective or a material change in the investment policy of a Fund, a reasonable notification period will be given to all relevant Shareholders to enable them to, if they choose to do so, redeem their Shares in the relevant Fund prior to the implementation of such changes.

Financial Derivative Instruments

The Company may, within the conditions and limits laid down by the Central Bank, for the purpose of efficient portfolio management specifically for currency hedging, enter into a variety of derivative instruments including, but not limited to, swaps, options, index futures and financial futures, details of which will be set out in the applicable Supplement. The Company may also purchase or sell spot or forward contracts predominantly for the purpose of providing protection against exchange rate risk.

As set out in the applicable Supplement, the Investment Manager may, for efficient portfolio management purposes, enter into sales and repurchase arrangements (repos) and stocklending arrangements with one or more counterparties in accordance with the requirements of the Central Bank (the "stocklending/repurchase transactions").

Any such stocklending/repurchase transactions will be subject to the conditions, limits and requirements of the Central Bank and the provisions of the Prospectus. In these transactions, collateral may move between the Company and the relevant counterparty, in accordance with the Fund's collateral policy set out in Schedule 4 to this Prospectus, in order to secure its obligations to any counterparty or to mitigate any counterparty risk.

Furthermore, as set out in the applicable Supplement, the Company may, for efficient portfolio management purposes, enter into contracts for difference with one or more counterparties subject to the conditions and limits set out in the Central Bank Regulations.

Each Fund may also utilise derivative instruments for investment purposes and details of such instruments used and the specific strategies for which such instruments are employed in this context will be set out in the applicable Supplement.

"Efficient Portfolio Management", for these purposes, means an investment decision involving techniques and instruments which fulfil the following criteria:

they are economically appropriate in that they are realised in a cost-effective way;

they are entered into for one or more of the following specific aims;

a reduction of risk;

a reduction of cost; or

the generation of additional capital or income for a Fund with a level of risk which is consistent with the risk profile of the Fund and the risk diversification rules as set out in the Central Bank Regulations and within any further limits laid down by the Central Bank from time to time;

their risks are adequately captured by a risk management process in place for the relevant Fund (see below); or

they cannot result in a change to the Fund's declared investment objective or add substantial supplementary risks in comparison to the general risk policy as described in the Prospectus (and any other sales documents).

All the revenues arising from transactions relating to efficient portfolio management shall be returned to the Fund following the deduction of any direct and indirect operational costs and fees arising from such transactions which shall be payable to the relevant counterparty. Details of the relevant counterparties and whether they are related parties to the Company or Depositary will be disclosed in the annual and interim financial reports for the Company. Such direct and indirect operational costs and fees will be at normal commercial rates together with VAT, if any, thereon, and will be borne by the Company or the relevant Fund.

The Company employs a risk management process which will enable it to accurately manage, monitor and measure the risks attached to derivative positions and details of this process have been provided to the Central Bank. The Company will not utilise derivative positions which have not been included in the risk management process until such time as a revised risk management process has been submitted and cleared by the Central Bank. The Manager will provide on request to Shareholders supplementary information relating to the risk management methods employed by the Company including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments of the relevant Fund.

Securities Financing Transactions (SFTs)

Each Fund may utilise total return swaps and reverse repurchase agreements, as more fully described in the relevant Supplement. The counterparties to such SFTs will be corporate entities (which may or may not be related to the Investment Manager, the Depositary or their delegates) typically located in OECD jurisdictions. Accordingly, the Investment Manager or Sub-Investment Managers will check that the counterparties will be subject to on-going supervision by a public authority, be financially sound and have the necessary organisational structure and resources for the relevant type of transaction. In addition, a credit assessment will be undertaken by the Investment Manager or Sub-Investment Managers with respect to each counterparty to ensure that each counterparty has a minimum credit rating of above investment grade.

All the revenues generated by SFTs are returned to the relevant Fund and all fees and operating expenses are also paid for by the relevant Fund.

The type of assets subject to SFTs and the expected and maximum proportion of a Fund's Net Asset Value subject to SFTs is described in each Supplement and will not exceed the investment restrictions prescribed in Schedule 2 to this Prospectus.

Any collateral used in the context of SFTs shall comply with the Company's Collateral Policy as set out in Schedule 4 to this Prospectus.

Risks linked to the management of collateral, such as operational and legal risks, should be identified, managed and mitigated by the risk management process. For further information, please see the sections within this Prospectus entitled, "*Derivatives Risk*", "*Risk associated with Securities Financing Transactions*" and "*Risks Linked to Management of Collateral*".

If the assets subject to the SFTs and collateral are received on a title transfer basis, they will be held by the Depositary (or sub-custodian thereof). If the Company receives the assets subject to the SFTs on any basis other than a title transfer basis, they can be held by a third party depositary which is subject to prudential supervision and is unrelated and unconnected to the provider of such assets or collateral.

Borrowing

The borrowing/leverage limits in respect of any Fund will be set out in the applicable Supplement and are subject always to the limits set out in the Central Bank Regulations.

Dividend Policy

It is the intention that accumulating and distributing share classes will be created, details of which will be set out in the relevant Supplement hereto.

Dividends may be made at the Directors' discretion, in consultation with the Manager. Shareholders will be notified in advance of any dividend being declared and details of any change in dividend policy will be provided by amending the Prospectus or the applicable Supplement. To the extent that a dividend may be made, it will be made in compliance with any applicable laws.

Risk Factors

Investors' attention is drawn to the following general risk factors which may relate to an investment in any Fund. In addition to the risks set out below, any risks specific to a particular Fund will be as set out in the applicable Supplement.

Market Fluctuations

Potential investors should note that the investments of each Fund are subject to market fluctuations. There is no assurance that any appreciation in the value of investments will occur or that the investment objective of any Fund will be achieved. The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested. The difference between the cost of subscribing for Shares and the amount received on redemption means that any investment in the Company should be viewed as a medium to long-term investment. An investment should only be made by those who are able to sustain a loss on their investment.

Currency Risk

Each Fund's assets may, unless otherwise noted, be invested in securities denominated in currencies other than the relevant currency of such Fund and any income received by such Fund from its investments will be received in the currencies of such investments, some of which may fall in value against the relevant currency of such Fund. Each Fund will compute its Net Asset Value and make any distributions in the denomination of the Shares. While each Fund may, from time to time, engage in forward foreign exchange transactions to provide protection against exchange-rate risk, there is no guarantee that this objective will be achieved. Consequently, there is a currency exchange risk which may affect the value of the Shares to the extent that the Fund makes investments in currencies other than the relevant currency of the Fund.

A currency conversion will take place on subscription, redemption, switching and distributions at prevailing exchange rates.

Equities

Equities invested in by a Fund may involve substantial risks and may be subject to wide and sudden fluctuations in market value, with a resulting fluctuation in the amount of profits and losses. In addition, relatively small companies in which a Fund may invest may lack management depth or the ability to generate internally, or obtain externally, the funds necessary for growth and companies with new products or services could sustain significant losses if projected markets do not materialise.

Derivatives Risk

As will be set out in the applicable Supplement, a Fund may employ various investment techniques, such as, but not limited to, forward foreign exchange contracts, currency futures, swaps, options and swaptions thereon, put and call options on securities, indices, stock index and interest rate futures and options thereon, stocklending, repurchase, reverse repurchase, warrants, structured notes and contracts-for-difference (together "derivatives") in order to afford the protection of capital or the enhancement of investment returns. Investors should note that stocklending, repurchase and reverse purchase agreements are used for efficient portfolio management and not for investment purposes. These derivative positions may be executed either on-exchange or over the counter. The primary risks associated with the use of such derivatives are (i) failure to predict accurately the direction of the market movements and (ii) market risks, for example, lack of liquidity or lack of correlation between the change in the value of the underlying asset and that of the value of a Fund's derivatives. These techniques may not always be possible or effective in enhancing returns or mitigating risk.

The use of cross-currency hedging in order to hedge foreign currency exposure of the underlying assets of a Fund on behalf of a Share Class into the base currency of that Fund or into a currency institutionally linked to the base currency may adversely affect the Net Asset Value of Share classes in the respective Fund.

A Fund's investments in over-the-counter derivatives are subject to the risk of counterparty default. In addition, a Fund may have to transact with counterparties on standard terms which it may not be able to negotiate.

The use of derivatives for any purpose by a Fund exposes it to the risk of loss due to the unexpected application of a law or regulation or because contracts are not legally enforceable or documented correctly.

Price movements of forward contracts, futures contracts, options, contracts for difference and other derivative contracts in which a Fund's assets may be invested are influenced by among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly those in currencies and interest rate-related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. Moreover, since there is generally less government supervision and regulation of emerging market stock exchanges and clearing houses than in more developed markets, a Fund may also be subject to the risk of the failure of the exchanges on which its positions trade or of their clearinghouses, and there may be a higher risk of financial irregularities and/or lack of appropriate risk monitoring and controls.

Shareholders should also note that as a result of using derivatives for the purposes of efficient portfolio management, there is a risk that in a rising market, potential gains may be restricted.

Financial derivative instruments shall not be employed by the Company until such time that a risk management process in accordance with the requirements of the Central Bank has been submitted to and cleared by the Central Bank. The Company will not utilise derivative positions which have not been included in the risk management process until such time as a revised risk management process has been submitted and cleared by the Central Bank.

Risk associated with Securities Financing Transactions

Total return swaps involve the exchange of the right to receive the total return, income plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed

or floating payments. The value of a total return swap may change as a result of fluctuations in the underlying investment exposure.

The principal risk when engaging in total return swaps and reverse repurchase transactions is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations to return securities or cash to the Fund's portfolio as required by the terms of the transaction. Counterparty risk is mitigated by the transfer or pledge of collateral in favour of the Fund.

Leverage Risk

A Fund's possible use of borrowing, leverage or derivative instruments may result in certain additional risks. Leveraged investments, by their nature, increase the potential loss to investors resulting from any depreciation in the value of such investments. Consequently, a relatively small price movement in the security underlying a leveraged instrument may result in a substantial loss to a Fund.

Counterparty and Broker Credit Risk

A Fund will be exposed to the credit risk of the counterparties or the brokers and dealers and exchanges through which, it deals, whether it engages in exchange-traded or off-exchange transactions. A Fund may be subject to risk of loss of its assets held by a broker in the event of the broker's bankruptcy, the bankruptcy of any clearing broker through which the broker executes and clears transactions on behalf of a Fund, or the bankruptcy of an exchange clearing house.

Cross liability between Funds

The Company is established as a segregated portfolio company. As a matter of Irish law, the assets of one Fund will not be available to satisfy the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability associated with segregated portfolio companies nor is there any guarantee that the creditors of one Fund will not seek to enforce such Fund's obligations against another Fund.

Currency Hedged Share Class risk

Where Classes of Shares denominated in different currencies are created within a Fund and currency hedging transactions are entered into in order to hedge any relevant currency exposure, the cost and benefit of such hedging is charged, or credited to the individual Fund and allocated to the Share Classes concerned and is reflected at each Valuation Point in the published Net Asset Value per Share. Currency hedging is based on anticipated investment performance and known cash flows. There can be no guarantee that currency hedging will match exactly the Share Class currency exposure.

Sub-Investment Grade Risks

Investment in corporate bonds which hold a sub-Investment Grade credit rating, are subject to a greater risk that such investment could not be readily sold or that the issuer could default on its obligations causing a Fund to sustain losses on such investments. The Investment Manager and, where applicable, the Sub-Investment Manager will seek to limit such risks by in-depth credit research and careful securities selection but there can be no assurance it will not acquire securities with respect to which the issuer subsequently defaults. Sub-Investment Grade debt securities are speculative and involve a greater risk of default and price changes due to changes in the issuer's creditworthiness. The market prices of these debt securities fluctuate to a greater extent than Investment Grade securities and may decline significantly in periods of general economic difficulty or uncertainty.

Substantial Repurchases

Substantial repurchases by Shareholders may necessitate liquidation of investments. It is possible that losses may be incurred due to such liquidations that might otherwise not have arisen.

Expenses Charged to Capital

Shareholders should note that if there is insufficient income, all or part of the management fees and expense of a Fund may be charged to the capital of a Fund as set out in the applicable Supplement. This will have the effect of lowering the capital value of the Shareholder's investment and "income" will be achieved by foregoing the potential for future capital growth.

Valuation Risk

Uncertainties surrounding, or delay of, the valuation of investments of any Fund could have an adverse effect on the Shareholders thereof and their investment in the Fund. Valuation of the investments, which will affect the investment management fee paid and performance fee allocated to the Investment Manager, may involve estimates, uncertainties and judgments, and if such valuations prove to be incorrect, a Fund's Net Asset Value could be overstated or understated, perhaps materially. Likewise, redemptions may be based upon such overstated or understated Net Asset Value, which may adversely affect incoming or redeeming Shareholders or remaining Shareholders.

The value of the assets held in each Fund is determined according to the valuation principles described in Schedule I – Valuations of Funds. However, in certain circumstances, valuations are based on sources deemed reliable by the Investment Manager, in consultation with the Administrator and approved by the Depositary, in their good faith judgment.

None of the Manager, the Administrator, the Depositary, the Investment Manager or a Sub-Investment Manager will bear any liability if a price, reasonably believed by it to be an accurate valuation of a particular investment, is subsequently found to be inaccurate.

Taxation

Any change in the Company's tax status or in applicable tax legislation or practice could affect the value of investments held by the Company and affect the Company's ability to provide a return to investors. Potential investors and Shareholders are advised to consult their professional advisers concerning the potential tax consequences of acquiring, holding and disposing of shares in the Company and should note that the statements on taxation, which are set out herein and in each Supplement, are based on advice which has been received by the Directors regarding the tax law and published tax authority practice in force in the relevant jurisdiction as at the date of this Prospectus and each Supplement. As is the case with any investment, there can be no guarantee that a tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely. The attention of potential investors is drawn to the tax risks associated with investing in the Company, particularly the section entitled "Taxation of the Company" starting on page 54.

Temporary suspension

Investors are reminded that in certain circumstances their right to redeem or convert Shares may be temporarily suspended as set out in more detail in the section entitled "Temporary Suspension of Valuation of the Participating Shares and of Sales, Redemptions and Exchanges" on page 53.

The value of a Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions in foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made.

Investment in cash

A Fund may also invest substantially in Cash Deposits and Money Market Instruments. Investors should note the difference between the nature of a direct investment in a Cash Deposit or Money Market Instrument and the nature of an investment in the Fund and, in particular, the risk that the principal invested in the Fund is capable of fluctuation.

Controlling Shareholder

There is no restriction on the percentage of the Company's Shares that may be owned by one person or a number of connected persons. It is possible, therefore, that one person, including a person or entity related to the Investment Manager or, a collective investment scheme managed by the Investment Manager, may obtain control of the Company or of a Fund.

Emerging Markets Risk

Emerging markets require consideration of matters not usually associated with investing in securities of issuers in developed capital markets. Emerging markets may present different economic and political conditions from those in western markets, and less social, political and economic stability. The absence, until relatively recently, of any move towards capital markets structures or to a free market economy mean that exposure to emerging markets is more risky than investing in western markets.

Investments in emerging markets may carry risks with failed or delayed settlement and with registration and custody of securities. Companies in emerging markets may not be subject to accounting, auditing and financial reporting standards or be subject to the same level of government supervision and regulation as in more developed markets. The reliability of trading and settlement systems in some emerging markets may not be equal to that available in more developed markets which may result in problems in realising investments. Lack of liquidity and efficiency in certain stock markets or foreign exchange markets in certain emerging markets may mean that from time to time there may be difficulties in purchasing or selling securities there.

The Net Asset Value of the Fund may be affected by uncertainties such as political or diplomatic developments, social instability and religious differences, changes in government policies, taxation and interest rates, currency conversion and repatriation and other political and economic developments in law or regulations in emerging markets and, in particular, the risks of expropriation, nationalisation, confiscation or other taking of assets, debt moratoria and/or debt defaults and changes in legislation relating to the level of foreign ownership in certain sectors of the economy.

There are also other risks associated with investment in emerging markets, particularly in Russia. Such risks include a potentially low level of investor protection (the absence of, or the failure to observe, legal and regulatory standards designed to protect investors); poor or opaque corporate governance (loss may be caused owing to the ineffective manner in which an organisation is controlled or managed); legislative risk (that laws may be changed with retrospective and/or immediate effect); and political risk (that the interpretation or method of enforcement of laws may be changed with a consequent and adverse effect on a Fund).

Convertible Securities

A Fund may invest in convertible securities. Convertible securities are preferred stocks or debt obligations that are convertible at a stated exchange rate or formula into common stock or other equity securities. Convertible securities generally offer lower interest or dividend yields than non-convertible securities of similar quality. Convertible securities have both equity and fixed-income risk characteristics. Like all fixed-income securities, the value of convertible securities is susceptible to the risk of market losses attributable to changes in interest rates. Generally, the market value of convertible securities tends to decline as interest rates increase and, conversely, to increase as interest rates decline.

The markets for convertible securities may be less liquid than markets for common stocks or bonds. Convertible securities are also subject to credit risk, and are often lower-quality securities.

Fixed income securities

Fixed income securities are subject to the risk of an issuer's ability to meet principal and interest payments on the obligation (credit risk), and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk). The fixed income securities in which the Fund may invest are interest rate sensitive. An increase in interest rates will generally reduce the value of fixed-income securities, while a decline in interest rates will generally increase the value of fixed-income securities. The performance of the Fund will therefore depend in part on the ability to anticipate and respond to such fluctuations on market interest rates, and to utilise appropriate strategies to maximise returns, while attempting to minimise the associated risks to investment capital.

Preferred Shares

A Fund may invest in preferred shares. Preferred shares are securities that represent an ownership interest providing the holder with claims on the issuer's earnings and assets before common shareholders, but after bond holders and other creditors. Because preferred shares are equity securities, they may be more susceptible to risks traditionally associated with equity investments than a Fund's fixed income securities. Investments in preferred stock present market and liquidity risks. The value of a preferred stock may be highly sensitive to the economic condition of the issuer, and markets for preferred stock may be less liquid than the market for the issuer's common stock. The market prices of preferred stocks are subject to changes in interest rates and are more sensitive to changes in an issuer's creditworthiness than are the prices of debt securities. Shareholders of preferred stock may suffer a loss of value if dividends are not paid. Under ordinary circumstances, preferred stock does not carry voting rights.

Depositary Receipts

A Fund's investments in foreign securities may include investment in depositary receipts, including American Depositary Receipts (ADRs), European Depositary Receipts (EDRs), and Global Depositary Receipts (GDRs).

Certain depositary receipts, typically those denominated as unsponsored, require the holders thereof to bear most of the costs of the facilities while issuers of sponsored facilities normally pay more of the costs thereof. The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited securities or to pass through the voting rights to facility holders in respect to the deposited securities, whereas the depository of a sponsored facility typically distributes shareholder communications and passes through voting rights.

Subordinated Securities

A Fund may invest in other types of fixed income securities which are subordinated or "junior" to more senior securities of the issuer, or which represent interests in pools of such subordinated or junior securities. Such securities may include below Investment Grade bonds and preferred stock. Under the terms of subordinated securities, payments that would otherwise be made to their holders may be required to be made to the holders of more senior securities, and/or the subordinated or junior securities may have junior liens, if they have any rights at all, in any collateral (meaning proceeds of the collateral are required to be paid first to the holders of more senior securities). As a result, subordinated or junior securities will be disproportionately adversely affected by a default or even a perceived decline in creditworthiness of the issuer.

Structured Securities

A Fund may invest in structured securities. The value of the principal and/or interest on such securities is determined by reference to changes in the value of specific currencies, interest rates, commodities, indices or other financial indicators (the “**Reference**”) or the relative change in two or more References. The interest rate or the principal amount payable upon maturity or redemption may be increased or decreased depending upon changes in the Reference. The terms of the structured securities may provide in certain circumstances that no principal is due at maturity and therefore may result in a loss of a Fund’s investment. Changes in the interest rate or principal payable at maturity may be a multiple of the changes in the value of the Reference. Structured securities are a type of derivative instrument and the payment and credit qualities from these securities derive from the assets embedded in the structure from which they are issued. Structured securities may entail a greater degree of risk than other types of fixed income securities.

Debt Obligations

A Fund may invest in governmental debt obligations. An investment in governmental debt obligations (sovereign debt) involves special risks that are not present in corporate debt obligations. The issuer of the sovereign debt or the governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and a Fund may have limited recourse in the event of a default. During periods of economic uncertainty, the market prices of sovereign debt may be more volatile than prices of debt obligations of other issuers. In the past, certain countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest and declared moratoria on the payment of principal and interest on their sovereign debt.

Exchange-Traded Funds

A Fund may invest in exchange-traded funds (“ETFs”). ETFs are a type of index fund bought and sold on a securities exchange. In addition, because they, unlike traditional mutual funds, are traded on an exchange, ETFs are subject to the following risks: (i) the performance of the ETF may not replicate the performance of the underlying index that it is designed to track; (ii) the market price of the ETF’s shares may trade at a premium or discount to the ETF’s net asset value; (iii) an active trading market for an ETF may not develop or be maintained; and (iv) there is no assurance that the requirements of the exchange necessary to maintain the listing of the ETF will continue to be met or remain unchanged. In the event substantial market or other disruptions affecting ETFs should occur in the future, the liquidity and value of the Fund’s shares could also be substantially and adversely affected.

Risks Related to the Investment Manager

Dependence on the Investment Manager. All decisions with respect to the trading activities of the Funds will be made by the Investment Manager or any applicable Sub-Investment Managers. Investors will not have the opportunity to evaluate fully for themselves the relevant economic, financial, and other information regarding any Fund’s investments. Shareholders will be dependent on the Investment Manager’s judgment and abilities in selecting investments and in selecting successful Sub-Investment Managers and on the Sub-Investment Manager’s judgment and abilities in selecting investments. There is no assurance that the Investment Manager or any Sub-Investment Manager will be successful. Accordingly, no subscriber should purchase any Shares unless it is willing to entrust all aspects of the selected Fund’s trading activities to the Investment Manager.

Key Personnel. The Investment Manager of each Fund is dependent upon the services of its key personnel. If the services of any such person were to become unavailable to a Investment Manager, there is no guarantee that the Investment Manager would continue to trade in accordance with the methodology set forth in the Supplement applicable to the particular Fund, or to act as a Sub-Investment Manager to the Fund.

Operating History. Potential investors have only each Fund's operating history upon which to evaluate such Fund's performance. Certain of the Funds have limited operating histories. The past performance of any Fund or of the Investment Manager cannot be relied upon as an indicator of the Fund's future performance or success. No assurance can be given that any Fund will be profitable or will not incur substantial losses.

Holdings. The Investment Manager and its affiliates (each, an "Adviser Investor") may from time to time own a significant amount of a Fund's shares (an "Adviser Investment"). An Adviser Investor may make an Adviser Investment to enable a Fund to reach critical mass or because the Adviser Investor has capital to invest and wants exposure to a Fund's investment strategy or for other reasons. If an Adviser Investment is substantial relative to a Fund's overall asset size, a partial or complete redemption of the Adviser Investment, which may occur at any time, including at the time of other inflows or outflows, may have a material adverse effect on a Fund's expense ratio, portfolio turnover and the overall ability to manage a Fund. The Adviser Investor reserves the right to redeem its Adviser Investment at any time in accordance with applicable law in its sole and absolute discretion.

Claims Against Brookfield; Regulatory Investigations. The Investment Manager's parent company ("Brookfield") is a global asset manager with many investment strategies and offices and employees around the world. Given the broad spectrum of operations of Brookfield and its affiliates, claims (or threats of claims) and governmental investigations, examinations, requests for information, audits, inquiries, subpoenas and other regulatory or civil proceedings can and do occur in the ordinary course of its and its affiliates' (including the Investment Manager's) business. Such investigations, actions and proceedings may impact the Company, including by virtue of reputational damage to Brookfield (including the Investment Manager) or otherwise. The unfavorable resolution of such items could result in criminal or civil liability, fines, settlements, charges, penalties or other monetary or non-monetary remedies or sanctions that could negatively impact Brookfield (including the Investment Manager). In addition, such actions and proceedings may involve claims of strict liability or similar risks against the Company in certain jurisdictions or in connection with certain types of activities. While Brookfield (including the Investment Manager) has implemented policies and procedures designed to protect against non-compliance with applicable rules and regulations, there is no guarantee that such policies and procedures will be adequate or will protect Brookfield in all instances.

For example, Brookfield faced anti-bribery and corruption investigations in North America related to a Brazilian subsidiary, and an action against the Brazilian subsidiary and three employees was commenced by a public prosecutor in Brazil in 2012. Based on the results of both internal and independent investigations by a major New York based law firm which has a specialty in this area, as well as the results of investigations concluded by North American regulatory authorities, Brookfield does not believe that the Brazilian subsidiary engaged in any wrongdoing. However, the final outcome of this or any other claims, governmental investigations, audits or inquiries cannot be predicted with certainty and any unfavorable resolution could negatively impact Brookfield (including the Investment Manager).

Other Clients

The Investment Manager may manage other investment vehicles and has not agreed to commit any particular percentage of its time or resources to the management of any one of the Funds.

Compulsory Redemption of Shares

The Shares of any Shareholder may be compulsorily redeemed as more fully described in the section headed "Compulsory Redemptions" on page 48.

Different Investment Experience of Investors

Because investors will both acquire and redeem Shares of a Fund at different times, certain investors may experience a loss on their Shares even though other investors experience gains and the particular Fund, as a whole, is profitable. Consequently, the performance of a Fund will not necessarily be representative of any particular Shareholder's investment experience in it.

Charges

In addition to normal and usual operating expenses, each Fund will be subject to the management fee and the administration fee, payable irrespective of profitability, and its transactional expenses and custodial costs.

In addition to the risks set out above, any risks specific to a particular Fund will be as set out in the applicable Supplement.

The foregoing list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the Fund. Prospective investors should read this entire Prospectus and consult with their own advisers before deciding to invest in the Fund.

Cyber Security Risk

Cyber security breaches may occur allowing an unauthorised party to gain access to assets of the Funds, Shareholder data, or proprietary information, or may cause the Company, the Manager, the Investment Manager, the Administrator or the Depository to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cyber security breaches which include unauthorised access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cyber security breach could result in the loss or theft of Shareholder data (including information in relation to identity) or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Company, the Manager, the Investment Manager, the Administrator, the Depository, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, such incidents could have a material adverse effect on a Fund. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

Data Protection Risk

In order to maintain security and to prevent infringement of Data Protection Law, the Company, the Administrator or the Depository where acting as a "data controller" are each required to evaluate the risks inherent in the processing of data and implement measures to mitigate those risks, such as encryption. Such measures are required to ensure an appropriate level of security, including confidentiality, taking into account the state of the art and the costs of implementation in relation to the risks and the nature of the personal data to be protected. Potential investors and Shareholders should be aware that certain data security risks can arise by processing of personal data, such as accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed which may in particular lead to physical, material or non-material damage. There may be instances where processing operations by the Company, the Manager,

the Investment Manager, the Administrator and/or the Depositary are likely to result in a high risk to the rights and freedoms of potential investors or Shareholders, however, the relevant data controller will be responsible for the carrying out of a data protection impact assessment to evaluate, in particular, the origin, nature, particularity and severity of any such risk. A personal data breach may, if not addressed in an appropriate and timely manner, result in physical, material or non-material damage to potential investors or Shareholder such as loss of control over their personal data or limitation of their rights, discrimination, identity theft or fraud, financial loss, damage to reputation, loss of confidentiality of personal data protected by professional secrecy or any other significant economic or social disadvantage to the natural person concerned and/or the Company.

1. Risks Associated with Umbrella Fund Cash Accounts

An umbrella fund cash account will operate in respect of the Company rather than a relevant Fund and the segregation of Unprocessed Monies from the liabilities of Funds other than the relevant Fund to which the Unprocessed Monies relate is dependent upon, among other things, the correct recording of the assets and liabilities attributable to individual Funds by or on behalf of the Company.

In the event of an insolvency of the Fund, there is no guarantee that the Fund will have sufficient monies to pay unsecured creditors (including the investors entitled to Unprocessed Monies) in full.

Monies attributable to any other Funds will also be held in the umbrella fund cash accounts. In the event of the insolvency of a Fund (an "Insolvent Fund"), the recovery of any amounts to which another Fund (the "Beneficiary Fund") is entitled, but which may have transferred in error to the Insolvent Fund as a result of the operation of the umbrella fund cash account, will be subject to applicable law and the operational procedures for the umbrella fund cash account. There may be delays in effecting, and/or disputes as to the recovery of, such amounts, and the Insolvent Fund may have insufficient funds to repay amounts due to the Beneficiary Fund.

In the event that an investor fails to provide the subscription monies and all requisite documentation associated with its subscription application within the timeframe stipulated in this Prospectus, the investor will be required to indemnify the Fund against the liabilities that may be incurred by it. The Company may cancel any Shares that have been issued to the investor and charge the investor interest and other expenses incurred by the relevant Fund. In the event that the Company is unable to recoup such amounts from the defaulting investor, the relevant Fund may incur losses or expenses in anticipation of receiving such amounts, for which the relevant Fund, and consequently its Shareholders, may be liable.

It is not expected that any interest will be paid on the amounts held in the umbrella fund cash account. Any interest earned on the monies in the umbrella fund cash account will be for the benefit of the relevant Fund and will be allocated to the Fund on a periodic basis for the benefit of the Shareholders at the time of the allocation.

The Central Bank's guidance titled "*Umbrella funds - cash accounts holding subscription, redemption and dividend monies*" is new and, as a result, may be subject to change and further clarification.

2. Common Reporting Standard ("CRS") Risks

The requirements of the CRS as implemented in Ireland may impose additional due diligence procedures, systems and/or administrative burdens and costs on the Company and/or its Shareholders. Investors are reminded that their personal and account information may need to be reported to the relevant tax authorities. Where investors provide inaccurate or incomplete information, the Funds could become liable to withholding taxes and other penalties for non-compliance. The Company has the ability to compulsorily redeem recalcitrant investors and make withholdings from distributions/redemption proceeds to pass on any CRS related financial penalties and costs suffered

by a Fund solely to any recalcitrant investors that have caused the liabilities rather than allowing such liabilities to be borne by the investors as a whole.

US Foreign Account Tax Compliance Act ("FATCA")

Pursuant to FATCA, the Company (or each Fund) will be required to comply (or be deemed compliant) with extensive reporting and withholding requirements designed to inform the U.S. Department of the Treasury of U.S.-owned foreign investment accounts. Failure to comply (or be deemed compliant) with these requirements will subject the Company (or each Fund) to U.S. withholding taxes on certain U.S.-sourced income and gains. Pursuant to an intergovernmental agreement between the United States and Ireland, the Company (or each Fund) may be deemed compliant, and therefore not subject to the withholding tax, if it identifies and reports U.S. taxpayer information directly to the Revenue Commissioners of Ireland. Investors may be requested to provide additional information to the Company to enable the Company (or each Fund) to satisfy these obligations. Failure to provide requested information may subject an investor to liability for any resulting U.S. withholding taxes, U.S. tax information reporting and/or mandatory redemption, transfer or other termination of the investor's interest in its Shares.

Prospective investors should consult their own tax advisor with regard to US federal, state, local and non-US tax reporting and certification requirements associated with an investment in the Company.

Brexit

The terms of any withdrawal of the UK's membership from the European Union (also known as 'Brexit') and the on-going relationship between the UK and the European Union post-Brexit remains uncertain and this uncertainty may impact on the Company and/or the financial markets within which it operates.

Brexit has led to political, legal, tax and economic uncertainty. This may impact on the general economic conditions in the UK and various other countries. It is not yet clear whether and to what extent EU regulations may remain applicable or may be replaced by different UK regulations with respect to the activities of any UK service provider or counterparty utilised by the Company following Brexit or what legal or cooperation arrangements the UK may put in place with the European Union as a result of Brexit. Investors should be aware that Brexit and any associated arrangements, negotiations and notifications and any associated changes to legislation or regulation may introduce potentially significant new uncertainties and instabilities in the financial markets. These uncertainties and instabilities could have an adverse impact on the business, financial condition, results of operations and prospects of the Company and certain of its service providers and counterparties, and could therefore also be detrimental to Shareholders.

Brexit may also adversely affect the ability of UK service providers or UK counterparties to access markets, make investments or enter into agreements (on either their own behalf or on behalf of the Company or a Fund), or continue to work with non-UK counterparties and service providers, all of which may result in increased costs to the Company and/or a Fund. It is possible that UK investors in the Company may be subject to fewer regulatory protections than would otherwise be the case post-Brexit and UK based investors may no longer be allowed to invest in a Fund or may suffer negative consequences from an investment in a Fund.

MiFID II

The package of European Union market infrastructure reforms known as "MiFID II" (Markets in Financial Instruments Directive 2014/65/EU) is expected to have a significant impact on the European capital markets. MiFID II, which took effect from 3 January 2018, increases the regulation of trading platforms and firms providing investment services.

Among its many reforms, MiFID II will bring in significant changes to pre-trade and post-trade transparency obligations in respect of financial instruments admitted to trading on EU trading venues, including a new transparency regime for non-equity financial instruments; an obligation to execute transactions in shares and derivatives on a regulated trading venue; and a new focus on regulation of algorithmic and high frequency trading. These reforms may lead to a reduction in liquidity in certain financial instruments, as some of the sources of liquidity exit European markets, and an increase in transaction costs, and, as a consequence, may have an adverse impact on the ability of the Investment Manager to execute the investment program effectively.

New rules requiring unbundling the costs of research and other services from dealing commission and further restrictions on the Investment Manager's ability to receive certain types of goods and services from brokers may result in an increase in the investment-related expenditure of the Company and/or negatively impact the Investment Manager's ability to access investment research.

Government Intervention in Financial Markets

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region may adversely affect companies in a different country or region. In the past, instability in the financial markets has led governments and regulators around the world to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that have experienced extreme volatility, and in some cases a lack of liquidity. Governments, their regulatory agencies, or self-regulatory organizations may take actions that affect the regulation of the instruments in which a Fund invests, or the issuers of such instruments, in ways that are unforeseeable. Legislation or regulation may also change the way in which the Company or a Fund is regulated. Such legislation or regulation could limit or preclude a Fund's ability to achieve its investment objective.

Governments or their agencies may also acquire distressed assets from financial institutions and acquire ownership interests in those institutions. The implications of government ownership and disposition of these assets are unclear, and such a program may have positive or negative effects on the liquidity, valuation and performance of a Fund's portfolio holdings. Furthermore, volatile financial markets can expose a Fund to greater market and liquidity risk and potential difficulty in valuing portfolio instruments held by a Fund.

In addition to the risks discussed above, the change in presidential administration could significantly impact the regulation of U.S. financial markets. Areas subject to potential change, amendment or repeal include the U.S. Dodd-Frank Wall Street Reform and Consumer Protection Act, including the Section 619 (the "Volcker Rule") and various swaps and derivatives regulations, the authority of the Federal Reserve Board and Financial Stability Oversight Council, and renewed proposals to separate banks' commercial and investment banking activities. Other potential changes that could be pursued by the new presidential administration could include the United States' withdrawal from, or attempt to renegotiate, various trade agreements or the taking of other actions that would change current trade policies of the United States. It is not possible to predict which, if any, of these actions will be taken or, if taken, their effect on the economy, securities markets or the financial stability of the United States. The Company and/or a Fund may be affected by governmental action in ways that are not foreseeable, and there is a possibility that such actions could have a significant adverse effect on the Company and/or a Fund and a Fund's ability to achieve its investment objective.

Pandemic could result in adverse performance of a Fund

A new strain of coronavirus, COVID-19, has quickly spread, resulting in severe illness and, in some cases, death. The spread of COVID-19 has adversely affected markets and world economies. Continued proliferation of COVID-19 may adversely affect the Company, a Fund and/or the Shareholders, which could be more or less adverse depending on, among other things: geographical range, infection rates, severity and mortality of the virus; the types of measures taken by governments

and private organizations to prevent the spread of the virus; the timing and efficacy of a vaccine; and the effect of the virus on global markets and interest rates. Early responses have included quarantines or bans on public events, each of which can adversely affect commerce, spending, local economies and businesses dependent on transportation and personal interaction. COVID-19 has been declared a pandemic by The World Health Organization and U.S. Center for Disease Control which could lead to unforeseeable negative consequences to a Fund, including the suspension of a Fund's Net Asset Value calculation and the suspension of subscriptions, redemptions and/or switches in respect a Fund.

FEES, COSTS AND EXPENSES

Management Fee

Under the provisions of the Management Agreement, the Company will pay the Manager a fee not exceeding 0.02% per annum of the Net Asset Value of a Fund as of the relevant Valuation Date subject to the minimum fee of €50,000 per annum for the initial Fund and €12,500 per annum for each incremental Fund. The management fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods).

The Manager will also be entitled to reimbursement of all reasonable properly-vouched out-of-pocket expenses (including VAT thereon) incurred in the performance of its duties hereunder.

Investment Management Fee

Under the provisions of the investment management agreement, the Company will pay the Investment Manager a fee in respect of its duties as investment manager at an agreed upon percentage of the closing Net Asset Value of the relevant Fund (plus VAT, if any) prior to the accrual of the investment management fee as of each Valuation Date. The investment management fee will accrue on and will be reflected in the Net Asset Value calculated on each Valuation Date and will be paid monthly in arrears. Further details of such fees will be set out in the applicable Supplement.

The Investment Manager shall also be entitled to be repaid all of its reasonable out of pocket expenses incurred in the performance of its duties hereunder.

The Investment Manager shall pay, out of its own funds, the fees payable to a Sub-Investment Manager and may pay all or any part of its investment management fee to the Sub-Investment Manager of the relevant Fund.

Administration Fee

Under the provisions of the Administration Agreement, the Administrator is entitled to a fee for the provision of fund accounting and administrative services at a rate which will be set out in the Supplement for each Fund. The administration fee will accrue daily and will be paid monthly in arrears out of the assets of the Fund.

The Administrator shall also be entitled to be repaid out of the assets of the Fund all of its reasonable out-of-pocket expenses incurred on behalf of the Fund which shall include legal fees, couriers' fees and telecommunication costs and expenses.

Depositary Fee

Under the provisions of the Depositary Agreement, the Depositary is entitled to a fee for trustee and custody services at a rate which will be set out in the Supplement for each Fund. The depositary fee will accrue daily and will be payable monthly in arrears out of the assets of the relevant Fund.

The Depositary shall be reimbursed all reasonable out-of-pocket expenses incurred by it on behalf of the Fund (such as telephone and fax expenses) including stamp duties and registration fees, banking maintenance fees and interbank transfer fees, and the fees and expenses of sub-custodians, at normal commercial rates.

Where the Depositary is required to carry out additional duties to those originally agreed, including the provision of additional reports, amending the structure of a Fund or its documentation or terminating a Fund or winding up the Company, and this requires additional work to be performed by or review of the documents by the Depositary, the Depositary will be entitled to charge additional fees

at a rate as may be agreed in advance with the Directors. Shareholders will be notified of any increase in custody fees due to such additional work before such increase takes effect.

Director's Remuneration

The Directors shall be entitled to a fee in remuneration for their services at a rate to be determined from time to time by the Directors, but so that the aggregate amount of Directors' remuneration in any one year shall not initially exceed €110,000. The Directors may also be reimbursed for expenses incurred in connection with the business of the Company and may, if the Directors so determine (and subject to subsequent Shareholder ratification in a general meeting), receive additional remuneration for special services rendered to or at the request of the Company. Such fees and expenses shall be payable by the Company.

Establishment Expenses

The fees and expenses incurred in connection with the establishment of the Company, the preparation and publication of this Prospectus and all legal costs and out-of-pocket expenses did not exceed US\$115,000.

All of the establishment expenses were initially borne by the Funds of the Company established at the time of the establishment of the Company.

Soft Commissions

A Sub-Investment Manager may effect transactions by or through the agency of another person with whom the Sub-Investment Manager for a Fund or any of its affiliates have arrangements under which that party will from time to time provide to or procure for the Sub-Investment Manager or any of its affiliates, goods, services or other benefits (such as research and advisory services, computer hardware associated with specialised software research measures and performance measures etc.), the nature of which must be such that their provision can reasonably be expected to assist in the provision of investment services to the Fund for which the Sub-Investment Manager is providing advice and for which no direct payment is made but instead the Sub-Investment Manager and any of its affiliates undertake to place business with that party. Such arrangements are known as "soft commission" arrangements.

Where soft commission arrangements are to be entered into by, or on behalf of, a Fund, appropriate arrangements will be made to ensure that:

the broker or counterparty to the arrangement has agreed to provide best execution to the Fund;

the benefits provided under the arrangement will be those which assist in the provision of investment services to the Fund; and

there will be adequate disclosure of such arrangements in the periodic reports relating to the Fund.

Other Expenses

The Company will also pay the following costs and expenses:

(a) all stamp duty (other than any payable by an applicant for Participating Shares or by a Shareholder) or other tax or duty which may be levied or payable from time to time, on or in respect of, the Company or on creation or issue of Shares or arising in any other circumstance;

all fiscal and purchase or fiscal and sale charges arising on any acquisition or disposal of investments;

all expenses incurred in relation to the registration of any investments into and transfer of any investments out of the name of the Company or its nominees or the holding of any investment or the custody of investments and/or any Prospectus or title thereto (including bank charges, insurance of documents of title against loss in shipment, transit or otherwise) and charges made by the registrar for acceptance of documents for safe custody, retention and/or delivery;

all expenses incurred in the collection of income of the Company;

all ongoing fees & expenses of investing in various markets including, but not limited to, set-up costs and account maintenance costs;

all costs and expenses of, and incidental to, preparing resolutions of Shareholders for the purpose of securing that the Company conforms to legislation coming into force after the date of the incorporation of the Company (including costs and expenses incurred in the holding of a meeting of Shareholders, where necessary);

all taxation payable in respect of the holding of, or dealings with, or income from, the Company relating to the Company's property and in respect of allocation and distribution of income to Shareholders other than tax of Shareholders or tax withheld on account of Shareholders' tax liability;

all commissions, stamp duty, value added tax and other costs and expenses (including brokerage charges) of, or incidental to, any acquisition, holding, realisation or other dealing in investments, foreign exchange options, financial futures, contracts for differences or any other derivative instruments or the provision of cover or margin therefore or in respect thereof or in connection therewith;

all stationery, printing and postage costs in connection with the preparation and distribution of cheques, warrants, tax certificates, statements, accounts and reports made, issued or despatched pursuant to the Articles;

the fees and expenses including any VAT thereon of the auditors, tax and legal advisers and other professional advisers to the Company;

any annual regulatory fees payable including any VAT thereon to the Central Bank;

any fees payable including any VAT thereon by the Company to any regulatory authority in any other country or territory, the costs and expenses (including legal, accountancy and other professional charges and printing costs) incurred in meeting on a continuing basis the notification, registration and other requirements of each such regulatory authority, and any fees and expenses of representatives or facilities agents in any such other country or territory;

all fees and costs relating to a scheme of reconstruction and amalgamation (to the extent it has not been agreed that such expenses should be borne by other parties) under which the Company acquires property;

all research and due diligence fees and expenses (including research and due diligence related travel expenses);

all other costs and expenses incurred by the Company and any of its appointees which are permitted by the Articles; and

fees in respect of company secretarial services.

The foregoing expenses will be properly vouched for.

MANAGEMENT AND ADMINISTRATION

The Directors

The Directors of the Company are:

Heather Goldman

Heather Goldman has extensive experience in executive leadership, business development and marketing of investment vehicles similar to those managed by the Investment Manager. Heather is a financial services executive, who over a twenty-five plus year career has worked in a senior capacity across a diverse array of firms in the private equity, investment management, fintech and commercial banking industries. She previously served as head of global marketing for the Investment Manager, and as such has extensive knowledge of the Investment Manager, its operations and personnel. She also has experience working in other roles for the parent company of the Investment Manager. Prior to working with the Investment Manager, she acted as CEO and Chairman, co-founding and managing New York based venture-backed Capital Thinking, a financial services risk-management business. More recently, in addition to her philanthropic activities, Ms. Goldman was co-founder of venture-backed Capstak, a capital markets fintech company, serving as CEO and Chairman.

Máire O'Connor

Máire O'Connor (Irish resident) is a solicitor and was previously a partner at McCann FitzGerald and head of the firm's Investment Management Group. Prior to joining McCann FitzGerald, in 2004, Máire was a partner at Ernst & Young where she headed up the Investment Funds Regulatory and Stock Exchange Listing practice, a practice which she established at the start of 2000.

Since moving to the private sector from the Civil Service (in 1989), Máire has been a key figure in the development of Ireland's International Financial Services Centre (IFSC), and the international investment funds industry in Ireland, in particular. She chaired the Taoiseach's IFSC Investment Funds Group for seven years and was a member of the Company Law Review Group for eight years. Máire was also a non-executive director of the Irish Stock Exchange from 2008 to 2013 and chaired the Exchange's Audit Committee and Employee Pensions Trustees.

David Levi

David Levi is a Managing Partner at Brookfield Asset Management and Chief Executive Officer of Brookfield's Public Securities Group. He has over 26 years of industry experience in asset management. David's background experience includes extensive strategy-related, client-facing, investment platform development and business management globally, within both the institutional and high net worth markets. Prior to joining the firm in 2014, David was Managing Director and Head of Global Business Development at Nuveen Investments, after holding similar positions at AllianceBernstein Investments and Legg Mason, and senior strategy roles within J.P. Morgan Asset Management. He began his career in quantitative and risk research at AllianceBernstein. David is a Fellow of the 2019 class of the Aspen Finance Leaders Fellowship, is a member of the Aspen Global Leadership Network, and holds the Chartered Financial Analyst designation. He earned a Master of Business Administration degree from Columbia University and a Bachelor of Arts degree from Hamilton College.

Desmond Quigley

Desmond Quigley is a non-executive director of a number of investment funds and financial services companies. From 1995 to 2010, Mr Quigley was head of the Financial Services Group at Ernst & Young in Ireland, covering Asset Management, Banking and Insurance Business. Prior to this, from 1988 to 1994, Mr Quigley served two terms as Managing Partner of Ernst & Young in Ireland. Before that, Mr

Quigley was appointed as a partner of Ernst & Whinney in Ireland in 1977. Mr Quigley is a chartered accountant and is a Fellow of Chartered Accountants Ireland.

All of the Directors are non-executive directors and their address, for the purpose of the Company, is the registered office of the Company.

Jonathan Tyras

Jonathan Tyras was previously the General Counsel, Chief Financial Officer and a Managing Director of the Investment Manager. Having served in this role for over ten years, Jonathan has extensive knowledge of the Investment Manager, its operations, personnel and financial resources. Prior to joining the Investment Manager in 2006, Jonathan spent eight years as a capital markets attorney with a major international law firm after beginning his career with Ernst & Young LLP.

The Manager

The Company has appointed the Manager pursuant to the terms of the Management Agreement.

The Manager is a limited company incorporated under Irish law on 4 December 2006, having its registered office at 5 George's Dock, IFSC, Dublin 1, Ireland. The company secretary of the Manager is KB Associates of 5 George's Dock, IFSC, Dublin 1, Ireland. The Manager is authorised by the Central Bank to act as a UCITS management company. The Manager has an issued and paid up share capital of €6,750,000. The ultimate parent of the Manager is King TopCo Ltd.

Under the terms of the Management Agreement, the Manager is appointed to carry out the management, distribution and administration services in respect of the Company.

The Manager must perform its duties under the Management Agreement in good faith and in a commercially reasonable manner using a degree of skill, care and attention reasonably expected of a professional manager and in the best interests of the Shareholders. The Manager has the discretion to delegate all the powers, duties and discretions exercisable in respect of its obligations under the Management Agreement as the Manager and any delegate may from time to time agree. Any such appointment will be in accordance with the requirements of the Central Bank.

The Manager has delegated the administration of the Company's affairs, including responsibility for the preparation and maintenance of the Company's records and accounts and related fund accounting matters, the calculation of the Net Asset Value per Share and the provision of registration services in respect of the Funds to the Administrator.

The Manager has further delegated the investment management and distribution responsibilities in respect of the Funds to the Investment Manager.

The Management Agreement provides that the appointment of the Manager will continue in force unless and until terminated by either party on ninety days' prior written notice or otherwise in accordance with the terms of the Management Agreement. The Management Agreement contains provisions regarding the Manager's legal responsibilities. The Manager is not liable for losses, actions, proceedings, claims, damages, costs, demands and expenses caused to the Company unless resulting from its negligence, wilful default or fraud.

The Manager has established, implemented and maintains a remuneration policy which meets the requirements of, and complies with the principles set out in UCITS V and the ESMA Remuneration Guidelines relating to same (the "**Remuneration Guidelines**") and ensures that the Investment Manager has an appropriate remuneration policy in place which is in compliance with the Remuneration Guidelines.

The Manager's remuneration policy applies to staff whose professional activities might have a material impact on the Company's risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the Company. The Manager's remuneration policy is accordingly consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the Company.

Consistent with the principal of proportionality referred to in the Remuneration Guidelines the payout process requirements in the Remuneration Guidelines have been disapplied in the Manager's remuneration policies. This disapplication has been made following assessment by the Manager of each of the payout process requirements and takes account of specific facts applicable to each and is appropriate to each size, internal organisation and the nature, scope and complexity of its activities.

The Remuneration Policy of the Manager can be found at www.kbassociates.ie. A copy can be requested free of charge from the Manager.

The Manager's main business is the provision of fund management services to collective investment schemes such as the Company. The Manager is legally and operationally independent of the Administrator, the Depositary and the Investment Manager.

Directors of the Manager

The Directors of the Manager are:

Mike Kirby (Irish resident).

Mr. Kirby is the Managing Principal at KB Associates, a firm which provides a range of advisory and project management services to the promoters of offshore mutual funds. He has previously held senior positions at Bank of New York (previously RBS Trust Bank) (1995 to 2000) where he was responsible for the establishment and ongoing management of its Dublin operations. He has also held senior positions in the custody and fund administration businesses of JP Morgan in London and Daiwa Securities in Dublin. Mr. Kirby holds a Bachelor of Commerce (Honours) Degree from University College Dublin and is a Fellow of the Institute of Chartered Accountants in Ireland.

Peadar De Barra (Irish resident)

Mr. De Barra is an executive director of KBA Consulting Management Limited with responsibility for operations and compliance. Prior to his appointment to KBA Consulting Management Limited he was a senior consultant within KB Associates' consulting business where he was responsible for advising investment funds on a range of risk and compliance matters. In this role he was responsible for developing risk management programmes for funds operating across a range of investment strategies. Mr. De Barra joined KB Associates in 2008. Prior to this Mr. De Barra was Vice-President at Citi Fund Services (Ireland) Ltd (formerly BISYS), where he was responsible for the Financial Administration team (2003 to 2007). Prior to this Mr. De Barra was an accountant and auditor with PricewaterhouseCoopers Dublin (1998 to 2002) and was an assistant manager at AIB/BNY Fund Management (Ireland) Ltd (2002 to 2003) with responsibilities for statutory reporting. In addition, Mr. De Barra also acts as a director to a number of investment funds, investment managers and management companies.

Mr. De Barra holds a Bachelor of Commerce (Honours) Degree from National University of Ireland Galway and is a Fellow of the Institute of Chartered Accountants in Ireland.

Frank Connolly (Irish resident)

Frank has been active in the mutual and hedge funds industry since 1997. He has particular expertise in the preparation and audit of financial statements for investment funds and in the regulatory and GAAP requirements applicable to the investment management industry. He also has expertise in the development of compliance programs for both AIFMD and UCITS funds as well as advising asset managers on the establishment and ongoing operation of both UCITS and non-UCITS funds. He is an executive director of KB Associates' AIFMD and UCITS authorised management company, KBA Consulting Management Limited.

Prior to joining KB Associates, Frank was Senior Manager in the Investment Management Group at PricewaterhouseCoopers Dublin where he specialised in the audit of UCITS funds. Previously he had been with PricewaterhouseCoopers in the Cayman Islands where his responsibilities included the provision of audit services to a wide range of alternative asset managers.

Frank holds a Bachelor of Commerce Degree (Hons) from University College Dublin and is a Fellow of the Institute of Chartered Accountants in Ireland.

Samantha McConnell (Irish resident)

Ms. McConnell has over 20 years' experience in the financial and pensions industry covering administration, investment services, change and integration management as well as expert in devising solutions to complex issues. Ms. McConnell is an independent, non-executive director (INED) of KBA Consulting Management Limited and is the Chair of its Independent Investment Committee. The function of the Investment Committee is the formulation, approval and oversight of the implementation of each fund's investment objectives and policies by the relevant investment manager. The Investment Committee also evaluates the market overview, each Fund's performance and any changes of investment objective of a Fund. Ms. McConnell is also an INED and interim Chair for another significant fund management company as well as INED on a number of fund boards. Ms. McConnell is a director for Willis HC&B as well as non-executive director for CFA Ireland.

Ms. McConnell holds a first class honours degree in commerce from University College Dublin and graduated first in Ireland in the ACCA exams. She is a CFA Charterholder, a holder of the Institute of Directors Diploma in Company Direction and was awarded the Graduate of Merit award from the Institute of Directors.

John Oppermann (Irish resident)

Mr Oppermann is resident in Ireland and has been involved in the Investment Funds, Asset Management and Fund Services industry for over 30 years in London and Dublin. He has extensive experience with investment funds domiciled in various locations and across a variety of asset classes and investment strategies. Mr. Oppermann is an independent, non-executive director (INED) of KBA Consulting Management Limited and is the Chair of its Independent Risk Committee. Mr. Oppermann co-founded The Fund Governance Boardroom Panel, a firm which specialises in Collective Investment Governance. He established JPO Corporate Services in 2009 to provide corporate services to entities establishing operations in Ireland and has acted as a consultant within the hedge fund industry since 2008. From 2004 to 2008 Mr. Oppermann held the position of General Manager of Olympia Capital Ireland, and senior positions at RMB International (part of the First Rand Group) and International Fund Services (IFS) from 2001 to 2004. Mr. Oppermann established Capita's Registrar operation in Ireland after they purchased the share registration business of PwC and was Country Manager from 1998 to 2001. From 1995 to 1998 Mr. Oppermann was a member of the senior management team at Mellon Fund Administration (Ireland). Prior to that Mr. Oppermann held a number of senior financial and operational positions in the investment management, pensions and financial services divisions with The Prudential Corporation in London from 1987 to 1995. Mr. Oppermann is a non-executive director for a number of Companies and Funds. He is one of the founding members of the Irish Fund Directors Association and has served on council from 2015 – 2018.

Mr. Oppermann is a Fellow of the Chartered Association of Certified Accountants, holds an MBA from the Michael Smurfit Graduate School of Business and has received the accreditation of Certified Investment Fund Director from the Institute of Banking School of Professional Finance.

The Investment Manager

Brookfield Public Securities Group LLC (the “**Investment Manager**”) serves as the Company’s investment manager and promoter. The Investment Manager is an SEC-registered investment adviser and represents the public securities platform of Brookfield Asset Management. The Investment Manager provides global listed real assets strategies including real estate equities, infrastructure equities, real asset debt and diversified real assets. With more than \$18 billion of assets under management as of 31 March, 2018, the Investment Manager manages separate accounts, registered funds and opportunistic strategies for institutional and individual clients, including financial institutions, public and private pension plans, insurance companies, endowments and foundations, sovereign wealth funds and high net worth investors. The Investment Manager is a wholly owned subsidiary of Brookfield Asset Management, a leading global alternative asset manager with approximately \$285 billion of assets under management as of 31 March, 2018. For more information, go to www.brookfield.com.

The Investment Manager currently serves as the investment manager to all the Funds pursuant to an investment management agreement between the Company, the Manager and the Investment Manager dated 6 December 2021 (the “**Investment Management Agreement**”). Pursuant to the Investment Management Agreement, the Investment Manager furnishes a continuous investment program for the Funds’ portfolios, makes the day-to-day investment decisions for the Funds, arranges the portfolio transactions of the Funds, and generally manages the Funds’ investments in accordance with the stated policies of the Fund, subject to the general supervision of the Manager and the Board. The Investment Management Agreement provides, inter alia, that:

- (i) the appointment of the Investment Manager shall continue and remain in force unless and until terminated by any party giving to the other not more than 90 days’ nor less than 30 days’ notice in writing;
- (ii) the Company shall indemnify and keep indemnified and hold harmless, the Manager and the Investment Manager (and each of its partners, officers, employees and agents) out of the assets of each Fund from and against any liabilities and expense (including legal fees and expenses) reasonably incurred by the Investment Manager in connection with the performance of its duties and/or the exercise of its powers under the Investment Management Agreement in the absence of any wilful misfeasance, negligence, material breach of Agreement, bad faith, reckless disregard or wilful default in the performance or non-performance by the Investment Manager of its duties under the Investment Management Agreement. The benefit of any such indemnity shall be extended to any Sub-Investment Manager appointed by the Investment Manager in accordance with the provisions of the Investment Management Agreement provided always that the scope and terms of such indemnity provided to that Sub-Investment Manager do not materially differ from the scope and terms of the indemnity provided to the Investment Manager pursuant to the Investment Management Agreement; and
- (iii) the Investment Manager is entitled to payment of fees for its services and reimbursement of expenses, as more fully described in the sections headed “Fees, Costs and Expenses – Investment Management Fee” on page 33.

The Investment Manager may, with the prior consent of the Manager, appoint a Sub-Investment Manager to certain Funds with responsibility for investing the assets of that Fund. Details of each Sub-Investment Manager will be as set out in the applicable Supplement.

The Administration Agreement

The Company and the Manager have appointed the Administrator under the terms of an agreement dated on or about 6 December 2021 (the “**Administration Agreement**”) to carry on the general administration and accounting of the Company and to act as registrar and transfer agent to the Company.

The Administrator is a company incorporated with limited liability in Ireland on 31 January 1997. The Administrator is engaged in the business of, inter alia, providing fund administration services to and in respect of collective investment undertakings and investment companies. The Administrator has responsibility for the administration of the Company’s affairs including the calculation of the Net Asset Value and preparation of the accounts of the Company, subject to the overall supervision of the Directors.

The Administrator is a wholly-owned subsidiary of RBC Investor Services Limited, which is a UK incorporated company with its registered address at 77 Queen Victoria Street, London, UK.

The Administration Agreement provides, inter alia, that:

the appointment of the Administrator shall continue and remain in force unless and until terminated immediately upon any party (a) going into liquidation, (b) ceasing to be permitted to act in its current capacity, (c) commits a material breach of the agreement or (d) in the event that an administrator/examiner is appointed or by either party giving to the other not less than 90 days’ written notice.

the Company shall indemnify the Administrator against all actions, claims, costs, damages, liabilities and expenses incurred by the Administrator, its Directors, officers, shareholders, employees, servants or agents in the performance of any of its obligations or duties under the Administration Agreement including, without limitation, complying with any proper instructions otherwise than due to the fraud, bad faith, negligence, recklessness, or wilful default of the Administrator, its Directors, officers, employees, servants or agents in the performance of any of its obligations or duties under the Administration Agreement. Any indemnity expressly given to the Administrator under the Administration Agreement shall be in addition to, and without prejudice to, any indemnity allowed at law.

the Administrator is entitled to payment of fees for its services and reimbursement of expenses, as more fully described in the section headed “FEES AND EXPENSES - Administration Fee” on page 33.

The Depositary Agreement

The Company has appointed the Depositary under the Depositary Agreement to act as the depositary in respect of the Company’s assets.

The Depositary is a branch of RBC Investor Services Bank S.A. RBC Investor Services Bank S.A. is a company incorporated with limited liability in Luxembourg on 30 March 1994. The head office of RBC Investor Services Bank S.A. is 14, Porte de France, L-4360 Esch-sur-Alzette, Luxembourg. The Depositary is responsible for providing safe custody, oversight and asset verification services for all of the Company’s assets which are held under the control of the Depositary. Pursuant to the UCITS Regulations, the Depositary, in respect of the Company, shall, inter alia, monitor and verify the Company’s cash flows, custody all of the Company’s financial instruments that are capable of being held in custody and shall perform verification and record keeping services in respect of the Company’s other assets. The main activity of the Depositary is to act as trustee and custodian of collective investment schemes such as the Company. The Depositary has been approved by the Central Bank to act as depositary for the Company.

The Depositary Agreement provides, *inter alia*, that:

- (i) the appointment of the Depositary shall continue and remain in force unless and until terminated immediately upon any party (a) going into liquidation (b) ceasing to be permitted to act in its current capacity or (c) commits a material breach of the agreement or by any party giving to the other not less than 90 days' written notice

the Company agrees to indemnify and keep indemnified the Depositary, its directors, officers, employees and shareholders from and against any and all actions, proceedings, claims, costs, demands and expenses (including, without limitation, legal fees and other costs, charges and expenses in enforcing or attempting to enforce this indemnity) which may be brought against, suffered or incurred by the Depositary other than those resulting from the unjustifiable failure to perform its obligations or its improper performance of such obligations;

the Company may invest in markets where custodial and/or settlement systems are not fully developed and, therefore, the assets of the Company which are traded in such markets and which have been entrusted to sub-custodians where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Depositary will have no liability. Such countries include Argentina, Russia, Nigeria and Vietnam; and

the Depositary is entitled to payment of fees for its services and reimbursement of expenses, as more fully described in the section headed "FEES AND EXPENSES - Depositary Fee" on page 33.

A list of the delegates and sub-delegates who have been appointed by the Depositary can be found in Schedule 5 hereto. Any fees and transaction charges associated with the use of such sub-delegates shall be at normal commercial rates. Up-to-date information on the identity of the Depositary, a description of the Depositary's duties; a description of any conflicts of interest that may arise; and a description of any safekeeping functions delegated by the Depositary, the list of delegates and sub-delegates and any conflicts of interest that may arise from such delegation will be made available to investors upon request.

Additional Material Contracts

3. Swiss Agreements

Pursuant to the Representation Agreement between the Company and ACOLIN Fund Services AG ("**Acolin**") (the "**Representation Agreement**"), the Company has appointed Acolin to act as the Company's Swiss representative.

The Representation Agreement provides, *inter alia*, that:

- (i) the appointment of Acolin shall remain in force, and in any event for a minimum period of one year, until terminated (a) by either party upon 30 days' written notice; or (b) immediately upon the occurrence of certain events, such as the insolvency of one of the parties or if it is in the best interest of Shareholders.
- (ii) the parties shall perform their activities to the best of their knowledge, conscience and in good faith, and with the due care expected from a professional specialist in the fund industry. Furthermore, each party shall indemnify (the "**Indemnifying Party**") the other party from and against all direct losses which the other party may at any time suffer, in particular in respect of losses suffered or alleged to be suffered by any investor or former investor of the Company as a result of the Indemnifying Party's negligent, wilful or fraudulent action contravening the applicable law, the Representation Agreement or the Company's fund documentation. For the avoidance of doubt, in no event shall the parties be liable for, or be indemnified against, any

special, indirect, consequential or punitive loss or damages under the Representation Agreement.

Acolin is entitled to be paid fees at normal commercial rates with respect its appointment as the Company's Swiss representative, in addition to any reasonable and necessary out-of-pocket expenses.

Pursuant to the Paying Agent Agreement among the Company, the Depositary and Neue Helvetische Bank AG ("**Neue Helvetische**") dated 23 August 2017 (the "**Paying Agent Agreement**"), the Company and the Depositary have appointed Neue Helvetische Bank AG to act as the Company's paying agent in Switzerland.

The Paying Agent Agreement provides, *inter alia*, that:

- (i) the appointment of Neue Helvetische shall remain in force until terminated (a) by either party at the end of each month upon 30 days' written notice; or (b) immediately upon the occurrence of certain events, such as the insolvency of one of the parties;

the Company shall indemnify Neue Helvetische in full upon first request regarding claims from third parties directly arising from a breach of Company's duties under the Paying Agent Agreement, unless such claims arise as a result of Neue Helvetische's gross negligence or wilful misconduct with regard to its duties under the Paying Agent Agreement. In addition, Neue Helvetische shall be liable for its own gross negligence and wilful misconduct; and

Neue Helvetische is entitled to be paid fees at normal commercial rates with respect its appointment as the Company's paying agent in Switzerland, in addition to any properly vouched documented costs relating to the function of Aquila.

In the context of the Company appointing Acolin as its Swiss representative and Neue Helvetische as its Swiss paying agent, the Company was required from a Swiss regulatory perspective to enter into a Swiss distribution agreement among the Company, Acolin and the Investment Manager pursuant to which the Investment Manager is to distribute the relevant Funds to qualified investors in Switzerland. For the avoidance of doubt, there are no fees to be paid to the Investment Manager by the Company under the Swiss distribution agreement.

Distributors and Other Parties

The Company, the Manager and/or the Investment Manager may, from time to time, appoint distributors, paying agents, representative agents, facilities agents, information agents or other entities with regard to the distribution, placement or marketing of Shares. Should the fees and expenses payable to such parties be paid out of the assets of the Company or of a Fund, such fees and expenses shall be charged to the Company or a Fund at normal commercial rates.

VALUATIONS, SUBSCRIPTIONS AND REDEMPTIONS

Subscriptions

The Directors shall, before the Initial Offer of Shares in any Fund, determine the terms on which such Shares will be issued.

There is no maximum amount to be raised for each Fund during the Initial Offer or thereafter; however, no Fund will commence trading until such time as sufficient amounts, as determined by the Directors in their discretion, have been received by the Fund.

Shares are available for general subscription, subject to certain restrictions set out below and as described in the section headed "Investor Restrictions" on page 49.

Shares of each Fund may be divided into separate Classes. The various Classes will generally differ from each other in the fees payable with respect to such Class, as set out in the applicable Supplement, and with respect to the investors that are eligible to invest in the various Classes.

All applicants must subscribe for Shares of an amount equal to the Minimum Initial Subscription or the Minimum Subsequent Subscription, in the case of an applicant's first subscription or any further subscription, as applicable.

The Directors, in their absolute discretion, may choose to accept an amount less than the minimum initial subscription or the minimum subsequent subscription.

After the Initial Offer for each Fund has closed, the Fund may accept requests for subscriptions on each Subscription Date at a price equal to the Net Asset Value per Share of the relevant Fund as calculated at the Valuation Point on the relevant Subscription Date.

Applicants should complete the subscription agreement (available from the Administrator) and send it by post, delivery or fax (with the original signed form and supporting documentation in relation to anti-money laundering checks to follow immediately) to the Administrator to be received no later than 12.00pm (Dublin time), in the case of the Initial Offer, on the date on which the Initial Offer closes and, thereafter, no later than 12.00pm (Dublin time) on the relevant Subscription Date on which Shares are to be issued (each a "**Subscription Dealing Deadline**"). Subscription monies must be received by the Administrator, for the account of the Fund, by no later than, in the case of the Initial Offer, the date on which the Initial Offer closes. Thereafter, subscription monies must be received by the Administrator, for the account of the Fund, by no later than 5pm on the third Business Day after the relevant Subscription Date, or such later date as the Directors may determine. If payment in full has not been received by the relevant times stipulated above, the Company and/or the Investment Manager may cancel the allotment and the Shareholder shall indemnify and hold harmless the Company, the Directors, the Manager, the Investment Manager, the Administrator and the Depositary for any loss, cost or expense suffered by them as a result of a failure by the Shareholder to pay the subscription monies by the relevant time

Applications not received or incorrectly completed applications received by the Administrator by the times stipulated above may, at the absolute discretion of the Directors, be held over and applied on the next following applicable Subscription Date or until such time as a properly completed subscription agreement is received by the Administrator on the date on which it is processed. The Directors may, in exceptional circumstances, accept applications for Shares after the relevant Subscription Dealing Deadline specified above provided that they are received before the Valuation Point. The Directors will determine whether the circumstances are exceptional and the rationale for this decision will be documented.

During any period of net subscriptions, a charge may be added to the purchase price per Share and deducted directly from the subscription proceeds, to cover the dealing cost involved in purchasing

investments in the underlying investments of the relevant Fund as set out in the applicable Supplement. The charge is intended to protect existing and continuing Shareholders against the dilution of the value of their investment on account of these charges and to preserve the value of the underlying assets of the relevant Fund.

In addition, the Directors may in their discretion charge a subscription fee, payable to the Investment Manager (and as further disclosed in the relevant Supplement for the relevant Fund). This fee may be paid in full or in part by the Investment Manager to introducing agents and intermediaries.

Before subscribing for Shares, an applicant who is not an Irish Resident or is an Exempt Irish Resident will be required to complete a declaration in a form prescribed by the Revenue Commissioners of Ireland. Such declaration will be included in the subscription agreement, which is available from the Administrator.

Shareholders are required to notify the Administrator immediately of any change in their status with respect to the eligibility requirements described herein and in the subscription agreement and furnish the Administrator with whatever additional documents relating to such change as it may request. IT IS THE RESPONSIBILITY OF EACH SHAREHOLDER TO VERIFY THAT IT IS PERMITTED TO OWN SHARES AND TO ENSURE THAT THE SHARES HELD BY IT WILL AT NO TIME BE HELD FOR THE ACCOUNT OR BENEFIT OF ANY PERSON PROHIBITED FROM HOLDING SUCH SHARES.

Measures aimed at the prevention of money laundering will require an applicant to provide verification of identity, verification of address and source of funds to the Administrator.

The Administrator reserves the right to request such information as is necessary to verify the identity, address and source of funds of the applicant. This information may also include details as to the tax residency of an applicant together with relevant documentary evidence. Depending on the circumstances of each application, a detailed verification of the source of funds might not be required where (i) the investor makes payment from an account held in the investor's name at a recognised financial institution or (ii) the application is made through a recognised intermediary. These exceptions will only apply if the financial institution or intermediary referred to above is located within a country recognised in Ireland as having equivalent anti-money laundering regulations or satisfies other applicable conditions. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Administrator may refuse to accept the application and all subscription monies. The Administrator may also refuse to process a redemption or pay out redemption proceeds if any requested information in original form is not received.

The Administrator will notify applicants if additional proof of identity is required. By way of example, an individual will be required to produce a certified copy of a current passport or identification card (which should show the signature and date of birth of the individual applicant) together with two pieces of evidence of the applicant's address, such as an original or certified copy of a utility bill or bank statement (no more than six months old). In the case of corporate applicants, this will require production of certified copies of all documentation including the certificate of incorporation (and any change of name), bye-laws, memorandum and articles of association (or equivalent), and authorised signatories list together with the names, occupations, residential and business addresses and dates of birth of all directors, beneficial owners and authorised signatories. Detailed verification of directors' and substantial beneficial owners' identity and address may also be required.

Shares will not be issued until such time as the Administrator is satisfied with all the information and documentation that it has received from the applicant. This may result in Shares being issued on a Subscription Date subsequent to the Subscription Date on which an applicant initially wished to have Shares issued to him/her. It is further acknowledged that the Administrator shall be held harmless by the applicant against any loss arising as a result of the failure to process the subscription or pay out redemption proceeds if such information as has been requested by the Administrator has not been provided by the applicant. In addition, the Administrator will not pay out redemption proceeds until

such time as the original of the subscription agreement used on initial subscription and any other documentation required by the Administrator, including all anti-money laundering documentation, is received by the Administrator and all anti-money laundering procedures have been completed.

Shares will be issued in registered form. A contract note, which will constitute a written confirmation of ownership of the Shares to which it relates, will be sent to each successful applicant within five Business Days of the determination of the Net Asset Value in respect of the relevant Subscription Date on which the application is being processed. The contract note will detail the number of Shares to which it relates, the Class of Shares to which it relates, the Fund to which it relates and the price at which the Shares have been issued. Shareholder certificates will not be issued. Investors will not be entered onto the register of Shareholders if they subscribe for less than the Minimum Initial Subscription (or such other amount as the Directors have in their absolute discretion determined).

Shares will be issued upon: (i) fulfilment of the conditions for acceptable subscriptions; (ii) the provision of all relevant money laundering documentation; and (iii) receipt of cleared funds by the Company and the Administrator in accordance with the terms and conditions of the Prospectus and Supplements in force at the time of the subscription. Failure by the Company to receive cleared funds within the relevant time limit as set out above may result in the cancellation of the subscription.

Applicants will be required to agree to indemnify and hold harmless the Company, the Manager, the Directors, the Investment Manager, the relevant Sub-Investment Manager, the Administrator and the Depositary for any losses, costs or expenses incurred by them as a result of the failure or default of the investor to transmit subscription monies in immediately available funds to the account of the Company within the time specified above.

In addition, the Administrator may delay processing a redemption request or paying out redemption proceeds until proper information has been provided including any relevant money laundering documentation and such delays could lead to redemption requests being held over to subsequent Redemption Dates. The Administrator shall be held harmless by the applicant against any loss arising as a result of such delays.

The Directors, in consultation with the Manager, may, in their absolute discretion (and following consultation with the Administrator), accept payment for Shares by a transfer in specie of assets, the nature of which would qualify as investments of the relevant Fund in accordance with the investment objective, policy and restrictions of the relevant Fund and the value of which (including the Net Asset Value per Share, thereof) shall be determined by the Administrator, having consulted with the Investment Manager and the Depositary, in accordance with the valuation principles governing the Company and applicable law. The Directors, in consultation with the Manager, and the Depositary will also ensure that the number of Shares issued in respect of any such in specie transfer will be the same amount which would have fallen to be allotted for settlement in cash. Any prospective investor wishing to subscribe for Shares by a transfer in specie of assets will be required to comply with any administrative and other arrangements (including any warranties to the Company in relation to the title of such assets being passed to the Depositary, if applicable) for the transfer specified by the Depositary and the Administrator. In addition, the Directors, in consultation with the Manager, must ensure that any assets transferred will be vested with the Depositary on behalf of the Company. The Directors, in consultation with the Manager, and the Depositary must be satisfied that any such in specie transfer will not result in any material prejudice to existing Shareholders.

The Directors, in consultation with the Manager, may, in their absolute discretion, reject any application for Shares in full or in part. Amounts paid to the Company in respect of subscription applications which are rejected (or, in the case of applications which are not accepted in full, the balance of the amount paid) will be returned, where permitted by applicable law, to the applicant at his/her own risk and expense without interest.

Redemptions

After the Initial Offer for each Fund has closed, the Fund may accept requests for redemptions on each Redemption Date at a price equal to the Net Asset Value per Share of the relevant Fund as calculated at the Valuation Point on the relevant Redemption Date.

Unless otherwise stated in the applicable Supplement, requests for redemption may be made by post, delivery or fax (with the original to follow immediately) to the Administrator so as to be received by no later than 12.00pm (Dublin time) on the relevant Redemption Date on which the Shares are to be redeemed (the “**Redemption Dealing Deadline**”). Redemption requests will only be processed on receipt of faxed instructions where payment is made to a bank account on record.

Redemption requests not received by the times set out above may, at the absolute discretion of the Directors, be held over and applied on the next following applicable Redemption Date. A request for a partial redemption of Shares will be refused, or the holding may be redeemed in its entirety, if, as a result of such partial redemption, the aggregate Net Asset Value of the Shares maintained by the Shareholder would be less than the Minimum Holding. The Directors may, in exceptional circumstances, accept redemption requests after the Redemption Dealing Deadline specified above provided that they are received before the Valuation Point. The Directors will determine whether the circumstances are exceptional and the rationale for this decision will be documented.

Settlement for redemptions will normally be made by telegraphic transfer or other form of bank transfer to the bank account of the Shareholder specified in the subscription agreement (at the Shareholder’s risk) within three Business Days after the Redemption Date, or in any event within five Business Days after the Redemption Date, provided that the Administrator has received the correct redemption documentation, including all relevant anti-money laundering documentation. In any event, subject to the terms herein and in the relevant Supplement, the period for payment of redemption proceeds shall not exceed 14 calendar days following the deadline that redemption requests must be received by. No payments to third parties will be effected.

Redemption proceeds will not be paid where an original subscription agreement and, where relevant, such other anti-money laundering documentation as is required in original format, has not been previously received from the investor. No redemption payment may be made from that holding until the original subscription agreement has been received from the Shareholder and all documentation required by the Administrator including any documents in connection with anti-money laundering procedures have been received and anti-money laundering procedures have been completed. Any amendments to an investor’s registration details and payment instructions can only be effected upon receipt of original documentation. Redemption requests will only be processed on receipt of faxed instructions where payment is made to a bank account on record. In addition, the Administrator may refuse to process a redemption request unless proper information has been provided. The Administrator shall be held harmless by the applicant against any loss arising as a result of such refusal.

During any period of net redemptions, the redemption price per Share may be reduced, at the discretion of the Directors, by a charge in respect of each Fund to cover the dealing costs involved in redeeming investments in the underlying investments of the relevant Fund as set out in the applicable Supplement. The charge is intended to protect existing and continuing Shareholders against the dilution of the value of their investment on account of these charges.

The Company and the Administrator will be required to withhold tax on redemption monies at the applicable rate unless it has received from the Shareholder a declaration as to status and residency in the form prescribed by the Revenue Commissioners of Ireland confirming that the Shareholder is either (i) not an Irish Resident, or (ii) an Exempt Irish Resident, in each case in respect of whom it is not necessary to deduct tax.

Deferral of Redemptions

The Directors, in consultation with the Manager, may, in their absolute discretion, refuse to redeem Shares in excess of 10% of the Net Asset Value of the relevant Fund on any applicable Redemption Date. In this event, the limitation will apply pro rata so that all Shareholders wishing to have their Shares redeemed on that Redemption Date redeem the same proportion of such Shares, and Shares not redeemed will be carried forward for redemption on the next applicable Redemption Date and all following applicable Redemption Dates (in relation to which the Administrator will carry out the same procedure as described herein) until the original request has been satisfied in full. If requests for redemption are so carried forward, the Administrator will inform the Shareholders affected. Where part of a redemption request is carried forward to one or more subsequent Redemption Dates, the redemption request will be treated as if it was received on each subsequent Redemption Date, without priority over new redemption requests received on the same Redemption Date, until all the Shares subject to the original redemption request have been redeemed.

In specie Redemptions

The Directors, in consultation with the Manager, may, in their absolute discretion, determine that the payment of redemption proceeds shall be satisfied in whole or in part by the in specie transfer of assets of the relevant Fund having a value equal to the Net Asset Value of the Shares to be redeemed. Such in specie transfers may only be made with the consent of the redeeming Shareholder, unless the redemption request represents 5% or more of the Net Asset Value of the Fund, in which case the consent of the redeeming Shareholder is not required but the Directors will, if requested by such Shareholder, sell the assets which have been allocated to satisfy the redemption request, with the costs of the sale of the assets being deducted from the redemption proceeds which are to be remitted to such Shareholder. The allocation of the assets of the Fund used to satisfy all in specie redemption requests are subject to the approval of the Depositary.

Compulsory Redemptions

The Directors, in consultation with the Manager, may compulsorily redeem or transfer any holding of Shares if it comes to their attention that those Shares are being held directly or beneficially by any person who is not entitled to apply for Shares as described more fully in the section headed "Investor Restrictions" below. The Directors, in consultation with the Manager, also reserve the right to the compulsory redemption of all Shares held by a Shareholder if the aggregate Net Asset Value of the Shares held by the Shareholder is less than the Minimum Holding. Prior to any compulsory redemption of Shares, the Directors will notify the Shareholder in writing and allow such Shareholder thirty days to purchase additional Shares to meet this minimum holding requirement.

Abusive Trading Practices

Excessive, short-term (or market timing) or other abusive trading practices may disrupt portfolio management strategies and harm performance of a Fund. To minimise harm to a Fund and its Shareholders, the Directors, working in conjunction with the designated anti-money laundering reporting officer, reserve the right to reject any subscription (including any transfer) from any investor whom they believe has a history of abusive trading or whose trading, in their judgement, has been or may be disruptive to a Fund. In making this judgement, the Directors may consider trading done in multiple accounts under common ownership or control.

Transfers

A Shareholder may transfer all or any of his Shares by an instrument in writing in the usual or common form or in any other form as the Directors may approve. The transferor shall be deemed to remain the holder of any Shares that it proposes to transfer until the name of the transferee is entered in the Company's register of members in respect of those Shares. In respect of the Shares, each transferee will

be required to provide the same information, representations and warranties to the Company as are required from any applicant for Shares.

The Company will be required to account for tax on the value of the Shares transferred at the applicable rate unless it has received from the transferor a declaration as to status and residency in the prescribed form confirming that the Shareholder transferring their Shares is not Resident in Ireland or is an Exempt Irish Resident. The Company reserves the right to redeem such number of Shares held by a transferor as may be necessary to discharge the tax liability arising. The Company reserves the right to refuse to register a transfer of Shares until it receives a declaration as to the transferee's status and residency in the form prescribed by the Revenue Commissioners of Ireland.

Investor Restrictions

Potential investors should note that restrictions apply regarding the types of persons to whom Shares may be issued and transferred. These restrictions apply, *inter alia*, in order to comply with the laws and regulations of certain jurisdictions, including Ireland.

Shares will only be issued, and are only transferable to investors who, in the opinion of the Directors, are not Restricted Persons. A "**Restricted Person**" is a person in respect of whom the Directors have imposed restrictions for the purpose of ensuring that no Shares are held by any person or persons:

- (i) in breach of the law or requirements of any country or governmental authority;

in circumstances (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other person or persons, connected or not, or any other circumstance appearing to the Directors to be relevant) where, in the opinion of the Directors, such holding might result in taxation, legal, pecuniary, regulatory or material administrative disadvantage to the Company or its Shareholders as a whole; or

would result in the Company being required to register under any applicable US securities laws.

Shareholders are required to notify the Administrator immediately in the event that they become U.S. Persons. Shareholders who become U.S. Persons may be required to dispose of their Shares to non U.S. Persons. The Fund reserves the right to redeem any Shares which are or become owned, directly or indirectly, by a U.S. Person or if the holding of the Shares by any person is unlawful or detrimental to the interests of the Fund or other Shareholders.

In the event that the Directors of the Fund determine that the Fund's Shares or an interest therein have been issued, sold or transferred to a Restricted Person, the Fund may exercise its rights under its Articles to compel such Shareholders to redeem such Shares.

Exchange of Participating Shares

Shareholders may request on the relevant Redemption Date that all or part of their holding of Shares of any Fund(s) (the "**original Shares**") be exchanged for Shares of the same Fund or Shares of another Fund(s) (the "**new Shares**") by giving notice to the Administrator in writing in such form as the Administrator may from time to time require duly signed by the Shareholder (the "**exchange notice**") provided that no exchange shall be effected unless Shares in such other Fund are at the date of such notice in issue and offered for sale.

Exchange notices for Shares of a different Class of the same Fund or for Shares of another Fund must be received by the Administrator by no later than 10.00 am (Dublin time) one Business Day prior to the relevant Redemption Date.

The number of new Shares which shall be issued shall be the number calculated by the Administrator by dividing the price of an original Share by the price of a new Share and multiplying the result by the number of the original Shares to be exchanged.

The right to exchange may be suspended in the circumstances mentioned in the section entitled "Temporary Suspension of Valuation of the Participating Shares and of Sales, Redemptions and Exchanges". On any exchange the Shareholder shall reimburse the Administrator for any duties and charges arising out of such exchange (although no preliminary charge will be payable in respect thereof).

Publication of the Price of the Participating Shares

Except where the determination of the Net Asset Value has been suspended, in the circumstances described below, the Net Asset Value per Share as calculated as at each Valuation Point will be published as soon as practicable after each Valuation Date on the Investment Manager's website (<https://publicsecurities.brookfield.com/en>) and will be kept up-to-date. The Directors may from time to time determine that the Net Asset Value per Share is published on another website or through another media (for example, in a newspaper). In such an event, the publication of the Net Asset Value per Share on the Investment Manager's website may be ceased. In such a situation, all Shareholders and prospective investors will be informed of the other media through which the Net Asset Value per Share will be published. The Net Asset Value per Share will also be available from the Administrator. Such information is published for information only and is not an invitation to subscribe for or redeem Shares at that Net Asset Value.

Umbrella Fund Cash Accounts

In connection with the processing of subscriptions, redemptions, distributions or other relevant payments to or from investors or Shareholders, the Company may establish or operate one or more umbrella fund cash accounts in accordance with the requirements of the Central Bank. Any balances on such accounts shall belong to the Company or the relevant Fund and are not held on trust on behalf of any investors or Shareholders or any other persons.

Cash subscriptions received in advance of the relevant Subscription Date will be held as an asset of the relevant Fund in cash in an umbrella fund cash account until the relevant Subscription Date, at which time the Shares will be issued and the investor will become a Shareholder in the relevant Fund. In respect of such subscription proceeds received in advance of the relevant Dealing Day and until such time as the Shares have been issued to the investor, in the event of the Company or the relevant Fund becoming insolvent, the investor will rank as a general unsecured creditor of the Company or relevant Fund in respect of such subscription proceeds.

Should the Company be unable to issue Shares to an investor who has paid the requisite subscription amount to the Company but has yet to provide the Company or the Administrator with all requisite information or documentation in order to verify the investor's identity, the Depositary shall ensure that in the event that such subscription proceeds cannot be applied, it will return such subscription proceeds to the relevant investor within five working days.

The Company may temporarily borrow an amount equal to a subscription amount, subject to a Fund's borrowing limits as set out in this Prospectus, and invest the amount borrowed in accordance with the investment objective and policies of the Fund. Once the required subscription monies have been received, the Company will use this to repay the borrowings. In the event of any delay in the settlement of the investor's subscription monies, the Company reserves the right to charge that Shareholder for any interest or other costs incurred by the Company as a result of this borrowing. If the Shareholder fails to reimburse the Company for those charges, the Company will have the right to sell all or part of the investor's holdings of Shares in the Fund in order to meet those charges and/or to pursue that Shareholder for such charges.

In respect of a dividend payment declared and owing to a Shareholder that is unable to be paid for any reason whatsoever, such as, for example, if the relevant Shareholder has not provided the requisite information or documentation to the Company or the Administrator, such distribution amount will be held as an asset of the relevant Fund in cash in an umbrella fund cash account until such time as the reason for the Company or the Administrator being unable to pay the distribution amount to the relevant Shareholder has been addressed, at which point the Company or the Administrator shall pay the distribution amount to the Shareholder. In this regard, the relevant Shareholder should seek to promptly address the reason for the Company or the Administrator being unable to pay the distribution amount to the relevant Shareholder. In respect of such distribution amounts that are unable to be paid and until such time as such distribution amount has been paid to the Shareholder, in the event of the Company or the relevant Fund becoming insolvent, the Shareholder will rank as a general unsecured creditor of the Company or relevant Fund in respect of such a distribution amount.

In respect of a redemption request, the Company or the Administrator may refuse to remit the redemption proceeds until such time as the Shareholder has provided the requisite information or documentation to the Company or the Administrator, as requested by the Company or the Administrator from time to time. In such circumstances, the Administrator will process the redemption request received by the Shareholder, at which point in time the Shareholder will no longer be considered a Shareholder of the relevant Fund and the proceeds of that redemption shall be held as an asset of the relevant Fund in cash in an umbrella fund cash account until such time as the Company or the Administrator has received all requisite information or documentation and has verified the Shareholder's identity to its satisfaction, following which the redemption proceeds will be released. In this regard, the relevant Shareholder should seek to promptly address the reason for the Company or the Administrator being unable to pay the redemption proceeds to the relevant Shareholder. In respect of such redemption proceeds that are unable to be paid and until such time as the redemption proceeds have been released to the investor, in the event of the Company or the relevant Fund becoming insolvent, the investor will rank as a general unsecured creditor of the Company or relevant Fund in respect of such redemption proceeds.

For information on the risks associated with umbrella fund cash accounts, see "Risks Associated with Umbrella Fund Cash Accounts" in the section entitled "Risk Factors" in this Prospectus.

Data Protection Information

Prospective investors should note that by completing the application form they are providing personal information to the Company, which may constitute personal data within the meaning of Data Protection Law. This personal data will be kept only for as long as necessary and used for the purposes of client identification, administration, updating the Company's records for fee billing, to monitor and record calls and electronic communications for quality, business analysis, training, investigation and fraud prevention purposes, for crime detection, prevention, investigation and prosecution and to enforce or defend the Company's, the Manager's, the Administrator's or Depository's rights directly or through third parties to whom either the Company, Manager Administrator or Depository delegates such rights or responsibilities, statistical analysis, market research, and to comply with any applicable legal or regulatory requirements, such as anti-money laundering checks and related actions which the Company, the Manager, the Administrator or the Depository considers necessary to meet any legal obligations. The Company and the Administrator will retain your personal information for the duration of your investment in the Company and for as long as required for the Company or the Administrator to perform the services or perform investigations in relation to same depending on whether additional legal/regulatory obligations mandate that the Company retains your personal information. Data may be disclosed to third parties including regulatory bodies, tax authorities in accordance with the CRS and any other tax reporting obligations under legislation or regulation, delegates, advisers and service providers of the Company and their or the Company's duly authorised agents and any of their respective related, associated or affiliated companies wherever located (including outside the EEA) for the purposes specified. Investors have the following rights in respect of their personal data kept by the Company, the Manager, the Administrator or the Depository: the right to access their personal

information, the right to rectify their personal information, the right to restrict the use of their personal information, the right to request that their personal information is erased, the right to object to processing of their personal information and the right to data portability (in certain specific circumstances as set out in more detail in the application form).

TEMPORARY SUSPENSION OF VALUATION OF THE PARTICIPATING SHARES AND OF SALES, REDEMPTIONS AND EXCHANGES

The Company may, in consultation with the Manager, temporarily suspend the determination of the Net Asset Value and the sale, exchange and/or redemption of Participating Shares in the Company or any Fund during:

(a) any period (other than ordinary holiday or customary weekend closings) when any market or stock exchange is closed which is the main market for a significant part of the Company's or a Fund's investments, or during which dealings therein or thereon are restricted or suspended;

any period when any circumstance exists as a result of which disposal or valuation of investments of the Company or a Fund is not reasonably practicable without this being seriously detrimental to the interests of the shareholder or redemption prices cannot be fairly calculated;

any period when there is any breakdown in the means of communication normally employed in determining the price of any of the Company's or a Fund's investments or when for any other reason the current prices on any market or stock exchange of any investments of the Company or of a Fund cannot be reasonably, promptly or accurately ascertained;

any period during which the board is unable to repatriate funds required for the purpose of making payments due or where the acquisition or realisation of investments cannot, in the opinion of the board of directors, be effected at normal prices or normal rates of exchange;

any period when proceeds of the sale or redemption of the Participating Shares cannot be transmitted to or from the Company or the Fund's account; or

upon the publication of a notice convening a general meeting of Shareholders for the purposes of winding up the Company or any Fund.

Any such suspension will be notified to the Central Bank immediately and, where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

TAXATION

The taxation of income and capital gains of the Company and of the Shareholders is subject to the fiscal laws and practices of Ireland, of the countries in which the Company invests and of the jurisdictions in which Shareholders are resident or otherwise subject to tax.

The following summary of certain relevant taxation provisions is based on current law and published practice, which law and practice are in principle subject to change (potentially with retrospective effect), and does not constitute legal or tax advice. It does not purport to deal with all the tax consequences applicable to the Company or to all categories of investors, some of whom may be subject to special rules. Shareholders and potential investors are advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling, converting or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile, and in the light of their particular circumstances.

Potential investors and Shareholders should note that the statements on taxation which are set out below are based on advice which has been received by the Directors regarding the law and practice in force in the relevant jurisdiction as at the date of this Prospectus. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely.

Taxation outside Ireland

The income and gains of the Company from its securities and assets may suffer withholding tax in territory where such income and gains arise, which may not be reclaimable by the Company in those territories. Similarly, the Company, in certain circumstances, may not be able to benefit from the applicable reduced rates of withholding tax provided in double taxation agreements between Ireland and double tax treaty territories. The availability of relief under such agreements will depend on the particular position taken by the tax authority in the relevant territory and no assurance can be given that relief will be available. However, in the event that the Company successfully reclaims a portion or all of a particular withholding tax charge and/or a lower withholding tax rate results in a repayment to the Company, the Net Asset Value of the relevant Fund will not be restated and the benefit will be allocated to the existing Shareholders rateably at the time of receipt of the reclaimed amount and/or repayment.

Taxation in Ireland

4. *Taxation of the Company*

The Directors have been advised that for as long as the Company is Resident in Ireland for taxation purposes the taxation of the Company is set out below.

Residence of the Company

The Company will be regarded as Resident in Ireland if its central and effective management and control is exercised in Ireland. The Directors of the Company will make every effort to ensure that the business of the Company will be conducted in such a manner as to ensure that it is Resident in Ireland.

Exemption from tax on income and gains

As an Investment Undertaking, the Company is not chargeable to Irish tax on income or gains arising to the Company save as described below in connection with gains arising on chargeable events.

Tax on chargeable events

Tax can arise on the happening of a “chargeable event” in relation to the Company.

A chargeable event includes:

the payment of a distribution;

the redemption, repurchase, cancellation or transfer of Shares;

the appropriation or cancellation of Shares for the purposes of meeting the tax arising on certain chargeable events that do not involve the making of a payment to a Shareholder (including but not limited to the transfer by a Shareholder, by way of sale or otherwise of entitlement to a Share); and

the ending of a Relevant Period.

However, the following events are not chargeable events:

(i) any transaction in relation to or in respect of Shares held in a Recognised Clearing System;

an exchange on an arm’s length basis with the Company of Shares representing one Fund for another Fund of the Company where no payment is made to the Shareholder;

an exchange on an arm’s length basis with the Company of Shares in the Company for other Shares in the Company where no payment is made to the Shareholder;

the transfer by a Shareholder of entitlement to a Share where the transfer is between spouses or civil partners, (subject to certain conditions this exemption may also apply to transfers between former spouses or civil partners); the transferee spouse or civil partner is treated as having acquired the Shares at their original cost to the transferring spouse or civil partner;

the cancellation of Shares arising on a “scheme of reconstruction or amalgamation” (within the meaning of section 739H(1) of the Taxes Act) or a “scheme of amalgamation” (within the meaning of section 739HA(1) of the Taxes Act) of the Company or other Investment Undertaking(s), subject to certain conditions being fulfilled.

A chargeable event will not give rise to an obligation for the Company to account for the appropriate tax if:

(i) the chargeable event occurs solely on account of an exchange of Shares arising on a scheme of amalgamation within the meaning of Section 739D (8C) of the Taxes Act, subject to certain conditions being fulfilled;

(ii) the chargeable event occurs solely on account of an exchange of Shares arising on a scheme of migration and amalgamation within the meaning of Section 739D (8D) of the Taxes Act, subject to certain conditions being fulfilled; or

(iii) the chargeable event occurs solely on account of a scheme of migration within the meaning of Section 739D (8E) of the Taxes Act, subject to certain conditions being fulfilled.

A chargeable event that occurs solely on the ending of a Relevant Period will not give rise to an obligation to deduct tax if:

(a) immediately before the chargeable event the value of the number of Shares in the Company, in respect of which any gains arising would be treated as arising to the Company, on the

happening of a chargeable event is less than 10% of the value of the total number of Shares in the Company, as the case may be, at that time; and

the Company has made an election, in writing, to the Revenue Commissioners that it will make in respect of each year of assessment a statement (including where it is the case, a statement with a nil amount) to the Revenue Commissioners in electronic format approved by them, on or before 31 March in the year following the year of assessment, which specifies in respect of the Shareholder:

the name and address of the Shareholder;

the value at the end of the year of assessment of the Shares to which the Shareholder is entitled at that time; and

such other information as the Revenue Commissioners may require.

The Company is obliged to notify the relevant Shareholders, in writing, if such an election has been made. Where a Shareholder receives such a notification, that Shareholder is deemed to be a chargeable person for the purposes of Sections 951 and 1084 of the Taxes Act and therefore would be required to prepare and deliver to the Revenue Commissioners on or before a specified return date a return of income. The return of income shall include the following details:

(a) the name and address of the Company; and

the gains arising on the chargeable event.

Exemption from Irish tax arising on chargeable events

The Company will not be liable to account for Irish tax on gains arising on chargeable events where: in the case of Shareholders who are Resident in Ireland or Ordinarily Resident in Ireland, they are Exempt Irish Residents; or

in the case of Shareholders who are neither Resident in Ireland nor Ordinarily Resident in Ireland, they are Exempt Non-Residents.

Tax payable

Where none of the relieving provisions outlined above have application, the Company will deduct and account for Irish tax on chargeable events as follows:

(a) where the chargeable event relates to a unit held by a Shareholder that is a company and that company has made a declaration to the Company that it is a company and that declaration contains its Irish corporation tax reference number ("Corporate Shareholder"), Irish tax is payable at a rate of 25%;

(b) in all other cases, Irish tax is payable at a rate of 41%.

In the case of chargeable events other than a chargeable event arising on a transfer or the ending of a Relevant Period, any tax arising will be deducted from the relevant payments (distribution/ repurchase payments/ cancellation/ redemption payments) to the Shareholders.

In the case of a chargeable event arising as a result of a transfer of Shares or the ending of a Relevant Period or any other chargeable event arising that does not give rise to a payment to be made by the

Company to a Shareholder, the Company is entitled to cancel or appropriate sufficient Shares of the Shareholder to meet the tax liability of that Shareholder.

To the extent that any tax is paid on a chargeable event that occurs solely as a consequence of the ending of a Relevant Period, such tax will be allowed as a credit or paid by the Company to the Shareholder on the happening of a subsequent chargeable event in accordance with the provisions of Section 739E of the Taxes Act.

The relevant Shareholder shall indemnify the Company against any loss arising to the Company by reason of the Company becoming liable to account for tax on the happening of a chargeable event if no such appropriation, cancellation or deduction is made.

Dividend withholding tax

Distributions paid by the Company are not subject to Irish dividend withholding tax provided the Company continues to be a collective investment undertaking as defined in Section 172A(1) of the Taxes Act (which definition includes an investment undertaking within the meaning of section 739B of the Taxes Act).

Dividends received by the Company from companies that are Resident in Ireland may be subject to Irish dividend withholding tax (currently 20%). However, where the Company makes an appropriate declaration pursuant to paragraph 6, Schedule 2A of the Taxes Act to the payer that it is a collective investment undertaking within the meaning of Section 734 of the Taxes Act, it will be entitled to receive such dividends without deduction of tax.

As an Investment Undertaking, the Company is not required to deduct dividend withholding tax from dividend payments made to Shareholders.

Stamp Duty

As an Investment Undertaking, no liability in respect of Irish stamp duty will arise in respect of the issue, redemption, sale, conversion, transfer or reissue of Shares in the Company. Where any subscription for Shares is satisfied by the *in specie* transfer of Irish securities or other Irish property, Irish stamp duty may arise on the transfer of such securities or property.

Generally, no Irish stamp duty will be payable by the Company on the conveyance or transfer of stocks or marketable securities provided that the stocks or marketable securities in question have not been issued by a company incorporated in Ireland and provided the conveyance or transfer does not relate to any immovable property situated in Ireland or any right over or interest in such property or to any stocks or marketable securities of a company (other than a company which is an investment undertaking within the meaning of Section 739B of the Taxes Act or a company which is a Qualifying Company) which is incorporated in Ireland.

Taxation of Shareholders in Ireland

Interpretation

For the purpose of determining the Irish tax liability of any Shareholder, payments made by the Company to a Shareholder who holds Shares which are held in a Recognised Clearing System, will be deemed to be payments from which tax has not been deducted.

Taxable Corporate Shareholder

The Irish tax position of a Taxable Corporate Shareholder will depend on whether the Shareholder is trading in the Shares or whether they are held as an investment:

Shares held as stock in trade

Taxable Corporate Shareholders who are trading in Shares or who are Qualifying Companies will be taxable on any income or gains (grossed up for any tax deducted by the Company) earned in connection with those Shares as part of the profits of that trade (currently at a rate of 12.5%) or as profits of its business as a Qualifying Company (currently at a rate of 25%), as the case may be. Such Shareholders will be entitled to a set off against corporation tax payable for any tax deducted by the Company against its corporation tax liability.

Shares held as an investment

The tax position of a Taxable Corporate Shareholder whose Shares are not held as part of a share dealing trade will depend on whether or not tax is withheld by the Company:-

Tax withheld by the Company

Taxable Corporate Shareholders who receive payments in respect of Shares from which tax has been deducted by the Company at a rate of 25% will not be subject to further Irish tax on the payments received. However, where the Shares are not denominated in Euro, such Shareholders may also be liable to corporation tax on foreign currency gains upon the cancellation, redemption, repurchase or transfer of Shares.

Tax not withheld by the Company

Corporate Shareholders who receive payments in respect of Shares from which tax has not been deducted will be chargeable to corporation tax under Case IV of Schedule D at a rate of 25%. However where the payment is in respect of the cancellation, redemption, repurchase or transfer of Shares, such payment shall be reduced by the amount of the consideration in money or money's worth given by the Shareholder for the acquisition of the Shares. In addition, where the Shares are not denominated in euro, such Shareholders may also be liable to corporation tax on foreign currency gains upon the cancellation, redemption, repurchase or transfer of Shares.

Non-Corporate Shareholders who are Resident in Ireland or Ordinarily Resident in Ireland

The tax position of a non-corporate Shareholder will depend on whether tax is withheld by the Company:

Tax withheld by the Company

Non-corporate Shareholders who are Resident in Ireland or Ordinarily Resident in Ireland will not be subject to further Irish income tax from their Shares or gains made on the disposal of their Shares where tax has been deducted by the Company at the rate of 41% from the income or gain.

However, where the Shares are not denominated in euro, such Shareholders may also be liable to capital gains tax on foreign currency gains upon the cancellation, redemption, repurchase or transfer of Shares.

Tax not withheld by the Company

Where a non-corporate Shareholder who is Resident in Ireland or Ordinarily Resident in Ireland receives a payment in respect of Shares from which tax has not been deducted, the payment will be taxable at a rate of 41%.

However, where the payment is in respect of the cancellation, redemption, repurchase or transfer of Shares or the ending of a Relevant Period, such payment shall be reduced by the amount of the consideration in money or money's worth given by the Shareholder for the acquisition of the Shares.

Also, where the Shares are not denominated in euro, such Shareholders may also be liable to capital gains tax on foreign currency gains upon such cancellation, redemption, repurchase or transfer.

Shareholders who are Exempt Irish Residents

Shareholders who are Exempt Irish Residents will not be subject to Irish tax on income from their Shares or gains made on the disposal of their Shares provided that, where necessary, each Shareholder has made a Relevant Declaration to the Company prior to the chargeable event.

Shareholders who are neither Resident in Ireland nor Ordinarily Resident in Ireland

Shareholders who are Exempt Non-Residents will not be subject to Irish tax on income from their Shares or gains made on the disposal of their Shares.

Refunds of Tax withheld

Where tax is withheld by the Company on the basis that no Relevant Declaration has been filed with the Company by the Shareholder, Irish legislation does not provide for a refund of tax to a non-corporate Shareholder or to a corporate Shareholder who is not Resident in Ireland and who is not within the charge to Irish corporation tax other than in the following circumstances:

- (i) the appropriate tax has been correctly returned by the Company and within one year of the making of the return, the Company can prove to the satisfaction of the Revenue Commissioners that it is just and reasonable for such tax which has been paid, to be repaid to the Company;

where a claim is made for a refund of Irish tax under Section 189, 189A and 192 (relieving provisions relating to incapacitated persons, trusts in relation thereto and persons incapacitated as a result of drugs containing thalidomide). In such circumstances, the Shareholder is treated as having received a net amount of income from the gross amount of which tax has been deducted and that gross amount is treated as an amount of income chargeable to tax under Case III of Schedule D.

Capital Acquisitions Tax

Under current law and practice and on the basis that the Company qualifies as an Investment Undertaking, where a Share is comprised in a gift or inheritance, it will be exempt under Section 75 of the Capital Acquisitions Tax Consolidation Act 2003 from Irish gift or inheritance tax (capital acquisitions tax), currently 33%) provided:

- (i) the Shares are comprised in the gift or inheritance at the date of the gift or inheritance and at the valuation date;

at the date of the disposition, the donor is neither domiciled in Ireland nor Ordinarily Resident in Ireland for capital acquisitions tax purposes; and

at the date of the gift or inheritance, the donee or successor is neither domiciled in Ireland nor Ordinarily Resident in Ireland for capital acquisitions tax purposes.

For the purpose of Irish capital acquisitions tax only, a non-Irish domiciled person will not be treated as Resident in Ireland or Ordinarily Resident in Ireland at the relevant date unless that person has been resident in Ireland for 5 consecutive years of assessment immediately preceding the year of assessment in which the date of the gift or inheritance falls and that person is either Irish Resident or Ordinarily Resident in Ireland on that date.

Shareholder Reporting

Pursuant to the provisions of Section 891C of the Taxes Act and the Return of Values (Investment Undertakings) Regulations 2013 (the “**Regulations**”) the Company is required to provide certain information to the Revenue Commissioners in relation to the Shareholders other than “excepted unitholders” within the meaning of the Regulations (“**Excepted Shareholders**”).

The information to be provided to the Revenue Commissioners includes:

- (a) the name, registered address, contact details and tax reference number of the Company;
- (b) the name, address, tax reference number and date of birth (if applicable) of each Shareholder that is not an Excepted Shareholder; and
- (c) the investment number and the value of the investment held by each Shareholder that is not an Excepted Shareholder.

Exempt Irish Residents and Exempt Non-Residents would be Excepted Shareholders for this purpose.

Automatic Exchange of Information for Tax Purposes

Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU) (“**DAC2**”) provides for the implementation among Member States (and certain third countries that have entered into information exchange agreements) of the automatic exchange of information in respect of various categories of income and capital and broadly encompasses the regime known as the Common Reporting Standard (“**CRS**”) proposed by the OECD as a new global standard for the automatic exchange of information between tax authorities in participating jurisdictions. Under the CRS, governments of participating jurisdictions have committed to collect detailed information to be shared with other jurisdictions annually. CRS is implemented in Ireland pursuant to the Returns of Certain Information by Reporting Financial Institutions Regulations 2015, S.I. 583 of 2015, made under Section 891F of the Taxes Act.

DAC2 is implemented in Ireland pursuant to the Mandatory Automatic Exchange of Information in the Field of Taxation Regulations of 2015, S.I. No. 609 of 2015 made under Section 891G of the Taxes Act.

Pursuant to these Regulations, the Company will be required to obtain and report to the Revenue Commissioners annually certain financial account and other information for non-Irish and non-US accountholders in respect of their Shares. The returns must be submitted by 30 June annually. The information must include amongst other things, details of the name, address, taxpayer identification number (“**TIN**”), place of residence and, in the case of accountholders who are individuals, the date and place of birth, together with details relating to payments made to accountholders and their holdings. All Shareholders will be required to provide this information and documentation, if applicable, to the Company and each Shareholder will agree or will be deemed to agree by its subscription for Shares or, by its holding of Shares, to provide the requisite information and documentation, if applicable, to the Company, upon request by it or its service providers so that the Company can comply with its obligations under the CRS.

FATCA Implementation in Ireland

The FATCA provisions of the US Hiring Incentives to Restore Employment Act were enacted to identify US persons either directly investing outside the US or indirectly earning income inside or outside the US by using foreign entities.

The obligations of Irish financial institutions under FATCA are covered by the provisions of the Ireland and US Intergovernmental Agreement ("IGA") and the supporting Irish legislation, the Financial Accounts Reporting (United States of America) Regulations 2014, as amended (the "**Regulations**"). Under the IGA Regulations, any Irish financial institutions as defined in the Regulations are required to report annually to the Revenue Commissioners details on its US account holders including the name, address and taxpayer identification number ("**TIN**") and certain other details. The Company, in conjunction with assistance from its service providers where necessary, will endeavour to ensure that it satisfies any obligations imposed on it under the IGA and the Regulations.

The Company's ability to satisfy its obligations under the Regulations will depend on each Shareholder in the Company, providing the Company with any information and/or documentation, including information concerning the direct or indirect owners of such Shareholders, that the Company determines is necessary to satisfy such obligations. Each Shareholder will agree in its application form or will be deemed to agree by its holding of Shares in the Company to provide such information and/or documentation as may be required, upon request from the Company. If the Company fails to satisfy its obligations under the Regulations, it may, in certain circumstances, be treated as a Non-participating Financial Institution by the US Tax Authorities and therefore subject to a 30% withholding on its US source income and any proceeds from the sale of property that could give rise to US source income. Shareholders are encouraged to consult with their own tax advisors regarding the possible implications of FATCA on their interest in the Company.

GENERAL

Incorporation and Share Capital

At the date hereof the maximum authorised share capital of the Company is 100,000,000,000 Shares of no par value and 500,000 Subscriber Shares of US\$1 each. The Subscriber Shares do not entitle the holders to any dividend and on a winding up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. At the date of this Prospectus, 419,400 Subscriber Shares have been issued to the Investment Manager and 1 Subscriber Share has been issued to Brookfield Investment Management (UK) Limited, for the purposes of complying with the UCITS Regulations.

The Company may by ordinary resolution of all Shareholders increase its authorised share capital, consolidate and divide all or any of its share capital into shares of larger amount or sub-divide its shares or any of them into shares of smaller amount. The Company may, by special resolution of all Shareholders, reduce its issued share capital.

Memorandum and Articles of Association

Clause (3) of the Memorandum and Articles provides, inter alia, that the sole object of the Company is the collective investment in transferable securities and/or in other liquid financial assets as permitted by the UCITS Regulations of capital raised from the public, operating on the principle of risk spreading.

The Articles contain provisions to the following effect:

Issue of Shares

The Directors are authorised to exercise all the powers of the Company to offer, allot or otherwise deal with or dispose of "relevant securities" within the meaning of Section 20 of the (Irish) Companies (Amendment) Act 1983 up to an amount equal to the authorised but as yet unissued share capital of the Company.

The price at which Shares shall be issued shall be determined by reference to the Net Asset Value of the relevant Fund or Class calculated as at the relevant Valuation Point.

The Directors may, with the prior approval of the Central Bank, establish new Funds. The Directors have the power to issue different classes of Shares in each Fund.

The Investment Manager or, where appropriate, a Sub-Investment Manager of a Fund, may wish to hedge the currency exposure of certain classes of Shares from time to time. As foreign exchange hedging may be utilised for the benefit of a class of Shares within a Fund, its costs and related liabilities and/or benefits shall be for the account of that class of Share only. Accordingly, such costs and related liabilities and/or benefits will be reflected only in the Net Asset Value per Share of that class of Share. These currency hedging transactions will not be combined with or offset against any other currency transactions undertaken by a Fund and hedged positions will be kept under review and in no case will these transactions exceed 105 per cent of the Net Asset Value attributable to each of the relevant Share class.

Investors should be aware that if hedging is successful, the performance of the hedged Share class is likely to move in line with the performance of the underlying assets and this strategy may substantially limit holders of a hedged Share class from benefiting if the class currency falls against the base currency and/or the currency in which the assets of a Fund are denominated. While not the intention, over-hedged or under-hedged positions may arise due to factors outside of the control of a Fund. Any hedged positions materially in excess of 100% of NAV (if any) will not be carried forward from month to month.

Rights of Subscriber Shares

As the Subscriber Shares are not Participating Shares (and as such do not represent any interest in a Fund) they do not entitle the holders thereof to participate in the dividends of any Fund.

Each holder of Subscriber Shares is entitled to attend and vote at any general meeting provided that any holder of Subscriber Shares shall not be entitled to vote at any such general meeting at any time that Shares in issue are held by two or more Shareholders. In the event of a winding-up or dissolution of the Company, the Subscriber Shares have the entitlements referred to under "Winding Up" below.

Variation of Rights

The rights attached to any class of Share may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the holders of 75% of the issued Shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. The provisions of the Articles relating to general meetings shall apply to every such separate general meeting but the necessary quorum at any such meeting shall be two persons holding or representing by proxy at least one third of the issued Shares of the class in question. Any holder of Shares of the class in question present in person or by proxy may demand a poll.

Voting Rights of Shares

Subject to disenfranchisement in the event of non-compliance with any notice requiring disclosure of the beneficial ownership of Shares, the Articles provide that on a show of hands at a general meeting of the Company, at a meeting of holders of Shares in a particular Fund or at a meeting of holders of Shares of a particular class, every holder of Shares present in person or by proxy shall have one vote and on a poll every holder of Shares who is present in person or by proxy shall have one vote in respect of each whole Share held by him.

Change in Share Capital

The Company may from time to time by ordinary resolution increase its capital, consolidate and divide its Shares into shares of larger amount or subdivide its Shares into shares of smaller amount or cancel any Shares not taken or agreed to be taken by any person. The Company may by special resolution from time to time reduce its share capital in any way permitted by law.

Directors' Interests

A Director may hold any other office or place of profit under the Company in conjunction with his office of Director on such terms as to tenure of office, and otherwise as the Directors may determine.

No Director or intending Director shall be disqualified by his office from contracting with the Company either as vendor, purchaser or otherwise, nor shall any such contract or any contract or arrangement entered into by or on behalf of the Company or in which the Company is interested, in which any Director is in any way interested be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or arrangement by reason of such Director holding that office or of the fiduciary relationship thereby established. A Director who is in any way, whether directly or indirectly, interested in such a contract or arrangement or proposed contract or arrangement with the Company shall declare the nature of his interest if his interest then exists, or in any other case at the first meeting of the Directors after he becomes so interested. A general notice given by a Director to the effect that he is a member of a specified company, society or firm and is to be regarded as interested in all transactions with such company, society or firm shall be a sufficient declaration of interest, and after such general notice it shall not be necessary to give any special notice relating to any subsequent transaction with such company or firm, provided that either the notice is given at a meeting of the Directors or the Director

giving the notice takes reasonable steps to secure that it is brought up and read at the next meeting of the Directors after it is given.

Any Director may act by himself or through his firm in a professional capacity for the Company, and he or his firm shall be entitled to remuneration for professional services as if he were not a Director.

Any Director may continue to be or become a director, managing director, manager or other officer or member of any company promoted by the Company or in which the Company may be interested, and no such Director shall be accountable for any remuneration or other benefits received by him as a director, managing director, manager, or other officer or member of any such other company. The Directors may exercise the voting power conferred by the shares in any other company held or owned by the Company or exercisable by them as directors of such other company, in such manner in all respects as they think fit (including the exercise thereof in favour of any resolution appointing themselves or any of the directors, managing directors, managers or other officers of such company, or voting or providing for the payment of remuneration to directors, managing directors, managers or other officers of such company).

Borrowing Powers

Subject to the UCITS Regulations, the Directors may exercise all of the powers of the Company to borrow or raise money in any currency and secure or discharge any debt or obligation of or binding on the Company in any manner.

Retirement of Directors

The Directors shall not be required to retire by rotation or by virtue of their attaining a certain age.

Dividends

The Articles permit the Directors to declare on the Shares or on any class of Shares such dividends, including interim dividends, as appear to the Directors to be justified. The Directors may, with the sanction of the Company in a general meeting, satisfy any dividend due to holders of the Shares, in whole or in part, by distributing to them *in specie* any of the assets of the Company and, in particular, any investments to which the Company is entitled provided that, where the share capital is divided into different classes of Shares, any such distributions to the holders of one class of Shares shall not materially prejudice the interests of the holders of the other classes of Shares. Alternatively, if a holder does not wish to receive a dividend by way of *in specie* distribution, it may require the Directors to realise such investments necessary in order to effect the relevant distribution.

Any dividend unclaimed after a period of six years from the date of declaration of such dividend shall be forfeited and shall revert to the relevant Fund.

Redemption of Shares

If it shall come to the notice of the Directors that any Shares are owned directly or beneficially by any person in breach of any law or requirement of any country or governmental authority or by virtue of which such person is not qualified to hold such Shares or who belongs, or may belong to, or is comprised in, or may be comprised in, a class of persons designated by the Directors as above, the Directors may give notice to such person requiring him to transfer such Shares to a person who is qualified or entitled to own the same or to give a request in writing for the redemption of such Shares. If any person upon whom such a notice is served does not within 30 days after such notice transfer his Shares to a person qualified to own the same or establish to the satisfaction of the Directors (whose judgement shall be final and binding) that he is qualified, entitled and permitted to own the Shares, he shall be deemed upon the expiration of 30 days to have given a request in writing for the redemption of all his Shares.

Winding Up

The Articles contain provisions to the following effect:-

- (i) If the Company shall be wound up, the liquidator shall apply the assets of the Company in such manner and order as he thinks fit in satisfaction of creditors' claims. The liquidator shall in relation to the assets available for distribution among the Shareholders make in the books of the Company such transfers thereof to and from Funds as may be necessary in order that the effective burden of such creditors' claims may be shared between the holders of Shares of different classes in such proportions as the liquidator in his absolute discretion may think equitable;

The assets available for distribution among the Shareholders shall then be applied in the following priority:-

- (a) first, in the payment to the holders of the Shares of each class of a sum in the currency in which that class is designated (or in any other currency selected by the liquidator) as nearly as possible equal (at a rate of exchange determined by the liquidator) to the Net Asset Value of the Shares of such class held by such holders respectively as at the date of commencement to wind up, provided that there are sufficient assets available in the relevant Fund to enable such payments to be made. In the event that, as regards any class of Shares, there are insufficient assets available in the relevant Fund to enable such payment to be made, recourse shall be had:-

first, to the assets of the Company not comprised within any of the Funds; and second, to the assets remaining in the Funds for the other classes of Shares (after payment to the holders of the Shares of the classes to which they relate of the amounts to which they are respectively entitled under this paragraph (a)) pro rata to the total value of such assets remaining within each such Fund;

second, in the payment to the holders of the Subscriber Shares of sums up to the nominal amount paid thereon out of the assets of the Company not comprised within any of the Funds remaining after any recourse thereto under paragraph (ii)(a) above. In the event that there are insufficient assets as aforesaid to enable such payment in full to be made, no recourse shall be had to the assets comprised within any of the Funds;

third, in the payment to the holders of each class of Shares of any balance then remaining in the relevant Fund, such payment being made in proportion to the number of Shares of that class held; and

fourth, in the payment to the holders of the Shares of any balance then remaining and not comprised within any of the Funds, such payment being made in proportion to the number of Shares held.

- (iii) If the Company shall be wound up (whether the liquidation is voluntary, under supervision or by the court), then the liquidator may, with the authority of a special resolution and any other sanction required by the Companies Acts 1963 to 2009, divide among the Shareholders *in specie* the whole or any part of the assets of the Company, and whether or not the assets shall consist of property of a single kind and may for such purposes set such value as he deems fair upon any one or more class or classes of property, and may determine how such division shall be carried out as between the holders of different classes of Shares. The value of such assets will be the same amount that would be received by a Shareholder for settlement in cash. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of Shareholders as the liquidator, with the like authority, shall think fit, and the

liquidation of the Company may be closed and the Company dissolved, but so that no holder shall be compelled to accept any assets in respect of which there is liability. For the avoidance of doubt, if the special resolution above is passed, each Shareholder is entitled to elect on a winding-up whether or not he wishes to receive a distribution *in specie* or a cash distribution made in accordance with the provisions of paragraph (ii) above. However, in the absence of a Shareholder electing to receive a distribution *in specie* on winding-up, such Shareholder shall receive a cash distribution payment in accordance with the provisions of paragraph (ii) above.

The Funds

The proceeds from the issue of Shares shall be applied in the books of the Company to the relevant Fund and shall be used in the acquisition on behalf of the relevant Fund of assets in which the Fund may invest. The records and accounts of each Fund shall be maintained separately.

The assets of each Fund shall belong exclusively to that Fund, shall be recorded in the books and records maintained for the Fund as being held for that Fund and separately from the assets of other Funds and shall not be used to discharge directly or indirectly the liabilities of or claims against any other Fund and shall not be available for any such purpose. The Directors also reserve the right to redesignate any class of Participating Shares from time to time, provided that Shareholders in that class shall first have been notified by the Company that the Shares will be redesignated and shall have been given the opportunity to have their Shares redeemed by the Company, except that this requirement shall not apply where the Directors redesignate Shares in issue in order to facilitate the creation of an additional Class of Share. In the event that the Directors transfer any asset to and from any Fund they shall advise Shareholders of any such transfer in the next succeeding annual or half-yearly report to Shareholders.

Where any Fund (or Class of Shares in a Fund) is distributing in nature, each of the Participating Shares in a Fund (or any Class thereof) entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of the Company, save in the case of dividends declared prior to becoming a Shareholder.

Each of the Shares entitles the holder to attend and vote at meetings of the Company. No Class of Shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other Class of Shares or any voting rights in relation to matters relating solely to any other Class of Shares.

Any resolution to alter the rights of the Shares requires the approval of three quarters of the holders of the Shares (or where relevant, the particular Class thereof) in writing or else represented or present and voting at a general meeting duly convened in accordance with the Articles.

Conflicts of Interest

The Manager, the Investment Manager, the Sub-Investment Manager, the Administrator, the Depositary and their affiliates, officers and shareholders (collectively the “**Parties**”) are or may be involved in other financial investment and professional activities which will on occasion cause conflict of interest with the management of this Company. This includes the management of other funds, purchases and sales of securities, investment management counselling, brokerage services and serving as directors, officers, advisers, or agents of other funds or other companies, including companies or Funds in which the Company may invest. Dan C. Tutcher, a portfolio manager with the Investment Manager, presently serves on the board of Enbridge, Inc. (NYSE:ENB). As of the date of this Prospectus, Enbridge Inc. is the parent company of Enbridge Energy Management (NYSE:EEQ), Midcoast Energy Partners (NYSE: MEP), Enbridge Energy Partners (NYSE:EEP), Spectra Energy Corp (NYSE:SE), DCP Midstream Partners (NYSE: DCP) and Spectra Energy Partners (NYSE: SEP) (collectively, the “**Enbridge Companies**”). As a board member, Mr. Tutcher attends quarterly board meetings for Enbridge, Inc. The Funds may from time to time invest in Enbridge Companies. In connection with any such investments, the Investment Manager has adopted policies and procedures that are designed

to address potential conflicts of interest that may arise in connection with Mr. Tutchter's service as a director of Enbridge Inc. Specifically, these policies and procedures, among other things; (i) establish information barriers designed to restrict Mr. Tutchter from sharing information regarding Enbridge Companies with other investment professionals of the Investment Manager, (ii) require Mr. Tutchter to recuse himself from any discussions by the Investment Manager's Investment Committee involving Enbridge Companies and (iii) require that all trading decisions involving Enbridge Companies be made by other portfolio managers, without any input from Mr. Tutchter. While these policies and procedures are designed to allow the Funds to invest in Enbridge Companies, the policies and procedures may require the Investment Manager to restrict trading in Enbridge Companies from time to time, which may prevent the Funds from acquiring or disposing of securities of Enbridge Companies at a favourable time. In addition, as a result of these policies and procedures, the Funds will not benefit from Mr. Tutchter's experience and expertise with respect to investments in Enbridge Companies.

Furthermore, it is envisaged that the Investment Manager may be involved in managing and/or advising other investment funds and accounts which may have similar or overlapping investment objectives to or with the Company. Where a "competent person" valuing securities is a related party to the Company, a possible conflict of interest may arise for example, where a valuation is provided by an investment manager, the investment manager's fees will increase as the value for the Company increases. Each of the Parties and the Directors of the Company will respectively ensure that the performance of their respective duties will not be impaired by any such involvement that they may have and that any conflicts which may arise including the allocation of investment opportunities will be resolved fairly.

Any transaction carried out with the Company by the Manager, the Investment Manager, the Sub-Investment Managers, the Administrator, the Depositary and/or associated or group companies of these will be carried out as if effected on normal commercial terms negotiated at arms length. Transactions will be in the best interests of the Shareholders.

Transactions permitted will be subject to:

- (a) certified valuation by a person approved by the Depositary (or the Directors in the case of a transaction involving the Depositary or its affiliates) as independent and competent;

execution on best terms on organised investment exchanges under their rules; or

where (a) or (b) are not practical, execution on terms which the Depositary (or the Directors in the case of a transaction involving the Depositary) is satisfied conform to the principle that such transactions be carried out as if effected on normal commercial terms negotiated at arms length,

and provided further that any such transaction is in the best interests of Shareholders.

The Depositary (or in the case of a transaction involving the Depositary, the Company) shall document how it complies with paragraphs (a), (b) and (c) above. Where transactions are conducted in accordance with paragraph (c) above, the Depositary (or in the case of a transaction involving the Depositary, the Company) shall document its rationale for being satisfied that the transaction conforms with the requirements set out at paragraph (c) above.

Each Sub-Investment Manager of a Fund may serve as investment manager for other clients and may continue to do so. The Sub-Investment Managers are not obligated to devote their full time and attention to the Funds, but only such portion of their time and attention as they shall reasonably determine to be appropriate to fulfill their obligations under their respective Sub-Investment Manager Agreement.

The Sub-Investment Manager Agreements do not limit or restrict in any way the Sub-Investment Managers from buying, selling or trading in any securities or other investments for other clients or for

their own account, even if such securities or other investments are the same as or similar to those traded by a Fund to which it provides services. The situation may arise in which a Sub-Investment Manager's activities on behalf of other clients may disadvantage the Fund to which it provides services, such as the inability of the market to absorb fully orders for the purchase or sale of particular investments placed by the Sub-Investment Manager for the Fund and for other clients at prices and in quantities which would be obtainable if the same were being placed only by the Fund to which it provides services.

While the Sub-Investment Managers will act in a fair and reasonable manner in allocating suitable investment opportunities among their client accounts (including the Fund to which it provides services), no Sub-Investment Manager is obligated to present any particular investment opportunity to the Fund even if such opportunity would constitute an appropriate investment for the Fund. Each Sub-Investment Manager has the right to take for the account of any of its clients, or to recommend to clients, any such particular investment opportunity. Accordingly, there can be no assurance that particular investment opportunities allocated to accounts other than the Fund will not outperform investment opportunities allocated to the Fund or that equality of treatment will otherwise be assured. When the Sub-Investment Manager deems the purchase or sale of securities or other property to be in the best interests of the Fund and of other clients, the Sub-Investment Manager may, where permitted by law, but shall not be obligated to, aggregate the securities or other property to be purchased or sold. In such event, allocation of the securities or other assets purchased or sold, as well as expenses incurred in the transaction, shall be made to the participating accounts in a manner determined by the Sub-Investment Manager. The Sub-Investment Managers have each agreed that the Fund managed by such Sub-Investment Manager will receive substantially similar treatment as such Sub-Investment Manager's own fund(s), if any. Generally, each Sub-Investment Manager has agreed to deal in the best interests of the Fund to which it provides services and not deal with the assets of such Fund for its own interest or its own account.

The Sub-Investment Managers, in trading on behalf of client accounts or their own accounts, may make use of information obtained by them in the course of managing the Funds, except to the extent that they may have confidentiality and non-use obligations pursuant to the Sub-Investment Manager Agreements. The Sub-Investment Managers have no obligation to the Investment Manager, or to the Funds, for any profits earned from their use of such information or to compensate the Investment Manager or the Funds in any respect for their receipt of such information.

The Sub-Investment Managers may give advice or take action in performing their duties to other clients, or take action for their own accounts, that differs from advice given to or action taken for the Fund. Without limiting the generality of the foregoing, the Sub-Investment Manager: (i) may recommend that the Fund purchase or sell an investment that is being sold or purchased, respectively, by another advisory client or for its own account; and (ii) is not obligated to buy, sell or recommend for the Fund any security or other investment that the Sub-Investment Manager may buy, sell or recommend for any other client or for its own account. Such activity may adversely affect the price that the Fund, indirectly, pays or receives for such securities or other investments.

The Sub-Investment Managers may obtain material non-public or other confidential information about an issuer of securities that, if disclosed, might affect an investor's decision to buy, sell or hold a security. Under applicable law, the Sub-Investment Managers cannot improperly disclose or use this information for their personal benefit or for the benefit of any person, including clients of the Sub-Investment Manager. If a Sub-Investment Manager obtains non-public or other confidential information about any issuer, it cannot disclose the information to the Investment Manager or the Fund or use it for the benefit of either of them.

The Sub-Investment Managers receive performance-based compensation from the Funds that may create an incentive for the Sub-Investment Managers to make riskier or more speculative investments in order to generate profits than they would if they were not receiving performance-based compensation.

Meetings and Votes of Shareholders

All general meetings of the Company shall be held in Ireland. In each year the Company shall hold a general meeting as its annual general meeting. No resolution shall be passed at any general meeting as a special resolution of the Company to alter the provisions contained in the Memorandum in any way that is not in accordance with the requirements of the Central Bank. Each holder of Subscriber Shares is entitled to attend and vote at any general meeting where there are no Participating Shares in issue. When Participating Shares are in issue, each holder of one or more Subscriber Share and each holder of Participating Shares is entitled to attend and vote at any general meeting provided that any holder of Subscriber Shares shall not be entitled to attend or vote at any general meeting at any time that Participating Shares are held by more than one person. On a show of hands, every Shareholder entitled to vote shall have one vote in respect of all the Participating Shares held by that Shareholder. On a poll, every Shareholder entitled to vote shall have one vote in respect of each Participating Share and Subscriber Share held by him. For all purposes the quorum for a general meeting shall be not less than two Shareholders present in person or by proxy and entitled to vote except where there are less than two Shareholders in any class, when the quorum shall be one person. If within half an hour from the time appointed for the general meeting a quorum is not present the general meeting shall be dissolved. A proxy may attend on behalf of any Shareholder. An instrument of proxy shall be in any common form or in such other form as the Directors may approve.

Termination of Funds and Total Repurchase

The Directors shall have the power upon 30 days' notice to Shareholders of a particular Fund to terminate that Fund on any Redemption Date (i) if the Net Asset Value of the Fund falls to a level that, in the absolute discretion of the Directors makes the Fund cease to be economically viable or (ii) for any other reason that the Directors determine, in their absolute discretion, is in the best interests of the Shareholders of a particular Fund as a whole. The Directors are also entitled to terminate any Fund with the sanction of a special resolution of the holders of the Shares relating to that Fund.

Furthermore, the Company may, by not less than four weeks' notice to all Shareholders, repurchase at the Net Asset Value per Share on such Redemption Date, all (but not some) of the Shares in issue for any Fund or for the Company as a whole on such date in the following instances:

if the Company or any Fund is no longer authorised or approved by the Central Bank;

if any law is passed which renders it illegal, or in the reasonable opinion of the Directors it is impracticable or inadvisable, to continue the Company or any Fund;

if the Sub-Investment Manager Agreement in respect of a Fund is terminated and the Investment Manager determines that a replacement Sub-Investment Manager will not be appointed to that Fund; or

if within a period of 90 days from the date on which the Depositary notifies the Company of its desire to retire in accordance with the terms of the Depositary Agreement, or from the date on which the appointment of the Depositary is terminated by the Company in accordance with the terms of the Depositary Agreement, or from the date on which the Depositary ceases to be qualified to act as Depositary and no new depositary shall have been appointed.

Reports

The Company's year end is 31 December in each year with the first annual report being published in respect of the period ending 31 December 2012. The annual report, incorporating audited financial statements in respect of each Fund, will be published within four months of the end of the relevant financial year.

The half yearly accounting date is 30 June in each year with the first half yearly report being published in respect of the period ending 30 June 2012. The half-yearly report, which shall include unaudited half yearly accounts for each Fund, will be published within two months of the end of the relevant period.

Audited annual reports and unaudited half-yearly reports will be sent to all Shareholders and to the Central Bank upon publication. As with all communications from the Company to Shareholders, the annual and half-yearly reports will be sent electronically to Shareholders, unless a hard copy is specifically requested.

Documents Available

Copies of the Memorandum and Articles of the Company and the latest financial reports of the Company, as appropriate, may be obtained, free of charge, upon request at the registered office of the Company. A copy of the Memorandum and Articles of the Company may also be obtained from the Investment Manager free of charge.

SCHEDULE 1: VALUATIONS OF SUB-FUNDS

The Net Asset Value of the Company, the Net Asset Value of each Fund or the Net Asset Value attributable to each Class of Shares, as the case may be, will be calculated in the relevant currency by the Administrator at the Valuation Point in respect of each Valuation Date in accordance with the principles more fully described below.

The Net Asset Value of each Fund is the aggregate value of the assets of each Fund (including, without limitation, any unamortised expenses attributable to each Fund) less the aggregate liabilities attributable to each Fund. The Net Asset Value per Share in each Fund will be calculated by dividing the Net Asset Value of such Fund by the number of Shares in issue in respect of that Fund.

Where a Fund is made up of more than one Class of Shares, the Net Asset Value of each Class of Shares will be calculated by determining that part of the Net Asset Value of each Fund attributable to each such Class of Shares and dividing this value by the number of Shares of that Class or Series in issue. Any increase or decrease in the Net Asset Value of each Fund will be allocated between the Share Classes based on their pro rata closing Net Asset Values when calculating the Net Asset Value of each Class or Series.

Where classes of Shares denominated in different currencies are created within a Fund and currency hedging transactions are entered into in order to hedge any relevant currency exposure, such transactions will be clearly attributable to a specific Share series and any costs and gains/losses of the hedging transactions will accrue solely to the relevant class of Shares. Furthermore, no currency Share class may be leveraged as a result of using such currency hedging transactions, although over- or under-hedged positions may arise due to factors outside the control of the Fund. All hedged positions will be kept under review to ensure that any over-hedged positions do not exceed 105% of the Net Asset Value attributable to each class of Shares and procedures will be put in place to ensure that any over-hedged positions materially in excess of 100% of the Net Asset Value attributable to the relevant class of Shares is not carried forward from month to month. Furthermore, the Company will ensure that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant hedged Share Class and shall keep any such under-hedged position under review so as to ensure it is not carried forward from month to month. The costs and gains/losses of the hedging transactions will accrue solely to the relevant series of Share. This strategy may substantially limit Shareholders of the series of Share from benefiting if the series currency falls against the base currency and/or the currency in which the assets of a Fund are denominated.

The Net Asset Value per Share will increase or decrease in accordance with profits or losses incurred by the Company.

Allocation of Assets and Liabilities

The Articles require the Directors to establish separate Funds in the following manner:

- (a) the proceeds from the issue of each Share shall be applied to the Fund established for that Share, and the assets and liabilities and income and expenditure attributable thereto shall be applied to such Fund subject to the provisions of the Articles;

where any asset is derived from another asset, the derived asset shall be applied to the same Fund as the assets from which it was derived and on each revaluation of an asset the increase or diminution in value shall be applied to the relevant Fund;

in the case of any asset which the Directors do not consider as attributable to a particular Fund, the Manager shall have discretion to determine the basis upon which any such asset shall be allocated between Funds and the Manager shall have the power at any time, to vary such basis, provided that such allocation is done on a fair and equitable basis;

the Manager shall have the discretion to determine the basis upon which any liability (which, without limitation, may include all operating expenses of the Company such as stamp duties, taxes, brokerage or other expenses of acquiring and disposing of investments, ongoing regulatory fees and expenses, the fees and expenses of the tax advisers, auditors and legal advisers, the costs of printing and distributing reports, accounts and any prospectus, publishing prices and any relevant registration fees etc.) shall be allocated between Funds (including conditions as to the subsequent re-allocation thereof if circumstances so permit) and shall have power at any time and from time to time to vary such basis, provided that such allocation is done on a fair and equitable basis; and

subject to the approval of the Depositary, the Manager may transfer any assets to and from Funds if, as a result of a creditor proceeding against certain of the assets of the Company or otherwise, a liability would be borne in a different manner from that in which it would have been borne under paragraph (d) above or in any similar circumstances.

Valuation Principles

The Articles provide for the method of valuation of the assets and liabilities of the Company, of each Fund and of those attributable to each Class of Shares. The Articles provide that:

- (a) the value of any investment which is quoted, listed or normally dealt in on a regulated market shall be calculated at the last traded price, provided that:

if an investment is quoted, listed or normally dealt in on more than one market, the Manager shall adopt as the value thereof the price on the market as determined in accordance with paragraph (a) above which, in their opinion, provides the principal market for such investment; and

in the case of an investment which is quoted, listed or normally dealt in on a market but in respect of which, for any reason, prices on that market may not be available at any relevant time or may not represent fair value, the value thereof shall be the probable realisation value which must be estimated with care and in good faith by such competent person as may be appointed by the Manager and approved for the purpose by the Depositary;

there shall be taken into account interest or dividends accrued but not received on investments up to the relevant Valuation Point;

the value of any investment which is not quoted, listed or normally dealt in on a market shall be the probable realisation value which must be estimated with care and in good faith by such competent person as may be appointed by the Manager and approved for the purpose by the Depositary. In valuing such investments the Manager may consider, *inter alia*, the fundamental analytical data relating to the investments, the nature and duration of restrictions on disposition of the investments and the forces which influence the market in which the investments are purchased and sold;

cash shall be valued at face value (together with accrued interest on interest bearing accounts up to the relevant Valuation Point) unless, in the opinion of the Manager, any adjustment should be made to reflect the value thereof;

fixed income securities for which a basis of valuation is not otherwise provided in this section shall be valued by reference to prices ruling in the appropriate markets for such instruments of like maturity, amount and credit risk, at the relevant Valuation Point. Such methodology will be compiled by Manager or the Investment Manager as outlined herein;

forward foreign exchange contracts will be valued in accordance with paragraph (g) below, or, alternatively by reference to freely available market quotations. If such freely available market quotations are used, there is no requirement to have such prices independently verified or reconciled to the counterparty valuation on a monthly basis;

derivative instruments dealt in on a market shall be calculated at the settlement price as determined by the market in question, provided that where it is not the practice of the relevant market to quote a settlement price or if such settlement price is not available for any reason, such value shall be the probable realisation value estimated with care and in good faith by the Manager or a competent person appointed by the Manager and approved for the purpose by the Depositary;

off-exchange derivative contracts shall be valued by the counterparty on a daily basis. The valuation must be approved or verified weekly by a third party who is independent of the counterparty and who is appointed by the Manager and approved for the purpose by the Depositary. An alternative valuation may also be used. Where an alternative valuation is used, the following conditions will be satisfied:

- the Company will follow international best practice and adhere to the principles on valuation of OTC instruments established by bodies such as IOSCO and AIMA;

- the alternative valuation is that provided by a competent person appointed by the Company and approved for the purpose by the Depositary or a valuation by any other means provided that the value is approved by the Depositary; and
- the alternative valuation must be reconciled to the counterparty valuation on a monthly basis. Where significant differences arise these must be promptly investigated and explained;

the value of units or shares or other similar participation in any collective investment scheme shall be valued at the last available net asset value per unit or share or other similar participation as at the Valuation Point;

notwithstanding any of the foregoing sub-paragraphs, the Manager may, with the approval of the Depositary, adjust the value of any asset if, having regard to currency, applicable rate of interest, maturity, marketability and/or such other considerations as they may deem relevant, they consider that such adjustment is required to reflect the fair value thereof;

if in the case of a particular asset the value is not ascertainable as above provided or if the Manager shall consider that some other method of valuation better reflects the fair value of the relevant investment then in such case the method of valuation of the relevant investment shall be such as the Directors, in their absolute discretion and in consultation with the Manager, shall decide with the approval of the Depositary;

notwithstanding the foregoing, where at the time of any valuation any asset of the Fund has been realised, or contracted to be realised, there shall be included in the assets of the Fund in place of such asset the net amount receivable by the Fund in respect thereof provided that if such amount is not known exactly then its value shall be the net amount estimated by the Manager as receivable by the Fund;

the pricing services, whether automated or not, of one or more third parties may be engaged to ascertain the value of any Investment;

securities listed or traded on a regulated market but acquired or traded at a premium or at a discount outside or off the relevant market may be valued, taking into account the level of premium or discount at the date of the valuation with the approval of the Depositary. The Depositary shall ensure that the adoption of such a procedure is justifiable in the context of establishing the probable realisation value of the security; and

in the event of substantial or recurring net subscriptions or redemptions the Manager may adjust the Net Asset Value per Participating Share to reflect the value of the Company's (or the relevant Fund's) assets using the lowest market dealing offer price in the case of net subscriptions and the lowest market dealing bid price in the case of net redemptions in order to preserve the value of the shareholding of the Company's (or the relevant Fund's) continuing shareholders provided that the valuation policies will be applied on a consistent basis throughout the life of the Fund and that there is consistency in the policies adopted throughout the various categories of assets.

The liabilities of each Fund shall be deemed to include:

- (a) all bills, notes and accounts payable
- (b) all administrative expenses payable and/or accrued (the latter up to the Valuation Point);
- (c) all known liabilities including the amount of any unpaid dividend declared upon the Shares in each Fund, if any, contractual obligations for the acquisition of investments or other property or for the payment of money and outstanding payments on any Shares previously redeemed;
- (d) an appropriate provision for taxes (other than taxes taken into account as duties and charges) and contingent liabilities as determined from time to time by the Manager; and
- (e) all other liabilities of each Fund of whatsoever kind and nature, whether estimated or actual, except liabilities represented by Shares in the respective Funds and reserves (other than reserves authorised or approved by the Manager for duties and charges or contingencies). In determining the amount of such liabilities the Manager may calculate administrative and other expenses of a regular or recurring nature on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any such period. Where the Directors have created different Classes of Participating Shares within a Fund in accordance with Article 13 of the Articles and have determined

that each Class will incur different levels of fees (the details of which shall be set out in the applicable Supplement for that Fund), the Administrator shall adjust the Net Asset Value per Class in order to reflect such different levels of fees payable in respect of each Class.

The Manager may include in the determination of the Net Asset Value a sum representing a provision for duties and charges relating to acquisition and disposal of investments. Such duties and charges include all stamp and other duties, taxes, governmental charges, brokerage, bank charges, transfer fees, registration fees and other duties and charges whether in connection with the original acquisition or increase of the assets of the respective Funds or the creation, issue, sale or repurchase of shares or the sale or purchase of investments by the Fund or in respect of certificates or otherwise which may have become or may be payable in respect of or prior to or upon the occasion of the transaction or dealing in respect of which such duties and charges are payable but shall not include any commission, taxes, charges or costs which may have been taken into account in ascertaining the value of the Fund concerned.

Any assets held, including funds on deposit and amounts payable to a Fund, and liabilities and amounts payable by a Fund in a currency other than that in which the Shares are designated, shall be translated into the currency of the Shares at the rate quoted at the Valuation Point by a recognised pricing service for the relevant Valuation Point or, if no rate is so quoted, at such other rate of exchange as the Manager thinks fit.

Where the current price of an investment is quoted "ex" any dividend (including stock dividend), interest or other rights but such dividend, interest or the property to which such rights relate has not been received and is not taken into account under any other provisions of this Schedule, the amount of such dividend, interest, property or cash shall be taken into account.

Any entity wholly owned by the Company pursuant to the provisions of Article 91(c) of the Articles shall be valued on the basis of its net assets (being the difference between the value of its assets and liabilities) and in valuing its net assets, the provisions of Article 17 of the Articles shall mutatis mutandis apply.

SCHEDULE 2: INVESTMENT AND BORROWING RESTRICTIONS

Each Fund of the Company will be subject to the investment and borrowing restrictions that are set out in the UCITS Regulations and the Central Bank Regulations. Additional restrictions (if any) relevant to a Fund will be set out in the applicable Supplement.

1. Investments of the Company are confined to:

- (a) Transferable Securities and Money Market Instruments which are either admitted to official listing on a stock exchange in a Member State of the European Union or non-Member State of the European Union or which are dealt on a market which is regulated, operates regularly, is recognised and open to the public in a Member State of the European Union or non-Member State of the European Union;
- (b) recently issued Transferable Securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year;
- (c) Money Market Instruments, as defined in the Central Bank Regulations, other than those dealt on a regulated market;
- (d) units of Collective Investment Schemes;
- (e) units of AIFs as set out in the Central Bank Regulations;
- (f) deposits with credit institutions as prescribed in the Central Bank Regulations; and
- (g) financial derivative instruments as prescribed in the Central Bank Regulations.

Investment Restrictions

A Fund may invest no more than 10% of its Net Asset Value in Transferable Securities and Money Market Instruments other than those referred to in paragraph 1.

A Fund may invest no more than 10% of its Net Asset Value in securities of the type to which Regulation 68(1)(d) of the UCITS Regulations 2011 apply. This restriction will not apply to an investment by a Fund in US securities known as "Rule 144 A securities" provided that:

the relevant securities have been issued with an undertaking to register the securities with the SEC within 1 year of issue; and

the securities are not illiquid securities i.e. they may be realised by a Fund within 7 days at the price, or approximately at the price, at which they are valued on behalf of the Fund.

A Fund may invest no more than 10% of its Net Asset Value in Transferable Securities or Money Market Instruments issued by the same body provided that the total value of Transferable Securities and Money Market Instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.

The limit of 10% (in (c)) is raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in a Member State of the European Union and is subject by law to special public supervision designed to protect bond-holders. If a Fund invests more than 5% of its Net Asset Value in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the Net Asset Value of the Fund.

The limit of 10% (in (c)) is raised to 35% if the Transferable Securities or Money Market Instruments are issued or guaranteed by a Member State of the European Union or its local authorities or by a non-Member State of the European Union or public international body of which one or more Member States of the European Union are members.

The Transferable Securities and Money Market Instruments referred to in (d) and (e) shall not be taken into account for the purpose of applying the limit of 40% referred to in (c).

A Fund may not invest more than 20% of its Net Asset Value in deposits made with the same credit institution.

Deposits with any one credit institution, other than (i) a credit institution authorised in the EEA; or (ii) a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988; or (iii) a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand, held as ancillary liquidity must not exceed 10% of its Net Asset Value.

This limit may be raised to 20% in the case of deposits made with the Depositary.

The risk exposure of a Fund to a counterparty to an OTC derivative may not exceed 5% of its Net Asset Value.

This limit is raised to 10% in the case of (i) a credit institution authorised in the EEA; or (ii) a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988; or (iii) a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

Notwithstanding paragraphs (c), (g) and (h) above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of its Net Asset Value:-

investments in Transferable Securities or Money Market Instruments;

deposits; and/or

counterparty risk exposures arising from OTC derivatives transactions.

The limits referred to in (c), (d), (e), (g), (h) and (i) above may not be combined, so that exposure to a single body shall not exceed 35% of the relevant Fund's Net Asset Value.

Group companies are regarded as a single issuer for the purposes of (c), (d), (e), (g), (h) and (i). However, a limit of 20% of net assets may be applied to investment in Transferable Securities and Money Market Instruments within the same group.

A Fund may invest up to 100% of its Net Asset Value in different Transferable Securities and Money Market Instruments issued or guaranteed by any EU Member State, its local authorities, non-EU Member States or public international body of which one or more EU Member States are members.

The individual issuers will be drawn from the following list:-

- OECD Governments (provided the issues are of investment grade);
- Government of the People's Republic of China;
- Government of Brazil (provided the issues are of investment grade);
- Government of India (provided the issues are of investment grade);
- Government of Singapore (provided the issues are of investment grade);
- European Investment Bank;
- European Bank for Reconstruction and Development;
- International Finance Corporation;
- International Monetary Fund;
- Euratom;
- The Asian Development Bank;
- European Central Bank;
- Council of Europe;

- Eurofima;
- African Development Bank;
- International Bank for Reconstruction and Development (The World Bank);
- The Inter American Development Bank;
- European Union;
- Federal National Mortgage Association (Fannie Mae);
- Federal Home Loan Mortgage Corporation (Freddie Mac);
- Government National Mortgage Association (Ginnie Mae);
- Student Loan Marketing Association (Sallie Mae);
- Federal Home Loan Bank;
- Federal Farm Credit Bank;
- Tennessee Valley Authority; and
- Straight-A Funding LLC.

A Fund must hold securities from at least six different issuers, with securities from any one issuer not exceeding 30% of its Net Asset Value.

Investment in Collective Investment Schemes (“CIS”)

A Fund may not invest more than 20% of its net assets in any one CIS.

Investment in AIFs may not, in aggregate, exceed 30% of a Fund’s net assets.

The CIS are prohibited from investing more than 10% of their net assets in other open-ended CIS.

When a Fund invests in the shares of other CIS that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge management, subscription, conversion or redemption fees on account of the Funds investment in the shares of such other CIS.

Where a commission (including a rebated commission) is received by the Investment Manager by virtue of an investment in the shares of another CIS, this commission must be paid into the property of the Fund.

General Provisions

An investment company or management company acting in connection with all of the CIS it manages, may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.

A Fund may acquire no more than:

10% of the non-voting shares of any single issuing body;

10% of the debt securities of any single issuing body;

25% of the shares of any single CIS; or

10% of the Money Market Instruments of any single issuing body.

The limits laid down in (ii), (iii) and (iv) above may be disregarded at the time of acquisition if, at that time, the gross amount of the debt securities or of the Money Market Instruments, or the net amount of the securities in issue cannot be calculated.

Paragraphs 4(a) and 4(b) above shall not be applicable to:

Transferable Securities and Money Market Instruments issued or guaranteed by an EU Member State or its local authorities;

Transferable Securities and Money Market Instruments issued or guaranteed by a non- EU Member State;

Transferable Securities and Money Market Instruments issued by public international bodies of which one or more EU Member States are members;

shares held by a Fund in the capital of a company incorporated in a non-EU Member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that state such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-EU Member State complies with the limits laid down in 2(c) to 2(k), 3(a), 3(b), 4(a), 4(b), 4(d), 4(e) and 4(f), and provided that where these limits are exceeded, paragraphs 4(e) and 4(f) below are observed; or

shares held by an investment company or investment companies in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of shares at Shareholders' request exclusively on their behalf.

Funds need not comply with the investment restrictions herein when exercising subscription rights attaching to Transferable Securities or Money Market Instruments which form part of their assets.

The Central Bank may allow recently authorised Funds to derogate from the provisions of 2(c) to 2(l), 3(a) and 3(b) for six months following the date of their authorisation, provided they observe the principle of risk spreading.

If the limits laid down herein are exceeded for reasons beyond the control of a Fund, or as a result of the exercise of subscription rights, the Fund must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its Shareholders.

The Investment Manager may not carry out uncovered sales of:

Transferable Securities;

Money Market Instruments;

units of CIS; or

financial derivative instruments.

A Fund may hold ancillary liquid assets.

Financial Derivative Instruments

Funds may invest in financial derivative instruments dealt in over-the-counter markets provided that the following are adhered to:

The Fund's global exposure (as prescribed in the Central Bank Regulations) relating to financial derivative instruments must not exceed its total Net Asset Value;

Position exposure to the underlying assets of the financial derivative instruments, including embedded financial derivative instruments in Transferable Securities or Money Market Instruments, when combined where relevant with positions resulting from direct investments, does not exceed the investment limits set out in the Central Bank Regulations. (This provision does not apply in the case

of index based financial derivative instruments provided the underlying index is one which meets with the criteria set out in the Central Bank Regulations);

The Fund may invest in financial derivative instruments dealt in over-the-counter (OTC) provided that the counterparties to over-the-counter transactions (OTCs) are institutions subject to prudential supervision and belonging to categories approved by the Central Bank; and

Investments in financial derivative instruments are subject to the conditions and limits laid down by the Central Bank.

Borrowing Restriction

Each Fund may borrow amounts by way of short term loans not exceeding 10% of its net assets provided that such borrowing is on a temporary basis.

SCHEDULE 3: LIST OF RECOGNISED MARKETS

With the exception of permitted investments in unlisted securities, the Company's investments will be restricted to securities listed or traded on exchanges and markets listed below:-

1. All stock exchanges:-

- In a Member State (other than Malta):-

Austria	Denmark	Hungary	Netherlands	Sweden
Belgium	Estonia	Ireland	Poland	Romania
Bulgaria	Finland	Italy	Portugal	
Croatia	France	Latvia	Slovakia	
Cyprus	Germany	Lithuania	Slovenia	
Czech Republic	Greece	Luxembourg	Spain	

- In a Member State of the European Economic Area (EEA) (excluding Liechtenstein)

Iceland

Norway

- In any of the following countries:-

US	Australia
Canada	New Zealand
Japan	Hong Kong
Switzerland	United Kingdom

Any stock exchange included on the following list:-

Argentina	Buenos Aires Stock Exchange, Mercado Abierto Electronico S.A., Mercado De Valores de Buenas Aires S.A., Mercado a Termino de Buenas Aires S.A., Bolsa de Comercio de Cordoba, Bolsa de Comercio Rosario and Bolsa de Comercio de Mendoza S.A., La Plata Stock Exchange
Bangladesh	Dhaka Stock Exchange
Brazil	Bolsa de Valores de Sao Paulo, Rio de Janeiro Stock Exchange, Bahia Sergipe-Alagoas Stock Exchange, Extremo Sul Stock Exchange, Porto Alegre, Minas Esperito Santo Brasila Stock Exchange, Parana Stock Exchange, Curitiba, Pernambuco e Paraiba Stock Exchange, Regional Stock Exchange, Fortaleza, Santos Stock Exchange
Chile	Santiago Stock Exchange, La Bolsa Electronica de Chile
China	Shanghai Stock Exchange and Shenzhen Stock Exchange
Columbia	Bogota Stock Exchange, Medellin Stock Exchange
Croatia	Zagreb Stock Exchange

Egypt	Cairo and Alexandria Stock Exchange
India	National Stock Exchange, Mumbai Stock Exchange, Bangalore Stock Exchange, Calcutta Stock Exchange, Delhi Stock Exchange, Gauhati Stock Exchange, Hyderabad Stock Exchange, Ludhiana Stock Exchange, Madras Stock Exchange, Pune Stock Exchange, Uttar Pradesh Stock Exchange Association, Bombay Stock Exchange, Ahmedabad Stock Exchange, Cochin Stock Exchange, Magadh Stock Exchange
Indonesia	Jakarta Stock Exchange and Surabaya Stock Exchange
Israel	Tel Aviv Stock Exchange
Jordan	Amman Stock Exchange
Malaysia	Bursa Malaysia Stock Exchange, Kuala Lumpur Stock Exchange
Mauritius	Stock Exchange of Mauritius Ltd
Mexico	Bolsa Mexicana de Valores, SA.de.cv, Mexican Stock Exchange
Morocco	Casablanca Stock Exchange
Pakistan	Karachi Stock Exchange, Lahore Stock Exchange
Peru	Bolsa de Valores de Lima
Philippines	Philippines Stock Exchange
Russia	Level 1 or level 2 of the RTS Stock Exchange
Singapore	Singapore Exchange
South Africa	JSE Securities Exchange
South Korea	Korea Exchange
Sri Lanka	Colombo Stock Exchange
Taiwan	Taiwan Stock Exchange
Thailand	Stock Exchange of Thailand
Turkey	Istanbul Stock Exchange
Venezuela	Caracus Stock Exchange, Maracaibo Stock Exchange

The derivative markets approved in the United Kingdom, the European Union or an EEA Member State (excluding Liechtenstein);

The following regulated derivatives markets:- American Stock Exchange, Montreal Stock Exchange, Australian Stock Exchange, New York Futures Exchange, Bolsa Mexicana de Valores, New York Mercantile Exchange, Chicago Board of Trade, New York Stock Exchange, Chicago Board Options Exchange, New Zealand Futures Exchange, Chicago Mercantile Exchange, OMLX The London Securities and Derivatives Exchange Ltd, Copenhagen Stock Exchange (including FUTOP), European Options Exchange, OM Stockholm AB, Eurex Deutschland, Osaka Securities Exchange, Financiele Termijnmarkt Amsterdam, Pacific Stock Exchange, Finnish Options Market, Philadelphia Board of Trade, Hong Kong Futures Exchange, Philadelphia Stock Exchange, International Securities Market Association, Singapore International Monetary Exchange, Irish Futures and Option Exchange (IFOX), South Africa Futures Exchange (SAFEX),

Kansas City Board of Trade, Sydney Futures Exchange, Financial Futures and Options Exchange, The National Association of Securities Dealers Automated Quotations System (NASDAQ), Marche a Terme des International de France, Marche des options Negociables de Paris (MONEP), MEFF Renta Fija, Tokyo Stock Exchange, MEFF Renta Variable, Toronto Futures Exchange, Midwest Stock Exchange.

The market organised by the members of the International Capital Market Association;

The market conducted by the 'listed money market institutions' as described in the Financial Services Authority publication 'The Regulation of Wholesale Cash and OTC Derivatives Markets' (The Grey Paper);

JASDAQ Securities Exchange;

The market in US government securities conducted by primary dealers regulated by the Federal Reserve Bank of New York;

The over-the-counter market in the US regulated by the National Association of Securities Dealers Inc;

The French market for 'Titres de Creance Negotiable' (over-the-counter market in negotiable debt instruments); and

The over-the-counter market in Canadian Government Bonds, regulated by the Investment Industry Regulatory Organization of Canada.

These exchanges and markets are listed in the Articles and in accordance with the requirements of the Central Bank, which does not issue a list of approved markets.

This list of Recognised Markets is listed in accordance with the requirements of the Central Bank, which does not issue a list of approved markets.

SCHEDULE 4: COLLATERAL POLICY

In the context of efficient portfolio management techniques and/or the use of financial derivative instruments (“FDIs”) for hedging or investment purposes, collateral may be received from a counterparty for the benefit of the relevant Fund or posted to a counterparty by or on behalf of the relevant Fund. Any receipt or posting of collateral by the Fund will be conducted in accordance with the requirements of the Central Bank and the terms of the Company’s collateral policy outlined below.

The types of collateral acceptable for a Fund shall include but not be limited to: (i) cash; (ii) government or other public securities; (iii) certificates of deposit issued by relevant institutions; (iv) bonds/commercial paper issued by relevant institutions or by non-bank issuers; and (v) equity securities traded on certain stock exchanges.

5. Collateral – Received by the Fund

Collateral posted by a counterparty for the benefit of a Fund may be taken into account as reducing the exposure to such counterparty. The Fund will require receipt of the necessary level of collateral so as to ensure counterparty exposure limits set out in the UCITS Regulations are not breached. Counterparty risk may be reduced by an amount equivalent to the value of the collateral received after taking into account appropriate discounts.

The Company or its delegate will liaise with the Depositary (and/or any other collateral management service provider as may be appointed from time to time) in order to manage all aspects of the counterparty collateral process. Risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the Company’s risk management process.

If the relevant Fund receives collateral for at least 30% of its Net Asset Value it will put in place an appropriate stress testing policy to ensure regular stress tests are carried out under normal and exceptional liquidity conditions to enable the relevant Fund to assess the liquidity risk attached to the non-cash collateral. The liquidity stress testing policy with respect to non-cash collateral will at least prescribe the following:

- (i) Design of stress test scenario analysis including calibration, certification and sensitivity analysis;
- (ii) Empirical approach to impact assessment, including back-testing of liquidity risk estimates;
- (iii) Reporting frequency and limit/loss tolerance thresholds; and
- (iv) Mitigation actions to reduce loss including haircut policy and gap risk protection.

All assets received by the relevant Fund in the context of stocklending/repurchase transactions shall be considered as collateral and must comply with the terms of the Company’s collateral policy.

6. Non-Cash Collateral

For collateral management, cash as collateral is favoured by the Company. Where non-cash collateral is used, the Company will typically only accept government securities of varying maturities as non-cash collateral that do not exhibit high price volatility. Non-Cash collateral received must, at all times, meet with the following criteria:

(i) Liquidity: Collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Regulation 74 of the UCITS Regulations.

(ii) Valuation: Collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. Any non-cash collateral will be marked-to-market on a daily basis and subject to daily variation margin movements.

(iii) Issuer credit quality: Collateral received should be of high quality. The Investment Manager shall ensure that: (a) where the issuer was subject to a credit rating by an agency registered and supervised by ESMA that rating shall be taken into account by the Investment Manager in the credit assessment process; and (b) where an issuer is downgraded below the two highest short-term credit ratings by the credit rating agency referred to in (a) this shall result in a new credit assessment being conducted of the issuer by the Investment Manager without delay. Rating services are not regarded as an unimpeachable source for assessing credit quality.

(iv) Correlation: Collateral received should be issued by an entity that is independent from the counterparty and is not expected to display a high correlation with the performance of the counterparty.

(v) Diversification (asset concentration): Collateral should be sufficiently diversified in terms of country, markets and issuers in accordance with Schedule 2 of the Central Bank Regulations. When the Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the relevant exposure limit to a single issuer. A Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, local authority, third country or public international body drawn from the list of issuers. The Fund will receive securities from at least 6 different issues, but securities from any single issue will not account for more than 30% of the Fund's Net Asset Value and the Fund can accept more than 20% of its Net Asset Value as collateral from those entities listed at Part 2(1) of Schedule 2 of this Prospectus. In accordance with the Central Bank Regulations, invested cash collateral should be diversified in accordance with the diversification requirement applicable to non-cash collateral. Invested cash collateral may not be placed on deposit with the counterparty or a related entity.

(vi) Immediately Available: Collateral received should be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty.

(vii) Safe-keeping: Collateral received on a title transfer basis will be held by the Depositary or its agent. Where the Fund receives collateral on any basis other than a title transfer basis, the collateral can be held by a third party depositary which is subject to prudential supervision, and is unrelated and unconnected to the provider of the collateral.

(viii) Haircuts: The Company (or its delegate), on behalf of the Fund, shall apply suitably conservative haircuts or discounts to the market value of assets being received as collateral where appropriate on the basis of an assessment of the characteristics of the assets such as the credit standing or the price volatility, as well as the outcome of any stress tests performed as referred to above. The Company has determined that generally if issuer or issue credit quality of the collateral is not of a very high quality or the collateral carries a significant level of price volatility, a conservative haircut must be applied in accordance with the Company's haircut policy. However, the application of such a haircut will be determined on a case by case basis. The Company, in its discretion, may accept certain collateral with more conservative, less conservative or no haircuts applied in accordance with its haircut policy.

Non-cash collateral cannot be sold, pledged or re-invested.

7. *Cash Collateral*

Cash collateral received by a Fund may not be invested other than in the following:

(i) deposits with relevant institutions;

(ii) high-quality government bonds;

(iii) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on an accrued basis;

(iv) short-term money market funds as defined in the ESMA Guidelines on a Common Definition of European Money Market Funds (ref CESR/10-049).

Any re-investment of cash collateral shall be diversified in accordance with the requirements of the Central Bank. Re-invested cash collateral exposes the Funds to certain risks such as the risk of a failure or default of the issuer of the relevant security in which the cash collateral has been invested. Investors should consult the "Risk Factors" of the Prospectus for information on counterparty risk and broker credit risk in this regard.

Collateral – Posted by the Fund

Collateral posted to a counterparty by or on behalf of the Fund must be taken into account when calculating counterparty risk exposure. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty.

For the purpose of providing margin or collateral in respect of transactions in techniques and instruments, the Fund may transfer, mortgage, pledge, charge or encumber any assets or cash forming part of the Fund in accordance with normal market practice and the requirements outlined in the Central Bank Regulations.

Risks Linked to Management of Collateral

In the event that collateral is received by the Company, the risks linked to the management of collateral, such as operational and legal risks, will be identified, managed and mitigated by an updated version of the risk management process. The management and monitoring of collateral received, including monitoring its liquidity is dependent upon systems and technology operated by the Company's service providers. Cyber-attacks, disruptions, or failures that affect the Company's service providers or counterparties may adversely affect the Company, including by causing losses for a Fund or impairing a Fund's operations. Where a Fund receives collateral on any basis other than a title transfer basis, local custody services may be underdeveloped in many emerging market countries and there is custody risk involved in dealing in such markets. In certain circumstances a Fund may not be able to recover some of its collateral. Such circumstances may include any acts or omissions or the liquidation, bankruptcy or insolvency of a sub-depositary, retroactive application of legislation and fraud.

SCHEDULE 5: LIST OF SUB-CUSTODIAL AGENTS

The Depository has appointed the following entities as sub-delegates in each of the markets set forth below. This list may be updated from time to time and is available upon request in writing from the Administrator or the Depository. The Depository does not anticipate that there would be any specific conflicts of interest arising as a result of any delegation to any of the sub-delegates listed below. The Depository will notify the Directors of the Company of any such conflict should it so arise.

Please note the below list of sub-custodians that is also available on the following website: <https://www.rbcits.com/en/gmi/global-custody/updates/view.page?id=33923>.

MARKET	SUB-CUSTODIAN

SECTION I: The Fund

Introduction

The Directors of the Company, whose names appear in the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

Unless otherwise stated, all capitalised terms shall have the same meaning herein as in the Prospectus.

The Brookfield Global Listed Real Estate UCITS Fund is a Fund of Brookfield Investment Funds (UCITS) p.l.c., an umbrella-type open-ended investment company with segregated liability between Funds authorised by the Central Bank pursuant to the UCITS Regulations. A description of Brookfield Investment Funds (UCITS) p.l.c. is contained in the Prospectus. **This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus.**

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The difference at any time between the subscription price and repurchase price of Shares in the Fund means that an investment in the Fund should be viewed as a medium- to long-term investment.

The following distributing and accumulating classes of Shares in the Fund may be offered to investors:

- the Euro 'Institutional' Hedged Accumulation Shares Class A;
- the Euro 'Institutional' Unhedged Accumulation Shares Class B;
- the Euro 'Institutional' Hedged Distribution Shares Class C;
- the Euro 'Institutional' Unhedged Distribution Shares Class D;
- the US Dollar 'Institutional' Accumulation Shares Class E;
- the US Dollar 'Institutional' Distribution Shares Class F;
- the Sterling 'Institutional' Unhedged Accumulation Shares Class G;
- the Sterling 'Institutional' Unhedged Distribution Shares Class H;
- the Euro RDR 'Retail' Hedged Accumulation Shares Class I;
- the Euro RDR 'Retail' Unhedged Accumulation Shares Class J;
- the Euro RDR 'Retail' Hedged Distribution Shares Class K;
- the Euro RDR 'Retail' Unhedged Distribution Shares Class L;
- the US Dollar RDR 'Retail' Accumulation Shares Class M;
- the US Dollar RDR 'Retail' Distribution Shares Class N;
- the Sterling RDR 'Retail' Accumulation Shares Class O;
- the Sterling RDR 'Retail' Distribution Shares Class P;
- the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R;
- the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S;
- the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T;
- the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U;
- the US Dollar Non-RDR 'Retail' Accumulation Shares Class V;
- the US Dollar Non-RDR 'Retail' Distribution Shares Class W;
- the Sterling Non-RDR 'Retail' Accumulation Shares Class X;
- the Sterling Non-RDR 'Retail' Distribution Shares Class Y;
- the Sterling 'Institutional' Hedged Accumulation Shares Class Z; and
- the Sterling 'Institutional' Hedged Distribution Shares Class AA.

Investors should note that Institutional Classes are only available for subscription by Institutional Investors and Retail Classes are only available for subscription by Retail Investors. Furthermore, the RDR Share Classes are only available for subscription by distributors or financial intermediaries who are restricted from receiving, being paid or keeping adviser, trailer or similar fees, charges or commissions on the investment management fees payable by the Fund.

SECTION I: The Fund

The Directors may in their discretion charge a redemption fee of up to 3% of the redemption price in respect of a redemption of Shares by a shareholder.

The Directors may from time to time create additional classes of Shares in the Fund in accordance with the requirements of the Central Bank. The Base Currency of the Fund will be US Dollars.

SECTION I: The Fund

Definitions

The following definitions apply throughout this Supplement unless the context requires otherwise:

“Accumulation Share Classes”	means the Shares in respect of which it is proposed not to pay dividends and which are identifiable by the use of the word “Accumulation” in their title;
“Business Day”	means any day (except Saturdays, Sundays and public holidays in Dublin and New York) on which retail banks in Dublin and New York are open for business or such other day or days as may be determined by the Directors and notified to the Shareholders in advance;
“Central Bank”	means the Central Bank of Ireland or any successor thereto;
“Distribution Share Classes”	means the Shares in respect of which it is proposed to pay dividends and which are identifiable by the use of the word “Distribution” in their title;
“Emerging Market Countries”	means those emerging market countries comprised in the MSCI Emerging Markets (Total Return) Index, which is a free float-adjusted market capitalisation index that is designed to measure equity market performance of emerging markets. As of June 2011, the MSCI Emerging Markets Index consisted of the following 21 emerging market country indices: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Morocco, Peru, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey;
“Institutional Classes”	means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Sterling ‘Institutional’ Hedged Accumulation Shares Class Z and the Sterling ‘Institutional’ Hedged Distribution Shares Class AA;
“Institutional Investor”	means a ‘professional client’, as defined under MiFID;
“Investment Management Agreement”	means the investment management agreement dated 6 December 2021 between the Company, the Manager and the Investment Manager;
“Investment Manager”	means Brookfield Public Securities Group LLC or such other person or person from time to time

appointed by the Company or the Investment Manager of the Company in accordance with the requirements of the Central Bank;

“MIFID”

means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as may be amended, modified or replaced from time to time;

“Non-RDR Share Classes”

means the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;

“Prospectus”

means the prospectus of the Company dated 6 December 2021 and all relevant supplements and revisions thereto;

“RDR Share Classes”

means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O and the Sterling RDR ‘Retail’ Distribution Shares Class P;

“Recognised Markets”

means any regulated stock exchange or market which is provided for in the Articles of Association, details of which are set out in Schedule 3 of the Prospectus;

“Redemption Date”

means each Business Day;

“Retail Classes”

means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O, the Sterling RDR ‘Retail’ Distribution Shares Class P, the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR

'Retail' Unhedged Accumulation Shares Class T, the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U, the US Dollar Non-RDR 'Retail' Accumulation Shares Class V, the US Dollar Non-RDR 'Retail' Distribution Shares Class W, the Sterling Non-RDR 'Retail' Accumulation Shares Class X and the Sterling Non-RDR 'Retail' Distribution Shares Class Y;

"Retail Investor"

means any investor who is not an Institutional Investor;

"Shares"

means the Euro 'Institutional' Hedged Accumulation Shares Class A, the Euro 'Institutional' Hedged Distribution Shares Class C, the Euro 'Institutional' Unhedged Accumulation Shares Class B, the Euro 'Institutional' Unhedged Distribution Shares Class D, the US Dollar 'Institutional' Accumulation Shares Class E, the US Dollar 'Institutional' Distribution Shares Class F, the Sterling 'Institutional' Unhedged Accumulation Shares Class G, the Sterling 'Institutional' Unhedged Distribution Shares Class H, the Euro RDR 'Retail' Hedged Accumulation Shares Class I, the Euro RDR 'Retail' Hedged Distribution Shares Class K, the Euro RDR 'Retail' Unhedged Accumulation Shares Class J, the Euro RDR 'Retail' Unhedged Distribution Shares Class L, the US Dollar RDR 'Retail' Accumulation Shares Class M, the US Dollar RDR 'Retail' Distribution Shares Class N, the Sterling RDR 'Retail' Accumulation Shares Class O and the Sterling RDR 'Retail' Distribution Shares Class P, the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R, the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S, the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T, the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U, the US Dollar Non-RDR 'Retail' Accumulation Shares Class V, the US Dollar Non-RDR 'Retail' Distribution Shares Class W, the Sterling Non-RDR 'Retail' Accumulation Shares Class X, the Sterling Non-RDR 'Retail' Distribution Shares Class Y, the Sterling 'Institutional' Hedged Accumulation Shares Class Z, and the Sterling 'Institutional' Hedged Distribution Shares Class AA;

"Subscription Date"

means each Business Day; and

"Supplement"

means this supplement;

SECTION I: The Fund

Investment Objective

The Fund seeks total return through growth of capital and current income. There can be no assurance that the Fund will achieve its investment objective.

Investment Policy

The Fund seeks to achieve its investment objective by investing primarily in real estate investment trusts (“REITs”) and other related securities (as further described below) issued by U.S. and non-U.S. real estate companies. Currently, the Fund defines a real estate company to be any company listed or traded on a Recognised Market that (i) derives at least 50% of their revenues from the ownership, operation, development, construction, financing, management or sale of commercial, industrial or residential real estate and similar activities, or (ii) invests at least 50% of their assets in such real estate.

Securities in which the Fund may invest include common equity shares and preferred equity shares of real estate companies and also units of beneficial interest in real estate companies, such as REITs and Real Estate Operating Companies. The Fund may also invest up to 20% of its net assets in fixed income securities, including high yield securities, listed or traded on a Recognised Market.

The Investment Manager utilizes a fundamental, bottom-up, value-based selection methodology, taking into account short-term considerations, such as temporary market mispricing, and long-term considerations, such as values of assets and cash flows. It takes a balanced approach to investing, seeking to mitigate risk through diversification, credit analysis, economic analysis and review of sector and industry trends. The Investment Manager uses proprietary research to select individual securities that it believes can add value from income and/or the potential for capital appreciation. The proprietary research may include an assessment of a company’s general financial condition, its competitive positioning and management strength, as well as industry characteristics. It may sell a security held by the Fund that becomes overvalued or no longer offers an attractive risk/reward profile. A security may also be sold due to changes in portfolio strategy or cash flow needs.

Real Estate Investment Trusts (REITs). It is expected that a significant portion of the Fund may be invested in REITs listed or traded on a Recognised Market. REITs are companies that own interests in real estate or in real estate related loans or other interests, and their revenue primarily consists of rent derived from owned, income producing real estate properties and capital gains from the sale of such properties. A REIT in the U.S. is generally not taxed on income distributed to shareholders so long as it meets tax related requirements, including the requirement that it distribute substantially all of its taxable income to its shareholders. REIT-like entities are organized outside the U.S. and maintain operations and receive tax treatment similar to that of U.S. REITs. The Fund retains the ability to invest in real estate companies of any size market capitalization. The Fund does not invest in real estate directly.

Real Estate Operating Company (REOC): a REOC is similar to a REIT in that it invests in real estate and is listed or traded on a Recognised Market. A REOC will typically reinvest its earnings rather than distribute them to shareholders like REITs do.

Foreign (Non-U.S.) Real Estate Securities. The Fund may invest in the securities of issuers located in a number of different countries throughout the world outside of the U.S. The amount invested outside the U.S. may vary, and at any given time, the Fund may have a significant exposure to non-U.S. securities, including real estate securities of companies listed or traded on a Recognised Market and domiciled in Emerging Market Countries. For the avoidance of doubt, investment in a Recognised Market may also include an investment in Russia. Although investment in Russian securities is not the principal focus of the Fund and shall only constitute a sector of the Fund’s investments, the Fund may hold more Russian securities than securities from any other single Recognised Market if the Investment Manager identifies more investment opportunities in Russia than in other Recognised Markets. Nevertheless, investment in Russian securities will not constitute a major sector of the Fund’s

SECTION I: The Fund

investments. All investments in Russian equity securities will be listed or traded on level 1 or level 2 of the RTS stock exchange and/or MICEX.

Non-U.S. real estate companies may have characteristics that are similar to a REIT. A number of countries around the world have adopted, or are considering adopting, similar REIT-like structures pursuant to which these companies are not subject to corporate income tax in their home countries provided they distribute a significant percentage of their net income each year to shareholders and meet certain other requirements. While the Fund is not limited to investing in foreign-domiciled REIT-like entities it is expected that the Fund will invest a significant percentage of its portfolio in these types of entities.

The Fund may also hold cash or other short-term investments such as money market instruments or certificates of deposit. Under normal market conditions, it is not expected that the Fund will be invested substantially in cash or other short-term investments. However, where the Investment Manager considers it prudent to do so, the Fund may hold more cash or other short term investments than other assets.

Depositary Receipts. To a lesser extent, the Fund may also invest in securities of companies in the form of ADRs, GDRs and EDRs. Generally, ADRs in registered form are dollar denominated securities designed for use in the U.S. securities markets, which represent and may be converted into an underlying foreign security. GDRs, in bearer form, are designated for use outside the United States. EDRs, in bearer form, are designed for use in the European securities markets.

Integration of Sustainability Risks into the Investment Process

Unlike investment vehicles which promote environmental, social and governance (“ESG”) characteristics or have a specific sustainability or impact objective that may result in a constrained investment universe, the Fund seeks to maximize financial performance, whereby ESG considerations are input factors within the investment process that the Investment Manager considers appropriate to pursue the Fund’s investment objective. As part of its investment process, the Fund includes all relevant financial risks in its investment decision and evaluates these on an ongoing basis. In doing so, relevant sustainability factors and sustainability risks are assessed and taken into account, including ESG events or conditions that could have a material impact on the investment in question, its return and in turn, the Net Asset Value of the Fund. Sustainability factors within the meaning of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “SFDR”) are defined as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The Investment Manager’s analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards’ independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying companies via dialogue and voting rights. In exercising the Fund’s voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

Principal Adverse Impacts

The Company, the Manager and, in turn, the Investment Manager, do not currently consider the principal adverse impacts of investment decisions on sustainability factors, within the meaning of SFDR, because whilst ESG risks are incorporated into the Investment Manager’s investment decision making processes, the Fund’s objective, and in turn the Investment Manager’s objective in respect of the Fund, is to achieve total return through growth of capital and current income. Further, the relevant information required to appropriately assess the principal adverse impacts of the Investment Manager’s investment decisions on sustainability factors is not yet available.

SECTION I: The Fund

The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020.

The Company, the Manager and the Investment Manager will keep this decision to not consider the principal adverse impacts of investment decisions on sustainability factors within the meaning of SFDR under review and will formally re-evaluate this decision on a periodic basis.

Profile of a Typical Investor

A typical investor in the Fund may be an investor with a medium to long term investment horizon who considers investment in the Fund as a convenient way of seeking to achieve total return through growth of capital and current income through an exposure primarily to REITs and related securities. Derivative instruments may be utilised in an attempt to achieve the Fund's investment objective. As returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives, a typical investor should be prepared to accept a higher level of such volatility.

Derivatives

The Fund may, but is not required to, use forwards (such as forward foreign currency exchange contracts), options, futures and swaps (both credit default swaps and total return swaps ("TRS")) for investment purposes and for the purpose of efficient portfolio management. The Fund may also, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements. A derivative is a security or instrument whose value is determined by reference to the value or the change in value of one or more securities, currencies, indices or other financial instruments. The underlying securities to which the Fund will have exposure as a result of investing in derivatives will be consistent with the investment policy of the Fund. Derivatives used for efficient portfolio management purposes will have the aim of reducing risk, reducing costs or generating additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. Any such investment technique or financial derivative instrument must be one which (alone or in combination with one or more other instrument techniques or financial derivative instruments) is reasonably believed by the Investment Manager to be economically appropriate to the management of the Fund.

The Fund may enter into credit default swaps (CDS), which can be used to acquire or to transfer the credit risk of a security (being a security identified under the heading 'Investment Policy') in the event that there is a default (or similar incident) by the issuer of the security underlying the CDS. The buyer of a credit swap receives credit protection, whereas the seller of the swap guarantees the credit worthiness of the security. Where the Investment Manager does not expect a default of the underlying security, CDS may be employed by the Fund to express positive investment views (i.e., sell protection) on corporate entities and markets. Where the Investment Manager does expect a default of the underlying security, CDS may be employed by the Fund to express negative investment views (i.e., buy protection) on corporate entities and markets.

The Fund may also enter into TRS. TRS involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Fund will be consistent with the investment policies of the Fund. Where the Fund enters into a TRS on a net basis, the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. TRS may be employed by the Fund to adjust or obtain sector and security exposures, often with lower transaction costs than obtaining the same exposure via purchasing individual securities. The counterparties to the TRS will be selected from a list approved by the Investment Manager in consideration of the risk profile and investment policy of the Fund. The use of TRS will not grant discretion to the counterparties over the composition or management of the Fund's investment

SECTION I: The Fund

portfolio, nor shall the approval of the TRS counterparty be required in relation to any investment portfolio transaction entered into by the Fund.

Financial futures and forward foreign exchange contracts may be used to hedge the currency exposure of the Fund and for the purpose of efficient portfolio management only. It is intended that the use of such forward foreign exchange contracts will reduce the exchange rate risk of the Fund. In particular, these may be used to: (a) hedge the designated currency of the assets of the Fund to the Base Currency of the Fund; (b) mitigate the exchange rate risk between the Base Currency of the Fund and the currency in which Shares in a class in the Fund are designated where that designated currency is different to the Base Currency of the Fund; or (c) hedge the currency of denomination of the assets of the Fund attributable to a particular class into the designated currency of that class where the currency of denomination is different to the designated currency of the class. As further set out below, hedged and unhedged share classes may be offered to investors.

An option is the right, but not the obligation, to buy (for a call option) or sell (for a put option) a specific amount of a given stock, currency, index, or debt, at a specified price (the strike price) during a specified period of time. Each option has a buyer, called the holder, and a seller, known as the writer. If the option contract is exercised, the writer is responsible for fulfilling the terms of the contract by delivering the shares to the appropriate party. In the case of a security that cannot be delivered such as an index, the contract is settled in cash. For the holder, the potential loss is limited to the price paid to acquire the option. When an option is not exercised, it expires. No shares change hands and the money spent to purchase the option is lost. For the buyer, the upside is unlimited. For the writer, the potential loss is unlimited unless the contract is covered, meaning that the writer already owns the security underlying the option. Options may be employed by the Fund to gain investment exposure and to hedge existing long positions.

Securities Financing Transactions

The assets underlying any securities financing transactions (“SFTs”) or TRS will be the equity and fixed income securities in which the Fund may invest. As set out in the Prospectus, the Fund may utilise SFTs, including repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions, margin lending transaction and total return swaps. It is expected that the proportion of the Sub-Fund’s assets under management that will be subject to SFTs will be between 0 to 10% of the Fund’s Net Asset Value for all SFT’s but will not in any event exceed 100% of the Fund’s Net Asset Value. The assets underlying the SFTs will be securities traded on a Recognised Market.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives. The Fund is suitable for investors who are prepared to accept a higher level of such volatility.

Leverage

The Fund’s exposure to financial derivative instruments will be calculated using the ‘commitment approach’ as permitted under the Central Bank Regulations. As a general rule, a UCITS cannot have global exposure greater than its net asset value. In the context of the Fund using the commitment approach to calculate its global exposure, the Fund may not, therefore, be leveraged in excess of 100% of net asset value. The Fund’s use of currency hedging will not be included in this calculation.

Investment and Borrowing Restrictions

The Fund is subject to the investment and borrowing restrictions set out in the Prospectus.

SECTION I: The Fund

In addition, while it is not the current intention of the Fund to invest in Collective Investment Schemes, it will not, in any event, invest more than 10% of its net assets in other Collective Investment Schemes, such investment being consistent with the Fund's investment policy.

Futures Trading

The Fund may invest in instruments which could be deemed to be commodity interests, including swaps as defined in the U.S. Commodity Futures Trading Commission ("CFTC") Regulations. The Investment Manager intends to claim an exemption from registration with the U.S. National Futures Association as a Commodity Pool Operator pursuant to CFTC Rule 4.13(a)(3). This exemption requires that either (i) the aggregate initial margin, premiums, and required minimum security deposit for foreign exchange transactions required to establish commodity interest positions, determined at the time the most recent position was established, will not exceed five percent of the liquidation value of the applicable pool's portfolio, or (ii) the aggregate net notional value of this pool's commodity interest positions, determined at the time the most recent position was established, does not exceed one hundred percent of the liquidation value of the pool's portfolio.

Fees, Costs and Expenses

Further information on all fees and expenses payable out of the assets of the Fund are as set out in the section headed "FEES, COSTS AND EXPENSES" in the Prospectus.

Management Fee

The management fee payable in respect of the Fund is set out in the Prospectus.

Depositary Fee

Transaction fees and safekeeping fees are based on the Net Asset Value of the Fund and vary, from 0.0040% to 0.80%, depending on the country in which the security is traded and held, subject to a minimum annual fee, exclusive of transaction charges and out-of-pocket expenses, which will not exceed \$90,000 per annum in total for all Funds of the Company. Each Fund shall also bear the cost of all relevant sub-custodian transaction charges incurred by the Depositary, or any sub-custodian, which shall not exceed normal commercial rates. The Depositary shall also be entitled to reimbursement of properly vouched out of pocket expenses incurred by the Depositary, or any sub-custodian, for the benefit of the Fund out of the assets of the Fund in respect of which such charges and expenses were incurred.

The Depositary, as trustee, shall be entitled to a fee payable out of the assets of the Fund accruing daily and payable monthly in arrears at the end of each calendar month at an annual rate of up to 0.018% of the Net Asset Value of the Fund, subject to a minimum annual fee for the Fund, exclusive of out-of-pocket expenses, of up to \$12,400.

Administration Fees

The Administrator, in relation to the provision of its services shall be entitled to a fee payable out of the assets of each Fund accruing daily and payable monthly in arrears at the end of each calendar month which includes the following components:

- Administration fee – up to 0.01% per Fund per annum subject to a minimum annual fee for each Fund which will not exceed \$25,000
- Fund Accounting fee – up to \$35,000 per Fund per annum
- Transfer Agent fee – up to \$10,000 per annum and up to \$4,500 per share class per annum subject to a minimum monthly fee not to exceed \$3,500. Account maintenance and servicing fees will be charged at normal commercial rates

SECTION I: The Fund

- The Administrator shall also be entitled to reimbursement of all reasonable out-of-pocket expenses incurred for the benefit of the Fund out of the assets of the Fund in respect of which such charges and expenses were incurred
- The Administrator shall also be entitled to receive a fee which will not exceed \$11,000 for the preparation of financial statements of the Company.

Investment Management Fee

Under the provisions of the Investment Management Agreement, the Fund will pay the Investment Manager a fee of up to 1 per cent. per annum of the Net Asset Value in respect of each class of 'Institutional' Shares and a fee of up to 1.5 per cent. per annum of the Net Asset Value in respect of each of the RDR Share Classes and a fee of up to 2.5 per cent per annum of the Net Asset Value in respect of each of the Non-RDR Share Classes as of the relevant Valuation Date. The investment management fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods). The Company will pay all out-of-pocket expenses incurred by the Investment Manager (including VAT thereon). Such out-of-pocket expenses may include transaction charges provided that they are charged at normal commercial rates and incurred by the Investment Manager in the performance of its duties under the Investment Management Agreement.

Dividend Policy

Accumulation Shares

The Directors do not anticipate paying a dividend in respect of the Shares of the Accumulation Share Classes. All income and profits earned by the Fund attributable to the Accumulation Share Classes will accrue to the benefit of those classes of Shares and will be reflected in the Net Asset Value attributable to the relevant classes of Shares.

Distribution Shares

The Directors may, in their discretion, declare dividends on the Distribution Share Classes. Dividends will be paid at least annually and may be paid more frequently at the discretion of the Investment Manager and/or the Directors.

A dividend shall be payable to Shareholders in Distribution Share Classes out of profits of the Fund available for distribution relating to that Distribution Share Class. Profits, for these purposes, may be comprised of net income (less expenditure) and realised and unrealised gains (less realised and unrealised losses) attributable to such share classes. Income for these purposes shall include, without limitation, interest income and dividend income and any other amounts treated as income in accordance with the accounting policies of the Company laid down from time to time.

To afford maximum flexibility to the Company, dividends may also, at the discretion of the Directors be paid out of the capital of the Fund in order to, for example, preserve an income stream for the Shareholders. The maximum rate or amount of any such capital dividend shall be determined by the Directors. **Shareholders should note that in this scenario, the distribution is achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital.**

The Directors may elect to charge expenses out of the capital of the Fund, should they wish to generate distributable profits. Investors should note that by charging the management fees and expenses of the Fund to capital, the effect of this is that capital may be eroded and income will be achieved by foregoing the potential for future capital growth.

SECTION I: The Fund

In any such event, the Distribution Share Classes will go “ex-dividend” on the day on which the dividend is declared (the “**Ex-dividend Date**”).

The distribution will be paid to Shareholders in the Distribution Share Classes on the register at the close of business on the Business Day immediately preceding the Ex-dividend Date within four calendar months of such Ex-dividend Date. In the event that any of the above dates is not a Business Day, the relevant date will be the next immediately following Business Day.

Unless a Shareholder in the Distribution Share Classes elects otherwise, any distributions will be applied in the purchase of further Shares of the relevant Distribution Share Classes (or fractions thereof) as applicable. Shareholders may write to the Administrator to elect to receive distributions in cash. Any such cash payments to Shareholders in the Distribution Share Classes will be payable to the account specified by Shareholders on the application form. Accordingly, since it is the intention to re-invest distributions by way of acquisition of further Shares, it is unlikely that any management fees or expenses charged to capital will have the effect of eroding a Shareholder’s investment.

Risk Factors

Investors’ attention is drawn to the risk factors set out in the Prospectus and to the following additional risk factors.

Expenses charged to capital

Shareholders should note that the management fees and other fees and expenses incurred by the Fund will as far as possible be deducted from the income of the Fund. If there is insufficient income, the balance will be charged to the capital of the Fund. This may have the effect of lowering the capital value of the Shareholder’s investment and “income” will be achieved by foregoing the potential for future capital growth.

Concentration Risk

Because the Fund will invest more than 25% of its total assets in securities in the real estate industry, as defined in this Prospectus, the Fund may be subject to greater volatility with respect to its portfolio securities than a fund that is more broadly diversified.

Derivatives Risk

The Fund may gain exposure to commodities through related derivative instruments, such as futures, forwards, swaps, options on futures. Many of the risks applicable to trading the underlying asset are also applicable to derivatives trading. However, there are a number of additional risks associated with derivatives trading. In addition to the below risks, please also see “Derivatives Risk” under the section entitled “Risk Factors” in the Prospectus.

Transactions in certain derivatives are subject to clearance on exchanges, regulatory oversight and the risks of trading in the OTC markets. Additional risks associated with derivatives trading include:

- *Counterparty Risk.* Because some of the derivative transactions in which the Fund may engage (for example, certain swaps) may involve instruments that are not traded on an exchange but are instead traded between counterparties based on contractual relationships, the Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. Although the Fund intends to enter into transactions only with counterparties which the Investment Manager believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Fund will not sustain a loss on a transaction as a result.

SECTION I: The Fund

Some types of cleared derivatives are required to be executed on an exchange or on a swap execution facility. A swap execution facility is a trading platform where multiple market participants can execute derivatives by accepting bids and offers made by multiple other participants in the platform. While this execution requirement is designed to increase transparency and liquidity in the cleared derivatives market, trading on a swap execution facility can create additional costs and risks for the Fund.

In the event of the counterparty's bankruptcy or insolvency, the Fund's collateral may be subject to the conflicting claims of the counterparty's creditors, and the Fund may be exposed to the risk of a court treating the Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral. The Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer of an instrument in which the Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Fund will not sustain a loss on a transaction as a result.

Securities purchased or sold on a "when-issued" or "delayed delivery" basis involve a risk of loss if the value of the securities to be purchased declines prior to the settlement date or if the value of the securities to be sold increases prior to a settlement date. Loans of securities also involve risks of delay in receiving additional collateral or in recovering the securities loaned, or possibly loss of rights in the collateral, should the borrower of the securities become insolvent.

- *Liquidity Risk.* Derivative instruments, especially when traded in large amounts, may not be liquid in all circumstances, so that in volatile markets the Fund may not be able to close out a position without incurring a loss. In addition, daily limits on price fluctuations and speculative position limits on exchanges on which the Fund may conduct its transactions in derivative instruments may prevent profitable liquidation of positions, subjecting the Fund to the potential of greater losses.
- *Financial Leverage Risk.* Trading in derivative instruments can result in large amounts of financial leverage. Thus, the leverage offered by trading in derivative instruments will magnify the gains and losses experienced by the Fund and could cause the value of the Fund's net assets to be subject to wider fluctuations than would be the case if the Fund did not use the leverage feature of derivative instruments.
- *Over-the-Counter Trading Risk.* Derivative instruments, such as swap agreements, that may be purchased or sold by the Fund may include instruments not traded on an exchange. The risk of non-performance by the counterparty to an instrument is generally greater than, and the ease with which the Fund can dispose of or enter into closing transactions with respect to an instrument is generally less than, the risk associated with an exchange traded instrument. In addition, greater disparities may exist between "bid" and "asked" prices for derivative instruments that are not traded on an exchange. Derivative instruments not traded on exchanges also are not subject to the same type of government regulation as exchange traded instruments, and many of the protections afforded to participants in a regulated environment may not be available in connection with the transactions.
- *Tracking Risk.* The value of the derivatives that the Fund uses to gain commodities exposure may not correlate to the values of the underlying commodities. When used for hedging purposes, an imperfect or variable degree of correlation between price or rate movements of the derivative instrument and the underlying investment sought to be hedged may prevent the Fund from achieving the intended hedging effect or expose the Fund to risk of loss.

SECTION I: The Fund

Fixed Income Risk

The market value of fixed income investments changes in response to interest rate changes and other factors. Bond prices generally rise when interest rates decline and decline when interest rates rise. The longer the duration of a bond, the more a change in interest rates affects the bond's price. Short-term and long-term interest rates may not move the same amount and may not move in the same direction. It is likely there will be less governmental action in the near future to maintain low interest rates, or that governmental actions will be less effective in maintaining low interest rates. The negative impact on fixed income securities from the resulting rate increases for that and other reasons could be swift and significant, including falling market values and reduced liquidity. Substantial redemptions from bond and other income funds may worsen that impact. Other types of securities also may be adversely affected from an increase in interest rates. Moreover, while securities with longer maturities tend to produce higher yields, the prices of longer maturity securities are also subject to greater market fluctuations as a result of changes in interest rates. As the average maturity or duration of a security lengthens, the risk that the price of such security will become more volatile increases. In contrast to maturity which measures only time until final payment, duration combines consideration of yield, interest payments, final maturity and call features. Additional risk associated with fixed income securities includes:

- **Call Risk.** During periods of falling interest rates, certain debt obligations with high interest rates may be prepaid (or "called") by the issuer prior to maturity.
- **Extension Risk.** An issuer may exercise its right to pay principal on an obligation held by the Fund later than expected. This may happen when there is a rise in interest rates. Under these circumstances, the value of the obligation will decrease.
- **Credit Risk.** The possibility that an issuer will be unable to make timely payments of either principal or interest.
- **Event Risk.** Securities may suffer declines in credit quality and market value due to issuer restructurings or other factors.

High Yield or "Junk" Bond Risk

Investments in high yield securities and unrated securities of similar credit quality (commonly known as "junk bonds") may be subject to greater levels of credit and liquidity risk than funds that do not invest in such securities. These securities are considered predominately speculative with respect to the issuer's continuing ability to make principal and interest payments. Junk bonds tend to be volatile and more susceptible to adverse events and negative sentiments. An economic downturn or period of rising interest rates could adversely affect the market for these securities and reduce the Fund's ability to sell these securities (liquidity risk). If the issuer of a security is in default with respect to interest or principal payments, the Fund may lose its entire investment. Because of the risks involved in investing in high

SECTION I: The Fund

yield securities, an investment in the Fund that invests in such securities should be considered speculative.

Real Estate Market Risk

The Fund will not invest in real estate directly, but only in securities issued by real estate companies. However, because the Fund has significant exposure to the real estate sector, the Fund is also subject to the risks associated with the direct ownership of real estate. These risks include:

- declines in the value of real estate;
- risks related to general and local economic conditions;
- possible lack of availability of mortgage funds;
- overbuilding;
- extended vacancies of properties;
- increased competition;
- increases in property taxes and operating expenses;
- changes in zoning laws;
- losses due to costs resulting from the clean-up of environmental problems;
- liability to third parties for damages resulting from environmental problems;
- casualty or condemnation losses;
- limitations on rents;
- changes in neighbourhood values and the appeal of properties to tenants; and
- changes in interest rates.

Thus, the value of the Fund's Shares may change at different rates compared to the value of shares of a fund with investments in a mix of different industries.

The change in the U.S. presidential administration could significantly impact the regulation of United States financial markets and dramatically alter existing real estate policies, among others. It is not possible to predict what, if any, changes will be made or their potential effect on the economy, securities markets, or financial stability of the United States, or on the real estate markets. Additionally, actions taken may impact portions of the real estate market in disparate ways or may impact specific issuers in the real estate sector in differing ways. The effects of changing regulations or policies on the Fund's portfolio cannot be predicted, and the Fund may be affected by governmental action in ways that are not foreseeable. There is a possibility that such actions could have a significant adverse effect on the Fund and its ability to achieve its investment objective. At any time after the date of this Supplement, legislation may be enacted that could negatively affect the assets of the Fund or the issuers of such assets. Legislation or regulation may change the way in which the Fund itself is regulated. The Investment Manager cannot predict the effects of any new governmental regulation that may be

SECTION I: The Fund

implemented, and there can be no assurance that any new governmental regulation will not adversely affect the Fund's ability to achieve its investment objective.

Real Estate Investment Trusts

The Fund may invest in REITs. REITs are companies that invest primarily in income producing real estate or real estate-related loans or interests. REITs are generally classified as equity REITs, mortgage REITs or a combination of equity and mortgage REITs. Equity REITs invest the majority of their assets directly in real property and derive income primarily from the collection of rents. Equity REITs can also realize capital gains by selling properties that have appreciated in value. Mortgage REITs invest the majority of their assets in real estate mortgages and derive income from the collection of interest payments. The Fund will invest in equity REITs.

Investing in REITs involves certain unique risks in addition to those risks associated with investing in the real estate industry in general. An equity REIT may be affected by changes in the value of the underlying properties owned by the REIT. REITs are dependent upon the skills of their managers and are not diversified. REITs are generally dependent upon maintaining cash flows to repay borrowings and to make distributions to shareholders and are subject to the risk of default by lessees or borrowers. REITs whose underlying assets are concentrated in properties used by a particular industry, such as health care, are also subject to risks associated with such industry.

REITs are also subject to interest rate risk. When interest rates decline, the value of a REIT's investment in fixed rate obligations can be expected to rise. Conversely, when interest rates rise, the value of a REIT's investment in fixed rate obligations can be expected to decline.

REITs may have limited financial resources, may trade less frequently and in a limited volume and may be subject to more abrupt or erratic price movements than larger company securities.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives.

Sustainability Risk

Sustainability risks within the SFDR are ESG events or conditions whose occurrence could have an actual or potential principal adverse impact on the value of the Fund's investment. Sustainability risks can affect all known types of risk (for example, market risk, liquidity risk, counterparty risk and operational risk), and as a factor, contribute to the materiality of these risk types. Sustainability risks may impact the value of the companies in which the Fund invests and, as a result, the Net Asset Value of the Fund itself.

SECTION II: Euro 'Institutional' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) 1 December 2011;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 November 2011 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Unhedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Accumulation Shares, fractions of Euro 'Institutional' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION III: Euro 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Unhedged Distribution Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Distribution Shares, fractions of Euro 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) on 16 November 2017;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Hedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Hedged Accumulation Shares, fractions of Euro 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Accumulation Share Class

It is intended that the Euro Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION V: Euro 'Institutional' Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Hedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Hedged Distribution Shares is not equivalent to an exact number of Euro 'Institutional' Hedged Distribution Shares, fractions of Euro 'Institutional' Hedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Distribution Share Class

It is intended that the Euro Institutional Hedged Distribution Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Distribution Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Distribution Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Distribution Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the

SECTION V: Euro 'Institutional' Hedged Distribution Shares

base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION VI: Sterling 'Institutional' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Unhedged Accumulation Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Unhedged Accumulation Shares is not equivalent to an exact number of Sterling 'Institutional' Unhedged Accumulation Shares, fractions of Sterling 'Institutional' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION VII: Sterling 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Unhedged Distribution Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Unhedged Distribution Shares is not equivalent to an exact number of Sterling 'Institutional' Unhedged Distribution Shares, fractions of Sterling 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION VIII: US Dollar 'Institutional' Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) 1 December 2011;
"Initial Offer"	means the initial offer of US Dollar 'Institutional' Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) 1 November 2011 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar 'Institutional' Accumulation Shares, a minimum holding of US\$100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar 'Institutional' Accumulation Shares, a minimum redemption of US\$50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the US Dollar 'Institutional' Accumulation Shares, a minimum initial subscription of US\$250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar 'Institutional' Accumulation Shares is US\$20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar 'Institutional' Accumulation Shares is not equivalent to an exact number of US Dollar 'Institutional' Accumulation Shares, fractions of US Dollar 'Institutional' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION IX: US Dollar 'Institutional' Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) 19 June 2013;
"Initial Offer"	means the initial offer of US Dollar 'Institutional' Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar 'Institutional' Distribution Shares, a minimum holding of US\$100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar 'Institutional' Distribution Shares, a minimum redemption of US\$50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the US Dollar 'Institutional' Distribution Shares, a minimum initial subscription of US\$250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar 'Institutional' Distribution Shares is US\$20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar 'Institutional' Distribution Shares is not equivalent to an exact number of US Dollar 'Institutional' Distribution Shares, fractions of US Dollar 'Institutional' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION X: Euro RDR 'Retail' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro RDR 'Retail' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro RDR 'Retail' Unhedged Accumulation Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for Euro RDR 'Retail' Unhedged Accumulation Shares is not equivalent to an exact number of Euro RDR 'Retail' Unhedged Accumulation Shares, fractions of Euro RDR 'Retail' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XI: Euro RDR 'Retail' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro RDR 'Retail' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro RDR 'Retail' Unhedged Distribution Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro RDR 'Retail' Unhedged Distribution Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Distribution Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Distribution Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro RDR 'Retail' Unhedged Distribution Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for Euro RDR 'Retail' Unhedged Distribution Shares is not equivalent to an exact number of Euro RDR 'Retail' Unhedged Distribution Shares, fractions of Euro RDR 'Retail' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XII: Euro RDR 'Retail' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) 26 May 2016;
"Initial Offer"	means the initial offer of Euro RDR 'Retail' Hedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 1 December 2011 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the Euro RDR 'Retail' Hedged Accumulation Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro RDR 'Retail' Hedged Accumulation Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro RDR 'Retail' Hedged Accumulation Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro RDR 'Retail' Hedged Accumulation Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro RDR 'Retail' Hedged Accumulation Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for Euro RDR 'Retail' Hedged Accumulation Shares is not equivalent to an exact number of Euro RDR 'Retail' Hedged Accumulation Shares, fractions of Euro RDR 'Retail' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro RDR Retail Hedged Accumulation Share Class

It is intended that the Euro RDR Retail Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the

SECTION XII: Euro RDR 'Retail' Hedged Accumulation Shares

shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro RDR Retail Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro RDR Retail Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro RDR Retail Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling Non-RDR 'Retail' Accumulation Shares is £20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling Non-RDR 'Retail' Accumulation Shares is not equivalent to an exact number of Sterling Non-RDR 'Retail' Accumulation Shares, fractions of Sterling Non-RDR 'Retail' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXIII: Sterling Non-RDR 'Retail' Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling Non-RDR 'Retail' Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum holding of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum redemption of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum initial subscription of £1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, the Minimum Subsequent Subscription of £250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling Non-RDR 'Retail' Distribution Shares is £20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling Non-RDR 'Retail' Distribution Shares is not equivalent to an exact number of Sterling Non-RDR 'Retail' Distribution Shares, fractions of Sterling Non-RDR 'Retail' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXIV: US Dollar Non-RDR 'Retail' Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) 29 August 2017;
"Initial Offer"	means the initial offer of US Dollar Non-RDR 'Retail' Accumulation Shares in the Fund which commenced on 9 a.m. (Irish time) on 18 March 2016 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar Non-RDR 'Retail' Accumulation Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar Non-RDR 'Retail' Accumulation Shares is not equivalent to an exact number of US Dollar Non-RDR 'Retail' Accumulation Shares, fractions of US Dollar Non-RDR 'Retail' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXV: US Dollar Non-RDR 'Retail' Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 March 2019;
"Initial Offer"	means the initial offer of US Dollar Non-RDR 'Retail' Distribution Shares in the Fund which commenced on 9 a.m. (Irish time) on 18 March 2016 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar Non-RDR 'Retail' Distribution Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar Non-RDR 'Retail' Distribution Shares is not equivalent to an exact number of US Dollar Non-RDR 'Retail' Distribution Shares, fractions of US Dollar Non-RDR 'Retail' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXVI: Sterling 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means 5 p.m. (Irish time) on 30 November 2017;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Hedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 8 November 2017 and closed on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Hedged Accumulation Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Sterling 'Institutional' Hedged Accumulation Shares, fractions of Sterling 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Sterling Institutional Hedged Accumulation Share Class

It is intended that the Sterling Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Sterling Institutional Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Sterling Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Sterling Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

“Closing Date”	means 5 p.m. (Irish time) on 21 November 2017;
“Initial Offer”	means the initial offer of Sterling ‘Institutional’ Hedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 8 November 2017 and closed on the Closing Date;
“Minimum Holding”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling ‘Institutional’ Hedged Distribution Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling ‘Institutional’ Hedged Distribution Shares is not equivalent to an exact number of Sterling ‘Institutional’ Hedged Distribution Shares, fractions of Sterling ‘Institutional’ Hedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Sterling Institutional Hedged Distribution Share Class

It is intended that the Sterling Institutional Hedged Distribution Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. SECTION I: The Fund

Introduction

The Directors of the Company, whose names appear in the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

Unless otherwise stated, all capitalised terms shall have the same meaning herein as in the Prospectus.

The Brookfield Real Assets Securities UCITS Fund is a Fund of Brookfield Investment Funds (UCITS) p.l.c., an umbrella-type open-ended investment company with segregated liability between Funds authorised by the Central Bank pursuant to the UCITS Regulations. A description of Brookfield Investment Funds (UCITS) p.l.c. is contained in the Prospectus. **This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus.**

The difference at any time between the subscription price and repurchase price of Shares in the Fund means that an investment in the Fund should be viewed as a medium to long term investment.

The following distributing and accumulating classes of Shares in the Fund may be offered to investors:

- the Euro 'Institutional' Hedged Accumulation Shares Class A;
- the Euro 'Institutional' Unhedged Accumulation Shares Class B;
- the Euro 'Institutional' Hedged Distribution Shares Class C;
- the Euro 'Institutional' Unhedged Distribution Shares Class D;
- the US Dollar 'Institutional' Accumulation Shares Class E;
- the US Dollar 'Institutional' Distribution Shares Class F;
- the Sterling 'Institutional' Unhedged Accumulation Shares Class G;
- the Sterling 'Institutional' Unhedged Distribution Shares Class H;
- the Euro RDR 'Retail' Hedged Accumulation Shares Class I;
- the Euro RDR 'Retail' Unhedged Accumulation Shares Class J;
- the Euro RDR 'Retail' Hedged Distribution Shares Class K;
- the Euro RDR 'Retail' Unhedged Distribution Shares Class L;
- the US Dollar RDR 'Retail' Accumulation Shares Class M;
- the US Dollar RDR 'Retail' Distribution Shares Class N;
- the Sterling RDR 'Retail' Accumulation Shares Class O;
- the Sterling RDR 'Retail' Distribution Shares Class P;
- the Japanese Yen 'Institutional' Unhedged Distribution Shares Class Q;
- the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R;
- the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S;
- the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T;
- the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U;
- the US Dollar Non-RDR 'Retail' Accumulation Shares Class V;
- the US Dollar Non-RDR 'Retail' Distribution Shares Class W;
- the Sterling Non-RDR 'Retail' Accumulation Shares Class X;
- the Sterling Non-RDR 'Retail' Distribution Shares Class Y;
- the Sterling 'Institutional' Hedged Accumulation Shares Class Z; and
- the Sterling 'Institutional' Hedged Distribution Shares Class AA.

Investors should note that Institutional Classes are only available for subscription by Institutional Investors and Retail Classes are only available for subscription by Retail Investors. Furthermore, the RDR Share Classes are only available for subscription by distributors or financial intermediaries who are restricted from receiving, being paid or keeping adviser, trailer or similar fees, charges or commissions on the investment management fees payable by the Fund.

SECTION I: The Fund

The Directors may in their discretion charge a redemption fee of up to 3% of the redemption price in respect of a redemption of Shares by a shareholder.

The Directors may from time to time create additional classes of Shares in the Fund in accordance with the requirements of the Central Bank.

The Base Currency of the Fund will be US Dollars.

SECTION I: The Fund

Definitions

The following definitions apply throughout this Supplement unless the context requires otherwise:

“Accumulation Share Classes”	means the Shares in respect of which it is proposed not to pay dividends and which are identifiable by the use of the word “Accumulation” in their title;
“Business Day”	means any day (except Saturdays, Sundays and public holidays in Dublin and New York) on which retail banks in Dublin and New York are open for business or such other day or days as may be determined by the Directors and notified to the Shareholders in advance;
“Central Bank”	means the Central Bank of Ireland or any successor thereto;
“Distribution Share Classes”	means the Shares in respect of which it is proposed to pay dividends and which are identifiable by the use of the word “Distribution” in their title;
“Institutional Classes”	means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Japanese Yen ‘Institutional’ Unhedged Distribution Shares Class Q, the Sterling ‘Institutional’ Hedged Accumulation Shares Class Z and the Sterling ‘Institutional’ Hedged Distribution Shares Class AA;
“Institutional Investor”	means a ‘professional client’, as defined under MiFID;
“Investment Management Agreement”	means the investment management agreement dated 6 December 2021 between the Company, the Manager and the Investment Manager;
“Investment Manager”	means Brookfield Public Securities Group LLC or such other person or person from time to time appointed by the Company or the Investment Manager of the Company in accordance with the requirements of the Central Bank;
“MIFID”	means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as may be amended, modified or replaced from time to time;

SECTION I: The Fund

“Non-RDR Share Classes”

means the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;

“Prospectus”

means the prospectus of the Company dated 6 December 2021 and all relevant supplements and revisions thereto;

“RDR Share Classes”

means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O and the Sterling RDR ‘Retail’ Distribution Shares Class P;

“Recognised Markets”

means any regulated stock exchange or market which is provided for in the Articles of Association, details of which are set out in Schedule 3 of the Prospectus;

“Redemption Date”

means each Business Day;

“Retail Classes”

means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O, the Sterling RDR ‘Retail’ Distribution Shares Class P, the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;

SECTION I: The Fund

“Retail Investor”

means any investor who is not an Institutional Investor;

“Shares”

means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O, the Sterling RDR ‘Retail’ Distribution Shares Class P and the Japanese Yen ‘Institutional’ Unhedged Distribution Shares Class Q, the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X, the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y, the Sterling ‘Institutional’ Hedged Accumulation Shares Class Z, and the Sterling ‘Institutional’ Hedged Distribution Shares Class AA;

“Subscription Date”

means each Business Day; and

“Supplement”

means this supplement.

SECTION I: The Fund

Investment Objective

The Fund seeks total return, which is targeted to be in excess of inflation, through growth of capital and current income. However, there can be no assurance that the Fund will achieve its investment objective.

Investment Policy

Under normal market conditions, the Fund will seek to achieve its investment objective by investing at least 80% of its net assets (the “**80% Policy**”) in both equity and fixed income securities of “real assets” asset classes (“**Real Asset Securities**”), in the following categories, all of which will be listed or traded on a Recognised Market:

- Real Estate Securities;
- Infrastructure Securities; and
- Natural Resources Securities.

The Fund may invest in securities of companies or issuers of any size market capitalisation. The Fund will invest in companies or issuers located throughout the world and there is no limitation on the Fund’s investments in foreign securities or in emerging markets.

The Fund defines a Real Estate Security as any security listed or traded on a Recognised Market that (i) derives at least 50% of its revenues from the ownership, operation, development, construction, financing, management or sale of commercial, industrial or residential real estate and similar activities, or (ii) commits at least 50% of its assets to activities related to real estate.

For purposes of selecting investments in Real Estate Securities, the Fund defines the real estate sector broadly as the following:

- real estate investment trusts (“**REITs**”);
- real estate operating companies (“**REOCs**”);
- firms dependent on real estate holdings for revenues and profits, including lodging, leisure, timber, mining, and agriculture companies; and
- debt securities, including securitized obligations, which are predominantly supported by real estate assets.

REITs

REITs are companies that own interests in real estate or in real estate related loans or other interests, and their revenue primarily consists of rent derived from owned, income producing real estate properties and capital gains from the sale of such properties. A REIT in the United States is generally not taxed on income distributed to shareholders so long as it meets tax-related requirements, including the requirement that it distribute substantially all of its taxable income to its shareholders.

REOCs

REOCs are real estate companies that have not elected to be taxed as REITs and therefore are not required to distribute taxable income and have fewer restrictions on what they can invest in.

Securitized Obligations

SECTION I: The Fund

As part of its investments in Real Estate Securities, the Fund may invest in mortgage-related debt securities and other mortgage-related instruments (collectively, “**Mortgage-Related Investments**”). The Fund considers Mortgage-Related Investments to consist of, but not be limited to, mortgage-backed securities (“**MBS**”) of any kind; mortgage real estate investment trusts (“**mortgage REITs**”); asset-backed securities (“**ABS**”) that are backed by interest in real estate or land; and securities and other instruments issued by mortgage servicers. The Fund’s investments in MBS may include residential MBS (“**RMBS**”) or commercial MBS (“**CMBS**”).

For purposes of selecting investments in Infrastructure Securities, the Fund defines an Infrastructure Security as securities listed or traded on a Recognised Market that (i) derives at least 50% of its revenue or profits, either directly or indirectly, from infrastructure assets, or (ii) commits at least 50% of its assets to activities related to infrastructure. Such securities may be preferred or common stock, units, trust interests, partnership interests, debt securities, asset-backed securities, stapled securities (as described herein), limited partnership interests in the general partners of master limited partnerships (“**MLPs**”), warrants, depository receipts, exchange traded notes and investment companies including exchange traded funds providing exposure to infrastructure companies.

For purposes of selecting investments in Infrastructure Securities, the Fund defines the infrastructure sector broadly. It includes, but is not limited to, the physical structures, networks and systems of:

- transportation;
- energy;
- water and sewage; and
- communication.

Infrastructure Securities also includes MLPs.

An MLP is a publicly traded company organised as a limited partnership or limited liability company that, like a stock, is publicly traded on a securities exchange. An MLP is typically treated as a partnership for income tax purposes. MLPs may derive income and gains from the exploration, development, mining or production, processing, refining, transportation (including pipelines transporting gas, oil, or products thereof), or the marketing of any mineral or natural resources. MLPs generally have two classes of owners, the general partner and limited partners. The general partner of an MLP is typically owned by one or more of the following: a major energy company, an investment fund, or the direct management of the MLP. The general partner may be structured as a private or publicly traded corporation or other entity. The general partner typically controls the operations and management of the MLP through an up to 2% equity interest in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners own the remainder of the partnership, through ownership of common units, and have a limited role in the partnership’s operations and management.

From time to time, the Fund may invest in stapled securities to gain exposure to many infrastructure companies in Australia. A stapled security, which is widely used in Australia, is a security that is comprised of two parts that cannot be separated from one another. The two parts of a stapled security are a unit of a trust and a share of a company. The resulting security is influenced by both parts, and must be treated as one unit at all times, such as when buying or selling a security.

For purposes of selecting investments in Natural Resources Securities, the Fund defines a Natural Resources Security as a security listed or traded on a Recognised Market (such securities may be preferred or common stock, units, trust interests, partnership interests, debt securities, asset-backed securities, stapled securities (as described herein), limited partnership interests in the general partners of master limited partnerships (MLPs), warrants, depository receipts, exchange traded notes and

SECTION I: The Fund

investment companies including exchange traded funds providing exposure to infrastructure companies that:

(i) derives at least 50% of its revenues, profits or value, either directly or indirectly, from natural resources assets including, but not limited to:

- Timber and Agriculture assets and securities;
- Commodities and commodity-linked assets and securities, including, but not limited to, precious metals, such as gold, silver and platinum, ferrous and nonferrous metals, such as iron, aluminum and copper, metals such as uranium and titanium, hydrocarbons such as coal, oil and natural gas, timberland, undeveloped real property and agricultural commodities; and
- Energy, including the exploration, production, processing and manufacturing of hydrocarbon-related and chemical-related products; or

(ii) provides supporting services to such natural resources companies.

Commodities are assets that have tangible properties, such as oil, coal, natural gas, agricultural products, industrial metals, livestock and precious metals. In order to gain exposure to the commodities markets without investing directly in physical commodities, the Fund may invest in commodity index-linked notes or in the derivatives set out in the section entitled “Derivatives” below whose reference asset is a commodity index. Any commodity index to which the Fund wishes to gain exposure will have been submitted to and cleared by the Central Bank prior to the Fund making any investment in such index. Commodity index-linked notes are derivative debt instruments with principal and/or coupon payments linked to the performance of commodity indices. These notes are sometimes referred to as “structured notes” because the terms of these notes may be structured by the issuer and the purchaser of the note. The value of these notes will rise or fall in response to changes in the underlying commodity index and will be subject to credit and interest rate risks that typically affect debt securities.

Outside of its investments in Real Asset Securities, the Fund may invest up to 20% of its net assets in equities or fixed income securities of any maturity, including high yield securities, listed or traded on a Recognised Market other than the types described above, including inflation-linked fixed income securities such as Treasury Inflation Protected Securities (“TIPS”).

The Fund actively trades portfolio securities. The Fund may invest in securities of companies of any size market capitalization. The Fund will invest in companies located throughout the world and there is no limitation on the Fund’s investments in foreign securities or in emerging markets. The Fund may invest in securities of foreign companies in the form of American Depositary Receipts (“ADRs”), Global Depositary Receipts (“GDRs”) and European Depositary Receipts (“EDRs”). Generally, ADRs in registered form are dollar denominated securities designed for use in the U.S. securities markets, which represent and may be converted into an underlying foreign security. GDRs, in bearer form, are designated for use outside the United States. EDRs, in bearer form, are designed for use in the European securities markets.

In managing the Fund, the Investment Manager will determine the Fund’s strategic asset allocation. The Fund has flexibility in the relative weightings given to each of these categories.

The Fund may invest in common and preferred stock, restricted (“144A”) securities or private securities, investment grade fixed income securities, high yield fixed income securities (“junk bonds”), collateralised loan obligations (“CLOs”), bank loans (including participations, assignments, senior loans, delayed funding loans and revolving credit facilities), open-end and closed-end investment companies, including exchange-traded funds (“ETFs”) and exchange-traded notes (“ETNs”), and securities issued and/or guaranteed by the U.S. Government, its agencies or instrumentalities or

SECTION I: The Fund

sponsored corporations, as described in this prospectus. The Fund will not invest more than 10% of its net assets in exchange traded funds established as Collective Investment Schemes.

Most ETFs are similar to index funds in that they seek to achieve the same return as a particular market index and will primarily invest in the securities of companies that are included in that index. Unlike index funds, however, ETFs are traded on stock exchanges. ETFs are a convenient way to invest in both broad market indexes and market sector indexes, particularly since ETFs can be bought and sold at any time during the day, like stocks. When the Fund invests in ETFs, the Fund will pay a proportionate share of the management fee and the operating expenses of the ETF. The Fund will not invest in actively managed or leveraged ETFs.

ETNs are designed to provide investors with a way to access the returns of market benchmarks or strategies. ETNs are not equities or index funds, but they do share several characteristics. For example, like equities, they trade on an exchange. Like an index fund, they are linked to the return of a benchmark index.

With the exception of permitted investment of up to 10% of net assets in unlisted transferable securities and money market instruments that are consistent with the Fund's investment policy, transferable securities and money market instruments must be listed or traded on Recognised Markets.

The Fund may also hold cash or other short-term investments such as money market instruments or certificates of deposit. Under normal market conditions, it is not expected that the Fund will be invested substantially in cash or other short-term investments. However, where the Investment Manager considers it prudent to do so, the Fund may hold more cash or other short term investments than other assets.

Any amendment to the investment objective and/or policy is the responsibility of the Directors who may change the investment objective and policy of the Fund provided that Shareholders are given reasonable notice of such change. Furthermore, any change in the investment objective or material change to the investment policy of the Fund will only be effected following a resolution of a majority of the voting Shareholders of the Fund.

Integration of Sustainability Risks into the Investment Process

Unlike investment vehicles which promote environmental, social and governance ("ESG") characteristics or have a specific sustainability or impact objective that may result in a constrained investment universe, the Fund seeks to maximize financial performance, whereby ESG considerations are input factors within the investment process that the Investment Manager considers appropriate to pursue the Fund's investment objective. As part of its investment process, the Fund includes all relevant financial risks in its investment decision and evaluates these on an ongoing basis. In doing so, relevant sustainability factors and sustainability risks are assessed and taken into account, including ESG events or conditions that could have a material impact on the investment in question, its return and in turn, the Net Asset Value of the Fund. Sustainability factors within the meaning of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "SFDR") are defined as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The Investment Manager's analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards' independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying companies via dialogue and voting rights. In exercising the Fund's voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

Principal Adverse Impacts

SECTION I: The Fund

The Company, The Manager and, in turn, the Investment Manager, do not currently consider the principal adverse impacts of investment decisions on sustainability factors, within the meaning of SFDR, because whilst ESG risks are incorporated into the Investment Manager's investment decision making processes, the Fund's objective, and in turn the Investment Manager's objective in respect of the Fund, is to achieve total return, which is targeted to be in excess of inflation, through growth of capital and current income. Further, the relevant information required to appropriately assess the principal adverse impacts of the Investment Manager's investment decisions on sustainability factors is not yet available.

The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020.

The Company, the Manager and the Investment Manager will keep this decision to not consider the principal adverse impacts of investment decisions on sustainability factors within the meaning of SFDR under review and will formally re-evaluate this decision on a periodic basis.

Investment Approach

The Investment Manager utilizes a fundamental, bottom-up, value-based selection methodology, taking into account short-term considerations, such as temporary market mispricing, and long-term considerations, such as values of assets and cash flows. It takes a balanced approach to investing, seeking to mitigate risk through diversification, credit analysis, economic analysis and review of sector and industry trends. The Investment Manager uses proprietary research to select individual securities that it believes can add value from income and/or the potential for capital appreciation. The proprietary research may include an assessment of a company's general financial condition, its competitive positioning and management strength, as well as industry characteristics. It may sell a security held by the Fund that becomes overvalued or no longer offers an attractive risk/reward profile. A security may also be sold due to changes in portfolio strategy or cash flow needs.

Profile of a Typical Investor

A typical investor in the Fund may be an investor with a medium to long term investment horizon who considers investment in the Fund as a convenient way of seeking to achieve total return, which is targeted to be in excess of inflation, through growth of capital and current income. Derivative instruments may be utilised in an attempt to achieve the Fund's investment objective. As returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives, a typical investor should be prepared to accept a higher level of such volatility.

Derivatives

The Fund may, but is not required to, use forwards (such as forward foreign currency exchange contracts), options, futures and swaps (both credit default swaps and total return swaps ("TRS")) for investment purposes and for the purpose of efficient portfolio management. The Fund may also, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements.

A derivative is a security or instrument whose value is determined by reference to the value or the change in value of one or more securities, currencies, indices or other financial instruments. The underlying securities to which the Fund will have exposure as a result of investing in derivatives will be consistent with the investment policy of the Fund. Derivatives used for efficient portfolio management purposes will have the aim of reducing risk, reducing costs or generating additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. Any such investment technique or financial derivative instrument must be one which (alone or in combination with one or more other

SECTION I: The Fund

instrument techniques or financial derivative instruments) is reasonably believed by the Investment Manager to be economically appropriate to the management of the Fund.

The Fund may enter into credit default swaps (CDS), which can be used to acquire or to transfer the credit risk of a security (being a security identified under the heading 'Investment Policy') in the event that there is a default (or similar incident) by the issuer of the security underlying the CDS. The buyer of a credit swap receives credit protection, whereas the seller of the swap guarantees the credit worthiness of the security. Where the Investment Manager does not expect a default of the underlying security, CDS may be employed by the Fund to express positive investment views (i.e., sell protection) on corporate entities and markets. Where the Investment Manager does expect a default of the underlying security, CDS may be employed by the Fund to express negative investment views (i.e., buy protection) on corporate entities and markets.

The Fund may also enter into TRS. TRS involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Fund will be consistent with the investment policies of the Fund. Where the Fund enters into a TRS on a net basis, the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. TRS may be employed by the Fund to adjust or obtain sector and security exposures, often with lower transaction costs than obtaining the same exposure via purchasing individual securities. The counterparties to the TRS will be selected from a list approved by the Investment Manager in consideration of the risk profile and investment policy of the Fund. The use of TRS will not grant discretion to the counterparties over the composition or management of the Fund's investment portfolio, nor shall the approval of the TRS counterparty be required in relation to any investment portfolio transaction entered into by the Fund.

Financial futures and forward foreign exchange contracts may be used to hedge the currency exposure of the Fund and for the purpose of efficient portfolio management only. It is intended that the use of such forward foreign exchange contracts will reduce the exchange rate risk of the Fund. In particular, these may be used to: (a) hedge the designated currency of the assets of the Fund to the Base Currency of the Fund; (b) mitigate the exchange rate risk between the Base Currency of the Fund and the currency in which Shares in a class in the Fund are designated where that designated currency is different to the Base Currency of the Fund; or (c) hedge the currency of denomination of the assets of the Fund attributable to a particular class into the designated currency of that class where the currency of denomination is different to the designated currency of the class. As further set out below, hedged and unhedged share classes may be offered to investors.

The Fund may enter into forward commitments for the purchase or sale of securities, including on a "when issued" or "delayed delivery" basis, in excess of customary settlement periods for the type of security involved. In some cases, a forward commitment may be conditioned upon the occurrence of a subsequent event, such as approval and consummation of a merger, corporate reorganisation or debt restructuring (i.e., a when, as and if issued security). When such transactions are negotiated, the price is fixed at the time of the commitment, with payment and delivery taking place in the future, generally a month or more after the date of the commitment. While it will only enter into a forward commitment with the intention of actually acquiring the security, the Fund may sell the security before the settlement date if it is deemed advisable.

An option is the right, but not the obligation, to buy (for a call option) or sell (for a put option) a specific amount of a given stock, currency, or debt, at a specified price (the strike price) during a specified period of time. Each option has a buyer, called the holder, and a seller, known as the writer. If the option contract is exercised, the writer is responsible for fulfilling the terms of the contract by delivering the shares to the appropriate party. In the case of a security that cannot be delivered, the contract is settled in cash. For the holder, the potential loss is limited to the price paid to acquire the option. When an option is not exercised, it expires. No shares change hands and the money spent to purchase the option is lost. For the buyer, the upside is unlimited. For the writer, the potential loss is unlimited unless the

SECTION I: The Fund

contract is covered, meaning that the writer already owns the security underlying the option. Options may be employed by the Fund to gain investment exposure consistent with the investment policy of the Fund and to hedge existing long positions in accordance with the Fund's investment policy.

The Fund may enter into repurchase and reverse repurchases for the purposes of efficient portfolio management only, taking into account the risk profile of the Fund and subject to the conditions and limits as set out in the UCITS Notices and within any further limits laid down by the Central Bank from time to time. Under the terms of a typical repurchase agreement, the Fund would acquire an underlying debt obligation for a relatively short period subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed price and time. This arrangement results in a fixed rate of return to the Fund that is not subject to market fluctuations during the holding period.

Securities Financing Transactions

The assets underlying any securities financing transactions ("SFTs") or TRS will be the equity and fixed income securities in which the Fund may invest. As set out in the Prospectus, the Fund may utilise SFTs, including repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions, margin lending transaction and total return swaps. It is expected that the proportion of the Sub-Fund's assets under management that will be subject to SFTs will be between 0 to 10% of the Fund's Net Asset Value for all SFTs but will not in any event exceed 100% of the Fund's Net Asset Value. The assets underlying the SFTs will be securities traded on a Recognised Market.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives. The Fund is suitable for investors who are prepared to accept a higher level of such volatility.

Leverage

The Fund's exposure to financial derivative instruments will be calculated using the 'commitment approach' as permitted under the Central Bank Regulations. As a general rule, a UCITS cannot have global exposure greater than its net asset value. In the context of the Fund using the commitment approach to calculate its global exposure, the Fund may not, therefore, be leveraged in excess of 100% of Net Asset Value. The Fund's use of currency hedging will not be included in this calculation.

Investment and Borrowing Restrictions

The Fund is subject to the investment and borrowing restrictions set out in the Prospectus.

Furthermore, while it is not the current intention of the Fund to invest in Collective Investment Schemes, it will not, in any event, invest more than 10% of its net assets in other Collective Investment Schemes, such investment being consistent with the Fund's investment policy.

German Tax Reporting

The Investment Manager aims to manage the Fund in accordance with the so-called partial exemption regime for "mixed funds" within the meaning of the German Investment Tax Act 2018 ("GITA"). Accordingly and notwithstanding any other provision in the Prospectus and this Supplement, the Fund shall invest on a continuous basis at least 25% of its portfolio in equities within the meaning of GITA.

Futures Trading

The Fund may invest in instruments which could be deemed to be commodity interests, including swaps as defined in the U.S. Commodity Futures Trading Commission ("CFTC") Regulations. The

SECTION I: The Fund

Investment Manager intends to claim an exemption from registration with the U.S. National Futures Association as a Commodity Pool Operator pursuant to CFTC Rule 4.13(a)(3). This exemption requires that either (i) the aggregate initial margin, premiums, and required minimum security deposit for foreign exchange transactions required to establish commodity interest positions, determined at the time the most recent position was established, will not exceed five percent of the liquidation value of the applicable pool's portfolio, or (ii) the aggregate net notional value of this pool's commodity interest positions, determined at the time the most recent position was established, does not exceed one hundred percent of the liquidation value of the pool's portfolio.

Fees, Costs and Expenses

Further information on all fees and expenses payable out of the assets of the Fund are as set out in the section headed "FEES, COSTS AND EXPENSES" in the Prospectus.

Management Fee

The management fee payable in respect of the Fund is set out in the Prospectus.

Depository Fee

Transaction fees and safekeeping fees are based on the Net Asset Value of the Fund and vary, from 0.0040% to 0.80%, depending on the country in which the security is traded and held, subject to a minimum annual fee, exclusive of transaction charges and out-of-pocket expenses, which will not exceed \$90,000 per annum in total for all Funds of the Company. Each Fund shall also bear the cost of all relevant sub-custodian transaction charges incurred by the Depository, or any sub-custodian, which shall not exceed normal commercial rates. The Depository shall also be entitled to reimbursement of properly vouched out of pocket expenses incurred by the Depository, or any sub-custodian, for the benefit of the Fund out of the assets of the Fund in respect of which such charges and expenses were incurred.

The Depository, as trustee, shall be entitled to a fee payable out of the assets of the Fund accruing daily and payable monthly in arrears at the end of each calendar month at an annual rate of up to 0.018% of the Net Asset Value of the Fund, subject to a minimum annual fee for the Fund, exclusive of out-of-pocket expenses, of up to \$12,400.

Administration Fees

The Administrator, in relation to the provision of its services shall be entitled to a fee payable out of the assets of each Fund accruing daily and payable monthly in arrears at the end of each calendar month which includes the following components:

- Administration fee – up to 0.01% per Fund per annum subject to a minimum annual fee for each Fund which will not exceed \$25,000
- Fund Accounting fee – up to \$35,000 per Fund per annum
- Transfer Agent fee – up to \$10,000 per annum and up to \$4,500 per share class per annum subject to a minimum monthly fee not to exceed \$3,500. Account maintenance and servicing fees will be charged at normal commercial rates
- The Administrator shall also be entitled to reimbursement of all reasonable out-of-pocket expenses incurred for the benefit of the Fund out of the assets of the Fund in respect of which such charges and expenses were incurred
- The Administrator shall also be entitled to receive a fee which will not exceed \$11,000 for the preparation of financial statements of the Company.

SECTION I: The Fund

Investment Management Fee

Under the provisions of the Investment Management Agreement, the Fund will pay the Investment Manager a fee of up to 1 per cent. per annum of the Net Asset Value in respect of each class of 'Institutional' Shares and a fee of up to 1.5 per cent per annum of the Net Asset Value in respect of each of the RDR Share Classes and a fee of up to 2.5 per cent per annum of the Net Asset Value in respect of each of the Non-RDR Share Classes as of the relevant Valuation Date. The investment management fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods). The Company will pay all out-of-pocket expenses incurred by the Investment Manager (including VAT thereon). Such out-of-pocket expenses may include transaction charges provided that they are charged at normal commercial rates and incurred by the Investment Manager in the performance of its duties under the Investment Management Agreement.

Establishment Expenses

The fees and expenses incurred in connection with the establishment of the Fund, the preparation and publication of this Supplement and all legal costs and out-of-pocket expenses related thereto did not exceed €20,000 (plus VAT, if any). The expenses incurred in connection with the establishment of the Company are as set out in the section headed "Fees, Costs and Expenses" in the Prospectus. The Fund may, at the absolute discretion of the Directors, be allocated such portion of the formation expenses of the Company as the Directors consider to be fair in the circumstances. Such expenses will be amortised on a straight-line basis over the first 60 months of operations or such shorter period as the Directors may determine.

Dividend Policy

Accumulation Shares

The Directors do not anticipate paying a dividend in respect of the Shares of the Accumulation Share Classes. All income and profits earned by the Fund attributable to the Accumulation Share Classes will accrue to the benefit of those classes of Shares and will be reflected in the Net Asset Value attributable to the relevant classes of Shares.

Distribution Shares

The Directors may, in their discretion, declare dividends on the Distribution Share Classes. Dividends will be paid at least annually and may be paid more frequently at the discretion of the Investment Manager and/or the Directors.

A dividend shall be payable to Shareholders in Distribution Share Classes out of profits of the Fund available for distribution relating to that Distribution Share Class. Profits, for these purposes, may be comprised of net income (less expenditure) and realised and unrealised gains (less realised and unrealised losses) attributable to such share classes. Income for these purposes shall include, without limitation, interest income and dividend income and any other amounts treated as income in accordance with the accounting policies of the Company laid down from time to time.

To afford maximum flexibility to the Company, dividends may also, at the discretion of the Directors, be paid out of the capital of the Fund in order to, for example, preserve an income stream for the Shareholders. The maximum rate or amount of any such capital dividend shall be determined by the Directors. **Shareholders should note that in this scenario, the distribution is achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital.**

SECTION I: The Fund

The Directors may elect to charge expenses out of the capital of the Fund, should they wish to generate distributable profits. Investors should note that by charging the management fees and expenses of the Fund to capital, the effect of this is that capital may be eroded and income will be achieved by foregoing the potential for future capital growth.

In any such event, the Distribution Share Classes will go “ex-dividend” on the day on which the dividend is declared (the “**Ex-dividend Date**”).

Dividends will be paid to Shareholders in the Distribution Share Classes on the register at the close of business on the Business Day immediately preceding the Ex-dividend Date within four calendar months of such Ex-dividend Date. In the event that any of the above dates is not a Business Day, the relevant date will be the next immediately following Business Day.

Unless a Shareholder in the Distribution Share Classes elects otherwise, any distributions will be applied in the purchase of further Shares of the relevant Distribution Share Classes (or fractions thereof) as applicable. Shareholders may write to the Administrator to elect to receive distributions in cash. Any such cash payments to Shareholders in the Distribution Share Classes will be payable to the account specified by Shareholders on the application form. Accordingly, since it is the intention to re-invest distributions by way of acquisition of further Shares, it is unlikely that any management fees or expenses charged to capital will have the effect of eroding a Shareholder’s investment.

Risk Factors

Investors’ attention is drawn to the risk factors set out in the Prospectus and to the following additional risk factors.

Expenses charged to capital

Shareholders should note that the management fees and other fees and expenses incurred by the Fund will as far as possible be deducted from the income of the Fund. If there is insufficient income, the balance will be charged to the capital of the Fund. This may have the effect of lowering the capital value of the Shareholder’s investment and “income” will be achieved by foregoing the potential for future capital growth.

Commodity-Related Investments Risk

The value of commodities investments will generally be affected by overall market movements and factors specific to a particular industry or commodity, which may include weather, embargoes, tariffs, and health, political, international and regulatory developments. Economic and other events (whether real or perceived) can reduce the demand for commodities, which may reduce market prices and cause the value of Fund shares to fall. The frequency and magnitude of such changes cannot be predicted. Exposure to commodities and commodities markets may subject a fund to greater volatility than investments in traditional securities. No active trading market may exist for certain commodities investments, which may impair the ability of a fund to sell or to realise the full value of such investments in the event of the need to liquidate such investments. In addition, adverse market conditions may impair the liquidity of actively traded commodities investments. Certain types of commodities instruments (such as commodity swaps) are subject to the risk that the counterparty to the instrument will not perform or will be unable to perform in accordance with the terms of the instrument.

Derivatives Risk

The Fund may gain exposure to commodities through related derivative instruments, such as futures, forwards, swaps, options on futures. Many of the risks applicable to trading the underlying asset are also applicable to derivatives trading. However, there are a number of additional risks associated with

SECTION I: The Fund

derivatives trading. In addition to the below risks, please also see “Derivatives Risk” under the section entitled “Risk Factors” in the Prospectus.

Transactions in certain derivatives are subject to clearance on exchanges, regulatory oversight and the risks of trading in the OTC markets. Additional risks associated with derivatives trading include:

- *Counterparty Risk.* Because some of the derivative transactions in which the Fund may engage (for example, certain swaps) may involve instruments that are not traded on an exchange but are instead traded between counterparties based on contractual relationships, the Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. Although the Fund intends to enter into transactions only with counterparties which the Investment Manager believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Fund will not sustain a loss on a transaction as a result.

Some types of cleared derivatives are required to be executed on an exchange or on a swap execution facility. A swap execution facility is a trading platform where multiple market participants can execute derivatives by accepting bids and offers made by multiple other participants in the platform. While this execution requirement is designed to increase transparency and liquidity in the cleared derivatives market, trading on a swap execution facility can create additional costs and risks for the Fund.

In the event of the counterparty’s bankruptcy or insolvency, the Fund’s collateral may be subject to the conflicting claims of the counterparty’s creditors, and the Fund may be exposed to the risk of a court treating the Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral. The Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer of an instrument in which the Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Fund will not sustain a loss on a transaction as a result.

Securities purchased or sold on a “when-issued” or “delayed delivery” basis involve a risk of loss if the value of the securities to be purchased declines prior to the settlement date or if the value of the securities to be sold increases prior to a settlement date. Loans of securities also involve risks of delay in receiving additional collateral or in recovering the securities loaned, or possibly loss of rights in the collateral, should the borrower of the securities become insolvent.

- *Liquidity Risk.* Derivative instruments, especially when traded in large amounts, may not be liquid in all circumstances, so that in volatile markets the Fund may not be able to close out a position without incurring a loss. In addition, daily limits on price fluctuations and speculative position limits on exchanges on which the Fund may conduct its transactions in derivative instruments may prevent profitable liquidation of positions, subjecting the Fund to the potential of greater losses.
- *Financial Leverage Risk.* Trading in derivative instruments can result in large amounts of financial leverage. Thus, the leverage offered by trading in derivative instruments will magnify the gains and losses experienced by the Fund and could cause the value of the Fund’s net assets to be subject to wider fluctuations than would be the case if the Fund did not use the leverage feature of derivative instruments.
- *Over-the-Counter Trading Risk.* Derivative instruments, such as swap agreements, that may be purchased or sold by the Fund may include instruments not traded on an exchange. The risk

SECTION I: The Fund

of non-performance by the counterparty to an instrument is generally greater than, and the ease with which the Fund can dispose of or enter into closing transactions with respect to an instrument is generally less than, the risk associated with an exchange traded instrument. In addition, greater disparities may exist between “bid” and “asked” prices for derivative instruments that are not traded on an exchange. Derivative instruments not traded on exchanges also are not subject to the same type of government regulation as exchange traded instruments, and many of the protections afforded to participants in a regulated environment may not be available in connection with the transactions.

- *Tracking Risk.* The value of the derivatives that the Fund uses to gain commodities exposure may not correlate to the values of the underlying commodities. When used for hedging purposes, an imperfect or variable degree of correlation between price or rate movements of the derivative instrument and the underlying investment sought to be hedged may prevent the Fund from achieving the intended hedging effect or expose the Fund to risk of loss.

Equity Securities Risk

Equity securities are subject to the risk that stock prices may rise and fall in periodic cycles and may perform poorly relative to other investments. This risk may be greater in the short term. Equity securities represent an ownership interest in an issuer, rank junior in a company’s capital structure to debt securities and consequently may entail greater risk of loss than fixed income securities.

Exchange-Traded Fund Risk

ETFs are typically open-end investment companies that are bought and sold on a national securities exchange. When the Fund invests in an ETF, it will bear additional expenses based on its pro rata share of the ETF’s operating expenses, including the potential duplication of management fees. The risk of owning an ETF generally reflects the risks of owning the underlying securities it holds. Many ETFs seek to replicate a specific benchmark index. However, an ETF may not fully replicate the performance of its benchmark index for many reasons, including because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of stocks held. Inverse ETFs are subject to the risk that their performance will fall as the value of their benchmark indices rises. Lack of liquidity in an ETF could result in an ETF being more volatile than the underlying portfolio of securities it holds. In addition, because of ETF expenses, compared to owning the underlying securities directly, it may be more costly to own an ETF. The Fund also will incur brokerage costs when it purchases ETFs.

Exchange-Traded Note Risk

ETNs are subject to the credit risk of the issuer. The value of an ETN will vary and will be influenced by its time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying securities, currency and commodities markets as well as changes in the applicable interest rates, changes in the issuer’s credit rating, and economic, legal, political, or geographic events that affect the referenced index. There may be restrictions on the Fund’s right to redeem its investment in an ETN, which is meant to be held until maturity. Each Fund’s decision to sell its ETN holdings may be limited by the availability of a secondary market.

Fixed Income Risk

The market value of fixed income investments changes in response to interest rate changes and other factors. Bond prices generally rise when interest rates decline and decline when interest rates rise. The longer the duration of a bond, the more a change in interest rates affects the bond’s price. Short-term and long-term interest rates may not move the same amount and may not move in the same direction. It is likely there will be less governmental action in the near future to maintain low interest rates, or that governmental actions will be less effective in maintaining low interest rates. The negative impact on fixed income securities from the resulting rate increases for that and other reasons could be swift

SECTION I: The Fund

and significant, including falling market values and reduced liquidity. Substantial redemptions from bond and other income funds may worsen that impact. Other types of securities also may be adversely affected from an increase in interest rates. Moreover, while securities with longer maturities tend to produce higher yields, the prices of longer maturity securities are also subject to greater market fluctuations as a result of changes in interest rates. As the average maturity or duration of a security lengthens, the risk that the price of such security will become more volatile increases. In contrast to maturity which measures only the time until final payment, duration combines consideration of yield, interest payments, final maturity and call features. Additional risk associated with fixed income securities includes:

- *Call Risk.* During periods of falling interest rates, certain debt obligations with high interest rates may be prepaid (or “called”) by the issuer prior to maturity.
- *Extension Risk.* An issuer may exercise its right to pay principal on an obligation held by the Fund later than expected. This may happen when there is a rise in interest rates. Under these circumstances, the value of the obligation will decrease.
- *Credit Risk.* The possibility that an issuer will be unable to make timely payments of either principal or interest.
- *Event Risk.* Securities may suffer declines in credit quality and market value due to issuer restructurings or other factors.

High Yield or “Junk” Bond Risk

Investments in high yield securities and unrated securities of similar credit quality (commonly known as “junk bonds”) may be subject to greater levels of credit and liquidity risk than funds that do not invest in such securities. These securities are considered predominately speculative with respect to the issuer’s continuing ability to make principal and interest payments. Junk bonds tend to be volatile and more susceptible to adverse events and negative sentiments. An economic downturn or period of rising interest rates could adversely affect the market for these securities and reduce the Fund’s ability to sell these securities (liquidity risk). If the issuer of a security is in default with respect to interest or principal payments, the Fund may lose its entire investment. Because of the risks involved in investing in high yield securities, an investment in the Fund that invests in such securities should be considered speculative.

Infrastructure Risk

Securities and instruments of infrastructure companies are more susceptible to adverse economic or regulatory occurrences affecting their industries. Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. The following is a summary of specific risks infrastructure companies may be particularly affected by or subject to:

- *Regulatory Risk.* Infrastructure companies may be subject to regulation by various governmental authorities and may also be affected by governmental regulation of rates charged to services, the imposition of special tariffs and changes in tax laws, environmental laws and regulations, regulatory policies, accounting standards and general changes in market sentiment towards infrastructure assets. Infrastructure companies’ inability to predict, influence or respond appropriately to changes in law or regulatory schemes could adversely impact their results of operations.

SECTION I: The Fund

- *Technology Risk.* This risk arises where a change could occur in the way a service or product is delivered rendering the existing technology obsolete. While the risk could be considered low in the infrastructure sector given the massive fixed costs involved in constructing assets and the fact that many infrastructure technologies are well-established, any technology change that occurs over the medium term could threaten the profitability of an infrastructure company. If such a change were to occur, these assets may have very few alternative uses should they become obsolete.
- *Regional or Geographic Risk.* This risk arises where an infrastructure company's assets are not movable. Should an event that somehow impairs the performance of an infrastructure company's assets occur in the geographic location where the issuer operates those assets, the performance of the issuer may be adversely affected.
- *Natural Disasters Risk.* Natural risks, such as earthquakes, flood, lightning, hurricanes and wind, are risks facing certain infrastructure companies. Extreme weather patterns, or the threat thereof, could result in substantial damage to the facilities of certain companies located in the affected areas, and significant volatility in the products or services of infrastructure companies could adversely impact the prices of the securities of such issuer.
- *Environmental Risk.* Infrastructure companies can have substantial environmental impacts. Ordinary operations or operational accidents may cause major environmental damage, which could cause infrastructure companies significant financial distress, substantial liabilities for environmental cleanup and restoration costs, claims made by neighbouring landowners and other third parties for personal injury and property damage, and fines or penalties for related violations of environmental laws or regulations. Infrastructure companies may not be able to recover these costs from insurance. Failure to comply with environmental laws and regulations may trigger a variety of administrative, civil and criminal enforcement measures, including the assessment of monetary penalties, the imposition of remedial requirements, and the issuance of orders enjoining future operations. Voluntary initiatives and mandatory controls have been adopted or are being discussed both in the United States and worldwide to reduce emissions of "greenhouse gases" such as carbon dioxide, a by-product of burning fossil fuels, and methane, the major constituent of natural gas, which many scientists and policymakers believe contribute to global climate change. These measures and future measures could result in increased costs to certain companies in which the Fund may invest.
- *Through-put Risk.* The revenue of many infrastructure companies may be impacted by the number of users who use the products or services produced by the infrastructure company. A significant decrease in the number of users may negatively impact the profitability of an infrastructure company.
- *Project Risk.* To the extent the Fund invests in infrastructure companies which are dependent to a significant extent on new infrastructure projects, the Fund may be exposed to the risk that the project will not be completed within budget, within the agreed time frame or to agreed specifications. Each of these factors may adversely affect the Fund's return from that investment.
- *Strategic Asset Risk.* Infrastructure companies may control significant strategic assets. Strategic assets are assets that have a national or regional profile, and may have monopolistic characteristics. The very nature of these assets could generate additional risk not common in other industry sectors. Given the national or regional profile and/or their irreplaceable nature, strategic assets may constitute a higher risk target for terrorist acts or political actions. Given the essential nature of the products or services provided by infrastructure companies, there is also a higher probability that the services provided by such issuers will be in constant demand. Should an infrastructure company fail to make such services available, users of such services may incur significant damage and may, due to the characteristics of the strategic assets, be

SECTION I: The Fund

unable to replace the supply or mitigate any such damage, thereby heightening any potential loss.

- *Operation Risk.* The long-term profitability of an infrastructure company may be partly dependent on the efficient operation and maintenance of its infrastructure assets. Should an infrastructure company fail to efficiently maintain and operate the assets, the infrastructure company's ability to maintain payments of dividends or interest to investors may be impaired. The destruction or loss of an infrastructure asset may have a major impact on the infrastructure company. Failure by the infrastructure company to carry adequate insurance or to operate the asset appropriately could lead to significant losses and damages.
- *Customer Risk.* Infrastructure companies can have a narrow customer base. Should these customers or counterparties fail to pay their contractual obligations, significant revenues could cease and not be replaceable. This would affect the profitability of the infrastructure company and the value of any securities or other instruments it has issued.
- *Interest Rate Risk.* Infrastructure assets can be highly leveraged. As such, movements in the level of interest rates may affect the returns from these assets more significantly than other assets in some instances. The structure and nature of the debt encumbering an infrastructure asset may therefore be an important element to consider in assessing the interest risk of the infrastructure asset. In particular, the type of facilities, maturity profile, rates being paid, fixed versus variable components and covenants in place (including the manner in which they affect returns to equity holders) are crucial factors in assessing any interest rate risk. Due to the nature of infrastructure assets, the impact of interest rate fluctuations may be greater for infrastructure companies than for the economy as a whole in the country in which the interest rate fluctuation occurs.
- *Inflation Risk.* Many companies operating in the infrastructure sector may have fixed income streams and, therefore, be unable to pay higher dividends. The market value of infrastructure companies may decline in value in times of higher inflation rates. The prices that an infrastructure company is able to charge users of its assets may not be linked to inflation. In this case, changes in the rate of inflation may affect the forecast profitability of the infrastructure company.
- *Developing Industries Risk.* Some infrastructure companies are focused on developing new technologies and are strongly influenced by technological changes. Product development efforts by such companies may not result in viable commercial products. These companies may bear high research and development costs, which can limit their ability to maintain operations during periods of organizational growth or instability. Some infrastructure companies in which the Fund invests may be in the early stages of operations and may have limited operating histories and smaller market capitalizations on average than companies in other sectors. As a result of these and other factors, the value of investments in such issuers may be considerably more volatile than that in more established segments of the economy.
- *Risks of Investing in Pipelines.* Pipeline companies are subject to the demand for natural gas, natural gas liquids, crude oil or refined products in the markets they serve, changes in the availability of products for gathering, transportation, processing or sale due to natural declines in reserves and production in the supply areas serviced by the companies' facilities, sharp decreases in crude oil or natural gas prices that cause producers to curtail production or reduce capital spending for exploration activities, and environmental regulation and related cost-intensive integrity management and testing programs. Demand for gasoline, which accounts for a substantial portion of refined product transportation, depends on price, prevailing economic conditions in the markets served, and demographic and seasonal factors.

SECTION I: The Fund

- Companies that own interstate pipelines that transport natural gas, natural gas liquids, crude oil or refined petroleum products are subject to regulation by the Federal Energy Regulation Commission (“FERC”) with respect to the tariff rates they may charge for transportation services. An adverse determination by the FERC with respect to the tariff rates of such a company could have a material adverse effect on its business, financial condition, results of operations and cash flows and its ability to pay cash distributions or dividends. In addition, the FERC has a tax allowance policy, which permits such companies to include in their cost of service an income tax allowance to the extent that their owners have an actual or potential tax liability on the income generated by them.
- The ability of interstate pipelines held in tax-pass-through entities such as MLPs to include an allowance for income taxes as a cost-of-service element in their regulated rates has been subject to extensive litigation before the FERC and the courts for a number of years. It is currently the FERC’s policy to permit pipelines to include in cost-of-service a tax allowance to reflect actual or potential income tax liability on their public utility income attributable to all partnership or limited liability company interests, if the ultimate owner of the interest has an actual or potential income tax liability on such income. Whether a pipeline’s owners have such actual or potential income tax liability will be reviewed by the FERC on a case-by-case basis.
- If the FERC’s income tax allowance policy were to change in the future to disallow a material portion of the income tax allowance taken by such interstate pipeline companies, it would adversely impact the maximum tariff rates that such companies are permitted to charge for their transportation services, which would in turn could adversely affect such companies’ financial condition and ability to pay distributions or dividends to their equity holders.
- Further, intrastate pipelines are subject to state regulation in the United States, which, while less comprehensive than FERC regulation, makes intrastate pipeline tariffs subject to protest and complaint and may adversely affect such intrastate pipelines’ financial condition, cash flows and ability to pay distributions or dividends.
- *Financing Risk.* From time to time, infrastructure companies may encounter difficulties in obtaining financing for construction programs during inflationary periods. Issuers experiencing difficulties in financing construction programs may also experience lower profitability, which can result in reduced income to the Fund.

Other factors that may affect the operations of infrastructure companies include difficulty in raising capital in adequate amounts on reasonable terms in periods of high inflation and unsettled capital markets, inexperience with and potential losses resulting from a developing deregulatory environment, increased susceptibility to terrorist acts or political actions, and general changes in market sentiment towards infrastructure assets. In addition, the change in the U.S. presidential administration could significantly impact the regulation of United States financial markets and dramatically alter existing trade, tax, energy and infrastructure policies, among others. It is not possible to predict what, if any, changes will be made or their potential effect on the economy, securities markets, or financial stability of the United States, or on the energy, natural resources, real estate and other markets.

MLP Risk

As compared to common stockholders of a corporation, holders of MLP units have more limited control and limited rights to vote on matters affecting the partnership. In addition, there are certain tax risks associated with an investment in MLP units and conflicts of interest may exist between common unit holders and the general partner, including those arising from incentive distribution payments.

A change in current tax law, or a change in the business of a given MLP, could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which would result in such MLP being required to pay U.S. federal income tax on its taxable income. Thus, if any of the MLPs owned by the

SECTION I: The Fund

Fund were treated as corporations for U.S. federal income tax purposes, the after-tax return to the Fund with respect to its investment in such MLPs would be materially reduced, which could cause a decline in the value of the common stock.

To the extent that the Fund invests in the equity securities of an MLP, the Fund will be a partner in such MLP. Accordingly, the Fund will be required to include in its taxable income the Fund's allocable share of the income, gains, losses, deductions and expenses recognized by each such MLP, regardless of whether the MLP distributes cash to the Fund. The Fund will incur a current tax liability on its allocable share of an MLP's income and gains that is not offset by the MLP's tax deductions, losses and credits, or its net operating loss carryforwards, if any. The portion, if any, of a distribution received by the Fund from an MLP that is offset by the MLP's tax deductions, losses or credits is essentially treated as a return of capital. The percentage of an MLP's income and gains that is offset by tax deductions, losses and credits will fluctuate over time for various reasons. A significant slowdown in acquisition activity or capital spending by MLPs held in the Fund's portfolio could result in a reduction of accelerated depreciation generated by new acquisitions, which may result in increased current tax liability for the Fund.

Because of the Fund's investments in equity securities of MLPs, the Fund's earnings and profits may be calculated using accounting methods that are different from those used for calculating taxable income. Because of these differences, the Fund may make distributions out of its current or accumulated earnings and profits, which will be treated as dividends, in years in which the Fund's distributions exceed its taxable income. In addition, changes in tax laws or regulations, or future interpretations of such laws or regulations, could adversely affect the Fund or the MLP investments in which the Fund invests.

Mortgage-Related and Other Asset-Backed Securities Risk.

RMBS, CMBS and ABS represent interests in "pools" of mortgages or other assets, including consumer loans or receivables held in trust. Although ABS and CMBS generally experience less prepayment than RMBS, MBS and ABS, like traditional fixed-income securities, are subject to credit, interest rate, prepayment and extension risks.

Small movements in interest rates (both increases and decreases) may quickly and significantly reduce the value of certain MBS. The Fund's investments in ABS are subject to risks similar to those associated with mortgage-related securities, as well as additional risks associated with the nature of the assets and the servicing of those assets. These securities also are subject to the risk of default on the underlying mortgage or assets, particularly during periods of economic downturn. Certain CMBS are issued in several classes with different levels of yield and credit protection. The Fund's investments in CMBS with several classes may be in the lower classes that have greater risks than the higher classes, including greater interest rate, credit and prepayment risks.

MBS may be either pass-through securities or collateralised mortgage obligations ("CMOs"). Pass-through securities represent a right to receive principal and interest payments collected on a pool of mortgages, which are passed through to security holders. CMOs are created by dividing the principal and interest payments collected on a pool of mortgages into several revenue streams (tranches) with different priority rights to portions of the underlying mortgage payments. Certain CMO tranches may represent a right to receive interest only ("IOs"), principal only ("POs") or an amount that remains after floating-rate tranches are paid (an inverse floater). These securities are frequently referred to as "mortgage derivatives" and may be extremely sensitive to changes in interest rates. Interest rates on inverse floaters, for example, vary inversely with a short-term floating rate (which may be reset periodically). Interest rates on inverse floaters will decrease when short-term rates increase, and will increase when short-term rates decrease. These securities have the effect of providing a degree of investment leverage. In response to changes in market interest rates or other market conditions, the value of an inverse floater may increase or decrease at a multiple of the increase or decrease in the value of the underlying securities. If the Fund invests in CMO tranches (including CMO tranches issued by

SECTION I: The Fund

government agencies) and interest rates move in a manner not anticipated by Fund management, it is possible that the Fund could lose all or substantially all of its investment.

The mortgage market in the United States has experienced difficulties that may adversely affect the performance and market value of certain of the Fund's mortgage-related investments. Delinquencies and losses on mortgage loans (including subprime and second-lien mortgage loans) generally have increased and may continue to increase, and a decline in or flattening of real estate values (as has been experienced and may continue to be experienced in many housing markets) may exacerbate such delinquencies and losses. Also, a number of mortgage loan originators have experienced serious financial difficulties or bankruptcy. Reduced investor demand for mortgage loans and mortgage-related securities and increased investor yield requirements have caused limited liquidity in the secondary market for mortgage-related securities, which can adversely affect the market value of mortgage-related securities. It is possible that such limited liquidity in such secondary markets could continue or worsen.

ABS entail certain risks not presented by MBS, including the risk that in certain states it may be difficult to perfect the liens securing the collateral backing certain ABS. In addition, certain ABS are based on loans that are unsecured, which means that there is no collateral to seize if the underlying borrower defaults. Certain MBS in which the Fund may invest may also provide a degree of investment leverage, which could cause the Fund to lose all or substantially all of its investment.

Natural Resources Risk.

The Fund's investments in Natural Resources Securities involve risks. The market value of Natural Resources Securities may be affected by numerous factors, including events occurring in nature, inflationary pressures and international politics. Because the Fund invests significantly in Natural Resources Securities, there is the risk that the Fund will perform poorly during a downturn in the natural resource sector. For example, events occurring in nature (such as earthquakes or fires in prime natural resource areas) and political events (such as coups, military confrontations or acts of terrorism) can affect the overall supply of a natural resource and the value of companies involved in such natural resource. Political risks and the other risks to which foreign securities are subject may also affect domestic natural resource companies if they have significant operations or investments in foreign countries. Rising interest rates and general economic conditions may also affect the demand for natural resources.

Real Estate Market Risk.

The Fund will not invest in real estate directly, but only in securities issued by real estate companies. However, because the Fund has significant exposure to the real estate sector, the Fund is also subject to the risks associated with the direct ownership of real estate. These risks include:

- declines in the value of real estate;
- risks related to general and local economic conditions;
- possible lack of availability of mortgage funds;
- overbuilding;
- extended vacancies of properties;
- increased competition;
- increases in property taxes and operating expenses;

SECTION I: The Fund

- changes in zoning laws;
- losses due to costs resulting from the clean-up of environmental problems;
- liability to third parties for damages resulting from environmental problems;
- casualty or condemnation losses;
- limitations on rents;
- changes in neighbourhood values and the appeal of properties to tenants; and
- changes in interest rates.

Thus, the value of the Fund's shares may change at different rates compared to the value of shares of a fund with investments in a mix of different industries.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives.

Sustainability Risk

Sustainability risks within the SFDR are ESG events or conditions whose occurrence could have an actual or potential principal adverse impact on the value of the Fund's investment. Sustainability risks can affect all known types of risk (for example, market risk, liquidity risk, counterparty risk and operational risk), and as a factor, contribute to the materiality of these risk types. Sustainability risks may impact the value of the companies in which the Fund invests and, as a result, the Net Asset Value of the Fund itself.

SECTION II: Euro 'Institutional' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Accumulation Shares, fractions of Euro 'Institutional' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION III: Euro 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Distribution Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Distribution Shares, fractions of Euro 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Hedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Hedged Accumulation Shares, fractions of Euro 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Accumulation Share Class

It is intended that the Euro Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION V: Euro ‘Institutional’ Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

“Closing Date”	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
“Initial Offer”	means the initial offer of Euro ‘Institutional’ Hedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
“Minimum Holding”	means, in relation to the Euro ‘Institutional’ Hedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the Euro ‘Institutional’ Hedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the Euro ‘Institutional’ Hedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro ‘Institutional’ Hedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro ‘Institutional’ Hedged Distribution Shares is not equivalent to an exact number of Euro ‘Institutional’ Hedged Distribution Shares, fractions of Euro ‘Institutional’ Hedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Distribution Share Class

It is intended that the Euro Institutional Hedged Distribution Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Distribution Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Distribution Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Distribution Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION VI: Sterling 'Institutional' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Unhedged Accumulation Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Unhedged Accumulation Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Unhedged Accumulation Shares is not equivalent to an exact number of Sterling 'Institutional' Unhedged Accumulation Shares, fractions of Sterling 'Institutional' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION VII: Sterling 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Unhedged Distribution Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Unhedged Distribution Shares is not equivalent to an exact number of Sterling 'Institutional' Unhedged Distribution Shares, fractions of Sterling 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION VIII: US Dollar 'Institutional' Accumulation Shares

“Closing Date”	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
“Initial Offer”	means the initial offer of US Dollar ‘Institutional’ Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
“Minimum Holding”	means, in relation to the US Dollar ‘Institutional’ Distribution Shares, a minimum holding of US\$100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the US Dollar ‘Institutional’ Distribution Shares, a minimum redemption of US\$50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the US Dollar ‘Institutional’ Distribution Shares, a minimum initial subscription of US\$250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar ‘Institutional’ Distribution Shares is US\$20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar ‘Institutional’ Distribution Shares is not equivalent to an exact number of US Dollar ‘Institutional’ Distribution Shares, fractions of US Dollar ‘Institutional’ Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION X: Euro RDR 'Retail' Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro RDR 'Retail' Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 30 July 2015 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro RDR 'Retail' Unhedged Accumulation Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro RDR 'Retail' Unhedged Accumulation Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for Euro RDR 'Retail' Unhedged Accumulation Shares is not equivalent to an exact number of Euro RDR 'Retail' Unhedged Accumulation Shares, fractions of Euro RDR 'Retail' Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XI: Euro RDR 'Retail' Unhedged Distribution Shares

Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XII: Euro RDR 'Retail' Hedged Accumulation Shares

Euro RDR Retail Hedged Accumulation Share Class

It is intended that the Euro RDR Retail Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro RDR Retail Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro RDR Retail Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro RDR Retail Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION XIII: Euro RDR 'Retail' Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;

"Initial Offer"	means the initial offer of Euro Non-RDR 'Retail' Unhedged Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro Non-RDR 'Retail' Unhedged Distribution Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro Non-RDR 'Retail' Unhedged Distribution Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro Non-RDR 'Retail' Unhedged Distribution Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro Non-RDR 'Retail' Unhedged Distribution Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro Non-RDR 'Retail' Unhedged Distribution Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Non-RDR 'Retail' Unhedged Distribution Shares is not equivalent to an exact number of Euro Non-RDR 'Retail' Unhedged Distribution Shares, fractions of Euro Non-RDR 'Retail' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXI: Euro Non-RDR 'Retail' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro Non-RDR 'Retail' Hedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro Non-RDR 'Retail' Hedged Accumulation Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro Non-RDR 'Retail' Hedged Accumulation Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro Non-RDR 'Retail' Hedged Accumulation Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro Non-RDR 'Retail' Hedged Accumulation Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro Non-RDR 'Retail' Hedged Accumulation Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Non-RDR 'Retail' Hedged Accumulation Shares is not equivalent to an exact number of Euro Non-RDR 'Retail' Hedged Accumulation Shares, fractions of Euro Non-RDR 'Retail' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Non-RDR Retail Hedged Accumulation Share Class

It is intended that the Euro Non-RDR Retail Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of

SECTION XXI: Euro Non-RDR 'Retail' Hedged Accumulation Shares

the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Non-RDR Retail Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Non-RDR Retail Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Non-RDR Retail Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION XXII: Euro Non-RDR 'Retail' Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;

To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION XXIII: Sterling Non-RDR 'Retail' Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling Non-RDR 'Retail' Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling Non-RDR 'Retail' Accumulation Shares, a minimum holding of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling Non-RDR 'Retail' Accumulation Shares, a minimum redemption of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Accumulation Shares, a minimum initial subscription of £1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Accumulation Shares, the Minimum Subsequent Subscription of £250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling Non-RDR 'Retail' Accumulation Shares is £20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling Non-RDR 'Retail' Accumulation Shares is not equivalent to an exact number of Sterling Non-RDR 'Retail' Accumulation Shares, fractions of Sterling Non-RDR 'Retail' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXIV: Sterling Non-RDR 'Retail' Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling Non-RDR 'Retail' Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum holding of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum redemption of £250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, a minimum initial subscription of £1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Sterling Non-RDR 'Retail' Distribution Shares, the Minimum Subsequent Subscription of £250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling Non-RDR 'Retail' Distribution Shares is £20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling Non-RDR 'Retail' Distribution Shares is not equivalent to an exact number of Sterling Non-RDR 'Retail' Distribution Shares, fractions of Sterling Non-RDR 'Retail' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXV: US Dollar Non-RDR 'Retail' Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of US Dollar Non-RDR 'Retail' Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Accumulation Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar Non-RDR 'Retail' Accumulation Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar Non-RDR 'Retail' Accumulation Shares is not equivalent to an exact number of US Dollar Non-RDR 'Retail' Accumulation Shares, fractions of US Dollar Non-RDR 'Retail' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXVI: US Dollar Non-RDR 'Retail' Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of US Dollar Non-RDR 'Retail' Distribution Shares in the Fund which commenced at 9 a.m. (Irish time) on 18 March 2016 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar Non-RDR 'Retail' Distribution Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar Non-RDR 'Retail' Distribution Shares is not equivalent to an exact number of US Dollar Non-RDR 'Retail' Distribution Shares, fractions of US Dollar Non-RDR 'Retail' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION XXVII: Sterling 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Hedged Accumulation Shares in the Fund which will commence at 9 a.m. (Irish time) on 8 November 2017 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Hedged Accumulation Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Sterling 'Institutional' Hedged Accumulation Shares, fractions of Sterling 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Sterling Institutional Hedged Accumulation Share Class

It is intended that the Sterling Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Sterling Institutional Hedged Accumulation Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Sterling Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Sterling Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in

SECTION XXVII: Sterling 'Institutional' Hedged Accumulation Shares

the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION XXVIII: Sterling ‘Institutional’ Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

“Closing Date”	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
“Initial Offer”	means the initial offer of Sterling ‘Institutional’ Hedged Distribution Shares in the Fund which will commence at 9 a.m. (Irish time) on 8 November 2017 and will close on the Closing Date;
“Minimum Holding”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the Sterling ‘Institutional’ Hedged Distribution Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling ‘Institutional’ Hedged Distribution Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling ‘Institutional’ Hedged Distribution Shares is not equivalent to an exact number of Sterling ‘Institutional’ Hedged Distribution Shares, fractions of Sterling ‘Institutional’ Hedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Sterling Institutional Hedged Distribution Share Class

It is intended that the Sterling Institutional Hedged Distribution Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Sterling Institutional Hedged Distribution Share class. This review will also incorporate a procedure to ensure that positions materially in excess of, or below, 100% will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Sterling Institutional Hedged Distribution Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Sterling Institutional Hedged Distribution Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION I: The Fund

Introduction

The Directors of the Company, whose names appear in the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

Unless otherwise stated, all capitalised terms shall have the same meaning herein as in the Prospectus.

The Brookfield Global Renewables and Sustainable Infrastructure UCITS Fund is a Fund of Brookfield Investment Funds (UCITS) p.l.c., an umbrella-type open-ended investment company with segregated liability between Funds authorised by the Central Bank pursuant to the UCITS Regulations. A description of Brookfield Investment Funds (UCITS) p.l.c. is contained in the Prospectus. **This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus.**

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The difference at any time between the subscription price and repurchase price of Shares in the Fund means that an investment in the Fund should be viewed as a medium- to long-term investment.

Shareholders should note that dividends may be payable to Shareholders in Distribution Share Classes out of the capital of the Fund. Any such distribution would be achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital. Distributions made during the life of the Fund must be understood as a type of capital reimbursement.

Shareholders should further note that all or part of fees and expenses, including management fees, may be charged to the capital of the Fund. This will have the effect of lowering the capital value of your investment.

The following distributing and accumulating classes of Shares in the Fund may be offered to investors:

- the Euro 'Institutional' Hedged Accumulation Shares Class A;
- the Euro 'Institutional' Unhedged Accumulation Shares Class B;
- the Euro 'Institutional' Hedged Distribution Shares Class C;
- the Euro 'Institutional' Unhedged Distribution Shares Class D;
- the US Dollar 'Institutional' Accumulation Shares Class E;
- the US Dollar 'Institutional' Distribution Shares Class F;
- the Sterling 'Institutional' Unhedged Accumulation Shares Class G;
- the Sterling 'Institutional' Unhedged Distribution Shares Class H;
- the Euro RDR 'Retail' Hedged Accumulation Shares Class I;
- the Euro RDR 'Retail' Unhedged Accumulation Shares Class J;
- the Euro RDR 'Retail' Hedged Distribution Shares Class K;

SECTION I: The Fund

- the Euro RDR 'Retail' Unhedged Distribution Shares Class L;
- the US Dollar RDR 'Retail' Accumulation Shares Class M;
- the US Dollar RDR 'Retail' Distribution Shares Class N;

- the Sterling Non-RDR 'Retail' Accumulation Shares Class X;
- the Sterling Non-RDR 'Retail' Distribution Shares Class Y;
- the Sterling 'Institutional' Hedged Accumulation Shares Class Z; and
- the Sterling 'Institutional' Hedged Distribution Shares Class AA.

Investors should note that Institutional Classes are only available for subscription by Institutional Investors and Retail Classes are only available for subscription by Retail Investors. Furthermore, the RDR Share Classes are only available for subscription by distributors or financial intermediaries who are restricted from receiving, being paid or keeping adviser, trailer or similar fees, charges or commissions on the investment management fees payable by the Fund.

The Directors may in their discretion charge a redemption fee of up to 3% of the redemption price in respect of a redemption of Shares by a shareholder.

The Directors may from time to time create additional classes of Shares in the Fund in accordance with the requirements of the Central Bank. The Base Currency of the Fund will be US Dollars.

SECTION I: The Fund

Definitions

The following definitions apply throughout this Supplement unless the context requires otherwise:

- “Accumulation Share Classes”** means the Shares in respect of which it is proposed not to pay dividends and which are identifiable by the use of the word “Accumulation” in their title;
- “Business Day”** means any day (except Saturdays, Sundays and public holidays in Dublin and New York) on which retail banks in Dublin and New York are open for business or such other day or days as may be determined by the Directors and notified to the Shareholders in advance;
- “Central Bank”** means the Central Bank of Ireland or any successor thereto;
- “Distribution Share Classes”** means the Shares in respect of which it is proposed to pay dividends and which are identifiable by the use of the word “Distribution” in their title;
- “Emerging Market”** means any of the following countries: Argentina, Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Saudi Arabia, South Africa, Taiwan, Thailand, Turkey and the United Arab Emirates. The Investment Manager has the discretion to update, modify and/or alter which countries are deemed to be Emerging Market for the purposes of this Supplement;
- “Institutional Classes”** means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Sterling ‘Institutional’ Hedged Accumulation Shares Class Z and the Sterling ‘Institutional’

SECTION I: The Fund

	Hedged Distribution Shares Class AA;
“Institutional Investor”	means a ‘professional client’, as defined under MiFID;
“Investment Management Agreement”	means the investment management agreement dated 6 December 2021 between the Company, the Manager and the Investment Manager;
“Investment Manager”	means Brookfield Public Securities Group LLC or such other person or person from time to time appointed by the Company or the Investment Manager of the Company in accordance with the requirements of the Central Bank;
“MIFID”	means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as may be amended, modified or replaced from time to time;
“Non-RDR Share Classes”	means the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;
“Prospectus”	means the prospectus of the Company dated 6 December 2021 and all relevant supplements and revisions thereto;
“RDR Share Classes”	means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O and the Sterling RDR ‘Retail’ Distribution Shares Class P;

“Recognised Markets”	means any regulated stock exchange or market which is provided for in the Articles of Association, details of which are set out in Schedule 3 of the Prospectus;
“Redemption Date”	means each Business Day or such other day as the Directors may in their absolute discretion determine and notify in advance to Shareholders, provided there is at least one Redemption Date per fortnight;
“Retail Classes”	means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O, the Sterling RDR ‘Retail’ Distribution Shares Class P, the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;
“Retail Investor”	means any investor who is not an Institutional Investor;
“Shares”	means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged

Distribution Shares Class K, the Euro RDR 'Retail' Unhedged Accumulation Shares Class J, the Euro RDR 'Retail' Unhedged Distribution Shares Class L, the US Dollar RDR 'Retail' Accumulation Shares Class M, the US Dollar RDR 'Retail' Distribution Shares Class N, the Sterling RDR 'Retail' Accumulation Shares Class O and the Sterling RDR 'Retail' Distribution Shares Class P, the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R, the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S, the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T, the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U, the US Dollar Non-RDR 'Retail' Accumulation Shares Class V, the US Dollar Non-RDR 'Retail' Distribution Shares Class W, the Sterling Non-RDR 'Retail' Accumulation Shares Class X, the Sterling Non-RDR 'Retail' Distribution Shares Class Y, the Sterling 'Institutional' Hedged Accumulation Shares Class Z, and the Sterling 'Institutional' Hedged Distribution Shares Class AA;

"Subscription Date"

means each Business Day or such other day as the Directors may in their absolute discretion determine and notify in advance to Shareholders, provided there is at least one Subscription Date per fortnight; and

"Supplement"

means this supplement.

SECTION I: The Fund

Investment Objective

The Fund seeks total return through growth of capital and current income. There can be no assurance that the Fund will achieve its investment objective.

Investment Policy

The Fund will be actively managed and the Investment Manager's investment decisions will not be influenced by the constituents of an index or benchmark.

The Fund seeks to achieve its investment objective by investing primarily in equity securities of global renewables and sustainable infrastructure ("GRSI") companies listed or traded on a Recognised Market.

The Fund defines a GRSI company as any company that has assets comprising, or is a technology and service provider involved with, wind, solar and other forms of "clean" power, battery & storage technology, electric vehicles, supporting technology and infrastructure (such as electricity transmission assets supporting renewable power generation), behind-the-meter/energy efficiency, smart grid technology, supporting integrated software technology, and water & wastewater treatment. Companies may be exclusively involved in these areas, or they may be in transition as they move towards business models that adopt clean technology and shrink or exit legacy lines of business that have previously involved fossil fuels.

Renewable and sustainable infrastructure includes, but is not limited to:

- Wind & solar;
- Other forms of clean power;
- Clean technology;
- Water sustainability; and
- Opportunistic transitioning companies (companies focused on power generation & electrification investments).

Under normal market conditions, the Investment Manager will attempt to achieve the Fund's investment objective by investing, as a principal strategy, most of the Fund's net assets in equity securities of GRSI companies listed or traded on a Recognised Market, including publicly traded securities of GRSI companies whose primary operations or principal trading market is in a foreign market, and that are not subject to the requirements of the US securities laws, markets and accounting requirements ("Foreign Securities"). The Fund considers an issuer's "primary operations" to be in a foreign market if the issuer (i) is organized under the laws of that country, or (ii) derives at least 50% of its revenues or profits from goods produced or sold, investments made, services performed, or has at least 50% of its assets located within that country.

The Fund may invest and trade in the following equity securities such as common, convertible and preferred stock (including convertible bonds (with the exception of contingent convertible bonds (CoCo's)), convertible stock and convertible debentures that may be converted into or exchanged for a prescribed amount of common stock or other

SECTION I: The Fund

equity securities of the same or a different issuer within a particular period of time at a specified price or formula), depositary receipts, stapled securities (being securities comprised of two parts, a unit of a trust and a share of a company, that cannot be separated from one another), GRSI companies organized as limited partnerships, and limited partnership interests in the general partners of master limited partnerships (“MLPs”) (being publicly traded companies organized as limited partnerships or limited liability companies and treated as partnerships for federal income tax purposes), exchange-traded bonds, Collective Investment Schemes. The Fund may also invest in the following fixed income securities – fixed and/or floating, rated and/or unrated bonds, debentures, short-term discounted treasury bills or certain securities of the US government sponsored instrumentalities (including the Government National Mortgage Association, Federal National Mortgage Association and Student Loan Marketing Association), or money market mutual funds that invest in those securities, and obligations of government-sponsored instrumentalities, and below investment grade (“junk”) fixed income securities (including fixed income securities rated “CCC” or lower by S&P or “Caa” or lower by Moody’s, or non-rated securities of comparable quality as determined by the Investment Manager), and the following derivatives for hedging and efficient portfolio management purposes: futures and options on securities, indices and currencies, forward foreign currency exchange contracts and total return swaps (please see the “Derivatives” section below for further detail).

The Fund may, subject to the requirements of the UCITS Regulations, invest in private investments in public equity (PIPE). PIPE investments involve the purchase of shares in publicly traded entities, at a time when the shares in question are not listed, at a price below the current market value per share. Accordingly, the Fund will invest in PIPE investments by way of a private placement, after which the issuer will file a resale registration statement with the U.S. Securities and Exchange Commission in order to formally list the shares. These investments arise where an issuer is seeking to raise a large amount of capital quickly for a publicly traded entity.

The Fund may also hold cash or money market instruments (including negotiable or non-negotiable securities issued by or short-term deposits with the US and non-US governments and agencies or instrumentalities thereof, bankers’ acceptances, high-quality commercial paper and bank certificates of deposit) or certificates of deposit. Under normal market conditions, it is not expected that the Fund will be invested substantially in cash or other short-term investments. However, where the Investment Manager considers it prudent to do so, the Fund may hold more cash or other short term investments than other assets.

Environmental and Social Characteristics promoted by the Fund

The Fund seeks to promote environmental and social characteristics and invest in companies that apply good corporate governance. On that basis, the Manager has categorised the Fund as meeting the provisions set out in Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “SFDR”). Information about the environmental and/or social characteristics promoted by the Fund is available at Appendix I to this Supplement.

Integration of Sustainability Risks into the Investment Process

Although the Fund is an investment vehicle which seeks to promote ESG characteristics in companies deemed to be in the “Real Asset” investment classification which results in a constrained investment universe, the Fund seeks to maximize financial performance,

SECTION I: The Fund

whereby ESG considerations are important input factors within the investment process that the Investment Manager considers appropriate to pursue the Fund's investment objective. As part of its investment process, the Fund includes all relevant financial risks in its investment decision and evaluates these on an ongoing basis. In doing so, relevant sustainability factors and sustainability risks are assessed and taken into account, including ESG events or conditions that could have a material impact on the investment in question, its return and in turn, the Net Asset Value of the Fund. Sustainability factors are defined in SFDR as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The Investment Manager's analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards' independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying companies via dialogue and voting rights. In exercising the Fund's voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

Principal Adverse Impacts

The Company, the Manager and, in turn, the Investment Manager, do not currently consider the principal adverse impacts of investment decisions on sustainability factors, within the meaning of SFDR, because whilst ESG risks are incorporated into the Investment Manager's investment decision making processes, the Fund's objective, and, in turn, the Investment Manager's objective in respect of the Fund, is to achieve total return through growth of capital and current income. Further, the relevant information required to appropriately assess the principal adverse impacts of the Investment Manager's investment decisions on sustainability factors is not yet available.

The Company, the Manager and the Investment Manager will keep this decision to not consider the principal adverse impacts of investment decisions on sustainability factors within the meaning of SFDR under review and will formally re-evaluate this decision on a periodic basis.

Investment Philosophy

The Investment Manager believes that, due to their nature, GRSI assets are critical to support sustainable economic development and are characterized by strong competitive positions with high barriers to entry, stable cash flows, inflation-correlated revenues or large asset bases. The Investment Manager also believes that the broad environment for investment in global renewables and sustainable infrastructure securities is favorable, and generally expects favorable trends in this sector to continue. These trends include growing interest in global renewables and sustainable infrastructure investments by institutional investors, increasing interest in and allocation to alternative investments and increasing demand for equities that produce income or have an asset-owning quality and for investments that can potentially deliver reasonable returns that have a low correlation to the broader equity markets. In addition, the combination of investors pursuing global GRSI portfolios and the establishment of new renewables and sustainable infrastructure markets marks a significant structural change to the global GRSI securities industry, and the Investment Manager expects to present attractive opportunities going forward.

SECTION I: The Fund

The Investment Manager utilizes a fundamental, bottom-up, value-based selection methodology, taking into account short-term considerations, such as temporary market mispricing (as identified by qualitative and quantitative research undertaken by the Investment Manager, including the review of company and industry research reports and economic data concerning the industries in which the Fund invests) and long-term considerations, such as values of assets and cash flows. It takes a balanced approach to investing, seeking to mitigate risk through diversification, credit analysis, economic analysis and review of sector and industry trends (including a review of adverse economic, political, or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment). The Investment Manager uses proprietary research, to select individual securities that it believes can add value from distribution income and/or the potential for capital appreciation, including an assessment of a company's general financial condition, its competitive positioning and management strength (which is measured by the Investment Manager's analysis of a company's previous operating performance and capital allocation decisions), as well as industry characteristics (including high barriers to entry and the level of renewables adoption undertaken by a company). It may sell a security held by the Fund that becomes overvalued or no longer offers an attractive risk/reward profile.

Investment and Borrowing Restrictions

The Investment Manager will apply the following portfolio restrictions at the time of investment, based on available market values, in US Dollar terms:

- The Fund will invest at least 80% of the Fund's net assets in publicly traded equity securities of GRSI companies listed or traded on a Recognised Market, including publicly traded Foreign Securities of GRSI companies.
- The Fund may also invest up to 25% of its net assets in GRSI companies organized as MLPs.
- The Fund may invest up to 20% of its net assets in fixed income securities, including fixed income securities issued by the US Government, floating rate bonds and money-market instruments, as well as below-investment grade rated securities ("junk bonds"). Of such investments, up to 10% of the Fund's net assets may be invested in below investment grade ("junk") fixed income securities, of which 5% may be invested in fixed income securities rated "CCC" or lower by Standard & Poor's Rating Services ("S&P") or "Caa" or lower by Moody's Investors Service, Inc. ("Moody's") or non-rated securities of comparable quality as determined by the Investment Manager. The Fund, however, may not invest in securities in default.
- The Fund may invest up to 10% of its net assets in PIPE investments. These PIPE investments will form part of the Fund's permitted investment in unlisted securities, as prescribed by the UCITS Regulations, until such time as the shares that have been acquired have been formally listed on a Recognised Market.
- The Fund may invest up to 25% of its net assets in publicly traded securities of global renewables and sustainable infrastructure companies, whose primary operations or principal trading market is in an Emerging Market.

In addition, the Fund will not invest more than 10% of its net assets in other Collective Investment Schemes, such investment being consistent with the Fund's investment policy.

SECTION I: The Fund

Profile of a Typical Investor

A typical investor in the Fund may be an investor with a medium to long term investment horizon who considers investment in the Fund as a convenient way of seeking to achieve total return through growth of capital primarily through an exposure to securities of GRSI companies. Derivative instruments may be utilized for hedging and efficient portfolio management purposes.

Derivatives

The Fund may, but is not required to, use forwards (such as forward foreign currency exchange contracts), options, futures and total return swaps ("TRS") for the purposes of hedging and efficient portfolio management. The Fund may also, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements subject to the conditions and limits set out in the Central Bank Regulations. A derivative is a security or instrument whose value is determined by reference to the value or the change in value of one or more securities, currencies, indices or other financial instruments. The underlying securities to which the Fund will have exposure as a result of investing in derivatives will be consistent with the investment policy of the Fund. Derivatives used for efficient portfolio management purposes will have the aim of reducing risk, reducing costs or generating additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. Any such investment technique or financial derivative instrument must be one which (alone or in combination with one or more other instrument techniques or financial derivative instruments) is reasonably believed by the Investment Manager to be economically appropriate to the management of the Fund.

The Fund may enter into TRS. TRS involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Fund will be consistent with the investment policies of the Fund. Where the Fund enters into a TRS on a net basis, the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. TRS may be employed by the Fund to adjust or obtain sector and security exposures, often with lower transaction costs than obtaining the same exposure via purchasing individual securities. The counterparties to the TRS will be selected from a list approved by the Investment Manager in consideration of the risk profile and investment policy of the Fund. The use of TRS will not grant discretion to the counterparties over the composition or management of the Fund's investment portfolio, nor shall the approval of the TRS counterparty be required in relation to any investment portfolio transaction entered into by the Fund.

Financial futures and forward foreign exchange contracts may be used to hedge the currency exposure of the Fund and for the purpose of efficient portfolio management only. It is intended that the use of such forward foreign exchange contracts will reduce the exchange rate risk of the Fund. In particular, these may be used to: (a) hedge the designated currency of the assets of the Fund to the Base Currency of the Fund; (b) mitigate the exchange rate risk between the Base Currency of the Fund and the currency in which Shares in a class in the Fund are designated where that designated currency is different to the Base Currency of the Fund; or (c) hedge the currency of denomination of the assets of the Fund attributable to a particular class into the designated currency of that class where the currency of denomination is different to the designated currency of the class. As further set out below,

SECTION I: The Fund

hedged and unhedged share classes may be offered to investors.

An option is the right, but not the obligation, to buy (for a call option) or sell (for a put option) a specific amount of a given stock, currency, index, or debt, at a specified price (the strike price) during a specified period of time. Each option has a buyer, called the holder, and a seller, known as the writer. If the option contract is exercised, the writer is responsible for fulfilling the terms of the contract by delivering the shares to the appropriate party. In the case of a security that cannot be delivered such as an index, the contract is settled in cash. For the holder, the potential loss is limited to the price paid to acquire the option. When an option is not exercised, it expires. No shares change hands and the money spent to purchase the option is lost. For the buyer, the upside is unlimited. For the writer, the potential loss is unlimited unless the contract is covered, meaning that the writer already owns the security underlying the option. Options may be employed by the Fund to gain investment exposure and to hedge existing long positions.

A convertible stock is a hybrid security comprising both debt and equity features. Like a straight security (non-convertible security), the holders of a convertible stock receives coupon payments until maturity at which point the issuer redeems the convertible stock at par. However, the holders of a convertible stock also have the option to convert the convertible stock into shares of common stock of the issuer, at a predetermined price. The Investment Manager will look for certain characteristics when considering convertible securities. These characteristics include the potential for capital appreciation if the value of the underlying common stock increases, the relatively high yield received from dividend or interest payments as compared to common stock dividends and decreased risks of decline in value, relative to the underlying common stock due to their fixed income nature. As a result of the conversion feature, however, the interest rate or dividend preference on a convertible security is generally less than would be the case if the securities were not convertible. During periods of rising interest rates, it is possible that the potential for capital gain on a convertible security may be less than that of a common stock equivalent if the yield on the convertible security is at a level that causes it to sell at a discount.

Securities Financing Transactions

The assets underlying any securities financing transactions (“SFTs”) or TRS will be the equity and fixed income securities in which the Fund may invest. As set out in the Prospectus, the Fund may, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements subject to the conditions and limits set out in the Central Bank Regulations. It is expected that the proportion of the Sub-Fund’s assets under management that will be subject to each type of SFT will be between 0 to 10% of the Fund’s Net Asset Value for all SFT’s but will not in any event exceed 100% of the Fund’s Net Asset Value. The assets underlying the SFTs will be securities traded on a Recognised Market.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives. The Fund is suitable for investors who are prepared to accept a higher level of such volatility.

SECTION I: The Fund

Leverage

The Fund's exposure to financial derivative instruments will be calculated using the 'commitment approach' as permitted under the Central Bank Regulations. As a general rule, a UCITS cannot have global exposure greater than its net asset value. In the context of the Fund using the commitment approach to calculate its global exposure, the Fund may not, therefore, be leveraged in excess of 100% of net asset value. The Fund's use of currency hedging will not be included in this calculation.

The exchange traded bonds in which the Fund may invest may include embedded derivatives which may indirectly cause the Fund to be leveraged.

German Tax Reporting

The Fund will qualify as an "equity fund" ("Aktienfonds") for the purposes of the German Investment Tax Act 2018 in that at least 51% of the Fund's Net Asset Value will at all times be directly invested in equity securities which are admitted to official trading on a stock exchange or listed on an organised market. For the avoidance of doubt, the term "equity securities" in this particular context does not include units or shares of investment funds or real estate investment trusts.

SECTION I: The Fund

Fees, Costs and Expenses

Further information on all fees and expenses payable out of the assets of the Fund are as set out in the section headed "FEES, COSTS AND EXPENSES" in the Prospectus.

Management Fee

The management fee payable in respect of the Fund is set out in the Prospectus.

Depositary Fee

Pursuant to the provisions of the Depositary Agreement, the Depositary is entitled to a fee in respect of its duties as depositary of the Fund.

The Depositary shall be entitled to receive an annual depositary fee out of the assets of the Fund and will levy sub-custody charges applicable to the markets in which the Fund invests up to a maximum of 0.90% of the Net Asset Value of the Fund. The fees payable to the Depositary are subject to a minimum annual charge of up to \$86,500 per annum (the "Depositary Fee"). In addition, the Depositary will charge for the settlement of investment transactions at normal commercial rates, as agreed with the Investment Manager from time to time. The Depositary Fee shall accrue as at each Valuation Point and shall be payable monthly in arrears (and pro rata for lesser periods). The fees are exclusive of VAT (if any).

The Depositary shall also be entitled to be reimbursed by the Fund for all properly vouched out-of-pocket expenses incurred by it for the benefit of the Fund in the performance of its duties under the Depositary Agreement.

Administration Fees

Pursuant to the provisions of the Administration Agreement, the Fund will pay the Administrator a fee in respect of its duties as administrator of the Fund.

The Administrator shall be entitled to receive administration and fund accounting fees out of the assets of the Fund of up to 0.009% per annum of the Net Asset Value of the Fund, subject to a minimum annual administration fee of up to \$120,000 (the "Administration Fee"). The Administration Fee shall accrue as at each Valuation Point and shall be payable monthly in arrears (and pro rata for lesser periods).

The Administrator shall also be entitled to be reimbursed by the Fund for all properly vouched out-of-pocket expenses incurred by it for the benefit of the Fund in the performance of its duties under the Administration Agreement.

Investment Management Fee

Under the provisions of the Investment Management Agreement, the Fund will pay the Investment Manager a fee of up to 1 per cent per annum of the Net Asset Value in respect of each class of 'Institutional' Shares and a fee of up to 1.8 per cent per annum of the Net Asset Value in respect of each of the RDR Share Classes and a fee of up to 2 per cent per annum of the Net Asset Value in respect of each of the Non-RDR Share Classes, as of the relevant Valuation Date. The investment management fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods). The Company will pay all out-of-pocket expenses incurred by the Investment Manager (including VAT thereon). Such out-of-pocket

SECTION I: The Fund

expenses may include transaction charges provided that they are charged at normal commercial rates and incurred by the Investment Manager in the performance of its duties under the Investment Management Agreement.

Establishment Expenses

The fees and expenses incurred in connection with the establishment of the Fund, the preparation and publication of this Supplement and all legal costs and out-of-pocket expenses related thereto did not exceed €25,000 (plus VAT, if any). Such expenses will be amortised on a straight-line basis over the first 60 months of operations or such shorter period as the Directors may determine. The expenses incurred in connection with the establishment of the Company are as set out in the section headed “*Fees, Costs and Expenses*” in the Prospectus.

Dividend Policy

Accumulation Shares

The Directors do not anticipate paying a dividend in respect of the Shares of the Accumulation Share Classes. All income and profits earned by the Fund attributable to the Accumulation Share Classes will accrue to the benefit of those classes of Shares and will be reflected in the Net Asset Value attributable to the relevant classes of Shares.

Distribution Shares

The Directors may, in their discretion, declare dividends on the Distribution Share Classes. Dividends are expected to be paid on a quarterly basis at the discretion of the Investment Manager and/or the Directors. The Distribution Share Classes will go “ex-dividend” on the day on which the dividend is declared (the “Ex-dividend Date”) which is expected to be on or around 31 March, 30 June, 30 September and 31 December each year.

A dividend shall be payable to Shareholders in Distribution Share Classes out of profits of the Fund available for distribution relating to that Distribution Share Class. Profits, for these purposes, may be comprised of net income (less expenditure) and realised and unrealised gains (less realised and unrealised losses) attributable to such share classes. Income for these purposes shall include, without limitation, interest income and dividend income and any other amounts treated as income in accordance with the accounting policies of the Company laid down from time to time.

To afford maximum flexibility to the Company, dividends may also, at the discretion of the Directors, be paid out of the capital of the Fund in order to, for example, preserve an income stream for the Shareholders. The maximum rate or amount of any such capital dividend shall be determined by the Directors. **Shareholders should note that in this scenario, the distribution is achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital. Distributions made during the life of the Fund must be understood as a type of capital reimbursement.**

The Directors may elect to charge expenses out of the capital of the Fund, should they wish to generate distributable profits. Investors should note that by charging the management fees and expenses of the Fund to capital, the effect of this is that capital may be eroded and

SECTION I: The Fund

income will be achieved by foregoing the potential for future capital growth.

The distribution will be paid to Shareholders in the Distribution Share Classes on the register at the close of business on the Business Day immediately preceding the Ex-dividend Date within four calendar months of such Ex-dividend Date. In the event that any of the above dates is not a Business Day, the relevant date will be the next immediately following Business Day.

Unless a Shareholder in the Distribution Share Classes elects otherwise, any distributions will be applied in the purchase of further Shares of the relevant Distribution Share Classes (or fractions thereof) as applicable. Shareholders may write to the Administrator to elect to receive distributions in cash. Any such cash payments to Shareholders in the Distribution Share Classes will be payable by telegraphic transfer to the account specified by Shareholders on the application form. Accordingly, since it is the intention to re-invest distributions by way of acquisition of further Shares, it is unlikely that any management fees or expenses charged to capital will have the effect of eroding a Shareholder's investment.

Risk Factors

Investors' attention is drawn to the risk factors set out in the Prospectus and to the following additional risk factors.

Investment Volatility and Market Risk.

The Investment Manager generally expects to invest the Fund's assets primarily in GRSI securities. Consequently, the value of Shares in the Fund will be subject to the general volatility and swings of the securities markets, interest rates and economic cycles. In addition, the profitability of a significant portion of the Fund's investment program depends to a great extent upon the Investment Manager correctly assessing the future course of price movements. The Investment Manager's failure either to formulate its investment thesis correctly or to implement its strategy effectively could result in substantial and even total losses to the Fund. Market volatility or other factors may not be as expected, thereby affecting the success of the investment strategy of the Fund.

Highly Competitive Market for Investment Opportunities.

The business of identifying and structuring investments of the types contemplated by the Fund is competitive and involves a high degree of uncertainty. The Fund may be competing for investments with operating companies, financial institutions and other institutional investors as well as private equity, hedge and other investment funds. Further, an ever-increasing number of investment funds that invest in GRSI companies have been formed, and additional funds with similar investment objectives may be formed in the future. These other investors may make competing offers for investment opportunities identified by the Investment Manager. In addition to competition from other investors, the availability of investment opportunities generally will be subject to market conditions as well as, in many cases, the prevailing regulatory or political climate.

GRSI Companies – General.

GRSI companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. While many of the risks below could be present with respect to other investments, these risks may be particularly important to investments in GRSI companies. GRSI companies may be particularly affected by or subject to:

Regulatory Risk. GRSI companies may be subject to substantial governmental regulation and may also be affected by governmental regulation of rates charged to services, the imposition of special tariffs and changes in tax laws, environmental laws and regulations, regulatory policies, accounting standards and general changes in market sentiment towards GRSI assets. Given the public interest aspect of the services that GRSI assets provide, political oversight of the sector is likely to remain pervasive and unpredictable and, for political reasons, governments may attempt to take actions, which may negatively affect the operations, revenue, profitability or contractual relationships of portfolio investments, including through expropriation. GRSI companies' inability to predict, influence or respond appropriately to changes in law or regulatory schemes could adversely impact their results of operations.

SECTION I: The Fund

Technology Risk. A change could occur in the way a service or product is delivered, rendering existing technology obsolete. While the risk could be considered low, if such a change were to occur, these assets may have very few alternative uses should they become obsolete. Furthermore, GRSI companies may be subject to changing technology that may result in an impact to the underlying investment case. As technology innovation continues to improve the overall economic costs of electricity and water consumption, projects may have economic changes that may result in materially better or worse economics depending on the technology chosen for the underlying project.

Regional or Geographic Risk. This risk arises where a GRSI company's assets are not movable. Should an event that somehow impairs the performance of a GRSI company's assets occur in the geographic location where the issuer operates those assets, the performance of the issuer may be adversely affected.

Force Majeure Risk. The use of GRSI assets may be interrupted or otherwise affected by a variety of events outside the Fund's control, including serious traffic accidents, natural disasters (such as earthquakes, flood, lightning, hurricanes and wind), man-made disasters, defective design and construction and other unforeseen circumstances. Extreme weather patterns, or the threat thereof, could result in substantial damage to the facilities of certain companies located in the affected areas, and significant volatility in the products or services of renewables and sustainable infrastructure companies could adversely impact the prices of the securities of such issuer.

Through-put Risk. The revenue of many GRSI companies may be impacted by the number of users who use the products or services produced by such company. A significant decrease in the number of users may negatively impact the profitability of a GRSI company.

Project Risk. To the extent the Fund invests in GRSI companies which are dependent to a significant extent on new or development-stage GRSI projects, the Fund may be exposed to the risk that the project will not be completed within budget, within the agreed time frame or to agreed specifications.

Strategic Asset Risk. GRSI companies may control significant strategic assets. Strategic assets are assets that have a national or regional profile, and may have monopolistic characteristics. The very nature of these assets could generate additional risk not common in other industry sectors. Given the national or regional profile and/or their irreplaceable nature, strategic assets may constitute a higher risk target for terrorist acts or political actions. Given the essential nature of the products or services provided by GRSI companies, there is also a higher probability that the services provided by such issuers will be in constant demand. Should a GRSI company fail to make such services available, users of such services may incur significant damage and may, due to the characteristics of the strategic assets, be unable to replace the supply or mitigate any such damage, thereby heightening any potential loss.

Operation Risk. The long-term profitability of a GRSI company may be partly dependent on the efficient operation and maintenance of its GRSI assets. Should a GRSI company fail to efficiently maintain and operate the assets, the GRSI company's ability to maintain payments of dividends or interest to investors may be impaired. The destruction or loss of a GRSI asset may have a major impact on the GRSI company. Failure by the GRSI company to carry adequate insurance or to operate the asset appropriately could lead to significant losses and damages. In addition, the operations of the issuers of the Fund's investments may rely on government permits, licenses, concessions, leases or contracts. Government entities generally have significant influence over such companies in respect of the various contractual and regulatory relationships they may have, and these government entities may exercise their authority in a manner that causes delays in the operation of the business of the issuers of the Fund's investments, obstacles to pursuit of such issuers' strategy or increased administrative

SECTION I: The Fund

expenses, all of which could materially and adversely affect the business and operations of the Fund.

Customer Risk. GRSI companies can have a narrow customer base. Should these customers or counterparties fail to pay their contractual obligations, significant revenues could cease and not be replaceable. This would affect the profitability of the GRSI company and the value of any securities or other instruments it has issued.

Interest Rate Risk. GRSI assets can be highly leveraged. As such, movements in the level of interest rates may affect the returns from these assets more significantly than other assets in some instances. The structure and nature of the debt encumbering a GRSI asset may therefore be an important element to consider in assessing the interest risk of the GRSI asset. In particular, the type of facilities, maturity profile, rates being paid, fixed versus variable components and covenants in place (including the manner in which they affect returns to equity holders) are crucial factors in assessing any interest rate risk. Furthermore, many GRSI businesses rely on concessions to mitigate the inflation risk to cash flows through escalation provisions linked to the inflation rate (e.g., the toll set on a toll road). While these provisions may protect against certain risks, they do not protect against the risk of a rise in real interest rates, which is likely to create higher financing costs for GRSI businesses and a reduction in the amount of cash available for distribution to investors. Due to the nature of GRSI assets, the impact of interest rate fluctuations may be greater for GRSI companies than for the economy as a whole in the country in which the interest rate fluctuation occurs.

Inflation Risk. Many companies operating in the GRSI sector may have fixed income streams and, therefore, be unable to pay higher dividends. The market value of GRSI companies may decline in value in times of higher inflation rates. The prices that a GRSI company is able to charge users of its assets may not be linked to inflation. Wage and price controls have been imposed at times in certain countries in an attempt to control inflation, which could significantly affect the operation of portfolio investments.

Developing Industries Risk. Some GRSI companies are focused on developing new technologies and are strongly influenced by technological changes. Product development efforts by such companies may not result in viable commercial products. These companies may bear high research and development costs, which can limit their ability to maintain operations during periods of organizational growth or instability. Some GRSI companies in which the Fund may invest may be in the early stages of operations and may have limited operating histories and smaller market capitalizations on average than companies in other sectors. As a result of these and other factors, the value of investments in such issuers may be considerably more volatile than that in more established segments of the economy.

Other factors that may affect the operations of GRSI companies include difficulty in raising capital in adequate amounts on reasonable terms in periods of high inflation and unsettled capital markets, inexperience with and potential losses resulting from a developing deregulatory environment, increased susceptibility to terrorist acts or political actions and general changes in market sentiment towards GRSI assets. In addition, the current presidential administration could significantly impact the regulation of United States financial markets and dramatically alter existing trade, tax, energy and infrastructure regulations, among others.

Environmental Risk.

GRSI companies can have substantial environmental impacts. Ordinary operations or operational accidents may cause major environmental damage, which could cause GRSI companies significant financial distress, substantial liabilities for environmental cleanup and restoration costs, claims made by neighbouring landowners and other third parties for personal injury and property damage, and fines or penalties for related violations of

SECTION I: The Fund

environmental laws or regulations. GRSI companies may not be able to recover these costs from insurance.

Failure to comply with environmental laws and regulations may trigger a variety of administrative, civil and criminal enforcement measures, including the assessment of monetary penalties, the imposition of remedial requirements and the issuance of orders enjoining future operations. Voluntary initiatives and mandatory controls have been adopted or are being discussed both in the United States and worldwide to reduce emissions of “greenhouse gases” such as carbon dioxide, a by-product of burning fossil fuels, and methane, the major constituent of natural gas, which many scientists and policymakers believe contribute to global climate change. These measures and future measures could result in increased costs to certain companies in which the Fund may invest.

Generally, the Fund will conduct environmental due diligence before making an investment to assess the status of environmental regulatory compliance. There can be no assurance, however, that such due diligence will reveal all environmental liabilities relating to an investment.

Commodity Risk.

Some of the investments of the Fund will be subject to commodity price risk, including, without limitation, the price of electricity and the price of fuel. The operation and cash flows of certain of the Fund’s investments may depend, in substantial part, upon prevailing market prices for electricity and fuel, and natural gas. These market prices may fluctuate materially depending upon a wide variety of factors, including, without limitation, weather conditions, foreign and domestic market supply and demand, force majeure events, changes in law, governmental regulations, price and availability of alternative fuels and energy sources, international political conditions, including those in the Middle East, actions of the Organization of Petroleum Exporting Countries (and other oil and natural gas producing nations) and overall economic conditions.

Defensive Investments.

When adverse market or economic conditions occur, the Fund may temporarily invest all or a portion of its assets in defensive investments that are short-term and liquid. Such investments include US government securities, certificates of deposit, banker’s acceptances, time deposits, repurchase agreements, and other high quality debt instruments. When following a defensive strategy, the Fund will be less likely to achieve its investment objective.

Foreign Currency Risk.

The Fund’s Net Asset Value could decline as a result of changes in the exchange rates between foreign currencies in which a security is denominated and the US Dollar. Certain foreign countries may impose restrictions on the ability of issuers of foreign securities to make payment of principal and interest to investors located outside the country, due to blockage of foreign currency exchanges or otherwise.

Investment in Non-US Securities.

The Fund expects to invest in non-US securities, including in the form of American Depositary Receipts (ADRs), Global Depositary Receipts (GDRs) and European Depositary Receipts (EDRs). Generally, ADRs in registered form are US Dollar denominated securities designed for use in the US securities markets, which represent and may be converted into an underlying foreign security. GDRs, in bearer form, are designated for use outside the United States. EDRs, in bearer form, are designed for use in the European securities markets.

SECTION I: The Fund

Such investments may be subject to a greater risk than US investments due to non-US economic, political and legal developments, including economic, political or social instability, favorable or unfavorable changes in currency exchange rates, exchange control regulations (including currency blockage), expropriation of assets or nationalization, imposition of taxes on dividends, interest payments or capital gains, the need for approval by government or other authorities to make investments, possible difficulty in obtaining and enforcing judgments against non-US entities and other factors beyond the control of the Investment Manager. Furthermore, issuers of non-US securities are subject to different, often less comprehensive accounting, reporting or disclosure requirements than US issuers. The securities markets of some countries in which the Fund may invest have substantially less volume than those in the United States, and securities of certain companies in these countries are less liquid and more volatile than securities of comparable US companies. Accordingly, these markets may be subject to greater influence by adverse events generally affecting the market, and by large investors trading significant blocks of securities, than is usual in the United States. Brokerage commissions and other transaction costs on securities exchanges in non-US countries are generally higher than in the United States.

Geopolitical Risk.

Occurrence of global events such as war, terrorist attacks, natural disasters, country instability, infectious disease epidemics, market instability, debt crises and downgrades, embargoes, tariffs, sanctions and other trade barriers and other governmental trade or market control programs, the potential exit of a country from its respective union and related geopolitical events may result in market volatility and may have long-lasting impacts on both the US and global financial markets. The decision of the United Kingdom ("UK") to exit from the European Union following the June 2016 vote on the matter (referred to as "Brexit") has caused uncertainty in financial markets and may adversely impact financial results of the Fund. Growing tensions between the United States and other foreign powers, or among foreign powers, and possible diplomatic, trade or other sanctions could adversely impact the markets and the Fund.

Emerging Markets.

The Fund may invest in publicly traded securities of GRSI companies whose primary operations or principal trading market is in an Emerging Market. These securities may be US Dollar denominated or non-US Dollar denominated, including Emerging Market country currency denominated. Securities of companies in Emerging Markets may be more volatile than those of companies in more developed markets. Emerging Market countries generally have less developed markets and economies and, in some countries, less mature governments and governmental institutions. Emerging market risks include: greater fluctuations in currency exchange rates; increased risk of default (by both government and private issuers); greater social, economic and political uncertainty and instability (including the risk of war or natural disaster); increased risk of nationalization, expropriation or other confiscation; greater governmental involvement in the economy; less governmental supervision and regulation of the securities markets and participants in those markets; controls on non-US investment, capital controls and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for US Dollars; inability to purchase and sell investments or otherwise settle security or derivative transactions (i.e., a market freeze); unavailability of currency hedging techniques; companies that are smaller and more recently organized; differences in, or lack of, auditing and financial reporting standards and resulting unavailability of material information about issuers; slower

SECTION I: The Fund

clearance; difficulties in obtaining and/or enforcing legal judgments; and significantly smaller market capitalizations of issuers.

The Fund may invest in Emerging Markets where custodial and/or settlement systems are not fully developed. The assets of the Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to market risks. Such risks include (i) a non-true delivery versus payment settlement, (ii) a physical market, and as a consequence the circulation of forged securities, (iii) poor information with regard to corporate actions, (iv) a registration process that affects the availability of the securities, (v) lack of appropriate legal/fiscal infrastructure, and (vi) lack of compensation/risk funds with the relevant central depository. Furthermore, even when a Fund settles trades with counterparties on a delivery-versus-payment basis, it may still be exposed to credit risk to parties with whom it trades.

Currency Hedging

While the Fund is denominated in its own Base Currency, some of the underlying investments of the Fund may be denominated in multiple currencies. Accordingly, any hedging of currency exposure that is implemented by the Fund will primarily involve hedging back to the Fund's Base Currency, but in certain circumstances may involve other hedging activities. There is no assurance that the relevant Fund will attempt to hedge its overall currency exposure, or, if it does engage in such hedging activity, that this activity will be effective. Where the Investment Manager does not hedge against currency risk, performance of the Fund and the value of its assets may be strongly influenced by movements in currency exchange rates because currency positions held by a Fund may not correspond with the securities or positions held by the Fund.

Risks of Derivative Instruments.

Many of the risks applicable to trading the underlying asset are also applicable to derivatives trading. However, there are a number of additional risks associated with derivatives trading. In addition to the below risks, please also see "Derivatives Risk" under the section entitled "Risk Factors" in the Prospectus.

Transactions in certain derivatives are subject to clearance on exchanges, regulatory oversight and the risks of trading in the OTC markets. Additional risks associated with derivatives trading include:

- *Counterparty Risk.* Because some of the derivative transactions in which the Fund may engage (for example, certain swaps) may involve instruments that are not traded on an exchange but are instead traded between counterparties based on contractual relationships, the Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. Although the Fund intends to enter into transactions only with counterparties which the Investment Manager believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Fund will not sustain a loss on a transaction as a result.

Some types of cleared derivatives are required to be executed on an exchange or on a swap execution facility. A swap execution facility is a trading platform where multiple market participants can execute derivatives by accepting bids and offers

SECTION I: The Fund

made by multiple other participants in the platform. While this execution requirement is designed to increase transparency and liquidity in the cleared derivatives market, trading on a swap execution facility can create additional costs and risks for the Fund.

In the event of the counterparty's bankruptcy or insolvency, the Fund's collateral may be subject to the conflicting claims of the counterparty's creditors, and the Fund may be exposed to the risk of a court treating the Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral. The Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer of an instrument in which the Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Fund will not sustain a loss on a transaction as a result.

- *Liquidity Risk.* Derivative instruments, especially when traded in large amounts, may not be liquid in all circumstances, so that in volatile markets the Fund may not be able to close out a position without incurring a loss. In addition, daily limits on price fluctuations and speculative position limits on exchanges on which the Fund may conduct its transactions in derivative instruments may prevent profitable liquidation of positions, subjecting the Fund to the potential of greater losses.
- *Financial Leverage Risk.* Trading in derivative instruments can result in large amounts of financial leverage. Thus, the leverage offered by trading in derivative instruments will magnify the gains and losses experienced by the Fund and could cause the value of the Fund's net assets to be subject to wider fluctuations than would be the case if the Fund did not use the leverage feature of derivative instruments.
- *Over-the-Counter Trading Risk.* Derivative instruments, such as swap agreements, that may be purchased or sold by the Fund may include instruments not traded on an exchange. The risk of non-performance by the counterparty to an instrument is generally greater than, and the ease with which the Fund can dispose of or enter into closing transactions with respect to an instrument is generally less than, the risk associated with an exchange traded instrument. In addition, greater disparities may exist between "bid" and "asked" prices for derivative instruments that are not traded on an exchange. Derivative instruments not traded on exchanges also are not subject to the same type of government regulation as exchange traded instruments, and many of the protections afforded to participants in a regulated environment may not be available in connection with the transactions.

Equity Securities Risk.

Equity securities represent an ownership interest in an issuer, rank junior in a company's capital structure to debt securities and consequently may entail greater risk of loss than debt securities. Equity securities are subject to the risk that stock prices may rise and fall in periodic cycles and may perform poorly relative to other investments. This risk may be greater in the short term.

Fixed Income Risk.

SECTION I: The Fund

The Fund may invest in fixed income securities such as bonds, debentures, short-term discounted treasury bills or certain securities of the US government sponsored instrumentalities, as well as affiliated or unaffiliated money market mutual funds that invest in those securities. Under normal market conditions, the Fund may invest in fixed income securities, not including short-term discounted treasury bills or certain short-term securities of US government sponsored instrumentalities.

The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the credit risk of individual issuers. Increases in interest rates can cause the prices of the Fund's fixed income securities to decline, and the level of current income from a portfolio of fixed income securities may decline in certain interest rate environments. These risks may be greater in the current market environment because interest rates are near historically low levels.

Fixed income securities obligate the issuer to pay to the holder of the security a specified return, which may be either fixed or reset periodically in accordance with the terms of the security. Fixed income securities generally are senior to an issuer's common stock and their holders generally are entitled to receive amounts due before any distributions are made to common shareholders. Common stocks, on the other hand, generally do not obligate an issuer to make periodic distributions to holders.

The market value of fixed income securities, especially those that provide a fixed rate of return, may be expected to rise and fall inversely with interest rates and in general is affected by the credit rating of the issuer, the issuer's performance and perceptions of the issuer in the market place. The market value of callable or redeemable fixed income securities may also be affected by the issuer's call and redemption rights. In addition, it is possible that the issuer of fixed income securities may not be able to meet its interest or principal obligations to holders. Further, holders of non-convertible fixed income securities do not participate in any capital appreciation of the issuer.

The Fund may also invest in obligations of government-sponsored instrumentalities. Unlike non-US government securities, obligations of certain agencies and instrumentalities of the US government, such as the Government National Mortgage Association, are supported by the "full faith and credit" of the US government; others, such as those of the Federal National Mortgage Association, are supported by the discretionary authority of the US government to purchase the agency's obligations; and still others, such as those of the Student Loan Marketing Association, are supported only by the credit of the instrumentality. No assurance can be given that the US government would provide financial support to US government sponsored instrumentalities if it is not obligated to do so by law.

Convertible Securities.

A convertible security is a bond, debenture or stock that may be converted into or exchanged for a prescribed amount of common stock or other equity security of the same or a different issuer within a particular period of time at a specified price or formula. Before conversion, convertible securities have characteristics similar to non-convertible debt securities in that they ordinarily provide a stream of income with generally higher yields than those of common stock of the same or similar issuers. Convertible securities are senior in rank to common stock in an issuer's capital structure and, therefore, generally entail less risk than the issuer's common stock.

SECTION I: The Fund

Convertible securities are generally not investment grade, that is, not rated within the four highest categories by S&P and Moody's. To the extent that such convertible securities, which are acquired by the Fund consistent with the factors considered by the Investment Manager as described in this Supplement, are rated lower than investment grade or are not rated, there would be a greater risk as to the timely repayment of the principal of, and timely payment of interest or dividends on, those securities.

"Junk" Bond Risk.

As described in *Investment Policy* section of the Supplement, the Fund may invest in debt securities that are below investment grade, called "junk bonds," which generally offer a higher yield than is offered by higher rated securities, but are speculative, have a higher risk of default or are already in default, tend to be less liquid and are more difficult to value than higher grade securities. Junk bonds tend to be volatile and more susceptible to adverse events and negative sentiments. Junk bonds are considered by the ratings agencies to be predominately speculative with respect to the issuer's capacity to pay interest and repay principal, and involve major risk exposure to adverse conditions.

Generally, such lower rated securities and unrated securities of comparable quality offer a higher current yield than is offered by higher rated securities, but also (i) will likely have some quality and protective characteristics that, in the judgment of the rating organizations, are outweighed by large uncertainties or major risk exposures to adverse conditions and (ii) are predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligation. The market values of certain of these securities also tend to be more sensitive to individual corporate developments and changes in economic conditions than higher rated bonds. The market for lower rated and unrated securities of comparable quality has at various times, particularly during times of economic recession, experienced substantial reductions in market value and liquidity. Past recessions have adversely affected the ability of certain issuers of such securities to repay principal and pay interest thereon. The market for those securities could react in a similar fashion in the event of any future economic recession.

PIPE Investments

In a PIPE transaction, for a short period of time, between the share purchase under the PIPE transaction and the issuing of a registration statement by the SEC, the shares are much like an unlisted security. Therefore, for this short period of time, the shares are not publicly traded and so there is no guarantee that the probable realisation value on any such shares, if the Fund needed to sell same before the shares are registered by the SEC, will represent the value that could be realised by the Fund on the eventual disposition of the investment once the shares have been registered by the SEC. Once the shares are registered by the SEC, the same liquidity will apply to these shares as with all other listed equity securities. Furthermore, there may be contractual risk with respect to the issuers in PIPE transactions (e.g., where the issuer fails to honour the contractual provisions of a PIPE transaction).

Leverage.

Some transactions entered into by the Fund may give rise to a form of economic leverage. These transactions may include derivatives, and may expose the Fund to greater risk and increase its costs. The use of leverage may cause the Fund to liquidate portfolio positions when it may not be

SECTION I: The Fund

advantageous to do so to satisfy its obligations. Increases and decreases in the value of the Fund's portfolio will be magnified when the Fund uses leverage. While such use of leverage increases returns if the Fund earns a greater return on the incremental investments, the use of leverage decreases returns if the Fund fails to earn as much on such incremental investments as it pays for such funds. The effect of leverage may therefore result in a greater decrease in the net asset value of the Fund than if the Fund were not so leveraged.

Market Risk.

The values of securities held by the Fund may fall due to general market conditions, such as real or perceived adverse economic, political, or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment. Adverse market conditions may be prolonged and may not have the same impact on all types of securities. The values of securities may fall due to factors affecting a particular issuer, industry or the securities market as a whole. The Fund may experience a substantial or complete loss on any individual security.

MLP Risk

The Fund may invest in GRSI companies organized as MLPs and their affiliates. An MLP is a publicly traded company organized as a limited partnership or limited liability company and treated as a partnership for federal income tax purposes. MLPs may derive income and gains from the exploration, development, mining or production, processing, refining, transportation (including pipelines transporting gas, oil, or products thereof), or the marketing of any mineral or natural resources.

To the extent that the Fund invests in the equity securities of an MLP, the Fund will be a partner in such MLP. Accordingly, the Fund will be required to include in its taxable income the Fund's allocable share of the income, gains, losses, deductions and expenses recognised by each such MLP, regardless of whether the MLP distributes cash to the Fund. The Fund will incur a current tax liability on its allocable share of an MLP's income and gains that is not offset by the MLP's tax deductions, losses and credits, or its net operating loss carryforwards, if any. The portion, if any, of a distribution received by the Fund from an MLP that is offset by the MLP's tax deductions, losses or credits is essentially treated as a return of capital. The percentage of an MLP's income and gains that is offset by tax deductions, losses and credits will fluctuate over time for various reasons. A significant slowdown in acquisition activity or capital spending by MLPs held in the Fund's portfolio could result in a reduction of accelerated depreciation generated by new acquisitions, which may result in increased current tax liability for the Fund.

Portfolio Selection Risk.

The Investment Manager's judgment about the quality, relative yield, relative value or market trends affecting a particular sector or region, market segment, security or about interest rates generally may prove to be incorrect.

Preferred Stock Risk.

There are various risks associated with investing in preferred stock, including credit risk, interest rate risk, deferral and omission of distributions, subordination to bonds and other debt securities in a company's capital structure, limited liquidity, limited voting rights and special redemption rights.

Withdrawal Risk.

The Fund may need to sell its holdings in order to meet redemption requests. The Fund could experience a loss when selling securities to meet redemption requests if the redemption requests are unusually large or frequent, occur in times of overall market turmoil or declining prices for the securities sold, or when the securities the Fund wishes to or is required to sell are illiquid.

SECTION I: The Fund

Small- and Mid-Capitalization Risk.

The risk that returns from small- and mid-capitalization stocks may trail returns from the overall stock market. Historically, these stocks have been more volatile in price than the large-capitalization stocks.

Stapled Securities Risk.

A stapled security is a security that is comprised of two parts that cannot be separated from one another. The two parts of a stapled security are a unit of a trust and a share of a company. The resulting security is influenced by both parts, and must be treated as one unit at all times, such as when buying or selling a security.

Cash and Other Investments.

The Fund may invest all or a portion of its assets in cash or cash items for investment purposes, pending other investments or as provision of margin for futures or forward contracts. These cash items must be of high quality at the time of investment and may include a number of money market instruments, such as negotiable or non-negotiable securities issued by or short-term deposits with the US and non-US governments and agencies or instrumentalities thereof, bankers' acceptances, high-quality commercial paper and bank certificates of deposit. The Fund may also hold interests in Collective Investment Schemes that hold cash or cash items. While investments in cash items generally involve relatively low risk levels, they may produce lower than expected returns, and could result in losses. Investments in cash items and money market funds may also provide less liquidity than anticipated by the Investment Manager at the time of investment.

Sustainability Risk

Sustainability risks within the meaning of SFDR are ESG events or conditions whose occurrence could have an actual or potential principal adverse impact on the value of the Fund's investment. ESG strategies may take risks or eliminate exposures found in other strategies or broad market benchmarks that may cause performance to diverge from the performance of these other strategies or market benchmarks. These effects may have an impact on the Fund's return, on the assets, financial and earnings position of the Fund and on the reputation of the Company. Sustainability risks can affect all known types of risk (for example, market risk, liquidity risk, counterparty risk and operational risk), and as a factor, contribute to the materiality of these risk types. ESG strategies will be subject to the risks associated with their underlying investments' asset classes. Further, the demand within certain markets or sectors that an ESG strategy targets may not develop as forecasted or may develop more slowly than anticipated.

SECTION II: Euro ‘Institutional’ Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

“Closing Date”	means on or about 5 p.m. (Irish time) on 19 November 2020;
“Initial Offer”	means the initial offer of Euro ‘Institutional’ Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 20 April 2020 and closed on the Closing Date;
“Minimum Holding”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro ‘Institutional’ Unhedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Accumulation Shares is not equivalent to an exact number of Euro ‘Institutional’ Unhedged Accumulation Shares, fractions of Euro ‘Institutional’ Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION III: Euro 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Distribution Shares in the Fund which will commence at 9 a.m. (Irish time) on 20 April 2020 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Distribution Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Distribution Shares, fractions of Euro 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Accumulation Shares in the Fund which will commence on 20 April 2020 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Hedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Hedged Accumulation Shares, fractions of Euro 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Accumulation Share Class

It is intended that the Euro Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class. Any overhedged positions materially in excess of 100% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class will not be carried forward from month to month. This review will also incorporate a procedure to ensure that underhedged positions below 95% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

SECTION V: Euro 'Institutional' Hedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Distribution Shares in the Fund which will commence at 9 a.m. (Irish time) on 20 April 2020 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of US Dollar RDR 'Retail' Accumulation Shares in the Fund which will commence on 9 a.m. (Irish time) on 20 April 2020 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar RDR 'Retail' Accumulation Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar RDR 'Retail' Accumulation Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar RDR 'Retail' Accumulation Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar RDR 'Retail' Accumulation Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar RDR 'Retail' Accumulation Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that (in accordance with the requirements of the Financial Conduct Authority's Retail Distribution Review) such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar

SECTION XVI: US Dollar RDR 'Retail' Accumulation Shares

fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for US Dollar RDR 'Retail' Accumulation Shares is not equivalent to an exact number of US Dollar RDR 'Retail' Accumulation Shares, fractions of US Dollar RDR 'Retail' Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro Non-RDR 'Retail' Hedged Accumulation Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up

to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Non-RDR 'Retail' Hedged Accumulation Shares is not equivalent to an exact number of Euro Non-RDR 'Retail' Hedged Accumulation Shares, fractions of Euro Non-RDR 'Retail' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Non-RDR Retail Hedged Accumulation Share Class

It is intended that the Euro Non-RDR Retail Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro Non-RDR Retail Hedged Accumulation Share class. Any overhedged positions materially in excess of 100% of the Net Asset Value of the Euro Non-RDR Retail Hedged Accumulation Share class will not be carried forward from month to month. This review will also incorporate a procedure to ensure that underhedged positions below 95% of the Net Asset Value of the Euro Non-RDR Retail Hedged Accumulation Share class will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Non-RDR Retail Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Non-RDR Retail Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

Legal entity identifier: 549300GQCDUXV8KYAY15

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** ___%

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Fund promotes the following environmental and social characteristics:

1. Mitigating the reliance on fossil fuels

2. Promoting clean resource consumption
3. Adherence to global framework principles

The Fund does not currently have a reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

<u>Adverse Sustainability Indicator</u>	<u>Adverse impact on Sustainability factors (qualitative or quantitative)</u>	<u>Metric</u>
<i>Greenhouse gas emissions</i>	<i>Investments in companies without carbon emission reduction initiatives</i>	<i>Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement</i>
	<i>GHG intensity of investee companies</i>	<i>GHG intensity of investee companies</i>
<i>Energy performance</i>	<i>Share of non-renewable energy consumption and production</i>	<i>Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources</i>
<i>Social and employee matters</i>	<i>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</i>	<i>Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises</i>

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

N/A

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

N/A

— How have the indicators for adverse impacts on sustainability factors been taken into account?

N/A

— How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights,

Does this financial product consider principal adverse impacts on sustainability factors?

Yes,

No

What investment strategy does this financial product follow?

As outlined in the “Investment Policy” section of the Supplement, the Fund seeks to achieve its investment objective by investing primarily in equity securities of global renewables and sustainable infrastructure (“GRSI”) companies listed or traded on a Recognised Market.

All issuers of equities and/or corporate bonds, as appropriate, are subject to sustainability analysis before their securities are purchased and ongoing analysis during the pendency of an investment. This includes impact on climate change and other environmental issues, negative impacts on social and employee matters, human rights, and the fight against corruption and bribery. The Investment Manager’s analysis covers the following topics: (a)

involvement in controversial business practices based on internationally recognised norms, including the UN Global Compact; (b) management of sustainability risks: in addition to internal ESG ratings and scores, key performance indicators (including, but not limited to, workforce safety, carbon intensity per kilowatt hour, carbon emission reductions from a baseline year, and the percentage of fossil fuels held as part of a portfolio) are also taken into account, (c) a climate rating for measuring the transition to a low-carbon economy; and (d) compliance of companies with the objectives of the Paris Agreement adopted under the United Nations Framework Convention on Climate Change.

In addition, the Investment Manager may also rely on the sustainability assessment of an external provider, MSCI ESG Manager, to evaluate the above criteria. External data providers collect information from companies or issuers on how they deal with the above-mentioned sustainability issues and generally also assess these and make this information available to the company. The Investment Manager actively monitors relevant press releases, research and news updates, in addition to information in the sustainability assessments of external data providers regarding a potential violation of the ten principles of the UN Global Compact.

Please refer to the Investment Policy section for further details on the various instruments which the Fund may use to achieve its investment objective.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

Exclusions

The Investment Manager employs the following exclusionary screening criteria for the Fund:

- Tobacco: full exclusion
- Weapons (controversial or manufacturing): full exclusion
- Unconventional Oil & Gas: full exclusion
- Coal (exploration, mining, extraction, transportation, distribution or refining): full exclusion
- Conventional Oil & Gas: companies shall meet at least one of the following criteria:
 - Have a SBTi target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment
 - Derive less than 5% of its revenues from oil and gas-related activities
 - Have less than 15% of CapEx dedicated to oil and gas-related activities and not with the objective of increasing revenue
 - Have more than 15% of CapEx dedicated to contributing activities
- Power Generation: companies shall meet the following criteria:
 - Absolute production of or capacity for coal-based or nuclear-based energy related products/services shall not be structurally increasing
 - Absolute production of or capacity for contributing products/services shall be increasing
 - Additionally, companies shall meet at least one of the following criteria:
 - Have a SBTi target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment

- Derive more than 50% of its revenues from contributing activities
- Have more than 50% of CapEx dedicated to contributing activities
- Carbon Emissions Intensity (Scope 1 & 2 grams / kWh): <374 in 2022 trending to <315 in 2025 (post 2025, the company should meet one of the previous criteria)

Normative Based Screening

The Investment Manager monitors alignment of companies with the following frameworks:

- UN Global Compact
- UN Guiding Principles on Business and Human Rights (UNGPs)
- OECD Guidelines for Multinational Enterprises (as far as relevant)
- ILO Conventions

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

N/A. The Investment Manager does not employ a minimum rate to reduce the scope of investments.

● ***What is the policy to assess good governance practices of the investee companies?***

As set out in the “Integration of Sustainability Risks into the Investment Process” section of the Supplement, the Investment Manager’s analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards' independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying companies via dialogue and voting rights. In exercising the Fund’s voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

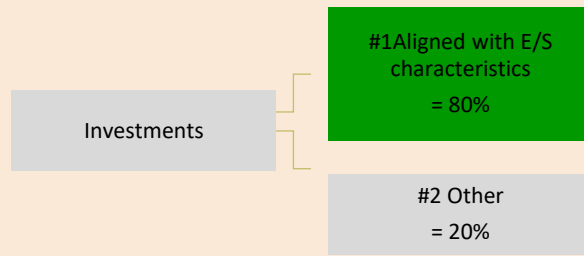

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the asset allocation planned for this financial product?

The Investment Manager will invest in GRSI companies as defined in the “Investment Policy” section of the Supplement. The minimum proportion of the Fund’s assets that are aimed at promoting environmental or social characteristics with the binding elements of the investment strategy is 80%. The “#2 Other” investments are cash or money market instruments which may be held as ancillary liquidity, or derivatives which may be used for hedging and efficient portfolio management purposes.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Investment Manager has the option to use derivatives, but they are not used to attain environmental or social characteristics.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What is the minimum share of investments in transitional and enabling activities?**
N/A

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of socially sustainable investments?

N/A

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

The “#2 Other” investments are cash or money market instruments which may be held as ancillary liquidity, or derivatives which may be used for hedging and efficient portfolio management purposes. Minimum environmental and social safeguards are not applied to investments included under “#2 Other”.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

The Fund does not currently have a reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**
N/A
- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**
N/A
- **How does the designated index differ from a relevant broad market index?**
N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *Where can the methodology used for the calculation of the designated index be found?*

N/A

Where can I find more product specific information online?

More product-specific information can be found on the website:

Appendix I

SECTION I: The Fund

Introduction

The Directors of the Company, whose names appear in the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

Unless otherwise stated, all capitalised terms shall have the same meaning herein as in the Prospectus.

The Brookfield Global Listed Core Infrastructure UCITS Fund is a Fund of Brookfield Investment Funds (UCITS) p.l.c., an umbrella-type open-ended investment company with segregated liability between Funds authorised by the Central Bank pursuant to the UCITS Regulations. A description of Brookfield Investment Funds (UCITS) p.l.c. is contained in the Prospectus. **This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus.**

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The difference at any time between the subscription price and repurchase price of Shares in the Fund means that an investment in the Fund should be viewed as a medium- to long-term investment.

Shareholders should note that dividends may be payable to Shareholders in Distribution Share Classes out of the capital of the Fund. Any such distribution would be achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital. Distributions made during the life of the Fund must be understood as a type of capital reimbursement.

Shareholders should further note that all or part of fees and expenses, including management fees, may be charged to the capital of the Fund. This will have the effect of lowering the capital value of your investment.

The following distributing and accumulating classes of Shares in the Fund may be offered to

SECTION I: The Fund

investors:

- the Euro 'Institutional' Hedged Accumulation Shares Class A;
- the Euro 'Institutional' Unhedged Accumulation Shares Class B;
- the Euro 'Institutional' Hedged Distribution Shares Class C;
- the Euro 'Institutional' Unhedged Distribution Shares Class D;
- the US Dollar 'Institutional' Accumulation Shares Class E;
- the US Dollar 'Institutional' Distribution Shares Class F;
- the Sterling 'Institutional' Unhedged Accumulation Shares Class G;
- the Sterling 'Institutional' Unhedged Distribution Shares Class H;
- the Euro RDR 'Retail' Hedged Accumulation Shares Class I;
- the Euro RDR 'Retail' Unhedged Accumulation Shares Class J;
- the Euro RDR 'Retail' Hedged Distribution Shares Class K;
- the Euro RDR 'Retail' Unhedged Distribution Shares Class L;
- the US Dollar RDR 'Retail' Accumulation Shares Class M;
- the US Dollar RDR 'Retail' Distribution Shares Class N;
- the Sterling RDR 'Retail' Accumulation Shares Class O;
- the Sterling RDR 'Retail' Distribution Shares Class P;
- the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R;
- the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S;
- the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T;
- the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U;
- the US Dollar Non-RDR 'Retail' Accumulation Shares Class V;
- the US Dollar Non-RDR 'Retail' Distribution Shares Class W;
- the Sterling Non-RDR 'Retail' Accumulation Shares Class X;
- the Sterling Non-RDR 'Retail' Distribution Shares Class Y;
- the Sterling 'Institutional' Hedged Accumulation Shares Class Z; and
- the Sterling 'Institutional' Hedged Distribution Shares Class AA.

Investors should note that Institutional Classes are only available for subscription by Institutional Investors and Retail Classes are only available for subscription by Retail Investors. Furthermore, the RDR Share Classes are only available for subscription by distributors or financial intermediaries who are restricted from receiving, being paid or keeping adviser, trailer or similar fees, charges or commissions on the investment management fees payable by the Fund.

The Directors may in their discretion charge a redemption fee of up to 3% of the redemption price in respect of a redemption of Shares by a shareholder.

The Directors may from time to time create additional classes of Shares in the Fund in accordance with the requirements of the Central Bank. The Base Currency of the Fund will be US Dollars.

SECTION I: The Fund

Definitions

The following definitions apply throughout this Supplement unless the context requires otherwise:

- “Accumulation Share Classes”** means the Shares in respect of which it is proposed not to pay dividends and which are identifiable by the use of the word “Accumulation” in their title;
- “Business Day”** means any day (except Saturdays, Sundays and public holidays in Dublin and New York) on which retail banks in Dublin and New York are open for business or such other day or days as may be determined by the Directors and notified to the Shareholders in advance;
- “Central Bank”** means the Central Bank of Ireland or any successor thereto;
- “Distribution Share Classes”** means the Shares in respect of which it is proposed to pay dividends and which are identifiable by the use of the word “Distribution” in their title;
- “Emerging Market Countries”** means any of the following countries: Argentina, Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, Saudi Arabia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates. The Investment Manager has the discretion to update, modify and/or alter which countries are deemed to be Emerging Market Countries for the purposes of this Supplement;
- “Institutional Classes”** means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the Sterling ‘Institutional’ Hedged Accumulation Shares Class Z and the Sterling ‘Institutional’

SECTION I: The Fund

	Hedged Distribution Shares Class AA;
“Institutional Investor”	means a ‘professional client’, as defined under MiFID;
“Investment Management Agreement”	means the investment management agreement dated 6 December 2021 between the Company, the Manager and the Investment Manager;
“Investment Manager”	means Brookfield Public Securities Group LLC, or such other person or person from time to time appointed by the Company or the Investment Manager of the Company in accordance with the requirements of the Central Bank;
“MIFID”	means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as may be amended, modified or replaced from time to time;
“Non-RDR Share Classes”	means the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;
“Prospectus”	means the prospectus of the Company dated 6 December 2021 and all relevant supplements and revisions thereto;
“RDR Share Classes”	means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O and the Sterling RDR ‘Retail’

	Distribution Shares Class P;
“Recognised Markets”	means any regulated stock exchange or market which is provided for in the Articles of Association, details of which are set out in Schedule 3 of the Prospectus;
“Redemption Date”	means each Business Day or such other day as the Directors may in their absolute discretion determine and notify in advance to Shareholders, provided there is at least one Redemption Date per fortnight;
“Retail Classes”	means the Euro RDR ‘Retail’ Hedged Accumulation Shares Class I, the Euro RDR ‘Retail’ Unhedged Accumulation Shares Class J, the Euro RDR ‘Retail’ Hedged Distribution Shares Class K, the Euro RDR ‘Retail’ Unhedged Distribution Shares Class L, the US Dollar RDR ‘Retail’ Accumulation Shares Class M, the US Dollar RDR ‘Retail’ Distribution Shares Class N, the Sterling RDR ‘Retail’ Accumulation Shares Class O, the Sterling RDR ‘Retail’ Distribution Shares Class P, the Euro Non-RDR ‘Retail’ Hedged Accumulation Shares Class R, the Euro Non-RDR ‘Retail’ Hedged Distribution Shares Class S, the Euro Non-RDR ‘Retail’ Unhedged Accumulation Shares Class T, the Euro Non-RDR ‘Retail’ Unhedged Distribution Shares Class U, the US Dollar Non-RDR ‘Retail’ Accumulation Shares Class V, the US Dollar Non-RDR ‘Retail’ Distribution Shares Class W, the Sterling Non-RDR ‘Retail’ Accumulation Shares Class X and the Sterling Non-RDR ‘Retail’ Distribution Shares Class Y;
“Retail Investor”	means any investor who is not an Institutional Investor;
“Shares”	means the Euro ‘Institutional’ Hedged Accumulation Shares Class A, the Euro ‘Institutional’ Hedged Distribution Shares Class C, the Euro ‘Institutional’ Unhedged Accumulation Shares Class B, the Euro ‘Institutional’ Unhedged Distribution Shares Class D, the US Dollar ‘Institutional’ Accumulation Shares Class E, the US Dollar ‘Institutional’ Distribution Shares Class F, the Sterling ‘Institutional’ Unhedged Accumulation Shares Class G, the Sterling ‘Institutional’ Unhedged Distribution Shares Class H, the

Euro RDR 'Retail' Hedged Accumulation Shares Class I, the Euro RDR 'Retail' Hedged Distribution Shares Class K, the Euro RDR 'Retail' Unhedged Accumulation Shares Class J, the Euro RDR 'Retail' Unhedged Distribution Shares Class L, the US Dollar RDR 'Retail' Accumulation Shares Class M, the US Dollar RDR 'Retail' Distribution Shares Class N, the Sterling RDR 'Retail' Accumulation Shares Class O and the Sterling RDR 'Retail' Distribution Shares Class P, the Euro Non-RDR 'Retail' Hedged Accumulation Shares Class R, the Euro Non-RDR 'Retail' Hedged Distribution Shares Class S, the Euro Non-RDR 'Retail' Unhedged Accumulation Shares Class T, the Euro Non-RDR 'Retail' Unhedged Distribution Shares Class U, the US Dollar Non-RDR 'Retail' Accumulation Shares Class V, the US Dollar Non-RDR 'Retail' Distribution Shares Class W, the Sterling Non-RDR 'Retail' Accumulation Shares Class X, the Sterling Non-RDR 'Retail' Distribution Shares Class Y, the Sterling 'Institutional' Hedged Accumulation Shares Class Z, and the Sterling 'Institutional' Hedged Distribution Shares Class AA;

"Subscription Date"

means each Business Day or such other day as the Directors may in their absolute discretion determine and notify in advance to Shareholders, provided there is at least one Subscription Date per fortnight; and

"Supplement"

means this supplement.

SECTION I: The Fund

Investment Objective

The Fund seeks total return through growth of capital and current income. There can be no assurance that the Fund will achieve its investment objective.

Investment Policy

The Fund will be actively managed and the Investment Manager's investment decisions will not be influenced by the constituents of an index or benchmark.

The Fund seeks to achieve its investment objective by investing primarily in securities of infrastructure companies listed or traded on a Recognised Market. The Fund defines an infrastructure company as any company that derives at least 50% of its revenue or profits from the ownership or operation of infrastructure assets. The Fund defines infrastructure assets as the physical structures, networks and systems of transportation, energy, water, sewage, and communication.

Infrastructure assets currently include:

- toll roads, bridges and tunnels;
- airports;
- seaports;
- electric generation, including renewables, and transmission and distribution lines;
- gathering, treating, processing, fractionation, transportation and storage of hydrocarbon products;
- water and sewage treatment and distribution pipelines;
- communication towers, satellites and datacenters; and
- railroads.

Securities in which the Fund may invest include, but are not limited to, common, convertible and preferred stock (including convertible bonds (with the exception of contingent convertible bonds (CoCo's)), convertible stock and convertible debentures that may be converted into or exchanged for a prescribed amount of common stock or other equity securities of the same or a different issuer within a particular period of time at a specified price or formula), depositary receipts, stapled securities (being securities comprised of two parts, a unit of a trust and a share of a company, that cannot be separated from one another, with the Fund investing up to 25% of its net assets in stapled securities) and Collective Investment Schemes providing exposure to infrastructure companies. The Fund may also invest up to 5% of its net assets in warrants. The Fund retains the ability to invest in infrastructure companies of any market size capitalisation.

The Fund may invest in the securities of issuers located in a number of different countries throughout the world. The amount invested outside the U.S. may vary, and at any given time, the Fund may have a significant exposure to non-U.S. securities, including infrastructure companies domiciled in Emerging Market Countries (the Fund may invest up to 20% of its net assets in companies domiciled in Emerging Market Countries). For the avoidance of doubt, investment in a Recognised Market may also include an investment in Russia. Although investment in Russian securities is not the principal focus of the Fund and shall only constitute a sector of the Fund's investments, the Fund may hold more Russian securities than securities from any other single Recognised Market if the Investment Manager identifies more investment opportunities in Russia than in other Recognised Markets.

SECTION I: The Fund

Nevertheless, investment in Russian securities will not constitute a major sector of the Fund's investments. All investments in Russian equity securities will be listed or traded on level 1 or level 2 of the RTS stock exchange and/or MICEX.

The Fund may invest in securities of foreign companies in the form of American Depositary Receipts (ADRs), Global Depositary Receipts (GDRs) and European Depositary Receipts (EDRs).

The Fund may also invest up to 20% of its net assets in fixed income securities, including government and/or corporate, fixed and/or floating, rated and/or unrated, bonds, debentures or short-term discounted treasury bills, listed or traded on a Recognised Market, including high yield or below investment grade ("junk") fixed income securities (including fixed income securities rated "CCC" or lower by S&P or "Caa" or lower by Moody's, or non-rated securities of comparable quality as determined by the Investment Manager).

The Fund may also hold cash or money market instruments (including negotiable or non-negotiable securities issued by or short-term deposits with the US and non-US governments and agencies or instrumentalities thereof, bankers' acceptances, high-quality commercial paper and bank certificates of deposit) or certificates of deposit. Under normal market conditions, it is not expected that the Fund will be invested substantially in cash or other short-term investments. However, where the Investment Manager considers it prudent to do so, the Fund may hold more cash or other short term investments than other assets.

Environmental and Social Characteristics promoted by the Fund

The Fund seeks to promote environmental and social characteristics and invest in companies that apply good corporate governance. On that basis, the Manager has categorised the Fund as meeting the provisions set out in Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "SFDR"). Information about the environmental and/or social characteristics promoted by the Fund is available at Appendix I to this Supplement.

Integration of Sustainability Risks into the Investment Process

Although the Fund's investment objective is ultimately to seek a total return through the growth of capital and current income, the Fund also seeks to promote ESG characteristics in companies deemed to be in the "Real Asset" investment classification and ESG considerations are important input factors within the investment process employed by the Investment Manager in order to pursue the Fund's investment objective. As part of its investment process, the Fund includes all relevant financial risks in its investment decision and evaluates these on an ongoing basis. In doing so, relevant sustainability factors and sustainability risks are assessed and taken into account, including ESG events or conditions that could have a material impact on the investment in question, its return and in turn, the Net Asset Value of the Fund. Sustainability factors are defined in SFDR as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The Investment Manager's analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards' independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying

SECTION I: The Fund

companies via dialogue and voting rights. In exercising the Fund's voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

Principal Adverse Impacts

The Company, the Manager and in turn, the Investment Manager, do not currently consider the principal adverse impacts of investment decisions on sustainability factors, within the meaning of SFDR, because whilst ESG risks are incorporated into the Investment Manager's investment decision making processes, the Fund's objective, and in turn the Investment Manager's objective in respect of the Fund, is to achieve total return through growth of capital and current income. Further, the relevant information required to appropriately assess the principal adverse impacts of the Investment Manager's investment decisions on sustainability factors is not yet available.

The Company, the Manager and the Investment Manager will keep this decision to not consider the principal adverse impacts of investment decisions on sustainability factors within the meaning of SFDR under review and will formally re-evaluate this decision on a periodic basis.

Investment Philosophy

The Investment Manager utilizes a fundamental, bottom-up, value-based selection methodology, taking into account short-term considerations, such as temporary market mispricing (as identified by qualitative and quantitative research undertaken by the Investment Manager, including the review of company and industry research reports and economic data concerning the industries in which the Fund invests), and long-term considerations, such as values of assets and cash flows. It takes a balanced approach to investing, seeking to mitigate risk through diversification, credit analysis, economic analysis and review of sector and industry trends (including a review of adverse economic, political, or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment). The Investment Manager uses proprietary research to select individual securities that it believes can add value from distribution, income and/or the potential for capital appreciation, including an assessment of a company's general financial condition, its competitive positioning and management strength (which is measured by the Investment Manager's analysis of a company's previous operating performance and capital allocation decisions), as well as industry characteristics (including high barriers to entry). It may sell a security held by the Fund that becomes overvalued or no longer offers an attractive risk/reward profile.

Profile of a Typical Investor

A typical investor in the Fund may be an investor with a medium to long term investment horizon who considers investment in the Fund as a convenient way of seeking to achieve total return through growth of capital and current income primarily through an exposure to infrastructure securities. Derivative instruments may be utilized for hedging and efficient portfolio management purposes.

Derivatives

The Fund may, but is not required to, use forwards (such as forward foreign currency

SECTION I: The Fund

exchange contracts), options, futures and total return swaps (“TRS”) for the purposes of hedging and efficient portfolio management. The Fund may also, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements, subject to the conditions and limits set out in the Central Bank Regulations. A derivative is a security or instrument whose value is determined by reference to the value or the change in value of one or more securities, currencies, indices or other financial instruments. The underlying securities to which the Fund will have exposure as a result of investing in derivatives will be consistent with the investment policy of the Fund. Derivatives used for efficient portfolio management purposes will have the aim of reducing risk, reducing costs or generating additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. Any such investment technique or financial derivative instrument must be one which (alone or in combination with one or more other instrument techniques or financial derivative instruments) is reasonably believed by the Investment Manager to be economically appropriate to the management of the Fund.

The Fund may enter into TRS. TRS involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Fund will be consistent with the investment policies of the Fund. Where the Fund enters into a TRS on a net basis, the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. TRS may be employed by the Fund to adjust or obtain sector and security exposures, often with lower transaction costs than obtaining the same exposure via purchasing individual securities. The counterparties to the TRS will be selected from a list approved by the Investment Manager in consideration of the risk profile and investment policy of the Fund. The use of TRS will not grant discretion to the counterparties over the composition or management of the Fund’s investment portfolio, nor shall the approval of the TRS counterparty be required in relation to any investment portfolio transaction entered into by the Fund.

Financial futures and forward foreign exchange contracts may be used to hedge the currency exposure of the Fund and for the purpose of efficient portfolio management only. It is intended that the use of such forward foreign exchange contracts will reduce the exchange rate risk of the Fund. In particular, these may be used to: (a) hedge the designated currency of the assets of the Fund to the Base Currency of the Fund; (b) mitigate the exchange rate risk between the Base Currency of the Fund and the currency in which Shares in a class in the Fund are designated where that designated currency is different to the Base Currency of the Fund; or (c) hedge the currency of denomination of the assets of the Fund attributable to a particular class into the designated currency of that class where the currency of denomination is different to the designated currency of the class. As further set out below, hedged and unhedged share classes may be offered to investors.

An option is the right, but not the obligation, to buy (for a call option) or sell (for a put option) a specific amount of a given stock, currency, index, or debt, at a specified price (the strike price) during a specified period of time. Each option has a buyer, called the holder, and a seller, known as the writer. If the option contract is exercised, the writer is responsible for fulfilling the terms of the contract by delivering the shares to the appropriate party. In the case of a security that cannot be delivered such as an index, the contract is settled in cash. For the holder, the potential loss is limited to the price paid to acquire the option. When an option is not exercised, it expires. No shares change hands and the money spent to purchase the option is lost. For the buyer, the upside is unlimited. For the writer, the potential loss is

SECTION I: The Fund

unlimited unless the contract is covered, meaning that the writer already owns the security underlying the option. Options may be employed by the Fund to gain investment exposure and to hedge existing long positions.

A convertible stock is a hybrid security comprising both debt and equity features. Like a straight security (non-convertible security), the holders of a convertible stock receives coupon payments until maturity at which point the issuer redeems the convertible stock at par. However, the holders of a convertible stock also have the option to convert the convertible stock into shares of common stock of the issuer, at a predetermined price. The Investment Manager will look for certain characteristics when considering convertible securities. These characteristics include the potential for capital appreciation if the value of the underlying common stock increases, the relatively high yield received from dividend or interest payments as compared to common stock dividends and decreased risks of decline in value, relative to the underlying common stock due to their fixed income nature. As a result of the conversion feature, however, the interest rate or dividend preference on a convertible security is generally less than would be the case if the securities were not convertible. During periods of rising interest rates, it is possible that the potential for capital gain on a convertible security may be less than that of a common stock equivalent if the yield on the convertible security is at a level that causes it to sell at a discount.

Securities Financing Transactions

The assets underlying any securities financing transactions (“SFTs”) or TRS will be the equity and fixed income securities in which the Fund may invest. As set out in the Prospectus, the Fund may, for the purposes of efficient portfolio management only, enter into repurchase agreements and reverse repurchase agreements subject to the conditions and limits set out in Central Bank Regulations. It is expected that the proportion of the Fund’s assets under management that will be subject to each type of SFT will be between 0 to 10% of the Fund’s Net Asset Value for all SFT’s but will not in any event exceed 100% of the Fund’s Net Asset Value. The assets underlying the SFTs will be securities traded on a Recognised Market.

Volatility

Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives. The Fund is suitable for investors who are prepared to accept a higher level of such volatility.

Leverage

The Fund’s exposure to financial derivative instruments will be calculated using the ‘commitment approach’ as permitted under the Central Bank Regulations. As a general rule, a UCITS cannot have global exposure greater than its net asset value. In the context of the Fund using the commitment approach to calculate its global exposure, the Fund may not, therefore, be leveraged in excess of 100% of net asset value. The Fund’s use of currency hedging will not be included in this calculation.

The exchange traded bonds in which the Fund may invest may include embedded derivatives which may indirectly cause the Fund to be leveraged.

Investment and Borrowing Restrictions

The Fund will not invest more than 10% of its net assets in other Collective Investment

SECTION I: The Fund

Schemes, such investment being consistent with the Fund's investment policy.

German Tax Reporting

The Fund will qualify as an "equity fund" ("Aktienfonds") for the purposes of the German Investment Tax Act 2018 in that at least 51% of the Fund's Net Asset Value will at all times be directly invested in equity securities which are admitted to official trading on a stock exchange or listed on an organised market. For the avoidance of doubt, the term "equity securities" in this particular context does not include units or shares of investment funds or real estate investment trusts.

Fees, Costs and Expenses

Further information on all fees and expenses payable out of the assets of the Fund are as set out in the section headed "FEES, COSTS AND EXPENSES" in the Prospectus.

Management Fee

The management fee payable in respect of the Fund is set out in the Prospectus.

Depositary Fee

Pursuant to the provisions of the Depositary Agreement, the Depositary is entitled to a fee in respect of its duties as depositary of the Fund.

The Depositary shall be entitled to receive an annual depositary fee out of the assets of the Fund and will levy sub-custody charges applicable to the markets in which the Fund invests up to a maximum of 0.90% of the Net Asset Value of the Fund. The fees payable to the Depositary are subject to a minimum annual charge of up to \$86,500 per annum (the "Depositary Fee"). In addition, the Depositary will charge for the settlement of investment transactions at normal commercial rates, as agreed with the Investment Manager from time to time. The Depositary Fee shall accrue as at each Valuation Point and shall be payable monthly in arrears (and pro rata for lesser periods). The fees are exclusive of VAT (if any).

The Depositary shall also be entitled to be reimbursed by the Fund for all properly vouched out-of-pocket expenses incurred by it for the benefit of the Fund in the performance of its duties under the Depositary Agreement.

Administration Fees

Pursuant to the provisions of the Administration Agreement, the Fund will pay the Administrator a fee in respect of its duties as administrator of the Fund.

The Administrator shall be entitled to receive administration and fund accounting fees out of the assets of the Fund of up to 0.009% per annum of the Net Asset Value of the Fund, subject to a minimum annual administration fee of up to \$120,000 (the "Administration Fee"). The Administration Fee shall accrue as at each Valuation Point and shall be payable monthly in arrears (and pro rata for lesser periods).

The Administrator shall also be entitled to be reimbursed by the Fund for all properly vouched out-of-pocket expenses incurred by it for the benefit of the Fund in the performance

SECTION I: The Fund

of its duties under the Administration Agreement.

Investment Management Fee

Under the provisions of the Investment Management Agreement, the Fund will pay the Investment Manager a fee of up to 1 per cent. per annum of the Net Asset Value in respect of each class of 'Institutional' Shares and a fee of up to 1.8 per cent per annum of the Net Asset Value in respect of each of the RDR Share Classes and a fee of up to 2 per cent per annum of the Net Asset Value in respect of each of the Non-RDR Share Classes, as of the relevant Valuation Date. The investment management fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods). The Company will pay all out-of-pocket expenses incurred by the Investment Manager (including VAT thereon). Such out-of-pocket expenses may include transaction charges provided that they are charged at normal commercial rates and incurred by the Investment Manager in the performance of its duties under the Investment Management Agreement.

Establishment Expenses

The fees and expenses incurred in connection with the establishment of the Fund, the preparation and publication of this Supplement and all legal costs and out-of-pocket expenses related thereto did not exceed €25,000 (plus VAT, if any). Such expenses will be amortised on a straight-line basis over the first 60 months of operations or such shorter period as the Directors may determine. The expenses incurred in connection with the establishment of the Company are as set out in the section headed "*Fees, Costs and Expenses*" in the Prospectus.

Dividend Policy

Accumulation Shares

The Directors do not anticipate paying a dividend in respect of the Shares of the Accumulation Share Classes. All income and profits earned by the Fund attributable to the Accumulation Share Classes will accrue to the benefit of those classes of Shares and will be reflected in the Net Asset Value attributable to the relevant classes of Shares.

Distribution Shares

The Directors may, in their discretion declare dividends on the Distribution Share Classes. Dividends will be paid at least annually and may be paid more frequently at the discretion of the Investment Manager and/or the Directors.

A dividend shall be payable to Shareholders in Distribution Share Classes out of profits of the Fund available for distribution relating to that Distribution Share Class. Profits, for these purposes, may be comprised of net income (less expenditure) and realised and unrealised gains (less realised and unrealised losses) attributable to such share classes. Income for these purposes shall include, without limitation, interest income and dividend income and any other amounts treated as income in accordance with the accounting policies of the Company laid down from time to time.

To afford maximum flexibility to the Company, dividends may also, at the discretion of the Directors be paid out of the capital of the Fund in order to, for example, preserve an income stream for the Shareholders. The maximum rate or amount of any such capital dividend shall be determined by the Directors. **Shareholders should note that in this scenario, the**

SECTION I: The Fund

distribution is achieved by forgoing the potential for future capital growth and the capital of the Fund may be eroded. Therefore, in such circumstances, Shareholders may not receive back the full amount invested and this cycle may continue until all capital of the Fund is depleted. Investors should also seek tax advice on the implications of distributions out of capital. Distributions made during the life of the Fund must be understood as a type of capital reimbursement.

The Directors may elect to charge expenses out of the capital of the Fund, should they wish to generate distributable profits. Investors should note that by charging the management fees and expenses of the Fund to capital, the effect of this is that capital may be eroded and income will be achieved by foregoing the potential for future capital growth.

In any such event, the Distribution Share Classes will go “ex-dividend” on the day on which the dividend is declared (the “Ex-dividend Date”).

The distribution will be paid to Shareholders in the Distribution Share Classes on the register at the close of business on the Business Day immediately preceding the Ex-dividend Date within four calendar months of such Ex-dividend Date. In the event that any of the above dates is not a Business Day, the relevant date will be the next immediately following Business Day.

Unless a Shareholder in the Distribution Share Classes elects otherwise, any distributions will be applied in the purchase of further Shares of the relevant Distribution Share Classes (or fractions thereof) as applicable. Shareholders may write to the Administrator to elect to receive distributions in cash. Any such cash payments to Shareholders in the Distribution Share Classes will be payable by telegraphic transfer to the account specified by Shareholders on the application form. Accordingly, since it is the intention to re-invest distributions by way of acquisition of further Shares, it is unlikely that any management fees or expenses charged to capital will have the effect of eroding a Shareholder’s investment.

Risk Factors

Investors’ attention is drawn to the risk factors set out in the Prospectus and to the following additional risk factors.

Expenses charged to capital

Shareholders should note that the management fees and other fees and expenses incurred by the Fund will as far as possible be deducted from the income of the Fund. If there is insufficient income, the balance will be charged to the capital of the Fund. This may have the effect of lowering the capital value of the Shareholder’s investment and “income” will be achieved by foregoing the potential for future capital growth.

Derivatives Risk

Many of the risks applicable to trading the underlying asset are also applicable to derivatives trading. However, there are a number of additional risks associated with derivatives trading. In addition to the below risks, please also see “Derivatives Risk” under the section entitled “Risk Factors” in the Prospectus.

Transactions in certain derivatives are subject to clearance on exchanges, regulatory oversight and the risks of trading in the OTC markets. Additional risks associated with

SECTION I: The Fund

derivatives trading include:

- *Counterparty Risk.* Because some of the derivative transactions in which the Fund may engage (for example, certain swaps) may involve instruments that are not traded on an exchange but are instead traded between counterparties based on contractual relationships, the Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. Although the Fund intends to enter into transactions only with counterparties which the Investment Manager believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Fund will not sustain a loss on a transaction as a result.

Some types of cleared derivatives are required to be executed on an exchange or on a swap execution facility. A swap execution facility is a trading platform where multiple market participants can execute derivatives by accepting bids and offers made by multiple other participants in the platform. While this execution requirement is designed to increase transparency and liquidity in the cleared derivatives market, trading on a swap execution facility can create additional costs and risks for the Fund.

In the event of the counterparty's bankruptcy or insolvency, the Fund's collateral may be subject to the conflicting claims of the counterparty's creditors, and the Fund may be exposed to the risk of a court treating the Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral. The Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer of an instrument in which the Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Fund will not sustain a loss on a transaction as a result.

- *Liquidity Risk.* Derivative instruments, especially when traded in large amounts, may not be liquid in all circumstances, so that in volatile markets the Fund may not be able to close out a position without incurring a loss. In addition, daily limits on price fluctuations and speculative position limits on exchanges on which the Fund may conduct its transactions in derivative instruments may prevent profitable liquidation of positions, subjecting the Fund to the potential of greater losses.
- *Over-the-Counter Trading Risk.* Derivative instruments, such as swap agreements, that may be purchased or sold by the Fund may include instruments not traded on an exchange. The risk of non-performance by the counterparty to an instrument is generally greater than, and the ease with which the Fund can dispose of or enter into closing transactions with respect to an instrument is generally less than, the risk associated with an exchange traded instrument. In addition, greater disparities may exist between "bid" and "asked" prices for derivative instruments that are not traded on an exchange. Derivative instruments not traded on exchanges also are not subject to the same type of government regulation as exchange traded instruments, and many

SECTION I: The Fund

of the protections afforded to participants in a regulated environment may not be available in connection with the transactions.

- *Volatility.* Shareholders should note that returns which are derived from derivatives may be more volatile than returns which are derived from the asset underlying the derivatives.

Stapled Securities Risk.

A stapled security is a security that is comprised of two parts that cannot be separated from one another. The two parts of a stapled security are a unit of a trust and a share of a company. The resulting security is influenced by both parts, and must be treated as one unit at all times, such as when buying or selling a security.

Convertible Securities.

The Fund may invest in convertible securities. Convertible securities are preferred stocks or debt obligations that are convertible at a stated exchange rate or formula into common stock or other equity securities. Convertible securities generally offer lower interest or dividend yields than non-convertible securities of similar quality. Convertible securities have both equity and fixed-income risk characteristics. Like all fixed-income securities, the value of convertible securities is susceptible to the risk of market losses attributable to changes in interest rates. Generally, the market value of convertible securities tends to decline as interest rates increase and, conversely, to increase as interest rates decline. The markets for convertible securities may be less liquid than markets for common stocks or bonds. Convertible securities are also subject to credit risk, and are often lower-quality securities.

Investment in Non-US Securities.

The Fund expects to invest in non-US securities, including in the form of American Depositary Receipts (ADRs), Global Depositary Receipts (GDRs) and European Depositary Receipts (EDRs). Generally, ADRs in registered form are US Dollar denominated securities designed for use in the US securities markets, which represent and may be converted into an underlying foreign security. GDRs, in bearer form, are designated for use outside the United States. EDRs, in bearer form, are designed for use in the European securities markets.

Such investments may be subject to a greater risk than US investments due to non-US economic, political and legal developments, including economic, political or social instability, favorable or unfavorable changes in currency exchange rates, exchange control regulations (including currency blockage), expropriation of assets or nationalization, imposition of taxes on dividends, interest payments or capital gains, the need for approval by government or other authorities to make investments, possible difficulty in obtaining and enforcing judgments against non-US entities and other factors beyond the control of the Investment Manager. Furthermore, issuers of non-US securities are subject to different, often less comprehensive accounting, reporting or disclosure requirements than US issuers. The securities markets of some countries in which the Fund may invest have substantially less volume than those in the United States, and securities of certain companies in these countries are less liquid and more volatile than securities of comparable US companies. Accordingly, these markets may be subject to greater influence by adverse events generally affecting the market, and by large investors trading significant blocks of securities, than is usual in the United States. Brokerage commissions and other transaction costs on securities

SECTION I: The Fund

exchanges in non-US countries are generally higher than in the United States.

Fixed Income Risk

The market value of fixed income investments changes in response to interest rate changes and other factors. Bond prices generally rise when interest rates decline and decline when interest rates rise. The longer the duration of a bond, the more a change in interest rates affects the bond's price. Short-term and long-term interest rates may not move the same amount and may not move in the same direction. It is likely there will be less governmental action in the near future to maintain low interest rates, or that governmental actions will be less effective in maintaining low interest rates. The negative impact on fixed income securities from the resulting rate increases for that and other reasons could be swift and significant, including falling market values and reduced liquidity. Substantial redemptions from bond and other income funds may worsen that impact. Other types of securities also may be adversely affected from an increase in interest rates. Moreover, while securities with longer maturities tend to produce higher yields, the prices of longer maturity securities are also subject to greater market fluctuations as a result of changes in interest rates. As the average maturity or duration of a security lengthens, the risk that the price of such security will become more volatile increases. In contrast to maturity which measures only time until final payment, duration combines consideration of yield, interest payments, final maturity and call features. Additional risk associated with fixed income securities includes:

- **Call Risk.** During periods of falling interest rates, certain debt obligations with high interest rates may be prepaid (or "called") by the issuer prior to maturity.
- **Extension Risk.** An issuer may exercise its right to pay principal on an obligation held by the Fund later than expected. This may happen when there is a rise in interest rates. Under these circumstances, the value of the obligation will decrease.
- **Credit Risk.** The possibility that an issuer will be unable to make timely payments of either principal or interest.
- **Event Risk.** Securities may suffer declines in credit quality and market value due to issuer restructurings or other factors.

Infrastructure Risk

Securities and instruments of infrastructure companies are more susceptible to adverse economic or regulatory occurrences affecting their industries. Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. The following is a summary of specific risks infrastructure companies may be particularly affected by or subject to:

- **Regulatory Risk.** Infrastructure companies may be subject to regulation by various governmental authorities and may also be affected by governmental regulation of rates charged to services, the imposition of special tariffs and changes in tax laws, environmental laws and regulations, regulatory policies, accounting standards and

SECTION I: The Fund

general changes in market sentiment towards infrastructure assets. Infrastructure companies' inability to predict, influence or respond appropriately to changes in law or regulatory schemes could adversely impact their results of operations.

- *Technology Risk.* This risk arises where a change could occur in the way a service or product is delivered rendering the existing technology obsolete. While the risk could be considered low in the infrastructure sector given the massive fixed costs involved in constructing assets and the fact that many infrastructure technologies are well-established, any technology change that occurs over the medium term could threaten the profitability of an infrastructure company. If such a change were to occur, these assets may have very few alternative uses should they become obsolete.
- *Regional or Geographic Risk.* This risk arises where an infrastructure company's assets are not movable. Should an event that somehow impairs the performance of an infrastructure company's assets occur in the geographic location where the issuer operates those assets, the performance of the issuer may be adversely affected.
- *Natural Disasters Risk.* Natural risks, such as earthquakes, flood, lightning, hurricanes and wind, are risks facing certain infrastructure companies. Extreme weather patterns, or the threat thereof, could result in substantial damage to the facilities of certain companies located in the affected areas, and significant volatility in the products or services of infrastructure companies could adversely impact the prices of the securities of such issuer.
- *Environmental Risk.* Infrastructure companies can have substantial environmental impacts. Ordinary operations or operational accidents may cause major environmental damage, which could cause infrastructure companies significant financial distress, substantial liabilities for environmental cleanup and restoration costs, claims made by neighbouring landowners and other third parties for personal injury and property damage, and fines or penalties for related violations of environmental laws or regulations. Infrastructure companies may not be able to recover these costs from insurance. Failure to comply with environmental laws and regulations may trigger a variety of administrative, civil and criminal enforcement measures, including the assessment of monetary penalties, the imposition of remedial requirements, and the issuance of orders enjoining future operations. Voluntary initiatives and mandatory controls have been adopted or are being discussed both in the United States and worldwide to reduce emissions of "greenhouse gases" such as carbon dioxide, a by-product of burning fossil fuels, and methane, the major constituent of natural gas, which many scientists and policymakers believe contribute to global climate change. These measures and future measures could result in increased costs to certain companies in which the Fund may invest.
- *Through-put Risk.* The revenue of many infrastructure companies may be impacted by the number of users who use the products or services produced by the infrastructure company. A significant decrease in the number of users may negatively impact the profitability of an infrastructure company.
- *Project Risk.* To the extent the Fund invests in infrastructure companies which are dependent to a significant extent on new infrastructure projects, the Fund may be exposed to the risk that the project will not be completed within budget, within the

SECTION I: The Fund

agreed time frame or to agreed specifications. Each of these factors may adversely affect the Fund's return from that investment.

- *Strategic Asset Risk.* Infrastructure companies may control significant strategic assets. Strategic assets are assets that have a national or regional profile, and may have monopolistic characteristics. The very nature of these assets could generate additional risk not common in other industry sectors. Given the national or regional profile and/or their irreplaceable nature, strategic assets may constitute a higher risk target for terrorist acts or political actions. Given the essential nature of the products or services provided by infrastructure companies, there is also a higher probability that the services provided by such issuers will be in constant demand. Should an infrastructure company fail to make such services available, users of such services may incur significant damage and may, due to the characteristics of the strategic assets, be unable to replace the supply or mitigate any such damage, thereby heightening any potential loss.
- *Operation Risk.* The long-term profitability of an infrastructure company may be partly dependent on the efficient operation and maintenance of its infrastructure assets. Should an infrastructure company fail to efficiently maintain and operate the assets, the infrastructure company's ability to maintain payments of dividends or interest to investors may be impaired. The destruction or loss of an infrastructure asset may have a major impact on the infrastructure company. Failure by the infrastructure company to carry adequate insurance or to operate the asset appropriately could lead to significant losses and damages.
- *Customer Risk.* Infrastructure companies can have a narrow customer base. Should these customers or counterparties fail to pay their contractual obligations, significant revenues could cease and not be replaceable. This would affect the profitability of the infrastructure company and the value of any securities or other instruments it has issued.
- *Interest Rate Risk.* Infrastructure assets can be highly leveraged. As such, movements in the level of interest rates may affect the returns from these assets more significantly than other assets in some instances. The structure and nature of the debt encumbering an infrastructure asset may therefore be an important element to consider in assessing the interest risk of the infrastructure asset. In particular, the type of facilities, maturity profile, rates being paid, fixed versus variable components and covenants in place (including the manner in which they affect returns to equity holders) are crucial factors in assessing any interest rate risk. Due to the nature of infrastructure assets, the impact of interest rate fluctuations may be greater for infrastructure companies than for the economy as a whole in the country in which the interest rate fluctuation occurs.
- *Inflation Risk.* Many companies operating in the infrastructure sector may have fixed income streams and, therefore, be unable to pay higher dividends. The market value of infrastructure companies may decline in value in times of higher inflation rates. The prices that an infrastructure company is able to charge users of its assets may not be linked to inflation. In this case, changes in the rate of inflation may affect the forecast profitability of the infrastructure company.
- *Developing Industries Risk.* Some infrastructure companies are focused on developing new technologies and are strongly influenced by technological changes. Product

SECTION I: The Fund

development efforts by such companies may not result in viable commercial products. These companies may bear high research and development costs, which can limit their ability to maintain operations during periods of organizational growth or instability. Some infrastructure companies in which the Fund invests may be in the early stages of operations and may have limited operating histories and smaller market capitalizations on average than companies in other sectors. As a result of these and other factors, the value of investments in such issuers may be considerably more volatile than that in more established segments of the economy.

- *Risks of Investing in Pipelines.* Pipeline companies are subject to the demand for natural gas, natural gas liquids, crude oil or refined products in the markets they serve, changes in the availability of products for gathering, transportation, processing or sale due to natural declines in reserves and production in the supply areas serviced by the companies' facilities, sharp decreases in crude oil or natural gas prices that cause producers to curtail production or reduce capital spending for exploration activities, and environmental regulation and related cost-intensive integrity management and testing programs. Demand for gasoline, which accounts for a substantial portion of refined product transportation, depends on price, prevailing economic conditions in the markets served, and demographic and seasonal factors.

Companies that own interstate pipelines that transport natural gas, natural gas liquids, crude oil or refined petroleum products are subject to regulation by the Federal Energy Regulation Commission ("FERC") with respect to the tariff rates they may charge for transportation services. An adverse determination by the FERC with respect to the tariff rates of such a company could have a material adverse effect on its business, financial condition, results of operations and cash flows and its ability to pay cash distributions or dividends. In addition, the FERC has a tax allowance policy, which permits such companies to include in their cost of service an income tax allowance to the extent that their owners have an actual or potential tax liability on the income generated by them.

If the FERC's income tax allowance policy were to change in the future to disallow a material portion of the income tax allowance taken by such interstate pipeline companies, it would adversely impact the maximum tariff rates that such companies are permitted to charge for their transportation services, which would in turn could adversely affect such companies' financial condition and ability to pay distributions or dividends to their equity holders.

Further, intrastate pipelines are subject to state regulation in the United States, which, while less comprehensive than FERC regulation, makes intrastate pipeline tariffs subject to protest and complaint and may adversely affect such intrastate pipelines' financial condition, cash flows and ability to pay distributions or dividends.

- *Financing Risk.* From time to time, infrastructure companies may encounter difficulties in obtaining financing for construction programs during inflationary periods. Issuers experiencing difficulties in financing construction programs may also experience lower profitability, which can result in reduced income to the Fund.

Other factors that may affect the operations of infrastructure companies include difficulty in raising capital in adequate amounts on reasonable terms in periods of high inflation and

SECTION I: The Fund

unsettled capital markets, inexperience with and potential losses resulting from a developing deregulatory environment, increased susceptibility to terrorist acts or political actions, and general changes in market sentiment towards infrastructure assets. In addition, the change in presidential administration could significantly impact the regulation of United States financial markets and dramatically alter existing trade, tax, energy and infrastructure policies, among others. It is not possible to predict what, if any, changes will be made or their potential effect on the economy, securities markets, or financial stability of the United States, or on the energy, natural resources, real estate and other markets.

Emerging Markets.

In accordance with the “*Investment Policy*” section above, the Fund may invest in securities of companies whose primary operations or principal trading market is in an Emerging Market Countries. These securities may be US Dollar denominated or non-US Dollar denominated, including Emerging Market Country currency denominated. Securities of companies in Emerging Markets Countries may be more volatile than those of companies in more developed markets. Emerging Market Countries generally have less developed markets and economies and, in some countries, less mature governments and governmental institutions. Emerging market risks include: greater fluctuations in currency exchange rates; increased risk of default (by both government and private issuers); greater social, economic and political uncertainty and instability (including the risk of war or natural disaster); increased risk of nationalization, expropriation or other confiscation; greater governmental involvement in the economy; less governmental supervision and regulation of the securities markets and participants in those markets; controls on non-US investment, capital controls and limitations on repatriation of invested capital and on the Fund’s ability to exchange local currencies for US Dollars; inability to purchase and sell investments or otherwise settle security or derivative transactions (i.e., a market freeze); unavailability of currency hedging techniques; companies that are smaller and more recently organized; differences in, or lack of, auditing and financial reporting standards and resulting unavailability of material information about issuers; slower clearance; difficulties in obtaining and/or enforcing legal judgments; and significantly smaller market capitalizations of issuers.

The Fund may invest in Emerging Markets Countries where custodial and/or settlement systems are not fully developed. The assets of the Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to market risks. Such risks include (i) a non-true delivery versus payment settlement, (ii) a physical market, and as a consequence the circulation of forged securities, (iii) poor information with regard to corporate actions, (iv) a registration process that affects the availability of the securities, (v) lack of appropriate legal/fiscal infrastructure, and (vi) lack of compensation/risk funds with the relevant central depository. Furthermore, even when a Fund settles trades with counterparties on a delivery-versus-payment basis, it may still be exposed to credit risk to parties with whom it trades.

In addition, as the Fund’s investments may include investments in Russia, investors should be aware that the laws relating to securities investment and regulation in Russia have been created on an ad-hoc basis and do not tend to keep pace with market developments. This may lead to ambiguities in interpretation and inconsistent and arbitrary application of such regulation. In addition, investors should note that the process of monitoring and

SECTION I: The Fund

enforcement of applicable regulations is rudimentary.

Equity securities in Russia are dematerialised and the only legal evidence of ownership is entry of the shareholder's name on the share register of the issuer. The concept of fiduciary duty is not well established and so shareholders may suffer dilution or loss of investment due to the actions of management without satisfactory legal remedy. Rules regulating corporate governance either do not exist or are undeveloped and offer little protection to minority shareholders.

Concentration Risk.

Because the Fund will invest more than 25% of its total assets in securities in the infrastructure industry, as defined in this Prospectus, the Fund may be subject to greater volatility with respect to its portfolio securities than a fund that is more broadly diversified.

High Yield or "Junk" Bond Risk.

Investments in high yield securities and unrated securities of similar credit quality (commonly known as "junk bonds") may be subject to greater levels of credit and liquidity risk than funds that do not invest in such securities. These securities are considered predominately speculative with respect to the issuer's continuing ability to make principal and interest payments. Junk bonds tend to be volatile and more susceptible to adverse events and negative sentiments. An economic downturn or period of rising interest rates could adversely affect the market for these securities and reduce the Fund's ability to sell these securities (liquidity risk). If the issuer of a security is in default with respect to interest or principal payments, the Fund may lose its entire investment. Because of the risks involved in investing in high yield securities, an investment in the Fund that invests in such securities should be considered speculative.

Sustainability Risk

Sustainability risks within the meaning of SFDR are ESG events or conditions whose occurrence could have an actual or potential principal adverse impact on the value of the Fund's investment. ESG strategies may take risks or eliminate exposures found in other strategies or broad market benchmarks that may cause performance to diverge from the performance of these other strategies or market benchmarks. These effects may have an impact on the Fund's return, on the assets, financial and earnings position of the Fund and on the reputation of the Company. Sustainability risks can affect all known types of risk (for example, market risk, liquidity risk, counterparty risk and operational risk), and as a factor, contribute to the materiality of these risk types. ESG strategies will be subject to the risks associated with their underlying investments' asset classes. Further, the demand within certain markets or sectors that an ESG strategy targets may not develop as forecasted or may develop more slowly than anticipated.

SECTION II: Euro ‘Institutional’ Unhedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

“Closing Date”	means on or about 5 p.m. (Irish time) on 21 July 2021;
“Initial Offer”	means the initial offer of Euro ‘Institutional’ Unhedged Accumulation Shares in the Fund which commenced at 9 a.m. (Irish time) on 16 June 2021 and closed on the Closing Date;
“Minimum Holding”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
“Minimum Redemption”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
“Minimum Initial Subscription”	means, in relation to the Euro ‘Institutional’ Unhedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro ‘Institutional’ Unhedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Accumulation Shares is not equivalent to an exact number of Euro ‘Institutional’ Unhedged Accumulation Shares, fractions of Euro ‘Institutional’ Unhedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION III: Euro 'Institutional' Unhedged Distribution Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Unhedged Distribution Shares in the Fund which will commence at 9 a.m. (Irish time) on 16 June 2021 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Unhedged Distribution Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Unhedged Distribution Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro Institutional Unhedged Distribution Shares is not equivalent to an exact number of Euro 'Institutional' Unhedged Distribution Shares, fractions of Euro 'Institutional' Unhedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Euro 'Institutional' Hedged Accumulation Shares in the Fund which will commence at 9 a.m. (Irish time) on 16 June 2021 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum holding of €100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum redemption of €50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Euro 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of €250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro 'Institutional' Hedged Accumulation Shares is €20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Euro 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Euro 'Institutional' Hedged Accumulation Shares, fractions of Euro 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro Institutional Hedged Accumulation Share Class

It is intended that the Euro Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do

SECTION IV: Euro 'Institutional' Hedged Accumulation Shares

not exceed 105% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share class. Any overhedged positions materially in excess of 100% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share Class will not be carried forward from month to month. This review will also incorporate a procedure to ensure that underhedged positions below 95% of the Net Asset Value of the Euro Institutional Hedged Accumulation Share Class will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

"Minimum Holding"	means, in relation to the Euro RDR 'Retail' Hedged Distribution Shares, a minimum holding of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Euro RDR 'Retail' Hedged Distribution Shares, a minimum redemption of €250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the Euro RDR 'Retail' Hedged Distribution Shares, a minimum initial subscription of €1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the Euro RDR 'Retail' Hedged Distribution Shares, the Minimum Subsequent Subscription of €250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Euro RDR 'Retail' Hedged Distribution Shares is €20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed but provided that (in accordance with the requirements of the Financial Conduct Authority's Retail Distribution Review) such agent or intermediary has not also provided advice to a subscriber or the payment of such subscription fee would otherwise cause the Director and/or the agent or intermediary to breach any law, rule or regulation restricting the receipt or payment of adviser or similar

fees or charges in connection with the distribution of securities and investments to retail investors. Where the amount subscribed for Euro RDR 'Retail' Hedged Distribution Shares is not equivalent to an exact number of Euro RDR 'Retail' Hedged Distribution Shares, fractions of Euro RDR 'Retail' Hedged Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Euro RDR Retail Hedged Distribution Share Class

It is intended that the Euro RDR Retail Hedged Distribution Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do not exceed 105% of the Net Asset Value of the Euro RDR Retail Hedged Distribution Share class. Any overhedged positions materially in excess of 100% of the Net Asset Value of the Euro RDR Retail Hedged Distribution Share Class will not be carried forward from month to month. This review will also incorporate a procedure to ensure that underhedged positions below 95% of the Net Asset Value of the Euro RDR Retail Hedged Distribution Share Class will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Euro RDR Retail Hedged Distribution Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Euro RDR Retail Hedged Distribution Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

"Initial Offer"	means the initial offer of US Dollar Non-RDR 'Retail' Distribution Shares in the Fund which will commence at 9 a.m. (Irish time) on 16 June 2021 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum holding of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum redemption of \$250 or such lesser amount as may be agreed by the Directors;
"Minimum Initial Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, a minimum initial subscription of \$1,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case; and
"Minimum Subsequent Subscription"	means, in relation to the US Dollar Non-RDR 'Retail' Distribution Shares, the Minimum Subsequent Subscription of \$250 or such lesser amount as may be agreed by the Directors.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for US Dollar RDR 'Retail' Distribution Shares is \$20. During the Initial Offer, investors must subscribe for at least the Minimum Initial Subscription amount. Following the Initial Offer, investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount and existing Shareholders will be required to subscribe for at least the Minimum Subsequent Subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for US Dollar RDR 'Retail' Distribution Shares is not equivalent to an exact number of US Dollar RDR 'Retail' Distribution Shares, fractions of US Dollar RDR 'Retail' Distribution Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Definitions

The following definitions apply throughout this section of the Supplement unless the context requires otherwise:

"Closing Date"	means on or about 5 p.m. (Irish time) on 20 February 2022 or such earlier or later date as the Directors may in their absolute discretion determine having notified the Central Bank;
"Initial Offer"	means the initial offer of Sterling 'Institutional' Hedged Accumulation Shares in the Fund which will commence at 9 a.m. (Irish time) on 16 June 2021 and will close on the Closing Date;
"Minimum Holding"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum holding of £100,000 or such lesser amount as may be agreed by the Directors;
"Minimum Redemption"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum redemption of £50,000 or such lesser amount as may be agreed by the Directors; and
"Minimum Initial Subscription"	means, in relation to the Sterling 'Institutional' Hedged Accumulation Shares, a minimum initial subscription of £250,000 or such lesser amount as may be determined by the Directors in their absolute discretion in any particular case.

Offer

Shares may be subscribed for in the manner set out in the Prospectus. The initial offer price for Sterling 'Institutional' Hedged Accumulation Shares is £20. Investors, in the case of an initial subscription into the Fund, must subscribe for at least the Minimum Initial Subscription amount. There is no minimum subsequent subscription amount.

The Directors may, in their absolute discretion, charge a subscription fee, payable to introducing agents and intermediaries (which may include the Investment Manager) of up to 5 per cent. of the gross cash amount subscribed. Where the amount subscribed for Sterling 'Institutional' Hedged Accumulation Shares is not equivalent to an exact number of Sterling 'Institutional' Hedged Accumulation Shares, fractions of Sterling 'Institutional' Hedged Accumulation Shares may be issued rounded to the third decimal place. Redemption requests for amounts less than the Minimum Redemption will be refused.

Sterling Institutional Hedged Accumulation Share Class

It is intended that the Sterling Institutional Hedged Accumulation Share class will be a hedged currency share class. At least 90% of the class currency risk will be hedged taking the best interest of the shareholders into consideration. While it is not the intention to do so, overhedged or underhedged positions may arise due to factors outside the control of the Fund. Hedged positions will be kept under review to ensure that overhedged positions do

SECTION XXVI: Sterling 'Institutional' Hedged Accumulation Shares

not exceed 105% of the Net Asset Value of the Sterling Institutional Hedged Accumulation Share class. Any overhedged positions materially in excess of 100% of the Net Asset Value of the Sterling Institutional Hedged Accumulation Share Class will not be carried forward from month to month. This review will also incorporate a procedure to ensure that underhedged positions below 95% of the Net Asset Value of the Sterling Institutional Hedged Accumulation Share Class will not be carried forward from month to month. All currency hedging transactions will be clearly attributable to the Sterling Institutional Hedged Accumulation Share class and the costs and gains/losses of the hedging transactions will accrue solely to the Sterling Institutional Hedged Accumulation Share class. To the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the class denominated in the base currency and investors in the hedged class will not benefit if the class currency falls against the base currency.

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brookfield Global Listed Core Infrastructure UCITS Fund

Legal entity identifier: 5493005ORVCCYW3JQM83

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes **No**

<p><input type="checkbox"/> It will make a minimum of sustainable investments with an environmental objective: ___%</p> <p style="margin-left: 20px;"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ___%</p>	<p><input type="checkbox"/> It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments</p> <p style="margin-left: 20px;"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input type="checkbox"/> with a social objective</p> <p><input checked="" type="checkbox"/> It promotes E/S characteristics, but will not make any sustainable investments</p>
--	---

What environmental and/or social characteristics are promoted by this financial product?

The Fund promotes the following environmental and social characteristics:

1. Facilitating energy transition and security
2. Increased mobility for society – physical and digital
3. Supporting a clean and circular economy

The Fund will be actively managed against the FTSE Global Core Infrastructure 50/50 Index (USD). The Fund does not currently have a reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted.

SECTION XXVII: Sterling 'Institutional' Hedged Distribution Shares

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

<u>Adverse Sustainability Indicator</u>	<u>Adverse impact on Sustainability factors (qualitative or quantitative)</u>	<u>Metric</u>
Greenhouse gas emissions	Investments in companies without carbon emission reduction initiatives	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	GHG intensity of investee companies	GHG intensity of investee companies
Energy performance	Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources
Social and employee matters	Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

N/A

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

N/A

SECTION XXVII: Sterling 'Institutional' Hedged Distribution Shares

- — — How have the indicators for adverse impacts on sustainability factors been taken into account?

N/A

- — — How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes

No

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What investment strategy does this financial product follow?

As outlined in the “Investment Policy” section of the Supplement, the Fund seeks to achieve its investment objective by investing primarily in securities of infrastructure companies listed or traded on a Recognised Market.

The Fund defines an infrastructure company as any company that derives at least 50% of its revenue or profits from the ownership or operation of infrastructure assets.

The Fund defines infrastructure assets as the physical structures, networks and systems of transportation, energy, water, sewage, and communication. Infrastructure assets currently

SECTION XXVII: Sterling 'Institutional' Hedged Distribution Shares

include:

- toll roads, bridges and tunnels;
- airports;
- seaports;
- electric generation, including renewables, and transmission and distribution lines;
- gathering, treating, processing, fractionation, transportation and storage of hydrocarbon products;
- water and sewage treatment and distribution pipelines;
- communication towers, satellites and datacenters; and
- railroads.

The aim of ESG integration is to improve the risk/return profile of the Fund by integrating sustainability aspects into the traditional investment analysis process. The assessment of an issuer's sustainability is carried out by the Investment Manager using published information from the issuers and its internal research.

All issuers of equities and/or corporate bonds, as appropriate, are subject to sustainability analysis before their securities are purchased and ongoing analysis during the pendency of an investment. This includes impact on climate change and other environmental issues, negative impacts on social and employee matters, human rights, and the fight against corruption and bribery. The Investment Manager's analysis covers the following topics: (a) involvement in controversial business practices based on internationally recognised norms, including the UN Global Compact; (b) management of sustainability risks: in addition to internal ESG ratings and scores, key performance indicators (including, but not limited to, workforce safety, carbon intensity per kilowatt hour, carbon emission reductions from a baseline year, and the percentage of fossil fuels held as part of a portfolio) are also taken into account, (c) a climate rating for measuring the transition to a low-carbon economy; and (d) compliance of companies with the objectives of the Paris Agreement adopted under the United Nations Framework Convention on Climate Change.

In addition, the Investment Manager may also rely on the sustainability assessment of an external provider, MSCI ESG Manager, to evaluate the above criteria. External data providers collect information from companies or issuers on how they deal with the above-mentioned sustainability issues and generally also assess these and make this information available to the company. With regard to a violation of the ten principles of the UN Global Compact, the Investment Manager actively monitors relevant press releases, research and news updates, in addition to information in the sustainability assessments of external data providers.

For the avoidance of doubt, the ESG considerations set out at (a)-(c) above are designed to address sustainability risks and are not to be regarded as investment restrictions, a breach of which would result in an advertent or inadvertent breach of an investment restriction within the meaning of the Central Bank Regulations.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The issuers of a security may be considered by the Investment Manager to be unsustainable if they violate one of over 100 internationally recognized norms, including the UN Global Compact (the "UN Global Compact") or the UN Guiding Principles on Business & Human Rights. The ten principles of the UN Global Compact promote sustainable and responsible corporate development in order to make globalisation more social and ecological. They fall into the categories of human rights, labour standards, environmental and corruption prevention. The

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

SECTION XXVII: Sterling 'Institutional' Hedged Distribution Shares

Investment Manager also excludes companies which produce and/or distribute outlawed weapons, such as landmines and cluster munition and atomic, biological or chemical (ABC) weapons.

- **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

N/A. The Investment Manager does not employ a minimum rate to reduce the scope of investments.

- **What is the policy to assess good governance practices of the investee companies?**

As set out in the "Integration of Sustainability Risks into the Investment Process" section of the Supplement, the Investment Manager's analysis of the management of sustainability risks incorporates governance analysis sourced by both internal and external data providers. It covers the boards' independence, experience and effectiveness, executive pay practices, ownership structure and reliability of reported financials in respect of the underlying companies in which the Fund invests. The Investment Manager engages with the underlying companies via dialogue and voting rights. In exercising the Fund's voting rights in its investments, the Investment Manager considers ESG factors, as appropriate. The governance guidelines establish a consistent philosophy and approach to corporate governance and the exercising of voting rights.

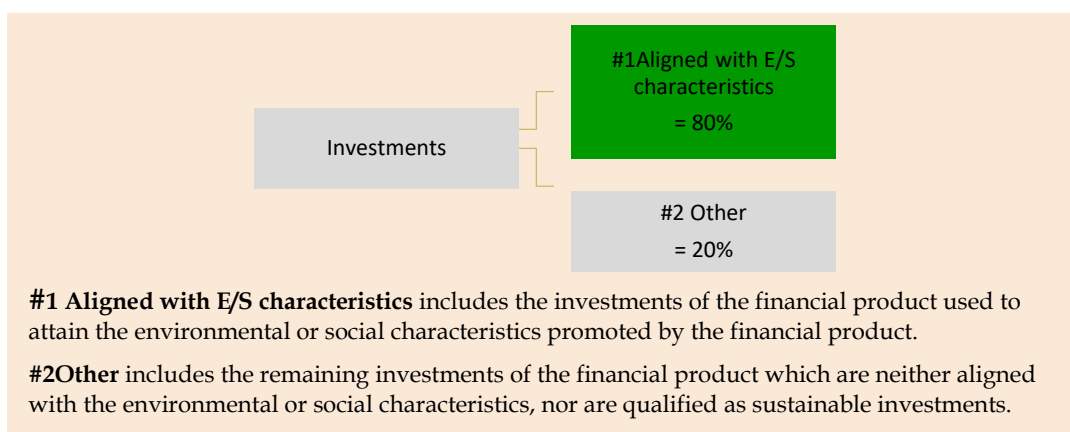

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the asset allocation planned for this financial product?

The Investment Manager will invest in an infrastructure company as defined in the "Investment Policy" section of the Supplement. The minimum proportion of the Fund's assets aimed at promoting environmental and social characteristics with the binding elements of the investment strategy is 80%. The "#2 Other" investments are cash or money market instruments which may be held as ancillary liquidity, or derivatives which may be used for hedging and efficient portfolio management purposes.

Asset allocation describes the share of investments in specific assets.

- **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Investment Manager has the option to use derivatives, but they are not used to attain environmental or social characteristics.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What is the minimum share of investments in transitional and enabling activities?**

N/A

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A

What is the minimum share of socially sustainable investments?

N/A

SECTION XXVII: Sterling 'Institutional' Hedged Distribution Shares

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU taxonomy.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

The “#2 Other” investments are cash or money market instruments which may be held as ancillary liquidity, or derivatives which may be used for hedging and efficient portfolio management purposes. Minimum environmental and social safeguards are not applied to investments included under “#2 Other”.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

The Fund will be actively managed against the FTSE Global Core Infrastructure 50/50 Index (USD). The Fund does not currently have a reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***
N/A
- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***
N/A
- ***How does the designated index differ from a relevant broad market index?***
N/A
- ***Where can the methodology used for the calculation of the designated index be found?***
N/A

Where can I find more product specific information online?

SUPPLEMENT TO PROSPECTUS

INFORMATION FOR INVESTORS IN SWITZERLAND

This Supplement dated 23 January 2023 forms part of and should be read in conjunction with the Prospectus for Brookfield Investment Funds (UCITS) p.l.c. (the "Company") dated 20 April 2020 as may be amended and the Supplement(s) thereto (together the "Prospectus").

1) Representative in Switzerland

The representative is Acolin Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zurich.

2) Paying agent in Switzerland

The paying agent is Helvetische Bank AG, Seefeldstrasse 215, CH-8008 Zurich.

3) Location where the relevant documents may be obtained

The prospectus, the key information documents or the key investor information documents, the articles of association, as well as the annual and semi-annual reports may be obtained free of charge from the representative.

4) Publications

Publications concerning the fund shall be made in Switzerland on the electronic platform www.fundinfo.com.

The issue and the redemption prices or the net asset value together with a reference "excluding commissions" shall be published for each issue and redemption for all unit classes on the electronic platform www.fundinfo.com. The prices shall be published daily.

5) Payment of retrocessions and rebates

The fund company and its agents may pay retrocessions to compensate the distribution activity of fund units in Switzerland. This compensation may be used in particular to cover the following services:

- Any offering of and advertising for the fund, including any type of activity whose object is the purchase of the fund, such being for example the organization of road shows, the participation at fairs and presentations, the preparation of marketing materials, the training of distributors, etc.

Retrocessions are not considered rebates even if they are ultimately passed on to the investors in whole or in part.

The disclosure of the receipt of retrocessions is governed by the relevant provisions of the FinSA.

The fund company and its agents may pay rebates directly to investors upon request in distribution in Switzerland. Rebates serve to reduce the fees or costs attributable to the investors concerned. Discounts are permissible provided that:

- they are paid from fees received by the investment manager and therefore do not represent an additional charge on the fund assets;
- they are granted on the basis of objective criteria;
- all investors who meet these objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the fund company are as follows:

- the volume subscribed by the investor or the total volume they hold in the collective investment scheme or, where applicable, in the product range of the promoter;
- the amount of the fees generated by the investor;
- the investment behavior shown or anticipated by the investor (e.g. expected investment period);
- the investor's willingness to provide support in the launch phase of a collective investment scheme.

Upon request by the investor, the fund company shall disclose the corresponding amounts of the rebates free of charge.

6) Place of performance and jurisdiction

For units offered in Switzerland, the place of performance is at the registered office of the representative. The place of jurisdiction shall be at the registered office of the representative or at the registered office or domicile of the investor.

7) State of origin

The state of the origin of the fund is Ireland.
