What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of CROSSFUND SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The aim of this Sub-Fund is to achieve capital gains through an exposure to a global portfolio of any type of debt securities (including ABS, MBS, money market instruments) and in any type of equities in global markets. It adopts an active management style which enables the portfolio to be adapted flexibly to market expectations, whilst maintaining the risk of losses at the lowest level possible.

The Sub-Fund will mainly invest

- directly in the securities/asset classes mentioned above, and/or
- indirectly through undertakings for collective investment (UCIs, within a limit of 50% of the Sub-Fund's net assets) and transferable securities (such as structured products) offering an exposure to the securities/asset classes mentioned above.

The choice of investments will neither be limited by a specific asset type, geographical area (including emerging markets) nor economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single asset type, country (or some countries) and/or in a single currency and/or in a single economic sector.

If the investment manager considers this to be in the best interest of the shareholders, the Sub-Fund may also hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs (within the 50% limit above-mentioned) and money market instruments.

Derivatives For hedging and for any other purposes, the Sub-Fund may use any type of financial derivative instruments. However, it will be principally futures, options, contracts for difference and swaps (including total return swaps).

Benchmark The Sub-Fund is actively managed. The index Euro 3-month Libor is only used for the calculation of the performance fee (payable to the investment manager). The Sub-Fund does not intend to use the index for performance comparison nor to track it. The Sub-Fund can deviate significantly or entirely from the index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

Depository Pictet & Cie (Europe) S.A. (the "Depository").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The Net Asset Value for the Class is calculated on each bank business day in Luxembourg based on the pricing of the preceding business day (the "Valuation Day"). The cut-off time to submit subscriptions and/or redemption orders is 3 p.m. at the latest on the Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class, type or sub-type are fulfilled with respect to this Sub-Fund, on the basis of their respective Net Asset Value calculated on the valuation day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds, which is available at www.fundsquare.net.

Additional Information More detailed information on this Sub-Fund, such as the prospectus, other classes, the key information, the latest Net Asset Value, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the central administrator, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment	3 years EUR 10,000		
	If you exit after 1 year	If you exit after 3 years	

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 6,380	EUR 4,250	
	Average return each year	-36.2%	-24.8%	
Unfavourable scenario	What you might get back after costs	EUR 7,670	EUR 7,670	This type of scenario occurred for an investment in the product between December 2021 and December 2022.
	Average return each year	-23.3%	-8.5%	
Moderate scenario	What you might get back after costs	EUR 9,760	EUR 10,150	This type of scenario occurred for an investment in the product between July 2013 and July 2016.
	Average return each year	-2.4%	0.5%	
Favourable scenario	What you might get back after costs	EUR 11,870	EUR 12,250	This type of scenario occurred for an investment in the product between December 2018 and December 2021.
	Average return each year	18.7%	7.0%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 987	EUR 1,900
Annual cost impact (*)	9.9%	5.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.4% before costs and 0.5% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 3.00%.	Up to EUR 300

Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.42% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 242
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 21
Incidental costs taken under specific conditions		
Performance fees	Paid annually to the investment manager, accrued on each valuation date and equals to 20.00% of the performance of the Net Asset Value per share over the performance of the Euro 3-month Libor. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 115

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 3 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The Net Asset Value for the Class is calculated on each bank business day in Luxembourg based on the pricing of the preceding business day (the "Valuation Day"). The cut-off time to submit subscriptions and/or redemption orders is 3 p.m. at the latest on the Valuation Day.

How can I complain?
