- Brookfield Global Listed Infrastructure Long Short UCITS Fund (terminated on 28 December 2017)
- Brookfield Real Assets Debt UCITS Fund (not currently available for purchase)

With the prior approval of the Central Bank, the Company may from time to time create such additional sub-funds as the Directors deem appropriate. Details of any such sub-fund or sub-funds created in the future shall be as set out in the applicable Supplement in accordance with the requirements of the Central Bank.

Business Day is defined as any day (except Saturdays, Sundays and public holidays in Dublin and on the New York Stock Exchange) on which retail banks in Dublin and the New York Stock Exchange are open for business or such other day or days as may be determined by the Directors. As 30 June 2023 was the last Business Day this was the date used to strike the Net Asset Value (“NAV”) upon which the financial statements are based.

The objective of each sub-fund is as follows:

Brookfield Global Listed Real Estate UCITS Fund

The sub-fund seeks total return through growth of capital and current income. The sub-fund seeks to achieve its investment objective by investing primarily in real estate investment trusts (REITs) and other related securities issued by U.S. and non-U.S. real estate companies. The sub-fund launched 30 November 2011.

Brookfield Real Assets Securities UCITS Fund

The sub-fund seeks total return, which is targeted to be in excess of inflation, through growth of capital and current income. The sub-fund seeks to achieve its investment objective by investing at least 80% of its net assets in both equity and fixed income securities of “real assets” asset classes, in the following categories, all of which will be listed or traded on a recognised market: real estate securities, infrastructure securities; and natural resources securities. The sub-fund launched 1 September 2015.

Brookfield Global Renewable and Sustainable Infrastructure UCITS Fund

The sub-fund seeks total return through growth of capital and current income. The sub-fund seeks to achieve its investment objective by investing primarily in equity securities of global renewables and sustainable infrastructure companies listed or traded on a Recognised Market. This sub-fund launched on 19 August 2020.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

1. The Company (continued)

Brookfield Global Listed Core Infrastructure UCITS Fund

The sub-fund seeks total return through growth of capital and current income. The sub-fund seeks to achieve its investment objective by investing primarily in securities of infrastructure companies listed or traded on a Recognised Market. The sub-fund launched 24 June 2021.

Brookfield US Listed Real Estate UCITS Fund

The sub-fund sought total return through growth of capital and current income. The sub-fund sought to achieve its investment objective by investing primarily in real estate investment trusts (REITs) and other related securities issued by U.S. real estate companies. The sub-fund was terminated on 23 November 2021.

Brookfield Global Listed Infrastructure UCITS Fund

The sub-fund sought total return through growth of capital and current income. The sub-fund sought to achieve its investment objective by investing primarily in securities of infrastructure companies listed or traded on a Recognised Market. The sub-fund was terminated on 26 October 2021.

Brookfield Global Listed Infrastructure Long Short UCITS Fund

The sub-fund sought to generate high risk-adjusted absolute returns with low correlation to the broad equity and fixed income markets. The sub-fund sought to achieve its investment objective by taking long and short positions primarily in equity securities of publicly traded infrastructure companies throughout the world. These included publicly traded securities of infrastructure companies whose primary operations or principal trading market are in non-U.S. markets. The sub-fund was terminated on 28 December 2017.

Brookfield Real Assets Debt UCITS Fund

The sub-fund seeks total return, which is targeted to be in excess of inflation, through current income and growth of capital. The sub-fund seeks to achieve its investment objective by investing at least 80% of its net assets in fixed income securities of "real assets" asset classes in the following categories, all of which will be listed or traded on a recognised market: real estate securities; infrastructure securities; and natural resources securities. The sub-fund is not currently available for purchase.

2. Significant Accounting Policies

Basis of Preparation

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union, the requirements of the Companies Act 2014, as amended, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (the "UCITS Regulations"). The accounting policies applied in the preparation of the interim financial statements are consistent with the accounting policies applied in the preparation of the audited annual financial statements. The financial statements are prepared on the going concern basis.

Financial instruments

Classification of financial instruments

Under IFRS 9, a financial asset is classified as measured at: amortised cost; Fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL"). The classification of financial assets under IFRS 9 is based on the business model in which a financial asset is managed and on its contractual cash flow characteristics.

In evaluating the classification of financial assets the Company has determined the following:

- Based on how performance is evaluated, how risks are managed and how compensation is paid, the business model for financial assets is to manage on a fair value basis.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

2. Significant Accounting Policies (continued)

Financial instruments (continued)

Classification of financial instruments (continued)

- The contractual cash flows of the financial assets are not solely payments of principal and interest.

Based on the above evaluation, the Company's financial assets are classified at FVTPL.

The Company's financial liabilities are classified at FVTPL in line with the principles of IFRS 9.

Recognition/derecognition of financial instruments

Purchases and sales of investments are accounted for on the day the trade transaction takes place. Investments are derecognised when the rights to receive cash flows from the investments have expired or the risks and rewards of ownership have all been substantially transferred. Realised gains and losses on disposals are calculated using the weighted average basis and are reflected as net realised gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

Initial measurement of financial instruments

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets and liabilities are presented in the Statement of Comprehensive Income, in the year in which they arise.

Financial assets and liabilities at fair value through profit or loss

Valuation Principles

The value of any investment which is quoted, listed or normally dealt in on a regulated market shall be calculated at the last trade price. Investments quoted, listed or normally dealt in on more than one market shall be calculated at the last traded price on the market, that in the opinion of the Directors provides the principal market for such investment. When prices are not available for any reason, or such prices are deemed to not represent fair value, the value thereof shall be the probable realisation value which must be estimated in good faith by such competent person as may be appointed by the Directors and approved for the purpose by the Depositary.

The fair value of financial instruments traded in active markets (for example bonds, debt securities, equities and similar assets) were recorded based on quoted market prices as at 31 December 2022.

For all other financial instruments not traded in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include: using recent arm's length market transactions; reference to the current market value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible.

Forward Currency Contracts

The fair value of open foreign currency contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. For each relevant sub-fund, gains or losses on open forward currency contracts are included in investments in financial derivative instruments in the Statement of Financial Position.

Contracts for Difference (the "CFD")

Off-exchange derivative contracts are valued by the counterparty at least daily. The valuation must be approved or verified weekly by a third party who is independent of the counterparty and who is approved for the purpose by the Depositary. For each relevant sub-fund, gains or losses on contracts for difference are included in investments in financial derivative instruments in the Statements of Financial Position.

Income

Dividends are recognised as income on the dates that the related investment is first quoted 'ex-dividend' to the extent information thereon is reasonably available. Interest income and interest expense are recognised on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

2. Significant Accounting Policies (continued)

Financial assets and liabilities at fair value through profit or loss (continued)

Realised and Unrealised Gains/(Losses) on Investments

Realised gains and losses and unrealised gains and losses arising on the valuation of investments are recognised in the Statement of Comprehensive Income, where relevant. The cost of investments sold is recognised on a weighted average basis.

Fees and Charges

All expenses are recognised in the Statements of Comprehensive Income on an accruals basis.

Foreign Currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the functional currency). As at 30 June 2023 this was the United States Dollar ("USD").

Transactions in foreign currencies were translated at the foreign currency exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies were translated to USD at the foreign currency closing exchange rate at the dates that the values were determined. Income and expenses were translated at the daily average exchange rates. Foreign currency exchange differences relating to investments at fair value through profit or loss were included in the net realised and unrealised gain on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. All other foreign currency exchange differences relating to monetary items, including cash, are presented in the Statement of Comprehensive Income.

Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act of 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a 'chargeable event'. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a shareholder who is neither an Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act of 1997, as amended, are held by the Company; and
- (b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities.

The redeemable participating shares can be put back to the Company on any dealing day for cash equal to a proportionate share of the Company's Net Asset Value.

Transaction costs

Transaction costs include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and security exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. These are expensed through the Statement of Comprehensive Income as incurred.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

2. Significant Accounting Policies (continued)

Financial assets and liabilities at fair value through profit or loss (continued)

Receivables and payables

Receivables and payables represent amounts receivable and payable for transactions contracted but not yet delivered.

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition/origination. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method. The difference between the proceeds and the amounts payable are recognised over the period of the payable using the effective interest method.

Dividends

Dividends may be paid at the Directors' discretion. Shareholders will be notified in advance of any dividend being declared and details of any change in dividend policy will be provided by amending the Prospectus or the applicable Supplement. For further details of dividends paid during the financial period please refer to note 4.

3. Fees

Management Company Fee

Under the provisions of the Management Agreement, the Company will pay KBA Consulting Management Limited (the Manager) a fee not exceeding 0.02% per annum of the Net Asset Value of a sub-fund as of the relevant Valuation Date subject to the minimum fee of EUR 50,000 per annum for the initial sub-fund and EUR 12,500 per annum for each incremental sub-fund. The management company fee will accrue daily and will be payable monthly in arrears (and pro rata for lesser periods).

The Manager will also be entitled to reimbursement of all reasonable properly-vouched out-of-pocket expenses (including VAT thereon) incurred in the performance of its duties hereunder.

The management company fees charged for the financial period amounted to USD 48,629 (30 June 2022: USD 64,319). Fees of USD 19,864 (31 December 2022: USD 37,687) were outstanding at financial period end.

Investment Management Fees

Under the provisions of the Investment Management Agreement, the Company will pay Brookfield Public Securities Group LLC (the Investment Manager) a fee in respect of its duties at an agreed upon percentage of the closing Net Asset Value of the relevant sub-fund (plus VAT, if any) prior to the accrual of the investment management fee as of each Valuation Date. The Investment Management fee will accrue on and will be reflected in the Net Asset Value calculated on each Valuation Date and will be paid monthly in arrears.

The Investment Manager shall also be entitled to be repaid all of its reasonable out of pocket expenses incurred in the performance of its duties under the investment management agreement.

The Investment Management fees charged for the financial period amounted to USD 1,116,404 (30 June 2022: USD 3,074,270). Fees of USD 157,929 (31 December 2022: USD 720,337) were outstanding at financial period end.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

3. Fees (continued)

Investment Management Fees (continued)

The Investment Manager has voluntarily agreed to waive all or a portion of its management fees and/or reimburse certain expenses of each sub-fund to the extent necessary to maintain the sub-funds' total expense ratios (excluding brokerage commissions and other transactional expenses, interest, taxes and extraordinary expenses, such as litigation; and other expenses not incurred in the ordinary course of each sub-fund's business) at no more than the expense caps listed in the table below. This fee waiver and expense reimbursement arrangement is voluntary which the Investment Manager may terminate in its sole discretion at any time. Any decision to terminate the fee waiver will be notified to the Board of Directors. Please refer to the Company's Prospectus, Supplements and Key Investor Information Document (KIID) available at www.brookfield.com for further details of any charges that may be applied to an investment in each sub-fund.

4. Dividends

The Articles permit the Directors to declare on the Shares or on any class of Shares such dividends, including interim dividends, as appear to the Directors to be justified. The Directors have reviewed and approved a dividend policy, which they in their sole authority, have the ability to amend as seen as justified. The Directors may, with the sanction of the Company in a general meeting, satisfy any dividend due to holders of the Shares, in whole or in part, by distributing to them in specie any of the assets of the Company and, in particular, any investments to which the Company is entitled provided that, where the share capital is divided into different classes of Shares, any such distributions to the holders of one class of Shares shall not materially prejudice the interests of the holders of the other classes of Shares. Alternatively, if a holder does not wish to receive a dividend by way of in specie distribution, it may require the Directors to realise such investments necessary in order to effect the relevant distribution.

Any dividend unclaimed after a period of six years from the date of declaration of such dividend shall be forfeited and shall revert to the relevant sub-fund.

Transactions with Connected Persons

The Central Bank UCITS Regulations states that any transaction carried out with a UCITS by a management company or Depositary to a UCITS; and the delegates or sub-delegates of such a management company or Depositary (excluding any non-group company sub-custodians appointed by a Depositary); and any associated or group company of such a management company, Depositary, delegate or sub-delegate ("connected person") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the shareholders.

The Board of Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the Central Bank UCITS Regulations are applied to all transactions, with connected persons; and the Board is satisfied that transactions with connected persons entered into during the financial year were carried out as if negotiated at arm's length and in the best interests of the Shareholders.

8. Risk Associated with Financial Instruments

The sub-funds utilise various methods to value investments measured at fair value on a recurring and non recurring basis. The fair value hierarchy is categorised into three levels based on the inputs as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities;

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly (as prices) or indirectly (derived from prices); and

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

8. Risk Associated with Financial Instruments (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes 'observable' requires significant judgment by Company management. Company management considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to Company management's perceived risk of that instrument.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Company management's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Company management uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The following tables summarise the inputs used to value the sub-funds' financial instruments measured at fair value on a recurring and non-recurring basis as at 30 June 2023 and 31 December 2022:

8. Risk Associated with Financial Instruments (continued)

The sub-funds did not invest in any Level 3 securities during the financial periods ended 30 June 2023 and 31 December 2022 and there were no transfers in or out of Level 1, Level 2, and Level 3.

Valuation Techniques

When fair values of listed equities and publicly traded derivatives at the reporting date are based on quoted market prices or binding dealer price quotations, without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy. Debt Securities valued at the bid price provided by recognized investment dealers are included in Level 2 of the hierarchy.

The Company uses widely recognised valuation models for determining fair values of over-the-counter derivatives. For these financial instruments, inputs into models are market observable and are therefore included within Level 2.

The fair values of currency exchange contracts (forward currency contracts) are calculated by reference to current exchange rates for contracts with similar maturity and risk profiles.

Market Price Risk

Set out below is a description of risks and an outline of the processes the Investment Manager has implemented to assess, monitor and control these specific risks:

Market price risk is the risk that the fair value of financial instruments (i.e., bonds, equities and other investments) or its future cash flows will fluctuate because of changes in market prices and includes currency risk and interest rate risk. The Company's market risk management strategy is driven by the investment objectives of each of the sub-funds. The sub-funds are actively managed.

The following specific processes are in place to control market risk:

- Market risk for all sub-funds is assessed by the Investment Manager in the context of the total portfolio being managed, where financial derivative instruments are included on a fully paid up exposure basis;
- Consideration is given to basis risk (the risk that the financial derivative instrument will not move in line with the physical position) where appropriate;
- Restrictions on gearing of portfolios are in place (as defined in the Company's Prospectus). Financial derivative instruments cannot be used to circumvent these restrictions;
- Net exposures of a sub-fund to an asset class, including the delta weighted exposure of derivative instruments are restricted by the Company's investment guidelines;
- In the case of use of financial derivative instrument positions to achieve exposure, the sub-funds hold sufficient cash or appropriate equivalent to meet potential obligations arising from the net derivative position. In the case of derivative positions to remove exposure, the sub-funds hold assets, which are considered a reasonable hedge.

The Company is exposed to market risk, (which includes the risk of market fluctuations, currency risk, interest rate risk and portfolio management risk), liquidity risk and credit risk arising from the financial instruments it holds. The Company may use derivatives and other instruments in connection with its risk management activities.

8. Risk Associated with Financial Instruments (continued)

Market Price Risk (continued)

The Company has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy and has established processes to monitor and control economic hedging transactions in a timely and accurate manner. The Company's accounting policies in relation to derivatives are set out in note 2 to the financial statements and the Company has a Risk Management Process in place for the use of financial derivative investments which has been approved by the Board and the Central Bank of Ireland.

As at 30 June 2023, a 5% increase or decrease in the market prices of the underlying instruments would have increased or decreased the net assets attributable to holders of redeemable shares by the amounts shown below, on the basis that all other variables remained constant. The Investment Manager considers this movement to be a reasonable size of movement to use as an indicator of the size of market price move a sub-fund might experience.

Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates.

The majority of the Company's financial assets and liabilities and financial derivatives are non-interest bearing and therefore are not exposed to interest rate risk. Brookfield Real Assets Securities UCITS Fund has investments in corporate bonds which are subject to interest rate risk.

The table below summarises the maturity periods for interest-bearing securities held by Brookfield Real Assets Securities UCITS Fund as at 30 June 2023.

As at 30 June 2023, a 100 basis points change in interest rates would have an impact on net assets attributable to holders of redeemable shares and cause an increase/decrease in net assets attributable to holders of redeemable shares of USD 61,177 (31 December 2022: USD 59,426) for Brookfield Real Assets Securities UCITS Fund.

The interest rate sensitivity provided above represents a hypothetical outcome and is not intended to be predictive. Market conditions, and therefore future interest rates, could vary significantly from that suggested.

In accordance with the Company's policy, the Investment Manager monitors the Company's overall interest rate sensitivity on a continuous basis, and the Board reviews it on a quarterly basis.

Foreign Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The income and capital value of the Company's investments can be significantly affected by currency translation movements as the majority of the Company's assets could be denominated in currencies other than base currency. The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset.

The tables that follows analyse the net amount of monetary assets and liabilities held by each sub-fund at the balance sheet date denominated in currencies other than USD, the functional currency as at 30 June 2023 and 31 December 2022.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in realising assets or in meeting obligations associated with financial liabilities as they fall due, including meeting daily redemptions of participating shares. The Investment Manager seeks to mitigate this liquidity risk by ensuring that a reasonable portion of the sub-fund's investments trade in active markets and can be sold readily.

Notes to the financial statements for the financial period ended 30 June 2023 (continued)

8. Risk Associated with Financial Instruments (continued)

Liquidity Risk (continued)

There can be no assurance that an adequate market for the investments will exist at all times, or that the prices at which the investments trade accurately reflect their fair value. Low trading volumes of the investments could also make it difficult to liquidate holdings quickly.

As required by IFRS 7, the sub-funds' financial liabilities should be categorised into relevant maturity groupings based on the remaining period as at 30 June 2023 and 31 December 2022 to the contractual maturity date. However, as all liabilities mature in less than one year from the balance sheet date for both 30 June 2023 and 31 December 2022, this analysis is not required in this instance. In accordance with the Company's policy, the Investment Manager monitors the Company's overall liquidity risk on a continuous basis.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause financial loss to another party by failing to discharge an obligation. It is the Company's policy to enter into financial transactions with a range of reputable counterparties thus diversifying the credit risk. Therefore, the Company does not expect to incur material credit losses on its financial instruments.

With respect to Financial Derivative Instruments (FDIs), credit risk arises from the potential failure of counterparties to meet their obligations under the contract or arrangement.

The Company is exposed to credit risk on cash held with the Depositary. Bankruptcy or insolvency of the Depositary may cause the Company's rights with respect to securities held by RBC Investor Services Bank S.A., Dublin Branch to be delayed or limited. The Company monitors its risk by monitoring the credit quality and financial position of RBC Investor Services Bank S.A., Dublin Branch.

As at 30 June 2023 RBC Investor Services Bank S.A. has a credit rating of AA- with Standard and Poor's ("S&P") (as at 31 December 2022: AA- for S&P). The Investment Manager regularly reviews concentrations of credit risk.

Financial Derivative Instruments

The Investment Manager has assessed the risk profile of the Company and the related sub-funds on the basis of the investment policy, strategy and the use of financial derivative instruments. Based on the risk profile, the Investment Manager has determined that the method for the calculation of the global exposure to financial derivative instruments for all sub-funds will be the commitment approach, where the sub-fund holds financial derivative instruments.

8. Risk Associated with Financial Instruments (continued)

Efficient Portfolio Management

The Company may, within the conditions and limits laid down by the Central Bank of Ireland, for the purpose of efficient portfolio management specifically for currency hedging, enter into a variety of derivative instruments including, but not limited to, CFD - Equities, options, index futures and financial futures. The Company may also purchase or sell spot or forward currency contracts predominantly for the purpose of providing protection against exchange rate risk.

Furthermore, the Company may, for efficient portfolio management, enter into CFD - Equities with one or more counterparties subject to the conditions and limits set out in the Regulations.

Each sub-fund may also utilise derivative instruments for investment purposes and details of such instruments used and the specific strategies for which such instruments are employed in this context will be set out in the applicable Supplement 'Efficient Portfolio Management', for these purposes, means an investment decision involving transactions that are entered into for one or more of the following specific aims:

- a reduction of risk;
- a reduction of cost; and
- the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the Regulations.

The Company will employ a risk management process which will enable it to accurately manage, monitor and measure the risks attached to derivative positions and details of this process have been provided to the Central Bank. The Company will not utilise derivative positions which have not been included in the risk management process until such time as a revised risk management process has been submitted and cleared by the Central Bank. The Company will provide on request to shareholders supplementary information relating to the risk management methods employed by the Company including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments of the relevant sub-fund.

The realised and unrealised gains/(losses) arising from the derivative transactions were presented in the Statements of Comprehensive Income under the position 'Net realised and unrealised gain/(loss) on financial assets and liabilities at fair value through profit or loss' and in the corresponding note 6.

As further detailed in note 9, in seeking to hedge part of the currency risk exposure in the core portfolio for Brookfield Global Listed Real Estate UCITS Fund forward currency contracts were utilised as at the financial period end. The realised and unrealised gains/(losses) arising from the derivative transactions were presented in the Statements of Comprehensive Income under the position 'Net realised and unrealised gain/(loss) on financial assets and liabilities at fair value through profit or loss' and in the corresponding note 6.

The exposure obtained through efficient portfolio management is equivalent to the value of the forward currency contracts held as at the financial period end. The counterparty in relation to the forward currency contracts as at 30 June 2023 is RBC IS Bank Luxembourg (31 December 2022: RBC IS Bank Luxembourg).

There were no netting agreements in place for financial period ended 30 June 2023 (none for 31 December 2022). As result revised requirements of IFRS 7 to disclose offsetting requirements for financial assets and liabilities have no impact on current disclosures in the Company's financials.

11. Share Capital and Redeemable Participating Shares

The authorised share capital of the Company is 100,000,000,000 Shares of no par value and 500,000 Subscriber Shares of USD 1 each. The Subscriber Shares do not entitle the holders to any dividend and on a winding up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company.

The Company may by ordinary resolution of all shareholders increase its authorised share capital, consolidate and divide all or any of its share capital into shares of larger amount or sub-divide its shares or any of them into shares of smaller amount. The Company may, by special resolution of all shareholders, reduce its issued share capital.

As the Subscriber Shares are not Participating Shares (and as such do not represent any interest in a sub-fund) they do not entitle the holders thereof to participate in the dividends of any sub-fund.

Each holder of Subscriber Shares is entitled to attend and vote at any general meeting provided that any holder of Subscriber Shares shall not be entitled to vote at any such general meeting at any time that Shares in issue are held by two or more shareholders.

The rights attached to any class of Share may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the holders of 75% of the issued Shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. The provisions of the Articles relating to general meetings shall apply to every such separate general meeting but the necessary quorum at any such meeting shall be two persons holding or representing by proxy at least one third of the issued Shares of the class in question. Any holder of Shares of the class in question present in person or by proxy may demand a poll.

12. Soft Commission Arrangements

For the financial periods ended 30 June 2023 and 31 December 2022, the Investment Manager received soft commissions from brokers/dealers in consideration for directing dealings in the investments of the sub-funds. These soft commissions were in the form of goods and services such as subscriptions to research services which are of demonstrable benefits to shareholders.
