What is this product?

Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

Objectives

Investment objective The investment objective of the Sub-Fund is to achieve long term capital appreciation by investing on a long and/or short basis in U.S. equities (i.e. shares of companies) and equity related securities (e.g. securities which have the potential to convert into a share of a company) primarily of small-capitalisation and mid-capitalisation companies (market capitalisation of US\$250 million to US\$10 billion). The Sub-Fund may also invest in common shares, preference shares and convertible bonds, and to some extent, in companies in Canada and the developed markets of Western Europe. Cooper Creek Partners Management LLC acts as the Investment Manager of the Sub-Fund.

Investment policies The Sub-Fund will mainly focus on companies which are out of favour or under the radar of financial analysts, so that the market has not yet recognised their inherent value or business potential, and where the Investment Manager believes there is the potential for transformational change and an increase or decrease in value from which the Sub-Fund can benefit.

The Sub-Fund's investment will be made indirectly in its target markets using a series of swaps with Morgan Stanley & Co. International plc or one of its affiliates ("Morgan Stanley"), although it may also from time to time make direct investments in equity and equity related securities where it is more efficient or cost effective to do so. Morgan Stanley will acquire a portfolio of investments meeting the criteria above (the "Reference Portfolio") under the direction of the Investment Manager of the Sub-Fund and will pay the return on these investments to the Sub-Fund. This return will form the basis for the performance of the Sub-Fund and the return to its investors.

In exchange for paying the return on the Reference Portfolio to the Sub-Fund, the Sub-Fund will use the capital subscribed to it to acquire a portfolio of assets consisting of shares and convertible bonds, the return on which the Sub-Fund will pay to Morgan Stanley.

The Reference Portfolio will include both long and short positions (i.e. contracting to sell an asset it does not own in expectation of buying the asset later at a lower price and profiting from the fall in value) and may include derivatives such as options or swaps. A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset or security.

Under normal market conditions, it is expected that long and short positions held directly or indirectly through the Reference Portfolio may each represent up to 100% of the net asset value of the Sub-Fund at any one time.

Benchmark The Sub-Fund is actively managed meaning that the investments are made on a fully discretionary basis. The Sub-Fund may measure its performance relative to the S&P 500, Russell 2000 indices for reference or investor communication purposes. The Sub-Fund does not operate any form of target to outperform benchmark indices.

Redemption and Dealing You can sell your shares any day that banks are open in Ireland and the United States. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day on which you want to sell.

Distribution Policy Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Launch date The Sub-Fund came into existence in 2018. This Share class was launched on 15/08/2019.

Fund Currency As your shares are denominated in EUR and the Sub-Fund is valued in USD, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

Conversion of units/shares You may switch your shares to the shares of another sub-fund of MontLake UCITS Platform ICAV free of charge.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Sub-Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the ICAV as set forth in the ICAV prospectus, the Sub-Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

Practical information

Depository The Sub-Fund's assets are held with its depository, Northern Trust Fiduciary Services (Ireland) Limited.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 28 February 2023 and 28 March 2024.

Moderate: this type of scenario occurred for an investment between 31 December 2015 and 31 December 2020.

Favourable: this type of scenario occurred for an investment between 29 December 2018 and 29 December 2023.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Sub-Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Sub-Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

■ 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	351 EUR	2,804 EUR
Annual cost impact*	3.5%	3.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.6% before costs and 7.8% after costs.
