# Report of the Board of Directors of the Company to the shareholders

For the year ended 31 December 2023

We are pleased to present the audited annual report for the year ended 31 December 2023 for the 35 funds that comprise Capital International Fund (the "Company" or "CIF").

CIF is an open-ended investment company established in Luxembourg as a société d'investissement à capital variable (SICAV). Its assets are held in different funds. Each fund holds a separate portfolio of securities and other assets managed in accordance with specific investment objectives.\*

Global equities rallied in 2023 bouncing back from poor returns in 2022. Stocks advanced in nearly all major developed markets, with strong returns across the US, Europe and Japan. Many emerging markets also posted solid gains, particularly Brazil and India, even as stocks in China fell sharply. Markets moved higher despite rising geopolitical risks, including ongoing conflicts in Ukraine and the Middle East.

Bonds markets also rebounded, rallying on expectations that the US Federal Reserve (Fed), the European Central Bank (ECB) and others central banks had finished raising interest rates and could even begin to cut rates in 2024.

In key markets, US equities advanced amid strong economic growth, moderating inflation and a slowdown in the pace of interest rate hikes. Despite market jitters over a banking crisis early in the year, the S&P 500 Index climbed 26%. A strong labour market and resilient consumer spending helped the US economy avoid a recession. Inflation declined throughout the year, with the Consumer Price Index down to 3.1% in November from a peak of 9.1% in June 2022.

European stocks rallied as inflation declined from generationally high levels. Stock prices moved higher throughout the 20-member eurozone despite signs of weakening economic growth in most countries, including Germany and France, Europe's largest economies. Overall, the MSCI Europe Index rose 20% in US dollar terms and 14% in local currency terms.

Japanese equities rose sharply supported by corporate reforms and a weak yen even as the post-pandemic economic recovery stalled. A push by the Tokyo Stock Exchange to improve corporate governance and boost profitability, long-term returns and valuations of its listed companies bolstered investor sentiment.

Emerging markets stocks rose despite China's slowing economy. Interest rate cuts in several developing countries along with economic growth and US dollar weakness helped returns. Latin American equities gained the most on a regional basis. Mexico overtook China as the US's largest trading partner, while Brazilian stocks posted their biggest gain since 2016. Indian equities also climbed as multinational companies set up new factories for mobile phones, home appliances and semiconductors.

Over the year, Capital Group's growth-oriented equities strategies generated strong positive returns and outpaced their reference indices. Balanced funds also posted positive returns but tended to lag their respective composite indices, as did equity strategies focused on income generation. Across the fixed income range, the funds delivered strong positive results but generally lagged their respective reference indices. However, there were particularly strong absolute and relative returns from strategies focused on higher-risk assets such as emerging market debt. A full breakdown of results can be found on pages 17 to 35.

## Assets and cash flow

During the year, CIF's combined total net assets increased to €32.5 billion, up from €24.4 billion. This increase was driven by market movements and net subscriptions of €4.4 billion over the period. Changes in the total net assets for each fund are shown in the Historical Data table on pages 36 to 51.

The table on pages 17 to 35 gives an overview of the funds' results in their accounting currency. Results in other currencies can be found on our website, [thecapitalgroup.com/international](http://thecapitalgroup.com/international).

Thank you for your investment and we look forward to reporting to you again in our next annual report.

## Why do different share classes have different returns?

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the investment returns for that share class. For example:

- Class A4, A7, A9, A11, A13, A15 & C shares and their equivalent classes, where available, are only available to institutional investors who qualify for the reduced Luxembourg tax of 0.01% (rather than 0.05%).
- Class B, BL, N, P, Z and ZL shares and their equivalent classes, where available, are primarily designed for distribution to individual investors. The management fee for class B, N shares and their equivalent classes, where available, is higher than for the other share classes to allow for compensation to distributors and other intermediaries for day-to-day services to investors or similar services in relation to investments made with their assistance.
- Class Y Shares and its equivalent classes are available only to Capital Group Investors, subject to conditions established from time to time by Capital Group, including the entering into of a separate agreement with respect to management fee and/or other fund expenses, which are not deducted from these Shares' Net Asset Value
- The management fee for class C shares and its equivalent classes, where available, is charged to shareholders outside the fund by specific separate agreement. Actual returns to shareholders of class C and its equivalent classes, where available, will be lower than those published.
- In addition, the returns of hedged equivalent classes and dividend distributing hedged equivalent classes are impacted by the passive currency-hedging overlay programme (see note 7 to the financial statements).
- For those funds without a specified reference index, a suitable illustrative index is displayed for context.

<sup>1</sup> Returns are with net dividends reinvested for unhedged share classes. Lifetime returns that relate to a period of less than a year are not annualised.

<sup>2</sup> Launch date is the date as of which shares are first issued by a fund, and hence the date on which the fund or share class was first priced. Prior results back to the launch of the fund relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class.

<sup>3</sup> Investment results are shown in the currency referred to in the relevant class's designation. Lifetime returns are from launch date to 31 December 2023.

<sup>4</sup> Shown for indicative purposes only.

<sup>5</sup> Lifetime returns that relate to a period of less than a year are not annualised.

<sup>6</sup> Capital Group Emerging Markets Growth Fund was launched on 31 May 1990 and merged into Capital International Fund - Capital Group Emerging Markets Growth Fund (LUX) on 28 June 2019.

The accompanying notes form an integral part of these financial statements.

<sup>1</sup> Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

The accompanying notes form an integral part of these financial statements.

<sup>1</sup> Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

## 1) Capital International Fund (CIF)

### a. Legal structure

CIF is an investment company (the “Company”) organised as a Société d’Investissement à Capital Variable (SICAV) in the Grand Duchy of Luxembourg and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the amended law of 17 December 2010. CIF has been converted from a self-managed SICAV into a SICAV managed by a management company, namely Capital International Management Company, Sàrl (the “Management Company”), on 1 February 2013. CIF commenced operations on 30 December 1969.

### b. Funds

CIF has adopted a multiple-compartment (or “umbrella”) structure. CIF currently comprises the following funds (the “funds”): Capital Group New Perspective Fund (LUX), Capital Group Global Equity Fund (LUX), Capital Group World Growth and Income (LUX), Capital Group World Dividend Growers (LUX), Capital Group New Economy Fund (LUX), Capital Group New World Fund (LUX), Capital Group Emerging Markets Growth Fund (LUX), Capital Group Asian Horizon Fund (LUX), Capital Group Japan Equity Fund (LUX), Capital Group European Opportunities (LUX), Capital Group European Growth and Income Fund (LUX), Capital Group AMCAP Fund (LUX), Capital Group Investment Company of America (LUX), Capital Group Capital Income Builder (LUX), Capital Group Global Allocation Fund (LUX), Capital Group American Balanced Fund (LUX), Capital Group Emerging Markets Total Opportunities (LUX), Capital Group Global Bond Fund (LUX), Capital Group Global Intermediate Bond Fund (LUX), Capital Group Global Total Return Bond Fund (LUX), Capital Group Euro Bond Fund (LUX), Capital Group Global Corporate Bond Fund (LUX), Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX), Capital Group Global High Income Opportunities (LUX), Capital Group Multi-Sector Income Fund (LUX), Capital Group US High Yield Fund (LUX), Capital Group Emerging Markets Debt Fund (LUX), Capital Group Emerging Markets Local Currency Debt Fund (LUX), Capital Group EUR Moderate Global Growth Portfolio (LUX), Capital Group EUR Balanced Growth and Income Portfolio (LUX), Capital Group EUR Conservative Income and Growth Portfolio (LUX), Capital Group EUR Conservative Income Portfolio (LUX).

### c. Share classes and currencies

Shares of each fund may be divided into class A4, A7, A9, A11, A13, A15, B, BL, C, N, P, S, Y, Z and ZL shares. In addition, some classes of some funds may be further broken down into equivalent classes.

The funds publish net asset values (NAVs) and offer dealing and reporting in various payment currencies, except hedged equivalent and dividend-distributing hedged equivalent classes for which the funds publish NAVs and offer dealing in the currency referred to in the relevant class’s designation only. A detailed list of all active share classes as at 31 December 2023 is disclosed on pages 17 to 35. Furthermore, the list of all active share classes, available payment currencies and other details can be found online on the Management Company’s webpage at [capitalgroup.com/international](http://capitalgroup.com/international).

The reporting currency in which the consolidated financial statements accounts are prepared is Euro. This currency may be different from the reporting currency of each CIF funds which are expressed in Euro, US dollars or Yen.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statement of net assets, the statement of operations and changes in net assets of each fund converted into the Company’s reporting currency using an exchange rate as at 31 December 2023.

#### d. Dividend Policy

**Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B, Class BL, Class C, Class Y, Class N, Class P, Class S, Class Z and Class ZL and corresponding Hedged Equivalent Classes**

It is not at present intended that dividends be distributed to Shareholders of Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B, Class BL, Class C, Class Y, Class N, Class P, Class S, Class Z, Class ZL and corresponding Hedged Equivalent Classes in any Fund.

#### **Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes**

- **Principle and amount:** The Board of Directors of the Company intends to recommend that dividends be distributed to Shareholders of all Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes.

#### **Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “d”.**

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net investment income.

**Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “gd”.** The dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, gross investment income. The payment of dividends out of gross investment income implies that all or part of the fees and expenses are charged to capital (i.e. accumulated capital gains or initial investment).

**Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with an “ad”.** This share class is available only to Capital Group investors, subject to conditions established from time to time by Capital Group. The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net income.

**Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “fd”.** The dividend will generally be fixed and may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a fixed dividend implies that any payment in excess of the net investment income may include capital gains, as well as partially be paid out of capital.

**Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes marked with a “fyd”.** The dividend will be calculated based on a fixed percentage of the Net Asset Value per Share, resulting in a variable dividend, which may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a dividend calculated in this manner implies that any payment in excess of the net investment income may include capital gains and/or payments out of capital which may result in the reduction of invested capital over time. The fixed percentage applied to the Net Asset Value per Share is intended to achieve a predictable annual dividend yield. The fixed annual dividend yield may be changed at the discretion of the Management Company taking into consideration exceptional circumstances.

■ **Dividend-distributing Equivalent Classes and Dividend-distributing Hedged Equivalent Classes with an “m” designation:** It is intended that these Classes will distribute dividends monthly.

These are marked by a "m", i.e. "dm", "gdm", "adm", "fdm" or "fydm" depending on the applicable dividend methodology (see "Dividend Policy" above for details) or "dmh", "gdmh", "admh", "fdmh" or "fydmh" for Dividend-distributing Hedged Equivalent Classes.

■ **Payment:** Shareholders can elect in writing to have their dividends either reinvested in Shares or paid to them. In the absence of instruction from a Shareholder, the Administrative Manager will automatically reinvest any dividends in Shares promptly upon payment of the dividend. If the Shareholder elects to have dividends paid, the relevant amount will be paid at no charge by bank transfer in the relevant Payment Currency to the bank account designated for this purpose (with all necessary details as specified in the Account Opening Form) by the Shareholder. Upon dividends paid to a Shareholder having been returned to the Company for the second consecutive year, the Administrative Manager will reinvest in Shares the amounts so returned, as well as the amount of any subsequent dividend paid to the same Shareholder until otherwise instructed.

**e. Accounting year**

The accounting year of CIF begins on 1 January and terminates on 31 December in each year.

**2) Significant accounting policies**

**a. General**

These financial statements are prepared in accordance with Luxembourg laws, regulations and practices relating to investment funds. The last audited Net Asset Value, and the last day on which prices were calculated for all funds, was 29 December 2023, with the exception of Capital Group Japan Equity Fund (LUX) which was on the 28 December 2023. Please note that Fund Non-trading dates calendar for the year ongoing is available on CG website at [capitalgroup.com/international](http://capitalgroup.com/international).

**b. Valuation of investments**

- i. Except as otherwise provided in (v) below, securities which are listed on an official stock exchange or traded on any other regulated market are valued at the last traded or otherwise available price at the time the NAV is calculated on the principal market on which they are traded, as published by such market or furnished by a pricing service approved by the Board of Directors of the Company; and other securities are valued at prices furnished by, or yield equivalents obtained from, one or more dealers or such pricing service.
- ii. Securities issued by UCITS or UCIs will be valued at their last available NAV on the relevant valuation date; they may be valued in accordance with item (i) above where such securities are listed.
- iii. Money market instruments will be valued at nominal value plus any accrued interest or using an amortised cost method, provided that this method of valuation ensures that such assets will be valued at their fair value as determined in good faith pursuant to the procedure established by the Board of Directors of the Company.
- iv. Swaps will be valued at the net present value of their cash flows.
- v. The liquidating value of OTC derivatives shall be determined based on information provided by pricing services approved by the Board of Directors of the Company.
- vi. If a price representative of a security's fair value is not readily available from the pricing sources described under (i) through (iv) above, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is materially affected by events that occur prior to the NAV being calculated, the relevant security or securities will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors. In addition, the closing prices of equity securities that trade in markets outside US time zones may be adjusted to reflect significant events that occur after the close of local trading but before the Net Asset Value of each Share Class of the Fund is determined.

### c. Foreign currencies

- i. Assets and liabilities in currencies other than euros have been translated into euros at the prevailing exchange rates as at 31 December 2023. Transactions during the year in currencies other than euros have been translated at rates prevailing at the time of the transaction. The variation of the net unrealised exchange gains or losses on open forward currency exchange contracts and on other assets and liabilities between 31 December 2022 and 31 December 2023 is disclosed in "net change in unrealised appreciation/(depreciation) on foreign currency transactions". The net realised gains or losses on exchange, including on open forward currency exchange contracts expired during the period, are disclosed in "net realised gain/(loss) on foreign currency transactions".

The principal exchange rate applied as at 31 December 2023 is 1 EUR = 155.656951156 YEN and 1 EUR = 1.103950008 USD.

- ii. If a current quote representative of a foreign currency value is not readily available, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is significantly affected by events that occur prior to the NAV being calculated, the relevant foreign currency or currencies will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

### d. Income

Dividends are taken into income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent.

Premiums and discounts on convertible bonds, sinkable bonds, sinkable-callable bonds, index-linked assets, inflation linked assets, dirty priced bonds and unitised bonds are amortised using an effective interest rate (EIR) methodology. Premiums and discounts on all other fixed income securities are amortised on a straight-line basis.

### e. Securities lending

Some Funds may use securities financing transactions as defined under Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 by entering into securities lending transactions to provide an additional source of potential investment return to Shareholders, which will help achieve the Fund's investment objective. Where a Fund enters into securities financing transactions, only equity securities will be subject to securities lending transactions.

Portfolio securities of the relevant Fund will be lent to counterparties such as brokers, dealers or other institutions approved by Capital Group. Counterparties to securities lending transactions are subject to prudential supervision rules that the CSSF deems equivalent to those required under EU Law.

All revenues from securities lending transactions shall be payable to the relevant Fund following the deduction of compensation to the securities lending agent for its services. The expenses which may be deducted from the revenue delivered to the relevant Fund should generally not exceed 5% of the gross revenue arising from securities lending transactions. The difference, i.e. 95%, will be paid to the relevant Fund.

See “Appendix 2: Securities Financing Transactions Regulation (SFTR) disclosure” for further information on securities lending transactions.

The value of loaned securities, related collateral outstanding, identity of the counterparties, security lending income and associated operational costs and fees for the year ended 31 December 2023 are as follows:

**f. Realised gain or loss on sale of investments**

The realised gain or loss on sale of equities is determined on the average cost basis and the methodology of calculating gains or losses on disposal of fixed income securities is first-in-first-out (FIFO).

**g. Unfunded capital commitments**

Unfunded capital commitments represent agreements which obligate the Capital Group Emerging Markets Growth Fund (LUX) to meet capital call in the future. Payment would be made when a capital call is requested. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing and the amount of such capital calls cannot readily be determined. Unfunded capital commitments are recorded when capital calls are requested. As of 31 December 2023, unfunded capital commitments were US\$4,442,188.

**h. Mortgage related securities - To Be Announced securities contracts (TBAs)**

TBA contracts are forward contracts on agency mortgage pass-through securities issued by agencies such as Fannie Mae, Freddie Mac and Ginnie Mae. The particular securities (i.e., specified mortgage pools) to be delivered or received are not identified at the trade date, but are “to be announced” on the notification date which is two days before the settlement date. However, securities to be delivered must meet specified criteria, including face value, coupon rate and maturity, and be within industry-accepted “good delivery” standards. TBAs settle once each month based on a calendar published by the Securities Industry and Financial Markets Association.

TBA positions are disclosed in the schedule of investments. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under “Payable for To Be Announced contracts” in the statement of net assets.

Negative positions in the schedule of investments reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under “Receivable for To Be Announced contracts” in the statement of net assets.

The realised gain/(loss) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings “Net realised gain/(loss) on sale of investments” and “Net change in unrealised appreciation/(depreciation) on investments”.

**i. Swing pricing adjustment**

A fund may suffer dilution of the net asset value as a result of large subscriptions, redemptions or switches. Such dilution would arise from shareholders buying or selling shares at a net asset value which would not accurately reflect the dealing and other costs incurred when securities are traded to accommodate cash inflows or outflows. In order to counter such dilution impact, the Company adopts a swing pricing mechanism as part of its valuation policy. If on any valuation date, the net aggregate amount of subscriptions or redemptions in shares of a fund exceeds a pre-determined threshold expressed as a percentage of the net asset value of that fund, the net asset value may be adjusted upwards or downwards to reflect the costs attributable to the underlying trade in securities undertaken by the Investment Advisers to accommodate inflows or outflows as the case may be.

Any swing pricing adjustment to such net asset value will be applied systematically and consistently based on predefined factors. The price adjustment may vary from fund to fund and will normally not exceed 3% of the original net asset value. The Company may decide to suspend the application of any swing pricing adjustment to the net asset value of any particular fund or increase this price adjustment limit in exceptional circumstances to protect the interests of shareholders. Such price adjustment is available on the Management Company's webpage at [capitalgroup.com/international](http://capitalgroup.com/international) concomitantly with the publication of the relevant net asset value. The Company, relying on the Management

Company and its Conducting Officers' ongoing review, will reassess on a periodic basis the price adjustment factors to reflect an approximation of current dealing and other costs.

As at year end, a swing pricing adjustment has been applied to Capital Group World Dividend Growers (LUX), Capital Group New Economy Fund (LUX) and Capital Group American Balanced Fund (LUX).

The official Net Asset Values per share of this funds, following the application of the swing pricing factor, are shown in the following table.

All other financial information stated in this report is shown before any adjustment for swing pricing.

**3) Fees and expenses**

**a. Management fee**

CIF pays the management fee at the annual rates specified below. This fee is used to compensate the Management Company which can in turn use it to compensate the Investment Advisers for their investment advisory services and the distributors and other intermediaries, as applicable, for services to investors or similar services in relation to investments made with their assistance.

**b. Depositary fee, custody fee and fund administration fee**

The Company has appointed J.P. Morgan SE, as Depositary, Custodian and Administrative Manager.

The depositary, custody and fund administration effective fees may vary with the total assets of the funds and, for the custody fee, with the country breakdown in the portfolio. CIF paid fund administration, depositary and custody fees at the approximate effective annual rates specified below. Rates are calculated based on the average net assets during the period:

**c. Related party transactions**

Professional services in the statement of operations and changes in net assets include an amount of €2,956,843 charged by the Management Company for administrative services rendered during the year ended 31 December 2023.

#### d. Reimbursement of expenses

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the returns to shareholders. The CIF prospectus, available on the Management Company's webpage at capitalgroup.com/international, explains further the differences between share classes.

The Management Company established a reimbursement threshold so that each fund's total expense ratio (excluding management fee) did not exceed the annual rates specified below:

## 5) Taxation

### a. Taxe d'abonnement

In Luxembourg, CIF is subject only to a tax ("taxe d'abonnement") at the annual rate of 0.05% of the total net assets of each share class in each fund. However, as provided by the relevant Luxembourg laws in respect of share classes wholly held by institutional investors, a reduced rate of 0.01% per annum was applied in respect of class A4, A7, A9, A11, A13, A15, C and equivalent share classes, where available, for the year ended 31 December 2023. It should be noted that there can be no guarantee that the benefit of such reduced rate will not be denied or that, once obtained, it will continue to be available in the future. Such tax is accrued daily, payable quarterly and calculated on the total NAV of each share class at the end of the relevant quarter.

### b. Foreign taxes

Capital gains and income on securities may be subject to respectively capital gain taxes and withholding taxes. CIF is not expected to recover such taxes in full, but may have the possibility to reclaim a portion of the withholding taxes in accordance with the tax relief provided for in the double tax treaties in place between Luxembourg and some foreign countries.

It is CIF's policy to accrue for withholding taxes and any other significant liability for foreign capital gain taxes.

The below funds had a provision for Indian Capital Gains Tax net of any refunds as at the year end, the amounts are included within the "Provision for foreign tax" on the Statement of Assets and Liabilities, and movement in the provision for Indian Capital Gains Tax since last year end is disclosed as "Unrealised capital gain tax on investments" on the Combined statement of operations and changes in net assets:

Fund	Fund currency	Provision at 31 December 2023 (in fund currency)	Provision at 31 December 2022 (in fund currency)	Movement (in fund currency)
<b>Capital Group New World Fund (LUX)</b>	USD	1,933,004	611,953	1,321,051
<b>Capital Group Emerging Markets Growth Fund (LUX)</b>	USD	1,580,497	1,036,843	543,654
<b>Capital Group Asian Horizon Fund (LUX)</b>	USD	817,152	142,425	674,727
<b>Capital Group Emerging Markets Total Opportunities (LUX)</b>	USD	803,993	732,657	71,336

Under certain circumstances, CIF may file claims with the tax authorities of some foreign countries, when the tax treatment it has been subject to could be considered as contestable or discriminatory. The nature of these claims is complex and subject to each jurisdiction's local procedural rules and case law. In such cases, in view of the uncertainty of success, and in accordance with the accounting principle of prudence applied in Luxembourg, CIF does not accrue for the potential tax refund. When a claim is successful, any significant withholding tax or capital gain tax reimbursement is recognised as "other income" or "net realised gain on sale of investments" respectively upon notification of the final judgment.

For the year ended 31 December 2023, the total amounts earned by the funds as a result of these claims were as follows:

Sub-Fund	Sub-Fund Currency	Amount
<b>Capital Group New Perspective Fund (LUX)</b>	USD	165,347
<b>Capital Group Global Equity Fund (LUX)</b>	USD	214,498
<b>Capital Group World Growth and Income (LUX)</b>	USD	40,632
<b>Capital Group World Dividend Growers (LUX)</b>	USD	51,180
<b>Capital Group New World Fund (LUX)</b>	USD	472
<b>Capital Group European Growth and Income Fund (LUX)</b>	EUR	757,190
<b>Capital Group Investment Company of America (LUX)</b>	USD	2,132
<b>Capital Group Capital Income Builder (LUX)</b>	USD	79,332
<b>Capital Group Global Allocation Fund (LUX)</b>	USD	29,251

Please refer to the Company's prospectus for further information on taxation.

## 6) Forward currency exchange contracts

In order to achieve the most appropriate currency distribution, the funds enter into forward currency exchange contracts aiming to reduce the risk of the depreciation in the value of specific currencies. The funds do not intend to systematically hedge currency exposures back to any currency, except in the case of hedged equivalent classes, as described in note 7 to the financial statements.

Forward currency exchange contracts are valued on the basis of forward currency exchange rates prevailing on the relevant reporting date and the resulting net change in unrealised gain or loss is included in the statement of operations and changes in net assets.

## 7) Hedged equivalent classes <sup>1</sup>

The hedged equivalent classes seek to limit the exposure of their shareholders to currencies other than the currency referred to in the relevant class's designation, through a systematic passive currency-hedging overlay performed by J.P. Morgan Chase Bank, N.A. on a significant part of the assets of the relevant fund attributable to these classes. In the case of a net asset flow to or from such a class or fluctuation in the net asset value of the class, the passive currency-hedging overlay may not, or not immediately, be adjusted, unless the flow or fluctuation is significant. Passive currency-hedging overlay will not completely eliminate the exposure to currency movements, and proxy hedging may, for instance, be used when the underlying currency is not liquid or is closely linked to another currency. Shareholders of hedged equivalent classes should note that returns of hedged equivalent classes may be significantly different over time than those of unhedged classes and that passive currency-hedging overlay may limit their ability to benefit from the currency diversification undertaken within the portfolio (including partially offsetting the currency hedging undertaken at the level of the fund's portfolio). The cost of passive currency-hedging overlay and gains/losses from hedging transactions are borne by the relevant hedged equivalent class(es).

<sup>1</sup> In this note, "hedged equivalent classes" include "dividend-distributing hedged equivalent classes" as well.

These classes are marked by a “h” and a reference to the currency being hedged into.

The actual passive currency-hedging overlay methodology varies from fund to fund, as described hereafter.

### **8) Credit Default Swaps contracts**

In order to obtain exposure to a diversified portfolio of credits or to hedge against existing credit risks, the funds may use Credit default swaps ("CDS") or credit default swap indices contracts ("CDXs"). CDS allows the transfer of default risk. This allows investors to effectively buy insurance on a Bond they hold (hedging the investment) in the expectation that the credit will decline in quality. Conversely, where the investment view is that the payments due to decline in credit quality will be less than the coupon payments, protection will be sold by means of entering into a credit default swap. A CDX is based on a portfolio of credit default swaps with similar characteristics, such as credit default swaps on high-yield bonds. In a typical CDS and/or CDX transaction, one party - the protection buyer - is obligated to pay the other party - the protection seller - a stream of periodic payments over the term of the contract. If a credit event, such as a default or restructuring, occurs with respect to any of the underlying reference obligations, the protection seller must pay the protection buyer the loss on those credits. The fund may enter into a CDS and/or CDX transaction as either protection buyer or protection seller.

The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts". Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

## 9) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised gain/(loss) is disclosed in the statement of net assets under “Unrealised gain/(loss) on swap contracts.” Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under “Net realised gain/(loss) on swap contracts” and “Net change in unrealised appreciation/(depreciation) on swap contracts”.

## 10) Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instruments at a specific date in the future.

Upon entering into futures contract, the fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the fund periodically and are based on changes in the market value of open futures contracts.

The unrealised gain/(loss) on future contracts is disclosed in the statement of net assets under “Unrealised gain/(loss) on financial futures contracts”. Changes in the market value of open future contracts are recorded as unrealised gain/(loss) in the statement of operations and changes in net assets under “Net change in unrealised appreciation/(depreciation) on financial futures contracts”. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under “Net realised gain/(loss) on financial futures contracts”.

## **12) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect**

Some funds may invest via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively "Stock Connects"). The Shanghai-Hong Kong Stock Connect is a securities trading and clearing linked program developed by Stock Exchange of Hong Kong Limited (the "SEHK"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear") and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing linked program developed by SEHK, Shenzhen Stock Exchange ("SZSE") and ChinaClear, both aiming to achieve mutual stock market access between the People's Republic of China ("PRC") and Hong Kong. Hong Kong Securities Clearing Company Limited (HKSCC), a wholly-owned subsidiary of SEHK, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and/or investors.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by the SEHK, may be able to trade eligible securities, such as China A Shares listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain securities listed on the SEHK.

The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible securities listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain securities listed on the SEHK.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are both subject to a daily quota ("Daily Quota"). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect as well as Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock Connect will be subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of cross boundary trades under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect each day.

## **13) China Interbank Bond Market**

Some funds may invest on the China Interbank Bond Market. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that a fund transacts in the China Interbank Bond Market, the fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value. Since the relevant filings and account opening for investment in the China Interbank Bond Market have to be carried out via an onshore settlement agent, the relevant fund is subject to the risks of default or errors on the part of the onshore settlement agent.

The China Interbank Bond Market is also subject to regulatory risks. The relevant rules and regulations on investment in the China Interbank Bond Market are subject to change which may have potential retrospective effect. In the event that the relevant Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the funds' ability to invest in the China Interbank Bond Market will be limited and, after exhausting other trading alternatives, the relevant fund may suffer substantial losses as a result.

Reforms or changes in macro-economic policies, such as the monetary and tax policies might affect interest rates. Consequently, the price and the yield of the bonds held in a portfolio would/could also be affected.

#### **14) Bond Connect**

Some funds may invest via the Bond Connect. Bond Connect is the historic opening up of China's Interbank Bond Market (CIBM) to global investors through the China-Hong Kong mutual access program. The program allows foreign and Mainland China investors the ability to trade in each other's bond market through a connection between the Mainland and Hong Kong based financial infrastructure institutions.

Bond Connect aims to enhance the efficiency and flexibility of investing in the China Interbank Bond Market. This is accomplished by easing the access requirements to enter the market, the use of the Hong Kong trading infrastructure to connect to China Foreign Exchange Trading System (CFETS) and Bond Settlement Agent, all which are required to invest in the CIBM directly.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

## 17) Calculation method of the Global Exposure and Leverage

In accordance with the CSSF Circular 11/512, the methodology used by most funds (with the exception of the funds listed below) to calculate the Global Exposure resulting from the use of financial derivative instruments is the Commitment Approach. The Commitment Approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that financial derivative. When using the Commitment Approach, the fund may benefit from the effects of netting and hedging arrangements to reduce its Global Exposure. The Global Exposure for a fund under the Commitment Approach must not exceed 100% of the fund's Net Asset Value.

For funds listed below, the Global Exposure methodology used for the calculation of market risk is the absolute or relative Value at Risk ("VaR") approach. The VaR approach seeks to estimate and constrain the potential loss that the fund could experience on a 1-month (20 business days) horizon, with a 99% confidence interval. A third-party risk system is used to calculate analytical VaR utilising historical data observation period of no less than one year (250 days) to carry out the calculation on a daily basis.

Capital Group Multi-Sector Income Fund (LUX)  
Capital Group US Corporate Bond Fund (LUX)  
Capital Group US High Yield Fund (LUX)

For the Capital Group Global Total Return Bond Fund (LUX), the absolute VaR approach is used for the purposes of calculating Global Exposure. The absolute VaR method is subject to the regulatory limit of 20% of the fund's Net Asset Value.

For the other funds, the relative VAR approach is used for the purpose of calculating Global Exposure. The relative VaR approach seeks to compare the VaR of the UCITS to the VaR of the reference portfolio as per respective reference index(es). The VaR of the UCITS compared to the VaR of the reference portfolio is subject to the regulatory limit of 200%.

The table below details the fund's highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the absolute VaR regulatory limit of 20% or a percentage of the relative VaR regulatory limit of 200%. In addition, the Leverage figure is calculated using the Gross Sum of the Notionals of the financial derivatives used by the fund as is required by UCITS regulations and as such does not take into account any netting of the financial derivatives and hedging arrangements that the fund may have in place at any time.

## 18) Significant events during the year

### a. The war in Ukraine

The invasion of Ukraine by Russia on 24 February 2022 resulted in significant economic sanctions on Russia. Following the invasion, CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL fair valued Russian securities at a de minimis (near zero) valuation or where applicable appropriate valuations, as per established valuation policies. These may include but are not limited to, input from investment professionals and observable market datapoints such as related depository receipts and broker quotations. CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL valuations use independent third-party vendor prices that are deemed representative. There may be instances where vendor prices are determined not to be representative, in which case those instruments are fair valued in accordance with established valuation policies.

Over the course of 2023, the pricing and liquidity of Russian fixed income securities has been highly volatile and subject to various adjustments driven by the combination of sanctions, Russian-led market action and subsequent freezing/easing of exchange tradability. The majority of positions are now exited across the relevant fixed income funds.

For equities, CAPITAL INTERNATIONAL FUND exited Russian securities, where possible, for funds that do not have broad ability to invest in emerging markets. For funds that have an emerging market focus, selling or holding Russian securities was at the discretion of the Investment Adviser.

For the avoidance of doubt, the Investment Advisers have suspended the purchase of Russian securities subject to international sanctions. The Investment Advisers have developed systems and controls that are reasonably designed to ensure that our investment management process complies with relevant sanctions - including divestment requirements

where applicable - from various sanctions regulatory bodies, such as the U.S. Treasury's Office of Foreign Assets Control (OFAC), the UK OFSI, the EU, Canada, UN Security Council and other bodies.

The situation remains under close watch as it can change rapidly. CAPITAL INTERNATIONAL MANAGEMENT COMPANY SÀRL is monitoring closely and will continue to adjust valuations as deemed necessary.

## **19) Events subsequent to the year-end**

### **a. Fund launches**

On 27 February 2024, Capital Group Sustainable Global Opportunities Fund (LUX), Capital Group Sustainable Global Balanced Fund (LUX) and Capital Group Sustainable Global Corporate Bond Fund (LUX) were launched.

**b. Compliance with the revised SFC Code**

The revised Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission (SFC Code) came into effect on 1 January 2019 with a 12-month transition period for compliance for funds previously authorised by the SFC (including the funds authorised in Hong Kong).

During the year ended 31 December 2023, disclosures on transactions with Connected Persons (as defined under the SFC Code) of each fund authorised in Hong Kong were further amended for compliance with the applicable requirements under the revised SFC Code. For the avoidance of doubt, as a result of the amendments of disclosures for compliance with the revised SFC Code, there will not be (i) any change of the investment objective and policies of the funds authorised in Hong Kong; (ii) any material changes to the funds authorised in Hong Kong; (iii) any material change or increase in the overall risk profile of the funds authorised in Hong Kong; and (iv) any material adverse impact on the rights or interests of the Hong Kong Shareholders.

**c. Transactions with Connected Persons for the funds authorised in Hong Kong**

Connected Persons of the Management Company, the Investment Advisers and the Directors of the Company, the Custodian and the Depositary are those defined in the SFC Code. All transactions entered into during the period between the Authorised funds and the Management Company, the Investment Advisers and the Directors of the Company, the Custodian and the Depositary and their respective Connected Persons including JP Morgan as securities lending agent were carried out at arm's length in the ordinary course of business and on normal commercial terms.

To the best of the knowledge of the Management Company, the Investment Advisers, the Directors of the Company, the Custodian and the Depositary, the funds did not have any other transactions with connected persons except for those disclosed below.

The following is a summary of the seed money transactions in USD currency (transfers are excluded).

No soft commission arrangements were entered into by the Management Company or the Investment Advisers with brokers for the year ended 31 December 2023.

# General information

## Annual General Meeting

The Annual General Meeting of the shareholders of Capital International Fund (CIF) is held at the registered office of CIF in Luxembourg on the last Tuesday of April in each year at 11:00 am or, if such day is not a Luxembourg business day, on the next business day. Notices of all general meetings are sent to shareholders at their addresses in the register of shareholders by post at least eight days prior to the meeting.

## Information available to investors

The current Prospectus, Key Information Document (KID), Key Investor Information Document (KIID), Articles of Incorporation, audited Annual Report, unaudited Semi-annual Report and a Statement of changes in the investment portfolio for each fund for the year ended 31 December 2023 are made available free of charge at the registered office of CIF or at the authorised representatives of CIF in various jurisdictions in accordance with Luxembourg law and with the laws of all relevant jurisdictions – see Authorised Agents and Country Paying Agents on pages 613 and 614. In addition, for investors in the Federal Republic of Germany, the above documents may be obtained free of charge in paper form from the German paying and information agent.

The net asset value per share can be obtained from the registered office of CIF. In addition, information about the funds is available on the Management Company's webpage at [capitalgroup.com/international](http://capitalgroup.com/international).

## Presentation of results information

### ■ Pre-merger funds

Some of the funds are a consequence of the merger of pre-existing SICAVs into Capital International Fund. For these funds, lifetime results relate to the pre-existing SICAVs.

## The Investment Adviser disclosure

The Investment Adviser and Affiliates (the "Affiliates") will place trades with brokers who provide certain brokerage and/or investment research services to the Affiliates, but only when in the Affiliates judgement the broker is capable of providing best execution for that transaction. For the year ended 31 December 2023, there were no transactions through connected brokers and hence no commissions were paid to connected brokers since none of the Affiliates operate any brokerage activity. These services permit the Affiliates to supplement their own research and analysis, which contributes to the efficient management of investment portfolios by Affiliates for the benefit of investors. Although Affiliates may enter into arrangements with brokers with the expectation that these services will be provided, Affiliates do not incur any obligation with any broker to pay for research by generating trading commissions. Affiliates also pay cash for certain third-party research they receive. In addition, Affiliates' employees are governed by a global Code of Ethics, which includes rigorous personal investing and gifts and entertainment policies. Affiliates may also provide the Company with other services to support its business development, including, but not limited to, product development, fund registration and any other similar support as may be required, for which they receive a reasonable compensation.

# Audit Report

## Audit report

To the Shareholders of  
**CAPITAL INTERNATIONAL FUND**

---

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of CAPITAL INTERNATIONAL FUND (the "Fund") and of each of its sub-funds as at 31 December 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund's financial statements comprise:

- the combined statement of net assets as at 31 December 2023;
  - the schedule of investments as at 31 December 2023;
  - the combined statement of operations and changes in net assets for the year then ended; and
  - the notes to the financial statements, which include a summary of significant accounting policies.
- 

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

#### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

---

#### **Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Appendix 1: Remuneration related information

The Management Company (“Capital International Management Company Sàrl”) has established a **Remuneration Policy**. This policy is designed to discourage excessive risk-taking.

The Management Company's remuneration policy is regularly updated. It includes comprehensive details such as the calculation methodology for remuneration and benefits, the identities of those responsible for awarding remuneration and benefits, and the composition of the remuneration committee. These details are readily available on our website at <https://www.capitalgroup.com/> international. Additionally, a paper copy of the remuneration policy can be provided free of charge upon request.

The remuneration policy aligns with the UCITS V Directive concerning depositary functions, remuneration policies, and sanctions. We confirm that:

- The remuneration policy promotes sound and effective risk management. It does not encourage risk-taking that contradicts the risk profiles, rules, or instruments of incorporation of the UCITS funds managed by the Management Company.
- The remuneration policy aligns with the business strategy, objectives, values and interests of the Management Company, the UCITS it manages, and the Shareholders in these UCITS. It includes measures to avoid conflicts of interest.
- Performance assessment is set within a multi-year framework, which aligns with the holding period recommended to the Shareholders of the UCITS managed by the Management Company. This ensures that the assessment process is based on the UCITS' longer-term performance and investment risks, and that the actual payment of performance-based components of remuneration is spread over the same period.
- The total remuneration is appropriately balanced between fixed and variable components. The fixed component constitutes a sufficiently high proportion of the total remuneration, allowing for a fully flexible policy on variable remuneration components, including the possibility of not paying any variable remuneration component.

For the period ending 31 December 2023, the Management Company paid a total of EUR 4.7 m to 37 beneficiaries\*. This total comprises fixed remuneration of EUR 3.6 m and variable remuneration of EUR 1.0 m \*\*. The total amount paid to senior management was EUR 1.8m, and the amount paid to members who can significantly impact the funds' risk profile was EUR 0.9m.

Fixed remuneration consists of salaries, pension contributions and other benefits such as health insurance. Variable remuneration comprises annual bonuses paid during the period in accordance with the remuneration policy. For staff performing roles for other group companies, only the proportion of remuneration pertaining to the Management Company or the UCITS funds it manages is included in these amounts.

The Management Company has contractual delegation arrangements in place with Capital Research and Management Company (CRMC), Capital International, Inc. (CII), and Capital International Sàrl (CISA) for the provision of portfolio management activities. CRMC, CII and CISA comply with their applicable remuneration regime and adhere to the same principles as the Management Company.

\* with fractional time spent on CIF SICAV responsibilities  
\*\*Figures may not add up to the total due to overhead costs.

# Appendix 2: Securities Financing Transactions Regulation (SFTTR) disclosure

The funds may enter into securities lending transactions subject to the same rules regarding collateral as derivatives where relevant in accordance with the ESMA Guidelines 2014/937.

For each securities lending transaction and subject to a commitment that the equivalent securities will be returned on a future date or when requested to do so, the counterparty must provide cash in USD, EUR or JPY currency or cash equivalents, such as US Treasury securities as Collateral in an amount at least equivalent, at all times during the lifetime of the transactions, to the full current value of the securities lent. US Treasury securities generally have a maturity between one day and one year.

# Appendix 3: Sustainable Finance Disclosure Regulation (SFDR) disclosure

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Capital Group New Perspective Fund (LUX) (the "Fund")

Legal entity identifier: 222100I2U5PFCXI5XS34

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

● ●  Yes

- It made **sustainable investments with an environmental objective: \_\_\_%**
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective: \_\_\_%**

● ●  No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments
  - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
  - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the MSCI ACWI Index ('Index'), and
- At time of purchase exclusions on corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNGC).

The companies in which investments were made followed good governance practices.

The Fund adopted Article 8 status as per Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), as amended, on 1 December 2023. From this date, the Fund applies both the carbon constraint (WACI) and a Negative Screening Policy as described above. Since adoption, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Capital Group New Perspective Fund (LUX) (the "Fund")

**Legal entity identifier:** 222100I2U5PFCXI5XS34

● ***How did the sustainability indicators perform?***

The following sustainability indicators have been used to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
WACI of the corporate issuers compared to Index <sup>1,2</sup>	36% below Index
Percentage of the Fund's investment that complied with the exclusion list <i>[at the time of purchase]</i> <sup>3</sup>	100%

Since adoption of Article 8 status, the Fund has applied and maintained a carbon constraint (WACI) of at least 30% below the Index and applied the Negative Screening Policy. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen, the issuer will not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

● ***...and compared to previous periods?***

Not applicable

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process as follows:

PAI indicator	Integration process	Thresholds (when applicable)
<b>PAI 1 – GHG emissions</b>	<p>PAI 1 was considered as part of the Fund's managements of its WACI for its investments in corporate issuers.</p> <p>PAI 1 covers Scopes 1, 2, and 3 financed emission while the calculation of the WACI is based on Scope 1, and Scope 2 emissions expressed as revenue intensity of the issuer:</p> <ul style="list-style-type: none"> <li>• Scope 1: direct emissions from the investee company's facilities;</li> <li>• Scope 2: indirect emissions linked to the investee company's energy consumption.</li> </ul> <p>The WACI of the portfolio is assessed on an ongoing basis to help the Fund remain within the target level. This allows the investment adviser to measure the carbon footprint and carbon intensity of the portfolio compared to the selected Index, and to understand the attribution of the emission results.</p> <p>It is not the intention to automatically exclude higher carbon emitters on an individual basis as the carbon intensity is monitored at the total portfolio level rather than at the individual holding level.</p>	Management of the carbon footprint (WACI) of its investment in corporate issuers that is generally at least 30% lower than the Index.
<b>PAI 4 – Exposure to companies active in the fossil fuel sector</b>		Exclusion of companies that generate over 10% of their revenue from oil sands extraction and/or Arctic oil production and/or from the production and/or distribution of thermal coal as identified through the relevant MSCI Maximum Percentage of Revenue factor name.
<b>PAI 10 – Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</b>	<p>These PAIs were considered when the investment adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that are inconsistent with the ESG and norms-based screens.</p>	Exclusion of companies that, in the investment adviser's opinion, are violating the United Nations Global Compact (UNGCG) principles.
<b>PAI 14 – Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)</b>		<ul style="list-style-type: none"> <li>- Exclusion of companies that have any ties to controversial weapons: cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments. **Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: Capital Group New Perspective Fund (LUX) (the "Fund")

Legal entity identifier: 222100I2U5PFCXI5XS34

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make "environmentally sustainable investments" within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

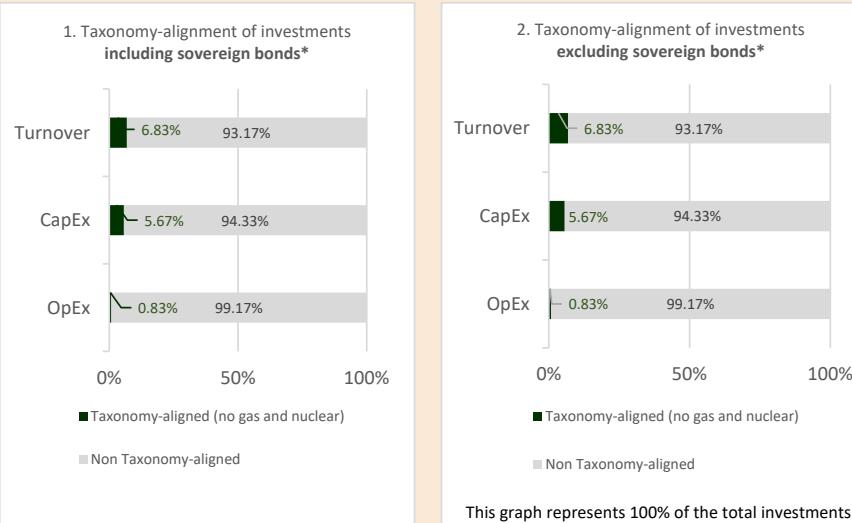

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>4</sup>?

- Yes:  
 In fossil gas       In nuclear energy  
 No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● ***What was the share of investments made in transitional and enabling activities?***

The Fund does not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	6.72%	0.00%
CapEx	5.05%	0.04%
OpEx	0.52%	0.00%

● ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

The investments under the category #2 "Other" consists of a previously eligible issuer that subsequently failed an appropriate screen and no longer contributes towards the E/S characteristics of the Fund. These investments will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

Legal entity identifier: **222100I2U5PFCXI5XS34**

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that is applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen and the investment no longer tributes towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

**How did this financial product perform compared to the reference benchmark?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

  Yes

It made **sustainable investments with an environmental objective**: \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

   No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

 It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the MSCI ACWI Index ('Index'), and
- At time of purchase exclusions on corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNGC).

The companies in which investments were made followed good governance practices.

Throughout the reference period, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics as described above.

● ***How did the sustainability indicators perform?***

The following sustainability indicators have been used to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
WACI of the corporate issuers compared to the Index <sup>1, 2</sup>	35% below the Index
Percentage of the Fund's investment that complied with the exclusion list <i>[at the time of purchase]</i> <sup>3</sup>	100%

Throughout the reference period the Fund has applied and maintained a carbon constraint (WACI) of at least 30% below the Index and applied the Exclusion Policy, which was subsequently renamed Negative Screening Policy in December 2023. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen, the issuer will not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

● ***...and compared to previous periods?***

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process as follows:

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

PAI indicator	Integration process	Thresholds (when applicable)
PAI 1 – GHG emissions	<p>PAI 1 was considered as part of the Fund’s management of its WACI for its investments in corporate issuers.</p> <p>PAI 1 covers Scopes 1,2, and 3 financed emission while the calculation of the WACI is based on Scope 1, and Scope 2 emissions expressed as revenue intensity of the issuer:</p> <ul style="list-style-type: none"> <li>Scope 1: direct emissions from the investee company’s facilities;</li> <li>Scope 2: indirect emissions linked to the investee company’s energy consumption.</li> </ul> <p>The WACI of the portfolio is assessed on an ongoing basis to help the Fund remain within the target level. This allowed the investment adviser to measure the carbon footprint and carbon intensity of the portfolio compared to the selected Index, and to understand the attribution of the emission results.</p> <p>It is not the intention to automatically exclude higher carbon emitters on an individual basis as the carbon intensity is monitored at the total portfolio level rather than at the individual holding level.</p>	<p>Management of the carbon footprint (WACI) of its investment in corporate issuers that is generally at least 30% lower than the Index.</p>

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

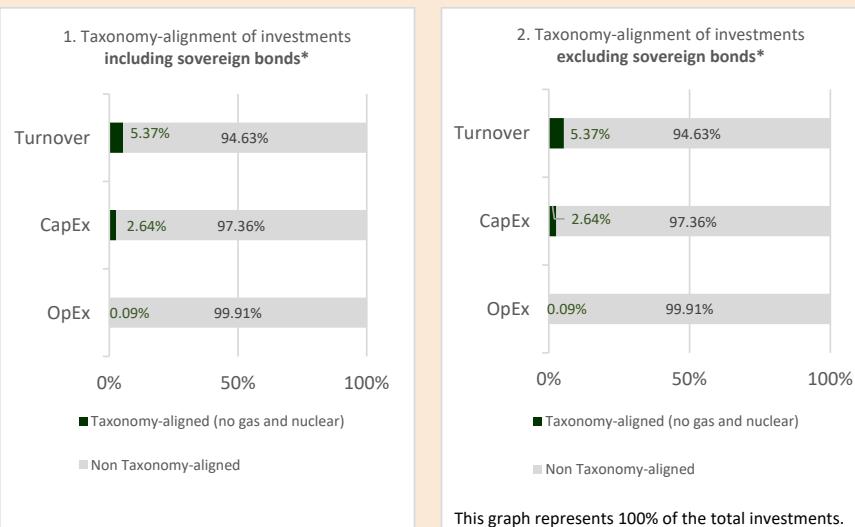

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies.  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make “environmentally sustainable investments” within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>4</sup>?**

- Yes:  
 In fossil gas       In nuclear energy  
 No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● ***What was the share of investments made in transitional and enabling activities?***

The Fund did not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	5.13%	0.00%
CapEx	2.30%	0.00%
OpEx	0.01%	0.00%

Percentages in the above table are calculated excluding cash and/or cash equivalents.

● ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

In the previous reference period, the Fund held a small percentage of investments that were aligned with the EU Taxonomy. Below is a comparison between the results of 2023 and 2022:

Indicator	Type of activities	2023	2022
Turnover	Enabling	5.13%	0.66%
	Transition	0.00%	0.00%
CapEx	Enabling	2.30%	0.43%
	Transition	0.00%	0.00%
OpEx	Enabling	0.01%	0.01%
	Transition	0.00%	0.00%

Percentages in the above table are calculated excluding cash and/or cash equivalents.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

There were no investments held under the category #2 “Other”.

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund’s overall investment objective.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that are applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen, and the investment no longer tributes towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

● ● Yes

- It made **sustainable investments with an environmental objective:** \_\_\_%

  - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made **sustainable investments with a social objective:** \_\_\_%

● ● ✗ No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments
  - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
  - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social (E/S) characteristics:

- At time of purchase exclusions on sovereign and corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNGC).

The companies in which investments were made followed good governance practices.

The Fund adopted Article 8 status as per Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), as amended, on 15 December 2023. From this date, the Fund applies a Negative Screening Policy as described above. Since adoption, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics.

● ***How did the sustainability indicators perform?***

The following sustainability indicator has been used in order to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Result
Percentage of corporate and sovereign issuers that complied with the exclusion list [ <i>at the time of purchase</i> ] <sup>1</sup> .	100%

Since adoption of Article 8 status, the Fund has applied Negative Screening Policy. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen or falls below a pre-defined threshold, the issuer will normally not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

**How did this financial product consider principal adverse impacts on sustainability factors?**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process of investments in corporate issuers as described in the table below. As at 31 December 2023, corporate issuers representing 32% of the portfolio were considered.

PAI indicator	Integration process	Threshold (when applicable)
<b>PAI 4 – Exposure to companies active in the fossil fuel sector</b>		Exclusion of companies that generate over 10% of their revenue from oil sands extraction and/or Arctic oil production and/or from the production and/or distribution of thermal coal as identified through the relevant MSCI Maximum Percentage of Revenue factor name.
<b>PAI 10 – Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</b>		Exclusion of companies that, in the investment adviser's opinion, are violating the United Nations Global Compact (UNG) principles.
<b>PAI 14 – Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)</b>	<p>These PAIs were considered when the investment adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. #### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make “environmentally sustainable investments” within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?

- Yes:  
 In fossil gas       In nuclear energy  
 No

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue from green activities of investee companies.  
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

● What was the share of investments made in transitional and enabling activities?

The Fund did not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	0.26%	0.00%
CapEx	0.49%	0.00%
OpEx	0.51%	0.00%

Percentages in the above table are calculated excluding cash and/or cash equivalents.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

There were no investments held under the category #2 "Other".

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen or fell below a pre-defined threshold, and the investment is considered to no longer tribute towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the Bloomberg Global Aggregate Corporate Total Return Index hedged to USD ('Index') and
- At time of purchase exclusions on sovereign and corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNG) through the application of the Negative Screening Policy.

The companies in which investments were made followed good governance practices.

The Fund adopted Article 8 status as per Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), as amended, on 15 December 2023. From this date, the Fund applies both the carbon constraint (WACI) and a Negative Screening Policy as described above. Since adoption, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics.

● ***How did the sustainability indicators perform?***

The following sustainability indicators have been used to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
WACI of the corporate issuers compared to the Bloomberg Barclays Global Aggregate Corporate Total Return Hedged to USD Index <sup>1,2</sup>	30.5% below the Index
Percentage of the Fund's investment that complied with the exclusion list <i>[at the time of purchase]</i> <sup>3</sup>	100%

Since adoption of Article 8 status, the Fund has applied and maintained a carbon constraint (WACI) of at least 30% below the Index and applied Negative Screening Policy. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen or falls below a pre-defined threshold, the issuer will normally not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

**How did this financial product consider principal adverse impacts on sustainability factors?**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process as follows:

PAI indicator	Integration process	Thresholds (when applicable)
<b>PAI 1 – GHG emissions</b>	<p>PAI 1 was considered as part of the Fund's management of its WACI for its investments in corporate issuers.</p> <p>PAI 1 covers Scopes 1,2, and 3 financed emission while the calculation of the WACI is based on Scope 1, and Scope 2 emissions expressed as revenue intensity of the issuer:</p> <ul style="list-style-type: none"> <li>• Scope 1: direct emissions from the investee company's facilities,</li> <li>• Scope 2: indirect emissions linked to the investee company's energy consumption.</li> </ul> <p>The WACI of the portfolio has been assessed on an ongoing basis to help the Fund remain within the target level. This allowed the investment adviser to measure the carbon footprint and carbon intensity of the portfolio compared to the selected Index, and to understand the attribution of the emission results.</p> <p>It was not the intention to automatically exclude higher carbon emitters on an individual basis as the carbon intensity is monitored at the total portfolio level rather than at the individual holding level.</p>	Management of the carbon footprint (WACI) of its investment in corporate issuers that is generally at least 30% lower than the Index.
<b>PAI 4 – Exposure to companies active in the fossil fuel sector</b>		Exclusion of companies that generate over 10% of their revenue from oil sands extraction and /or Arctic oil production and /or from the production and/or distribution of thermal coal as identified through the relevant MSCI Maximum Percentage of Revenue factor name.
<b>PAI 10 – Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</b>		Exclusion of companies that, in the investment adviser's opinion, are violating the United Nations Global Compact (UNGCR) principles.
<b>PAI 14 – Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)</b>	<p>These PAIs were considered when the investment adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that are inconsistent with the ESG and norms-based screens.</p>	<ul style="list-style-type: none"> <li>- Exclusion of companies that have any ties to controversial weapons: cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments. **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make "environmentally sustainable investments" within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>4</sup>?***

- Yes:  
 In fossil gas       In nuclear energy  
 No

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that is applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen or fell below a pre-defined threshold, and the investment is considered to no longer tribute towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the 50% Bloomberg US Corp HY 2% Issuer Capped Total Return, 20% JPM EMBI Global Total Return, 20% JPM GBI-EM Global Diversified Total Return, 10% JPM CEMBI Broad Diversified Total Return Index ('Index'), and
- At time of purchase exclusions on sovereign and corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNG).

The companies in which investments were made followed good governance practices.

Throughout the reference period, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics as described above.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Capital Group Global High Income Opportunities (LUX) (the "Fund") **Legal entity identifier:** 5493003T9JGEHH5RHV09

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

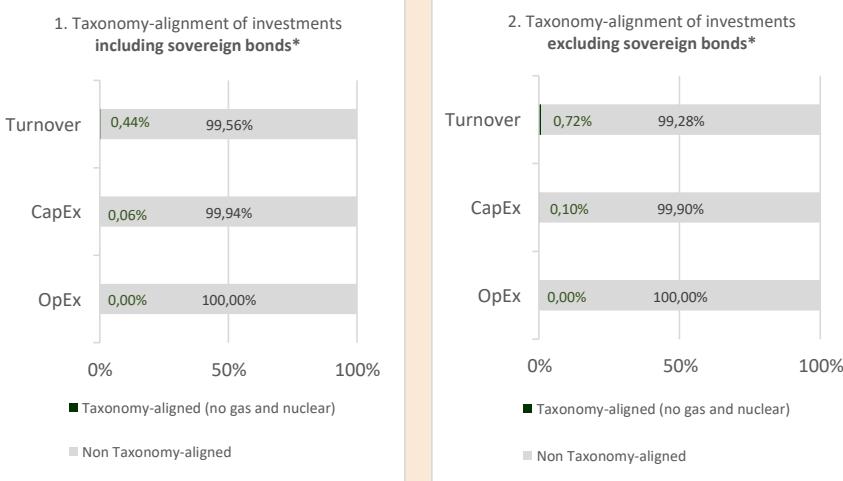

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make "environmentally sustainable investments" within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>4</sup>?**

- Yes:  
 In fossil gas       In nuclear energy  
 No

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue from green activities of investee companies.  
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● ***What was the share of investments made in transitional and enabling activities?***

The Fund did not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	0.05%	0.00%
CapEx	0.00%	0.00%
OpEx	0.00%	0.00%

Percentages in the above table are calculated excluding cash and/or cash equivalents.

● ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

In the previous reference period, the Fund held a small percentage of investments that were aligned with the EU Taxonomy. Below is a comparison between the results of 2023 and 2022:

Indicator	Type of activities	2023	2022
Turnover	Enabling	0.05%	0.05%
	Transition	0.00%	0.00%
CapEx	Enabling	0.00%	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

There were no investments held under the category #2 "Other".

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that are applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen or fell below a pre-defined threshold, and the investment is considered to no longer tribute towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

**How did this financial product perform compared to the reference benchmark?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

● ●  Yes

- It made **sustainable investments with an environmental objective:** \_\_\_%  
 in economic activities that qualify as environmentally sustainable under the EU Taxonomy  
 in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** \_\_\_%

● ●  No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments  
 with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  
 with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  
 with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the 45% Bloomberg US Corporate High Yield 2% Issuer Capped Index, 30% Bloomberg US Corporate Index, 15% JPMorgan EMBI Global Diversified Index, 8% Bloomberg Non-Agency CMBS Ex AAA Index, 2% Bloomberg ABS Ex AAA Index ('Index'), and
- At time of purchase exclusions on sovereign and corporate issuers with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNG).

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name: Capital Group Multi-Sector Income Fund (LUX) (the "Fund") Legal entity identifier: 549300I8XY2G5K70DX81**

The companies in which investments were made followed good governance practices.

Throughout the reference period, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics as described above.

● ***How did the sustainability indicators perform?***

The following sustainability indicators have been used to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
WACI of the corporate issuers compared to the Index <sup>1, 2</sup>	38.2% below the Index
Percentage of the Fund's investment as at 31 December 2023 that complied with the exclusion list [at the time of purchase] <sup>3</sup>	98.68%

Throughout the reference period the Fund has applied and maintained a carbon constraint (WACI) of at least 30% below the Index and applied the Exclusion Policy, which was subsequently renamed Negative Screening Policy in December 2023. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen or falls below a pre-defined threshold, the issuer will normally not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

● ***...and compared to previous periods?***

Last year, the Fund achieved the following performance as per the sustainability indicators defined:

Sustainability indicator	2023	Comparison with 2022
WACI of the corporate issuers compared to the Index	WACI of the corporate issuers was 38.2% below the Index as at 31 December 2023	WACI of the corporate issuers was 46.1% below Index as at 31 December 2022
	On average the WACI of the corporate issuers was 40.8% below the Index during the reference period	On average the WACI of the corporate issuers was 45.4% below the Index during the reference period
Percentage of the Fund's investment as at 31 December 2023 that comply with the exclusion list [at the time of purchase] <sup>3</sup>	98.68%	100%

<sup>1</sup> As at 31 December 2023

**Product name:** Capital Group Multi-Sector Income Fund (LUX) (the "Fund") Legal entity identifier: 549300I8XY2G5K70DX81

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process of investments in corporate issuers as described in the table below. As at 31 December 2023, corporate issuers representing 86% of the portfolio were considered.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

PAI indicator	Integration process	Thresholds (when applicable)
PAI 1 – GHG emissions	<p>PAI 1 was integrated as part of the Fund's management of its WACI for its investments in corporate issuers. The calculation of the WACI is based on Scope 1, and Scope 2 emissions:</p> <ul style="list-style-type: none"> <li>• Scope 1: direct emissions from the investee company's facilities;</li> <li>• Scope 2: indirect emissions linked to the investee company's energy consumption.</li> </ul> <p>The WACI of the portfolio has been assessed on an ongoing basis to help the Fund remain within the target level. This allowed the investment adviser to measure the carbon footprint and carbon intensity of the portfolio compared to the selected Index, and to understand the attribution of the emission results.</p> <p>It was not the intention to automatically exclude higher carbon emitters on an individual basis as the carbon intensity is monitored at the total portfolio level rather than at the individual holding level.</p>	<p>Management of the carbon footprint (WACI) of its investment in corporate issuers that is generally at least 30% lower than the Index.</p>

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

The investments under the category #2 "Other" included:

- transferable securities not aligned with the E/S characteristics promoted and held to attain the investment objective of the Fund, including derivatives and certain securitised debt. These investments did not follow any minimum environmental or social safeguards.
- previously eligible issuer held in a Fund that subsequently failed an appropriate screen or fell below a pre-defined threshold will normally no longer contribute towards the E/S characteristics of the Fund. These investments will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name: Capital Group Multi-Sector Income Fund (LUX) (the "Fund") Legal entity identifier: 549300I8XY2G5K70DX81**

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that are applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen or fell below a pre-defined threshold, and the investment is considered to no longer tribute towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

**How did this financial product perform compared to the reference benchmark?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

Yes

It made **sustainable investments with an environmental objective**: \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The Fund promoted the following environmental and/or social (E/S) characteristics:

- At time of purchase exclusions on sovereign and corporate issuers with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the United Nations Global Compact (UNGCR) principles.

The companies in which investments were made followed good governance practices.

The Fund adopted Article 8 status as per Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), as amended, on 15 December 2023. From this date, the Fund applied a Negative Screening Policy as described above. Since adoption, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics.

● ***How did the sustainability indicators perform?***

The following sustainability indicators have been used in order to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
Percentage of corporate and sovereign issuers that comply with the exclusion list <sup>1</sup> .	100%

Since adoption of Article 8 status, the Fund has applied the Negative Screening Policy. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen or falls below a pre-defined threshold, the issuer will normally not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process of investments in corporate issuers as described in the table below. As at 31 December 2023, corporate issuers represented 3.9% of the portfolio were considered.

PAI indicator	Integration process	Threshold (when applicable)
<b>PAI 4 – Exposure to companies active in the fossil fuel sector</b>		Exclusion of companies that generate over 10% of their revenue from oil sands extraction and/or Arctic oil production and/or from the production and/or distribution of thermal coal as identified through the relevant MSCI Maximum Percentage of Revenue factor name.
<b>PAI 10 – Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</b>		Exclusion of companies that, in the investment adviser's opinion, are violating the United Nations Global Compact (UNG) principles.
<b>PAI 14 – Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)</b>	<p>These PAIs were considered when the investment adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that are inconsistent with the ESG and norms-based screens.</p>	<ul style="list-style-type: none"> <li>- Exclusion of companies that have any ties to controversial weapons: cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments. Companies are identified through the MSCI's Controversial Weapons– Any Tie factor name.</li> <li>- Exclusion of companies that generate any revenue from the production of nuclear weapons. Companies are identified through the MSCI's Weapons – Nuclear Maximum Percentage of Revenue factor name.</li> <li>- Exclusion of companies that generate over 10% of their revenue from weapons systems, components and support systems and service. Companies are identified through the MSCI's Weapons– Maximum Percentage of Revenue factor name.</li> </ul>

The above breakdown of the Fund's top investments is based on the portfolio as at 31 December 2023.

**What was the proportion of sustainability-related investments?**

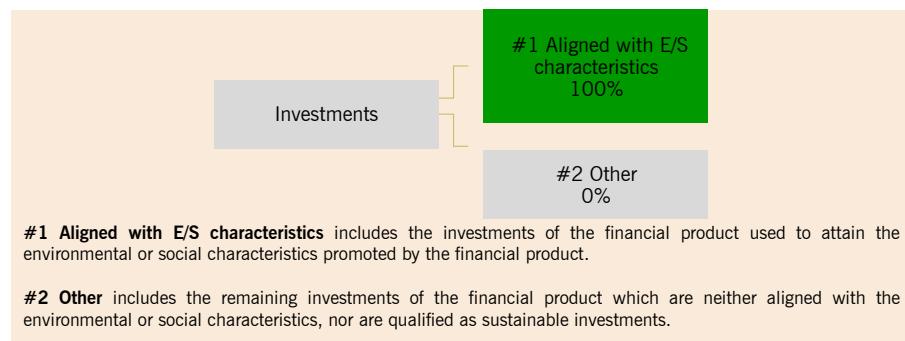

Please find, information regarding the proportion of sustainability-related investments in the following sub-sections.

**Asset allocation** describes the share of investments in specific assets.

**What was the asset allocation?**

As at the 31 December 2023 the Fund invested 100% of its assets into issuers that attained the promoted E/S characteristics (#1) and 0% of the Fund's investments did not align with the E/S characteristics promoted by the Fund (#2).

Cash and/or cash equivalents were excluded from the asset allocation and were not considered to be used to attain the environmental or social characteristics promoted by the Fund.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make “environmentally sustainable investments” within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?**

Yes:

In fossil gas       In nuclear energy

No

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Taxonomy-aligned activities are expressed as a share of:

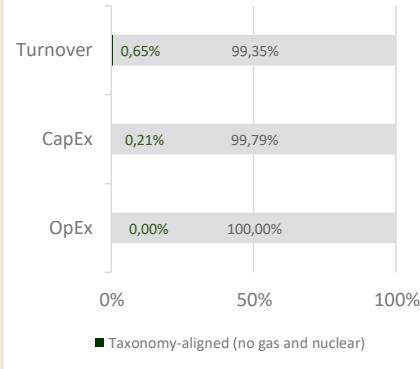

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**1. Taxonomy-alignment of investments including sovereign bonds\***

**2. Taxonomy-alignment of investments excluding sovereign bonds\***

This graph represents 100% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	0.00%	0.00%
CapEx	0.00%	0.00%
OpEx	0.00%	0.00%

Percentages in the above table are calculated excluding cash and/or cash equivalents.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

There were no investments held under the category #2 "Other".

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group's independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen or fell below a pre-defined threshold, and the investment is considered to no longer tribute towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also regularly engages in dialogue with companies on corporate governance issues.
