

KEY INVESTOR INFORMATION DOCUMENT

This document provides you with key investor information about this UCITS. It is not marketing material. The information within this document is required by law to help you understand the characteristics and the risks of this UCITS. You are advised to read it so you can make an informed decision on whether or not to invest.

CM-CIC EUROPE GROWTH
ISIN Code Share Class R: FR0010699710
Sub-fund of the 'CM-CIC SICAV' SICAV
CREDIT MUTUEL ASSET MANAGEMENT,
Crédit Mutuel Alliance Fédérale

OBJECTIVES AND INVESTMENT POLICY:

This UCITS, which is a SICAV fund, has as its management objective to add value to the portfolio through selective management of growth stocks, over the recommended investment period.

It has no benchmark index.

In order to achieve its investment objective, the UCITS adopts a selective management style of securities, either through direct investment in securities and/or through units or shares of UCIs, determined using a fundamental approach focusing on securities of companies whose stock market valuation is driven by their growth.

The fund complies with the following ranges of net exposure by asset class:

From 0% to 110% invested in equity markets of all geographic areas excluding emerging markets, of all market capitalisations, and from all sectors, of which:

- from 0% to 25% in equities from countries outside the European Union.
- from 0% to 25% in small-cap equity markets

From 0% to 25% invested in sovereign fixed income instruments and securities issued by the public or private sector, in all geographical areas excluding emerging markets, in all rating categories or unrated, as assessed by the portfolio management company or by the rating agencies, of which:

- from 0% to 5% in speculative or unrated fixed income instruments.

From 0% to 10% invested in convertible bond markets

From 0% to 100% in currency risk on non-euro currencies.

Securities that are eligible for the French personal equity savings plan (PEA) represent at least 75% of the assets at all times.

It may also expose the fund to:

- financial futures contracts or options and securities with embedded derivatives, used for hedging of and/or exposure to equity risk, interest rate risk, credit risk and currency risk, which can lead to an overexposure of the portfolio.
- temporary purchases and sales of securities.

Allocation of distributable amounts: Total accumulation

Recommended investment period: over 5 years

This UCITS may not be appropriate for investors who plan to withdraw their money within this period

Subscription and redemption conditions:

Subscription and redemption orders are centralised each business day at 12:00 pm (CET) and executed on the basis of the net asset value calculated on that day.

The net asset value is calculated each business day on the basis of the closing prices, with the exception of days when the Paris stock exchange is closed (as per the Euronext SA calendar).

RISK AND REWARD PROFILE:

At lower risk,

Potentially lower reward

At higher risk,

Potentially higher reward

MEANING OF THIS INDICATOR:

This indicator measures the level of volatility of the UCITS and the risk to which your capital is exposed.

The historical data used to calculate this synthetic indicator cannot be considered a reliable indication of the future risk profile of the UCITS.

The risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the UCITS may shift over time.

Please note that the potential to make a higher gain is also associated with a high risk of loss. The '6' risk category does not guarantee your capital; the '1' category means your capital is exposed to low risk, but the opportunities for gains are limited. It does not mean a risk-free investment.

This UCITS is classified in category 6 because of its exposure to fixed income and equity markets, which can experience significant fluctuations. Indeed, the net asset value can undergo variations due to the maturity of the securities, the sensitivity of the portfolio and the volatility of the equity market.

MATERIAL RISKS NOT TAKEN INTO ACCOUNT IN THE INDICATOR:

Credit risk: In the event of a deterioration in the quality of issuers or if the issuer is unable to meet its commitments at maturity, the value of such securities may fall, thereby causing the net asset value to fall.

Counterparty risk: Counterparty risk arises from all OTC operations entered into with the same counterparty. Counterparty risk measures the risk of loss in the event of a counterparty defaulting on its contractual obligations before the definitive settlement of the transaction via a final financial flow. In this case, the net asset value may fall.

Risk linked to the impact of techniques such as the use of derivatives: The use of derivatives may lead to a decrease over short periods and generate significant fluctuations of the net asset value in the event of exposure contrary to market developments.

CHARGES

The charges paid are used to cover the costs of running the UCITS, including the costs of marketing and distributing shares. They reduce the potential growth of the investment

CHARGES TAKEN BEFORE OR AFTER YOU INVEST

ENTRY CHARGE	2.00%
EXIT CHARGE	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases, the investor might pay less. Investors may obtain the actual entry and exit charges from their adviser or distributor.

CHARGES TAKEN FROM THE UCITS OVER A YEAR

ONGOING CHARGES	2.25%
CHARGES TAKEN FROM THE UCITS UNDER CERTAIN SPECIFIC CONDITIONS	None

PERFORMANCE FEE	None
-----------------	------

The attention of the investor is drawn to the fact that the 'ongoing charges' figure is based on the expenses for the financial year ending 31/12/2019.

These charges may vary from year to year.

For more information on charges, please refer to the 'Charges' section of the prospectus for this UCITS, available at www.creditmutuel-am.eu.

The ongoing charges do not include the UCITS performance fees, the potential performance fees for the funds held and intermediary fees except in the case of entry or exit charges paid by the UCITS when buying or selling units or shares of other collective investment vehicles.

PAST PERFORMANCE

DISCLAIMER: Past performance is not a guide to future performance. This is not constant over time.

The performance is calculated with coupons and dividends reinvested and net of direct and indirect management fees and excluding entry and exit charges.

- UCITS INCEPTION DATE: 05/04/1996

- SHARE CLASS CREATION DATE: 10/12/2008

- BASE CURRENCY: Euro

- SIGNIFICANT CHANGES DURING THE PERIOD: On 20/07/2020, the CM-CIC EUROPE GROWTH mutual fund was absorbed by the CM-CIC SICAV sub-fund, also referred to as CM-CIC EUROPE GROWTH. This is a simple change in legal status, since the sub-fund of a SICAV of the same name, created on that same date, retains the characteristics of the mutual fund, its ISIN code and its performance.
