## What is this product?

**Type:** Shares of a Sub-Fund of CPR Invest, a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The investment objective is to outperform global equity markets over a long-term period (minimum of five years) by investing in shares of companies which either establish or benefit - fully or partly - from disruptive business models.

The best-in-class approach does not exclude any sector of activity in principle. All economic sectors are therefore represented in this approach and the Compartment may therefore be exposed to some controversial sectors.

To achieve this, the Compartment is invested for at least 75% of its assets in equity and equity equivalent securities of any country, without constraints of capitalization. Among this proportion of 75% of its assets, the Compartment may invest in China A shares via Stock Connect within a maximum of 25% of its assets.

The Compartment's equity exposure will be between 75% and 120% of its assets.

Derivative instruments may be used by the Compartment for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

The Compartment is actively managed. The Compartment may use a Benchmark a posteriori as an indicator for assessing the Compartment's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no

constraints relative to any such Benchmark restraining portfolio construction.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

**Distribution Policy:** As this is a non-distributing share class, investment income is reinvested.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: CPR Asset Management at 91-93, boulevard Pasteur – CS 61595 – 75730 Paris Cedex 15.

The Net Asset Value of the Sub-Fund is available on [www.cpr-am.com](http://www.cpr-am.com).

**Depositary:** CACEIS Bank, Luxembourg Branch.

**Representative in Switzerland:** CACEIS (Switzerland) SA, 35 Route de Signy, Case postale 2259, CH-1260 Nyon .

**Paying agent in Switzerland:** CACEIS Bank, Montrouge, succursale de Nyon/Suisse, 35 Route de Signy, CH-1260 Nyon, Suisse.

In Switzerland, the prospectus, the Key Information Document, the articles of association as well as the annual and semi-annual reports of this UCITS can be obtained in French, free of charge, from the representative in Switzerland.

## What are the risks and what could I get in return?

### RISK INDICATOR

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for greater than 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

Recommended holding period : greater than 5 years Investment CHF 10,000			
Scenarios		If you exit after	
		1 year	greater than 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	CHF1,450	CHF1,390
	Average return each year	-85.5%	-32.6%
Unfavourable Scenario	What you might get back after costs	CHF5,940	CHF6,470
	Average return each year	-40.6%	-8.3%
Moderate Scenario	What you might get back after costs	CHF10,510	CHF15,370

Favourable Scenario	What you might get back after costs	CHF15,330	CHF21,350
	Average return each year	53.3%	16.4%

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This type of scenario occurred for an investment using a suitable proxy.

Favourable scenario: this type of scenario occurred for an investment between 31/10/2016 and 29/10/2021.

Moderate scenario: this type of scenario occurred for an investment between 30/06/2015 and 30/06/2020

Unfavourable scenario: this type of scenario occurred for an investment between 29/10/2021 and 21/06/2023 .

## What happens if CPR Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10,000 is invested.

**COSTS OVER TIME**
