Development of the markets and investment strategy

Development of the markets

The international share indices made an ambivalent start to the first trading week of the new stock market year 2023. While European indices opened January with a veritable upward rally, neither U.S. nor Far Eastern indices were able to match this. The EuroSTOXX 50, for example, achieved an increase of over 10%. However, the German DAX also impressed with a gain of over 9%. While U.S. indices caught up in mid-January, the Japanese share index Nikkei 225 was unable to keep pace. Until May, both U.S. and Far Eastern stocks had to contend with repeated downward movements, meaning that they were no longer able to build on their interim positive trends and suffered corresponding losses which could not be offset despite repeated recoveries. In addition to the interest rate hikes by the European Central Bank and the U.S. Federal Reserve and the geopolitical tensions between the U.S. and China, the main media focus was on the emergency takeover of the major Swiss bank Credit Suisse by UBS, the collapse of the Silicon Valley Bank SVB that had already taken place and the resulting fears of another “banking crisis”: In addition, the ongoing tensions in the Ukraine conflict and the first settlement of a liquefied natural gas (LNG) trade in yuan were highlighted in the media. Against this backdrop, the EuroSTOXX 50, for example, lost 6.46% of its value at its peak while the Nikkei 225 in Japan also fell by just under 6% and the S&P 500 overseas by just under 5%. At the beginning of June, share indices from Europe and overseas recorded upward movements again with Japan’s Nikkei 225 leading the way, rising by 9.12% at its peak. However, U.S. technology stocks also performed well during this phase. The summer, on the other hand, was divided into two parts. While a positive mood prevailed in the first half of the summer, August did not match this and even an upward trend towards the end of the summer was unable to offset the negative tendencies. The main reasons for this were the slight decline in inflation, the renewed interest rate hike by the ECB and Fed, which predicted further rate hikes for 2023, and China’s weakening economy. At the beginning of September, there was a renewed downward trend; only indices from the Far East, such as the Japanese Nikkei 225, showed positive trends in September. This was followed by a reversal in October with indices from the Far East again losing out on their positive performance. European trading centres in particular led the negative sentiment with the U.S. indices also following suit. This period was overshadowed above all by the attack on a music festival in Israel and the subsequent flare-up of conflict in the Middle East. A recovery was recorded in the last two months of the period under review. In addition to new highs overseas, the EuroSTOXX 50 also rose above 4,500 points for the first time

since 2007. Only Far Eastern indices, such as the Nikkei 225, did not keep pace. The latter lost more than 3% points in the first half of December. In addition to the conflict in the Middle East, the media was dominated by the prospect of a possible end to interest rate hikes by central banks.

Investment strategy

C-QUADRAT ARTS Best Momentum seeks to achieve capital growth whilst accepting higher risks. In implementing the investment policy, the fund management uses a technical trading program developed by ARTS Asset Management with a short-term to medium-term trend-following orientation. Funds which show a positive behavioural trend in the short to medium term are given the highest weighting in the portfolio. In contrast to most classically managed funds of funds, the investment strategy of C-QUADRAT ARTS Best Momentum is not geared to a benchmark, the aim is rather to realise an absolute increase in value in the long term. C-QUADRAT ARTS Best Momentum represents a highly active management style, the composition of the portfolio is constantly changing.

Note on risk

There is a risk that, due to the formation of market prices on illiquid markets, the valuation prices of certain securities may differ from their actual sales (valuation risk).

The value of a unit is calculated by dividing the total value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is to be determined by the custodian bank on the basis of the respective market values of the securities, money market instruments and subscription rights forming part of it plus the value of the financial assets, amounts of money, credit balances, claims and other rights less liabilities forming part of the fund.

The net assets are determined according to the following principles:

- The value of assets that are quoted or traded on a stock exchange or another regulated market is generally determined on the basis of the last available price.
- If an asset is not quoted or traded on a stock exchange or another regulated market or if the price of an asset quoted or traded on a stock exchange or another regulated market does not adequately reflect the actual market price, the prices supplied by reliable data providers or, alternatively, the market prices for equivalent securities will be taken or other recognised valuation methods employed.

Transactions in accordance with regulation (EU) 2015/2365 (SFTR)

Securities lending transactions within the meaning of Regulation (EU) 2015/2365 (The Regulation on Transparency of Securities Financing Transactions and of Reuse) must not be used for the fund. For this reason, securities lending transactions were not used in the reporting period.

Repurchase agreements within the meaning of Regulation (EU) 2015/2365 (The Regulation on Transparency of Securities Financing Transactions and of Reuse) must not be used for the fund. For this reason, repurchase agreements were not used in the reporting period.

Total return swaps within the meaning of Regulation (EU) 2015/2365 (The Regulation on Transparency of Securities Financing Transactions and of Reuse) may be used for the fund. There were no total return swaps during the reporting period.

Performance-related remuneration in the reporting period

In addition, a performance fee is charged in accordance with the fund regulations. During the reporting period no performance-related compensation (performance fee) was levied.

The sub-funds contained therein which are not managed by the company itself are reimbursed management compensations at a rate of 0.12% to 1.51% p.a. by the respective managing investment company. These investment companies did not invoice any front-end fees for the purchase of the units.

Audit certificate

Report on the statement of account

Audit opinion

We have audited the attached statement of account of Ampega Investment GmbH pertaining to

C-QUADRAT ARTS Best Momentum, a co-ownership fund pursuant to the Austrian Investment Fund Act (Investmentfondsgesetz (InvFG)) 2011,

which consists of the statement of net assets effective 31. December 2023, the income statement for the financial year ending on this reporting date and the other information provided in Annex I Schedule B of the InvFG 2011.

In our opinion, the statement of accounts complies with the legal requirements and gives a true and fair view of the financial position, cash flows and financial performance as at 31. December 2023 as well as the results of operations of the fund for the financial year ending on this reporting date in accordance with Austrian corporate law and the provisions set out in InvFG 2011.

Basis of the audit opinion

We conducted our audit in accordance with sec. 49 (5) InvFG 2011 and in accordance with the Austrian principles of proper auditing. These principles require the application of International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described further in the section "Responsibilities of the auditor for the audit of the statement of account" of our audit certificate. We are independent of the company in accordance with Austrian corporate and professional regulations and we have fulfilled our other professional duties in accordance with these requirements. We believe that the audit evidence we obtained until the date of issue of the audit certificate is sufficient and appropriate to serve as a basis for our audit opinion.

Other information

The legal representatives are responsible for the other information. The other information comprises all information contained in the statement of account, with the exception of the statement of net assets, the income statement, the other information provided in Annex I, Scheme B of the Austrian Investment Fund Act 2011.

Our audit opinion on the statement of account does not cover this other information and we do not make any type of representation hereon.

In connection with our audit of the statement of account, we have a responsibility to read that other information and, in doing so, to consider whether the other information is materially inconsistent with the statement of account or our knowledge obtained in the audit or otherwise appears to be misrepresented.

If, based on the work we have performed on the other information obtained prior to the date of the audit certificate, we conclude that there is a material misrepresentation of that other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of the legal representatives and the Supervisory Board for the statement of account

The legal representatives are responsible for the preparation of the statement of account and for the latter to provide a true and fair view of the financial position, cash flows and financial performance of the fund in accordance with Austrian company law and the provisions set out in InvFG 2011. In addition, the legal representatives are responsible for the internal controls that they consider necessary to allow the establishment of a statement of account that is free from material - intended or unintentional - misrepresentations, whether due to fraud or error.

The Supervisory Board is responsible for overseeing the accounting of the company regarding the funds it manages.

Responsibilities of the auditor for the audit of the statement of account

Our objectives are to obtain reasonable assurance as to whether or not the statement of account as a whole is free from material misstatements, whether intentional or unintentional, due to fraud or error, and to certify the statement of account, which includes our audit opinion. Sufficient security is a high degree of security, but it does not guarantee that an audit carried out in accordance with the Austrian principles of proper auditing, which requires the application of the ISA, will always reveal a material misrepresentation, if any. Misrepresentations may result from fraud or errors and are deemed to be material if they individually or collectively could reasonably be expected to affect the economic decisions made by users on the basis of this statement of account. As part of an audit in accordance with the Austrian principles of proper auditing, which require the application of ISA, we exercise obligatory discretion throughout the entire audit and maintain a critical underlying attitude.

In addition, the following applies:

- We identify and assess the risks of material - intentional or unintentional - misrepresentations in the statement of account due to fraud or error, plan audit procedures in response to these risks, perform such audits and obtain audit evidence that is sufficient and appropriate to serve as a basis for our audit opinion. The risk that material misrepresentations resulting from fraud will not be revealed is higher than a risk resulting from errors, since acts of fraud may include fraudulent co-operation, counterfeiting, intended incompleteness, misleading representations or the abolition of internal controls.
- We gain an understanding of the internal control system relevant to the audit to plan audit procedures that are appropriate in the circumstances, but not with the objective of issuing an audit opinion on the effectiveness of the company's internal control system.
- We assess the appropriateness of the accounting methods used by the legal representatives as well as the verifiability of the estimated values presented by the legal representatives in accounting and related information.
- We assess the overall presentation, the structure and the content of the statement of account, including the information as well as if the statement of account reflects the underlying transactions and events in such a way as to achieve the most accurate view possible.

We exchange information with the Supervisory Board, inter alia, about the planned scope and the scheduled timing of the audit, as well as significant audit findings, including any significant deficiencies in the internal control system that we recognise during our audit.

Vienna, 29.04.2024

Deloitte Audit Wirtschaftsprüfungs GmbH

Dipl.-Kffr. Karen Burghardt

Auditor

Note: The audit opinion issued by Deloitte Audit Wirtschaftsprüfungs GmbH only applies for the German-language version.

Tax treatment

Upon the entry into force of the new reporting scheme (from 6 June 2016), the tax treatment will be prepared by Oesterreichische Kontrollbank AG (OeKB) and published at www.profitweb.at. The tax files are available for download for all funds. Please refer to the homepage www.profitweb.at for further information on eligible or refundable foreign taxes.

Average VaR: 8.52%

Maximum VaR: 14.37%

Disclosures on transparency pursuant to Regulation (EU) 2020/852 or disclosures according to Art. 11 of the Sustainable Finance Disclosure Regulation

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

The management according to the principal adverse impact of investment decisions on sustainability factors is not part of the investment strategy in this fund.

However, consideration of principal adverse impact on sustainability factors, including the impact of issuers on sustainability factors, is an integral part of the fund's investment analysis. Sustainability factors include environmental, social and labour concerns, respect for human rights and the fight against corruption and bribery. Investments that are

classified as controversial arms manufacturers according to the ESG data underlying the monitoring are subject to an absolute exclusion. Such exclusion also applies – subject to agreed limits – to investments by or related to issuers that are not compliant with the UN Global Compact criteria according to the data used by the company.

In accordance with the principal adverse sustainability impacts identified at company level, measures are defined for the various asset classes in this context in order to reduce the adverse sustainability impacts. In addition, the company is a signatory to the Principles for Responsible Investment (PRI) and is thus committed to the expansion of sustainable investments and to compliance with the six principles for responsible investment established by the UN.

Fund regulations pursuant to the Austrian Investment Fund Act (InvFG) 2011

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund **C-QUADRAT ARTS Best Momentum**, a Miteigentumsfonds (co-ownership fund) pursuant to the **Austrian Investment Fund Act 2011 as amended (InvFG)**.

The investment fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Ampega Investment GmbH (hereinafter: the "Management Company") which is headquartered in Cologne/Germany.

Article 1 Co-ownership units

The co-ownership units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates are represented by global certificates for each unit class. Therefore, actual securities cannot be issued.

Article 2 Custodian bank (custodian)

The investment fund's custodian bank (custodian) is Raiffeisen Bank International AG, Vienna.

The custodian bank (custodian) is the paying agent for unit certificates.

Article 3 Investment instruments and principles

The following assets may be selected for the investment fund in accordance with InvFG.

The investment fund invests at least 51% of its fund assets in equity funds. Bond funds and money market funds/near-money market funds may be acquired as short-term defensive measure. The fund may thus acquire units in investment funds which seek to achieve a neutral or opposite performance by comparison with a specific market trend.

The following investment instruments are purchased for the fund's assets subject to compliance with the above description.

Securities

Securities (including securities with embedded derivative instruments) may account for **up to 49%** of the fund assets.

Money market instruments

Not applicable.

Securities and money market instruments

The acquisition of securities not fully paid in and subscription rights on such instruments or the acquisition of other financial instruments not fully paid in shall be permitted **up to a maximum of 10%** of the fund assets.

Securities may be acquired where they comply with the criteria for listing and trading on a regulated market or a stock exchange pursuant to InvFG.

Securities which do not fulfil the criteria outlined in the above paragraph may account for **up to 10%** of the overall fund assets.

Units in investment funds

Units in investment funds (UCITS, UCI) may each and overall amount to **up to 20%** of the fund assets and may be purchased within legally permissible limits unless these UCITS or UCI for their part invest more than 10% of their fund assets in units in other investment funds.

Units in UCI may be purchased for **up to 30%** of the fund assets in total.

Derivative instruments

Derivative instruments may account for **up to 49%** of the fund assets (calculated according to market prices) within the framework of the investment fund's strategy and for hedging purposes.

Investment fund's risk measurement method:

The investment fund uses the following risk measurement method:

– value at risk

The VaR figure is calculated pursuant to the 4th chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (Derivate-Risikoberechnungs- und Meldeverordnung) as amended.

– relative VaR

The attributable risk amount for the global exposure, determined as the value-at-risk value of investments made in the fund, is a maximum of **twice** the VaR of a reference portfolio, which meets the requirements as set forth in section 16 (2) of the 4th Derivatives Risk Measurement and Reporting Regulation as amended.

Sight deposits and deposits at notice

Sight deposits and deposits at notice with notice periods not exceeding 12 months may amount to **up to 49%** of the fund assets.

No minimum bank balance need be maintained.

Short-term loans

The Management Company may take up short-term loans of **up to 10%** of the fund assets for account of the investment fund.

Repurchase agreements

Not applicable.

Securities lending

Not applicable.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes. However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Article 4 Issue and redemption modalities

The unit value shall be calculated in EUR.

The value of units will be calculated on each banking day.

Issue and front-end load

The issue price is the unit value plus a fee per unit of **up to 5.00%** to cover the Management Company's issuing costs, rounded up to the nearest cent. There is currently no front-end load for the retro-free unit class "H".

Issue of the units shall not be limited in principle; however, the Management Company hereby reserves the right to cease issuing unit certificates either temporarily or permanently.

Tranche funds: It is at the discretion of the management company to scale the front-end load.

Redemption and redemption fee

No redemption fee will be charged. The redemption price shall correspond to the unit value rounded down to the nearest cent.

At the request of a unitholder, his unit shall be redeemed out of the investment fund at the applicable redemption price against surrender of the unit certificate.

Article 5 Financial year

The investment fund's financial year is the period from January 1 to December 31.

Article 6 Unit classes and appropriation of income

Both distribution unit certificates and accumulation unit certificates with payment of withholding tax on investment income and distribution unit certificates and accumulation unit certificates without payment of withholding tax on investment income paid out may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The Management Company may decide to establish unit classes or to issue units in a given unit class.

Appropriation of income in case of distribution unit certificates (distribution)

Once costs have been covered, the income received during the past financial year (interest and dividends) may be distributed at the discretion of the Management Company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the Management Company. A distribution from the fund assets and interim distributions are also permissible.

The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From February 15 of the following financial year the amounts are to be distributed to the holders of distribution unit certificates. Any remaining balances shall be carried forward to new account.

In any case, from February 15 the amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any withholding tax on investment income commitments on the distribution-equivalent return on those unit certificates.

Appropriation of income in case of accumulation unit certificates with payment of withholding tax on investment income (accumulation)

The income accumulating over the financial year is not distributed after the costs have been covered. For accumulation unit certificates, the amount determined in accordance with InvG is to be paid from February 15, which, if applicable, is to be used to cover the mandatory amount of withholding tax on investment income to be attributable to deemed-distributed income of the unit certificate.

Appropriation of income in case of accumulation unit certifica-

tes without payment of withholding tax on investment income (full accumulation)

The income accumulating over the financial year that remains after the deduction of expenses shall not be distributed. No payment pursuant to InvFG will be made. February 15 of the following financial year shall be the key date pursuant to InvFG in case of failure to pay withholding tax on investment income on the annual yield.

The Management Company must ensure by furnishing evidence from the custodial account providers that, at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian personal income tax or corporation income tax or who meet the requirements for exemption pursuant to section 94 of the Austrian Income Tax Act or for exemption from withholding tax on investment income.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian in the form of credit.

Appropriation of income in case of accumulation unit certificates without payment of withholding tax on investment income (fully accumulating tranche for non-resident investors exempt from withholding tax)

Accumulation unit certificates without deducted withholding tax on investment income shall only be sold outside Austria.

The income accumulating over the financial year that remains after the deduction of expenses shall not be distributed. No payment pursuant to InvFG will be made.

The Management Company must ensure by furnishing evidence that, at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian personal income tax or corporation income tax or who fulfil the requirements for exemption pursuant to section 94 of the Austrian Income Tax Act or for exemption from withholding tax on investment income.

Article 7 Management fee, reimbursement of expenses, liquidation fee

For its management activity the Management Company receives annual remuneration of up to 2.10% p.a. of the fund assets, calculated on the basis of the values at the end of each month.

In addition, the Management Company receives a monthly variable management fee (performance fee) of 20% of the fund's net performance (development of the unit value) in relation to the "high water mark". The "high water mark" corresponds to the unit value at the end of the previous month when a performance fee was last paid and is continuously calculated on the basis of the average fund volume and will influence the calculated net asset value, within the scope of income. The calculation shall be based on the number of units in circulation at the end of the relevant month.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the investment fund, the liquidating party shall receive remuneration amounting to **1.00%** of the fund assets.

The Management Company is entitled to reimbursement of all expenses associated with its management of the fund.

Please refer to the prospectus for further information regarding this investment fund.

ANNEX

List of stock exchanges with official trading and regulated markets

1. Stock exchanges with official trading and regulated markets in the Member States of the EEA as well as stock exchanges in European countries outside the EEA Member States that are considered equivalent to regulated markets

Each Member State is required to maintain an updated list of regulated markets authorised by it. Such list is to be made available to the other Member States and to the European Commission.

Pursuant to the Directive, the European Commission is obliged to publish once per year a list of the regulated markets of which it has received notice.

Due to increasing deregulation and to trading segment specialisation, the list of “regulated markets” is undergoing great changes. The European Commission will therefore provide an updated version on its official website in addition to annual publication of the list in the Official Journal of the European Union.

- 1.1. The current list of regulated markets is available at:
https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg¹⁾
- 1.2. The following stock exchanges are included in the list of regulated markets:
 - 1.2.1. Luxembourg: Euro MTF Luxembourg
 - 1.2.2. Switzerland: SIX Swiss Exchange AG, BX Swiss AG²⁾
- 1.3. Recognised markets in the EEA pursuant to section 67 (2) Item 2 InvFG:
 Markets in the EEA that are classified as recognised markets by the respective competent supervisory authorities.

2. Stock exchanges in European countries that are not members of the EEA

- 2.1. Bosnia Herzegovina: Sarajevo, Banja Luka
- 2.2. Montenegro: Podgorica
- 2.3. Russia: Moscow (RTS Stock Exchange); Moscow Interbank Currency Exchange (MICEX)
- 2.4. Switzerland: SWX Swiss-Exchange
- 2.5. Serbia: Belgrade
- 2.6. Turkey: Istanbul (for stock market, “National Market” only)

¹⁾ To open the directory in the column on the left under “Entity Type”, select the restriction to “Regulated market” and click “Search” (or “Show table columns” and “Update”). The link can be changed by ESMA.

²⁾ In the event that the stock exchange equivalence for Switzerland expires, SIX Swiss Exchange AG and BX Swiss AG are to be subsumed under point 2 “Stock exchanges in European countries outside the EEA Member States” until further notice.

3. Stock exchanges in non-European countries

3.1.	Australia:	Sydney, Hobart, Melbourne, Perth
