Development of the markets and investment strategy

Development of the markets

The international share indices made an ambivalent start to the first trading week of the new stock market year 2023. While European indices opened January with a veritable upward rally, neither U.S. nor Far Eastern indices were able to match this. The EuroSTOXX 50, for example, achieved an increase of over 10%. However, the German DAX also impressed with a gain of over 9%. While U.S. indices caught up in mid-January, the Japanese share index Nikkei 225 was unable to keep pace. Until May, both U.S. and Far Eastern stocks had to contend with repeated downward movements, meaning that they were no longer able to build on their interim positive trends and suffered corresponding losses which could not be offset despite repeated recoveries. In addition to the interest rate hikes by the European Central Bank and the U.S. Federal Reserve and the geopolitical tensions between the U.S. and China, the main media focus was on the emergency takeover of the major Swiss bank Credit Suisse by UBS, the collapse of the Silicon Valley Bank SVB that had already taken place and the resulting fears of another "banking crisis": In addition, the ongoing tensions in the Ukraine conflict and the first settlement of a liquefied natural gas (LNG) trade in yuan were highlighted in the media. Against this backdrop, the EuroSTOXX 50, for example, lost 6.46% of its value at its peak while the Nikkei 225 in Japan also fell by just under 6% and the S&P 500 overseas by just under 5%. At the beginning of June, share indices from Europe and overseas recorded upward movements again with Japan's Nikkei 225 leading the way, rising by 9.12% at its peak. However, U.S. technology stocks also performed well during this phase. The summer, on the other hand, was divided into two parts. While a positive mood prevailed in the first half of the summer, August did not match this and even an upward trend towards the end of the summer was unable to offset the negative tendencies. The main reasons for this were the slight decline in inflation, the renewed interest rate hike by the ECB and Fed, which predicted further rate hikes for 2023, and China's weakening economy. At the beginning of September, there was a renewed downward trend; only indices from the Far East, such as the Japanese Nikkei 225, showed positive trends in September. This was followed by a reversal in October with indices from the Far East again losing out on their positive performance. European trading centres in particular led the negative sentiment with the U.S. indices also following suit. This period was overshadowed above all by the attack on a music festival in Israel and the subsequent flare-up of conflict in the Middle East. A recovery was recorded in the last two months of the period under review. In addition to new highs overseas, the EuroSTOXX 50 also rose above 4,500 points for the first time

since 2007. Only Far Eastern indices, such as the Nikkei 225, did not keep pace. The latter lost more than 3% points in the first half of December. In addition to the conflict in the Middle East, the media was dominated by the prospect of a possible end to interest rate hikes by central banks.

Investment strategy

C-QUADRAT ARTS Total Return Bond has flexible investment guidelines. It may be fully invested both in bond funds and money market funds or near-money market funds. In implementing the investment policy, the fund management increasingly follows a "total return approach" using a technical trading software developed by ARTS Asset Management with a short- to medium-term trend-following alignment. Funds that show a positive behavioural trend in the short to medium term are given the highest weighting in the portfolio. The investment strategy is not geared to a benchmark, the aim is rather to realise an absolute increase in value in all market phases in the long term. The fund is actively managed. If negative trends develop, the bond quota may be reduced to zero. In such a case the moneys are primarily invested in investment funds with short-dated fixed-term deposits.

Note on risk

There is a risk that, due to the formation of market prices on illiquid markets, the valuation prices of certain securities may differ from their actual sales (valuation risk).

The value of a unit is calculated by dividing the total value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is to be determined by the custodian bank on the basis of the respective market values of the securities, money market instruments and subscription rights forming part of it plus the value of the financial assets, amounts of money, credit balances, claims and other rights less liabilities forming part of the fund.

The net assets are determined according to the following principles:

- a) The value of assets that are quoted or traded on a stock exchange or another regulated market is generally determined on the basis of the last available price.
- b) If an asset is not quoted or traded on a stock exchange or another regulated market or if the price of an asset quoted or traded on a stock exchange or another regulated market does not adequately reflect the actual market price, the prices supplied by reliable data providers or, alternatively, the market prices for equivalent securities will be taken or other recognised valuation methods employed.

Transactions concluded during the reporting period if they are no longer stated in the statement of assets

Audit certificate

Report on the statement of account

Audit opinion

We have audited the attached statement of account of Ampega Investment GmbH pertaining to

C-QUADRAT ARTS Total Return Bond, a co-ownership fund pursuant to the Austrian Investment Fund Act (Investmentfondsgesetz (InvFG)) 2011,

which consists of the statement of net assets effective 31. December 2023, the income statement for the financial year ending on this reporting date and the other information provided in Annex I Schedule B of the InvFG 2011.

In our opinion, the statement of accounts complies with the legal requirements and gives a true and fair view of the financial position, cash flows and financial performance as at 31. December 2023 as well as the results of operations of the fund for the financial year ending on this reporting date in accordance with Austrian corporate law and the provisions set out in InvFG 2011.

Basis of the audit opinion

We conducted our audit in accordance with sec. 49 (5) InvFG 2011 and in accordance with the Austrian principles of proper auditing. These principles require the application of International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described further in the section "Responsibilities of the auditor for the audit of the statement of account" of our audit certificate. We are independent of the company in accordance with Austrian corporate and professional regulations and we have fulfilled our other professional duties in accordance with these requirements. We believe that the audit evidence we obtained until the date of issue of the audit certificate is sufficient and appropriate to serve as a basis for our audit opinion.

Other information

The legal representatives are responsible for the other information. The other information comprises all information contained in the statement of account, with the exception of the statement of net assets, the income statement, the other information provided in Annex I, Scheme B of the Austrian Investment Fund Act 2011.

Our audit opinion on the statement of account does not cover this other information and we do not make any type of representation hereon. In connection with our audit of the statement of account, we have a responsibility to read that other information and, in doing so, to consider whether the other information is materially inconsistent with the statement of account or our knowledge obtained in the audit or otherwise appears to be misrepresented.

If, based on the work we have performed on the other information obtained prior to the date of the audit certificate, we conclude that there is a material misrepresentation of that other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of the legal representatives and the Supervisory Board for the statement of account

The legal representatives are responsible for the preparation of the statement of account and for the latter to provide a true and fair view of the financial position, cash flows and financial performance of the fund in accordance with Austrian company law and the provisions set out in InvFG 2011. In addition, the legal representatives are responsible for the internal controls that they consider necessary to allow the establishment of a statement of account that is free from material - intended or unintentional – misrepresentations, whether due to fraud or error.

The Supervisory Board is responsible for overseeing the accounting of the company regarding the funds it manages.

Responsibilities of the auditor for the audit of the statement of account

Our objectives are to obtain reasonable assurance as to whether or not the statement of account as a whole is free from material misstatements, whether intentional or unintentional, due to fraud or error, and to certify the statement of account, which includes our audit opinion. Sufficient security is a high degree of security, but it does not guarantee that an audit carried out in accordance with the Austrian principles of proper auditing, which requires the application of the ISA, will always reveal a material misrepresentation, if any. Misrepresentations may result from fraud or errors and are deemed to be material if they individually or collectively could reasonably be expected to affect the economic decisions made by users on the basis of this statement of account. As part of an audit in accordance with the Austrian principles of proper auditing, which require the application of ISA, we exercise obligatory discretion throughout the entire audit and maintain a critical underlying attitude.

In addition, the following applies:

- We identify and assess the risks of material intentional or unintentional misrepresentations in the statement of account due to fraud or error, plan audit procedures in response to these risks, perform such audits and obtain audit evidence that is sufficient and appropriate to serve as a basis for our audit opinion. The risk that material misrepresentations resulting from fraud will not be revealed is higher than a risk resulting from errors, since acts of fraud may include fraudulent co-operation, counterfeiting, intended incompleteness, misleading representations or the abolition of internal controls.
- We gain an understanding of the internal control system relevant to the audit to plan audit procedures that are appropriate in the circumstances, but not with the objective of issuing an audit opinion on the effectiveness of the company's internal control system.
- We assess the appropriateness of the accounting methods used by the legal representatives as well as the verifiability of the estimated values presented by the legal representatives in accounting and related information.

— We assess the overall presentation, the structure and the content of the statement of account, including the information as well as if the statement of account reflects the underlying transactions and events in such a way as to achieve the most accurate view possible.

We exchange information with the Supervisory Board, inter alia, about the planned scope and the scheduled timing of the audit, as well as significant audit findings, including any significant deficiencies in the internal control system that we recognise during our audit.

Annex to the Sustainable Finance Disclosuer Regulation

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

What was the proportion of sustainability-related investments?

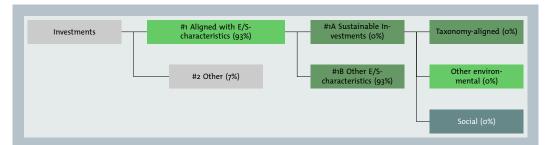

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

The assets of the fund are divided into different categories in the chart below. "Investments" covers all assets that can be acquired for the fund.

Category "#1 Aligned with E/S characteristics" comprises those assets that are transacted within the framework of the investment strategy to attain the promoted ecological or social characteristics.

Category "#2 Other investments" includes, for example, derivatives, bank deposits or financial instruments for which there is not enough data to be able to assess it for the sustainable investment strategy of the fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments. The category #1 Aligned with E/S characteristics covers:

- The Subcategory #1A Sustainable covers environmentally and socially sustainable investments.
- -The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The average of the market values over all valuation dates per economic sector is calculated for all positions of the securities portfolio. The valuation dates are the last valuation dates of each month in the period under review, including the reporting date. The information is given as a percentage of the average fund assets over all reporting dates.

Sector	proportion
Trust funds and other funds	79.75%
Other financial service activities	18.57%
Fund management	1.51%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has notmade any sustainable investments with an environmental objective according to the EU Taxonomy Regulation. Theminimumshare of Taxonomy-aligned investments is therefore shown as o per cent as at the reporting date.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

[] Yes

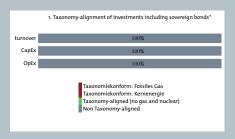

[] In fossil Gas [] In nuclear energy

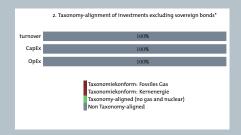

[X] No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the share of investments made in transitional and enabling activities?

No investments were made for this fund that flowed into transitional activities or enabling activities. The minimum share of Taxonomy-aligned investments is therefore shown as o per cent as at the reporting date.

What investments were included under "other", what was their purposte and were there any minimum environmental or social safeguards?

"Other investments" included investments that do not contribute to environmental or social characteristics. These include, for example, derivatives, investments for diversification purposes, investments for which no data is available or cash for liquidity management. With the exception of theminimum exclusions that apply to investments for diversification purposes, no minimum environmental or social protection was taken into account in the acquisition of these assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The fund applied exclusion criteria.

Investments in companies that violate the UN Global Compactwere not considered eligible for investment. The topics of forced labour, child labour and discrimination were also covered in this context. The Best Available Technique (BAT) principle and international environmental legislation, amongst others, were used as assessment guidelines for controversies in the area of environmental

problems. Investments in companies to outlawed weapons (according to the "Ottawa Convention", "Oslo Convention" and the UN conventions "UN BWC", "UN CWC") were notmade. Investments in companies that generate a significant proportion of their turnover from the extraction of oil sands or conversion of coal into electricity are excluded.

For investments in countries, countries with a low sustainability rating were excluded. Dimensions of the assessment included environmental, social and governmental activities that comply within ternational conventions and standards. This was based on an analysis of relevant controversies, such as corruption, environmental pollution or freedom of expression. Countries that violate global norms such as the Freedom House Indexwere also excluded.

The investment fund invests at least 51% of the fund's assets in units of other investment funds that are classified in accordance with Art. 8 or 9 of the Disclosure Regulation.

Disclosures on transparency pursuant to Regulation (EU) 2020/852 or disclosures according to Art. 11 of the Sustainable Finance Disclosure Regulation

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

The management according to the principal adverse impact of investment decisions on sustainability factors is not part of the investment strategy in this fund.

However, consideration of principal adverse impact on sustainability factors, including the impact of issuers on sustainability factors, is an integral part of the fund's investment analysis. Sustainability factors include environmental, social and labour concerns, respect for human rights and the fight against corruption and bribery. Investments that are classified as controversial arms manufacturers according to

the ESG data underlying the monitoring are subject to an absolute exclusion. Such exclusion also applies — subject to agreed limits — to investments by or related to issuers that are not compliant with the UN Global Compact criteria according to the data used by the company.

In accordance with the principal adverse sustainability impacts identified at company level, measures are defined for the various asset classes in this context in order to reduce the adverse sustainability impacts. In addition, the company is a signatory to the Principles for Responsible Investment (PRI) and is thus committed to the expansion of sustainable investments and to compliance with the six principles for responsible investment established by the UN.

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund C-QUADRAT ARTS Total Return Bond, a Miteigentumsfonds (co-ownership fund) pursuant to the Austrian Investment Fund Act 2011 as amended (InvFG).

The investment fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Ampega Investment GmbH (hereinafter: the "Management Company") which is headquartered in Cologne/Germany.

Article 1 Co-ownership units

The co-ownership units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates are represented by global certificates for each unit class. Therefore, actual securities cannot be issued.

Article 2 Custodian bank (custodian)

The investment fund's custodian bank (custodian) is Raiffeisen Bank International AG, Vienna.

The custodian bank (custodian) is the paying agent for unit

Article 3 Investment instruments and principles

The following assets may be selected for the investment fund in accordance with InvFG.

C-QUADRAT ARTS Total Return Bond does not follow any benchmark in terms of its investment strategy. It seeks to realise absolute long-term growth.

The investment fund invests at least 51% of its fund assets in bond funds and money market funds/near-money market funds. The fund may thus acquire units in investment funds which seek to achieve a neutral or opposite performance by comparison with a specific market trend. The following investment instruments are purchased for the fund's assets subject to compliance with the above description.

Securities

Securities (including securities with embedded derivative instruments) may account **for up to 49%** of the fund assets. However, equities and equity-equivalent securities must not be acquired.

Money market instruments

Not applicable.

Securities and money market instruments

The acquisition of securities not fully paid in and subscription rights on such instruments or the acquisition of other financial instruments not fully paid in shall be permitted **up** to a maximum of 10% of the fund assets.

Securities may be acquired where they comply with the criteria for listing and trading on a regulated market or a stock exchange pursuant to InvFG.

Securities which do not fulfil the criteria outlined in the above paragraph may account **for up to 10%** of the overall fund assets.

Units in investment funds

Units in investment funds (UCITS, UCI) may each and overall amount to **up to 20%** of the fund assets and may be purchased within legally permissible limits unless these UCITS or UCI for their part invest more than 10% of their fund assets in units in other investment funds.

Units in UCI may be purchased for **up to 30%** of the fund assets in total.

Derivative instruments

Derivative instruments may account for **up to 49%** of the fund assets (calculated according to market prices) within the framework of the investment fund's strategy and for hedging purposes.

Investment fund's risk measurement method:

The investment fund uses the following risk measurement method:

The VaR figure is calculated pursuant to the 4th chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (Derivate-Risikoberechnungs- und Meldeverordnung) as amended.

- value at risk
- absolute VaR

The allocable risk amount for the overall risk - calculated as the value-at-risk amount for the fund's investments - is limited to a **maximum of 10%** of the net asset value of the fund assets (absolute VaR).

Sight deposits and deposits at notice

Sight deposits and deposits at notice with notice periods not exceeding 12 months may amount to **up to 49%** of the fund assets.

No minimum bank balance need be maintained.

Short-term loans

The Management Company may take up short-term loans of up to 10% of the fund assets for account of the investment fund.

Repurchase agreements

Not applicable.

Securities lending

Not applicable.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes. However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Article 4 Issue and redemption modalities

The unit value shall be calculated in EUR.

The value of units will be calculated on each banking day.

Issue and front-end load

The issue price is the unit value plus a fee per unit of **up to 3.00%** to cover the Management Company's issuing costs, rounded up to the nearest cent. There is currently no frontend load for the retro-free unit class "H".

Issue of the units shall not be limited in principle; however, the Management Company hereby reserves the right to cease issuing unit certificates either temporarily or permanently.

Redemption and redemption fee

No redemption fee will be charged. The redemption price shall correspond to the unit value rounded down to the nearest cent.

At the request of a unitholder, his unit shall be redeemed out of the investment fund at the applicable redemption price against surrender of the unit certificate.

Article 5 Financial year

The investment fund's financial year is the period from January 1 to December 31.

Article 6 Unit classes and appropriation of income

Both distribution unit certificates and accumulation unit certificates with payment of withholding tax on investment income and accumulation unit certificates without payment of withholding tax on investment income may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The Management Company may decide to establish unit classes or to issue units in a given unit class.

Appropriation of income in case of distribution unit certificates (distribution)

Once costs have been covered, the income received during the past financial year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the Fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible. The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From April 300f the following financial year the amounts are to be distributed to the holders of distribution unit certificates. Any remaining balances shall be carried forward to new account.

In any case, from April 30 the amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any withholding tax on investment income commitments on the distribution-equivalent return on those unit certificates.

Appropriation of income in case of accumulation unit certificates with payment of withholding tax on investment income (accumulation)

The income accumulating over the financial year is not distributed after the costs have been covered. For accumulation unit certificates, the amount determined in accordance with InvG is to be paid from April 30 which, if applicable, is to be used to cover the mandatory amount of withholding tax on investment income to be attributable to deemed-distributed income of the unit certificate.

Appropriation of income in case of accumulation unit certificates without payment of withholding tax on investment income

(full accumulation)

The income accumulating over the financial year that remains after the deduction of expenses shall not be distributed. No payment pursuant to InvFG will be made. April 30 of the following financial year shall be the key date pursuant to InvFG in case of failure to pay withholding tax on investment income on the annual yield.

The Management Company must ensure by furnishing evidence from the custodial account providers that, at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian personal income tax or corporation income tax or who meet the requirements for exemption pursuant to section 94 of the Austrian Income Tax Act or for exemption from withholding tax on investment income

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian in the form of credit.

Appropriation of income in case of accumulation unit certificates without payment of withholding tax on investment income (fully accumulating tranche for non-resident investors exempt from withholding tax)

Accumulation unit certificates without deducted withholding tax on investment income shall only be sold outside Austria.

The income accumulating over the financial year that remains after the deduction of expenses shall not be distributed. No payment pursuant to InvFG will be made.

The management company must ensure by furnishing evidence that, at the time of payment, the unit certificates may only be held by unitholders who are either not subject to Austrian personal income tax or corporate income tax or who fulfil the requirements for exemption pursuant to section 94 of the Austrian Income Tax Act or for exemption from withholding tax on investment income.

Article 7 Management fee, reimbursement of expenses, liquidation fee

For its management activity the Management Company receives annual remuneration of up to 1.10% p.a. of the fund assets, calculated on the basis of the values at the end of each month.

In addition, the Management Company receives a monthly variable management fee (performance fee) of 10% of the fund's net performance (development of the unit value) in relation to the "high water mark". The "high water mark" corresponds to the unit value at the end of the previous month when a performance fee was last paid and is continuously calculated on the basis of the average fund volume and will influence the calculated net asset value, within the scope of income. The calculation shall be based on the number of units in circulation at the end of the relevant month.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the investment fund, the liquidating party shall receive remuneration amounting to **0.50%** of the fund assets.

The Management Company is entitled to reimbursement of all expenses associated with its management of the fund. Please refer to the prospectus for further information regarding this investment fund.
